**3.0 REQUIREMENTS**

- 3.1 These specifications cover requirements for the transportation and disposal, by recycling, of waste tires from the Georgetown County Solid Waste Landfill, SC Department of Public Services, Environmental Services Division, Georgetown, South Carolina.
- 3.2 Georgetown County reserves the right to retain any quantity of tires for recapping or other purposes.
- 3.3 Based on historical data, Georgetown County generates approximately 12 tons of waste tires per week at the Georgetown County Solid Waste Landfill, 201 Landfill Drive, (off Browns Ferry Road a/k/a SC-51). This weight is an estimate and not guaranteed by the County. The tires include DOT passenger, DOT truck, and Non-DOT off road tires. There are approximately 630 tons of DOT passenger and truck tires (combined) and 110 Tons of Non-DOT off road tires yearly FY18.
- 3.4 The tire site can be accessed Monday through Friday (excluding County holidays) opening at 8:00 AM. All loading will need to be completed by 3:30pm.

- 3.5 Some tires have rims. For the purpose of this Scope of Work, rims shall be considered tires. The County reserves the right to either leave rims on the tires for the Contractor to process or for the County to remove rims from tires and to receive salvage value for those rims.
- 3.6 Tires are presently collected on a concrete slab at the Georgetown County Solid Waste Landfill.
- 3.7 The Contractor shall provide the transportation of the tires by a South Carolina Department of Health and Environmental Control (SCDHEC) permitted waste tire hauler. A copy of the current SCDHEC permit of the hauler shall be submitted with the bid.

The Contractor will take possession and remove all tires designated by Environmental Services as scrap. The tires accumulated during the contract period will be removed at a minimum of once every week, or as otherwise needed to keep the number of tires accumulated below 500 tires at all times. All tires accumulated must be removed at each pick up.
- 3.9 The County requires one pick-up per week, minimum. Controlling the stockpile to 500 tires and under is the contractor's responsibility since trailer sizes and loading means are variable factors.
- 3.10 The tire recycling area of the landfill does have space available to stage a trailer for collection. However, the facility does not have a loading dock available. Any difference in specifications between those requested and those proposed by the contractor must be documented on the Mandatory Exceptions Page.
- 3.11 Any cleaning of tires necessary prior to the delivery to the final destination shall be by the Contractor at their expense.
- 3.12 The Contractor shall transport the waste tires to a tire processing facility(s) that will process the tires into another use and/or to a facility(s) that will combust the tires for energy recover. Documentation that the facility(s) is on the current SCDHEC approved disposal/recycling facility's list shall be submitted with the bid.
- 3.13 The Contractor shall not process tires at the Georgetown County Solid Waste Landfill.
- 3.14 The Contractor shall be totally responsible for limiting the weight of waste tires loaded into the trailers to a safe and legal weight. The County assumes no responsibility for overloaded trailers or any accident, damage or injury during loading or transport.
- 3.15 All Contractor's trucks and trailers shall be weighed empty upon entering the Georgetown County Landfill and shall be weighed full upon leaving the Landfill. The weight ticket issued to the Contractor, which will indicate the weight, shall be the basis of payment.
- 3.16 The Contractor shall familiarize itself with the quantity of tires collected at the Georgetown County Landfill and schedule the frequency of pickups accordingly. The Contractor shall remove tires at a rate such that no more than 500 tires are stored on site at any time. If in the judgment of the County, the pile exceeds 500 tires, the Contractor shall be contacted by the

County. Within three (3) working days (Monday through Friday), the Contractor shall remove a minimum of 10 tons per day until the pile is completely removed. Should the Contractor fail to remove the tires at the rate of 10 tons per day by the third working day after receiving notice, liquidated damages shall be assessed at the rate of \$100.00 per day until the pile is completely removed.

- 3.17 Proposals will be evaluated based on cost, references, past experience, and capacity to perform projects of similar size and scope.

- 5.4 The bidder shall examine the premises and the site and compare them with any applicable drawings and specifications. He/she shall familiarize themselves with the existing conditions such as obstructive area levels and any problems related to erecting the required systems.
- 5.5 No plea of ignorance of conditions that exist or may hereafter exist on the site of the work, or difficulties that may be encountered in the execution of the work, as a result of failure to make necessary investigations and examinations, will be accepted as an excuse for any failure or omission on the part of the Contractor to fulfill in every detail all the requirements of the contract documents and to complete the work for the consideration set forth therein, or as a basis for any claim whatsoever.

- 5.6 Insofar as possible, the Contractor, in carrying out his/her work, must employ such methods or means as will not cause interruption of or interference with the work of any other Contractor, or County personnel at the site.
