BID SPECIFICATIONS

A. Project Location

The project is located on the eastern end of Russian Road. See highlighted red “range area” on the map below.

B. Project Description

The City of Orange Beach owns an 80 acre parcel located on the eastern end of Russian Road. The City was in the process of clearing an approximately 10.5 acre section of this parcel to develop into a new shooting range when Hurricane Sally made landfall, taking down a large portion of trees selected to remain in place. The City is accepting bids to remove the storm debris as well as the remaining vegetation previously cleared for construction. The City reserves the right to increase or reduce the area to be cleared, grubbed and graded. The lump sum bid total shall include the cost of all labor and materials required to complete the project. The City of Orange Beach is tax exempt.

C. City Staff Contact

The City’s staff contact for this project shall be the Coastal Operations Manager:

Wade Stevens, 251-747-5510, wstevens@orangebeachal.gov

D. Inspection of Work Site

Bidders are responsible for viewing the work site prior to bidding. Arrangements for access made with Wade Stevens, 251-747-5510. Bidders are responsible for ensuring that the current roads, gates, and other features of the work site are adequate for truck and equipment access and performance of the work. The cost of any necessary modifications must be included in the lump sum bid total and noted on the bid form.

E. Work Schedule

After contract award, the successful bidder shall coordinate the work schedule with the Coastal Operations Manager.

F. Scope of Work

The successful bidder shall provide clearing, grubbing, and grading of an approximately 10.5 acre area that will serve as the site for a new City of Orange Beach Shooting Range. It is understood that except as otherwise specifically stated in the Contract Documents, the Contractor shall provide all labor, tools, equipment, water, light, power, transportation, supervision, temporary construction of every nature, and all other services and facilities of every nature whatsoever necessary to execute, complete, and deliver the work within the specified time.

1. Description

Clearing and grubbing shall be the removal and disposal of vegetation (trees, shrubs, vines, stumps, roots, etc.) and other objects (trash, refuse, debris, etc.) within designated limits.

Part A: Access Roads – approximately 2,000 linear feet

Remove all downed and/or substantially damaged trees and vegetative debris from roads and areas within thirty feet of road edge. Additionally, remove any damaged leaning trees further than thirty feet, but threatening the road access if they were to fall. Cut and remove any dangerous hanging limbs. All stumps shall be removed. Material shall be chipped on-site to be used for Part B.

Part B: Range Development Area – approximately 10.5 acres

Clear, grub and grade this area. Remove all downed and/or substantially damaged trees and vegetative debris from the designated area. Additionally, remove any damaged leaning trees threatening the designated area if they were to fall. Cut and remove any dangerous hanging limbs. All stumps and roots shall be removed. Grubbing shall be the complete removal, regardless of depth in the ground, of vegetation and other objects where any part of the vegetation or object is within one foot of the ground surface. Material shall be chipped on-site and spread in designated areas to the extent that the quantity allows. After the designated area has been grubbed, the surface shall be brought to a level rough grade.

2. Materials

Herbicides allowed for use shall be approved by the Coastal Operations Manager. Only herbicides listed in the ALDOT "Manual for Roadside Vegetation Management" shall be used.

3. Construction Requirements

a. Control of Erosion and Stormwater Runoff

Contractor shall follow the requirements for the control of erosion and stormwater runoff given in Article 107.21 and Section 665 of the 2018 ALDOT Standard Specifications. These requirements shall be implemented prior to the beginning of initial clearing operations.

b. Work Limits

The Coastal Operations Manager will designate the location and extent of right of way lines, easement lines, and construction limits. Work limits may be designated by the Coastal Operations Manager within right of way lines, easement lines, and construction limits when limited work is required. The Contractor shall not exceed the maximum limit established for the exposure of erodible material.

c. Vegetation Designated to Remain Undisturbed

The Contractor shall not damage vegetation and terrain that the Coastal Operations Manager designates to remain undisturbed. Damage shall be repaired without additional compensation as directed by the Coastal Operations Manager.

d. Disposal of Materials

The Contractor shall dispose of all removed materials. The Contractor shall comply with all local, State and Federal laws and ordinances pertaining to disposal.

The Contractor shall submit a plan for the satisfactory disposal of materials. Clearing shall not begin until the Coastal Operations Manager accepts the plan as having sufficient detail. The plan shall include an acceptable means for the treatment of disposal areas so as not to present an unsightly appearance, create a public nuisance or create future maintenance problems for the City.

The disposal plan shall provide for the satisfactory disposal of biodegradable materials and rubbish within 30 days after accumulation, unless a longer period is authorized in writing by the Coastal Operations Manager, to prevent the infestation of pests. Burning will not be allowed.

Disposal by the indiscriminate dumping of materials, with or without the property owner's consent, is not satisfactory disposal. The Contractor shall obtain written permission from the property owner for any disposal area. A copy of the written permission from the property owner shall be submitted to the Coastal Operations Manager prior to disposal.

The use of mechanical brush clippers or other recycling methods may be considered for approval.

4. Method of Measurement

a. General

The area to be cleared and grubbed will include the entire area within the construction limits, right of way lines and easement lines and will be measured as one lump sum unit. An approximate number of acres will be given in the pay item description.

b. Partial Payment

The estimated percentage of the total area cleared and grubbed each month will be multiplied by the Contractor's bid price for Item 2. These percentage payments will be made each month work is performed on this item until the entire project has been cleared and grubbed.

5. Basis of Payment

Clearing and grubbing will be paid at the contract unit price which shall be full compensation for furnishing all materials, equipment, tools, labor and incidentals necessary to complete and maintain the work until acceptance of the project. Where the limits of construction are shown on the plans to extend beyond the beginning or end of the project, payment for the clearing and grubbing of these areas shall be included in the contract price.

G. Storage of Materials and Equipment

Contractor equipment may be staged onsite. It is expressly noted that no payments will be made for materials or equipment stored offsite.

CONTRACT (SAMPLE)

THIS AGREEMENT, made and entered into the ____ day of _____, 2020, by and between _____, hereinafter called the Contractor, and the **City of Orange Beach, Alabama**, and/or its assigns, hereinafter called the Owner.

WITNESSETH:

That the Contractor, for the consideration hereinafter set out, hereby agrees with the Owner as follows:

1. That the Contractor shall perform all of the work in a satisfactory manner in accordance with the plans, specifications, bid requirements and conditions, which are attached hereto and made a part hereof as if fully contained herein, for **SHOOTING RANGE SITE CLEARING**.
2. That the Contractor shall commence the work to be performed under this agreement within the Contract Time as defined in the *General Conditions*.

All work shall be accomplished with quality in a manner which will maintain safety to life and property, and reduce to a minimum any interference with abutting property or public travel. All work shall be inspected and approved by the City Utilities Director or his designee as Owner's representatives before payment shall be made.

3. The Owner hereby agrees to pay to the Contractor for satisfactory performance of the agreement, subject to additions and deductions as provided in the contractual documents, in lawful money of the United States as follows:

4. Estimates of work completed shall be made by the Contractor each month and submitted to the Owner. Within thirty (30) calendar days after submittal by the Contractor, the owner shall make partial payments to the Contractor on the basis of the estimate of work, duly certified and approved by the City Construction Manager, and performed during the preceding calendar month by the Contractor, less two and a half percent (2.5%) of the amount of such estimate which is to be retained by the owner until all work (100%) has been satisfactorily completed in accordance with this agreement.
5. Upon substantial completion and inspection of all work covered by this agreement, payment of the Contract sum shall be made within thirty (30) calendar days, less retainage.

Said retainage shall be retained until: 1) Submission by the Contractor of evidence satisfactory to the Owner that all payrolls, material bills, and other costs incurred by the Contractor in connection with the construction of the work have been paid in full including a Waiver and Release of Lien on the form included in the Contract Documents; 2) Legal notice of advertisement of completion has been advertised four (4) consecutive weeks in some newspaper of general circulation in Baldwin County, Alabama, as approved by

the Owner; 3) Final inspection by the City Coastal Operations Manager or his designee and final acceptance of the work by the Owner.

- 6. It is mutually agreed between the Owner and the Contractor that timely performance is of the essence to this Contract, and the Contractor agrees to keep a working force on the job of the size that is adequate to perform all work in accordance with the Contractor’s approved work schedule.
- 7. The Contractor hereby agrees to warrant that all material and workmanship is of the quality, quantity, and character specified and shown, and that any faulty materials or workmanship made known to him within one (1) year after date of final certificate of payment shall be made good by him without additional expense to the Owner.

Failure to complete the work within the allotted Contract time will cause loss to the Owner in administrative, engineering, inspection, interest, and supervision charges. Therefore, any overrun in the Contract time, which in the opinion of the City Contract Manager is caused by undue delay, shall be charged to the Contractor at \$300.00 per day and deducted from the final payment as liquidate damages.

- 8. The Owner reserves the right to terminate the contract upon written notice to the Contractor at least five (5) days prior to said termination. In the event that the Contract is terminated, the Contractor will be compensated in accordance with the bid items of the Contract and its attachment for all approved work in place.
