CDBG Sewer Connection Assistance Specifications
Elvina Anne Grady
11513 Thousand Oaks Court
Pensacola, FL 32514

GENERAL:

- Federal funds (Escambia County CDBG) are being used to renovate this property (septic to sewer).
- Contractor is responsible for all required permits to decommission existing septic tanks and tie the unit into the public sewer system.
- Contractors are required to call for utility spots 72 hours prior to commencement of work, with no work to begin until all spots have been made.

SEWER TAP and LATERAL:

There are no tap or lateral fees. There is one (1) sewer lateral that is visible and is located on Thousand Oaks Court to the right of the drive way.

There is one (1) existing septic tank and it is located in the back yard just beyond the NW corner of the house.

Connect drain lines from the house to the existing sewer tap. Note: there is a line of landscaping that may need to be removed to reach the tap in the most direct route.

Tie all drains into the ECUA municipal sewer system.

Check the existing vents to assure that all are to code and are functioning properly.

SEWER LINE and SEPTIC TANK ABANDONMENT:

Decommission the existing septic tank, per the State of Florida Environmental Health Department regulation/requirements (pump tank, punch holes in bottom and back fill), permit and inspection required.

Sewer line (PVC schedule 40) is to run from house drain and connect to the sewer system with "two-way" clean-outs as required by code.

Following the installation of the new sewer line and decommissioning of the septic tank/grease trap, grade area and leave in a uniform/smooth condition, then provide grass seed and hay for stabilization.

All indentations (created by trucks and other equipment used to accomplish work herein), are to be filled to grade with brown fill or top soil, then seeded and stabilized with hay.

Repair sprinkler heads and lines that are cut, broken or crushed during the process of converting septic to sewer.
