

CITY OF FORT WALTON BEACH

Re: ITB 18-022

June 14, 2018

Exhibit C

THIS EXHIBIT IS ISSUED TO MAKE THE FOLLOWING CLARIFICATIONS TO THE BID DOCUMENT:

1. CLARIFICATIONS - DRAWINGS

1.1 Please verify - The HVAC is in the ceiling... Does the City wish to use the existing unit or should we quote for everything new?

The City has no preference - The City is looking for the most cost-effective method. The Vendor can quote both ways.

1.2 Will there be batt insulation in between the interior walls for sound barrier.

Item is not required. However, Bidder can include a quote as an alternative.

1.3 What is the flooring type?

Laminate. Vendor should provide an allowance.

1.4 Please verify who is responsible for paying for temporary power/water/tapping into existing sewer. Will the City waive the fees or does the contractor need to pay for them?

Construction power, water and sewer is the expense of the Contractor.

1.5 The plans do not show any specs for IT network or phone system. Should that be included?

No.
