EXHIBIT A
SPECIFICATIONS FOR LIGHT TOWING

Contract Overview

1. The City of Canton shall utilize Private Towing Agencies for the removal and impounding of motor vehicles pursuant to the Canton City Code and/or Ohio Revised Code and the agency hereby shall provide towing services to the City of Canton for the foregoing purposes, in accordance with these specifications.
2. The City shall utilize Agency for the towing requirements set forth in Paragraph 1 upon an equal rotating and non-preferential basis with all other Agencies which qualify under the criteria established in these specifications and as may be set forth by the Director of Public Safety. Agencies which qualify for light towing (cars, vans, motorcycles and trucks - 3/4 ton or less) and/or heavy duty towing (trucks one ton or more) shall be maintained on separate lists by the City of Canton for light or heavy duty towing services, as the situation may require, upon a rotating basis, by an authorized employee of the City of Canton's Police Department and/or Communications Center (CanCom).

A light duty vehicle shall be defined as any vehicle with a Gross Vehicle Weight Rating (GVWR) of 10,000 and less.

Please be advised that the agency called is the only company permitted to perform the work and receive payment for same. Therefore, for example, if Black Acre Towing is called for an impound and Black Acre sends someone else, for whatever reason, both Black Acre and the company that responded will lose their next-up turn in the rotation and will receive a contract violation.

Only heavy duty tow agencies are permitted to subcontract out heavy duty towing services as needed. The subcontractor will invoice the awarded heavy duty tow agency for the services that they provided. The heavy duty tow agency will then invoice those services to the City of Canton. The City will only pay invoices to the awarded tow agency and will not accept invoices from the subcontractor. If a subcontractor is used, the prices invoiced to the City must still reflect those listed in the Schedule of Rates per Exhibit B.

3. The Agency shall expeditiously respond with adequate equipment to any call for towing services received from an authorized employee of the City of Canton's Police Department and/or Communications Center and tow the motor vehicle to the City of Canton's Service Center located at 2436 - 30th Street N.E., for impoundment and storage or to such other location as may be directed by the Police Department and/or Communications Center. A map of the City of Canton's impound lot is included as Exhibit E. Tows which do not require impounding of the motor vehicle will be towed by the Agency to their location unless a different location is requested by the driver and/or owner of the motor vehicle. All charges due companies must be paid before the vehicle is released. An Agency responding to a call shall have thirty (30) minutes to respond to a call. In the event that an Agency

fails to respond within the thirty (30) minute time requirement, the City of Canton shall have the right to call the next agency in the call rotation. The Agency which failed to respond within the thirty (30) minute time requirement shall not be entitled to compensation. The City will use its best efforts to dispatch Agencies on an equitable rotational system. In the event of a call from the City's Police Department and/or Communications Center to the Agency and the Agency is unavailable, refuses or is otherwise unable to immediately perform the requested towing service, the next towing company will be called and the Agency that was unable to respond will be called by the Traffic Bureau. As a result, the Agency may lose their spot in the towing rotation. Continual or repeated unavailability, refusal or inability by an Agency to respond to a towing request may result in suspension or termination of the contract to tow for the City of Canton. The failure of the City, whether intentional or unintentional, to dispatch Agencies in accordance with the rotation system shall not provide a basis for a claim against the City. There may be times that an agency is unable to respond due to manpower, equipment issues or are delayed due to exigent circumstances. These items will not count as a contract violation as long as the agency immediately lets CanCom know that they are unavailable for the tow. There will be a 15 minute grace period for unforeseen circumstances before this issue will result in a contract violation.

4. If an owner/driver requests the City of Canton's assistance with finding a tow, the City of Canton will call for Next Up owner's request. CanCom will then call the next towing company on rotation and document it as an owner's request.

Payment will be billed and obtained from the private owner of the vehicle at the City of Canton's negotiated rate for the tow and the City of Canton's storage rate. The Agency agrees that the City of Canton shall have no liability for payment for these services.

If the vehicle is towed to the Agency's storage facility, the private owner of the vehicle will be responsible for paying the storage fee for that company.

5. For the purposes of this contract, the Agency shall not respond within the City of Canton for the purpose of towing vehicles unless called by an authorized employee from the Canton Police Department and/or Communications Center. The driver/owner of the motor vehicle may, if with the vehicle when the Police arrive, request any towing company to tow their vehicle if it is not being impounded.
6. The Director of Public Safety shall establish a Schedule of Rates which shall serve as the maximum rates allowed to be charged by the Agency for services covered by these specifications. This Schedule of Rates shall be subject to periodic review and revision by the Director of Public Safety in her sole discretion. This schedule of rates is attached as Exhibit B.
7. The City of Canton shall pay to the Agency on a monthly basis, upon the receipt from the Agency an invoice or invoices and in such form as shall be directed by the Director of Public Safety or her designee, for all towing services provided by the Agency in towing motor vehicles which have been impounded by the City of Canton. The City of Canton

shall additionally pay to the Agency a “dead run” fee per the Schedule of Rates for all motor vehicles on which the Agency is dispatched if the vehicle has been released by the Police Department upon the arrival of the Agency at the towing location. **The City of Canton shall not pay ANY fees not listed in the “Schedule of Rates.” (Example: City’s financial status, late fees and/or interest.)**

8. Three (3) contract violations within three (3) months will result in an automatic one (1) month suspension from the tow rotation. Nine (9) contract violations in twelve (12) months may result in contract termination.

Agency Requirements

1. The Agency shall meet and maintain the following conditions and requirements:

The records shall include the total cost of each tow with a breakdown of the costs.

The Director of Public Safety or her designee reserves the right to inspect these records at any reasonable hour.

This is to include vehicles that are towed to the Police Department basement or the Department of Motor Vehicles garage area. Tow invoices and slips held by the agency for an unreasonable amount of time will not be honored. Three days is the "per-se" standard and any other time is to be defined by the Safety Director and/or his/her designee.
