**RFP # 22-015 RRR
TITLE: Playground Equipment/ Repair Parts Sales Only
ADDENDUM #1**

Question 1. APS is saying that Roller slides are not acceptable, Page 14 line #2. According to ASTM and CPSC there are no recommendations for not having roller slides. There currently are many slides at APS schools and all have passed the third party audits according to ASTM and CPSC.

Answer: Roller Slides are acceptable as long as they meet the ASTM F1487 21.

Question 2. On page 14 line #2, it states no swinging exercise rings, though CPSC and ASTM regulate that these are acceptable if the total length is less than 15” and that the chains are less than 7”. If it is compliant with ASTM and CPSC, will this be compliant with APS?

Answer: Regarding swinging exercise rings, there is no exercise equipment allowed in play pods. Upper body play equipment with rings are allowed as long as it meets the ASTM F 1487 21 and its IPMA certified play equipment.
