# TASK ORDER 02

# (Contract C22-3247-WS)

THIS TASK ORDER IS ISSUED PURSUANT TO THE AGREEMENT FOR CONSULTING SERVICES DATED SEPTEMBER 2022, BETWEEN THE COUNTY OF OKALOOSA COUNTY, FLORIDA AND HDR, WHICH IS INCORPORATED HEREIN BY THIS REFERENCE, WITH RESPECT TO

# Scope of Basic Services to Provide Professional Engineering Design and Construction Management Services for the CIP Lift Station and Force Main Replacement Project

### Article A. Purpose:

The purpose of this Task Order is to authorize and direct HDR ENGINEERING, INC. (CONSULTANT) to proceed with providing professional engineering design, permitting and construction services for the Crestview Industrial Park (CIP) Lift Station and Force Main Replacement Project (PROJECT) for the Okaloosa County Water and Sewer Department (COUNTY). The activities that are included are described in "Article B – Scope of Services."

## Article B. Scope of Services:

The CONSULTANT agrees to furnish professional engineering design services to construct a new wastewater pumping station and force main, to remove the existing pumping station, and to prepare contract documents for bidding phase services and construction phase services for the construction of the PROJECT, as requested by the COUNTY's representative. The engineering and technical services that may be authorized in this task order by the COUNTY's Representative include, but are not limited to, the following:

- 1. Project Management Services
- 2. Geotechnical Engineering Services
- 3. Engineering and Design Services
- 4. Permitting Coordination Services
- 5. Bidding Phase Services
- 6. Construction Phase Services

Specific Work Tasks that may be authorized by the COUNTY's representative are presented below.

#### Task 1. Project Management Services

<u>Objective</u>: CONSULTANT will provide the management, administration, and coordination of project activities. The purpose of this task is to manage and to coordinate project resources consistent with the project schedule and keep the COUNTY informed of project progress. Project Manager will provide project oversight, including day-to-day management of resources and schedules, periodic liaison with COUNTY, telephone conversations, file management, management of sub-consultants, conflict and problem resolution, project staff management, accounting, contracts administration, and project control.

Task Deliverables: CONSULTANT will email monthly invoices and project status reports to the COUNTY

Key Understandings: None

Meetings/Travel: Communications under this task will be via e-mail and/or telephone conversations

Information and Services Provided by Others: None

#### Task 2. Geotechnical Engineering Services

As authorized by the COUNTY's Representative, CONSULTANT shall contract with a licensed geotechnical engineering firm to perform a geotechnical investigation of the proposed site. The intent of the investigation shall be to establish the information and data necessary to design the various structures and piping that are included in the PROJECT. CONSULTANT shall incorporate information, recommendations, and conclusions from the geotechnical engineering consultant into the final design of the PROJECT.

Task Deliverables: Geofechnical Analysis and Summary Report

Key Understandings: HDR Assumes (4) soil borings will be required with one boring being located within the airport property

Meetings/Travel: Communications under this task will be via e-mail and/or telephone conversations

Information and Services Provided by Others: Geotechnical Sub-Consultant will be LMJ

#### Task 3. Engineering and Design Services

<u>Objective</u>: The CONSULTANT will design and submit 30%, 60%, 90% and Final Plans for the design project, which includes replacement of the CIP Lift Station and Force Main. The engineering and design services will include hydraulic modeling, a new fiberglass wetwell, new non-clog submersible pumps, stainless discharge piping and above ground valves, new motor controls and power supplies, and new discharge force main crossing Bob Sikes Airport property and connection to the Jerry D. Mitchem Water Reclamation Facility (JDMWRF). The project documents will contain general notes referencing the Okaloosa County Water and Sewer standard specifications and details, and will be supplemented by additional HDR details and specifications as needed. The final CADD deliverables for the PROJECT will be in Civil 3D and will adhere to applicable standards and formats required by the COUNTY. Consultant will develop an Engineers Opinion of Probably Construction Cost (EOPCC) with the 60%, 90% and Final submittals.

#### <u>Task Deliverables</u>:

30% Conceptual Design

- CONSULTANT will perform conceptual engineering design (30%) for the following:
  - Provide layout and constructability scenarios for the replacement of the CIP Lift Station and Force Main. The design will be evaluated for a duplex system and emergency operation with a permanent generator
  - o Evaluate submersible non clog pumps and obtain recommended manufacturer recommendation to meet the average daily flow and peak hour flow conditions
  - OCWS will provide existing and future flow conditions for HDR to use for the design and sizing of the pumps and force main
- CONSULTANT will schedule and conduct a 30% design meeting and field review with the COUNTY, including schematic site/civil

60% Design Plans

- CONSULTANT will perform engineering design (60%) and prepare preliminary Design Drawings for the following:
  - New Fiberglass reinforced polyester wetwell
  - Submersible non-clog pumps to meet flow conditions
  - o Preliminary site layout, including site grading, access driveway, and fencing
  - New discharge piping and isolation valves
  - o Replacement of discharge force main crossing Bob Sikes Airport property
  - o Discharge force main tie-in at JDMWRF
  - o Abandonment of existing lift station and force main

- CONSULTANT will schedule and conduct a 60% design review meeting with the COUNTY, including review of site/civil and mechanical layout plan, wet well dimensional recommendation, pump sizing recommendation, emergency generator recommendation, new discharge piping and isolation valves
- Four (4) 11"x17" sets of Design Drawings
- Two (2) 22"x34" sets of Design Drawings
- Electronic Submittal (PDF)
- 60% Draft EOPCC

#### 90% Design Plans

- Upon receipt and incorporation of comments received from the COUNTY, CONSULTANT will advance the design to the 90% level and submit to the COUNTY for review
- CONSULTANT will schedule and conduct a 90% design review meeting
- Four (4) 11"x17" sets of Design Drawings
- Two (2) 22"x34" sets of Design Drawings
- Electronic Submittal (PDF)
- 90% Draft EOPCC

#### Final Design Plans

- Upon receipt and incorporation of comments received from the COUNTY, CONSULTANT will advance the design to the 100% completion, ready for bid
- Four (4) Full Size (22"x34") Sets of Drawings
- Two (2) Half Size (11"x17") Sets of Drawings
- Electronic Submittal (PDF)
- Final EOPCC

#### Key Understandings:

- HDR will develop a hydraulic model of the system utilizing existing profile data, drawings and survey to determine discharge pipe size
- Okaloosa County Water and Sewer Technical Specifications and Details will be used by Reference
- The County will provide all required survey data, which include topographic and utility information
- The force main replacement under the Bob Sykes Airport will be designed as an HDD crossing
- Subsurface Utility Exploration (SUE) will be provided by the County
- The CONSULTANT will confirm that wind load calculations are based on the applicable requirements and are signed and sealed by a Structural Engineer
- Wetland delineations and environmental assessments are not required for the site
- Maintenance of Traffic planning is excluded from this scope of services
- HDR is not providing proposed relocations for other utility owners (i.e. gas, power, communications)
- The COUNTY will pay all fees required for testing, permitting, agency reviews, etc.

<u>Meetings/Travel</u>: The CONSULTANT will participate in a kickoff meeting, a design review meeting at each submittal phase, and provide general engineering assistance, consultation, and opinions regarding the PROJECT.

<u>Quality Control</u>: The CONSULTANT will conduct a quality control review of project deliverables prior to submittal to the COUNTY.

#### Information and Services Provided by Others: None

#### Task 4. Permitting Coordination Services

<u>Objective</u>: CONSULTANT will coordinate directly with individual permitting agencies, Okaloosa County Growth Management and airport authorities to apply and submit for the following permits and/or FAA submittals required for the design and construction of the proposed lift station and force main work. The CONULTANT will submit all required documents once the 90% plans have been delivered to the COUNTY.

- FDEP General Permit for the construction of a Lift Station and Force Main replacement
- Growth Management Electrical Permit
- Airport Construction Safety and Phasing Plan (CSPP)
- FAA Form 7460-1 Notice of Proposed Construction
- Up to two (2) airspace evaluation cases to the FAA OE/AAA portal for miscellaneous vertical structures, e.g., SCADA antenna
- FCC Frequency Evaluation to confirm that SCADA communications will not interfere with Airport communications

Upon completion of construction, the Consultant will submit a request for clearance form for the FDEP General Construction permit.

#### <u>Task Deliverables:</u>

- FDEP General Construction Permit Submittal Package
- Growth Management Electrical Permit, including generator wind load calculations
- Airport Construction Safety and Phasing Plan submitted to FAA via the OE/AAA portal
- FAA Form 7460-1 Notice of Proposed Construction
- Up to two (2) airspace evaluation cases to the FAA via the OE/AAA portal for miscellaneous vertical structures, e.g., SCADA antenna
- FCC Frequency Evaluation submittal to FAA via the OE/AAA portal for SCADA communications
- Final permit clearances and/or certifications for each permitting agency

#### Key Understandings:

- The COUNTY will pay all fees required for testing, permitting, agency review, etc.
- Project permitting will be limited to FDEP and Airport permits
- Owner is responsible for escort of field services equipment and workers within the Air Operations Area (AOA)
- CSPP will not require the closure of the runway or taxiway

#### <u>Meetings/Travel</u>:

• Coordination Meetings with Airport Staff and COUNTY (Assume 2 meetings)

#### Information and Services Provided by Others: None

#### Task 5. Bidding Phase Services

<u>Objective</u>: CONSULTANT will prepare one set of "Material Only" bid documents to include Pumps, Wetwell, MCC, and Control Panel. It is understood that the COUNTY will be constructing the recommended lift station facilities using it's own forces, as supplemented by subcontracts directly contracted by the COUNTY and not contracted by solicitation using contract documents developed by the CONSULTANT. CONSULTANT will review and evaluate bids and provide a recommendation for award of the Contract and assist COUNTY with final construction contracts or purchase orders.

#### Task Deliverables:

- One electronic and one original copy of the final Contract Documents for bidding. Additional copies of the final documents shall be provided at a cost to the COUNTY
- The CONSULTANT will prepare one (1) separate "Material Only" supply bid documents for the following item:
  - o Bid Package No. 1 Pumps, Wetwell, MCC & Control Panel
  - The COUNTY will acquire the Emergency Generator by State Contract
- Recommendation of Award

#### Key Understandings:

• OCWS will construct this project with their own forces

#### Meetings/Travel: None

Information and Services Provided by Others: None

#### Task 6. Construction Phase Services

<u>Objective</u>: During the anticipated construction period, the CONSULTANT will provide limited construction administration inclusive of attendance at a pre-construction/coordination conference and meet with representatives of the COUNTY, Airport, the Contractor/Supplier, regulatory authorities, and other appropriate parties for the construction or operation activities of the PROJECT as necessary. CONSULTANT will perform periodic site visits to review progress and address any questions arising during construction. CONSULTANT will review the Contractor/Supplier's requests for payment and make recommendations for payment. CONSULTANT will review and make recommendations on Change Orders from the Contractor/Supplier requests as necessary. CONSULTANT will review shop drawings and respond to Contractor RFI's. The CONSULTANT will assist the COUNTY in organizing a final walkthrough and test startup of installed equipment with the Manufacturers and Contractor/Supplier of the PROJECT. Continuous detailed construction inspection and preparation of record drawings is not included.

#### <u>Task Deliverables</u>

- Contractor/Supplier Invoice Review (Up to 6 invoice submittals)
- RFI Responses (Up to 8 RFI responses)
- Shop Drawing Approvals (Up to 6 Shop Drawing approvals)
- Change-Order Approvals (Up to 1 change-order approvals)
- Drawdown Data Spreadsheet

<u>Key Understandings</u>: The County will build the lift station and force main with their own forces with assistance from their on-call contractor for the installation of the force main portion to be installed via HDD. The County will also prepare and confirm all record drawings.

<u>Meetings/Travel</u>: The CONSULTANT will attend the following meetings during construction to facilitate coordination, provide limited site inspection and verify general compliance with the design plans:

- Pre-Construction/Coordination Meeting
- Periodic Site Visits (Assume 12 site visits)
- Monthly Progress Meetings (Assume 8 progress meetings)
- Final Walkthrough and Test Startup of Installed Equipment

Information and Services Provided by Others: Daily construction inspection to be provided by others as needed.

## Article C. Compensation Provisions:

As compensation for providing the services described within this Task Order, OCWS shall pay HDR in accordance with Section 7 of the September 2022, Agreement, a total amount of \$152,122.00 to be billed in percentage of work complete for tasks 1, 3, 4 and 5 and based on time and materials for tasks 2 and 6, according to the below table:

Task Description	Amount \$
Task 1: Project Management Services	\$ 7,040.00
Task 2: Geotechnical Engineering Services - Time & Materials	\$ 8,191.00
Task 3: Engineering and Design Services	\$ 90,975.00
Task 4: Permitting and Coordination Services	\$ 16,450.00
Task 5: Bidding Phase Services	\$ 3,255.00
Task 6: Construction Phase Services - <u>Time &amp; Materials</u>	\$ 24,690.00
Direct Costs	\$ 1,521.00
Total Amount	\$ 152,122.00

HDR will keep OCWS informed of progress so that the budget and/or work effort can be adjusted if necessary. HDR is not obligated to incur costs beyond the indicated budget ceiling, as may be adjusted, nor is OCWS obligated to pay HDR beyond these limits.

## Article D. Authorized Representatives:

The Authorized Representatives designated below are authorized to act with respect to this Task Order. Communications between the parties shall be through the Authorized Representatives:
