BACKGROUND AND EXPERIENCE:

Blue Arbor has consistently staffed for clients across a vast variety of industries for nearly 40 years. During disasters or the current coronavirus pandemic, our clients call us first!

The clients included in our references are from a selection of long-term clients with whom we hold current contracts. In addition, our feedback of exceptional communication and genuine care for our employees and the clients we work with are clearly and consistently repeated from local and remote clients, big and small. Whether we are staffing for one position or 400; our attention to our client is unrivaled.

ORGANIZATIONAL STABILITY

Blue Arbor's permanent staff consists of 30 employees who collectively have well over a hundred years of direct staffing industry related experience. The average length of service of management level staff members is more than 18 years.

As a member of the North Carolina Association of Staffing Professionals (NCASP), Blue Arbor adheres to its Policies and Standards of Ethical Practice in all areas of business. Clients benefit from the services of our placement specialists who have achieved, or who have been trained by, Certified Temporary-Staffing Specialists (CTS). This nationally recognized CTS certification process requires a minimum of two years of staffing related experience and the successful completion of an extensive examination on general employment laws including Equal Employment Opportunity Law (EEOC), Equal Pay Act (EPA), Age Discrimination in Employment Act (ADEA), Americans with Disabilities Act (ADA), Family Medical Leave Act (FMLA), Fair Labor Standards Act (FLSA), as well as ethical business standards and practices.

This global pandemic has affected all of us—our clients included. Many have had to reduce their operational hours, transition to working from home, lay off mass quantities of staff, and some have been forced to close their doors for an undetermined amount of time. Throughout this uncertain time, Blue Arbor has remained open and available to all our clients. Phone calls, emails and texts can continue while our personal contact is restricted. Whether offering words of encouragement or providing short term workers to get through the worst of this, our goal remains the same: Keep an open line of communication and continue **“Setting the Standard for Service.”**

Tracy partnered with the local employment office in Mobile to access space over the course of several weeks which allows us to personally work with the students and assist them with remote on-boarding. Once students are in the system, a Blue Arbor branch is assigned to handle the account administratively. As with all our employees, the students have access to their own personal account to view paychecks and receive W2's. They also utilize online timesheets and are paid via direct deposit to either their own personal bank account or a Blue Arbor provided pay card.

The software we use has an encrypted website that is only accessible using unique and intricate passwords. The employee will create their own password and it is not viewable by our staff. Should an employee forget their password, we are only allowed send the secure information directly through program software AFTER identification protocols have been met.

5506	<p>STREET OR ROAD CONSTRUCTION—PAVING OR REPAVING & DRIVERS</p> <p>Applies to all kinds of paving or repaving, surfacing or resurfacing or scraping, including airport runways or warming aprons. Applies to those engaged in street or road construction involving paving or surfacing new streets or roads or repaving or resurfacing or scraping existing streets or roads. New construction includes all work beginning with the construction of the concrete or crushed stone base on an established grade and carries on through the paving or surfacing of the street or road, regardless of the types of surface, and finishing operations, i.e., trimming of road shoulders, erecting guardrails or fences (whether performed by specialist contractors or others), painting safety lines or center stripes and installing curbs or gutters. Airport construction involving paving runways or warming aprons is also contemplated within the scope of this classification as are asphalt works operated by these street or road contractors at a temporary location set up at their particular job site. Repaving or resurfacing or scraping existing streets or roads includes scraping or cleaning the existing surface and the application of the resurfacing material as well as scraping existing dirt or gravel roads including regraveling and oiling when undertaken by these repaving or resurfacing contractors. Oil distributors who deliver and spread oil in conjunction with spreading sand or gravel also fall within the scope as do specialist contractors engaged in asphalt laying on top of already constructed highways and the spraying of roads with liquid asphalt. Applies to street or road construction contractors or specialist contractors engaged in asphalt surfacing, application of the initial adhesive bonding material and the surface spreading and rolling of the crushed aggregate in connection with the installation of artificial turf for baseball and football stadiums. This classification additionally applies to employees of highway toll roads who engage in miscellaneous operations incidental to the maintenance of such roads, i.e., paving or repaving; patching road surfaces; spreading oil, tar or gravel; cleaning ditches and sides of roads; hauling and spreading sand for iced roads; plowing and removing snow; setting out pavement markers; cutting grass; and painting guardrails and posts. Assigned to contractors engaged in painting lines or stripes separating traffic lanes on streets, roads or highways. The paint or other material used for these markings is usually applied to the surface of the street, road or highway using a mechanical device, either self-propelled or towed by a truck or other motor vehicle. An asphalt works operation including grinding, pulverizing, or mixing asphalt that is operated by a road paving contractor at a temporary location is additionally assigned to this Code.</p>	31.2%	30.2%

Chauffeurs assigned to this Code are drivers who are not employed by an employer classified as a public transportation operation but who may transport people. An example of this would be a bus driver employed by a financial institution to transport its employees between various sites at which the financial institution does business. For classification purposes, this driver is assigned to this Code since he/she is a chauffeur for an employer that is not in the business of providing transportation to the public. Applies to messengers or couriers who deliver mail, parcels, or packages by driving or bicycling. This Code generally is applicable to the driving of vehicles and/or the transportation of goods owned by an employer.</p>	31.2%	30.2%
7520	<p>WATERWORKS OPERATION & DRIVERS</p> <p>Includes store employees, meter readers. Applies to the operations of water plants, whether they are operated by a municipal board or commission or a private company. In some cases sodium fluoride is added. Water samples are taken and tested periodically. The water is then pumped to large elevated stand pipes for distribution through the system. When performed by employees of the water plant and specifically related to water plant operations, the installation, repair, and maintenance of water mains, water pipes, taps, meters, and fire plugs are included in this Code. When these operations are performed by employers that do not operate a water plant, the appropriate installation, repair, or maintenance code that describes the employer's particular operation is applied to same.</p>	25.8%	30.2%

This classification is assigned to inspectors for Departments of Motor Transportation and inspectors at permanent truck weighing stations. All employees of private security services would be assigned to this Code except those clerical office employees. Private security services may include crowd management at athletic events, conventions and concerts. Employees of a private security agency whose assigned duties are those of a store detective or hotel detective would be assigned to this Code. There is no distinction made as to whether these employees are armed or unarmed, or whether or not they have the official authority or power to arrest. It should be noted that in some states there is a separate classification applicable to private security guard services and private detective or patrol agencies. Specialty contractors providing flagging services or pilot car services at construction sites for purposes of traffic control and safety are classified to this Code. When employees of the construction contractor perform these services, the appropriate construction classification applies.</p>		
8380	<p>AUTOMOBILE—SERVICE OR REPAIR CENTER & DRIVERS</p> <p>Applies to employers operating service stations and gasoline stations that perform service or repair work on automobiles, vans, trucks, and motorcycles. The classification includes minor repair and service work such as engine tune-ups; simple electrical lighting; starter and generator repairs; sales, installation, and service of storage batteries; tire mounting, balancing, and alignments; lubrications; oil changes; gasoline dispensing; car washing; glass installation; undercoating; and work on engines, transmissions, radiators, and ignition systems. This Code includes major mechanical repair work such as engine or transmission overhauls, valve work, extensive or complex ignition and electrical systems repair, etc. Specialist shops such as those performing installation, service or repair of brakes, mufflers and air conditioners in automobiles, vans and light trucks, as well as new car clean-up and detail shops are included in this Code. Applies to employers that operate new and/or used automobile, van, truck, motorcycle, or golf cart sales or service agencies. These employers will usually operate repair shops and replacement parts departments. 	for the purpose of discussing problems associated with the customer's vehicle are additionally classified to this Code. These service writers will often conduct a cursory inspection of the customer's vehicle and provide an estimate for the anticipated repair work. These employees may also enter the shop area to determine the status of repair work on a customer's vehicle. Diesel engine service franchises where the majority of work is performed on diesel engines for trucks, but not power equipment such as Caterpillars, graders, power shovels or cranes, are additionally assigned to this Code.		
8810	<p>CLERICAL OFFICE EMPLOYEES NOC</p> <p>The duties of a clerical office employee include creation or maintenance of financial or other employer records, handling correspondence, computer composition, technical drafting, and telephone duties, including sales by phone. The clerical office classification continues to apply to a qualified clerical office employee who performs a duty outside of a qualified clerical office area when that duty does not involve direct supervision or physical labor and is directly related to that employee's duties in the office. These duties do not exclude depositing funds at the bank, purchasing office supplies, and pickup or delivery of mail, provided they are incidental and directly related to that employee's duties in the office. A clerical office is a work area separated and distinguishable from all other work areas and hazards of the employer by floors, walls, partitions, counters, or other physical barriers.</p>	19.8%	17.8%
8820	<p>ATTORNEY—ALL EMPLOYEES & CLERICAL, MESSENGERS, DRIVERS.</p> <p>All-inclusive as respects employees of attorneys or law offices. The employee exposure is principally inside office work; however, the scope includes outside exposure of trial attorneys and attorneys, paralegals and other employees involved in investigative work. This Code would also apply to any employees of attorneys or law firms performing cleaning or maintenance service in or about the premises used for professional purposes. In addition, insureds engaged in the business of providing court reporters who take depositions in law offices or other comparable locations and record legal proceedings have been assigned to this Code.</p>	19.8%	17.8%
8831	<p>HOSPITAL—VETERINARY & DRIVERS</p> <p>Assigned to veterinarians conducting private practices in the care of animals. The classification applies to professional employees as well as nonprofessionals and the phraseology specifically includes drivers. Veterinary employees who greet clients and their animals and have exposure to harm from this encounter such as being bitten, scratched or otherwise injured by these animals are not considered clerical employees</p>	23.8%	22.8%

Workers' Comp Code	Job Description	Recruited Mark-Up Rate	Payroll Mark-Up Rate
	and are assigned to this Code. This Code is applicable to insureds in the business of poultry sexing as it is felt that poultry sexers are not in the business of operating a poultry farm but have duties more analogous to those of a veterinary. Animal control officers are additionally assigned to this Code since their primary exposure is to animals. These officers are generally employed by government agencies. They are exposed to the hazards of animal bites, scratches and other injuries as well as disease carried by animals they encounter. These exposures are similar to those of veterinary and animal hospital employees.		
8868	<p>COLLEGE OR SCHOOL – PROFESSIONAL EMPLOYEES & CLERICAL</p> <p>Applies to professional employees of academic, trade or vocational institutions of learning. The classification includes professors, administrators, teachers, guidance counselors, social workers, therapists, nurses, athletic coaches and clerical employees. Employees who assist these professional employees by performing similar or related duties to those in which these professionals engage are additionally assigned to this Code. It is recognized that these assistants may not be considered "professional" to the extent that they may be unlicensed or not have the necessary academic credentials. Nevertheless, we consider these employees to be professional for classification purposes as their exposure is similar to those they are assisting. Examples of this type of employee include, but are not limited to, teacher's or nurse's aides or assistant athletic coaches. Clerical employees who work in offices at separate locations away from a school campus or religious organization building are classified to this Code, as this code includes clerical operations. Professional employees of agricultural schools who, as a part of their teaching activities, demonstrate various planting techniques on farms operated by such schools, are also contemplated under this classification provided the farms are not operated as commercial enterprises. The incidental sale of a minor amount of surplus produce would not preclude the assignment of this Code for professional farm employees.</p>	19.8%	17.8%
9015	<p>BUILDING OR PROPERTY MANAGEMENT—ALL OTHER EMPLOYEES</p> <p>Applies to owners, lessee, or real estate management firms that operate office, apartment, tenement, mercantile, or industrial buildings. It encompasses all superintendents, custodial operations, and maintenance operations conducted by an owner or lessee of a building except those performed by an employer occupying the entire or a major portion of the building for manufacturing, mercantile, or other commercial purposes. Camp operations included in this Code provide overnight accommodations and offer a wide range of activities such as swimming, boating, archery, fishing, hiking, and arts and crafts; sports</p>	26.8%	25.8%

	such as tennis and softball; and other traditional camping activities. These camps may employ counselors, cooks, grounds and maintenance personnel, nurses, housekeepers, guards, and lifeguards. Due to the varied nature of activities that take place in these camps, no one classification describes their operations.		
9101	<p>COLLEGE--ALL OTHER EMPLOYEES</p> <p>Applies to all employees other than professional employees of academic, trade or vocational institutions of learning. This Code includes employees engaged in the care, custody and maintenance of college or school buildings, grounds and equipment. This would include dormitories, mess halls and recreational facilities maintained and operated by these institutions. Security personnel employed by schools are additionally classified to this Code. These employees' duties generally include, but are not limited to, the patrolling and monitoring of both exterior and interior school areas and the manning of school security check-in points where students may be physically or electronically searched for weapons or other contraband. Employees (other than professional employees) who work in hospitals or clinics operated by universities primarily for the purpose of training medical students are contemplated within the scope of this Code, provided the patients being treated are primarily charity patients, with only a minor number of patients being billed for services rendered. A bookstore operated by a school on the school campus is not considered a separate commercial enterprise for purposes of this interpretation. Professionals employed by this operation are classified to Code 8868 and nonprofessionals are classified to this Code. Nonprofessional employees of agricultural schools that operate farms also are contemplated within this classification provided the farms are not operated as commercial enterprises. The incidental sale of a minor amount of surplus produce would not preclude the assignment of this Code for nonprofessional farm employees. Nonprofessional employees at day nurseries, seminaries, military schools, veterinary schools and driver training schools are appropriately assigned to this Code. Applies to all employees, other than professional employees, of religious organizations of all sects. This Code includes employees of religious organizations who engage in the care, custody and maintenance of buildings, grounds and equipment. This classification does not contemplate employees such as cooks, maids or housekeepers engaged solely in domestic duties in living quarters of religious organization staff. These employees are assigned to the appropriate per capita classification provided their duties do not extend further than the residences of religious organization staff. This Code is additionally assigned to "chapels" of a secular (nonreligious) nature that are engaged in the business of performing marriage ceremonies. This Code also is applied to all employees, other than professional employees, of public libraries or museums belonging to any municipality, village, town, county,</p>	26.8%	25.8%

	city or state. This Code includes employees of these institutions who engage in the care, custody and maintenance of public library or museum buildings, grounds and equipment. Insureds engaged in the business of fossil recovery from stratified materials using small air engravers, hand-held sand blasters, circular rock saws and related equipment to recover artifacts for archaeologists are classified by analogy to this Code.		
9102	<p>PARK NOC—ALL EMPLOYEES & DRIVERS</p> <p>This Code is applied to all employees engaged in the operation of public parks, which may be owned or operated by administrative agencies of federal, state, county, or municipal governments or civic organizations such as Rotary Clubs, Kiwanis Clubs, Chambers of Commerce, and Police Benevolent Associations. Operations in this Code include the care, custody, and maintenance of all buildings within the parks such as administrative buildings, rest houses, pavilions, stables, and equipment storage buildings; maintenance of park grounds, trees, shrubs, and flowers; and maintenance of baseball diamonds, tennis courts, swimming pools, and zoos.</p>	26.8%	25.8%
9402	<p>STREET CLEANING & DRIVERS</p> <p>Applies to specialist contractors or municipal employees engaged in street cleaning. The cleaning may be performed by either manual or mechanical means such as the use of mechanical sweepers. Some sweepers direct a spray onto the street surfaces and rotary brooms sweep dirt and other debris into storage bins. Filled bins are then disposed of at commercial dumps. Streets may also be cleaned by water sprinkling trucks. The water carries the dirt to the curb and the water and dirt drain into sewers. Spray cleaning of the interior walls of tunnels is considered analogous to street cleaning and is assigned to this Code. The clearing of snow from public or private parking lots, streets or roads is assigned to this Code. This includes employees of toll roads who have been hired specifically to perform snow removal operations. This Code contemplates routine beach or shoreline cleaning as well as beach or shoreline cleaning made necessary due to oil spills. This includes the onshore cleaning of rocks with hot water under pressure alongside banks or shores of waterways where oil spills have reached land. The power sweeping of parking lots is assigned by analogy to this Code. Outdoor spraying operations for mosquito or other insect control that do not take place at farms or irrigation systems are additionally classified to this Code. The operations involve filling an insecticide into trucks equipped with special spray equipment that dispenses the insecticide. This Code also is applied to specialist contractors or municipal employees engaged in cleaning mainline sewers and storm</p>	32.2%	31.2%

	<p>sewers where material and other refuse from the street is likely to accumulate. Street mains, which are usually large, require the use of heavy nonportable equipment that forces the waste material along the sewer line from manhole to manhole until the line is clear. The waste material is removed by hand using buckets or by using suction devices that pump the waste into a collection tank on a truck. Some sewer cleaning insureds also perform sewer inspection and crack sealing operations using a remote control method by which a grouting unit is fed into a sewer pipe and positioned at the point of seepage after the cracks first have been located by means of a closed circuit television inspection camera. The grouting unit's expandable diaphragm is then inflated to seal off the crack. These inspection and sealing operations properly fall within the scope of this Code. Specialists engaged in cleaning cesspools or septic tanks utilizing vacuum pump trucks as well as specialists who rent, deliver, install and service portable toilets are also assigned to this Code. Risks that are in the business of operating tank trucks equipped with pumps that are used to pick up waste oil and water at sites other than oil well sites are classified to this Code. These risks can be referred to as vacuum truck operators. This Code is applicable to the described risks provided they do not engage in any other activities such as recycling of the waste material but merely transport same to another business entity that will dispose of the waste material.</p>		
9403	<p>GARBAGE, ASHES OR REFUSE COLLECTION & DRIVERS.</p> <p>Applies to employers that perform public or private collection of garbage, ashes, or refuse and the transporting of same to waste reduction or incinerator plants, rendering or fertilizer plants or dumps. There is no distinction as to the types of garbage or refuse collected, i.e., solid or liquid, commercial, industrial or residential. Also, no distinction is made as to the methods used to collect the garbage or refuse. Some employers empty cans or drums manually or toss filled plastic trash bags into trucks. Others operate mechanical equipment to lift containerized waste and dump the waste into trucks, or entire containers may be loaded onto truck chassis and empty containers are left for refilling. Drivers who remove residue from reduction or incinerator plants are also assigned to this Code. Additionally, manure dealers who purchase and collect their product from stockyards, dairy farms, and other type animal farms and subsequently sell it as fertilizer are assigned by analogy to this Code. Employers that collect and haul shredded documents from office locations to a disposal site are also assigned to this Code by analogy.</p>	32.2%	31.2%

The following clarifications, amendments, additions, deletions, revisions and modifications form a part of the contract documents and change the original documents in the manner and to the extent stated.

SPECIFIC QUESTIONS AND ANSWERS:

1. Does E-Verify have to be used if all i9' are verified through the SSA website directly?
The organization is required to used E-Verify
2. Do the garbage trucks use hoppers? We do not operate garbage trucks
3. Are all positions governed by the Davis Bacon Act? If not which positions are and will certified payroll be required? Davis Bacon will only apply to those laborers and mechanics that the County would bring onboard for purposes of performing federally funded or assisted construction, alteration, or repair (including painting and decorating) of public buildings or public works.
4. On the draft contract #2 under Services, it states "Contractor agrees to perform the following services, provide employees meals during a disaster event". That appears to be a hold over from the last federal contract done by the County. That will be deleted and replaced with the actual statement of services to be provided under a contract at time of awarding the contract.
5. On the draft contract #4 under compensation, it states "The Contractor agrees to provide the Services to the County, including material and labor, in a total amount of dollars." What materials would need to be provided and how would we determine that cost of labor upfront if it is a yearly nonexclusive agreement. In the final version of the Contract once proposals are received, the County can revise the compensation section, which is part of the standard section, to reflect how payment for services would occur. No materials would be provided under the services.
6. Are nicotine test required? No

The Contractor agrees to report any violation to the Owner immediately upon discovery. The County assumes responsibility for notifying the Environmental Protection Agency (EPA).

Contractor must include this requirement in all subcontracts that exceeds \$250,000.

Equal Employment Opportunity (2 CFR Part 200, Appendix II(C); 41 CFR § 61-1.4; 41 CFR 61-4.3; Executive Order 11246). During the performance of this contract, the Contractor agrees as follows:

(1) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, sexual orientation, gender identify, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff, or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The Contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The Contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: *Provided, however*, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

Davis-Bacon Act (2 CFR Part 200; 29 CFR Part 5).

1. Minimum Wages.

(i) All laborers and mechanics employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the Secretary of Labor under the Copeland Act (29 CFR Part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalent thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the Contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred

during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR Part 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: *Provided* that the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under (1)(ii) of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the Contractor and its subcontractors at the site of the work in a prominent and accessible place where it can easily be seen by the workers.

(ii)(A) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

- (1) The work to be performed by the classification requested is not performed by a classification in the wage determination;
- (2) The classification is utilized in the area by the construction industry; and
- (3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) If the Contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(C) In the event the Contractor, the laborers, or mechanics to be employed in the classification, or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to subparagraphs (1)(ii) (B) or (C) of this paragraph, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the Contractor does not make payments to a trustee or other third person, the Contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program: *Provided* that the Secretary of Labor has found, upon the written request of the Contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the Contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

2. Withholding.

The County shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the Contractor under this contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the Contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of work, all or part of the wages required by the contract, the County may, after written notice to the Contractor, County, Applicant, or Owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and Basic Records.

(i) Payrolls and basic records relating thereto shall be maintained by the Contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker; his or her correct classification; hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in 1(b)(2)(B) of the Davis-Bacon Act); daily and weekly number of hours worked; deductions made; and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Contractor shall maintain records that show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and that show the costs anticipated or the actual costs incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee

 _____ 17

programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii)(A) The Contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the County if the agency is a party to the contract, but if the agency is not such a party, the Contractor will submit the payrolls to the applicant, County, or Owner, as the case may be, for transmission to the County. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g. the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at www.dol.gov/whd/forms/wh347instr.htm or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker and shall provide them upon request to the _____ if the agency is a party to the contract, but if the agency is not such a party, the Contractor will submit them to the applicant, County, or Owner, as the case may be, for transmission to the _____, the Contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the County government agency (or the applicant, County, or Owner).

(B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the Contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) The payroll for the payroll period contains the information required to be provided under 29 CFR § 5.5(a)(3)(ii), the appropriate information is being maintained under 29 CFR § 5.5 (a)(3)(i), and that such information is correct and complete;

(2) Each laborer and mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations 29 CFR Part 3;

(3) Each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

 _____ 18

(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (3)(i)(B) of this section.

(D) The falsification of any of the above certifications may subject the Contractor or subcontractor to civil or criminal prosecution under Section 1001 of Title 18 and Section 231 of Title 31 of the United States Code.

(iii) The Contractor or subcontractor shall make the records required under paragraph (3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the County, _____, or the Department of Labor and shall permit such representatives to interview employees during working hours on the job. If the Contractor or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the Contractor, County, applicant, or Owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

4. Apprentices and Trainees.

(i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the Contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits

listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the Contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination that provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate that is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the Contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal Employment Opportunity. The utilization of apprentices, trainees, and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR Part 30.

5. Compliance with Copeland Act Requirements.

The Contractor shall comply with the requirements of 29 CFR Part 3, which are incorporated by reference in this contract.

6. Subcontracts.

The Contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR Part 5.5(a)(1) through (10) and such other clauses as _____ may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses

 _____ 20

in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR Part 5.5.

7. Contract Termination: Debarment.

A breach of the contract clauses in paragraph 1 through 10 of this section may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

8. Compliance with Davis-Bacon and Related Act Requirements.

All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR Parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes Concerning Labor Standards.

Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the Contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of Eligibility.

(i) By entering into this contract, the Contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the Contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 USC 1001.
