**DUSTIN SHEARIN**  
PURCHASING AGENT

July 29, 2020

Amendment #1 information to the Following Bid's:

1. Courthouse HVAC 2020 (Req. # 34426)

- Amendment to Scope of Work – Request for Proposals of Alternative Equipment & Services to the Johnson County Courthouse HVAC 2020 ITB: Johnson County intends to have a fully functional HVAC system for heating and cooling of the Johnson County Courthouse. It may be cost effective for Johnson County to abandon the current HVAC system in whole or in part in order to obtain the best outcome for a fully functional HVAC system. Johnson County will allow potential bidders to supply a proposed list of alternative equipment(s) and/or services other than those stated within the original HVAC replacement checklist found on page 3 of the bid documents. The potential bidder must submit a detailed plan stating alternates used, the reason for doing so, and must state which portion(s) of the original checklist has been replaced with an alternate plan. Potential bidders must submit the bid price to complete the proposed project at 100% (whether using original checklist plan or an alternate plan), this bid price is still required to be written on page 3. All other bid requirements shall remain the same per the information within the original bid documents. Johnson County reserves the right to award the project using any alternative proposal while rejecting bids placed using the original checklist, whichever is the most advantageous for Johnson County.

For any questions that may arise, please contact Dustin Shearin at 423-727-7861.

Thanks!
