Morrow, Georgia 30260

### **Name of Project: W.B. Casey Polishing Plant and WAS Thickening Upgrades**

Separate sealed Bids for the construction of **W.B. Casey Water Reclamation Facility Polishing Plant and WAS Thickening Upgrades** will be received by the Clayton County Water Authority at 1600 Battle Creek Road, Morrow, Georgia 30260 until 3:00 p.m. local time, the 25th day of July, 2017, and then at said office publicly opened and read aloud. Any bids received after the specified time will not be considered.

A non-mandatory pre-bid conference will be held at the W.B. Casey Water Reclamation Facility, 688 Flint River Road, Jonesboro, Georgia 30238 on July 11, 2017 at 3:00 p.m. local time, to discuss the Project. Bidders are encouraged to attend; however, attendance is not required.

The Project consists of a Phosphorus Polishing Plant designed to treat a portion of the effluent from the existing W.B. Casey WRF and a new waste activated sludge (WAS) thickening facility to replace the existing WAS thickening facility.

The Phosphorus Polishing Plant consists of the following new facilities: effluent splitter box and flow control vault, phosphorus polishing unit with chemical coagulation and high rate settling, UV Disinfection, effluent measurement flume, cascade aerator, effluent discharge pipeline, ferric sulfate storage and feed facility, and polymer storage and feed facility. The work includes site preparation including installation of auger cast piles, site piping and valves, and all associated electrical and instrumentation and control work.

The new WAS Thickening Facility consists of the following: rotary drum thickeners on a new outdoor elevated platform, polymer storage and feed facility, relocation of an existing odor control unit, replacement of pumps in the existing WAS/Scum Pump Station and demolition of the exiting dissolved air flotation (DAF) thickening facility.
