

Peralta Community College District

REQUEST FOR QUALIFICATIONS

GEOTECHNICAL ENGINEERING FIRMS

RFQ # 22-23/05

NOTICE IS HEREBY GIVEN that the Peralta Community College District (“District”) is requesting qualified persons, firms, partnerships, corporations, associations, or professional organizations (“Applicants”) to provide full **GEOTECHNICAL ENGINEERING** and related services (“Services”) to the District for the Measure A and Measure G Bond Programs (“Program”) and projects identified in the District’s Bond Project List and Long-Range Facilities Master Plan (“Projects”).

ALL SOQs ARE DUE ELECTRONICALLY BY 2:00 PM ON August 26, 2022. Oral, telegraphic, facsimile, telephone, or email SOQs will not be accepted. SOQs received after this date and time will not be accepted. All SOQs must be submitted electronically using the Peralta Community College website through the purchasing department through the following link:

<https://build.peralta.edu/vendor-registration>

Each submittal must conform and be responsive to the requirements set forth in this RFQ.

The District reserves the right to waive any informalities or irregularities in received submittals. Further, the District reserves the right to reject any and all submittals and to negotiate contract terms with one or more respondent firms for one or more of the work items. The District retains the sole discretion to determine issues of compliance and to determine whether a respondent is responsive, responsible, and qualified.

If you have any questions regarding this RFQ, please submit them via Vendor Registry at the link above before **2:00 PM on August 19, 2022**. Answers will be posted on the District website by **August 23, 2022**.

RFQ RESPONSE SCHEDULE SUMMARY

The District reserves the right to change the dates on the schedule without prior notice.

Date	Event
August 12, 2022	Release of RFQ
August 19, 2022; 2:00 PM PST	Deadline for submitting written questions
August 23, 2022	Deadline for District answering written questions
August 26, 2022; 2:00 PM PST	Deadline for submitting SOQs
October 2022 TBD	Board of Trustees Meeting

PART I.

INTRODUCTION

Founded in 1964, the Peralta Community College District (“PCCD” or “District”) is a collaborative community of colleges comprised of Berkeley City College, College of Alameda, Laney College, and Merritt College. The Peralta Colleges provide a dynamic multicultural learning environment offering accessible, high-quality educational programs and services, including two-year degrees, certificates, and university transfer programs to more than 30,000 students. The District currently has an active program at all four sites. Approved by voters in 2006, Measure A allows the District to issue and sell bonds of up to \$390,000,000. Measure G was approved by the voters in November 2018, allowing the District to issue and sell bonds up to \$800,000,000.

This RFQ defines the Services sought and generally outlines the Projects’ requirements.

The District’s goal in issuing this RFQ is to select a pool of experienced Geotechnical Engineering firms that can provide such services. From there, the District intends to issue request for proposals (RFP) in order to select one or more qualified firm(s) from that pool to provide said services to the District. The District will enter into a separate contract with the final selected firm for each subject project.

Information regarding the Program is available at: <https://build.peralta.edu>

LIMITATIONS

The District reserves the right to contract with any entity responding to this RFQ. The District makes no representation that participating in the RFQ process will lead to an award of contract or any consideration whatsoever. The District shall in no event be responsible for the cost of preparing a response to this RFQ. The awarding of a contract, if at all, is at the sole discretion of the District.

The District reserves the right to reject any and all SOQs, to waive any irregularities or informalities not affected by law, to evaluate each SOQ submitted, and to award contracts, if any, according to the SOQ which best serves the interest of the District at a reasonable cost to the District. Any contract(s) resulting from this RFQ, however, will be carried out using the

sample Independent Consultant Services Agreement in the form package attachment on Vendor Registry.

The respondent's SOQ package, and any other supporting materials submitted to the District in response to this RFQ, will not be returned and will become the property of the District unless portions of the materials are designated as proprietary at the time of submittal, and are specifically requested to be returned. Vague designations and/or blanket statements regarding entire pages or documents are insufficient and will not bind the District to protect the designated matter from disclosure. Pursuant to *Michaelis, Montanari & Johnson v. Superior Court* (2006) 38 Cal.4th 1065, SOQ packages shall be held confidential by the District and shall not be subject to disclosure under the California Public Records Act until after either: (1) the District and the successful Respondent have completed negotiations and entered into an Agreement, or (2) the District has rejected all Proposals. Furthermore, the District will have no liability to the Respondent or other party as a result of the any public disclosure of any SOQ package.

FULL OPPORTUNITY

The District hereby affirmatively ensures that Disadvantaged Business Enterprises ("DBE"), Small Local Business Enterprises ("SLBE"), Disabled Veterans Business Enterprises ("DVBE"), and minority business enterprises shall be afforded full opportunity to submit SOQs in response to this RFQ, and will not be discriminated against on the basis of race, color, gender, sexual orientation, political affiliation, age, ancestry, religion, marital status, national origin, medical condition or disability in any consideration leading to the award of the contract. No qualified disabled person shall, on the basis of disability, be excluded from participating in, be denied the benefits or otherwise subjected to discrimination in any consideration leading to the award of contract.

RESTRICTIONS ON LOBBYING AND CONTACTS

From the period beginning on the date of the issuance of this RFQ and ending on the date of the award of the contract, no person or entity responding to this RFQ, nor any officer, employee, representative, agent, or consultant representing such a person or entity shall contact through any means or engage in any discussion regarding the RFQ, the evaluation or selection process or the award of the contract(s) with any member of the District's Governing Board ("Board"), selection committee members, or any member of the Citizen's Oversight Committee, or with any employee of the District except for clarifications and questions as described herein. Any such contact shall be grounds for disqualification of the entity submitting a SOQ.

PART II

SCOPE OF SERVICES

The Contracted Firms may provide **Geotechnical Engineering** and related services and reporting, including, but not limited to the following, and/or as described in each future RFP and/or as described in the sample form of the Independent Consultant Agreement provided in the form package attachment on Vendor Registry.

The selected Geotechnical Engineering firm will be required to enter into the District's contract, a sample of which is provided as part of the form package on Vendor Registry. The desired Scope of Services to be performed by the Consultant shall include, without limitation, the Scope of Work which will be included in the contract related to the specific RFPs.

The following is a general guideline for the services to be provided for the District on each District project to be awarded under this RFQ. There may be additional project specific tasks, which will be communicated to the selected firms when project-specific pricing is solicited.

As outlined in more detail below in – General Guideline, this Request for Qualifications (“RFQ”) is for Geotechnical Engineering Services (“Services”). The District is seeking qualifications from highly qualified Firms that provide Geotechnical Engineering Services. The anticipated services may include but are not limited to the types of geotechnical engineering and related tasks described in this RFQ.

Each Consultant must be prepared to provide turn-key services for such Geotechnical Engineering Services as the District may hereafter require. Each Consultant must be prepared and equipped to provide such services in a timely manner and on relatively short notice so as to enable the District to meet critical, and at times unpredictable, time deadlines and schedules.

Consultant's proposal must set forth Consultant's understanding of all applicable professional and engineering standards and regulations relative to the work to be undertaken, as well as Consultant's ability to comply with the same and the methodology by which Consultants will do so. Consultant proposals must confirm that the nature of the Work to be performed will meet all the aforementioned requirements for said Work as set by the applicable codes and regulations and all other applicable ordinances and guidelines.

General Guideline: Selected firm(s) shall provide professional Geotechnical Engineering and related services on a project-specific basis as needed. The project(s) for which a firm is selected to perform such work may include any or all of the specific services outlined in this Section. All work performed shall comply with the approved construction documents, applicable codes and regulations. The initial scope of work for each individual project will be established prior to the issuing of an RFP. Dependent upon the project's needs, firms may be requested to perform various tasks at different phases of design and construction.

Consultant shall furnish, without limitation, all necessary labor, materials, hardware, software, tools, testing, and equipment to complete the work as described in this document. A project contract may include related services not listed in this RFQ. The intent here is to give a brief, general description of services which may be required for any given District project. At the time of specific project contracting, the Consultant shall verify that the contract scope of work includes all services that are necessary for the subject project and conduct all work using project documents and applicable codes and standards. The Consultant shall provide the services to the industry-standard level of professional care.

Consultant shall be ultimately responsible to plan, obtain permits for, prepare notifications, inspect, and close out a comprehensive Geotechnical Engineering program which will result in the Owner's ability to proceed with demolition and other construction work where applicable. Consultant shall review all requirements applicable to the scope of work of project(s) requiring its Services and ensure compliance throughout the duration of the contract.

Scope of Work

The Contracted Firms may provide Geotechnical Engineering related services and reporting, including, but not limited to the following, and/or as described in each future RFP:

1. Provide complete and detailed geotechnical services in an expeditious manner, and possibly on relatively short notice so as to enable the District to make informed decisions within critical deadlines;
2. Evaluate subsurface soils conditions;
3. Assess geological and seismological hazards;
4. Geotechnical design parameters and grading recommendations;
5. Geotechnical/Geological Supervision;
6. Soils, geological, seismic and geotechnical testing and preparation of reports including design recommendations as appropriate;
7. Ground water monitoring, content, moisture levels, etc.;
8. Site observations during construction, such as over-excavate and re-compaction;
9. Inspection and preparation of surfaces to receive compacted fill in accordance with all building department, California Department of Education (CDE), California Geological Survey (CGS) and Division of State Architect (DSA) requirements. Supervision and certification of the placement and compaction of fill including required tests and reports;
10. Perform a comprehensive geotechnical investigation of a project to characterize the materials and conditions that will be encountered during the construction and operation of the project;
11. Development of seismicity maps and recommendations;
12. Specific tasks may include:
 - a. Review reports and maps;
 - b. Site reconnaissance;
 - c. Exploratory borings;

- d. Subsurface exploration (borings);
- e. Lab tests of soil samples to obtain relevant engineering properties;
- f. Performing geotechnical evaluations and engineering analysis, making recommendations for earthwork, seismic design, foundation design, structures settlement criteria, lateral earth pressures, soils corrosiveness evaluation and mitigation measures and other relevant design;
- g. Oil well locations;
- h. Flood zone hazards, etc.

13. Reporting Requirements:

- a. Reports shall be of such scope and detail as required by the CGS (Note 48 Checklist), DSA, current California Building Code, CDE and be supervised by a registered geotechnical engineer and/or engineering geologist, depending on the project. Each firm should be familiar with relevant codes pertaining to the assessment and remediation of geological, soils, and seismic conditions relevant to determining the suitability for the acquisition and/or development of school sites in California;
- b. Additionally, reports should provide sufficient information to allow contractors to prepare bids and to manage the Principle's risk of any subsequent contractual claims. The alignment together with the location and results of all investigations, sampling and testing should be detailed in the Geotechnical Reports. The reports should identify the extent, nature and variety of all soil types and shall draw particular attention to the following matters: The scope of the investigation, including a statement that only design issues were considered and a summary of all existing factual and interpretive geotechnical information pertaining to the site. All interpretation and opinion included in the report shall be deemed the responsibility of the Consultant regardless of the source;

14. Reporting Content:

- a. The presentation of factual geotechnical information may include, but not be limited to the following:
 - i. Purpose and Scope of the geotechnical investigation, including a discussion on the extent and scope of the investigation;
 - ii. Brief description of the project for which the geotechnical report is being compiled giving information about the location of the project;
 - iii. Dates that field and laboratory work were performed;

- iv. Detailed description of methods used for the field and laboratory work with reference to accepted standards followed, and with discussion on rationale used to determine type, spacing, frequency and location of tests;
 - v. Types of equipment used;
 - vi. Presentation of field observations which were made by the supervision field personnel during the execution of sub-surface explorations;
 - vii. The principle geological and topographical features of the area, with an appraisal of the terrain and the hydrogeological conditions;
 - viii. A description of the investigation methodology, standards and scope of testing including account of any site constraints encountered;
 - ix. A summary if each proposed cutting showing a minimum, 1) the types of material including their extent and variability, all test results including subgrade CBR values, the location and extent of any soft/wet areas, 2) the presence and extent of any core stones, weather rock and “rock excavation materials,” 3) The factual excavation characteristics of the various materials. Where significant rock exists but is not “rock excavation materials,” a discussion of the results of the dozier excavations, 4) Suitability of any cut materials for embankment of pavement construction, and if appropriate, the treatments required to meet the specification for base course of sub-base;
 - x. Data on fluctuations of ground water table with time in the boreholes during the performance of the field work and in piezometers after completion of the field work;
 - xi. Compilation of individual test pit/boring logs, penetrometer results, etc. for each of the test locations with descriptions of sub-surface formations based on field descriptions and on the results of laboratory testing. In addition, the location and level of each of the test locations should be accurately defined and may require survey control;
 - xii. Color photography of rock core, excavations, excavated materials and any significant geological feature related to the project;
- b. Grouping and presentation of field and laboratory test results in appendices and as summary tables.

15. Additional Miscellaneous Services:

- a. Additional miscellaneous services and tasks generally associated with Geotechnical Engineering Services.

The selected consultant(s) and/or consultant teams shall keep proper records of all projects for Geotechnical Engineering Services pursuant to contracted services, including, but not limited to, copies of all project correspondence, submittals, shop drawings, and schedules, All such project records shall be submitted to the District after the completion of the project and shall become property of the District;

The selected consultant(s) must, at a minimum, be certified with the California Board of Professional Engineers and Land Surveyors (CBPELS).

The selected consultant(s) must work as a liaison with Regulatory Agencies.

The selected consultant(s) must have sufficient staff to handle several projects simultaneously and promptly complete assigned tasks. Work must begin on assigned tasks within ten (10) days of notification to proceed.

Deliverables, as specified in each project RFP, will be prepared in accordance with the applicable codes and regulations and District standards including, but not limited to, the District and/or College standards.

PART III

REQUIREMENTS FOR SUBMITTAL OF QUALIFICATIONS

A. FORMAT REQUIREMENTS

Please limit proposals to no more than twelve (12) pages (**cover letters, table of contents, dividers, licenses, resumes, and exhibits are not included in the page count**). Firms submitting SOQs in response to this RFQ must follow format below. Material must be in 8-1/2 x 11 inch format, font size 12 point or larger. Each SOQ shall include a Front Cover stating the following: "Statement of Qualifications for [Firm Name] in Response to Peralta Community College District's RFQ #22-23/05."

The SOQ electronic file shall be formatted as follows:

1. Each SOQ shall include a table of contents.
2. Proposals shall include divider tabs labeled with boldface headers as outlined below (e.g. the first tab will be entitled "Cover Letter," the second tab would be entitled "Business Information," etc.).
3. Proposals shall include a cover sheet listing the firm's name, the total number of pages, and identifying any pages that were removed due to proprietary information.

Each submission package will be reviewed to determine its completeness prior to the actual evaluation. If a respondent does not respond to all categories requested, the respondent may be disqualified from further consideration.

B. SOQ CONTENT REQUIREMENTS

1. TAB 1- COVER LETTER (maximum of 1 page)

- a. Provide a letter of introduction signed by an authorized officer of the firm. If the **Geotechnical Engineering** firm is a joint venture, duplicate the signature block and have a principal officer also sign on behalf of each party to the joint venture.
- b. Include a brief description of why your firm is well-suited for, and can meet, District's needs.
- c. Clearly identify the individual(s) who are authorized to speak for the firm during the evaluation process. Include the name, email address, and phone number for no more than two (2) individuals who can respond to questions and correspondence on behalf of the Proposer.
- d. **Must include the following statement:** ["INSERT COMPANY'S NAME] received a copy of the District's form of Independent Consultant Agreement ("Agreement") as a separate file under RFQ in Vendor Registry. [INSERT COMPANY'S NAME] has reviewed the indemnity provisions and professional liability insurance provisions contained in the agreement. If given the opportunity to contract with the District, [INSERT SERVICE COMPANY'S NAME] has no objections to the use of the Agreement."
- e. Respondent shall certify that no official employee of the District, nor any business entity in which an official of the District has an interest, has been employed or retained to solicit or assist in the procuring of the resulting contract(s), nor that any such person will be employed in the performance of any/all contract(s) without immediate divulgence of this fact to the District.
- f. Respondent shall certify that no official employee of the firm has ever been convicted of an ethics violation.

2. TAB 2- BUSINESS INFORMATION

Please provide the following information

- a. Company name
- b. Address
- c. Telephone
- d. Fax
- e. Website
- f. Name and email of main contact
- g. Federal Tax I.D. Number
- h. License or registration number
- i. Type of organization/business structure (ownership; legal form, i.e. corporation, partnership, etc., and senior officials in company). If a joint venture, describe the division of responsibilities between participating

companies, offices (location) that would be the primary participants, and percentage interest of each firm

- j. A brief description and history of the firm, including number of years the firm has been in business and the date firm was established under its given name
- k. Number of employees (licensed professionals, technical support)
- l. Location of office where the bulk of services solicited will be performed
- m. Any State or California certification for your firm indicating small business or Disabled Veteran Business Enterprise status
- n. How sub-consultants are generally used by your firm and to what extent work is performed in-house versus by a sub-consultant
- o. Provide similar information for proposed sub-consultants
- p. How sub-consultants will be utilized on the Project(s) and to what extent work will be performed in-house

3. TAB 3– PROJECT APPROACH AND FIRM QUALIFICATIONS

- a. Provide a statement demonstrating your firm or team’s ability to accomplish the scope of services in a comprehensive and thorough manner with an aggressive schedule in order to meet the District’s goal of moving projects into construction within the earliest possible timeframe.
- b. Describe the approach to compliance with Program requirements and conformance with Federal/State/Local applicable code requirements.
- c. Demonstrate your firm’s flexibility in adapting to the changing needs and priorities of a community college district.
- d. Describe your experience with DSA and working within the DSA process.
- e. Identify established methods and approaches utilized by your firm to successfully meet completion deadlines and provide examples demonstrating effective use of stated methods and approaches.
- f. Describe your experience with CGS and working within the CGS assessment of geological hazards.
- g. How does your firm approach modernization projects versus new construction?
- h. Describe your firm’s approach to design-phase and construction-phase services on three (3) school projects awarded in the last five (5) years. Include at least two (2) examples of school facility modernization projects.

4. TAB 4- RELEVANT K-14 PROJECT EXPERIENCE AND REFERENCES

- a. Provide information about prior services performed by your firm in the last ten (10) years on **a minimum** of five (5) K-14 educational projects your firm has completed.
- b. Experience with projects for other Public Agencies in California
- c. Experience working on a campus while school is in session
- d. For each project, please include the following information:

- i. Briefly state the significance of each relevant project your firm has worked on that you would like to be considered in this RFQ. Briefly explain
- ii. Specify role of firm or individual if work was not exclusively by the firm (i.e. joint venture, association)
- iii. Provide at least two (2) examples of projects that have been phased during school occupancy while conducting renovation and new construction
- iv. Provide a list of the following for each project noted above:
 1. Project name, type, program, and location
 2. Beginning and end dates of project (including design and construction)
 3. Square footage
 4. Original budget, bid amount, and final amount at close-out
 5. Key individuals of the firm involved and their roles in the project
 6. Any sub-consultants that worked with the firm
 7. **Client References**: district name with name of contact person, title, telephone number, and email address to be contacted for a reference

5. TAB 5- GEOTECHNICAL ENGINEERING TEAM SUMMARY AND QUALIFICATIONS (See Team Experience Matrix Attached to this RFQ)

The selected firm shall employ, at its expense, professionals properly licensed and skilled in the execution of the functions required for geotechnical engineering services as described herein:

- a. Identify and provide resumes for key members within your firm that you would assign to the team and their roles. Include, at a minimum: **[LIST SPECIFIC ROLES]**. List license numbers, dates, and office addresses. Resumes shall include specific qualifications and recent related experience and shall include a list of references with contact names and phone numbers
- b. Identify roles and qualifications of sub-consultants, if any. Note: firm(s) selected for inclusion in the District's pool of **GEOTECHNICAL ENGINEERING FIRMS** will be required to demonstrate long-term relationships with sub-consultants and submit resumes and recent project experience where the sub-consultant is utilized as part of any response to any subsequent **Request for Proposals** for the Project(s)
- c. Each response must include evidence that the **GEOTECHNICAL ENGINEERING** company is legally permitted and properly licensed for the scope of work for which the SOQ is submitted and to conduct business in the State of California

- d. The District expects that the team shall remain intact through the duration of the Project(s). If a team member must leave, the District reserves the right to approve the team member's replacement

6. TAB 6- LITIGATION HISTORY

Provide a comprehensive five (5)-year summary of the firm's litigation, arbitration, and negotiated/settled history with previous clients. State the issues in the litigation, the status of the litigation, names of parties, and outcome. A SOQ failing to provide the requested information on lawsuits or litigation, and responses which assert attorney-client privilege and fail to provide the information requested will be considered non-responsive, disqualified from the selection process, and will not be evaluated.

7. TAB 7 –RATE SCHEDULE

Provide the following rate and cost information:

- a. Provide a rate schedule for all costs associated with providing the requested services, if your firm is selected
- b. For all rate structures, include the classification of personnel and the hourly billing rate for each classification.
- c. List any additional services that you foresee may be necessary, if any, and list the proposed costs for such services.

8. TAB 8 – Authorized Signature

- a. **Insurance Requirements:** include statement that “[insert name of Respondent] has reviewed the indemnity provisions and insurance requirements contained in the sample contract and”:
 - o “has no objections.”
- b. **Other Modifications:** include statement that “[insert name of Respondent] has reviewed all provisions of the sample Agreement and”:
 - o “has no objections.”
- c. **Debarment:** Provide statement that the Proposer, and all of its proposed subconsultants and other partners, have not been debarred from providing services to any Federal, State, or Local Agency within the last five (5) years. If Proposer or any of its proposed subconsultants or other partners has been debarred, identify the agency and individual that issued the debarment, the agency's basis for the debarment, and the date of the debarment.

Proposer or any of its proposed subconsultants or other partners has been

debarred, identify the agency and individual that issued the debarment, the agency's basis for the debarment, and the date of the debarment.

d. Ethics Certification: Certify that no official or employee of Respondent has ever been convicted of an ethics violation.

e. Other Certifications and Forms:

i. Acknowledgement and Signature Form

1. Use the Acknowledgement and Signature Form in **form package on Vendor Registry**.

f. Authorization and Declaration: Provide statement that the person signing the Proposal is authorized to submit proposals on the behalf of the entity, and that "by virtue of submission, *[insert name of authorized signatory]* declares that all information provided is true and correct."

g. Signature: Signature of authorized person, printed name and title of authorized person, and date. If Respondent is a joint venture, duplicate the signature block and provide an authorized person for each party to the joint venture.

9. TAB 9 – REQUIRED FORMS

Exhibits to this RFQ, completed according to their instructions:

- a.** Sample Agreement (*Information Only, not required in SOQ*)
- b.** Vendor's Questionnaire and Certificate of Compliance
- c.** Certificate Regarding Worker's Compensation
- d.** Statement of Equal Employment Opportunity
- e.** Small Local Business Enterprise / Small Emerging Local Business Enterprise Program (*Information Only, not required in SOQ*)
- f.** SLBE / SELBE Self-Certification Affidavit
- g.** Non-Collusion Declaration
- h.** RFQ Acknowledgement and Signature Form
- i.** Team Experience Matrix

PART IV

SELECTION CRITERIA

A. EVALUATION

The SOQ will be reviewed for responsiveness and evaluated pursuant to the specific criteria set forth in this RFQ, including, without limitation:

1. The Firm's experience and performance history with similar services for California K-14 school districts (with particular experience in community college work), including:
2. Experience, results, professional and technical expertise of proposed personnel
3. Acceptable and verifiable references from clients contacted by the District, including:
 - a. Firm's reputation
 - b. Satisfaction of previous clients (client relationships)
 - c. Timeliness of work and ability of the firm to meet schedules
4. Overall responsiveness of the SOQ
5. Location of office and accessibility to the District
6. Quality of proposal

A selection committee will evaluate all submissions. Each SOQ must be complete. Incomplete SOQs will be considered nonresponsive and are grounds for disqualification. The District retains the sole discretion to determine issues of compliance and to determine whether respondents are responsive, responsible, and qualified. Based upon the information presented in the SOQs, the District's Selection Committee will choose the most highly-qualified firms; and may or may not include interviews. At the Selection Committee's discretion, firms may be requested to arrange a tour of a representative facility which they have been responsible for.

Item	Criteria	Points
1	Firm experience	35
2	Client references	20
3	Staff experience	40
4	SLBE: Prime is certified SLBE (5 points maximum) 25% of Prime's subcontractors are SLBE firm (4 points maximum)	5
	Total	100

B. DISTRICT INVESTIGATIONS

The District may investigate responding parties that extend beyond contacting the references identified in the SOQ. The District may request a firm to submit additional information pertinent to the review process. The District also reserves the right to investigate and rely upon information from other available sources in addition to any documents or information submitted.

THANK YOU FOR YOUR INTEREST IN THIS EXCITING PROGRAM!

Acknowledgement and Signature Form

The undersigned having carefully examined the Request for Proposals, location of the proposed work, the local conditions of the place where the work is to be done, the Invitation, the General Conditions, the Specifications and all of the documents for this project, and accurately completed the Vendor's Questionnaire, proposes to enter into a contract with Peralta Community College District to perform the work described in this RFP, including all of its component parts, and to furnish any and all required labor, materials, equipment, insurance, bonding, taxes, transportation and services required for this project in strict conformity with the RFP, including any Addenda, within the time specified.

Addendum Acknowledgement

The following addendum(s) are acknowledged in this RFP: _____

Acknowledgement and Signature:

1. No Proposal is valid unless signed in ink by the person authorized to make the proposal.
2. I have carefully read, understand and agree to the terms and conditions on all pages of this proposal. The undersigned agrees to furnish the services stipulated on this proposal.
