

Public Notice
INVITATION TO BID
Bid Notice # 1031

The City of Springfield will be accepting sealed bids to purchase materials that Springfield Water and Wastewater Department (SWWD) personnel can use to construct a three-sided vehicle storage shed. Potential bidders can either pick up information packets at the SWWD office at 924 Central Avenue or call the SWWD office at 615-382-1600 and request that a packet be mailed out. Sealed bids must be received in the Office of the City Recorder at City Hall, 405 N. Main Street, Springfield, TN, 37172, no later than 2:00 p.m. on Wednesday, June 7, 2017, at which time bids will be opened and read aloud. Any bids received after 2:00 p.m. on Wednesday, June 7, 2017, will be rejected. Bid submittals shall make reference to Bid Notice # 1031 on the outside of the sealed envelope and that the bid pertains to purchasing materials that SWWD personnel can use to build a vehicle storage shed. Any questions can be directed to Doug Caroland, at 615-382-1600 or to Roger Lemasters, Director of the Springfield Water and Wastewater Department, at 615-382-1600. The city reserves the right to reject any and all bids.

Lisa Crockett
City Recorder

BID SPECIFICATIONS
BID NO. 1031
THREE-SIDED VEHICLE SHED
SPRINGFIELD WATER AND WASTEWATER DEPARTMENT

The proposed vehicle shed will be constructed by personnel with the Springfield Water and Wastewater Department (SWWD). The 3-bay shed will be 42 feet long and 30 feet deep, each bay being 14 feet wide and 30 feet long. The roof, the sides and the back will be covered with sheet metal. The back of the shed will be 12 feet tall and the front (open) side of the shed will be 14 feet tall. There will be four posts across the front and four posts across the back that will be fourteen feet apart. On each side, between the front and back posts, there will be two posts on each end that will be ten feet apart (12 posts total).

The following is a list of the materials that are to be included in the bid:

1. Twelve (12) 6" x 6" x 18' pressure-treated posts
2. Seventy-five (75) 2" x 6" x 15' (minimum length) pressure treated boards
3. Twenty (20) 14' (minimum length) sheets of steel for the sides
4. Fourteen (14) 12' (minimum length) sheets of steel for the back
5. Twenty-eight (28) 16' (minimum length) sheets of steel for the roof
6. Four (4) 30' steel trusses, to span from the back to the front of the shed

The following specifications shall cover each of the above listed items:

WOOD:

1. Personnel with the SWWD shall pick out the individual pieces of lumber (items 1 and 2, above).

STEEL:

1. All sheet steel for the sides and roof shall be the same type, although in different lengths.
2. All sheets shall be 3 feet wide, 5-rib 29 gage steel.
3. All sheets shall be factory painted and of the same color. Colors can be white, off-white, tan, dark green or any shade of blue.

TRUSSES:

1. The 30-foot long trusses shall be designed to span the entire distance from front to back (30 feet), taking into consideration the customary loadings (dead weight plus live weight of snow, ice, etc.) that can be expected for the Springfield area of Tennessee. The web of the trusses shall be a minimum of 18" deep, unless a lesser depth can be shown to be adequate.
2. Each truss shall have an extension or "foot", about 6" long, at each end at the top of the truss that will rest on top of the front and rear posts. The web of each truss will hang down, between the front and rear posts. The end of each web should have a welded flange that will fit up against the front and rear posts. The "feet" and the web flanges should be drilled with ½" holes that can be used to attach the trusses to the posts. The 30' length will be from end of "foot" to end of "foot".
3. Across the top of each truss shall be "U"-shaped brackets, one at each end and then every 2 feet, crosswise along the length of the truss, that will accept the 2" wide 2" x 6" boards that will span the 14-foot distances between the trusses. Each bracket shall be at least 4" long and 2" deep and shall be welded to the trusses.
4. The trusses shall be primed and painted, preferably at the factory and preferably black, to resist rusting.

BID FORM
BID NO. 1031
THREE-SIDED SHED
SPRINGFIELD WATER AND WASTEWATER DEPARTMENT

- | | | |
|--------------------------------------|----------------------|----------|
| 1. 6" X 6" X 18' posts | \$ _____ each X 12 = | \$ _____ |
| 2. 2" x 6" x 15' boards | \$ _____ each X 75 = | \$ _____ |
| 3. 14' sheets of steel for the sides | \$ _____ each X 20 = | \$ _____ |
| 4. 12' sheets of steel for the back | \$ _____ each X 14 = | \$ _____ |
| 5. 16' sheets of steel for the roof | \$ _____ each X 28 = | \$ _____ |
| 6. 30' long steel trusses | \$ _____ each X 4 = | \$ _____ |

Bids shall be awarded per line item with the possibility of awarding to more than one (1) bidder.

The materials will be picked up by personnel with the SWWD.

Questions regarding the specifications can be directed to Darrell Moore, at 615-382-1600 or to Roger Lemasters, at 615-382-1600.

IRAN DIVESTMENT ACT NOTICE

Tenn. Code Ann. § 12-12-106 requires the chief procurement officer to publish, using credible information freely available to the public, a list of persons it determines engage in investment activities in Iran, as described in § 12-12-105.

For these purposes, the State intends to use the attached list of "Entities Ineligible to Contract with the State of South Carolina or any Political Subdivision of the State per the Iran Divestment Act of 2014, S.C. Code Ann §§ 11-57-10, et. Seq."

While inclusion on the list would make a person ineligible to contract with the state of Tennessee, if a person ceases its engagement in investment activities in Iran, it may be removed from the list.

If you feel as though you have been erroneously included on this list, please contact the Central Procurement Office at CPO.Website@tn.gov.
