Bid 2017-10

Cavern City Air Terminal Front Entrance Improvements

Scope:

The scope of work for this project is to provide and install a LED sign at the entrance of the Cavern City Air Terminal.

The structure will be 20ft in overall height. The structure will be clad with panels allowing for graphics and lettering for various advertising. The structure must include a sufficient concrete footing. The entire structure will require approval, prior to construction/installation, from the City of Carlsbad's Project Engineer.

The LED sign will be a 5ft x 12ft full color (16 million colors), 20 mm pitch, two sided. This is coupled with an ID sign at 2ft x 12ft with full color face graphics. The sign will be are to be a clad to enclose the edges and provide a "boxed" look. Also include a topper or crown piece.

The proposal price will include erection/installation of the sign. The specific sign location will be determined by the City of Carlsbad Project's Administrator during the pre-construction meeting, an approximate location is shown below. The price proposal will also include electrical connection, with in 10ft of the final location of the sign.

All contractors will needs to submit proof of liability insurance.
