Known Sole Source

FHP Commercial product from Jascko Corp.

Justification for Sole Source Acquisition

The compressor is one of two stages of cooling on an existing FHP air cooled chiller. The original equipment was custom-built and there is no known equivalent or approved equal other than from FHP that is compatible and will retrofit and align to the existing suction and liquid line connections with minimal reconfiguration and provide a five (5) year manufacturer warranty. See attached equipment schedule.

To the best of our knowledge, Jascko Corp is the sole source provider for the FHP equipment in the SE Florida. See attached justification.

Prospective vendors are invited to provide information regarding their ability to supply the commodities/services described. All vendor responses will be evaluated by the Using Department which will be the sole determinate power in establishing the approved equal status of the commodity/service offered by the vendor. If it is determined in writing by the agency, after reviewing any information received from prospective vendors, that the commodities/services are available only from a sole source, the agency shall:

1. Provide notice of its intended decision to enter into a sole source purchase contract to the Purchasing Director.
2. Request approval from the Purchasing Director for the sole source purchase up to the award authority of the Purchasing Director or further request the Purchasing Director to process the appropriate documents for Board approval.
3. Issue a Request for Quotation to the sole source vendor for submission to the Purchasing Agent for processing and approval by the appropriate award authority.
