CONTRACT #: C24-3916-PS
ONEBLOOD, INC.
BLOOD & BLOOD COMPONENTS SUPPLY & SERVICES
EXPIRATION: INDEFINITE

Dear Hospital Partners,

As we look ahead to 2025, nominal increases will be applied across OneBlood's fee schedule. These increases relate directly to the inflationary impacts of wages, materials, supplies, and distribution costs of our components and services. These updated fees will go into effect on January 1, 2025.

- **Red Blood Cell** component fees will increase 2.5% from 2024
- **Single Donor Platelet** component fees will increase 1.5% from 2024

A full listing of all component and laboratory service fees will be provided under separate cover. If you are also a therapeutics or cellular therapy facility customer, you will be receiving an additional notification letter and updated fee schedule.

At our core, OneBlood prides itself on being agile, innovative, and able to execute in our commitment to provide safe, available, and affordable blood to our hospital partners and their patients. We value our partnership and look forward to serving the needs of your hospital and your patients in 2025.

Sincerely,

George "Bud" Scholl
President and Chief Executive Officer
