III. Background

The City of Knoxville Fire Department (KFD) presently teaches between 10,000 and 15,000 children each year using our fire safety house. The program has been integrated into the Knox County School System as an expected and requested program taught in each public and private elementary school in our area. KFD has also implemented a program with surrounding counties to provide the same program to school systems that have no such educational resource available to them.

KFD has been using a 1994 Scotty Fire Safety House since November, 2008, for educating pre-school through fifth grade children in fire safety.

The goals of this program are several:

1. Reduce fire deaths
2. Reduce pediatric burn injuries
3. Reduce property damage
4. Increase the "Attitude of Safety"
5. Assist the citizens of Knoxville in reducing insurance costs by reducing risk

KFD has educated over 100,000 students within the City of Knoxville and in neighboring counties since this program began. The current unit is at the end of its useful life and in need of replacement.

6.4 Independent Contractor. The relationship of contractor to the City will be that of independent contractor. The contractor will be solely and entirely responsible for its acts and for the acts of its agents, employees, servants and subcontractors done during the performance of the contract. All services performed by the contractor shall be provided in an independent contractor capacity and not in the capacity of officers, agents, or employees of the City.

Selection shall be based on the firms' qualifications applicable to the scope and nature of the services to be performed per this request for proposals.
