Re: Quote Request 34885, Water Level Pressure Transducers

The St. Johns River Water Management District (District) desires to purchase water level pressure transducers for its water level data collection. Please review **Exhibit 1 – Specifications** and **Exhibit 2 – Quote Request 34885**, which includes all the items the District desires to purchase.

If you are interested in submitting a quote, please submit the completed Exhibit 2 – Quote Request 34885. Also, please confirm your understanding of this Quote Request and your firms' capability to provide the items described by completing and signing Page 2 of Exhibit 2 and returning this page. Both pages must be submitted in PDF format, by **October 28, 2019, 4:00 p.m.** Please submit these documents as an attachment to Carol Taylor Miller at [cmiller@sjrwmd.com](mailto:cmiller@sjrwmd.com) using **Quote 34885** in the subject line. The quotation shall include the Unit Price for all equipment listed, the Total cost of the units, and the estimated shipping. The quantities identified are for quotation purposes only. **The unit prices provided will be firm through September 30, 2020.**

The District anticipates issuing a Blanket Purchase Order(s) to the supplier who provides the lowest **Total Cost of Equipment and Shipping** of the items listed in Exhibit 2 – Quote Request 34885. The District may issue a Purchase Order for a minimal amount of Water Level Pressure Transducers in order to allow the evaluation of the purchased units. The District will order the equipment on an as needed basis and makes no guarantee of the amount to be purchased.

If you need assistance or have any questions about submitting your quote, please email or call Carol Taylor Miller at [cmiller@sjrwmd.com](mailto:cmiller@sjrwmd.com) or 386-329-4170, respectively. Between the release of this quote request and the posting of the notice of intended decision, Respondents to this quote request or persons acting on their behalf may not contact any employee or officer of the District concerning any aspect of this solicitation, except the procurement employee listed above. Violation of this provision is grounds for rejecting a response.

A copy of the package is also available in Microsoft Word<sup>®</sup> form to assist you with your submittal.

This letter is forwarded to you as an offer to provide a quotation based on the information and requirements provided herein.

The District is a political subdivision of the state of Florida, whose boundaries cover all or portions of 18 counties, and is tax exempt (Tax ID No. 85-8012643710C-3; expires March 31, 2023). Respondent shall provide an estimate of all applicable taxes and fees in its quote, including a list of taxes and fees that fall under the District's exemption.

## 1. Opening of Quotes

- A. The Florida Public Records Act, §119.071(1)(b), Fla. Stat., exempts sealed quotes from inspection and copying until such time as the District provides notice of an intended decision

pursuant to §120.57(3)(a), Fla. Stat., or until 30 days after opening of quotes, whichever is earlier. This exemption is not waived by the public opening of quotes.

- B. Unless otherwise exempt, Respondent's quote is a public record that is subject to disclosure upon expiration of the above exemption. If any information submitted with the Quote is a trade secret as defined in §812.081, Fla. Stat., and exempt from disclosure pursuant to §815.04, Fla. Stat., Respondent must clearly identify any such material as "CONFIDENTIAL TRADE SECRET" in its submittal and explain the basis for such exemption. The District reserves the right, in its sole judgment and discretion, to reject a submittal for excessive or unwarranted assertion of trade secret confidentiality and return the submittal to Respondent.
- C. Respondents shall bear all costs associated with preparing and submitting responses to this Quote Request. The District will, in no way, be responsible for these costs, regardless of the conduct or outcome.

## 2. Inquiries and Addenda

- A. District staff are not authorized to orally interpret the meaning of the Quote Request package, or correct any apparent ambiguity, inconsistency, or error therein. In order to be binding upon the District, the interpretation or correction must be given by the Procurement Specialist and must be in writing. The Procurement Specialist may orally explain the District's procedures and assist Respondents in referring to any applicable provision in the Quote Request documents, but the Respondent is ultimately responsible for submitting the quote in the appropriate form and in accordance with written procedures.
- B. Every request for a written interpretation or correction must be received at least nine days prior to opening of quotes in order to be considered. Requests must be submitted by email to [cmiller@sjrwm.com](mailto:cmiller@sjrwm.com). Interpretations, corrections, and supplemental instructions will be communicated by written addenda to this solicitation posted by Onvia DemandStar to all prospective Respondents (at the respective addresses furnished for such purposes) not later than five days prior to the date fixed for the Quote Request opening.
- C. Submission of a quote constitutes acknowledgment of receipt of all addenda. Quotes will be construed as though all addenda had been received. Failure of the Respondent to receive any addenda does not relieve Respondent from any and all obligations under the quote, as submitted. All addenda become part of the Agreement.

## 3. Award Procedures

- A. Section 286.0113, Fla. Stat., exempts from being open to the public, any portion of a meeting at which: (1) a negotiation with a Respondent is conducted pursuant to a competitive solicitation; (2) a Respondent makes an oral presentation as part of a competitive solicitation; (3) a Respondent answers questions as part of a competitive solicitation; or (4) negotiation strategies are discussed. Also, recordings of, and any records presented at, the exempt meeting are exempt from §119.07(1) and §24(a), Art. I of the State Constitution (Public Records) until such time as the District provides notice of an intended decision or until 30 days after opening the Quotes or final replies, whichever occurs earlier. A complete recording shall be made of any portion of an exempt meeting. No portion of the exempt meeting may be held off the record.
- B. Pursuant to §286.0113 Fla. Stat., if the District rejects all quotes and concurrently provides notice of its intent to reissue the competitive solicitation, the recording and any records presented at any exempt meeting shall remain exempt from §119.07(1) and §24(a), Art. I of the State Constitution (Public Records) until such time as the District provides notice of an intended decision concerning the reissued competitive solicitation or until the District withdraws the reissued competitive solicitation. A recording and any records presented at an exempt meeting are not exempt for longer than 12 months after the initial District notice rejecting all quotes.
- C. The District will examine the quotes to determine completeness. Obvious mismatches with regard to technical or commercial requirements will be rejected at this time.
- D. If two or more quotes are equal in all respects, the Agreement will be awarded as follows: (1) to the Respondent that certifies compliance with §287.087, Fla. Stat., via the Drug-Free Workplace Form; or (2) by lot.

- E. In the event the Successful Respondent(s) fail to enter into the Agreement or the Agreement with said Respondent is terminated within 90 days of the effective date, the District reserves the right to negotiate with the other respondents in ranked order, if available, and award an Agreement.
- F. All Respondents will be notified of the District's intent to award or decision to award the Agreement. For the purpose of filing a protest under §120.57(3), Fla. Stat., the time period will commence as provided in "Notices and Services Thereof."

Any of the following causes will be considered as sufficient grounds for disqualification of a Respondent and rejection of the Quote:

- A. Quotes must be emailed to the specified location and received during the time specified on page 1 in order to be considered timely. Untimely quotes will not be considered. Quotes will be considered irregular and may be rejected if they show material omissions, alterations of form, additions not called for, conditions, limitations, unauthorized alternate quotes, or other material irregularities. The District may consider incomplete any quote not prepared and submitted in accordance with the provisions specified herein, and reserves the right to waive any minor deviations or irregularities in an otherwise valid Quote.
- B. The District also reserves the right to reject any and all quotes when it determines, in its sole judgment and discretion that, it is not in its best interest to award the agreement.

### **I. INTRODUCTION/BACKGROUND**

The St. Johns River Water Management District's (District) Bureau of Water Resource Information is dedicated to collecting the most accurate water level data available. It is crucial to data collection consistency that the District use equipment that is interchangeable with current data collection platforms and that provides the same data transfer capabilities. The District currently uses water level pressure transducers connected to Campbell Scientific datalogger (i.e., CR 300, CR800, CR1000, etc.) via an SDI-12 connection with the minimum specifications listed in Section III of Exhibit 1). The District requires that the Water Level Pressure Transducers report in units of feet not PSI.

### **II. OBJECTIVE**

The objective is to award the purchase of Water Level Pressure Transducers meeting the District minimum specifications to the lowest responsive and responsible respondent for purchases through September 30, 2020. The District does not guarantee that a minimum amount will be purchased.

The District is responsible for producing accurate and reliable water level data. The District intends to issue a Blanket Purchase Order(s) for the equipment based on the quoted unit prices. The Purchase Order may be for a minimal amount of Water Level Pressure Transducers in order to allow the evaluation of the purchased units. In the event the District purchases units and the units are deemed not to meet the District's requirements when actually placed in service or corrode or malfunction due to design, material, or manufacturing defects, the District reserves the right to purchase from the firm offering the next lowest quotation and that can provide the required equipment.

### **III. MINIMUM SPECIFICATIONS**

The Quote Request form attached (Exhibit 2) describes the required Water Level Pressure Transducers in **units of feet not PSI**. Below is a list of required minimum specifications for each. This quotation is for the purpose of acquiring unit prices for specific equipment purchases. The Unit Prices quoted are firm through September 30, 2020. In the event that additional Water Level Pressure Transducer equipment is required, the District may obtain quotes from the awarded firm.

Required minimum specifications:

- Submersible vented pressure transducer
- SDI-12 Compatible
- 0-10 m or 0-15psi range
- Minimum accuracy of  $\pm 0.02$  ft
- Minimum one-year warranty against failure due to corrosion or manufacturing defects with 100% replacement if unit cannot be repaired
