SECTION 4 – TECHNICAL SPECIFICATIONS

- 1) The properties to be serviced are vacant and abandoned lots that are found to be in violation of City code within the Sebring City limits by the Code Enforcement Board. The required maintenance will be specified by the Board and will include the following items:
 - a) **CLEARING:** Clearing shall include the trimming and clearing of all vegetation except valuable trees and cultivated plants.

b) **MOWING:** Mowing is defined as the clearing of land by mechanical means through a device which mows or cuts, by blades, the weeds and brush to the height of not more than four inches from the surface of ground (except valuable trees and plants). Tractor mowing shall be used as the means to clear lots where the terrain is level, but containing high weeds and/or brush. Vegetation, such as small brush, weeds and grass may be left on the site after cutting providing that it is crushed, chipped or otherwise ground into small particles (mulched size) and spread evenly over the site so that no piles of debris remain. This will only be allowed when vegetation will decay or decompose and blend into the soil within a period of approximately 30 days or less. Additionally, all driveway, sidewalk and concrete surfaces need to be either swept or blown clean from all clippings and or debris.

c) **ACCUMULATIONS:** Accumulations is defined as all junk/trash/debris that has accumulated on the property over a period of time due to neglect or abandonment. The removal of all litter/trash/debris shall include, but not be limited to, tires, furniture, and other debris. This is in addition to all Contractor generated debris resulting from abatement.

d) **PICK-UP/LOADING:** Pick-up/loading comprises the clearing of the land through mechanical or hand means including, but not limited to, raking, pitchforking or shoveling, use of a backhoe, etc., to pick up paper, cardboard, cans, bottles, tires, scrap metal, building materials and debris. e) **TRIMMING:** The removal and proper disposal of overgrown conditions in accordance with the rules of horticulture. Specifically, “overgrown conditions” would include everything except intentionally planted and tended shrubs and bushes and other plantings such as in a clearly identified garden area. These more sensitive areas often require attention, as they must too be “shaped” or cut back, still as part of a “trimming” operation.

f) **HAULING:** Contractor shall remove from the property all trimmings and debris found thereon. The Contractor must haul and lawfully dispose of all trash, brush, dead trees, and accumulations from the lot clearing site.
