

WIRELESS SERVICES AGREEMENT

THIS WIRELESS SERVICES AGREEMENT (this "Agreement") is made as of the 1st day of July, 2022, by and between **L3HARRIS TECHNOLOGIES, INC.**, a Delaware corporation formerly known as Harris Corporation, acting through its Public Safety Professional Communications Business Sector ("Provider"), having a place of business at 7022 TPC Drive, Suite 500, Orlando, FL 32822 and Okaloosa County, Florida, a political subdivision of the State of Florida (the "County"), ("User"), having a principal place of business at 1250 N. Eglin Parkway, Shalimar, FL 32579.

Recitals:

WHEREAS, Provider is a party to that certain Master Services Agreement (the "State Contract") dated June 30, 2021 by and between Provider and the State of Florida, acting by and through the Department of Management Services (the "State");

WHEREAS, Provider operates a network of wired and wireless telecommunications facilities which provide the State with certain wireless voice and data communications services, commonly referred to as the Florida Statewide Law Enforcement Radio System (SLERS), throughout the State of Florida (the "Wireless Network");

WHEREAS, Provider is working with the State on an upgrade project to change the technology used in the Wireless Network from EDACS technology to P25 technology which may require User to upgrade its existing equipment or purchase new equipment with P25 technology;

WHEREAS, User desires to obtain from Provider and Provider desires to grant to User a license ("License") to access the voice communication radio portion of the Wireless Network ("Radio Network") for use in those areas in the State of Florida more further described in Exhibit B attached hereto ("Area"), in accordance with the terms and conditions set forth herein; and

WHEREAS, prior to signing and finalizing this Agreement and receiving a License to use the Radio Network, User must first obtain the written consent of the State to use the Radio Network which will be attached to this Agreement as Exhibit A (the "State Approval").

NOW, THEREFORE, for and in consideration of the promises made herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. **Recitals.** The above Recitals are incorporated herein by reference.
2. **State Approval.** User has obtained the State Approval in Exhibit A which will allow User to put and use one hundred thirty-three (133) radios on the Radio Network pursuant to the terms of the license granted in this Agreement (the "Licensed Radios"). A

permanent reduction in the total number of Licensed Radios used on the Radio Network that is requested by the User will require Provider's prior written consent and may result in an increase in the monthly Access Fee rate per Licensed Radio.

3. **Access to Radio Network.** During the period commencing on July 1, 2022, and continuing for twenty-four (24) months through June 30, 2024 (the "Contract Term"), User shall have the non-exclusive right for the Licensed Radios to access the Radio Network in conjunction with the performance of User's public service radio operations for voice communications with such coverage as exists on the Radio Network within the Area. In exchange for the license to use the Radio Network within the Area, User shall pay to Provider the Access Fee set forth below on a monthly basis for the Licensed Radios throughout the Contract Term, in accordance with the provisions of Section 4 hereof.

4. **Access Fee.** Throughout the Contract Term, User shall deliver to Provider the amount of Nine Dollars (\$9.00) per month (the "Access Fee") for each Licensed Radio to use the Radio Network that has been activated for use on the Radio Network on the fifteenth (15th) calendar day of that month. [User may request in a writing sent to and received by Provider on or before the 15th day of a month that Provider de-activate or reduce the number of User Licensed Radios that are activated for use on the Radio Network in the following calendar month. In addition, User may request in a writing received by Provider on or before the 15th day of a month that Provider activate or increase the number of User Licensed Radios that are activated for use on the Radio Network in the following calendar month.] User shall pay the Access Fee to Provider on a monthly basis and within thirty (30) calendar days after User receives an invoice from Provider and without setoff or further demand. A list of the Licensed Radios shall be included in **Exhibit C** attached hereto. Provided that its increased use would not interfere in any way, manner or form with the State's use of the Wireless Network, User may request during the Contract Term that the total number of Licensed Radios be increased. If Provider and the State (as set forth in the State Approval as modified if necessary) agree in writing with such request, the total number of Licensed Radios shall be increased (and **Exhibit C** modified) which may result in a change in the Access Fee rate for the Licensed Radios. The change in the total number of Licensed Radios and Access Fee shall be set forth in a written amendment to this Agreement.

5. **User's Responsibilities.** User shall purchase and obtain from Provider, at User's sole cost and expense and pursuant to a separate written agreement between Provider and User, all of the equipment listed on **Exhibit C** (the "Equipment") as well as all of the services to install all of the Equipment for use on the Radio Network. In addition, User acknowledges and agrees that, as set forth above in the Recitals, the Radio Network technology is going to be changed from EDACS technology to P25 technology. It shall be User's responsibility to upgrade or obtain, as needed, equipment with P25 technology for use on the Radio Network. Should User, for any reason not attributable to Provider, fail to obtain Equipment with P25 technology as needed, User shall be fully responsible for the inability of its Equipment to use the Radio Network. In addition to the State Approval, User shall be responsible for securing at its sole cost and expense all other

approvals, licenses, and permits necessary, if any, to allow User to use the Radio Network. User understands and agrees that its use of the Radio Network shall not at any time interfere in any way, manner or form with the State's use of the Wireless Network. User also acknowledges and agrees that, in addition to Equipment purchase costs, User shall be solely responsible for paying all other User costs for the Licensed Radios including, but not limited to, User dispatch equipment costs, User dispatch service costs, User Equipment maintenance costs and User Equipment replacement costs.

6. Representations and Warranties.

a. Provider shall be responsible for maintaining the Radio Network in good working order throughout the Contract Term. EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION 6, PROVIDER MAKES NO OTHER REPRESENTATIONS OR WARRANTIES OF ANY KIND TO USER REGARDING THE NATURE, CONDITION, OR CAPABILITIES OF THE RADIO NETWORK. WITHOUT LIMITING OR MODIFYING THE PRIOR DISCLAIMER, USER SPECIFICALLY ACKNOWLEDGES AND AGREES THAT NO COVERAGE REPRESENTATIONS, WARRANTIES OR GUARANTEES OF ANY KIND HAVE BEEN MADE BY PROVIDER CONCERNING THE LOCATIONS AT WHICH USABLE RADIO SIGNALS WILL BE TRANSMITTED ACROSS THE RADIO NETWORK AND RECEIVED BY THE USER LICENSED RADIOS.

b. THE WARRANTIES AND REMEDIES SET FORTH IN THIS SECTION 6 CONSTITUTE THE ONLY WARRANTIES WITH RESPECT TO THE SERVICES PROVIDED UNDER THIS AGREEMENT. THEY ARE IN LIEU OF ALL OTHER WARRANTIES WHETHER WRITTEN, ORAL, EXPRESS, IMPLIED, OR STATUTORY INCLUDING, WITHOUT LIMITATION, THE WARRANTY OF MERCHANTABILITY AND THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL PROVIDER BE LIABLE FOR ANY SPECIAL, CONSEQUENTIAL OR INDIRECT DAMAGES INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS OR REVENUES.

7. **Default.** In the event that User fails to pay any monthly Access Fee then due and payable within thirty (30) calendar days after User receives a written notice of non-payment from Provider, Provider may terminate this Agreement by written notice to User and User shall thereafter immediately take all necessary steps, at User's sole cost and expense, to cease its use of the Radio Network.

8. **Notices.** Any notices or payments hereunder shall be given in writing to the party for whom it is intended at the respective addresses set forth below, or such other address as may be designated in writing by notice given in accordance herewith, either in person, by certified mail (return receipt requested and postage prepaid) or by a nationally recognized overnight courier providing for signed receipt of delivery. Any notices sent by electronic mail shall be optional, courtesy notices and not the notices required to be provided under this Section. Any such notice or payment shall be deemed given when received by the addressee.

9. Construction of Agreement. This Agreement, which may be executed in multiple counterparts, is to be construed in accordance with the laws of the United States and the State of Florida. This Agreement sets forth the entire contract between the parties hereto, is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns, and may be canceled, modified or amended only by a written instrument executed by both Provider and User.

10. Termination. Subject to the provisions of this Section 10 and the rights of Provider under Section 7 above, either party may terminate this Agreement upon giving ninety (90) calendar days prior written notice to the other party in accordance with the terms hereof for any reason or no reason at all. Such termination or reduction shall be deemed effective at the end of such ninety (90) calendar day period. Should User desire

to terminate this Agreement prior to the expiration of the Contract Term, User shall pay to Provider: (i) Access Fees through the end of the ninety (90) calendar day notice period.

11. Subleases and Sublicenses. User may only sublease or sublicense any of its rights under this Agreement after prior written approval is obtained from both the State of Florida Department of Management Services and Provider, which prior approvals may or may not be granted by the State or Provider in its sole discretion. User shall remain solely and fully responsible for payment of all Access Fees as set forth in this Agreement for all Licensed Radios activated on the Radio Network either directly for User's benefit or indirectly for authorized and approved third parties using a portion of User's total Licensed Radio allotment. User's total radio count (including radios issued to User's authorized and approved sublessees and/or sublicensees) may not exceed the User's authorized Licensed Radio allotment set forth in the State Approval.

12. Equipment List. The Equipment list is set forth in Exhibit C of this Agreement. The Equipment list will contain the manufacturer's serial number of each Licensed Radio that User will use to access the Radio Network. Additions to the Equipment list shall be made via fax, email, or regular postal service delivered by User to Provider prior to the Licensed Radio being added to the Radio Network provided, however, that in no event shall the total amount of User's Licensed Radios (including the original Licensed Radio quantity and all additional Licensed Radios) using the Radio Network exceed the maximum authorized quantity as specified in the State Approval. User and Provider shall continually seek to timely and diligently update Exhibit C to identify all of the Licensed Radios authorized to use the Radio Network either directly by User or indirectly by a third party using a portion of User's radio allotment pursuant to the terms of this Agreement. Regardless of the accuracy of Exhibit C, User shall pay the Access Fees set forth in Section 4 above for its Licensed Radios.

13. Invalid Provision. The invalidity of any particular provision of this Agreement shall not affect the other provisions hereof and the Agreement shall be construed in all respects as though such invalid or unenforceable provisions were omitted.

14. Independent Contractors. In all matters relating to this Agreement, Provider and User shall be acting as independent contractors and as such each shall have and maintain complete control over and be responsible for all of their own employees and agents and operations. Neither party's employees are employees of the other party under the meaning or application of any applicable Federal or State unemployment or insurance laws or workers' compensation laws or otherwise. Each party shall assume all liabilities or obligations imposed by any one or more such applicable laws with respect to its employees involved in the performance of this Agreement. Neither party shall have any authority to assume or create any obligations, expressed or implied, on behalf of the other party and neither party shall have the authority to represent itself as an agent, employee or in any other representative capacity of the other party.

15. Subject Headings. The subject headings of the articles, paragraphs and subparagraphs of this Agreement are included solely for purposes of convenience and

reference only, and shall not be deemed to explain, modify, limit, amplify or aid in the meaning, construction or interpretation of any of the provisions of the Agreement.

[End of Text This Page]

IN WITNESS WHEREOF, this Wireless Services Agreement is entered into as of the date first written above.

DEPARTMENT OF MANAGEMENT
SERVICES

March 16, 2007

Mr. Dino J. Villani, Director
Okaloosa County Department of Public Safety
6 11th Avenue, Suite G-1
Shalimar, Florida 32579

Dear Mr. Villani,

The Department of Management Services, Enterprise Information Technology Services (DMS/EITS) Program, welcomes your office as a third-party subscriber to the Statewide Law Enforcement Radio System (SLERS). We look forward to working with you and serving your users with the best radio system possible.

DMS/EITS is the contract manager for SLERS. Our SLERS teams works to insure that M/A-COM and the SLERS system are performing according to standards. M/A-COM operates SLERS in a partnership with DMS and the State Joint Task Force agencies. Williams Communications is your local authorized M/A-COM dealer/agent.

In accordance with your application, the regulations of Chapter 60DD-8, F.A.C. and our review of SLERS in your area, your request to become a third-party subscriber is approved with the following characteristics:

Radio and Radio User Approved Units with Phased Implementation – Okaloosa County has requested SLERS service for up to 1000 radios and perhaps 1200 users but the addition of that many radios requires adding additional frequencies to the system in your area. Due to the licensing freeze associated with the nationwide 800 MHz rebanding efforts, no additional frequencies can be added at this time. Current system capacity allows for adding one hundred (100) radios for your office. Our understanding is that the initial users will most likely be from the Sheriff's Office investigations, EMS and beach safety units.

One hundred (100) radios can be put into service once programming features are decided (see below). Due to concerns about system capacity, however, use of SLERS beyond that number must be deferred until additional frequencies are added and/or a system traffic study is done that shows that there is sufficient capacity after the first 100 radios are online.

Before exceeding 100 radios, you must notify us and M/A-COM so we can evaluate the ability of the system to handle the associated traffic prior to any additional approvals by this office.

Areas of Coverage and Radio Programming – The radios will be programmed for your agency's talk groups and mutual aid channels. Your agency's talk groups include service from the Laurel Hill, Crestview, Niceville and Ft. Walton Beach sites.

The radios will also be programmed with all regional interagency and interlocal talk groups and they will have coverage throughout the state for those talk groups. Use of the interagency and interlocal talk groups is governed by Standard Operating Procedure 2A (SOP 2A, attached). In addition, the radios will also be programmed with NPSPAC mutual aid channels (MA-CALL and MA-TAC1-4) that provide service statewide. These channels should be used in accordance with the Region 9 mutual aid procedures. A copy of those procedures is attached.

M/A-COM and/or its agents are responsible for all radio programming. For interagency talk groups, M/A-COM can program the common keys on the interagency talk groups but Okaloosa County needs to have the state agency with which it is operating load any needed agency-specific encryption keys.

Channels for SLERS – After the 800 MHz rebanding is completed, DMS/EITS will apply to the Federal Communications Commission for the channels currently planned for Okaloosa County per the Region 9 Plan. If the application is approved by the FCC, DMS/EITS will use the frequencies in SLERS.

Dispatch Services – Okaloosa County is responsible for primary dispatch services for its users. Radios used in support of state agencies on interagency talk groups will be dispatched through the State's Regional Communications Centers while so tasked unless other arrangements are made.

Training – M/A-COM and/or its agents are responsible for training your users unless you have made other arrangements.

Background Checks – Any users who are not sworn law enforcement will need a background check prior to using SLERS. SOP 6 specifies the process and criteria for approval of radio users.

If you have any questions, please contact Bruce Meyers (850-922-7510, Suncom 292-7510, bruce.meyers@dms.myflorida.com) or Curt Jones at M/A-COM (407-581-3782, jonescu@tycoelectronics.com).

Sincerely,

John C. Ford,
Director, Telecommunications and Wireless Services
