

**HIGHLANDS COUNTY
BOARD OF COUNTY COMMISSIONERS
(HCBCC)
PURCHASING DIVISION**

DATE: October 17, 2019

SOLICITATION NO. FWQ 20-004 ADDENDUM No. 1

Project.: GEOTECHNICAL SERVICES FOR FUTURE TRAFFIC
OPERATIONS SITE

This addendum is being issued to answer questions received for this solicitation.

Question:

1. Do you have scope of services in mind for the project or will this be up to the discretion of the Geotechnical engineer?

Answer:

Consultant will be required to perform geotechnical evaluation and provide the County a detailed engineering report with analyses and recommendations.

Question:

2. Do you have anticipated max design loads for the structures readily available at this time? (Column load, wall load, etc.)

Answer:

No, Structural Engineer will base design on the Geotechnical Engineer's data/analysis/recommendation(s).

Question:

3. Do you want to explore the structures on the property labeled as "Future" or would you prefer this exploration be focused to simply the proposed traffic operations building and associated parking and drive lanes?

Answer:

Task one and two of the FWQ #20-004 are to be performed for proposed and future structures, depicted in the site plan.
