TOTAL

Specifications for Water Borne Paint

Traffic Operations

February 1, 2017

General Requirements:

The pigmented binder shall provide optimum adhesion for glass spheres when both binder and glass spheres are applied in the recommended quantities. The binder should be applied at a wet film thickness of 15 mils/.38 mm and the glass spheres shall be applied at the rate of eight (8) lbs. per gallon/.96 kg per liter of paint.

Detailed Requirements:

Formulation and Manufacture: The pigmented binder shall be formulated and processed specifically for service as a suitable binder for glass beads for use on traffic carrying pavements, such as concrete, brick and bituminous. It shall be well mixed or otherwise properly processed to meet the requirements herein as specified.

The pigment shall not settle excessively or cake in the container; shall not thicken or thin in storage so as to cause appreciable change in consistency. It shall not liver or curdle and shall be readily broken up with a paddle to a smooth uniform consistency.

The pigmented binder shall dry to an elastic adherent finish that will not turn dark in sunlight, nor show appreciable discoloration with age. It shall further permit ease and uniformity of application and covering properties.

Weight per Gallon:

The weight per gallon of pigmented binders shall be not less than 13.80 pounds per gallon/1.67 kg per liter for the **white** and not less than 13.00 pounds per gallon/1.64 kg per liter for the **yellow** material.

Flexibility:

When tested, the material shall not crack, flake or peel.

Directional Reflectance:

The daylight directional reflection of the pigmented binders (without glass spheres) shall be 88% for **white** and 50% for **yellow**.

Drying Time:

When applied at a wet film thickness of 15 mils/.38 mm with a bead application rate of eight (8) pounds per gallon, temperatures at 85% maximum and 50 degrees F/10 degrees C minimum respectively, the maximum drying time shall be 45 seconds with the paint temperature at the tip 120 – 140 degrees F. Temperatures at the heat exchanger should not exceed 140 degrees F/60 degrees C. Paint may dwell in exchanger for up to two (2) hours, but the recommendation is to either turn down the heat to 120 degrees F or turn off the heat to the exchanger and lines if the material will not be applied within one (1) hour.

The pH of both the **white** and **yellow** paints shall not be less than 9.6 when tested at 77 degrees F/25 degrees C.

Volatiles:

The volatile organic compounds (VOC) shall not exceed one (1) pound per gallon. Closed cup flash point shall not be less than 200 degrees F/93.9 degrees C.

Vehicle Solids:

The vehicle non-volatile shall be not less than 41.0% when the whole paint is ashed for one (1) hour at 877 degrees F/450 degrees C.

Shelf Life:

Material will remain in a usable condition up to twelve (12) months from date of manufacture when stored inside and protected from freezing.

Pigmented Binders:

The Pigmented binders shall, when tested according to ASTM D-869, have a minimum rating of 6. The viscosity shall not have changed by more than plus/minus 5 k.u.'s from the viscosity of the original sample. A one (1) pint sample will be conditioned for five (5) days at 130 degrees F/54.5 degrees C prior to evaluation.

Lead Quantity:

The dried films, both **white** and **yellow**, when tested in accordance with ASTM D-3335, shall not contain more than 0.06% lead

Containers:

Conventional epoxy phenolic lined steel drums.

Specifications for Athletic Field Marking Paint

General:

Professional quality flat latex paint designed for line striping or other marking applications on all types of athletic fields. Must be easy-to-apply by spray, brush or roller and water-reducible.

Recommended Substrates:

Grass	Cinder
Dirt	Clay

Conformance Standards:

Volatile Organic Compounds (VOC) compliant in all regulated areas

Product Data:

Type:	Latex Resin	Yes/No
Coverage/Amount:	900 FT. – 4" line per gallon	Yes/No
Viscosity:	100 – 105 KU	Yes/No
Clean Up Solvent:	Soap & Water	Yes/No
Flash Point:	Non-Flammable	Yes/No
Finish:	Low Luster	Yes/No
Base:	Water	Yes/No
Pigment:	57 – 58%	Yes/No
Application:	Airless Spray	Yes/No
Features:	Does not shock, harm or kill	
	Fast drying	Yes/No
Appearance & Odor:	White Paint & Mild	Yes/No
Maximum 48 hour delivery upon ordering		Yes/No
Preferred 24 pales (120 gal) per one (1) pallet		Yes/No

***Additional Request: Paint must be ready to use upon ordering. Mixing or diluting should not be required.

Affirmative Action Plan

The City of Chattanooga is an equal opportunity employer and during the performance of this Contract, the Contractor agrees to abide by the equal opportunity goals of the City of Chattanooga as follows:

1. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, or handicap. The Contractor will take affirmative action to ensure that applicants are employed, and the employees are treated during employment without regard to their race, color, religion, sex, national origin, or handicap. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay, or other forms of compensation, and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
2. The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, or handicap.
3. The Contractor will send to each labor union or representative of workers with which he/she has a collective bargaining agreement or other contract or understanding, a notice advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
4. In all construction contracts or subcontracts in excess of \$10,000 to be performed for the City of Chattanooga, any contractor and/or subcontractor is further required to file in duplicate within ten (10) days of being notified that it is the lowest responsible bidder, an affirmative action plan with the EEO Director of the City of Chattanooga. This plan shall state the Contractor's goals for minority and women utilization as a percentage of the work force on this project.
5. This Plan or any attachments thereto shall further provide a list of all employees annotated by job function, race, and sex who are expected to be utilized on this project. This plan or attachment thereto shall further describe the methods by which the Contractor or Subcontractor will utilize to make good faith efforts at providing employment opportunities for minorities and women.

During the term of this contract, the Contractor upon request of the City, will make available for inspection by the City of Chattanooga copies of payroll records, personnel documents and similar records or documents that may be used to verify the Contractor's compliance with these Equal Opportunity provisions.

6. The Contractor will include the portion of the sentence immediately preceding paragraph 1 and the provisions of paragraphs 1 through 6 in every subcontract so that such provisions will be requested of each subcontractor. The Contractor agrees to notify the City of Chattanooga of any subcontractor who refuses or fails to comply with these equal opportunity provisions. Any failure or refusal to comply with these provisions the Contractor and/or Subcontractor shall be a breach of this contract.
