

The Beach Division, of Escambia County Public Works Department, is seeking bids for the following scope of work: Remove the 30 HP, verticle turbine pump, located in the extreme southwest corner of Little Sabine Bay and determine the cause of it's inoperable status. Make whatever repairs are necessary to restore pump to it's optimal operating condition. Replace pump to it's original mounting and place pump back into full operation. Work to include all necessary electrical and mechanical connections to make pump fully operational. All work shall be warranted for a year from date of acceptance by County. All work shall conform to all applicable codes and industry standards.
