

ADDENDUM NO. 2 TO IFB#2020-2936-4520-40B

Please see the change below made to the Scope of Work for the Fencing.

Scope of Work

The Contractor shall furnish all labor, tools, materials, equipment, and supervision necessary to provide and install privacy fencing around the Carters property. The project scope includes the following:

1. Remove existing chain link fence
2. Provide and install new 8' treated, ~~double-picket~~, **wooden** privacy fence and posts around perimeter of property, as outlined on attached map. **The County has determined that "double-picket" or "shadowbox" fencing is not necessary. Rather, it should be 8' tall treated wooden picket privacy fence, as outlined in the aerial photo in the solicitation. A sample fence panel is shown below.**
3. Install new gate at Wassamasaw Drive entrance using two fence panels
4. Ensure finished work meets county's approval
5. Remove all debris left over.
6. Any change orders not in the scope or agreed upon prior to work beginning must be approved before it is started.
7. All work must meet all electrical and building code standards
