

# REQUEST FOR PROPOSAL (RFP) ADDENDUM

## BEE COUNTY IT DEPARTMENT

Addendum No.: 1

Date of Addendum: June 1, 2023

RFP Number: 22/23-009

RFP Name: Data/Fiber Service

Due Date/Time: June 22, 2023 at 10AM

Revised Date/Time: May 30, 2023 at 3:50PM

### SCOPE OF ADDENDUM

This addendum shall specify any additions and/or revisions to the RFP. Revisions to any pre-existing language in the RFP are indicated by ~~red ink strike through~~ for deletions and highlighted underlining for insertions.

This addendum shall specify any questions proposed by any offeror. Responses are indicated in bolded blue ink and underlined.

#### QUESTION 1

Tax Office & I/T Dept./HUB	411 E. Houston St.	Static IP Package Block	29 Useable
			5 Useable

The RFP has a request for "two Blocks of IP. One block is for 5 useable & the other block shows a 29 useable service. Based on our past Spectrum bill review, this current service "only" bills \$50 monthly. This billing amount would fall in line to be a /29 IP service (aka: 5 useable) Please advise what is currently in place & needed?

Currently, we have a /29 located at each internet drain point. At the Tax Office (the main point) we are utilizing a /29 and a /27 for our data center and are both in use. Craig Oliver, IT Director

#### QUESTION 2

County Jail-Voice	1509 Galloway Dr.	Fiber SIP/100 D.I.D.'s	24 Trunking
-------------------	-------------------	------------------------	-------------

Per the RFP, can you please confirm that:

- SIP Voice services are needed & not PRI?
- "Only" -- One block of 100 D.I.D.'s will be ported?

I am uncertain about the voice services at the Sheriff's Office and Jail as I don't have any management for their system. I would confirm this with the Auditor's Office as to whether they are utilizing SIP or PRI. Or you could include a quote for both just to cover both services depending on if they currently are using PRI, but have the ability to utilize SIP if that would save them money. Just a suggestion. Craig Oliver, IT Director

**QUESTION 3**

As part of this RFP, I see some Layer 3 items. Will you be looking for any network hardware and infrastructure?

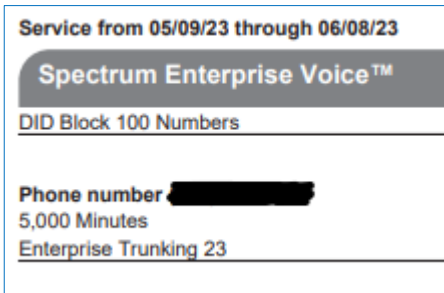

[No, we have all the hardware infrastructure needed at this time. Craig Oliver, IT Director](#)

**QUESTION 4**

With regard to County Jail Voice, can you please identify:

- the “correct type” of digital voice billing service (SIP or PRI)?
- how many phone numbers it offers?

[I have the reviewed the bill you have inquired about, thoroughly. The ONLY information that the bill offers is included below.](#)

This addendum shall become part of the RFP and **MAY** be returned with the RFP.
