## Pool Profile Form

### Example #1: Right Angle

If the wall of your pool and the floor of your pool meet at a right angle, then use this formula below. Please fill in the necessary blanks with the appropriate measurements for your pool.

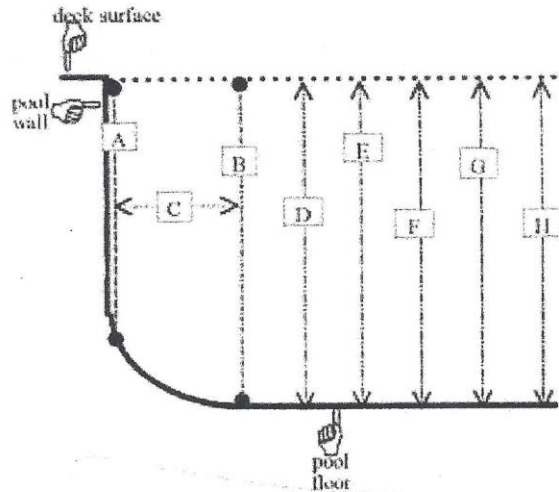

- A** = \_\_\_\_\_ from deck to pool floor at the pool wall
- B** = \_\_\_\_\_ from deck to pool floor at 2' from the pool wall
- C** = \_\_\_\_\_ from deck to pool floor at 3' from the pool wall
- D** = \_\_\_\_\_ from deck to pool floor at 4' from the pool wall
- E** = \_\_\_\_\_ from deck to pool floor at 5' from the pool wall
- F** = \_\_\_\_\_ from deck to pool floor at 6' from the pool wall

### Example #2: Curved

If the wall of your pool and the floor of your pool meet on a curve, then use this formula below. Please fill in the necessary blanks with the appropriate measurements for your pool.

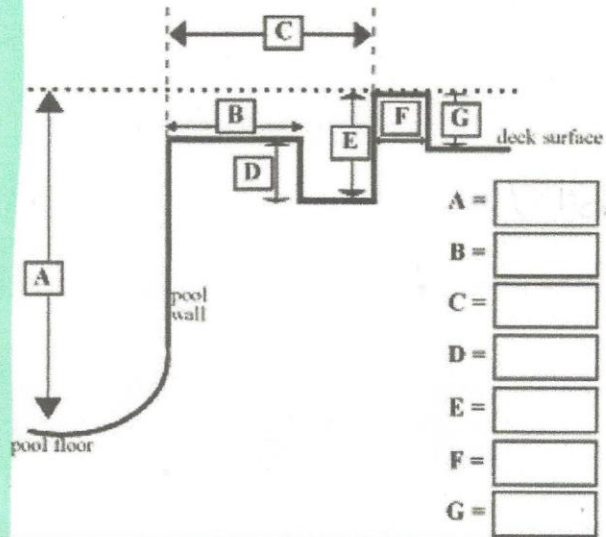

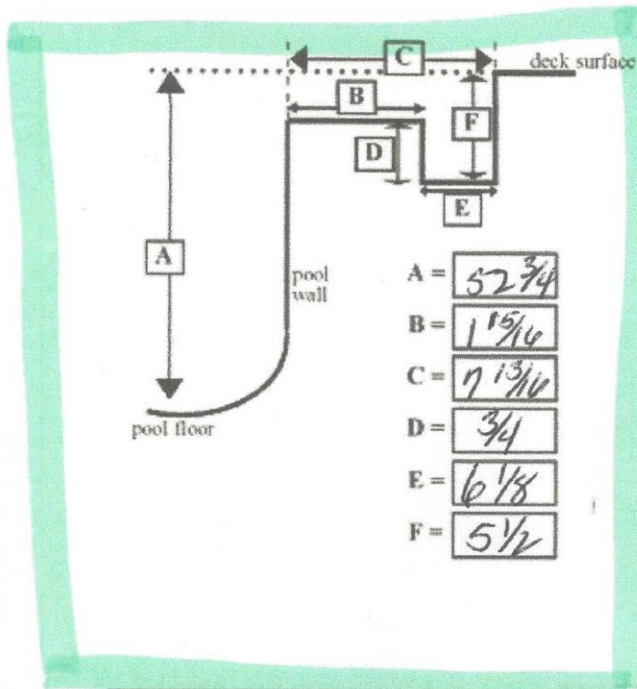

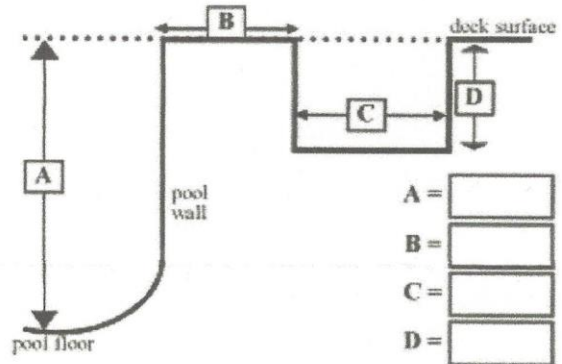

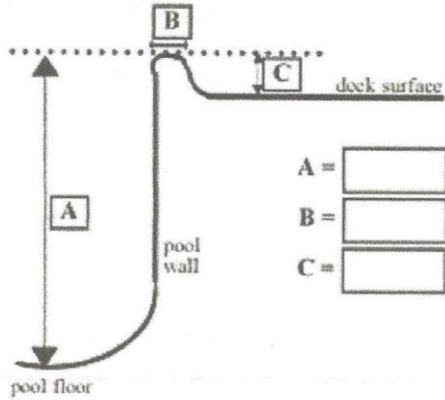

- A** = 49 1/8 from the deck to the top of the curve
- B** = 53.15 from the deck to the bottom of the curve
- C** = 5.12 distance between A and B
- D** = 53 1/2 from deck to pool floor at 2' from the pool wall
- E** = 53 3/4 from deck to pool floor at 3' from the pool wall
- F** = 53 3/4 from deck to pool floor at 4' from the pool wall
- G** = 53 13/16 from deck to pool floor at 5' from the pool wall
- H** = 53 15/16 from deck to pool floor at 6' from the pool wall

## Gutter Detail Form

Locate the gutter detail drawing on this page that matches your gutter configuration. If your gutter configuration does not match a drawing currently on this form, then please draw your gutter configuration. Measure all the dimensions of your pool's gutter. Follow the gutter detail drawings as examples of what to measure. Input your gutter measurements into the appropriate gutter detail drawing provided or your own gutter detail drawing.

**Important:** Make sure measurement "A" is from the pool floor to deck height along the pool wall and NOT the water depth.

**REMEMBER:** If your gutter configuration does not match a drawing above, please draw it on a separate sheet.
