#### **1.3. SCOPE OF WORK**

The City of Griffin (City), in partnership with Spalding County (County) and the Griffin-Spalding Development Authority (GSDA) is exploring the potential for a Hotel/Convention Center to be located at the most suitable location within the community. The City is seeking proposals from qualified organizations to prepare a Market Validation and Financial

Feasibility impact study to determine the practicality and potential size of the development project, identifying partnering strategies, as well as determining the type and amount of incentives that may be needed to attract suitable private sector development.

The independent study will analyze the future market of boutique, select-service, and full-service hotels with conference centers in the South-metro Atlanta/middle-Georgia area. The study will also estimate the likely operating performance of the market and the penetration of the proposed HCC. The objectives of the study are:

- Identify and evaluate proposed sites in the City of Griffin/Spalding County area to determine their benefit to the performance of the proposed HCC;
- Determine anticipated market conditions for the proposed HCC within the context of supply, demand site, and facility factors;
- Estimate the future competitive position of the proposed HCC and prepare projections of occupancy, average room rate and cash flow from operations available for debt service and equity distribution;
- Prepare a financial model showing the appropriate level of public incentives *if needed to make the project feasible;*
- Provide a written report summarizing your findings and conclusions;
- Provide detailed references of projects of similar scope completed, their location and contact information of the client.

#### 4.5. ESTIMATED QUANTITIES

Any quantities of items specified in the Schedule are estimates only and are not purchased by this contract. If the City's requirements do not result in orders in the quantities described as "estimated", that fact shall not constitute the basis for an equitable price adjustment. Delivery shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order clause or elsewhere in this contract, the Supplier shall furnish to the City all items specified in the Schedule & Summary and called for by orders issued in accordance with the Ordering clause.

#### 4.6. ASSIGNMENT OR NOVATION OF CONTRACT

The Supplier shall not assign or transfer, whether by Assignment or Novation, any of its rights, duties, benefits, obligations, liabilities, or responsibilities under the Contract without the written consent of the City; provided, however, that assignments to banks, trust companies or other financial institutions for the purpose of securing a bond may be made without the consent of the City.

#### 4.7. TERMINATION FOR CAUSE

The City reserves the right to terminate the resulting contract, in whole or in part, for failure to comply with any provisions of the contract as outlined by providing a written notice to the Supplier at least thirty (30) days before the effective date of termination. The Supplier will not be relieved of any outstanding responsibilities or unfinished obligations under this contract. Receipt of items by the delivery date is critical to the terms of this contract. The City considers late delivery of contract items as reasonable cause to terminate the contract.

Prior to termination, a Cure Notice will be issued by the City. The Notice will identify the problems and deadlines that need to be met to remedy the problems to avoid termination for default. If the Supplier does not respond with an acceptable action plan to remedy the default or commence to remedy the default within a period of five (5) business days (or such longer period as the City may authorize in writing) after the issuance of notice, the City may issue termination for cause.

The Supplier also has a right to terminate this contract for cause by providing a written notice of intent to terminate at least thirty (30) days prior to the effective date of the contract termination.

#### 4.8. TERMINATION FOR CONVENIENCE

The City reserves the right to terminate the resulting contract, in whole or in part, in the event the City determines that such termination is in the best interest of the City, such as an unforeseen project cancellation. Any such termination shall be effected by the delivery of a notice specifying the extent to which performance of work under the contract is termination and the date upon which the termination becomes effective. The City will be responsible for payment of deliverables satisfactorily executed according to industry standards or proven loss with respect to materials, etc.

#### 4.9. TERMINATION FOR FUND APPROPRIATION

The City may unilaterally terminate this Agreement due to a lack of funding at any time by written notice to the Supplier. In the event of the City's termination of the resulting contract for fund appropriation, the Supplier will be paid for those services actually performed. Partially completed performance of the Agreement will be compensated based upon a signed statement of completion to be submitted by the Service Provider which shall itemize each element of performance

#### 4.10.CHANGES

All work and materials furnished for this project shall be made in conformance with the contract documents. Changes in the scope of work or the terms and conditions of this contract may be made only by written agreement of the parties. Changes that involve an alteration to the payment amounts shall not commence until approved by the City and a Change Order has been issued.

#### 4.11. **REPORTING DISPUTES**

The Supplier shall report any contract disputes and/or problems to the Procurement Analyst, both verbally and in writing within 48 hours of their occurrence.

#### 5. SECTION V – INSURANCE REQUIREMENTS

#### SPECIFICATIONS & RESPONSE 15-006 HOTEL/CONVENTION CENTER FEASIBILITY STUDY

#### **OVERVIEW**

The City of Griffin (City), in partnership with Spalding County (County) and the Griffin-Spalding Development Authority (GSDA) is exploring the potential for a Hotel/Convention Center (HCC) to be located at the most suitable location within the community. The City is seeking proposals from qualified organizations to prepare a Market Validation and Financial Feasibility impact study to determine the practicality of the development project, identifying partnering strategies, as well as determining the type and amount of incentives that may be needed to attract suitable private sector development. The study would also examine the appropriate size of the convention center and hotel based on existing and future demand, evaluate the best location within the City for these amenities, recommend partnering strategies, determine associated capital and operating costs and assess the economic impact a convention center and hotel would have on the local economy.

The purpose of the independent feasibility study is to assess options moving forward that will result in the greatest economic impact to the community and strengthen the City's position as an area economic leader. To accomplish this, the City must understand and be fully aware of the market demands, the opportunities for development and partnerships, as well as the obstacles and risks. This study will analyze the future market of select-service and full-service hotels with conference centers in the South-metro Atlanta/middle-Georgia area. The study will also estimate the likely operating performance of the market and the penetration of the proposed HCC. Some of the objectives of the study are:

- Identify and evaluate proposed sites in the City of Griffin/Spalding County area to determine their benefit to the performance of the proposed HCC;
- Determine anticipated market conditions for the proposed HCC within the context of supply, demand site, and facility factors;
- Estimate the future competitive position of the proposed HCC and prepare projections of occupancy, average room rate and cash flow from operations available for debt service and equity distribution;
- Prepare a financial model showing the appropriate level of public incentives if needed to make the project feasible;
- Provide a written report summarizing your findings and conclusions;
- Provide detailed references of projects of similar scope completed, their location and contact information of the client.

#### 8. SECTION VIII: REQUIREMENTS AND SPECIFICATIONS

Suppliers must be prepared to provide a multi-phase methodology, including but not limited to the following:

#### 8.1. General

- **8.1.1.** Meet with the project team and interested stakeholders in order to obtain input that confirms or amends your understanding of the proposed details of the target project (if any preliminary information exists).
- **8.1.2.** Submit a cover letter identifying all firms and personnel proposed for the team as well as your firm's understanding of the project.

#### 8.2. Phase I: Field Work and Analysis – Market Demand Analysis

- **8.2.1.** Interview key representatives of area commerce, tourism, and industry to identify and quantify specific sources of lodging demand. Issue a qualitative opinion as to whether or not the development of a HCC is supportable in the study area.
- **8.2.2.** Determine the current overall market demand for rooms in the market area and the share of market demand that is generated by commercial travelers, leisure travelers, group meeting, and any other identifiable sources of demand.

- **8.2.3.** To the extent the information is available; identify other proposed lodging developments to assess their probability of completion and the degree to which they will compete with this potential project.
- **8.2.4.** Identify and inspect potential sites in order to determine their impact on the proposed HCC. Such determinations will be intended to determine the property's accessibility, visibility, proximity to lodging demand generators, and physical characteristics that might affect the marketability of the proposed HCC. Lodging generators include business, leisure, institutional, and non-traditional patrons.
- **8.2.5.** Identify the type and size of the proposed facility that best suites the needs of the City. Make recommendations as to the best brand for the market, appropriate mix of single-bed, double-bed, and suite oriented rooms, amount of meeting space, breakout rooms, and the scope of other amenities that will give this project competitive advantages.
- **8.2.6.** Study the timing and amount of lodging supply as well as actual occupancy and room rate patterns to determine the number of additional transient lodging rooms supportable in the market, including the proposed property. Develop a census of competitive facilities for the proposed HHC. This census will include the following factors:
  - 8.2.6.1. Name
  - 8.2.6.2. Location
  - 8.2.6.3. Year Built
  - 8.2.6.4. Number of Guestrooms
  - 8.2.6.5. Rack Rates
  - 8.2.6.6. Occupancy and Rate (in the aggregate to protect confidentiality)
  - 8.2.6.7. Type and size of food, beverage, and meeting facilities
  - 8.2.6.8. Amenities
- **8.2.7.** Evaluate existing and proposed transportation patterns in the area to determine their impact on the marketability of the proposed HCC.
- **8.2.8.** Project an estimate of the average annual occupancies and attainable room rates that could be achieved by the proposed HCC on the subject site over a ten (10) -year period. Consider also goods and beverage revenue coming from hotel outlets and the convention meeting space.
- **8.2.9.** Prepare a table-oriented memo that summarizes your findings and conclusions to be reviewed by the evaluation team with the following standard exhibits:
  - 8.2.9.1. A ten (10) -year historical analysis of market supply and demand,
  - 8.2.9.2. A ten (10) -year projection of anticipated market occupancies and rates,
  - 8.2.9.3. Estimates of occupancies and average daily rate for the proposed hotel over its first three to five year of operation,
  - 8.2.9.4. A ten (10) -year operation pro forma for the convention center and hotel separately, which outlines in detail all anticipated revenue sources that may be available for bonding to pay for the initial capital cost of the HCC. Also include other forms of income, expenses, net operating income, debt service, and cash flows.
  - 8.2.9.5. A recommendation of the optimal pricing and leasing strategy for the project to maximize its use and financial feasibility.
- **8.2.10.** Determine the amount of land required for the development considering your recommended size of the facilities and the parking requirements.
- **8.2.11.** Estimate the approximate number of events per year (market demand) for utilization of the convention center and hotel by event type and percentage occupancy associated with each event. Identify any niche markets that would be viable for the facility.

8.2.12. Discuss your findings and conclusions of the study with the City and stakeholders.

All documentation and analysis should be based on the hotel and any business enterprises being privately developed and the conference center being publicly developed; however, it will be viewed as one cohesive development.

#### 8.3. Phase I: Field Work and Analysis – Financial Feasibility Analysis

- **8.3.1.** Prepare estimate of annual revenue and expenses to the point of cash flow from operations available for debt service and equity distribution for the first ten (10) full years of operations for the proposed hotel. The prospective financial analysis shall have sufficient detail to reflect the major revenue and expense categories. Basis for the prospective financial analysis and key assumptions underlying inflation estimates shall be made explicitly detailed.
- **8.3.2.** Prepare an analysis of the monetary benefit of any public assistance available to the project as well as possible sources. Also identify other potential benefits in addition to those monetary.
- **8.3.3.** Required components for the financing plan are to include, but not limited to:
  - 8.3.3.1. Public sector financing scenarios only, identifying multiple appropriate financing packages of debt issuance, state or federal grants, tax financing or any other suitable public financing methods;
  - 8.3.3.2. Identify possible sources for a combination of public-private funding;
  - 8.3.3.3. Identify and outline governance structure options for each scenario listed.

#### 8.4. Phase I: Field Work and Analysis – Operational Analysis

- **8.4.1.** Prepare an estimated time table for construction of the project.
- **8.4.2.** Determine any partnering strategies to facilitate construction as well as on-going operations.

- **8.5.2.** Identify the impact, both negative and positive, on existing facilities within the area.
- **8.5.3.** Identify and quantify the demand of any ancillary or complimentary businesses that would be needed to support or be generated by the project.

#### 8.6. Phase II – Narrative Report

- **8.6.1.** Prepare a narrative report that clearly defines the project approach, work plan and detailed timeline, with identified milestones and significant events.
- **8.6.2.** The narrative report must demonstrate a clear understanding of the scope of work for the project and identify the methodology to be used.
- **8.6.3.** Prepare a report that can be submitted to prospective franchisors that contains a description of the project and covers all the analysis in sufficient detail so that the potential investors will have confidence in the analysis.

# 8.9. Submittal Requirements: Proposals must include the following in addition to the standard requirements of section 1.4:

Proposals are to be prepared simply and straight-forward. The emphasis of response submittals must be on completeness and clarity of content. Also address any items below that are not detailed in the above requirements.

- 8.9.1.2. Recap of project understanding;

- **8.9.2. Selection Policy:** The City has established a policy for selecting planning and engineering consultants to ensure that consultants are selected in a fair and uniform manner, that those selected for work are qualified and experienced in the disciplines required, and to ensure that every qualified consultant has the opportunity to be considered for providing professional services for the Project. Selection criteria are noted in sections 1.5 and 1.6 of this document. The process for selection involves three stages:
  - 8.9.2.1. Proposals and response: This Request for Proposal is being advertised minimally on the City's web site (<u>http://www.cityofgriffin.com</u>), the GLGA Marketplace (<u>http://www.glga.org</u>) and the Georgia Procurement Registry (<u>https://ssl.doas.state.ga.us/PRSapp/PR index.jsp</u>). Upon receipt of the responses, the City will review the proposals and forward their findings to the Selection Committee for consideration.
  - 8.9.2.2. Evaluation and selection: All proposals received will first be reviewed by Procurement to ensure all administrative requirements of the RFP have been met. Proposals that meet the administrative requirements will then be turned over to the evaluation team for further review. Cost proposal evaluations will be performed by Procurement independent of the technical evaluations. The technical evaluation committee, composed of representatives from City of Griffin, Spalding County, and Griffin-Spalding Development Authority, will review the response submittals findings and complete the scoring of the 'technical' responses. The Committee may schedule interviews with those firms that are short-listed. Based on the proposals and/or interview results, the Committee will prepare a

prioritized recommendation of the top firms and present them to their respected board. The City of Griffin is serving as the lead entity and will authorize negotiations and the signing of a contract for services in collaboration with Spalding County and Griffin-Spalding Development Authority.

- 8.9.2.3. Negotiations and contract: In the event negotiations of specific contract terms, conditions or fees prove unsuccessful with this firm, the City will begin negotiations with the next most qualified firm in collaboration with the evaluation team. The resulting contract will be awarded following approval of each governing body for the three organizations.
- 8.9.2.4. After award: This project is a collaborative effort of the City, the County and the Griffin-Spalding Development Authority. This includes modifications to the direction of the project as well as the financial responsibility. To avoid future confusion, specifics regarding the co-sharing of this project shall be detailed in the resulting project.

#### **NOTICE TO SUPPLIER:**

In the event the supplier is considered for contract award, the information provided on this form will be submitted to the Georgia Department of Revenue ("DOR") for a determination as to whether the supplier is a "prohibited source" (as defined by O.C.G.A. §50-5-82) or whether there are any other outstanding tax issues. MISSING, INCOMPLETE, OR ERRONEOUS DATA MAY DELAY OR PROHIBIT VERIFICATION OF YOUR ELIGIBILITY FOR CONTRACT AWARD. ## COMPANY REGISTRATION

**Company Registration with the City Of Griffin consists of the following:** (*If you are already a registered supplier with the City, simply submit a statement that your registration is on file.*)

- Company/Vendor Registration includes basic information about your company. Some of the key
  information needed are the NIGP Commodity Codes. They help the City identify the services or products
  you can provide. The City uses these codes to source suppliers for needed purchases. The City uses the
  email address you provide to send notices of new opportunities (based on the NIGP code).
- Vendor Affidavit This document is also referred to as the E-Verify affidavit and has been updated to reflect new laws that have recently gone into effect. An E-Verify (EV) number is REQUIRED by the State of Georgia (OCGA § 13-10-91) if you provide labor or services to the City that is valued in excess of \$2,499.99. In addition to the EV number and signature, the affidavit must be notarized. If you are a sole proprietor or your company provides only products, simply initial the statement that applies to your situation and sign. There is no need to notarize the affidavit unless you provide your EV number.
- **W-9** This document supplies the Employer Identification Number (EIN) or the Social Security (SS) number of the supplier.

#### NOTE:

- **S.A.V.E. Affidavit** – The new laws redefined 'public benefits' to exclude contracts (purchase orders, verbal commitments, etc). This change means that the SAVE affidavit and its supporting documentation are **no longer required for purchases of goods or services** by the City.

These forms can be found in a 'fillable' version, along with FAQ sheets and other helpful information on the City's website under the 'Doing Business' section (<u>www.cityofgriffin.com/doingbusiness</u>). Registration forms may be submitted to the City at any time either by mail (City of Griffin/Vendor Registration, PO Box T, Griffin, GA 30224), email (<u>cogvendors@cityofgriffin.com</u>) or fax (678-692-0402).
