Questions and Answers

1. This bid is for a period of one (1) year with five (1) one (1) year options. I do not see a place on the bid form for potential price escalation after the first year. Where should that be shown?
The bid form should be completed as provided and not be modified. Annual escalation will not be considered with initial bid, however, SWDD will consider a request for CPI adjustment at the time of any extension to the agreement.
2. Where on the bid form do we stipulate variations from the technical specs that our bid is based on?
Request to modify specifications should be specifically requested ("would the SWDD accept") in writing prior to the deadline for questions. Submitted bids are expected to be in full compliance with the specifications.
