Bids submitted will be evaluated to determine which bidder(s) offer the best value to APS in accordance with quality, product availability, and accessibility. Every cell in each column of the items that you are bidding must be filled in by the Corporate Office of the Processor. **Bid specification Sheets must be typed, in order for accurate entry on bid analysis report. A CD or Thumb Drive of the excel file is required along with a hard copy of the Specification Sheets.**

DO NOT leave any cells blank on the specification sheets. If you are not bidding on that item(s), please mark N/A in that cell. Every cell must be filled in for proper analysis.

If the following information is not submitted, your bid will be considered non-responsive and will be mailed back to you as such.

Additional items may be added to the bid on a separate sheet, with all the required information listed. Refer to specification sheets.

11. **Approved List:** The approved products have been incorporated into the pricing sheets. Brand names as may be noted are for the bidder’s reference as to level of quality of approved products which meet the **Federal/ State Nutrition Rules**. This is not a preference or an endorsement on the part of APS. If you choose to offer another brand, please submit samples. **Samples must be tested and approved prior to bid opening.** Please supply the samples at no cost to APS, throughout the school year or 3-4 months in advance prior to bid opening. Submit samples to the attention of Sandra Kemp, Executive Director (505) 345-5661, ext. 38201 or Juan Saiz, Commodity Purchasing (505) 345-5661, ext. 38207, at Food & Nutrition Services, 800 Louisiana Blvd. NE, Albuquerque, NM 87108, for testing. If product sample(s) is approved, product will then be added to next years approved list unless Food & Nutrition Services can utilize approved sample into the 2018-2019 school year menu.
12. **Equivalent Products:** Equivalent products offered will be evaluated and approved based on a comparison of the proposed equivalent product’s nutritional information and/or child nutrition label information, ingredients list, appearance and taste to that of the specified product listed on

specification sheet. The determination of equivalency shall be based solely on the opinion of the District.

Products that **do not** meet the equivalency of the approved brand specified on specification sheet will be awarded to the next low approved bidder.

13. Quantities: The estimated quantities as shown are a **projected/proportional** annual usage based on historical data. This is not a commitment to purchase. The information is included to provide a potential bidder with some idea of possible contract activity. Contact Juan Saiz, (505) 345-5661, ext. 38207 for an approximate amount/usage before placing your orders.

14. Pallet Requirements: Any shipments received shall be palletized if the quantity of cartons in the shipment is more than twenty (20) and/or if the total shipment weight exceeds 200 pounds.

Palletized product must be tied and shrink wrapped to avoid shifting in transit and during unloading. Air Dunnage Bags must be in place of gaps between pallets to avoid shifting and falling over during transportation. Palletized product must not exceed five (5) feet in height.

All palletized cartons must have externally facing labels identifying carton contents and quantity. It is acceptable to mix product on a single pallet as long as smaller quantities of like items are placed toward the top and the entire pallet is stacked as may be physically and commercially sensible.

Adhering to the pallet requirements will limit your time at the receiving dock and will keep all incoming deliveries on schedule.

Purchase Order will not specify palletizing requirements. Bidder's signature signifies understanding of these requirements. APS reserves the right to reject shipments which are not tied, shrink wrapped, palletized and the use of Air Dunnage Bags.

15. Order Confirmation: Broker/Representative must provide confirmation of order to State Commodities and School District placing orders that are shipped through the State Warehouse no less than two (2) weeks prior to shipment.

16. Delivery: Prompt delivery is of the essence and may be a factor in determining the successful bidder; therefore, delivery time after receipt of order must be stated in definite terms. **BIDDER OWNS GOODS IN TRANSIT.**

Delivery times quoted must be accurate. Failure to meet the quoted times may result in cancellation of contract and an alternative bidder will be assigned at the discretion of APS.

If delivery of poor product problems arise, contractor will be notified and given the opportunity to correct the problems. APS Food & Nutrition Services and/or Procurement will make no more than one phone request. If within 5 days after phone notification, meeting and/or written letter expressing the problems have not been resolved, APS reserves the right to cancel the contract and award to the next low bidder or re-bid. In the event this should occur, APS Procurement and Food & Nutrition Service in conjunction with the contractor will determine a phase out period for ease of transition to a new contractor. At no time will APS be without service.

Ship all orders in a single shipment whenever possible. Partial shipments of less than 25% of the ordered quantity for any line item will **not** be accepted and will be returned to shipper at shipper's expense.

Juan Saiz at Food & Nutrition Services will coordinate the placing of orders with the successful contractor or designee.

Successful contractors must call or email Warehouse Manager, Richard Gonzales, (505) 345-5661 ext. 38236, email Gonzales_ric@aps.edu or Manager of Kitchen Operations, Steven Carleton, (505) 345-5661 ext. 38232 or (505) 307-0815, email carleton@aps.edu three (3) days in advance to make delivery arrangements.

The legislation defines “domestic” commodities or products for use in meals served under the NSLP and SBP. The legislation defines “domestic” commodity or product as one that is produced and/or processed in the United States substantially using domestic agricultural commodities. “Substantially” means that over 51% of the final processed products consist of agricultural commodities that were grown in the United States.

It is essential that all purchases of agricultural commodities and food products comply with this statutory provision on page 21 of this bid.

IMPLEMENTING THE BUY AMERICAN PROVISION

The Buy American provision supports the mission of the Child Nutrition Programs, which is to serve children nutritious meals and support American agriculture. SFAs are reminded that when funds are used from the nonprofit food service account, procurement transactions for food products on the commercial market must comply with the Buy American provision, whether food products are purchased by SFAs or entities that are purchasing on their behalf.

Some examples of entities purchasing on the behalf of SFAs include: food service management companies, group purchasing organizations, or cooperatives of schools purchasing shared goods and services, or through an inter-entity agreement, etc. If SFAs have difficulty ensuring that food products meet this regulation, FNS encourages a specification to be included in solicitations and contracts that only 100% domestically grown and processed products are approved for purchase.

THE BUY AMERICAN PROVISION SUPPORTS LOCAL AND SMALL BUSINESSES

Using food products from local sources supports small local farmers and provides healthy choices for children in the school meal programs. Purchasing from these entities also supports the local economy. Compliance with the Buy American provision may also encourage SFAs to work with local, or small, minority, and women-owned businesses. Federal regulations require SFAs to take all necessary affirmative steps, when possible, to assure that small, minority, and women-owned business enterprises are used (2 CFR Part 200.321). These entities may also be good sources for products of the United States, or its territories. FNS encourages purchasing food products from local and regional sources when expanding farm to school efforts as well.

LIMITED EXCEPTIONS

There are limited exceptions to the Buy American provision which allow for the purchase of products not meeting the “domestic” standard as described above (“non-domestic”) in circumstances when use of the domestic products is truly not practicable. However, before utilizing an exception, alternatives to purchasing non-domestic food product should be considered. For example, SFAs should ask:

- Are there other domestic sources for this product?
- Is there a domestic product that could be easily substituted, if the non –domestic product is less expensive (e.g. substitute domestic pears for non-domestic apples)?
- Am I soliciting bids for this product at the best time of year? If I contracted earlier or later in the season, would prices and /or availability change?

Again, although exceptions to the Buy American provision exist, they are to be used as a last resort. These exceptions, as originally outlined in the 2012 guidance, are:

- The product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality; or
- Competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product.

If a SFA is using one of the above exceptions, there is no requirement to request a waiver in order to purchase a non-domestic product. SFAs must, however, keep documentation justifying the exception(s).

Buy American

Contractor must comply with the Buy American Act (7 C.F.R. 210.21), which states that a school food authority purchase, to the maximum extent practicable, domestic commodities or products. Pursuant to the Buy American Act, the term “domestic commodity of product” means; (i) an agricultural commodity that is produced in the United States; and (ii) a food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

Buy American Requirements

The following three documents (hyperlinks) are consistent in defining the Buy American requirements.

1. [Richard B Russell National School Lunch Act \(n\)1 \(A\) and \(B\)](#)
2. [7 CFR 210.21 Procurement](#), (3)d and
3. [SP 20-2006: Procurement questions related to the Buy American Provision](#)

The Richard B. Russell National School Lunch Act provides in Section 12(n) the Buy American provision which requires that school food authorities (SFAs) operating school meals programs purchase domestically produced (grown) and processed foods, to the maximum extent practicable. The Buy American provision was codified in the National School Lunch Program regulations at 7 CFR 210.21(d). A “domestic commodity or product” is defined in the Federal regulations as:

- (i) an agricultural commodity that is produced in the United States (U.S.); and
- (ii) a food product that is processed in the U.S., substantially using agricultural commodities that are produced in the U.S., 7 CFR 210.21(d).

The language about ‘*substantially*’ using U.S., agricultural commodities is referring to products that are processed in the U.S., comprised of at least 51% domestic ingredients. According to the regulations, a food product must meet a two part test to be considered a domestic commodity or product: (1) the food product must be processed in the U.S.; and (2) the food product must be processed substantially using agricultural commodities that are produced in the U.S. There is no further need to determine whether 51% of a foreign product consists substantially of agricultural commodities that are produced in the U.S., because the product does not meet the first part of the test as it is not processed in the U.S.

Waivers to the Buy American provision are rare. While the Food and Nutrition Service (FNS) sets the Buy American requirements by which States and SFAs must abide, keep in mind that USDA is not a part to the contract between the SFA and its food supplier. It is the responsibility of the SFA to document that there is basis for allowing an exception (waiver); it is unacceptable for exceptions to be granted without substantial evidence that either of the two following situations have occurred:

- 1) The product is not produced or manufactured in the U.S., in sufficient and reasonable available quantities of a satisfactory quality; **and**
- 2) Competitive bids reveal the costs of a U.S., product is significantly higher than the foreign product.

Availability, cost, and quality are factors an SFA must weigh when considering the purchase of non-domestic products. The SFA needs to review current market information to determine if purchasing a specific non-domestic product meets one or more of the exceptions to the Buy American provision.

SFAs are encouraged to include in their bidding process a requirement for certification similar to: “We require that suppliers certify the percentage of U.S., content in products supplied to us. If you are unable or unwilling to make such certification, we will not purchase from you.” Appearing under this statement could be the sentence, “We certify that our U.S., processed ____ have at least ____% U.S., content,” with space for the supplier to fill in the name of the product and its percentage of domestic content. The SFA’s active role in clarifying the Buy American provision to all contractors in the bidding process helps ensure that contractors have a clear understanding of the Federal requirements and the ingredients contained in a product during the manufacturing process do not contain significant foreign content. Additionally, the best tool an SFA has to ensure that the Buy American provision is being followed is its contract with the distributor. If an SFA writes a contract with specific provisions and administers its contract properly, many conflicts or issues with the distributor can be avoided.

It is important for both SFAs and distributors to recognize that the determination as to whether a product meets the requirements of the Buy American Contractual provision rests with the SFA; it is not enough to assume that a product with a well-recognized American brand name or a product supplied by a domestic foodservice distributor complies with the Buy American provision. Distributors/suppliers should, in good faith, facilitate this process and provide the SFA with sufficient information regarding the country of origin for each end product in order for the SFA to make a determination. These efforts will enable distributors and suppliers to provide SFAs with products that meet the specifications of their contract. A brief description of the Buy American Requirement is printed behind the front cover of the Food Buying Guide for Child Nutrition Programs.
