to me

Good morning!

I received Shelayne's out of office reply and I'm trying to mail the bid packet today. My question pertains to shipping. It says "We will order either monthly or bi-monthly." This year we received 2 orders. Do you anticipate increased production? With shipping prices skyrocketing, we'd need to have a minimum shipment quantity to include freight. We ship in pallets.

Thank you,
Tami

Amy Stabler

to me

We can order by the pallet. They can set a minimum for the order and we will follow that. It's hard to predict how many orders per year.
