## X. Terms and Conditions

### A. Statement of Agreement

With the submission of a Statement of Qualifications (SOQ), the respondent agrees that he/she has carefully examined the Request for Qualifications and agrees that it is the respondent's responsibility to request clarification on any issues in any section of the Request for Qualifications with which the respondent disagrees or needs clarified. The respondent also understands that failure to mention these items during the question period or in the SOQ will be interpreted to mean that the respondent is in full agreement with the terms, conditions, specifications and requirements therein. With submission of an SOQ, the respondent hereby certifies: (a) that this SOQ is genuine and is not made in the interest or on behalf of any undisclosed person, firm, or corporation; (b) that respondent has not directly or indirectly included or solicited any other respondent to put in a false or insincere SOQ; (c) that respondent has not solicited or induced any person, firm, or corporation to refrain from sending an SOQ.

The respondent also understands that failure to provide required information may result in disqualification. Failure to provide administrative information may not result in disqualification. At the Community's discretion, the Community may notify the respondent that administrative information is not provided or there was an error in the information provided, **and** the Community will allow a respondent to provide an update to the administrative information. However, the exception to this is the provision of the required **GEORGIA SECURITY AND IMMIGRATION COMPLIANCE ACT AFFIDAVIT**, which by Georgia Law requires disqualification of the response. The above changes mentioned to administrative information would be considered allowable as these would be limited to changes which **do not** affect the information which the evaluators use to score the respondents. Failure of a respondent to provide the specific administrative information as required in the notice will result in disqualification. Any respondent who provides changes in addition to the information requested in the notice shall be subject to disqualification. Failure of a respondent's SOQ to provide any information pertaining to a respondent and its team's qualifications, of any type, will subject the SOQ to disqualification. The Community will not allow updates to qualifications to be provided to avoid disqualification as this would allow a respondent to modify its SOQ and alter the information which evaluators would score. The above changes related to qualifications would not be allowable as these would allow changes which **do** affect the information which the evaluators use to score the respondent's SOQ.

### B. Joint-Venture Proposals, Sub-Consultants, and Vendors

The Community does not generally desire to enter into "joint-venture" agreements with multiple firms. In the event two or more firms desire to "joint-venture", it is strongly recommended that one incorporated firm propose and maintain status as the Program Management firm with the remaining firms participating as major firms. Any joint-venture, proposed and established as a separate business entity, should have its own set of books and supporting documentation sufficient for an audit trail. Transactions should be recorded consistent with the joint-venture agreement, and care must be taken to ensure that the joint-venture bears its equitable share of the costs. Therefore, "unpopulated joint-ventures" would not have an adequate accounting system suitable for cost reimbursement contracts.

However more traditional "populated joint-ventures" are welcomed. A populated joint-venture is where an alliance is brought to life by infusing it with working capital, employees, and control systems. The alliance implements all necessary business systems, including payroll processing, purchasing, property control, etc.. The alliance will develop its own indirect rate structure and calculates its own indirect cost rates, based on the direct and indirect costs it incurs.

Sub-Consultants shall generally be considered any team member which is performing any service which typically requires prequalification, which is subject to the Audit and Accounting System Requirements, and whose services are billed as costs. Sub-Consultant Team Members must be written into the resulting Agreement and are subject to all terms and conditions in the Agreement. Vendors shall be considered any team member which is performing any service which typically does not require prequalification, which is not subject to the Audit and Accounting System Requirements, and whose services are billed as direct expenses. Vendors may not be written into the resulting Agreement and may not be subject to all terms and conditions in the Agreement.

### C. Non-Discrimination and Disadvantaged Business Enterprise (DBE) Requirements

The Community, in accordance with Title VI of the Civil Rights Act of 1964 and 78 Stat. 252, 42 USC 2000d--42 and Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, part 21, Nondiscrimination in federally assisted programs of the Department of Transportation issued pursuant to such Act, hereby notifies all proposers that it will affirmatively ensure that any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, sex, or national origin in consideration for an award.

**The Community has adopted a 15% Disadvantaged Business Enterprise (DBE) participation goal assigned to this scope of services. This goal is not to be considered as a fixed quota, set aside or preference. The DBE goal can be met by prime contracting, sub-contracting, joint-venture or mentor/ protégé relationship.**

For more information on the GDOT DBE Program please contact:

All expenses for preparing and submitting responses are the sole cost of the respondent submitting the response. The Community is not obligated to any respondent to reimburse such expenses. All submittals upon receipt become the property of the Community. Labeling information provided in submittals as "proprietary" or "confidential", or any other designation of restricted use will not protect the information from public view. Subject to the provisions of the Open Records Act, the details of the proposal documents will remain confidential until a final award.

#### **F. Award Conditions**

This request is not an offer to contract or a solicitation of bids. This request and any proposal submitted in response, regardless of whether the proposal is determined to be the best proposal, is not binding upon the Community and does not obligate the Community to procure or contract for any services. Neither the Community nor any respondent submitting a response will be bound unless and until a written contract mutually accepted by both parties is negotiated as to its terms and conditions and is signed by the Community and a respondent containing such terms and conditions as are negotiated between those parties. The Community reserves the right to waive non-compliance with any requirements of this Request for Qualifications and to reject any or all proposals submitted in responses. Upon review of responses, the Community will determine the respondent(s) proposal that in the sole judgment of the Community is in the best interest of the Community (if any is so determined), with respect to the evaluation criteria stated herein. The Community then intends to conduct negotiations with such respondent(s) to determine if an acceptable contract may be reached.

#### **G. Debriefings**

In lieu of Pre-Award and Post-Award debriefings, it shall be the Community's policy to provide the "Selection Package" at the time of the Selection Announcement (also referred to as the Announcement of Entering into

Negotiations). The "Selection Package" will include the scores and comments of phases for all firms who responded and will typically be provided as a PDF file and e-mailed. Previously, pre-award debriefings only provided the scores and comments of the firm. It shall be the policy of the Community that all debriefings will typically be conducted in writing.

#### **H. Right to Cancel or Change RFQ**

The Community reserves the right to cancel any and all Requests for Qualifications where it is determined to be in the best interest of the Community to do so. The Community reserves the right to increase, reduce, add or delete any item in this solicitation as deemed necessary.

It is the responsibility of all firms interested in submitting Statement of Qualifications (SOQs) for this advertisement to routinely check the posting on the Georgia Procurement Registry for any revisions to this RFQ.

#### **I. Substitutions, Alternates, Exceptions, and Extensions**

No substitutions or alternates will be accepted for this solicitation. Any respondent submitting substitutions or alternates will be considered non-responsive and will not be considered for award.

#### **J. Code of Conduct Pertaining to Conflict of Interest in the Award and Administration of Contracts**

Contractor warrants and represents that:

The Services to be performed hereunder will not create an actual or apparent conflict of interest with any other work it is currently performing; and

The firm is not presently subject to any agreement with a competitor or with any other party that will prevent the firm from performing in full accord with this Agreement; and

The firm is not subject to any statute, regulation, ordinance or rule that will limit its ability to perform its obligations under this Agreement; and

The firm shall be free to accept other work during the term hereof; provided, however, that such other work shall not interfere with the provision of Services hereunder.
