RFQ NO.: CM2023-03**

ADDENDUM #2

Date Issued: March 3, 2023

This addendum is being released to extend answer the following questions.

1. Are there existing engineering documents for the proposed scope of work? Can these documents be provided?

A. There are no additional documents.

2. Confirm scope of work. Is it what's shown on the included map including both water and sewer infrastructure?

A. Yes. Map is conceptual.

3. How is the development currently served?

A. Existing service is there, but non-useable.

4. Is the intent for each household to have its own grinder pump?

A. We want as many grinder pumps removed as possible and system on gravity feed. Not all areas will be able to accommodate.

5. Will the City own the grinder pumps, or will they be the property of the homeowner?

A. Currently, the city owns the grinder pumps. As part of this project, for any home that will be required to have a grinder pump, it will become the responsibility of the homeowner after the project is complete.

Janice L. Peters

Janice L. Peters, City Clerk

This Addendum must be acknowledged and included with the bid packet submission.
