We propose the following:

SSI will provide (2) 3-way Valves and Actuators for the chilled water coils on air handler units # 4 & 5. SSI will disconnect the existing actuators and reconnect the new actuators and verify proper operation to ensure the chiller has enough flow to stay online when the systems throttles back. SSI will provide supply and return chilled water sensors and well.

Prime Mechanical will provide labor and materials to install (2) 3-way valves on AHU # 4 & 5. This will include demo pipe from the coil back to the Wye strainer and isolation valve, provide and install an autoflow balancing valve on each AHU. Provide and install a valve in the bypass, supply and return temperature outlets, automatic air vents at the highest point and pressure test ports. The piping will be foam glass insulation with components insulated with armetaflex. The armetaflex will be painted with white rubberized paint and aluminum jacket on the pipes. Existing Wye strainer baskets will be pulled and cleaned.
