DATE: September 18, 2020
TO: Prospective Respondents
FROM: Amy Lucey, Contracts Administrator
SUBJECT: Addendum #4 to Invitation for Bids # 35868, Crane Creek M-1 Canal Restoration

As a result of inquiries, the following clarifications/changes are provided for your information. Please make all appropriate changes to your bid documents. Note: changes are reflected with original language shown with strike-through and new language is underlined.

- Q1. There is confusion about Question 10 and its response. Please clarify, we are to delete all the bollards in Section A-A (along the slope sections, fence ONLY) and add handrail on top of the wings where the red line is shown below.
- Q10. Permanent bollards details are shown on sheets C5-3 and C5-8. Section A-A on Sheet C5-3 indicates the bollards are to be installed at 5' o.c. along the top slope of the weir behind the fencing. The detail on C5-8 directs us to install "as shown on the drawings or as directed in the field". There are no specific bollards shown along the top of the weir beyond the note to install at 5' o.c. Please clarify what, if any, bollards are required.
- A10. Please delete the requirement for bollards from Section A-A. Add FDOT safety railing at the locations shown on the sketch below.

A1: **Correct, delete the bollards along the top of the slope. We are still constructing fence along the top of the slope. Add safety railing where we showed it in red (this is the area of vertical drop).**

NOTE: The Bid Opening **remains** 2:00 p.m., **Thursday, September 24, 2020**

Please acknowledge receipt of this Addendum on the **BID FORM** provided in the bid package.
