SINGLE SOURCE PURCHASE JUSTIFICATION REQUEST

A single source means that a commodity or service can be purchased from multiple sources, but, in order to meet certain functional or performance requirements (e.g. parts matching existing equipment or materials) there is only one economically feasible source for the purchase.

Morgan Marine Salvage & Recovery would like to donate Miss Joann (65ft, three story tugboat) to the County for deployment as an artificial reef at a fee of \$45,500.

This price is reasonable based on the cost of similar (donated) vessel projects in the past year - DYLAN, BRANNON and BIG DAWG. A bit like comparing apples and oranges when it comes to the cleanup side of things, but it is comparable overall. This deployment seems to be a bit cheaper than previous vessel deployments especially considering the extra clean required due to the age of the vessel (built in 1941).

Morgan Salvage best meets the functional/performance needs of the county since they will donate the vessel if they are able to perform the deployment, and are economically feasible based on similar projects.

Lagree, I believe it meets the definition of single source. However, you need to make sure a contract is drafted for this one in our standard format due to the dollar amount and the risk it is needed.
