REQUEST FOR INFORMATION

Date: August 13, 2024

Myrtle Beach's Living Lab Program, a part of the City of Myrtle Beach's Smart Cities Initiative, brings the public sector and private sector together to prototype, deploy, and test new and emerging technologies.

The Living Lab is intended to be a mixed-use facility in the Arts and Innovation (A&I) District, combining physical space for the public, entrepreneurs, students, faculty, and city staff to execute the program. Additionally, it should provide the premier experience of living, working, and playing in Myrtle Beach. With the goal of business development and expansion, the facility should represent the best that Myrtle Beach has to offer – a home for our entrepreneurial community, amazing views, space for social activity, modern retail opportunities complimentary to the district, the best of technology integration, and more.

Firms with the experience, expertise, and resources to design such an integrated facility within the A&I District are invited to respond to this Request for Information (RFI) by e-mailing this completed application to asowers@cityofmyrtlebeach.com no later than Friday, August 16, 2024 at 2:00PM (local time.) Official time of receipt will be marked by the time the e-mail is received, and not by the time that it is sent. E-mail messages can take up to ten (10) minutes or more to be delivered to the intended recipient.

The City will conduct additional preliminary market research to determine which firms may have the level of experience, expertise, and resources for this project. Response to this RFI does not commit the City to any further action with any firm.
