The U.S. Department of Agriculture prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339; or (800) 845-6136 (Spanish). USDA is an equal opportunity provider and employer.

The U.S. Department of Agriculture prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339; or (800) 845-6136 (Spanish). USDA is an equal opportunity provider and employer.

Code	po6320
Status	Active
Adopted	December 8, 1997
Last Revised	December 14, 2015

6320 - PROCUREMENT OF SUPPLIES, MATERIALS AND EQUIPMENT

General Guidelines

- A. It is the policy of the Board of Education that the procurement of all supplies, materials and equipment for the School District be done in an efficient and cost effective manner in compliance with all applicable laws and Board of Education policies.
- B. The Superintendent, or his/her designee, shall develop and oversee an efficient system for the procurement of supplies, materials and equipment, and shall develop and implement Administrative Guidelines for School District personnel regarding the procurement of supplies, materials and equipment, which are in compliance with all applicable laws and applicable Board of Education policies.

Procurement Thresholds

- A. Procurement of Supplies, Materials or Equipment costing an amount **less** than the State of Michigan Competitive Bidding Threshold
 - 1. The procurement of any item or group of items in a single transaction costing less than the State of Michigan Competitive Bidding Threshold may be made without obtaining competitive bids, provided that such procurement shall be made in accordance with School District Administrative Guidelines and applicable law. Purchases may not be divided into subunits or separate contracts for the sole purpose of avoiding the State of Michigan Competitive Bidding Threshold or the bidding requirements of this Paragraph.
 - 2. Notwithstanding Section II(A)(1) of this Policy, for purchases in excess of fifty (50%) percent, but less than the State of Michigan competitive Bidding Threshold, the School District shall obtain informal quotations, secured in person or by telephone or by means of other electronic communications to purchase supplies, materials or equipment required by the School District.
- B. Procurement of Supplies, Materials or Equipment costing an amount **equal to or greater** than the State of Michigan Competitive Bidding Threshold
 - 1. Prior to the procurement of any item or group of items in a single transaction costing an amount equal to or greater than the State of Michigan Competitive Bidding Threshold, the School District shall obtain competitive bids for those items in accordance with School District administrative guidelines, applicable Board of Education policies and applicable law. Purchases may not be divided into subunits or separate contracts for the sole purpose of avoiding the State of Michigan Competitive Bidding Threshold or bidding requirements of this paragraph.
 - 2. Any procurement which ensues from a competitive bid solicitation shall be awarded to the lowest responsible bidder, and the purchase shall be approved by the Board of Education.

3. All solicitation documents issued by the School District shall reserve in favor of the School District:

- a. The right to accept or reject any or all bids, in whole or in part;
- b. The right to waive any irregularities or informalities contained in any response/proposal to a bid solicitation to the extent not prohibited by law; and
- c. The right to accept a bid other than the lowest bid.

C. Section II(B) of this Policy does not apply to the following:

1. Items purchased through the cooperative bulk purchasing program operated by the department of management and budget under section 263(3) of the management and budget act, 1984 PA 431, MCL 18.1263.
2. Purchasing food unless the food is purchased in a single transaction costing \$1,000,000.00 or more.

Cooperative Purchasing/Bidding

Participation in purchasing cooperatives, with other schools, groups or governmental units, shall be permitted provided that the cooperative purchasing arrangement has met the School District's administrative guidelines, applicable Board of Education policies and applicable law.

Title	PROCUREMENT – FEDERAL GRANTS/FUNDS
Code	po6325
Status	Active
Adopted	May 16, 2016
Last Revised	November 12, 2018

6325 - PROCUREMENT – FEDERAL GRANTS/FUNDS

Procurement of all supplies, materials, equipment, and services paid for from Federal funds or District matching funds shall be made in accordance with all applicable Federal, State, and local statutes and/or regulations, the terms and conditions of the Federal grant, Board of Education policies, and administrative procedures.

The Superintendent shall maintain a procurement and contract administration system in accordance with the USDOE requirements (2 CFR 200.317-.326) for the administration and management of Federal grants and Federally-funded programs. The District shall maintain a contract administration system that requires contractors to perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Except as otherwise noted, procurement transactions shall conform to the provisions of the District's documented general purchasing Policy 6320 and AG 6320A.

All District employees, officers, and agents who have purchasing authority shall abide by the standards of conduct covering conflicts of interest and governing the actions of its employees, officers, and agents engaged in the selection, award, and administration of contracts as established in Policy 1130, Policy 3110 and Policy 4110 – Conflict of Interest.

The District will avoid acquisition of unnecessary or duplicative items. Additionally, consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. And, where appropriate, an analysis shall be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. These considerations are given as part of the process to determine the allowability of each purchase made with Federal funds.

To foster greater economy and efficiency, the District may enter into State and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.

Competition

All procurement transactions paid for from Federal funds or District matching funds shall be conducted in a manner that encourages full and open competition and that is in accordance with good administrative practice and sound business judgement. In order to promote objective contractor performance and eliminate unfair competitive advantage, the District shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

Some of the situations considered to be restrictive of competition include, but are not limited to, the following:

- A. unreasonable requirements on firms in order for them to qualify to do business;
- B. unnecessary experience and excessive bonding requirements;
- C. noncompetitive contracts to consultants that are on retainer contracts;
- D. organizational conflicts of interest;

E. specification of only a "brand name" product instead of allowing for an "or equal" product to be offered and describing the performance or other relevant requirements of the procurement; and

F. any arbitrary action in the procurement process.

Further, the District does not use statutorily or administratively imposed State, local, or tribal geographical preferences in the evaluation of bids or proposals, unless (1) an applicable Federal statute expressly mandates or encourages a geographic preference; or (2) the District is contracting for architectural and engineering services, in which case geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

To the extent that the District uses a pre-qualified list of persons, firms or products to acquire goods and services that are subject to this policy, the pre-qualified list includes enough qualified sources as to ensure maximum open and free competition. The District allows vendors to apply for consideration to be placed on the list periodically.

Solicitation Language

The District shall require that all solicitations made pursuant to this policy incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it shall conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which shall be met by offers shall be clearly stated; and identify all requirements which the offerors shall fulfill and all other factors to be used in evaluating bids or proposals.

The Board will not approve any expenditure for an unauthorized purchase or contract.

Procurement Methods

The District shall utilize the following methods of procurement:

A. Small Purchases

Small purchase procedures provide for relatively simple and informal procurement methods for securing services, supplies, and other property that does not exceed the competitive bid threshold. Small purchase procedures require that price or rate quotations shall be obtained from an adequate number of qualified sources.

B. Sealed Bids

Sealed, competitive bids shall be obtained when the purchase of, and contract for, single items of supplies, materials, or equipment which amounts to more than the amount allowed by Michigan statute and when the Board determines to build, repair, enlarge, improve, or demolish a school building/facility the cost of which will exceed the amount allowed by Michigan statute.

In order for sealed bidding to be feasible, the following conditions shall be present:

1. a complete, adequate, and realistic specification or purchase description is available;
2. two (2) or more responsible bidders are willing and able to compete effectively for the business; and
3. the procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

When sealed bids are used, the following requirements apply:

1. Bids shall be solicited in accordance with the provisions of State law and Policy 6320. Bids shall be solicited from an adequate number of qualified suppliers, providing sufficient response time prior to the date set for the opening of bids. The invitation to bid shall be publicly advertised.
2. The invitation for bids will include product/contract specifications and pertinent attachments and shall define the items and/or services required in order for the bidder to properly respond.

3. All bids will be opened at the time and place prescribed in the invitation for bids; bids will be opened publicly.
4. A firm fixed price contract award will be made in writing to the lowest responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken.
5. The Board reserves the right to reject any or all bids for sound documented reason.

C. Competitive Proposals

Procurement by competitive proposal, normally conducted with more than one source submitting an offer, is generally used when conditions are not appropriate for the use of sealed bids or in the case of a recognized exception to the sealed bid method.

If this method is used, the following requirements apply:

1. Requests for proposals shall be publicized and identify all evaluation factors and their relative importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.
2. Proposals shall be solicited from an adequate number of sources.

Contract/Price Analysis

The District shall perform a cost or price analysis in connection with every procurement action in excess of \$250,000, including contract modifications. A cost analysis generally means evaluating the separate cost elements that make up the total price, while a price analysis means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the District shall come to an independent estimate prior to receiving bids or proposals.

When performing a cost analysis, the District shall negotiate profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

Time and Materials Contracts

The District uses a time and materials type contract only (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to the District is the sum of the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, the District sets a ceiling price for each contract that the contractor exceeds at its own risk. Further, the District shall assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Suspension and Debarment

The District will award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement. All purchasing decisions shall be made in the best interests of the District and shall seek to obtain the maximum value for each dollar expended. When making a purchasing decision, the District shall consider such factors as (1) contractor integrity; (2) compliance with public policy; (3) record of past performance; and (4) financial and technical resources.

The Superintendent shall have the authority to suspend or debar a person/corporation, for cause, from consideration or award of further contracts. The District is subject to and shall abide by the nonprocurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR Part 180.

Suspension is an action taken by the District that immediately prohibits a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 CFR chapter 1) for a temporary period, pending completion of an agency investigation and any judicial or administrative proceedings that may ensue. A person so excluded is suspended. (2 CFR Part 180 Subpart G)

Debarment is an action taken by the Superintendent to exclude a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 CFR chapter 1). A person so excluded is debarred. (2 CFR Part 180 Subpart H)

The District shall not subcontract with or award subgrants to any person or company who is debarred or suspended. For contracts over \$25,000, the District shall confirm that the vendor is not debarred or suspended by either checking the Federal government's System for Award Management, which maintains a list of such debarred or suspended vendors at www.sam.gov; collecting a certification from the vendor; or adding a clause or condition to the covered transaction with that vendor. (2 CFR Part 180 Subpart C)

Bid Protest

The District maintains the following protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency.

A bidder who wishes to file a bid protest shall file such notice and follow procedures prescribed by the Request For Proposals (RFPs) or the individual bid specifications package, for resolution. Bid protests shall be filed in writing with the Superintendent within seventy-two (72) hours of the opening of the bids in protest.

Within five (5) days of receipt of a protest, the Superintendent shall review the protest as submitted and render a decision regarding the merits of the protest and any impact on the acceptance and rejection of bids submitted. Notice of the filing of a bid protest shall be communicated to the Board and shall be so noted in any subsequent recommendation for the acceptance of bids and awarding of contracts.

Failure to file a notice of intent to protest, or failure to file a formal written protest within the time prescribed, shall constitute a waiver of proceedings.

Maintenance of Procurement Records

The District maintains records sufficient to detail the history of all procurements. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price (including a cost or price analysis).

8500 - **FOOD SERVICES**

The Board of Education shall provide cafeteria facilities in all school facilities where space and facilities permit, and will provide food service for the purchase and consumption of lunch for all students.

The Board shall also provide a breakfast program in accordance with procedures established by the Department of Education.

The Board does not discriminate on the basis of race, color, national origin, sex (including sexual orientation or transgender identity), disability, age (except as authorized by law), religion, military status, ancestry, or genetic information (collectively, "Protected Classes") in its educational programs or activities. Students and all other members of the School District community and third parties are encouraged to promptly report incidents of unlawful discrimination and/or retaliation to a teacher, administrator, supervisor, or other District official so that the Board may address the conduct. See Policy 2260 - Nondiscrimination and Access to Equal Educational Opportunity.

The food-service program shall comply with Federal and State regulations pertaining to the selection, preparation, delivery, consumption, and disposal of food and beverages, including but not limited to the current USDA's school meal pattern requirements for Americans and the USDA Smart Snacks in School nutrition standards, as well as to the fiscal management of the program. In addition, as required by law, a food safety program based on the principles of the Hazard Analysis and Critical Control Point (HACCP) system shall be implemented with the intent of preventing food-borne illnesses. For added safety and security, access to the facility and the food stored and prepared therein shall be limited to food service staff and other authorized persons.

Substitutions to the standard meal requirements shall be made, at no additional charge, for students for whom a healthcare provider who has prescriptive authority in the State of Michigan has provided medical certification that the student has a disability which restricts his/her diet, in accordance with the criteria set forth in 7 CFR 15(b). To qualify for such substitutions the medical certification must identify:

- A. the student's disability and the major life activity affected by the disability;
- B. an explanation of why the disability affects the students diet; and
- C. the food(s) to be omitted from the student's diet, and the food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

On a case by case basis, substitutions to the standard meal requirements may be made, at no additional charge, for students who are not "disabled persons", but have a signed statement from a qualified medical authority that the student cannot consume certain food items due to medical or other special dietary needs. To qualify for such consideration and substitutions the medical statement must identify:

- A. the medical or dietary need that restricts the student's diet; and
- B. the food(s) to be omitted from the student's diet and the food(s) or choice of foods that may be substituted.

For non-disabled students who need a nutritional equivalent milk substitute, only a signed request by a parent or guardian is required.

Lunches sold by the school may be purchased by students and staff members and community residents in accordance with the administrative guidelines established by the Superintendent.

The operation and supervision of the food-service program shall be the responsibility of the Director of Finance & Operations and the Food Service Director. Food services shall be operated on a self-supporting basis with revenue from students, staff, Federal reimbursement, and surplus food. The Board shall assist the program by furnishing available space, initial major equipment, and utensils. Maintenance and replacement of equipment is the responsibility of the program.

A periodic review of the food-service accounts shall be made by the Director of Finance & Operations. Any surplus funds from the National School Lunch Program shall be used to reduce the cost of the service to students or to purchase cafeteria equipment. Surplus funds from a-la-carte foods purchased using funds from the nonprofit food service account must accrue to the nonprofit food service account.

Bad debt incurred through the inability to collect lunch payment from students is not an allowable cost chargeable to any Federal program. Any related collection cost, including legal cost, arising from such bad debt after they have been determined to be uncollectable are also unallowable.

Bad debt is uncollectable/delinquent debt that has been determined to be uncollectable by the end of the school year in which the debt was incurred. If the uncollectable/delinquent debt cannot be recovered by the School Meals Program in the year when the debt was incurred, then this is classified as bad debt. Once classified as bad debt, non-Federal funding sources must reimburse the NSFSA for the total amount of the bad debt. The funds may come from the district general fund, State or local funding, school or community organizations such as the PTA, or any other non-federal source. Once the uncollectable/delinquent debt charges are converted to bad debt, records relating to those charges must be maintained in accordance with the record retention requirements in 7 CFR 210.9(b) (17) and 7 CFR 210.15(b).

The Superintendent is authorized to develop and implement an administrative guideline regarding meal charge procedures. This guideline will provide consistent directions for students who are eligible for reduced price or paid meals but do not have funds in their account or in hand to cover the cost of their meal at the time of service.

This guideline shall be provided in writing to all households at the start of each school year and to households transferring to the school or School District during the school year.

With regard to the operation of the school food service program, the Superintendent shall require:

- A. the maintenance of sanitary, neat premises free from fire and health hazards;
- B. the preparation of food that complies with Federal food safety regulations;
- C. the planning and execution of menus in compliance with USDA requirements;
- D. the purchase of foods and supplies in accordance with State and Federal law, USDA regulations, and Board policy (See Policy 1130, Policy 3110, and Policy 4110);
- E. complying with food holds and recalls in accordance with USDA regulations;
- F. the accounting and disposition of food-service funds pursuant to Federal and State law and USDA regulations;
- G. the safekeeping and storage of food and food equipment pursuant to State and Federal law and USDA regulations;
- H. the regular maintenance and replacement of equipment;
- I. all District employees whose salaries are paid for with USDA funds or non-federal funds used to meet a match or cost share requirement must comply with the District's time and effort record-keeping policy (See Policy 6116).

The District shall serve only nutritious food as determined by the Food Service Department in compliance with the current USDA Nutrition Standards for the National School Lunch and School Breakfast Programs and the USDA Smart Snacks in School nutrition guidelines. Foods and beverages unassociated with the food-service program must comply with the current USDA Nutrition Standards for the National School Lunch and School Breakfast Programs and the USDA Smart Snacks in School nutrition guidelines, and may be vended in accordance with Board Policy 8540.

The Superintendent will require that the food service program serve foods in District schools that are wholesome and nutritious and reinforce the concepts taught in the classroom.

8510 - **WELLNESS**

As required by law, the Board of Education establishes the following wellness policy for the Wayland Union School District.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research concludes that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

The Board, however, believes this effort to support the students' development of healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

A. With regard to nutrition education, the District shall:

1. Nutrition education shall be included in the Health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
2. Nutrition education shall be integrated into other subject areas of the curriculum, when appropriate, to complement, but not replace, the standards and benchmarks for health education.
3. Nutrition education standards and benchmarks shall be age- appropriate and culturally relevant.
4. Nutrition education shall include enjoyable, developmentally appropriate and culturally relevant participatory activities, such as contests, promotions, taste testing, and others.
5. Nutrition education shall extend beyond the classroom by engaging and involving the school's food service staff.
6. Nutrition education posters, such as the My Plate, will be displayed in the cafeteria.
7. Nutrition education shall reinforce lifelong balance by emphasizing the link between caloric intake (eating) and exercise in ways that are age-appropriate.
8. Nutrition education standards and benchmarks promote the benefits of a balanced diet that includes fruits, vegetables, whole grain products, and low-fat and fat-free dairy products.

B. With regard to physical activity, the District shall:

1. Physical Education

- a. A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with the standards and benchmarks established by the State.
- b. The physical education curriculum shall provide sequential instruction related to the knowledge, attitudes, and skills necessary to participate in lifelong, health-enhancing physical activity.
- c. Physical education classes shall provide students with opportunities to learn, practice, and be assessed on developmentally appropriate knowledge, attitudes and skills necessary to engage in lifelong, health-enhancing physical activity.
- d. The sequential, comprehensive physical education curriculum shall stress the importance of remaining physically active for life.
- e. Planned instruction in physical education shall be sufficient for students to achieve a proficient level with regard to the standards and benchmarks established by the State.
- f. The K-12 program shall include instruction in physical education as well as opportunities to participate in competitive and non-competitive team sports to encourage lifelong physical activity.
- g. Planned instruction in physical education shall require students to be engaged in moderate to vigorous physical activity for at least fifty percent (50%) of scheduled class time.
- h. Properly certificated, highly qualified teachers shall provide all instruction in physical education.
- i. Planned instruction in physical education shall teach cooperation, fair play, and responsible participation.
- j. Planned instruction in physical education shall meet the needs of all students, including those who are not athletically gifted.
- k. Planned instruction in physical education shall be presented in an environment free of embarrassment, humiliation, shaming, taunting, or harassment of any kind.
- l. Planned instruction in physical education shall include cooperative as well as competitive games.
- m. Planned instruction in physical education shall take into account gender and cultural differences.
- n. Planned instruction in physical education shall promote participation in physical activity outside the regular school day.

2. Physical Activity

- a. Physical activity should not be employed as a form of discipline or punishment.
- b. Physical activity and movement shall be integrated, when possible, across the curricula and throughout the school day.
- c. Schools shall discourage extended periods of student inactivity, defined as two (2) hours or more without some physical activity.

C. With regard to other school-based activities the District shall:

1. The schools shall schedule mealtimes so there is minimum disruption by bus schedules, recess, and other special programs or events.
2. The school shall provide attractive, clean environments in which the students eat.
3. Activities, such as tutoring or club meetings, shall not be scheduled during mealtimes, unless students may eat during those meetings.

K. Continuing professional development shall be provided for all staff of the food service program.

The Board designates the Director of Dining Services as the individual(s) charged with operational responsibility for verifying that the District meets the goals established in this policy.

The Superintendent is also responsible for informing the public, including parents, students and community members, on the content and implementation of this policy. In order to inform the public, the Superintendent shall include information on the School District's web site.

The District shall assess the Wellness Policy at least once every three (3) years on the extent to which schools in the District are in compliance with the District policy, the extent to which the District policy compares to model wellness policies, and the progress made in attaining the goals of the District Wellness Policy. The assessment shall be made available to the public on the School District's web site.

	7 C.F.R. Parts 210 and 220

4. Students, parents, and other community members shall have access to, and be encouraged to use, the school's outdoor physical activity facilities outside the normal school day.
 5. Schools in our system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
 6. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about allergies and other restrictions on some students' diets.
- D. With regard to nutrition promotion, any foods and beverages marketed or promoted to students on the school campus, during the school day, will meet or exceed the USDA Smart Snacks in School nutrition standards.

Additionally, the District shall:

1. encourage students to increase their consumption of healthful foods during the school day;
2. require students to select a fruit or vegetable as part of a complete reimbursable meal
3. provide opportunities for students to develop the knowledge and skills for consuming healthful foods

- E. The District nutrition department will promote and encourage Farm to School efforts in order to provide the healthy foods identified above.

Furthermore, with the objectives of enhancing student health and well being, and reducing childhood obesity, the following guidelines are established:

- A. In accordance with Policy 8500, entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages, including but not limited to the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, as well as to the fiscal management of the program.
- B. As set forth in Policy 8531, entitled Free and Reduced Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).

The sale of foods of minimal nutritional value in the food service area during the lunch period is prohibited.

- C. The sale of foods and beverages to students that do not meet the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards to be consumed on the school campus during the school day is prohibited.
- D. All food items and beverages available for sale to students for consumption on the school campus (any area of property under the jurisdiction of the school that is accessible to students during the school day) between midnight and thirty (30) minutes after the close of the regular school day shall comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, including, but not limited to, competitive foods that are available to students a la carte or as entrees in the dining area (except entree items that were offered on the National School Lunch Program (NSLP) or School Breakfast Program (SBP) menu on the day of and the day after they are offered on the NSLP or SBP menu), as well as food items and beverages from vending machines, from school stores, or as fund-raisers, including those operated by student clubs and organizations, parent groups, or boosters clubs.
- E. All foods offered on the school campus during the school day shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods that are available to students a la carte in the dining area, as classroom snacks, or from vending machines.
- F. It is encouraged that all food and beverages that are provided, other than through sale, on the school campus during the school day (which may include classroom snacks, for classroom parties, and at holiday celebrations) shall promote healthy choices.
- G. The food service program will strive to be financially self-supporting; however, if it is necessary to subsidize the operation, it will not be through the sale of foods with minimal nutritious value.
- H. The food service program shall be administered by a qualified nutrition professional.
- I. The food service program shall be administered by a director who is properly qualified, certificated, licensed, or credentialed, according to current professional standards.
- J. All food service personnel shall receive pre-service training in food service operations.

Wayland Union Schools Food Service Department

Scott Larson, Director of Dining Services

324 W Sycamore St., Wayland, MI 49348

Wayland Union Schools Meal Charge Administrative Guidelines (AG 8500D) Procedures

Effective Date: September 5, 2017

Background:

According to the United States Department of Agriculture Food and Nutrition Service, school districts are not obligated to provide meals, nor extend credit to children who forget their lunch money.

The Wayland Union Schools Food Service Department, however, realizes the need to provide nutritious meals to students, so they are best prepared to learn. The Food Service Department must do so in a fiscally responsible manner.

Upon enrollment, all students have a Food Service account created in order to properly account for meals provided, as well as for maintaining positive and negative account balances.

Policy:

Student account balances for all grade levels shall be set at a level not to exceed a negative balance in the amount of \$10.

Once a student's account balance reaches, or exceeds a negative balance of \$10, the student will receive a negative balance meal consisting of a choice of either a peanut butter or a cheese sandwich. In addition, the student will be able to choose his/her fruit and vegetable component(s) from the food bar and will also be able to select his/her choice of milk. Negative balance meals will be charged to student accounts.

Snack, beverage or "ala carte" items shall not be charged under any circumstance where a student balance is \$0.00, or negative. This includes second meals and entrée only purchases.

As the District believes that breakfast is the most important meal of the day and that hungry students cannot learn, breakfast meals shall be allowed to be charged and no alternate meal will be offered. All breakfasts served will continue to increase the negative balance.

When a student account balance reaches \$5.00 or less, a low, or negative balance notification will be sent to the parent/guardian electronically. Notifications will continue to be sent electronically on a daily basis until funds are provided for the student's account to bring the balance to above \$5.00.

Negative balance procedure for elementary level students:

- On the first instance a student's account reached a negative balance, the student will receive a verbal indication of their negative balance from the cashier.
- On the second instance a meal is charged, a blue low balance slip (in an envelope Attn: Parent/Guardian) will be handed to the student by the cashier. This low balance slip will state that a deposit must be made to the student's account and only two (2) additional meals may be charged before the student will be required to choose a negative balance meal.
- On the third instance a meal is charged, a yellow low balance slip (in an envelope Attn: Parent/Guardian) will be handed to the student by the cashier. This low balance slip will state that a deposit must be made on the student's account and only one (1) additional meal may be charged before the student will be required to choose a negative balance meal.
- On the final instance a meal is charged, an orange low balance slip (in an envelope Attn: Parent/Guardian) will be handed to the student by the cashier. This low balance slip will state that a deposit must be made on the student's account and no additional meals may be charged. The next meal will be a negative balance meal unless a deposit is made to the account.
- When a student must choose a negative balance meal, his/her teacher will receive an email from the cafeteria manager in the morning prior to choosing his/her meal selection for the day. The teacher will remind the student they must sign up for a negative balance meal for the day.

Negative balance procedure for intermediate level (Pine) and secondary level students:

- On the first instance a student's account reached a negative balance, the student will receive a verbal indication of their negative balance from the cashier.
- On the second instance a meal is charged, a blue low balance slip (in an envelope Attn: Parent/Guardian) will be handed to the student by the cashier. This low balance slip will state that a deposit must be made to the student's account and only two (2) additional meals may be charged before the student will be required to choose a negative balance meal.
- On the third instance a meal is charged, a yellow low balance slip (in an envelope Attn: Parent/Guardian) will be handed to the student by the cashier. This low balance slip will state that a deposit must be made on the student's account and only one (1) additional meal may be charged before the student will be required to choose a negative balance meal.
- On the final instance a meal is charged, an orange low balance slip (in an envelope Attn: Parent/Guardian) will be handed to the student by the cashier. This low balance slip will state that a deposit must be made on the student's account and no additional meals may be charged. The next meal will be a negative balance meal unless a deposit is made to the account.
- Students will be required to choose a negative balance meal when arriving to the cafeteria. The four (4) prior notifications will serve as sufficient reminder to the student.

When a student account balance reaches a negative \$15.00 balance, the Food Service Director will call the student's parent(s) to determine when payment can be expected.

When a student account balance reaches a negative \$25.00 balance, the Food Service Director will alert the Director of Finance and Operations who will then determine next steps, which may include some, or all of the following:

- 1) Contacting the Department of Social Services on behalf of the student;
- 2) Determining whether or not the parent should be contacted and advised to provide lunch for the student;
- 3) Contacting a collection agency.

Sample notification slips:

First Notice of Negative Lunch Account Balance

Your child's lunch account has reached a negative balance. Please submit payment. You may do so by sending cash or check with your child to be given to the cashier or by paying with a credit card on the Infinite Campus Parent Portal.

Your child will receive two (2) more notifications before receiving a negative balance meal consisting of a peanut butter or cheese sandwich, fruits/veggies and a milk.

Have you applied for Free or Reduced Meal Benefits?
Please contact Food Service Department at 269-792-3150 for details.

Second Notice of Negative Lunch Account Balance

Your child's lunch account has reached a negative balance. Please submit payment. You may do so by sending cash or check with your child to be given to the cashier or by paying with a credit card on the Infinite Campus Parent Portal.

Your child will receive one (1) more notification before receiving a negative balance meal consisting of a peanut butter or cheese sandwich, fruits/veggies and a milk.

Have you applied for Free or Reduced Meal Benefits?
Please contact Food Service Department at 269-792-3150 for details.

Final Notice of Negative Lunch Account Balance

Your child's lunch account has reached a negative balance. Please submit payment. You may do so by sending cash or check with your child to be given to the cashier or by paying with a credit card on the Infinite Campus Parent Portal.

If payment is not received, your child will receive a negative balance meal consisting of a peanut butter or cheese sandwich, fruits/veggies and a milk.

Have you applied for Free or Reduced Meal Benefits?
Please contact the Food Service Department at 269-792-3150 for details.
