White Pine Street & Utility Project Addendum #1

TO: Prospective Respondents and Other Interested Parties
FROM: The Village of Buffalo Grove Finance Department
ISSUE DATE: November 3, 2023
SUBJECT: ADDENDUM #1

Note: This Addendum is hereby declared a part of the original bid and contract documents and in case of conflict, the provisions in the following Addendum shall govern.

The following changes and clarifications shall be made to the Bid Documents for the White Pine Street & Utility Project

Q1. Are there any soil borings available for the project for the contractors to review? If not, would the contractor be able to perform their own soil borings prior to the bid opening.

A1. Yes, the contractor may perform soil boring at their own risk and expense. This work shall be permitted under a right of way permit process by contacting Kyle Johnson at KJohnson@vbg.org. The specifications included pavement cores from 2007. Additional cores, borings and a CCDD certification have all been ordered. They are expected for release around November 20th and will be given to the contractor of award. Based upon several projects in the area we expect the cores to remain consistent with those from 2007, the soils to demonstrate good values for underground construction with an average water table for this area and the CCDD to qualify for a 662 release.

PROSPECTIVE RESPONDENTS ARE TO ACKNOWLEDGE RECEIPT OF ADDENDUM #1. AND SHALL INCLUDE AND NOTE THIS ADDENDUM IN YOUR RESPONSE.
