Verizon Wireless Calling Plan and Feature Details

Verizon Wireless Calling Plan Optional Services. Additional fees may be required as per the individual calling plans.

Calling Plans and Associated Charges: Some calling plans or monthly access price points may not be available in all markets. Subscriber's first partial and full month's access will not be refunded after activation of the Wireless Service. Activation fees are waived for all Government Subscribers. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the Subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on Subscriber's phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to the next full minute. Unused minutes and/or Megabytes are lost. On outgoing calls, charges start when Subscriber first presses SEND or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after Subscriber presses END or the call otherwise disconnects. Calls made on the Verizon Wireless network, are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free, however, airtime may be charged when dialing toll-free numbers. All features may not be available in all Verizon Wireless markets.

Home Airtime and Roaming: Home airtime minutes apply when making or receiving calls from a calling plan's home rate and coverage area. Coverage information is available at www.verizonwireless.com. Airtime is rounded up to the next full minute. Allowance minutes/Megabytes are not transferable except as may be available on calling plans with sharing. Subscribers must periodically dial *228 to update roaming information. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

Long Distance: Unlimited domestic long distance is included when calling from the calling plan's home rate and coverage area, unless otherwise specified in the calling plan.

Customer's Cell Phone Number and Caller ID. Verizon Wireless will assign one Mobile Telephone Number ("MTN") to each Subscriber line. Other than as required to port an MTN, Customer does not have any property right in the MTN and Verizon Wireless may change, reassign, or eliminate an MTN upon reasonable notice to Customer under certain circumstances, including fraud prevention, area code changes and regulatory or statutory law enforcement requirements.

Push to Talk Plus: Push to Talk Plus capable Equipment required. Push to Talk Plus capable Equipment can only be used with a Push to Talk Plus calling plan. **Subscribers switching from a Push to Talk Plus Calling Plan to another calling plan may not be able to use certain Push to Talk Plus capable Equipment with the new plan.** Push to Talk Plus calls may only be made with other Verizon Wireless Push to Talk Plus subscribers. Push to Talk Plus Subscribers may initiate or participate on a call, simultaneously, with as many as 250 total participants (total is limited to (50) if interoperating between 3G and 4G participants). Administrators can be designated to manage the Push to Talk contact lists via a single website interface with a single user name/password. Existing Push to Talk Subscriber Equipment may require a software upgrade to use Push to Talk Plus or replacement with a Push to Talk Plus capable device. Push to Talk Plus is only available within the National Enhanced Services Rate and Coverage Area and WiFi access points. There will be a delay from the time a Push to Talk Plus call is initiated until the Push to Talk Plus call is first received by the called party.. If an incoming voice call is received while on a Push to Talk Plus call the voice call may be answered and the Push to Talk Plus placed on hold. If an incoming Push to Talk Plus call is received while on a Push to Talk Plus call the PTT call icon can be selected to connect to the Push to Talk Plus call. If the incoming voice or Push to Talk Plus call is not answered a missed call alert will display. Network registration information will be sent to the Equipment each time it is powered on in the National Enhanced Services Rate and Coverage Area, each time the Subscriber travels into the National Enhanced Services Rate and Coverage Area, and every 12 hours if the Subscriber stays within the National Enhanced Services Rate and Coverage Area. While the updated network registration information is being sent to the Equipment, incoming voice calls will go directly to voice

mail. Contact list cannot be modified from certain Equipment. Subscriber cannot prevent others who have the Subscriber's MTN from entering the MTN into their Push to Talk contact list. Only one person can speak at a time during a Push to Talk Plus call. . In-Call Talker Override (Talker Priority) allows a pre-determined user priority to take the floor to communicate urgent message over participant. Push to Talk Plus services cannot be used for (i) access to the Internet, intranets or other data networks, except as the device's native applications & capabilities permit, (ii) any applications that tether Equipment to laptops, personal computers or other devices for any purpose. Please visit our website www.verizonwireless.com for additional Push to Talk information.

Mobile to Mobile: Mobile to Mobile minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless Subscriber while in the America's Choice Home Rate and Coverage area. Mobile to Mobile is not available to Subscribers whose current wireless exchanges restrict the delivery of Caller ID. Mobile to Mobile minutes will be applied before home airtime minutes.*

Night and Weekends: Applies to calls made in a calling plan's home rate and coverage area only during the following hours: 9:01pm Friday through 5:59am Monday and 9:01pm to 5:59am Monday through Friday.*

***NOTE:** If both Night and Weekend and Mobile to Mobile minute allowances apply to a given call, Mobile to Mobile minutes will apply before Night and Weekend minutes. However, if either allowance is unlimited, the unlimited allowance will always apply first.

The ability to make international calls is not guaranteed and may be restricted without notice. Rates apply only on calls to Value Plan countries made from calling plan home airtime rate and coverage areas. If a calling plan includes calls to any Value Plan country, those calls will be billed per the requirements of the calling plan except when roaming on another carrier's network, in which case that carrier's rates will apply. Current international calling rates may be found at www.verizonwireless.com.

Data Services

Data Services: Verizon Wireless charges you for all data and content sent or received using our network (including any network overhead and/or Internet Protocol overhead associated with content sent or received), as well as resolution of Internet Protocol addresses from domain names. Sending or receiving data using a virtual private network (VPN) involves additional VPN overhead for which you will be charged. Please note that certain applications or widgets periodically send and receive data in the background, without any action by the user, and you will be billed for such data use. Applications may automatically re-initiate data sessions without you pressing or clicking the **SEND** or connect button. Data sessions automatically terminate after 24 hours. A data session is inactive when no data is being transferred. Data sessions may seem inactive while data is actively being transferred, or may seem active when the data is actually cached and data is not being transferred. If you have a Data Only plan and use voice service, domestic voice calls will be billed at \$0.25/minute.

Verizon Wireless is implementing optimization and transcoding technologies in our network to transmit data files in a more efficient manner to allow available network capacity to benefit the greatest number of users. These techniques include caching less data, using less capacity, and sizing the video more appropriately for the device. The optimization process is agnostic to the content itself and to the website that provides it. While Verizon Wireless invests much effort to avoid changing text, image, and video files in the compression process, and while any change to the file is likely to be indiscernible, the optimization process may minimally impact the appearance of the file as displayed on your device. For a further, more detailed explanation of these techniques, please visit verizonwireless.com/vzwoptimization www.verizonwireless.com/global.

Verizon Wireless strives to provide customers with the best experience when using our network, a shared resource among tens of millions of customers. To further this objective, Verizon Wireless has implemented Network Optimization Practices designed to ensure that the overwhelming majority of data customers aren't negatively impacted by the inordinate data consumption of a few users. If you use an extraordinary amount of data and fall within the top 5% of Verizon Wireless data users, Verizon Wireless may reduce your data throughput speeds when connected to a congested cell site. The reduction can last for the remainder of the current bill cycle and the immediately following bill cycle to ensure high quality network performance for other users at locations and times of peak demand. For a further more detailed explanation of these techniques please visit www.verizonwireless.com/networkoptimization. Data transfer amounts will vary based on application. If you download an audio or video file, the file may be downloaded in sections or in its entirety; data charges will apply to the portion downloaded, regardless of whether you listen to or watch all of it. You may access and monitor your own data usage during a particular billing period, including during the Return Period, by accessing My Verizon online or by contacting Customer Service.

Data Services: Permitted Uses: You can use Verizon Wireless Data Services for accessing the Internet and for such uses as: (i) Internet browsing; (ii) email; (iii) intranet access (including accessing corporate intranets, email and individual productivity applications made available by your company); (iv) uploading, downloading and streaming of audio, video and games; and (v) Voice over Internet Protocol (VoIP).

Data Services: Prohibited Uses. You may not use our Data Services for illegal purposes or purposes that infringe upon others' intellectual property rights, or in a manner that interferes with other users' service, that violates trade and economic sanctions and prohibitions as promulgated by the Departments of Commerce, Treasury or any other U.S. government agency, that interferes with network's ability to fairly allocate capacity among users, or that otherwise degrades service quality for other users. Examples of prohibited usage include: (i) server devices or host computer applications that are broadcast to multiple servers or recipients such that they could enable "bots" or similar routines (as set forth in more detail (ii) below) or otherwise denigrate network capacity or functionality; (ii) "auto-responders," "cancel-bots," or similar automated or manual routines that generate amounts of net traffic that could disrupt net user groups or e-mail use by others; (iii) generating "spam" or unsolicited commercial or bulk e-mail (or activities that facilitate the dissemination of such e-mail); (iv) any activity that adversely affects the ability of other users or systems to use either Verizon Wireless' services or the Internet-based resources of others, including the generation of dissemination of viruses, malware, or "denial of service" attacks; (v) accessing or attempting to access without authority, the information, accounts or devices of others, or to penetrate, or attempt to penetrate Verizon Wireless' or another entity's network or systems; or (vi) running software or other devices that maintain continuous active Internet connections when a computer's connection would otherwise be idle or "any keep alive" functions, unless they adhere to Verizon Wireless' requirements for such usage, which may be changed from time to time.

Verizon Wireless further reserves the right to take measures to protect our network and other users from harm, compromised capacity or degradation in performance. These measures may impact your service, and Verizon Wireless reserves the right to deny, modify or terminate service, with or without notice, to anyone Verizon Wireless believes is using Data Services in a manner that adversely impacts the Verizon Wireless network. **Verizon Wireless may monitor your compliance, or other subscribers' compliance, with these terms and conditions, but Verizon Wireless will not monitor the content of the communications except as otherwise expressly permitted or required by law. [See verizonwireless.com/privacy]**

The Message+ App includes an Integrated Messaging feature that lets users send and receive text and multimedia messages on an end user's smartphone, tablet, computer or the web using a user's Verizon One Talk mobile telephone number. The service syncs up to 90 days of messages across an end user's devices.

One Talk Desk Phones. One Talk desk phones are Voice-over-Internet Protocol (VoIP) devices, that must be purchased from Verizon Wireless. At your location, you will need separate broadband service (from Verizon or another ISP), either Ethernet or Wi-Fi connectivity, and AC power. Check with your Verizon Wireless sales representative for the availability of desk phones under the Contract.

Auto Receptionist; Hunt Group. In order to utilize either of these features, Customer must activate a new Verizon Wireless line or port in a line from another carrier. The settings for the line must be configured using the One Talk section of the My Business web portal.

B. Charges

For each One Talk line, you will be charged a monthly recurring fee for the Service, in addition to the charges for data, voice, and messaging based on your service plan. Charges for international use may apply. You may be assessed additional 911 surcharges if required by law, for up to a maximum of three devices on each mobile phone number during the applicable billing cycle.

Desk Phones. Voice and video calls to and from One Talk desk phones will consume data on your existing broadband, cellular, or Wi-Fi connection. The following applies if you use the VZW network to connect to the Service:

One Talk Basic Dialer. Adding the One Talk feature to a smartphone does not consume any data. If you have a device that supports video calling, the voice portion will be billed as minutes of use and the video portion will be billed as data. Voice calls will be billed as minutes of use only.

One Talk Mobile App. Your download of the One Talk Mobile App will consume approximately 30 MB of data. Your use of the Service (including your download of the One Talk Mobile App) will be billed as data.

Auto Receptionist; Hunt Group. You will be charged a monthly recurring fee for each Auto Receptionist and Hunt Group line in your company's profile.

Integrated Calling Charges (Message+). Integrated Calling does not have a separate monthly service fee, but data usage charges will be incurred in accordance with Customer's service plan. If a call is transferred among connected devices, each transfer will be billed as a separate call. Also, depending on the service address, Customer may be assessed an additional 911 charge if required by law. Any call made from a tablet to a U.S. number will be treated as a domestic call, no matter where the call originates. Any call made from a tablet to a non-U.S. number will be treated as an international long distance call that originates in the U.S., which is subject to U.S. taxes, fees and Verizon surcharges, no matter where the call actually originates. These calls will be billed in accordance with Customer's international calling plan and/or international Contract rates.

3. **Emergency 911 Calls.** End users can make a 911 call over a Wi-Fi connection when using the Service, but whenever possible, end users should avoid doing so because 911 calls over a WiFi connection will not work if there is a failure of your broadband connection or electrical power, or if the 911 system doesn't recognize the address. In addition, when using a One Talk desk phone, voice functionality (including the ability to make and receive 911 calls) will not be available during a power outage, broadband connection failure or other service disruption. Before any desk phone can be activated or the Service can be activated on any device, Customer must enter the U.S. address where Customer wants emergency services to be sent if end users call 911. It is not necessary to use the same address for all devices. It is very important that Customer updates its 911 address whenever Customer changes its location for any of these devices because this is the location that will be given to emergency services when end users dial 911. End users can go to their mobile device's Settings and change their 911 address at any time. Customer can change the 911 address for a desk phone on the One Talk section of the My Business web portal. (Note: With a smartphone using the One Talk Mobile App, emergency services will use the 911 address only if you use Wi-Fi to make the 911 call. If end users are using the Verizon Wireless Network, their smartphone's built-in capabilities will provide the location of the end user's device.)

4. **Integrated Messaging Text Message Feature.** To send and receive SMS messages, Mobile devices associated with either One Talk Basic Dialer (if available) or One Talk Mobile App must download the Message+ App to the device. The Integrated Messaging functionality of Message+ enables you to synchronize messages across multiple devices, including smartphones, tablets and the web. Text messages sent and received while using the Service are separate from the native texting app (dual numbers) and are only temporarily retained on the One Talk message platform in the cloud. End users with access to the Service on a Smartphone or the Mobile Client can retrieve/download any text message sent or received using the

Service.

5. **HIPAA.** Integrated Messaging is not designed for secure transmission or storage of personal healthcare information. Therefore, Customer agrees not to use Service to store or transmit Protected Health Information (PHI) as defined in the Health Insurance Portability & Accountability Act of 1996 and the Health Information Technology for Economic and Clinical Health Act of 2009 and accompanying regulations (collectively "HIPAA"). Covered Entities and Business Associates (as defined by HIPAA) will not use Integrated Messaging to store or transmit PHI. Customers that do not want its end users to save messages to the cloud (including all Covered Entities and Business Associates, as defined by HIPAA), must have an authorized representative block Integrated Messaging. For further information, go to <https://web.vma.vzw.com/BusinessProduct>. To learn more about HIPAA, go to: <http://www.hhs.gov/ocr/privacy/hipaa/understanding/index.html>.

6. **Service Limitations.** The Service is not compatible with fax machines, credit card machines or certain security systems. Your Verizon Wireless representative can suggest other possible solutions for some of these functions. Please check with your provider to confirm the compatibility requirements of your security system.

7. **Important Service Disclosures.** CUSTOMER ACKNOWLEDGES AND AGREES THAT THE SERVICE IS IMPLEMENTED WITHOUT SPECIFIC CONTROLS THAT MAY GENERALLY BE REQUIRED OR CUSTOMARY FOR CUSTOMERS IN ANY PARTICULAR INDUSTRY AND ARE NOT DESIGNED TO SATISFY ANY SPECIFIC LEGAL OBLIGATIONS. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THAT THE SERVICE SATISFIES ANY LEGAL, REGULATORY OR CONTRACTUAL OBLIGATIONS CUSTOMER MAY HAVE. CUSTOMER AGREES TO USE THE SERVICES IN ACCORDANCE WITH ALL APPLICABLE LAWS AND NOT TO USE THE SERVICES IN ANY MANNER THAT MAY IMPOSE LEGAL, REGULATORY OR CONTRACTUAL OBLIGATIONS ON VERIZON WIRELESS, OTHER THAN THOSE WITH WHICH WE HAVE EXPRESSLY AGREED TO COMPLY IN THIS ADDENDUM.

CUSTOMER IS ON NOTICE THAT ANY TEXT MESSAGES DELIVERED TO A DEVICE USING THE SERVICE WILL REMAIN ON THAT DEVICE, EVEN AFTER THE MESSAGING FEATURE IS REMOVED OR END USER IS DEREGISTERED AND NO LONGER HAS ACCESS TO THE SERVICE. END USERS CONTROL THE DELETION OF MESSAGES RECEIVED ON THEIR DEVICES.

8. **Software.** In connection with the Service, Verizon Wireless will provide software that is owned by us, our affiliates or third-party licensors ("Software"). Verizon Wireless may update the Software from time to time and Customer and/or end user failure to install any update may affect Customer's Service and/or use of the Software. Customer may use the Software only as part of, or for use with, the Service as authorized in this Addendum.

Verizon Wireless grants Customer a limited, non-exclusive, non-transferable license to use the Service and the Software solely as authorized in this Addendum. All rights regarding use of the Service and Software not expressly granted in this Addendum are reserved by Verizon Wireless and/or any third-party licensors. The Software contains some programming, scripts, tools, modules, libraries, components, or other items that were developed using "Open Source" code; which are available for download at www.verizon.com/opensource.

Software was developed solely at private expense, and Customer has no other rights in software than those set forth herein. As such, customer may not adapt, alter, modify, reverse engineer, de-compile, disassemble, translate, attempt to derive source code from or create derivative works of the Service or Software, or otherwise tamper with or modify any security features or other Service components for any reason (or allow or help anyone else to do so). Customer also agrees to follow all rules and policies applicable to the Service, including the installation of required or automated updates, modifications and/or reinstallations of Software and obtaining available patches to address security, interoperability and/or performance issues.

9. **Disclaimer of Warranty.** THE SERVICE AND SOFTWARE ARE PROVIDED "AS IS" AND "AS AVAILABLE" WITHOUT WARRANTIES, EXPRESS OR IMPLIED, OF ANY KIND BY EITHER VERIZON WIRELESS, OUR AFFILIATES, OFFICERS, EMPLOYEES, LICENSORS, CONTRACTORS, AND AGENTS (TOGETHER, THE "VERIZON PARTIES"), INCLUDING BUT NOT LIMITED TO WARRANTIES OF TITLE, NON-INFRINGEMENT OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE VERIZON PARTIES AND ANY THIRD PARTY MOBILE APPLICATION STORE OPERATORS FROM WHICH YOU DOWNLOAD THE ONE TALK MOBILE APP WILL NOT BE LIABLE TO YOU OR ANYONE ELSE FOR ANY LOSSES OR DAMAGES OF ANY KIND OR ANY SECURITY ISSUES THAT MAY RESULT FROM YOUR USE OF THE SERVICE. NO ADVICE OR INFORMATION GIVEN BY THE VERIZON PARTIES SHALL CREATE ANY WARRANTY HEREUNDER.

INFORMATION FOR ORDERING ACTIVITIES APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

3. Verizon Wireless Overview

Verizon Wireless operates the nation’s most reliable wireless network, with more than 116.87 million retail connections. Verizon Wireless is an indirect, wholly-owned subsidiary of Verizon Communications (NYSE:VZ).

- ✓ Our primary network technology platform is 4G LTE, which provides higher data throughput performance for data services at a lower cost compared to that offered by 3G technologies.
- ✓ We use HD Calling, enabled by VoLTE, in addition to 3G Code Division Multiple Access (CDMA) technology, to provide voice calling services to our customers.
- ✓ We are committed to developing and deploying 5G wireless technology. On October 1, 2018, we turned on the world’s first commercial 5G network – our 5G Home service for consumers – in parts of Los Angeles, CA, Houston, TX, Sacramento, CA, and Indianapolis, IN, on our 5G Ultra Wideband network and on October 24, 2018, we added Panama City, FL, to our list of 5G cities.
- ✓ U.S. Market Coverage: We have the largest 4G LTE network of any service provider in the U.S., with licensed and operational coverage in all of the 100 most populous U.S. Metropolitan areas.
- ✓ Our 4G LTE network is available to more than 98 percent of the U.S. population and covers nearly 326.5 million people.
- ✓ Mobile Switching Centers: 137
- ✓ Headquarters: Basking Ridge, NJ

4. Verizon Wireless Network

Verizon operates the nation’s most reliable wireless network.

LTE Technology

LTE is the technological foundation for our 4G wireless broadband network. LTE offers a number of significant technological and business advantages over other 4G technologies that make it a superior networking standard. Our customers want to be truly un-tethered with advanced communication devices that provide a similar experience as found in today’s wired networks – you want to be able to communicate in new and innovative ways whenever and wherever you choose around the globe. For these reasons, we believe LTE is the best technology with the global scale needed to deliver such experiences.

Our 4G LTE network offers a number of benefits, including:

- ✓ High peak speeds: The Average User Data Rate (downlink) is greater than or equal to 5 Mbps; and the Average User Data Rate (uplink) is greater than or equal to 2 Mbps.
- ✓ Low latency: Approximately 100 ms round trip over the airlink within the Verizon wireless network.
- ✓ Scalable bandwidths: Bandwidth allocation of 1.4, 3, 5, 10, 15, 20 MHz; scalable bandwidth provides the flexibility for deployment and capacities.
- ✓ Improved spectrum efficiency: Spectrum efficiency refers to how limited bandwidth is used by the access layer of a wireless network. Improved spectrum efficiency allows more information to be transmitted in a given bandwidth, while increasing the number of users and services the network can support.
- ✓ Improved cell-edge data rates: Not only does spectral efficiency of LTE improve near cell towers, it also improves at the coverage area or cell edge, which makes more bandwidth available at the cell edge. Data rates improve two to three times at the cell edge over the previous benchmark
- ✓ Seamless performance: Reducing handover latency and packet loss are critical to delivering a quality service. This reduction is considerably more challenging with mobile broadband than with fixed-line broadband where the time variability and unpredictability of the channel become more acute, creating the issue. Additional complications arise from the need to hand over sessions from one cell to another as users cross coverage and frequency boundaries. These handover sessions require seamless coordination of radio resources across multiple cells. In the past, 3G networks split both voice and data signals. 4G LTE uses an Evolved Packet Core that is 100% IP based facilitating simultaneous voice and data communications.

Regulatory Surcharges and Fees

Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice.

Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Fee

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) is a percentage of the customer's applicable monthly wireless service charges based upon an assessment rate that changes quarterly. The rate for the quarter beginning – January 1, 2018 is 5.46% of the following items:

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Night and weekends feature
- Toll free feature

The FUSC on other separately billed interstate and international long distance charges is 20.00%. The quarterly percentage rate for the FUSC is applied in our billing system. Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The FCC assesses wireless carriers the costs of enforcement, policy and rulemaking. The Regulatory Fee recovers Verizon Wireless' share of these costs, as well as some of the costs of implementing regulatory mandates, such as number portability. The Regulatory Charge is a flat charge of \$0.21 per Mobile Telephone Number (MTN) per month (excluding Mobile Broadband and National Access Plans) and is \$0.02 per mobile number per month for Mobile Broadband and National Access Plans, but is subject to change over time.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

The FUSC and Regulatory Charge are included in the "Verizon Wireless Surcharges" section of the bill.

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));

Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

23. Blanket Purchase Agreements (BPAs)

Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as "...a simplified method of filling anticipated repetitive needs for supplies or services by establishing 'charge accounts' with qualified sources of supply." The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c)(3), which reads, in part, as follows: "BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract."

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up "accounts" with Schedule Contractors to fill recurring requirements. These accounts establish a period for the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful with the new Maximum Order feature. See the Suggested Format, contained in this Schedule Pricelist, for customers to consider when using this purchasing tool.

24. Contractor Team Arrangements

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Contractor's Reports of Sales and 552.238-76, Industrial Funding Fee, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

25. Installation, Deinstallation, Reinstallation

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, de-installation, and reinstallation services under SIN 132-8.

Push to Talk Plus is only available within the National Enhanced Services Rate and Coverage Area and WiFi access points. There will be a delay from the time a Push to Talk Plus call is initiated until the Push to Talk Plus call is first received by the called party. If an incoming voice call is received while on a Push to Talk Plus call the voice call may be answered and the Push to Talk Plus placed on hold. If an incoming Push to Talk Plus call is received while on a Push to Talk Plus call the PTT call icon can be selected to connect to the Push to Talk Plus call. If the incoming voice or Push to Talk Plus call is not answered a missed call alert will display. Network registration information will be sent to the Equipment each time it is powered on in the National Enhanced Services Rate and Coverage Area, each time the Subscriber travels into the National Enhanced Services Rate and Coverage Area, and

every 12 hours if the Subscriber stays within the National Enhanced Services Rate and Coverage Area. While the updated network registration information is being sent to the Equipment, incoming voice calls will go directly to voice mail. Contact list cannot be modified from certain Equipment. Subscriber cannot prevent others who have the Subscriber's MTN from entering the MTN into their Push to Talk contact list. Only one person can speak at a time during a Push to Talk Plus call. In-Call Talker Override (Talker Priority) allows a pre-determined user priority to take the floor to communicate urgent message over participant. Push to Talk Plus services cannot be used for (i) access to the Internet, intranets or other data networks, except as the device's native applications & capabilities permit, (ii) any applications that tether Equipment to laptops, personal computers or other devices for any purpose.

Push to Talk: Push to Talk capable Equipment required. Push to Talk capable Equipment can only be used with a Push to Talk calling plan. Subscribers switching from a Push to Talk Calling Plan to another calling plan will not be able to use Push to Talk capable Equipment with the new plan. Push to Talk calls may only be made with other Verizon Wireless Push to Talk subscribers. Push to Talk Subscribers may initiate or participate on a call, simultaneously, with as many as 20 total participants (19 members per group plus the originator). Push to Talk groups must be established via the Push to Talk website prior to initiating a group call. Subscribers may establish as many as 50 group lists of up to 20 participants (19 members per group plus the originator). Existing Push to Talk Subscriber Equipment may require a software upgrade. Push to Talk is only available within the National Enhanced Services Rate and Coverage Area. There will be a delay from the time a Push to Talk call is initiated until the Push to Talk call is first received by the called party. A Push to Talk call will automatically time out after twenty (20) seconds of inactivity. While on a Push to Talk call, incoming voice calls will go directly to voice mail. When on a voice call, a Push to Talk call cannot be received. Network registration information will be sent to the Equipment each time it is powered on in the National Enhanced Services Rate and Coverage Area, each time the Subscriber travels into the National Enhanced Services Rate and Coverage Area, and every 12 hours if the Subscriber stays within the National Enhanced Services Rate and Coverage Area. While the updated network registration information is being sent to the Equipment, incoming voice calls will go directly to voice mail. Contact list cannot be modified from certain Equipment. Subscriber cannot prevent others who have the Subscriber's MTN from entering the MTN into their Push to Talk contact list. Only one person can speak at a time during a Push to Talk call. Push to Talk services cannot be used for (i) access to the Internet, intranets or other data networks, except as the device's native applications & capabilities permit, (ii) any applications that tether Equipment to laptops, personal computers or other devices for any purpose.

Mobile to Mobile: Mobile to Mobile minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless Subscriber while in the America's Choice Home Rate and Coverage area. Mobile to Mobile does not apply to fixed wireless devices with usage substantially from a single cell site, for Push to Talk calls, if Call Forwarding or No Answer/Busy Transfer features are activated, or to data usage. Mobile to Mobile is not available to Subscribers whose current wireless exchanges restrict the delivery of Caller ID. Mobile to Mobile minutes will be applied before home airtime minutes.*

Night and Weekends: Applies to calls made in a calling plan's home rate and coverage area only during the following hours: 9:01pm Friday through 5:59am Monday and 9:01pm to 5:59am Monday through Friday.* ***NOTE:** If both Night and Weekend and Mobile to Mobile minute allowances apply to a given call, Mobile to Mobile minutes will apply before Night and Weekend minutes. However, if either allowance is unlimited, the unlimited allowance will always apply first.

TXT Messaging: TXT Messaging includes Short Message Service (SMS up to 160 characters) and Enhanced Messaging Service (EMS up to 1120 characters). Enhanced TXT Messages sent to most SMS handsets will be delivered as multiple TXT messages of up to 160 characters each. Subscribers have the option to have text messages disabled entirely without affecting voicemail or other related services. TXT Messaging plans do not include Operator Assisted Messaging or International Messaging, which is available for 25¢ per message sent and 10¢ per message received; see www.vtext.com for details and countries. Verizon Wireless is not responsible for information sent using TXT Messaging or Enhanced TXT Messaging. Verizon Wireless cannot guarantee that messages will be received and is not responsible for messages that are lost or misdirected. Messages not delivered after 5 days are automatically deleted. Airtime charges do not apply to the sending or receiving of text messages. When sending messages from Equipment, the sender's MTN will always be sent to the destination, even if Caller ID is used to block voice calls.

Mobile to Mobile Messaging: Cannot be combined with any other package that includes a TXT or PIX&FLIX allowance. Mobile to Mobile Messaging applies only to TXT/ PIX/ FLIX messages sent to and received from other Verizon Wireless Subscribers' phones, while both wireless Subscribers are within the National Enhanced Services Rate and Coverage Area. Additional messages apply to PIX Place, VTEXT/ TXT Alerts/ getAlerts, Instant Messaging (IM), Email, Premium Text Services, TXT/PIX/FLIX sent to non-Verizon Wireless customers, these messages will be decremented from the Subscriber's Additional Message allowance, or billed as overage. Additional Messages may not be applied toward International TXT Messaging, which cost 25¢ per message sent and 10¢ per message received; see www.vtext.com for details and countries.

Multi-Media Messaging (MMS): Multi-Media Messaging (MMS) includes Picture (PIX) and Video (FLIX) messaging and is only available within the National Enhanced Services Rate and Coverage Area. In addition to MMS charges, MMS uses calling plan home airtime minutes or kilobytes. Canceling an MMS after pressing SEND may result in sent messages that contain only partial content. Subscriber will be charged for outgoing MMS, even if not received by the intended recipient, or even if only partial content is delivered. Subscriber will not be charged for incoming MMS unless received. MMS that cannot be delivered within 5 days will be deleted. MMS is not available for use with a Mobile Office Kit. Camera phones are prohibited in some places. Subscribers are solely responsible for complying with all applicable laws, rules, regulations and policies regarding camera phone use.

Private Network Traffic Management (PNTM): PNTM allows Customer to configure its Private Network to allow differentiated Quality of Service (QoS) by application over Verizon Wireless's LTE network using standards-based IP packet marking.

Customer can identify applications on its 4G LTE devices to get priority QoS over its Private Network. Verizon Wireless makes no guarantee of PNTM bandwidth allocations, which are subject to the limitations of wireless service availability as detailed in the Agreement. Customer is responsible for any charges associated with the customization of its CPE to support PNTM.

PNTM for Public Safety: Eligible public safety accounts can take advantage of priority access to a data channel over the Wireless Service for its data traffic during times of heavy network demand. While PNTM for Public Safety enables a dedicated data channel, Verizon Wireless makes no guarantee of Wireless Service availability, which is subject to the limitations of wireless service availability as detailed in the Agreement. PNTM for Public Safety is only available to Customers approved by Verizon Wireless that qualify as Public Safety Entities classified by specific NAICS codes.

Customer Private Network Contact: Customer must designate a Private Network representative and provide contact information, including a phone number and email address. The Private Network contact will work with the Verizon Wireless solution engineer through the Private Network implementation and testing processes detailed below. The contact shall be available during business hours and any other time period that Customer utilizes Private Network for the purpose of assisting to resolve service problems and trouble shooting.

Private Network Implementation and Testing: Verizon Wireless will implement Customer's Private Network, which requires Customer to a) provide any information (e.g., account numbers, IP address ranges, router/CPE information) necessary to complete the Private Network Connectivity Form; b) participate in a Private Network turn-up call to ensure that CPE is properly configured to support the Private Network connection; and c) participate in a Solution Validation call to confirm that Private Network is working properly from Verizon Wireless to Customer's applications.

International Long Distance: International Long Distance is available but may be subject to a 90-day payment history with Verizon Wireless. International long distance rates will vary and do not apply to calls to Canada, Puerto Rico, the U.S. Virgin Islands and some U.S. Protectorates, or to credit card or operator assisted calls.

Verizon Wireless International Long Distance Value Plan: Requires subscription to a qualifying calling plan and international dialing capability (I-DIAL). The ability to make international calls is not guaranteed and may be restricted without notice. Rates apply only on calls to Value Plan countries made from calling plan home airtime rate and coverage areas. If a calling plan includes calls to any Value Plan country, those calls will be billed per the terms of the calling plan except when roaming on another carrier's network, in which case that carrier's rates will apply. Current international calling rates may be found at www.verizonwireless.com.

International Roaming (Global Phone): Availability of calling features and TXT messaging varies by country and network. Existing Subscribers who purchase a Global Phone may have to set up a new voice mailbox and, if so, will lose access to previously stored messages upon activation of Global Phone. Voice mail messages will be time-stamped Eastern Time. Calls to voice mail will appear on the bill as calls to the Subscriber's MTN. Actual availability of service in foreign countries may vary and is subject to change. Taxes and other regulatory surcharges may apply and may vary by country. While roaming on another carrier's wireless network, dialing rates and country availability may vary due to the roaming carrier's international dialing policies. Billing for airtime used when roaming may be delayed up to two billing cycles. By using Equipment outside the United States, Subscriber is solely responsible for complying with all applicable foreign laws, rules and regulations ("Foreign Laws"), including Foreign Laws regarding use of wireless phones while driving and use of wireless camera phones. Verizon Wireless is not liable for any damages that result from Subscriber's failure to comply with Foreign Laws.

Roaming in CDMA countries outside of the US: Roaming in CDMA countries is \$0.69 per minute and only in "CDMA" mode where service is available. An update to Equipment software is required to roam in S. Korea.

Roaming in GSM countries: CDMA/GSM Global Phone, activated in the United States with compatible Subscriber Identity Module (SIM) card required. Rates, terms and conditions apply only when roaming on participating GSM networks in published Global Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to receive incoming calls (including return calls from emergency services personnel) may be restricted. Where TXT messaging is available, Customer will be charged \$0.50 for each message sent and \$0.05 for each message received. TXT messaging rates are subject to change. TXT messages cannot exceed 140 characters and may be sent only to MTNs of (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text messaging.

VZAccess and VZEmail (Mobile Broadband & Data Services)

VZAccess and VZEmail Calling Plans and Features: VZAccess includes NationalAccess (IXRTT) and BroadbandAccess (EVDO/4G) calling plans. VZEmail includes PDA/Smartphone and BlackBerry calling plans. VZAccess and VZEmail usage is subject to VZAccess Acceptable Use Policy, available on www.verizonwireless.com. VZEmail optional features may only be purchased in conjunction with eligible voice calling plan with a monthly access fee of \$34.99 or higher. Monthly Megabyte allowances apply only to NationalAccess and BroadbandAccess data transmissions. Other data (Quick 2 Net™ or dial-up) transmissions as well as voice calls will be billed at the per minute overage rate according to the VZAccess calling plan. For optional data features, "other data" will be billed as anytime minutes or at the per minute overage rate according to the underlying calling plan. When traveling outside the National Enhanced Services Rate and Coverage Area, Subscribers may be charged at the "other data" rate for data usage. NationalAccess data sessions require a NationalAccess capable PC Card, Smartphone, BlackBerry or handset with its compatible Mobile Office Kit, and must be placed within NationalAccess service area. BroadbandAccess data sessions require BroadbandAccess capable Equipment and must be placed within BroadbandAccess service area. PDA/Smartphone and BlackBerry users that move from a VZEmail plan or feature, or a Voice

and Data Choice Bundle to another calling plan will not be able to use their PDA/Smartphone or BlackBerry on the new calling plan and will need to purchase or provide compatible voice Equipment to switch to the new calling plan. All data sessions automatically terminate after 24 hours of activity and on unlimited calling plans after 2 hours if inactivity. Data session is inactive when no data is being transferred. Data session may seem inactive while data is actively being transferred to Equipment, or may seem active when it is actually cached and not transferring data. Subscriber MUST press or click END or DISCONNECT button to ensure that session disconnects and charges cease. Third-party applications may automatically reinitiate data sessions without the Subscriber pressing or clicking SEND or CONNECT button. Voice calls cannot be received when an e-mail or other data transmission is occurring. Voice calls are possible when NationalAccess data session is inactive; however, charges apply simultaneously to the data session and the voice call in accordance with the applicable calling plan. Voice calls are not available with BroadbandAccess. Customer must maintain virus protection when accessing the service. Customer is responsible for all charges, including all data sent and received and “overhead” whether or not Subscriber or recipients actually receive the data. “Overhead” is all data that is in addition to user-transmitted data, such as control, operational and routing instructions, error-checking characters and retransmissions of user-data messages that are received in error. VZEmail calling plans and optional features not available with PC cards or wireless modems, including wireless Equipment tethered to a PC. In order to use some VZEmail features and applications, Subscriber’s PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or GoodLink) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber’s request.

Unlimited Data Plans and Features (such as NationalAccess, BroadbandAccess, Mobile Broadband, Push to Talk, and certain VZEmail services) may ONLY be used with wireless devices for the following purposes: (i) Internet browsing; (ii) email; and (iii) intranet access (including access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation). The Unlimited Data Plans and Features MAY NOT be used for any other purpose. Examples of prohibited uses include, without limitation, the following: (i) continuous uploading, downloading or streaming of audio or video programming or games; (ii) server devices or host computer applications, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing; or (iii) as a substitute or backup for private lines or dedicated data connections. This means, by way of example only, that checking email, surfing the Internet, downloading legally acquired songs, and/or visiting corporate intranets is permitted, but downloading movies using P2P file sharing services and/or redirecting television signals for viewing on laptops is prohibited. For individual use only and not for resale. We reserve the right to protect our network from harm, which may impact legitimate data flows. We reserve the right to limit throughput or amount of data transferred, and to deny or terminate service, without notice, to anyone we believe is using an Unlimited Data Plan or Feature in any manner prohibited above or whose usage adversely impacts our network or service levels. **Verizon Wireless will limit throughput of data speeds should 25GB of data be used within a given bill cycle.** Anyone using more than 25 GB per line within a given bill cycle is presumed to be using the service in a manner prohibited above, and we reserve the right to immediately terminate the service of any such person without notice. We also reserve the right to terminate service upon notification to the customer.

Unlimited VZAccess and VZEmail: NationalAccess, BroadbandAccess, and GlobalAccess data sessions may be used for the following purposes: (i) Internet browsing, (ii) e-mail, and (iii) intranet access (including access to corporate intranets, e-mail and individual productivity applications like customer relationship management, sales force and field service automation). Unlimited VZAccess, VZEmail and Push to Talk services cannot be used (i) for uploading, downloading or streaming of movies, music or games, (ii) with server devices or with host computer applications, other than applications required for BlackBerry or Wireless Sync service, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, Voice over IP (VoIP), automated machine-to-machine connections, or peer-to-peer (P2P) file sharing, or (iii) as a substitute or backup for private lines or dedicated data connections. Additionally, Unlimited VZEmail services cannot be used for, (i) access to the Internet, intranets or other data networks, except as the Equipment’s native applications and capabilities permit, or (ii) for any applications that tether Equipment to laptops or personal computers other than for use of the Wireless Sync or BlackBerry Solutions. Unlimited BroadbandAccess and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless Subscriber has Mobile IP (MIP) capable Equipment.

VZEmail Megabyte (MB) Data Plans: Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess and BroadbandAccess data sessions and are rounded to next full kilobyte at end of each billing cycle. Only total of kilobytes transmitted above allowance each billing cycle may appear on bill.

VZEmail Server Software (Wireless Sync Enterprise Server, GoodLink Server & BlackBerry Enterprise Server (BES)): Verizon Wireless is not the licensor of the Wireless Sync Enterprise Server, GoodLink Server or BES Server and makes no representations or warranties whatsoever, either express or implied, with respect to such servers and associated software. The Wireless Sync Enterprise Server software is manufactured by Intellisync. The GoodLink Server is manufactured by, and sold separately by Good Technology. The BES software is manufactured by Research in Motion (“RIM”). Any license for such software must be obtained directly from the software manufacturer either upon purchase or installation of the software. Customer support for the Wireless Sync Enterprise Server, GoodLink, or BES software must be obtained from the software manufacturer. If Verizon Wireless in its sole discretion determines that a Smartphone or BlackBerry related inquiry from a Subscriber is related to the Wireless Sync Enterprise Server, GoodLink or BES software and not one concerning Equipment

or desktop software, it may transfer the service request to appropriate representatives of the software manufacturer. When you use Microsoft's Exchange ActiveSync, Notify's NotifyLink, or Intellisync's Intellisync Mobile Suite, every time you receive an email or other update you may be charged for an incoming TXT Message. To avoid TXT Messaging charges, you can set up timed synchronization or manually initiate synchronization.

NationalAccess Roaming Feature: Not for use with Mobile Office Kits. Dynamic IP addresses will be assigned when roaming. Usage rounded up to next full kilobyte. For information on where NationalAccess Roaming is available, see www.verizonwireless.com.

GlobalAccess: Global PC Card required for international use. Global PC Cards will not work in the United States or Canada and GlobalAccess Subscribers will need a NationalAccess or BroadbandAccess PC card for domestic use. The domestic and Global PC Cards cannot be used at the same time. GlobalAccess Subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Verizon Wireless reserves the right to terminate the service of any Subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. Verizon Wireless SIM Cards are for use only with the Global PC Card and only for the purpose of this service. Subscriber is responsible for any unauthorized use of its SIM Cards and must safeguard security codes. Upon termination of service, Subscriber must destroy SIM Card. By using your Global PC Card outside the United States, Subscriber is solely responsible for complying with all applicable Foreign Laws. Verizon Wireless will not be liable for any damages that result from Subscriber's failure to comply with Foreign Laws.

GlobalEmail: GlobalEmail capable equipment required. Verizon Wireless reserves the right to terminate the GlobalEmail service of Subscribers that have less than half of their usage on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. SIM Cards are for use with GlobalEmail Equipment, and only for the purpose of GlobalEmail service. Customer is responsible for any unauthorized use of SIM Cards, and must safeguard security codes. Upon termination of service, please destroy any applicable SIM Cards. Subscribers using GlobalEmail outside the United States, agree that they are solely responsible for complying with all applicable foreign laws, rules and regulations ("foreign laws"). Customer agrees that Verizon Wireless is not liable for any damages that result from Subscriber's failure to comply with foreign laws. GlobalEmail Subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. TXT messaging billed at standard domestic and international TXT Messaging rates. Existing Verizon Wireless Subscribers migrating to GlobalEmail plans may be required to extend their Line Term.

Mobile Broadband Machine-to-Machine plan sharing options, Account Share: Customer may activate up to 15 share groups per account. Sharing is available only among M2M Lines on the Mobile Broadband M2M Account Share Plans on the same billing account, in the same usage group (Low Usage and High Usage plans cannot share with each other). Unused KBs will be distributed to M2M Lines with an overage on an as needed basis to M2M Lines on the same billing account that have exceeded their MB allowance during the same monthly billing period. At the end of each bill cycle any unused KBs allowances will be applied to the overages of the other M2M Lines on the same account beginning with the line with the lowest overage need until depleted. Customers subscribing to Mobile Broadband M2M Account Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Profile Share Plans. **Multi-Account Share:** Customer may activate one (1) share group per profile (Low Usage and High Usage plans cannot share with each other); however, customer may have multiple bill accounts on the same profile. Sharing is available only among M2M Lines on the Mobile Broadband M2M Multi-Account Share Plans on the same profile, in the same usage group. Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines on the same profile. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans. Note: A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts.

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option. **America's Choice for Business & Voice and Data Choice Bundles for Business Subscribers:** Sharing on these calling plans is for voice home airtime minutes only. Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Home Airtime Allowance Minutes apply first to that line. Unused Monthly Home Airtime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Home Airtime Allowance in order of highest usage. Calling plan changes may not take effect until the billing cycle following the change request. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

Billing for airtime used when roaming may be delayed up to two billing cycles. By using Equipment outside the United States, Subscriber is solely responsible for complying with all applicable foreign laws, rules and regulations ("Foreign Laws"), including Foreign Laws regarding use of wireless phones while driving and use of wireless camera phones. Verizon Wireless is not liable for any damages that result from Subscriber's failure to comply with Foreign Laws.

Roaming in CDMA countries outside of the US: Roaming in CDMA countries is \$0.69 per minute and only in "CDMA" mode where service is available. An update to Equipment software is required to roam in S. Korea.

Roaming in GSM countries: CDMA/GSM Global Phone, activated in the United States with compatible Subscriber Identity Module (SIM) card required. Rates, terms and conditions apply only when roaming on participating GSM networks in published Global Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to receive incoming calls (including return calls from emergency services personnel) may be restricted. Where TXT messaging is available, Customer will be charged \$0.50 for each message sent and \$0.05 for each message received. TXT messaging rates are subject to change. TXT messages cannot exceed 140 characters and may be sent only to MTNs of (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text messaging. Check www.vtext.com for the most current list of participating foreign carriers. TXT messages cannot be sent to e-mail addresses.

VZAccess and VZEmail (Mobile Broadband & Data Services)

VZAccess and VZEmail Calling Plans and Features: VZAccess includes NationalAccess (IXRTT) and BroadbandAccess (EVDO/4G) calling plans. VZEmail includes PDA/Smartphone and BlackBerry calling plans. VZAccess and VZEmail usage is subject to VZAccess Acceptable Use Policy, available on www.verizonwireless.com. VZEmail optional features may only be purchased in conjunction with eligible voice calling plan with a monthly access fee of \$34.99 or higher. Monthly Megabyte allowances apply only to NationalAccess and BroadbandAccess data transmissions. Other data (Quick 2 NetSM or dial-up) transmissions as well as voice calls will be billed at the per minute overage rate according to the VZAccess calling plan. For optional data features, "other data" will be billed as anytime minutes or at the per minute overage rate according to the underlying calling plan. When traveling outside the National Enhanced Services Rate and Coverage Area, Subscribers may be charged at the "other data" rate for data usage. NationalAccess data sessions require a NationalAccess capable PC Card, PDA, BlackBerry or handset with its compatible Mobile Office Kit, and must be placed within NationalAccess service area. BroadbandAccess data sessions require BroadbandAccess capable Equipment and must be placed within BroadbandAccess service area. PDA/Smartphone and BlackBerry users that move from a VZEmail plan or feature, or a Voice and Data Choice Bundle to another calling plan will not be able to use their PDA/Smartphone or BlackBerry on the new calling plan and will need to purchase or provide compatible voice Equipment to switch to the new calling plan. For current NationalAccess and BroadbandAccess service areas, please visit www.verizonwireless.com. All data sessions automatically terminate after 24 hours of activity and on unlimited calling plans after 2 hours if inactivity. Data session is inactive when no data is being transferred. Data session may seem inactive while data is actively being transferred to Equipment, or may seem active when it is actually cached and not transferring data. Subscriber MUST press or click END or DISCONNECT button to ensure that session disconnects and charges cease. Third-party applications may automatically reinitiate data sessions without the Subscriber pressing or clicking SEND or CONNECT button. Voice calls cannot be received when an e-mail or other data transmission is occurring. Voice calls are possible when NationalAccess data session is inactive; however, charges apply simultaneously to the data session and the voice call in accordance with the applicable calling plan. Voice calls are not available with BroadbandAccess. Customer must maintain virus protection when accessing the service. Customer is responsible for all

charges, including all data sent and received and "overhead" whether or not Subscriber or recipients actually receive the data. "Overhead" is all data that is in addition to user-transmitted data, such as control, operational and routing instructions, error-checking characters and retransmissions of user-data messages that are received in error. VZEmail calling plans and optional features not available with PC cards or wireless modems, including wireless Equipment tethered to a PC. In order to use some VZEmail features and applications, Subscriber's PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or GoodLink) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber's request.

Unlimited Data Plans and Features (such as NationalAccess, BroadbandAccess, Push to Talk, and certain VZEmail services) may ONLY be used with wireless devices for the following purposes: (i) Internet browsing; (ii) email; and (iii) intranet access (including access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation). The Unlimited Data Plans and Features MAY NOT be used for any other purpose. Examples of prohibited uses include, without limitation, the following: (i) continuous uploading, downloading or streaming of audio or video programming or games; (ii) server devices or host computer applications, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing; or (iii) as a substitute or backup for private lines or dedicated data connections. This means, by way of example only, that checking email, surfing the Internet, downloading legally acquired songs, and/or visiting corporate intranets is permitted, but downloading movies using P2P file sharing services and/or redirecting television signals for viewing on laptops is prohibited.

For individual use only and not for resale. We reserve the right to protect our network from harm, which may impact legitimate data flows. We reserve the right to limit throughput or amount of data transferred, and to deny or terminate service, without notice, to anyone we believe is using an Unlimited Data Plan or Feature in any manner prohibited above or whose usage adversely impacts our network or service levels. **Verizon Wireless will limit throughput of data speeds should 5GB – 25GB of data be used within a given bill cycle.** Anyone using more than 5 GB per line within a given bill cycle is presumed to be using the service in a manner prohibited above, and we reserve the right to immediately terminate the service of any such person without notice. We also reserve the right to terminate service upon notification to the customer.

Unlimited VZAccess and VZEmail: NationalAccess, BroadbandAccess, and GlobalAccess data sessions may be used for the following purposes: (i) Internet browsing, (ii) e-mail, and (iii) intranet access (including access to corporate intranets, e-mail and individual productivity applications like customer relationship management, sales force and field service automation). Unlimited VZAccess, VZEmail and Push to Talk services cannot be used (i) for uploading, downloading or streaming of movies, music or games, (ii) with server devices or with host computer applications, other than applications required for BlackBerry or Wireless Sync service, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, Voice over IP (VoIP), automated machine-to-machine connections, or peer-to-peer (P2P) file sharing, or (iii) as a substitute or backup for private lines or dedicated data connections. Additionally, Unlimited VZEmail services cannot be used for, (i) access to the Internet, intranets or other data networks, except as the Equipment's native applications and capabilities permit, or (ii) for any applications that tether Equipment to laptops or personal computers other than for use of the Wireless Sync or BlackBerry Solutions. Unlimited BroadbandAccess and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless Subscriber has Mobile IP (MIP) capable Equipment.

VZEmail Megabyte (MB) Data Plans: Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess and BroadbandAccess data sessions and are rounded to next full kilobyte at end of each billing cycle. Only total of kilobytes transmitted above allowance each billing cycle may appear on bill.

VZEmail Server Software (Wireless Sync Enterprise Server, GoodLink Server & BlackBerry Enterprise Server (BES)):

Verizon Wireless is not the licensor of the Wireless Sync Enterprise Server, GoodLink Server or BES Server and makes no representations or warranties whatsoever, either express or implied, with respect to such servers and associated software. The Wireless Sync Enterprise Server software is manufactured by Intellisync. The GoodLink Server is manufactured by, and sold separately by Good Technology. The BES software is manufactured by Research in Motion ("RIM"). Any license for such software must be obtained directly from the software manufacturer either upon purchase or installation of the software. Customer support for the Wireless Sync Enterprise Server, GoodLink, or BES software must be obtained from the software manufacturer. If Verizon Wireless in its sole discretion determines that a PDA or BlackBerry related inquiry from a Subscriber is related to the Wireless Sync Enterprise Server, GoodLink or BES software and not one concerning Equipment or desktop software, it may transfer the service request to appropriate representatives of the software manufacturer. When you use Microsoft's Exchange ActiveSync, Notify's NotifyLink, or Intellisync's Intellisync Mobile Suite, every time you receive an email or other update you may be charged for an incoming TXT Message. To avoid TXT Messaging charges, you can set up timed synchronization or manually initiate synchronization.

NationalAccess Roaming Feature: Not for use with Mobile Office Kits. Dynamic IP addresses will be assigned when roaming. Usage rounded up to next full kilobyte. For information on where NationalAccess Roaming is available, see www.verizonwireless.com.

GlobalAccess: Global PC Card required for international use. Global PC Cards will not work in the United States or Canada and GlobalAccess Subscribers will need a NationalAccess or BroadbandAccess PC card for domestic use. The domestic and Global PC Cards cannot be used at the same time. GlobalAccess Subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Verizon Wireless reserves the right to terminate the service of any Subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. Verizon Wireless SIM Cards are for use only with the Global PC Card and only for the purpose of this service. Subscriber is responsible for any unauthorized use of its SIM Cards and must safeguard security codes. Upon termination of service, Subscriber must destroy SIM Card. By using your Global PC Card outside the United States, Subscriber is solely responsible for complying with all applicable Foreign Laws. Verizon Wireless will not be liable for any damages that result from Subscriber's failure to comply with Foreign Laws.

GlobalEmail: GlobalEmail capable equipment required. Verizon Wireless reserves the right to terminate the GlobalEmail service of Subscribers that have less than half of their usage on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. SIM Cards are for use with GlobalEmail Equipment, and only for the purpose of GlobalEmail service. Customer is responsible for any unauthorized use of SIM Cards, and must safeguard security codes. Upon termination of service, please destroy any applicable SIM Cards. Subscribers using GlobalEmail outside the United States, agree that they are solely responsible for complying with all applicable foreign laws, rules and regulations ("foreign laws"). Customer agrees that Verizon Wireless is not liable for any damages that result from Subscriber's failure to comply with foreign laws. GlobalEmail Subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. TXT messaging billed at standard domestic and international TXT Messaging rates. Existing Verizon Wireless Subscribers migrating to GlobalEmail plans may be required to extend their Line Term.

Mobile Broadband Machine-to-Machine plan sharing option, Multi-Account Share: Customer may activate one (1) share group per profile (Low Usage and High Usage plans cannot share with each other); however, customer may have multiple bill accounts on the same profile. Sharing is available only among M2M Lines on the Mobile Broadband M2M Multi-Account Share Plans on the same profile, in the same usage group. Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines on the same profile. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans.

Note: 1A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

America's Choice for Business & Voice and Data Choice Bundles for Business Subscribers: (NOTE: Subscribers to America's Choice for Business and Voice and Data Choice Bundles for Business can share voice minutes across these plans and price points subject to some billing system limitations.) Sharing on these calling plans is for voice home airtime minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or group of markets (geographic regions may contain multiple Verizon Wireless markets). Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Home Airtime Allowance Minutes apply first to that line. Unused Monthly Home Airtime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Home Airtime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on America's Choice for Business with Share Option may be migrated onto applicable retail consumer pricing or Government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing Subscribers activated in more than one Verizon Wireless billing system. Sharing among Subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing Subscriber to the total minutes

needed by all sharing Subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

4.0 Regulatory Surcharges and Fees

Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice. Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Charge

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) is a percentage of the customer's applicable monthly wireless service charges based upon an assessment rate that changes quarterly. The rate for the quarter beginning – January 1, 2017 is 4.26% of the following items:

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Nights and Weekends feature
- Toll free feature

The FUSC on other separately billed interstate and international long distance charges is 16.7%.

The quarterly percentage rate described above for the FUSC is applied in our billing system.

Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The FCC assesses wireless carriers the costs of enforcement, policy and rulemaking. The Regulatory Fee recovers Verizon Wireless' share of these costs, as well as some of the costs of implementing regulatory mandates, such as number portability. The Regulatory Charge is a flat charge of \$0.21 per Mobile Telephone Number (MTN) per month (excluding BroadbandAccess and NationalAccess Plans) and is \$0.02 per mobile number per month for BroadbandAccess and NationalAccess Plans, but is subject to change over time.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

The FUSC and Regulatory Charge are included in the "Verizon Wireless Surcharges" section of the bill.

Important Map Information:
 This map is not a guarantee of coverage and may vary in areas with no service. This map reflects a depiction of predicted and approximate wireless coverage. The coverage areas shown do not guarantee service availability and may include locations with limited or no coverage. Even within a coverage area, there are many factors, including network capacity, your device, terrain, proximity to buildings, foliage, and weather that may impact availability and quality of service. An all-digital device will not operate or be able to make or receive calls or text messages if service is not available. The Nationwide Rate and Coverage Area includes networks run by other carriers, some of the coverage depicted is based on their information and public sources, and we cannot ensure its accuracy. 6.0 Equipment

The Government Equipment Matrix below reflects the pricing for equipment that is being made available to Government Liable Subscribers as Open Market items. None of the equipment listed are products listed on GSA Federal Supply Schedule Contract No. GS-35F-0119P (and, pursuant to FAR 8.402(f), should be noted applicably on all procurement documents including but not limited to BPAs, or individual task or delivery orders). The prices of equipment in the attached Equipment Matrix have been discounted and are in effect through 03/31/17 for new cellular service activations and eligible equipment upgrades. Equipment purchased without service activation is not eligible for discounted pricing and will be charged full retail price. A wireless device must be in service for a minimum of 10 months to be eligible for an equipment upgrade at the discounted pricing regardless of contract vehicle chosen. If you choose to upgrade or replace equipment due to loss or theft of your device prior to completing 10 months of service, you may be charged full retail price. This offer cannot be combined with any other offer. Other restrictions or charges may apply. Prices are subject to change without notice and quantities may be limited. Please contact your sales representative at the time of purchase for the latest equipment pricing. Verizon Wireless reserves the right to disconnect cellular service in the event a number is disconnected from one wireless device and then reconnected on a new wireless device as a means to circumvent the 10 month upgrade policy.

Mobile to Mobile: Mobile to Mobile minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless Subscriber while in the America's Choice Home Rate and Coverage area. Mobile to Mobile does not apply to fixed wireless devices with usage substantially from a single cell site, for Push to Talk calls, if Call Forwarding or No Answer/Busy Transfer features are activated, or to data usage. Mobile to Mobile is not available to Subscribers whose current wireless exchanges restrict the delivery of Caller ID. Mobile to Mobile minutes will be applied before home airtime minutes.*

Night and Weekends: Applies to calls made in a calling plan's home rate and coverage area only during the following hours: 9:01pm Friday through 5:59am Monday and 9:01pm to 5:59am Monday through Friday.*

TXT Messaging: TXT Messaging includes Short Message Service (SMS up to 160 characters) and Enhanced Messaging Service (EMS up to 1120 characters). Enhanced TXT Messages sent to most SMS handsets will be delivered as multiple TXT messages of up to 160 characters each. Subscribers have the option to have text messages disabled entirely without affecting voicemail or other related services. TXT Messaging plans do not include Operator Assisted Messaging or International Messaging, which is available for 25¢ per message sent and 10¢ per message received; see www.vtext.com for details and countries. Verizon Wireless is not responsible for information sent using TXT Messaging or Enhanced TXT Messaging. Verizon Wireless cannot guarantee that messages will be received and is not responsible for messages that are lost or misdirected. Messages not delivered after 5 days are automatically deleted. Airtime charges do not apply to the sending or receiving of text messages. When sending messages from Equipment, the sender's MTN will always be sent to the destination, even if Caller ID is used to block voice calls.

Mobile to Mobile Messaging: Cannot be combined with any other package that includes a TXT or PIX&FLIX allowance. Mobile to Mobile Messaging applies only to TXT/ PIX/ FLIX messages sent to and received from other Verizon Wireless Subscribers' phones, while both wireless Subscribers are within the National Enhanced Services Rate and Coverage Area. Additional messages apply to PIX Place, VTEXT/ TXT Alerts/ getAlerts, Instant Messaging (IM), Email, Premium Text Services, TXT/PIX/FLIX sent to non-Verizon Wireless customers, these messages will be decremented from the Subscriber's Additional Message allowance, or billed as overage. Subscriber will be charged for outgoing MMS, even if not received by the intended recipient, or even if only partial content is delivered. Subscriber will not be charged for incoming MMS unless received. MMS that cannot be delivered within 5 days will be deleted. MMS is not available for use with a Mobile Office Kit. The ability to make international calls is not guaranteed and may be restricted without notice. Rates apply only on calls to Value Plan countries made from calling plan home airtime rate and coverage areas. If a calling plan includes calls to any Value Plan country, those calls will be billed per the terms of the calling plan except when roaming on another carrier's network, in which case that carrier's rates will apply. Current international calling rates may be found at www.verizonwireless.com.

International Roaming (Global Phone): Availability of calling features and TXT messaging varies by country and network. Existing Subscribers who purchase a Global Phone may have to set up a new voice mailbox and, if so, will lose access to previously stored messages upon activation of Global Phone. Voice mail messages will be time-stamped Eastern Time. Calls to voice mail will appear on the bill as calls to the Subscriber's MTN. Actual availability of service in foreign countries may vary and is subject to change. Taxes and other regulatory surcharges may apply and may vary by country. While roaming on another carrier's wireless network, dialing rates and country availability may vary due to the roaming carrier's international dialing policies. Billing for airtime used when roaming may be delayed up to two billing cycles. By using Equipment outside the United States, Subscriber is solely responsible for complying with all applicable foreign laws, rules and regulations ("Foreign Laws"), including Foreign Laws regarding use of wireless phones while driving and use of wireless camera phones. Check www.vtext.com for the most current list of participating foreign carriers. TXT messages cannot be sent to e-mail addresses.

VZAccess and VZEmail (Mobile Broadband & Data Services)

VZAccess and VZEmail Calling Plans and Features: VZAccess includes NationalAccess (IXRTT) and BroadbandAccess (EVDO/4G) calling plans. VZEmail includes PDA/Smartphone and BlackBerry calling plans. VZAccess and VZEmail usage is subject to VZAccess Acceptable Use Policy, available on www.verizonwireless.com. VZEmail optional features may only be purchased in conjunction with eligible voice calling plan with a monthly access fee of \$34.99 or higher. Monthly Megabyte allowances apply only to NationalAccess and BroadbandAccess data transmissions. Other data (Quick 2 NetSM or dial-up) transmissions as well as voice calls will be billed at the per minute overage rate according to the VZAccess calling plan. For optional data features, "other data" will be billed as anytime minutes or at the per minute overage rate according to the underlying calling plan. When traveling outside the National Enhanced Services Rate and Coverage Area, Subscribers may be charged at the "other data" rate for data usage. NationalAccess data sessions require a NationalAccess capable PC Card, PDA, BlackBerry or handset with its compatible Mobile Office Kit, and must be placed within NationalAccess service area. BroadbandAccess data sessions require BroadbandAccess capable Equipment and must be placed within BroadbandAccess service area. PDA/Smartphone and BlackBerry users that move from a VZEmail plan or feature, or a Voice and Data Choice Bundle to another calling plan will not be able to use their PDA/Smartphone or BlackBerry on the new calling plan and will need to purchase or provide compatible voice Equipment to switch to the new calling plan. For current NationalAccess and BroadbandAccess service areas, please visit www.verizonwireless.com. All data sessions automatically terminate after 24 hours of activity and on unlimited calling plans after 2 hours if inactivity. Data session is inactive when no data is being transferred. Data session may seem inactive while data is actively being transferred to Equipment, or may seem active when it is actually cached and not transferring data. Subscriber MUST press or click END or DISCONNECT button to ensure that session disconnects and charges cease. Third-party applications may automatically reinitiate data sessions without the Subscriber pressing or clicking SEND or CONNECT button. Voice calls cannot be received when an e-mail or other data transmission is

occurring. Voice calls are possible when NationalAccess data session is inactive; however, charges apply simultaneously to the data session and the voice call in accordance with the applicable calling plan. Voice calls are not available with BroadbandAccess. Customer must maintain virus protection when accessing the service. Customer is responsible for all charges, including all data sent and received and "overhead" whether or not Subscriber or recipients actually receive the data. "Overhead" is all data that is in addition to user-transmitted data, such as control, operational and routing instructions, error-checking characters and retransmissions of user-data messages that are received in error. VZEmail calling plans and optional features not available with PC cards or wireless modems, including wireless Equipment tethered to a PC. In order to use some VZEmail features and applications, Subscriber's PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or GoodLink) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber's request.

Unlimited Data Plans and Features (such as NationalAccess, BroadbandAccess, Push to Talk, and certain VZEmail services) may ONLY be used with wireless devices for the following purposes: (i) Internet browsing; (ii) email; and (iii) intranet access (including access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation). The Unlimited Data Plans and Features MAY NOT be used for any other purpose. Examples of prohibited uses include, without limitation, the following: (i) continuous uploading, downloading or streaming of audio or video programming or games; (ii) server devices or host computer applications, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing; or (iii) as a substitute or backup for private lines or dedicated data connections. This means, by way of example only, that checking email, surfing the Internet, downloading legally acquired songs, and/or visiting corporate intranets is permitted, but downloading movies using P2P file sharing services and/or redirecting television signals for viewing on laptops is prohibited.

For individual use only and not for resale. We reserve the right to protect our network from harm, which may impact legitimate data flows. We reserve the right to limit throughput or amount of data transferred, and to deny or terminate service, without notice, to anyone we believe is using an Unlimited Data Plan or Feature in any manner prohibited above or whose usage adversely impacts our network or service levels. Verizon Wireless will limit data throughput speeds in any given month that 5 GB of usage is exceeded on a per line basis. Anyone using more than 5 GB per line in a given month is presumed to be using the service in a manner prohibited above, and we reserve the right to immediately terminate the service of any such person without notice. We also reserve the right to terminate service upon notification to the customer.

Unlimited VZAccess and VZEmail: NationalAccess, BroadbandAccess, and GlobalAccess data sessions may be used for the following purposes: (i) Internet browsing, (ii) e-mail, and (iii) intranet access (including access to corporate intranets, e-mail and individual productivity applications like customer relationship management, sales force and field service automation). Unlimited VZAccess, VZEmail and Push to Talk services cannot be used (i) for uploading, downloading or streaming of movies, music or games, (ii) with server devices or with host computer applications, other than applications required for BlackBerry or Wireless Sync service, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, Voice over IP (VoIP), automated machine-to-machine connections, or peer-to-peer (P2P) file sharing, or (iii) as a substitute or backup for private lines or dedicated data connections. Additionally, Unlimited VZEmail services cannot be used for, (i) access to the Internet, intranets or other data networks, except as the Equipment's native applications and capabilities permit, or (ii) for any applications that tether Equipment to laptops or personal computers other than for use of the Wireless Sync or BlackBerry Solutions. Unlimited BroadbandAccess and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless Subscriber has Mobile IP (MIP) capable Equipment.

VZEmail Megabyte (MB) Data Plans: Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess and BroadbandAccess data sessions and are rounded to next full kilobyte at end of each billing cycle. Only total of kilobytes transmitted above allowance each billing cycle may appear on bill.

VZEmail Server Software (Wireless Sync Enterprise Server, GoodLink Server & BlackBerry Enterprise Server (BES)): Verizon Wireless is not the licensor of the Wireless Sync Enterprise Server, GoodLink Server or BES Server and makes no representations or warranties whatsoever, either express or implied, with respect to such servers and associated software. The Wireless Sync Enterprise Server software is manufactured by Intellisync. The GoodLink Server is manufactured by, and sold separately by Good Technology. The BES software is manufactured by Research in Motion ("RIM"). Any license for such software must be obtained directly from the software manufacturer either upon purchase or installation of the software. Customer support for the Wireless Sync Enterprise Server, GoodLink, or BES software must be obtained from the software manufacturer. If Verizon Wireless in its sole discretion determines that a PDA or BlackBerry related inquiry from a Subscriber is related to the Wireless Sync Enterprise Server, GoodLink or BES software and not one concerning Equipment or desktop software, it may transfer the service request to appropriate representatives of the software manufacturer. When you use Microsoft's Exchange ActiveSync, Notify's NotifyLink, or Intellisync's Intellisync Mobile Suite, every time you receive an email or other update you may

be charged for an incoming TXT Message. To avoid TXT Messaging charges, you can set up timed synchronization or manually initiate synchronization.

Verizon Wireless reserves the right to terminate the service of any Subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. Mobile Broadband Machine-to-Machine plan sharing option.. Multi-Account Share: Customer may activate one (1) share group per profile (Low Usage and High Usage plans cannot share with each other); however, customer may have multiple bill accounts on the same profile. Sharing is available only among M2M Lines on the Mobile Broadband M2M Multi-Account Share Plans on the same profile, in the same usage group. Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines on the same profile. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans.

Note: 1A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

America's Choice for Business & Voice and Data Choice Bundles for Business Subscribers: (NOTE: Subscribers to America's Choice for Business and Voice and Data Choice Bundles for Business can share voice minutes across these plans and price points subject to some billing system limitations.). Sharing on these calling plans is for voice home airtime minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or group of markets (geographic regions may contain multiple Verizon Wireless markets). Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Home Airtime Allowance Minutes apply first to that line. Unused Monthly Home Airtime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Home Airtime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on America's Choice for Business with Share Option may be migrated onto applicable retail consumer pricing or Government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing Subscribers activated in more than one Verizon Wireless billing system. Sharing among Subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing

system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing Subscriber to the total minutes needed by all sharing Subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

4.0 Regulatory Surcharges and Fees

Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice.

Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Charge

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) is a percentage of the customer's applicable monthly wireless service charges based upon an assessment rate that changes quarterly. The rate for the quarter beginning – January 1, 2015 is 4.15% of the following items:

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Nights and Weekends feature
- Toll free feature

The FUSC on other separately billed interstate and international long distance charges is 16.8%.

The quarterly percentage rate described above for the FUSC is applied in our billing system.

Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The FCC assesses wireless carriers the costs of enforcement, policy and rulemaking. The Regulatory Fee recovers Verizon Wireless' share of these costs, as well as some of the costs of implementing regulatory mandates, such as number portability. The Regulatory Charge is a flat charge of \$0.18 per Mobile Telephone Number (MTN) per month (excluding BroadbandAccess and NationalAccess Plans) and is \$0.02 per mobile number per month for BroadbandAccess and NationalAccess Plans, but is subject to change over time.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

The FUSC and Regulatory Charge are included in the "Verizon Wireless Surcharges" section of the bill.

Good morning Bobby,

Please review the link below. It is the link to the contract document that we have executed along with updated amendments, **as you provide them to us**. You will notice that our last update for the GSA pricing is **September 2014** and references "SKU" numbers. It is imperative that we execute the updates to the contract prior to invoicing because it makes it very difficult to certify the expense if the invoice is referencing something that is not in the contract and it holds up the payment process.

Joanne,

Please route the attached updated GSA pricing schedule for Contract # C07-1535-PUR.

Zan,

I will print this email thread and place with the yellow form the Clerk's office.

Thanks,

Jack

Hey Bobby,

We have an Apple ipad Air 2 64 GB Sku # **MGJY2LL/A** for \$629.99 on our contract. TDD ordered and received an Apple ipad Air 2 64 GB Sku # **MHIY2LL/A** and our Finance department has indicated that the later is not part of the contract. Please verify if these sku#'s have recently changed or if there are other devices that we need to add to our contract?
Thanks,
Jack

Other data (Quick 2 NetSM or dial-up) transmissions as well as voice calls will be billed at the per minute overage rate according to the VZAccess calling plan. For optional data features, "other data" will be billed as anytime minutes or at the per minute overage rate according to the underlying calling plan. When traveling outside the National Enhanced Services Rate and Coverage Area, Subscribers may be charged at the "other data" rate for data usage. NationalAccess data sessions require a NationalAccess capable PC Card, PDA, BlackBerry or handset with its compatible Mobile Office Kit, and must be placed within NationalAccess service area. BroadbandAccess data sessions require BroadbandAccess capable Equipment and must be placed within BroadbandAccess service area. PDA/Smartphone and BlackBerry users that move from a VZEmail plan or feature, or a Voice and Data Choice Bundle to another calling plan will not be able to use their PDA/Smartphone or BlackBerry on the new calling plan and will need to purchase or provide compatible voice Equipment to switch to the new calling plan. For current NationalAccess and BroadbandAccess service areas, please visit www.verizonwireless.com. All data sessions automatically terminate after 24 hours of activity and on unlimited calling plans after 2 hours if inactivity. Data session is inactive when no data is being transferred. Data session may seem inactive while data is actively being transferred to Equipment, or may seem active when it is actually cached and not transferring data. Subscriber MUST press or click END or DISCONNECT button to ensure that session disconnects and charges cease. Third-party applications may automatically reinitiate data sessions without the Subscriber pressing or clicking SEND or CONNECT button. Voice calls cannot be received when an e-mail or other data transmission is

occurring. Voice calls are possible when NationalAccess data session is inactive; however, charges apply simultaneously to the data session and the voice call in accordance with the applicable calling plan. Voice calls are not available with BroadbandAccess. Customer must maintain virus protection when accessing the service. Customer is responsible for all charges, including all data sent and received and "overhead" whether or not Subscriber or recipients actually receive the data. "Overhead" is all data that is in addition to user-transmitted data, such as control, operational and routing instructions, error-checking characters and retransmissions of user-data messages that are received in error. VZEmail calling plans and optional features not available with PC cards or wireless modems, including wireless Equipment tethered to a PC. In order to use some VZEmail features and applications, Subscriber's PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or GoodLink) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber's request.

Unlimited Data Plans and Features (such as NationalAccess, BroadbandAccess, Push to Talk, and certain VZEmail services) may ONLY be used with wireless devices for the following purposes: (i) Internet browsing; (ii) email; and (iii) intranet access (including access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation). The Unlimited Data Plans and Features MAY NOT be used for any other purpose. Examples of prohibited uses include, without limitation, the following: (i) continuous uploading, downloading or streaming of audio or video programming or games; (ii) server devices or host computer applications, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing; or (iii) as a substitute or backup for private lines or dedicated data connections. This means, by way of example only, that checking email, surfing the Internet, downloading legally acquired songs, and/or visiting corporate intranets is permitted, but downloading movies using P2P file sharing services and/or redirecting television signals for viewing on laptops is prohibited.

For individual use only and not for resale. We reserve the right to protect our network from harm, which may impact legitimate data flows. We reserve the right to limit throughput or amount of data transferred, and to deny or terminate service, without notice, to anyone we believe is using an Unlimited Data Plan or Feature in any manner prohibited above or whose usage adversely impacts our network or service levels. Verizon Wireless will limit data throughput speeds in any given month that 5 GB of usage is exceeded on a per line basis. Anyone using more than 5 GB per line in a given month is presumed to be using the service in a manner prohibited above, and we reserve the right to immediately terminate the service of any such person without notice. We also reserve the right to terminate service upon notification to the customer.

Unlimited VZAccess and VZEmail: NationalAccess, BroadbandAccess, and GlobalAccess data sessions may be used for the following purposes: (i) Internet browsing, (ii) e-mail, and (iii) intranet access (including access to corporate intranets, e-mail and individual productivity applications like customer relationship management, sales force and field service automation). Unlimited VZAccess, VZEmail and Push to Talk services cannot be used (i) for uploading, downloading or streaming of movies, music or games, (ii) with server devices or with host computer applications, other than applications required for BlackBerry or Wireless Sync service, including, but not limited to, Web camera posts or broadcasts, automatic data feeds, Voice over IP (VoIP), automated machine-to-machine connections, or peer-to-peer (P2P) file sharing, or (iii) as a substitute or backup for private lines or dedicated data connections. Additionally, Unlimited VZEmail services cannot be used for, (i) access to the Internet, intranets or other data networks, except as the Equipment's native applications and capabilities permit, or (ii) for any applications that tether Equipment to laptops or personal computers other than for use of the Wireless Sync or BlackBerry Solutions. Unlimited BroadbandAccess and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless Subscriber has Mobile IP (MIP) capable Equipment.

VZEmail Megabyte (MB) Data Plans: Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess and BroadbandAccess data sessions and are rounded to next full kilobyte at end of each billing cycle. Only total of kilobytes transmitted above allowance each billing cycle may appear on bill.

VZEmail Server Software (Wireless Sync Enterprise Server, GoodLink Server & BlackBerry Enterprise Server (BES)): Verizon Wireless is not the licensor of the Wireless Sync Enterprise Server, GoodLink Server or BES Server and makes no representations or warranties whatsoever, either express or implied, with respect to such servers and associated software. The Wireless Sync Enterprise Server software is manufactured by Intellisync. The GoodLink Server is manufactured by, and sold separately by Good Technology. The BES software is manufactured by Research in Motion ("RIM"). Any license for such software must be obtained directly from the software manufacturer either upon purchase or installation of the software. Customer support for the Wireless Sync Enterprise Server, GoodLink, or BES software must be obtained from the software manufacturer. If Verizon Wireless in its sole discretion determines that a PDA or BlackBerry related inquiry from a Subscriber is related to the Wireless Sync Enterprise Server, GoodLink or BES software and not one concerning Equipment or desktop software, it may transfer the service request to appropriate representatives of the software manufacturer. When you use Microsoft's Exchange ActiveSync, Notify's NotifyLink, or Intellisync's Intellisync Mobile Suite, every time you receive an email or other update you may

be charged for an incoming TXT Message. To avoid TXT Messaging charges, you can set up timed synchronization or manually initiate synchronization.

NationalAccess Roaming Feature: Not for use with Mobile Office Kits. Dynamic IP addresses will be assigned when roaming. Usage rounded up to next full kilobyte. For information on where NationalAccess Roaming is available, see www.verizonwireless.com.

GlobalAccess: Global PC Card required for international use. Global PC Cards will not work in the United States or Canada and GlobalAccess Subscribers will need a NationalAccess or BroadbandAccess PC card for domestic use. The domestic and Global PC Cards cannot be used at the same time. GlobalAccess Subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Verizon Wireless reserves the right to terminate the service of any Subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. Verizon Wireless SIM Cards are for use only with the Global PC Card and only for the purpose of this service. Subscriber is responsible for any unauthorized use of its SIM Cards and must safeguard security codes. Upon termination of service, Subscriber must destroy SIM Card. By using your Global PC Card outside the United States, Subscriber is solely responsible for complying with all applicable Foreign Laws. Verizon Wireless will not be liable for any damages that result from Subscriber's failure to comply with Foreign Laws.

GlobalEmail: GlobalEmail capable equipment required. Verizon Wireless reserves the right to terminate the GlobalEmail service of Subscribers that have less than half of their usage on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. SIM Cards are for use with GlobalEmail Equipment, and only for the purpose of GlobalEmail service. Customer is responsible for any unauthorized use of SIM Cards, and must safeguard security codes. Upon termination of service, please destroy any applicable SIM Cards. Subscribers using GlobalEmail outside the United States, agree that they are solely responsible for complying with all applicable foreign laws, rules and regulations ("foreign laws"). Customer agrees that Verizon Wireless is not liable for any damages that result from Subscriber's failure to comply with foreign laws. GlobalEmail Subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. TXT messaging billed at standard domestic and international TXT Messaging rates. Existing Verizon Wireless Subscribers migrating to GlobalEmail plans may be required to extend their Line Term.

Mobile Broadband Machine-to-Machine plan sharing option, Multi-Account Share: Customer may activate one (1) share group per profile (Low Usage and High Usage plans cannot share with each other); however, customer may have multiple bill accounts on the same profile. Sharing is available only among M2M Lines on the Mobile Broadband M2M Multi-Account Share Plans on the same profile, in the same usage group. Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines on the same profile. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans.

Note: 1A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

America's Choice for Business & Voice and Data Choice Bundles for Business Subscribers: (NOTE: Subscribers to America's Choice for Business and Voice and Data Choice Bundles for Business can share voice minutes across these plans and price points subject to some billing system limitations.). Sharing on these calling plans is for voice home airtime minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or group of markets (geographic regions may contain multiple Verizon Wireless markets). Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Home Airtime Allowance Minutes apply first to that line. Unused Monthly Home Airtime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Home Airtime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on America's Choice for Business with Share Option may be migrated onto applicable retail consumer pricing or Government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing Subscribers activated in more than one Verizon Wireless billing system. Sharing among Subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing

system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing Subscriber to the total minutes needed by all sharing Subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

4.0 Regulatory Surcharges and Fees

Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice.

Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Charge

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) is a percentage of the customer's applicable monthly wireless service charges based upon an assessment rate that changes quarterly. The rate for the quarter beginning – January 1, 2015 is 4.15% of the following items:

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Nights and Weekends feature
- Toll free feature

The FUSC on other separately billed interstate and international long distance charges is 16.8%.

The quarterly percentage rate described above for the FUSC is applied in our billing system.

Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The FCC assesses wireless carriers the costs of enforcement, policy and rulemaking. The Regulatory Fee recovers Verizon Wireless' share of these costs, as well as some of the costs of implementing regulatory mandates, such as number portability. The Regulatory Charge is a flat charge of \$0.18 per Mobile Telephone Number (MTN) per month (excluding BroadbandAccess and NationalAccess Plans) and is \$0.02 per mobile number per month for BroadbandAccess and NationalAccess Plans, but is subject to change over time.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

The FUSC and Regulatory Charge are included in the "Verizon Wireless Surcharges" section of the bill.

6.0 Equipment

The Government Equipment Matrix below reflects the pricing for equipment that is being made available to Government Liable Subscribers as Open Market items. None of the equipment listed are products listed on GSA Federal Supply Schedule Contract No. GS-35F-0119P (and, pursuant to FAR 8.402(f), should be noted applicably on all procurement documents including but not limited to BPAs, or individual task or delivery orders). The prices of equipment in the attached Equipment Matrix have been discounted and are in effect through 03/31/15 for new cellular service activations and eligible equipment upgrades. A wireless device must be in service for a minimum of 10 months to be eligible for an equipment upgrade at the discounted pricing regardless of contract vehicle chosen. If you choose to upgrade or replace equipment due to loss or theft of your device prior to completing 10 months of service, you may be charged full retail price. This offer cannot be combined with any other offer. Other restrictions or charges may apply. Prices are subject to change without notice and quantities may be limited. Please contact your sales representative at the time of purchase for the latest equipment pricing. Verizon Wireless reserves the right to disconnect cellular service in the event a number is disconnected from one wireless device and then reconnected on a new wireless device as a means to circumvent the 10 month upgrade policy.

**BOARD OF COUNTY COMMISSIONERS
AGENDA REQUEST**

DATE: September 16, 2014
TO: Honorable Chairman and Members of the Board
FROM: Zan Fedorak
SUBJECT: Seeking Approval for Extension of Contracts for Wireless Services
DEPARTMENT: Purchasing
BCC DISTRICT: All

STATEMENT OF ISSUE: [PUR] Seeking Approval for extension of contracts with Southern Linc (C07-1549-PUR), Verizon (C07-1535-PUR), and Sprint (C07-1382-PUR).

BACKGROUND & ANALYSIS: Staff has previously taken advantage of utilizing State Contract Pricing for the Verizon contract and Western States Contracting Alliance (WSCA) for the Sprint contract. Both are competitively bid cooperative contracts which expire 01/18/2017 and 10/31/2016 respectively.

Southern Linc has requested to extend their contract for an additional two (2) years and offered an equipment change-out for replacement of any outdated units. Southern Linc is utilized primarily by the Public Works Department. Public Works has reviewed the proposed extension and supports the request which will expire 9/30/2016. Southern Linc Wireless Contract can be viewed at: <http://www.co.okaloosa.fl.us/southern%20linc.pdf>.

OPTIONS: Approval/Deny extension of contracts with Southern Linc (C07-1549-PUR) expiring 9/30/2016, Verizon (C07-1535-PUR) expiring 01/18/2017, and Sprint (C07-1382-PUR) expiring 10/31/2016.

RECOMMENDATION: Staff recommends extension of contracts with Southern Linc (C07-1549-PUR) expiring 9/30/2016, Verizon (C07-1535-PUR) expiring 01/18/2017, and Sprint (C07-1382-PUR) expiring 10/31/2016.

In order to use some VZEmail features and applications, Subscriber's PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or GoodLink) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber's request.

Unlimited Data Plans and Features (such as NationalAccess, BroadbandAccess, Push to Talk, and certain VZEmail services) may ONLY be used with wireless devices for the following purposes: (i) Internet browsing; (ii) email; and (iii) intranet access (including access to corporate intranets, email, and individual productivity applications like customer relationship management, sales force, and field service automation). Mobile Broadband Machine-to-Machine plan sharing option., Multi-Account Share: Customer may activate one (1) share group per profile (Low Usage and High Usage plans cannot share with each other); however, customer may have multiple bill accounts on the same profile. Sharing is available only among M2M Lines on the Mobile Broadband M2M Multi-Account Share Plans on the same profile, in the same usage group. Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines on the same profile. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans.

Note: 1A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

America's Choice for Business & Voice and Data Choice Bundles for Business Subscribers: (NOTE: Subscribers to America's Choice for Business and Voice and Data Choice Bundles for Business can share voice minutes across these plans and price points subject to some billing system limitations.). Sharing on these calling plans is for voice home airtime minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or group of markets (geographic regions may contain multiple Verizon Wireless markets). Sharing may require all Subscribers to be on the same billing account. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Home Airtime Allowance Minutes apply first to that line. Unused Monthly Home Airtime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Home Airtime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on America's Choice for Business with Share Option may be migrated onto applicable retail consumer pricing or Government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing Subscribers activated in more than one Verizon Wireless billing system. Sharing among Subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing

system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing Subscriber to the total minutes needed by all sharing Subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

4.0 Regulatory Surcharges and Fees

Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice.

Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Charge

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) is a percentage of the customer's applicable monthly wireless service charges based upon an assessment rate that changes quarterly. The rate for the quarter beginning – July 1, 2014 is 3.91% of the following items:

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Nights and Weekends feature
- Toll free feature

The FUSC on other separately billed interstate and international long distance charges is 15.70%.

The quarterly percentage rate described above for the FUSC is applied in our billing system.

Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The FCC assesses wireless carriers the costs of enforcement, policy and rulemaking. The Regulatory Fee recovers Verizon Wireless' share of these costs, as well as some of the costs of implementing regulatory mandates, such as number portability. The Regulatory Charge is a flat charge of \$0.21 per Mobile Telephone Number (MTN) per month (excluding BroadbandAccess and NationalAccess Plans) and is \$0.02 per mobile number per month for BroadbandAccess and NationalAccess Plans, but is subject to change over time.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

The FUSC and Regulatory Charge are included in the "Verizon Wireless Surcharges" section of the bill.

In order to use some VZEmail features and applications, Subscriber's PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or GoodLink) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber's request.

Each sharing M2M Lines unused KBs will pass to other sharing M2M Lines that have exceeded their data allowance during the same monthly bill cycle. Unused KBs will be distributed proportionally as a ratio of the KBs needed by each applicable M2M Line to the total KBs needed by all sharing M2M Lines on the same profile. Customers subscribing to Mobile Broadband M2M Profile Share Plans will be billed on separate billing accounts and invoices from Subscribers to the Mobile Broadband M2M Account Share Plans.

Note: 1A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts.

America's Choice for Business & Voice and Data Choice Bundles for Business Subscribers: (NOTE: Subscribers to America's Choice for Business and Voice and Data Choice Bundles for Business can share voice minutes across these plans and price points subject to some billing system limitations.). 4.0 Regulatory Surcharges and Fees

Verizon Wireless' pricing does not include federal, state, local or foreign fees, assessments or other charges (collectively "fees"), which must be billed based on the jurisdiction in which the subscriber's cellular number is set up and located. Fees vary by state and local areas and are subject to change without notice.

Verizon Wireless cannot provide a comprehensive list of all charges and regulatory fees required and assessed when using a wireless device because they vary greatly from one jurisdiction to another.

In addition to taxes, surcharges and fees that we are required to collect, we will also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include, among others, a Regulatory Charge and a Federal Universal Service Charge, and are described below in more detail. These charges are Verizon Wireless charges, not taxes, and are subject to change. Because these charges are not taxes, your tax exemptions, if any, will not apply to these charges.

Federal Universal Service Charge

Wireless carriers are assessed by the federal government to fund the delivery of universally-affordable telecommunications and information services under the Federal Universal Service Fund (FUSF) program.

The Federal Universal Service Charge (FUSC) is a percentage of the customer's applicable monthly wireless service charges based upon an assessment rate that changes quarterly. The rate for the quarter beginning – July 1, 2014 is 3.91% of the following items:

- Cellular Access for voice calling plans (only on first 79% of this item)
- Verizon Wireless Toll
- Roaming Charges
- Activation Charges
- Re-connect fees
- Landline Connect Fee
- TXT Messaging monthly service
- TXT Messaging usage
- Airtime usage for voice calls
- Mobile to Mobile feature
- Nights and Weekends feature
- Toll free feature

The FUSC on other separately billed interstate and international long distance charges is 15.70%.

The quarterly percentage rate described above for the FUSC is applied in our billing system.

Verizon Wireless also imposes state universal service charges. These charges vary by jurisdiction and are subject to change depending on changes in the state universal service impositions on Verizon Wireless.

Regulatory Charge

The FCC assesses wireless carriers the costs of enforcement, policy and rulemaking. The Regulatory Fee recovers Verizon Wireless' share of these costs, as well as some of the costs of implementing regulatory mandates, such as number portability. The Regulatory Charge is a flat charge of \$0.21 per Mobile Telephone Number (MTN) per month (excluding BroadbandAccess and NationalAccess Plans) and is \$0.02 per mobile number per month for BroadbandAccess and NationalAccess Plans, but is subject to change over time.

Regulatory fees impacting the wireless industry are constantly evolving and are subject to change without notice. For more information you can visit the FCC's website at www.fcc.gov.

The FUSC and Regulatory Charge are included in the "Verizon Wireless Surcharges" section of the bill.

MOBILE COMMUNICATION SERVICES AGREEMENT

THIS MOBILE COMMUNICATION SERVICES AGREEMENT (“Agreement”), effective as of the last date signed below (the “Effective Date”), is between the Florida Department of Management Services, a State agency with its principal place of business at 4050 Esplanade Way, Suite 200, Tallahassee, FL 32399-0950 (the “Department”), and Verizon Wireless Personal Communications LP d/b/a Verizon Wireless and Verizon Wireless of the East LP d/b/a Verizon Wireless by Cellco Partnership, its General Partner with its principal place of business at One Verizon Way, Basking Ridge, NJ 07920-1097 (“Service Provider”).

WHEREAS, Service Provider provides wireless voice and data services in certain areas of Florida; and

WHEREAS, the Department issued Invitation to Negotiate #10/11-008 (“ITN”), on September 2, 2010, in order to select a company to provide such services; and

WHEREAS, the ITN process resulted in Verizon Wireless receiving a pricing score of 46, a technical score of 45.6, and a total score of 91.6, AT&T Mobility receiving a pricing score of 23, a technical score of 40.2 and a total score of 63.2, and Sprint receiving a pricing score of 21, a technical score of 39, and a total score of 60; and

WHEREAS, although Verizon Wireless received the highest score of the responsive vendors, was the highest ranked service provider, the Department believes it is in the best interest of the State to include AT&T Mobility and Sprint as authorized service providers to ensure perpetual competition, and to permit agencies to choose the service provider that provides the best value to the State.

NOW THEREFORE, in consideration of the mutual covenants and the promises contained herein, the parties agree as follows:

Contract 2.0 - TERM OF AGREEMENT

2.01 Initial Term

The initial term of this Agreement shall commence on the Effective Date. As such this contract will expire five (5) years after the effective date, unless sooner terminated in accordance with the provisions herein.

2.02 Renewal Term

Upon mutual agreement, the parties may renew the Agreement, in whole or in part, for renewal terms up to five (5) years. Each renewal shall specify the renewal price as set forth in the ITN response as reflected in Section 4.02 below. Each renewal must be in writing and signed by both parties, and is contingent upon satisfactory performance evaluations and subject to availability of funds.

2.03 Termination By the Department for Convenience

The Department may terminate this Agreement for convenience upon one hundred eighty (180) days' advance written notice to Service Provider when the Department determines in its sole discretion that it is in the State's interest to do so. In the event of a termination for convenience, Service Provider shall not be entitled to recover any cancellation charges or lost profits.

2.04 Termination By Service Provider for Unforeseen Circumstances

The Service Provider may deem it necessary from time to time to change or update certain procedures set forth in this Agreement in order to account for unforeseen circumstances or to more efficiently conduct its business. If the Department unreasonably rejects such change or update, then Service Provider may terminate this Agreement upon one hundred eighty (180) days' prior written notice. In the

event of a termination for unforeseen circumstances, Service Provider shall not be entitled to recover any cancellation charges or lost profits.

2.05 Termination for Cause

The Transition Period contract processes and requirements are different from those processes and requirements that will govern after the Transition Period ends. As such, it is the desire of the parties that, **for only the Transition Period**, the operational terms and conditions contained in the earlier agreements between the parties for Wireless Data Services, Contract No.: 03-STO-ITN-001 (MA4974) and Wireless Voice Services, Contract No.: 725-330-05-1, will apply to this Contract. Those operations terms and conditions are hereby incorporated into this agreement as **Exhibit 6**.

Upon any termination of this Agreement, Service Provider shall cooperate and use reasonable efforts to (i) assist the Department and SUNCOM Clients to minimize any impacts resulting from the termination and any transition to a new vendor; and (ii) offer the Services directly to any SUNCOM Client or End User who meets Service Provider's credit requirements and who enters into a contract for service with Service Provider.

2.08 Contract Documents

This Contract, together with the following documents, set forth the entire understanding of the parties with respect to the subject matter. In case of conflict, the terms of the Contract shall control. If a conflict exists among any of these documents, the documents shall have priority in the order listed:

- A. Any Amendments to the Contract.
- B. Contract and Exhibits 1 - 8.
- C. ITN No.: DMS-10/11-008, as amended.

Contract 3.0 - PROVISION OF SERVICE

3.01 Generally

Service Provider agrees to provide the Services in accordance with the specifications and requirements set forth in this Agreement.

3.02 Reports

The Service Provider shall provide monitoring tools with reporting functionality, if available, to the Department which monitors the defined SLA service parameters in accordance with **Exhibit 5**.

The reports referenced in **Exhibit 1**, **Exhibit 2**, and **Exhibit 5** (SLA Matrix) shall be provided by the Service Provider. The Service Provider shall submit reports in electronic format to the Department. The reports shall be due within a timeframe mutually agreed upon between the parties or no later than 30 days following the request from the Department. Any additional ad hoc reports requested by the Department shall be provided by the Service Provider upon mutual agreement of the format and within a timeframe mutually agreed upon between the parties.

3.03 Customer Care Services

Service Provider's technical support resources (call centers, website, etc.) shall be available to End Users and SUNCOM Clients for resolution of most Service-related issues. In addition, the Department and SUNCOM Clients will have access to a technical support desk as set forth in Section 6.03 below.

3.04 No Privity With End Users or SUNCOM Clients

Unless otherwise provided in this Agreement, Service Provider has no obligations to the End Users or SUNCOM Clients for the resolution of billing and account issues relating to the Service and shall not be authorized to send any bills for the Service to such End Users or SUNCOM Clients.

3.05 Right to Deactivation of Unused Accounts

The parties will cooperate to ensure that End User accounts do not lie dormant for extended periods of time (six months or more). Service Provider shall not deactivate such accounts until the Department has been given at least sixty (60) days to investigate and notify the SUNCOM Client. If circumstances warrant, the Department may require Service Provider to postpone the planned deactivation for some identified period of time.

3.06 Discounts

See **Exhibit 7** for details regarding discounts available to SUNCOM Clients, employees and retirees. Other terms and conditions of this Agreement do not apply to **Exhibit 7**.

Contract 4.0- PRICING

4.01 Rates

The full and complete prices for the Services are set forth on **Exhibit 3**, attached hereto.

4.02 Rate Increases

The rates set forth on **Exhibit 3** may not increase prior to January 1, 2014. Beginning January 1, 2014, Service Provider may increase the pricing subject to the following limitations: (i) the Department must be given at least one hundred eighty (180) days advance written notice of the exact amount of the price increase; (ii) no more than one price increase may be made in any twelve (12) month period; and (iii) the price increase may not exceed the most recent annual percentage increase in Consumer Price Index (CPI-W) for Urban Wage Earners and Clerical Workers, All Items, South Region (using the most recent twelve months of Labor Department statistics available at the time the notice was given). No retroactive price increases are allowed.

4.03 International Dialing Charges

Unless otherwise instructed by the Department, Service Provider shall not enable International Dialing (“IDIAL”) on End Users handsets. If international calling is enabled, Service Provider may reasonably restrict availability and may charge the Department at Service Provider’s standard international long distance rates, including toll charges. See definition for “International Dialing.”

4.04 Metering of Calls

The length of calls is generally measured from the time the End User presses the “SEND” key and ends when the phone device disconnects from Service Provider’s facilities or within one second after the End User presses the “END” key if sooner. When airtime is charged for feature use without radio airtime being used (such as Call Forwarding features), measurement is based on switch access time.

4.05 Metering of Data Usage

Service Provider monitors all data sent to and from the device which can include, Header, Payload, ICMP and retransmitted packets. Billable data is determined by data mediation which accounts for the specifics of the End Users rate plan. Data can be billed in kbps, mbps and Gbps depending on the End User specific rate plan. Billing will round up to the next kbps, mbps or Gbps specific to the End User rate plan. Branded/Package/Premium services may include unlimited usage for specific data use in which byte counts for the allowed unlimited data would be removed from the total byte count during data mediation.

4.06 Minimum Monthly Fee (MMF)

Every SUNCOM Client’s Service Account will incur a minimum monthly charge (as set in **Exhibit 3 - Price**) unless the Service Account’s utilization cost exceeds the Minimum Monthly Fee’s amount.

Contract 5.0 - EQUIPMENT

5.01 Responsibility for Obtaining Equipment

SUNCOM Clients and End Users shall be responsible for obtaining the equipment necessary to use the Services from Service Provider or third parties. The Department may impose reasonable policies respecting such equipment.

5.02 Network Compatibility

Pursuant to this Agreement, Service Provider agrees to offer equipment (including accessories) to SUNCOM Clients on the following basis:

- (i) Comparable Terms and Prices: The equipment models, standard prices and standard terms of sale shall be comparable to those offered to Service Provider’s largest customers in Florida.
- (ii) Minimum Discounts: Pricing shall reflect, at a minimum, the discounts set forth on **Exhibit 3 - Pricing** (Pricing for Equipment).
- (iii) Promotions: Service Provider may offer equipment sales promotions to SUNCOM Clients with the Department’s consent. If requested, the Department may (but is not required to) assist in publishing these promotions.
- (iv) Ordering Process: Service Provider may require SUNCOM Clients to follow reasonable procedures for ordering, receiving and paying for the equipment (e.g., a requirement that all

orders be placed through a designated account executive or toll-free number).

- (v) Cancellation Fees: Any applicable term commitments or early cancellation fees relating to service/equipment will be the responsibility of the Department.
- (vi) Warranties: Service Provider agrees to pass through to SUNCOM Clients any and all equipment vendor warranties (including battery) to the fullest extent allowed under applicable law.
- (vii) Americans with Disabilities Act: Service Provider shall identify any products that may be used or adapted for use by visually, hearing, or other physically impaired individuals.

5.03 Equipment Lists and Catalogs

The parties will cooperate in updating the equipment lists and catalogs set forth in Service Provider's response to the ITN. These updated lists and catalogs (with applicable pricing) shall be made available for viewing and ordering by SUNCOM Clients in accordance with **Exhibit 2 – Business Process and Operation**. Service Provider shall provide the Department with reasonable advanced notice (i.e., prior to the effective date) of any equipment included in the lists and catalogs which will be discontinued.

6.01 Generally

By the end of the Development and Preparation Phase contemplated in **Exhibit 2 – Business Process and Operation**, the parties will organize and set forth the requirements in a comprehensive Operational Guide which each party will follow in good faith. Changes in the Operational Guide may be accomplished and implemented by mutual agreement without a formal amendment to the Agreement.

6.02 Weekly Conference Calls

Service Provider shall participate in a weekly conference call with the Department to discuss and provide status on all open or unresolved issues related to the Services (including trouble tickets). It shall be the responsibility of Service Provider to coordinate and initiate the call at a time acceptable to the Department's staff. At the Department's discretion, the call frequency may be modified.

6.03 Helpdesk

To address issues relating to the Service or this Agreement that are beyond the expertise of Service Provider's standard customer care resources, Service Provider shall provide a centralized trouble reporting and maintenance system ("HelpDesk") for use by the Department and SUNCOM Clients.

Payment shall be made in accordance with State law, including Sections 215.422 and 287.0585, Florida Statutes, which govern time limits for payment of invoices. Invoices that must be returned to Service Provider due to preparation errors will result in a delay in payment. The Department is solely responsible for all charges billed under this Agreement, whether or not a SUNCOM Client has paid the Department for such charges.

7.03 Transaction Fee

The State has instituted MyFloridaMarketPlace, a statewide eProcurement System ("System"). Pursuant to Section 287.057(23), Florida Statutes, all payments shall be assessed a Transaction Fee of one percent (1.0%), which Service Provider shall pay to the State, unless exempt pursuant to Rule 60A-1.032, F.A.C.

For payments within the State accounting system (FLAIR or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to Service Provider. If automatic deduction is not possible, Service Provider shall pay the Transaction Fee pursuant to Rule 60A-1.031(2), F.A.C. By submission of these reports and corresponding payments, Service Provider certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.

Service Provider shall receive a credit for any Transaction Fee paid by Service Provider for the purchase of any item(s) if such item(s) are returned to Service Provider through no fault, act, or omission of Service Provider. Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item is rejected or returned, or declined, due to Service Provider's failure to perform or comply with specifications or requirements of the Agreement.

Failure to comply with these requirements shall constitute grounds for declaring Service Provider in default and recovering re-procurement costs from Service Provider in addition to all outstanding fees. SERVICE PROVIDERS DELINQUENT IN PAYING TRANSACTION FEES MAY BE SUBJECT TO BEING REMOVED FROM THE DEPARTMENT'S VENDOR LIST AS PROVIDED IN RULE 60A-1.006, F.A.C.

7.06 Proration of Charges

7.07 Charges Resulting from Lost or Stolen Devices

In the event an End User's or SUNCOM Client's voice or data transmitting device ("Device") is lost, stolen, or otherwise absent from the End User's or SUNCOM Client's possession or control, the Department shall nevertheless be liable for all charges attributable to the Device until it or the End User or SUNCOM Client notifies Service Provider during Business Hours of such loss, theft, or unauthorized absence, in which case the Department's liability therefore shall terminate at the earlier of (i) deactivation of the Device by Service Provider, or (ii) the end of four (4) Business Hours after such notification is received by Service Provider. Service Provider shall use reasonable efforts, taking into account all circumstances which shall include other operational demands placed upon its employees, to deactivate Service to the Device affected as soon as practicable.

7.08 Right of Offset

The Department may, in addition to other remedies available at law or equity and upon notice to Service Provider, retain from amounts due Service Provider such monies as may be necessary to satisfy any claim arising under (i) this Agreement, or (ii) any other liability or obligation of Service Provider or its affiliates to the State of Florida.

8.01 Trained Staff

The Department shall provide an adequate and properly trained staff to receive and investigate any complaints from its End Users or SUNCOM Clients relating to Service, and will report any trouble to Service Provider with respect to Service only upon reasonable verification that such trouble is due to reasons other than the misuse or malfunctioning of the End User's or SUNCOM Client's equipment or the failure of such equipment to meet the technical standards for compatibility with Service.

8.02 Responsibility for Actions or Omissions

The Department shall be solely responsible for all costs and expenses incurred in connection with its actions or omissions in the sale of Service or otherwise relating to this Agreement. The Department shall act in all respects on its own account, and shall be solely responsible for such things as billing, collection and, except as provided in Section 11 and **Exhibit 1 – Technical Requirements**, abuse or fraudulent use of any element of the Service, whether by the Department's employees or agents of the Department, an End User or a SUNCOM Client, or any third party (excepting only actions by Service Provider, Service Provider's agent or Service Provider's employees), provided Service Provider has followed the Department's instructions under this Agreement with respect to such use.

The parties will cooperate in advising each End User and SUNCOM Client of the following:

- (i) The availability of the Service is not assured at all times or places;

- (iii) End Users and SUNCOM Clients have no contractual relationship with Service Provider with respect to the Service; and

The above notice requirements may be satisfied by a reasonably placed posting on the Department's SUNCOM website.

8.06 Protection of Service Provider Marks

The Department recognizes the right, title, and/or interest of Service Provider (through ownership or license) to all service marks, trademarks, and trade names owned by or used by Service Provider (the "Marks"). The Department agrees not to, directly or indirectly, contest or otherwise impair such right, title, and interest of Service Provider. Pursuant to chapter 287, Florida Statutes, the Department engaged in a lengthy competitive bidding process to determine which solution offered the best value to the State of Florida. At the conclusion of the competitive bidding process, Verizon Wireless received the highest ranking on both the price and technical components of the ITN. See Exhibit 8. Pursuant to this Agreement, agencies are permitted to choose between the three vendors on the Agreement when making mobile communication purchases. However, agencies should follow their best practices in making the purchase decision, incorporating objective factors that include, but are not limited to, price, quality, design and workmanship.

8.08 Monitoring of Discretionary User Utilization

The Department shall monitor, on a quarterly basis, cumulative utilization of all the agreements resulting from the ITN by all users other than State Agencies (generally referred to as Discretionary Users). Service Provider shall make a good faith effort to promote the services as prescribed in the ITN. However, if utilization of all the agreements resulting from the ITN by Discretionary Users decreases by 10% or more cumulatively as verified by a joint study, the Department shall consider revising this Agreement to prevent the loss of Discretionary Users.

SERVICE PROVIDER'S LIABILITY FOR DAMAGES OR COSTS ARISING FROM ERRORS, OUTAGES, OR FAILURES OF SERVICE, LACK OF SECURITY IN USE OF SERVICE, OR DEFECTS OR MALFUNCTIONS OF THE FACILITIES, OCCURRING IN THE COURSE OF PERFORMING UNDER THIS AGREEMENT, REGARDLESS OF THE LEGAL BASIS FOR SUCH CLAIM, SHALL IN ANY EVENT BE LIMITED TO AN AMOUNT EQUAL TO THE PROPORTIONATE CHARGE TO THE DEPARTMENT FOR THE PERIOD OF SERVICE DURING WHICH SUCH ERRORS, OUTAGES, FAILURES, DEFECTS, OR MALFUNCTIONS OF EQUIPMENT OCCUR, SUBJECT TO THE ADDITIONAL LIMITATIONS BELOW. THE ABOVE LIMITATION DOES NOT INCLUDE ANY POTENTIAL LIABILITY FOR INTENTIONAL TORTS.

NO PARTY SHALL BE LIABLE TO ANOTHER FOR SPECIAL, INDIRECT, PUNITIVE, OR CONSEQUENTIAL DAMAGES, INCLUDING LOST DATA OR RECORDS (EXCEPT TO THE EXTENT THE SERVICE PROVIDER IS REQUIRED TO BACK-UP DATA OR RECORDS), EVEN IF THE PARTY HAS BEEN ADVISED THAT SUCH DAMAGES ARE POSSIBLE. NO PARTY SHALL BE LIABLE FOR LOST PROFITS, LOST REVENUE, OR LOST INSTITUTIONAL OPERATING SAVINGS.

THE DEPARTMENT ACKNOWLEDGES THAT SERVICE IS MADE AVAILABLE TO EQUIPMENT ONLY WHEN THE EQUIPMENT IS WITHIN OPERATING RANGE OF THE FACILITIES LOCATED WITHIN THE WIRELESS SYSTEM. SERVICE MAY BE TEMPORARILY REFUSED, INTERRUPTED OR LIMITED FOR MANY REASONS. INDIVIDUAL CONNECTIONS MAY BE "DROPPED" (I.E., INVOLUNTARILY DISCONNECTED) FOR A VARIETY OF REASONS AS WELL. FOR ALL CLAIMS AGAINST SERVICE PROVIDER RELATING TO THE SERVICES PROVIDED UNDER THIS AGREEMENT, AND REGARDLESS OF THE BASIS ON WHICH THE CLAIMS ARE MADE, THE SERVICE PROVIDER'S LIABILITY FOR DIRECT DAMAGES SHALL BE LIMITED TO \$1,000,000.

THESE LIMITATIONS SHALL NOT APPLY TO CLAIMS ARISING UNDER THE INDEMNIFICATION PROVISIONS IN THIS AGREEMENT, OR UNDER SECTIONS 15.10 (COMPLIANCE WITH LAWS) OR 15.11 (E-RATE) OF THIS AGREEMENT.

Contract 13.0 - INDEMNIFICATION

13.01 Indemnification

Service Provider shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless the State, the Department, the SUNCOM Clients and the End Users, and their officers, agents, and employees, from suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to the a breach of this Agreement by Service Provider. However, the foregoing shall not apply for that portion of any loss or damages proximately caused by the negligent act or omission of the State, the Department, a SUNCOM Client or an End User.

13.02 Conditions to Indemnification

Service Provider's obligations under the preceding paragraph with respect to any legal action are contingent upon the party seeking indemnification giving Service Provider (i) written notice of any action or threatened action, (ii) the opportunity to take over and settle or defend any such action at Service Provider's sole expense, and (iii) reasonable assistance in defending the action at Service Provider's sole expense. Service Provider shall not be liable for any settlement or compromise made by the State, the Department, a SUNCOM Client or any End User in any legal action without Service Provider's prior written consent, which shall not be unreasonably withheld.

The decision shall be final and conclusive unless within twenty one (21) days from the date of receipt, Service Provider files with the Department a petition for administrative hearing. The Department's decision on the petition shall be final, subject to Service Provider's right to review pursuant to Chapter 120 of the Florida Statutes. Exhaustion of administrative remedies is an absolute condition precedent to Service Provider's ability to pursue any other form of dispute resolution; provided, however, that the parties may employ the alternative dispute resolution procedures outlined in Chapter 120.

Without limiting the foregoing, the exclusive venue of any legal or equitable action that arises out of or relates to the Agreement shall be the appropriate State court in Leon County, Florida. In any such action, Florida law shall apply and the parties waive any right to jury trial.

Contract 15.0 – MISCELLANEOUS

In executing this contract, Service Provider certifies that it is not listed on either the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to section 215.473, Florida Statutes. Pursuant to section 287.135(5), Florida Statutes, Service Provider agrees the Department may immediately terminate this contract for cause if the Service Provider is found to have submitted a false certification or if Service Provider is placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List during the term of the contract.

15.02 Annual Appropriations

The State's performance and obligation to pay under this contract are contingent upon an annual appropriation by the Legislature.

15.03 Waiver

The delay or failure by either party to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of that party's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

15.04 Public Records

The Department may terminate this Agreement if Service Provider refuses to allow public access to all documents, papers, letters, or other material made or received by Service Provider in conjunction with this Agreement, unless the records are exempt from Section 24(a) of Article I of the State Constitution and Section 119.07(1), Florida Statutes.

15.05 Contractual Obligations

Neither party is authorized to act as an agent for, or legal representative of, the other party, nor shall either party have authority to assume or create any obligation on behalf of, in the name of, or that shall be binding upon, the other party.

15.06 No Subcontracting

The Service Provider may not subcontract any of the Services without the Department's prior written consent. The Service Provider shall not be released of its contractual obligation to the Department because of any subcontract.

15.07 Notices

Except as otherwise provided in this Agreement, all notices required or permitted to be given hereunder shall be in writing and shall be delivered (a) personally; (b) by certified mail, return receipt requested; (c) by an overnight courier service having a record of receipt; or (d) by facsimile, with a confirming copy sent by one of the other three methods described in this sentence. Notices shall be addressed as follows:

- (a) If to Department, notice shall be sent to the Contract Administrator and the Contract Manager (see Section 6.05 above).

If to Service Provider:

Basking Ridge, NJ 07920-1097

with a copy to:
Verizon Wireless
Attention: Area General Counsel
One Verizon Place
Alpharetta, GA 30004

Any party hereto may change its address by a notice given to the other party hereto in the manner set forth above. All notices shall be effective on receipt.

15.08 Force Majeure

The Contractor shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Contractor's control, or for any of the foregoing that affect subcontractors or Contractors if no alternate source of supply is available to the Contractor. In case of any delay the Contractor believes is excusable, the Contractor shall notify the Customer in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) days after the cause that creates or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) days after the date the Contractor first had reason to believe that a delay could result. THE FOREGOING SHALL CONSTITUTE THE CONTRACTOR'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against the Customer. The Contractor shall not be entitled to an increase in the Contract price or payment of any kind from the Customer for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor shall perform at no increased cost, unless the Customer determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State or to Customers, in which case the Customer may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers with respect to products subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the products that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

15.09 Ethical Responsibilities

Each party shall be governed in all its dealings with respect to this Agreement by the highest standards of honesty, integrity, and fair dealing. Notwithstanding, the Department shall meet the requirements of Chapter 112, Florida Statutes where applicable.

15.10 Compliance With Laws

Service Provider and the Department shall at all times comply in all material respects with all laws, rules, codes, ordinances, and licensing requirements and regulations applicable to the performance of this Agreement and the conduct of their business, including those of federal, State, and local agencies

having jurisdiction and authority. By way of non-exhaustive example, Chapter 287, Florida Statutes, and Chapters 60A-1 and 60FF, Florida Administrative Code, governs the Agreement. By way of further non-exhaustive example, Service Provider shall comply with Section 247A(e) of the Immigration and Nationalization Act, the Americans with Disabilities Act, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. Violation of such laws shall be grounds for Agreement termination.

15.11 E-Rate

The Schools and Libraries Program of the federal Universal Service Fund, commonly known as "E-Rate," is administered by the Universal Service Administrative Company (USAC), through its Schools and Libraries Division (SLD), under the direction of the Federal Communications Commission (FCC). The program provides discounts to assist most schools and libraries in the United States to obtain affordable eligible telecommunications, Internet access, and internal connections. SUNCOM Clients who have applied for E-Rate funding for eligible services and equipment from Service Provider are referred to herein as "E-Rate SUNCOM Clients."

Service Provider must have obtained or applied to obtain a Service Provider Identification Number (SPIN) from USAC prior to execution of the Agreement and shall provide relevant SPIN(s) to the Department. Service Provider also is required to submit a Service Provider Annual Certification (SPAC) (Form 473) to USAC each funding year to certify that it will comply with E-Rate rules and regulations. Service Provider shall maintain eligibility as an E-Rate service provider and shall avoid being placed on Red Light status by the FCC for the duration of the Agreement.

During the term of the Agreement, Service Provider shall be required to take all appropriate action to provide services in compliance with the terms and conditions of the Agreement and E-Rate rules and regulations. If Service Provider becomes ineligible as an E-Rate service provider during the term of the Agreement or becomes unwilling or unable to provide E-Rate eligible services in compliance with the Agreement and E-Rate rules and regulations, the Department and its E-Rate SUNCOM Clients shall change service providers and, if applicable, seek substitute services in accordance with applicable E-Rate rules and procedures. If during the term of the Agreement, due to circumstances within Service Provider's control, Service Provider becomes ineligible as an E-Rate service provider, becomes unwilling or unable to provide E-Rate eligible services in compliance with E-Rate rules and regulations or the Agreement, or violates E-Rate rules and regulations in a way that causes USAC to deny E-Rate SUNCOM Clients funding in whole or in part, the following shall apply:

- A.** Service Provider shall be liable for the actual direct damages incurred by the Department and any affected E-Rate SUNCOM Clients that have complied with the applicable E-Rate rules and regulations.
 - 1.** In the event that the Department and its E-Rate SUNCOM Clients change service providers and seek substitute services pursuant to the above paragraph, direct damages shall include but not be limited to any amounts paid to the substituted service provider above Service Provider's price under this Agreement. In the event the Department or such E-Rate SUNCOM Clients are unable to obtain USAC approval to change to the new provider as a provider under E-Rate rules and such USAC denial is a result of Service Provider's intentional acts, gross negligence, or willful misconduct, Service Provider will also be liable for the amount of E-Rate funding forfeited as a result.

2. Service Provider shall continue to provide the affected services to the Department and any affected E-Rate SUNCOM Clients until such time as the Department and any affected E-Rate SUNCOM Clients obtain services from a new service provider as set forth above (Transition Period). If the Department or E-Rate SUNCOM Clients are unable to obtain E-Rate funding for the Service Provider services for the Transition Period as a result of Service Provider's intentional acts, gross negligence, or willful misconduct, the Department and E-Rate SUNCOM Clients will not be responsible to pay Service Provider for the amounts left unfunded by E-Rate for that Transition Period.
3. If Service Provider violation of the E-Rate rules and regulations is a reason for E-Rate SUNCOM Clients' loss or forfeiture of E-Rate funding, in whole or in part, the value of the lost funding associated with Service Provider violation will be considered direct damage under this subparagraph A..

In no event shall Service Provider be liable for direct damages as set forth in 1. or 3. above or be required to perform as set forth in 2. above, beyond the last day of the E-Rate funding year in which Service Provider becomes ineligible as a provider under E-Rate, becomes unwilling or unable to provide E-Rate eligible services in compliance with E-Rate rules and regulations or the Agreement, or violates E-Rate rules and regulations in a way that causes USAC to deny E-Rate SUNCOM Clients funding in whole or in part.

In addition, for purposes of clarification and to avoid confusion, the Department will not hold Service Provider responsible and Service Provider will not be liable pursuant to subparagraph A. above, if Service Provider becomes ineligible as an E-Rate provider during the term of the Agreement, becomes unwilling or unable to provide E-Rate eligible services in compliance with E-Rate rules and regulations or the Agreement, or violates E-Rate rules and regulations in a way that causes USAC to deny E-Rate SUNCOM Clients funding in whole or in part, due to circumstances that are determined to be beyond Service Provider's control.

In recognition of the lead time required to apply for E-Rate funding, existing E-Rate clients shall be entitled to continue utilizing the previous agreements as incorporated into this Agreement as **Exhibit 6**, currently in effect between the State of Florida and Service Provider until the end of the 2012-2013 E-Rate funding year, in the event the parties mutually agree that E-Rate funding is determined by the parties to be in jeopardy.

B. Invoicing. The Department acknowledges that it has posted an E-Rate Form 470 in connection with the procurement, which is a prerequisite to E-Rate eligible entities utilizing the Agreement awarded as a result of the procurement as the basis of E-Rate funding applications. Additionally, the Department acknowledges that some SUNCOM Clients may be eligible and apply for discounts under E-Rate. Both Service Provider and the Department agree that:

1. E-Rate has specific rules and regulations regarding the manner in which USAC and SLD approve funding requests, are presented billing and conducts audits in connections with funding under the E-Rate program; and
2. In order to ensure that the billing mechanisms and processes established pursuant to this Agreement with respect to the applications of SUNCOM Clients for discounts under the E-Rate program are in compliance with the E-Rate program requirements and

regulations, the duties and responsibilities of each party are set forth in Section 5.07.06 (Invoicing) of **Exhibit 2 – Business Process and Operation**.

15.12 Advertising

Subject to Chapter 119, Florida Statutes, Service Provider shall not publicly disseminate any information concerning the Agreement without prior written approval from the Department, including, but not limited to mentioning the Agreement in a press release or other promotional material, identifying the Department or the State as a reference, or otherwise linking Service Provider's name and either a description of the Agreement or the name of the State, the Department or any SUNCOM Client in any material published, either in print or electronically, to any entity that is not a party to Agreement, except potential or actual authorized distributors, dealers, resellers, or service representative.

15.13 Assignment

No rights or obligations hereunder shall be assigned or delegated, in whole or in part, by either party to any other person, firm, corporation, or other entity without the other party's prior written consent, which consent will not be unreasonably withheld. Notwithstanding the foregoing, Service Provider may assign this Agreement to an entity to whom the outstanding common stock or substantially all the assets of Service Provider are transferred after first receiving FCC and other necessary governmental approvals. For purposes of this provision, any change in the ultimate control of a party, by stock sale, merger, consolidation, or any other means, shall constitute an assignment subject to the consent requirements hereof.

15.14 Employees, Subcontractors, and Agents

All Service Provider employees, subcontractors, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Service Provider shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under the Agreement must comply with all security and administrative requirements of the Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement. As required by law, the State may conduct, and Service Provider shall not impede, a security background check or otherwise assess any employee, subcontractor, or agent furnished by Service Provider. The State may refuse access to, or require replacement of, any personnel for cause, including, but not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with a Department's security or other requirements. Such approval shall not relieve Service Provider of its obligation to perform all work in compliance with the Agreement. The State may reject and bar from any facility for cause any of Service Provider's employees, subcontractors, or agents.

15.15 Governmental Restrictions

If Service Provider believes that any governmental restrictions have been imposed that require alteration of the material, quality, workmanship or performance of the products offered under the Agreement, Service Provider shall immediately notify the Department in writing, indicating the specific restriction. The Department reserves the right and the complete discretion to accept any such alteration or to cancel the Agreement at no further expense to the Department.

15.16 Lobbying and Integrity

The Service Provider shall not, in connection with this or any other agreement with the State, directly or indirectly (i) offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for any State officer or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (ii) offer, give, or agree to give to anyone any gratuity for the benefit of, or at the direction or request of, any State officer or employee. For purposes of clause (ii), "gratuity" means any payment of more than nominal monetary value in the form of cash, travel,

entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. Upon request of the Department's Inspector General, or other authorized State official, Service Provider shall provide any type of information the Inspector General deems relevant to Service Provider's integrity or responsibility. Such information may include, but shall not be limited to, Service Provider's business or financial records, documents, or files of any type or form that refer to or relate to the Agreement. The Service Provider shall retain such records for the longer of (i) three years after the expiration of the Agreement or (ii) the period required by the General Records Schedules maintained by the Florida Department of State (available at: <http://dhis.dos.state.fl.us/barm/genschedules/gensched.htm>). The Service Provider agrees to reimburse the State for the reasonable costs of investigation incurred by the Inspector General or other authorized State official for investigations of Service Provider's compliance with the terms of this or any other agreement between Service Provider and the State which results in the suspension or debarment of Service Provider. Such costs shall include, but shall not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Service Provider shall not be responsible for any costs of investigations that do not result in Service Provider's suspension or debarment.

15.17 Warranty of Ability to Perform

The Service Provider warrants that, to the best of its knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish Service Provider's ability to satisfy its obligations hereunder. The Service Provider warrants that neither it nor any affiliate is currently on the convicted vendor list maintained pursuant to Section 287.133, Florida Statutes, or on any similar list maintained by any other state or the federal government. The Service Provider shall immediately notify the Department in writing if its ability to perform is compromised in any manner during the term of the Agreement.

15.18 Modification of Terms

The Agreement contains all the terms and conditions agreed upon by the parties, which terms and conditions shall govern all transactions between the Department and Service Provider. The Agreement may only be modified or amended upon mutual written agreement of the Department and Service Provider. No oral agreements or representations shall be valid or binding upon the Department or Service Provider. No alteration or modification of the Agreement terms, including substitution of product, shall be valid or binding against the Department. The Service Provider may not unilaterally modify the terms of the Agreement by affixing additional terms to product upon delivery (e.g., attachment or inclusion of standard preprinted forms, product literature, "shrink wrap" terms accompanying or affixed to a product, whether written or electronic) or by incorporating such terms onto Service Provider's order or fiscal forms or other documents forwarded by Service Provider for payment. The Department's acceptance of product or processing of documentation on forms furnished by Service Provider for approval or payment shall not constitute acceptance of the proposed modification to terms and conditions.

If a SUNCOM Client or the Department previously entered into a written agreement for the purchase of any Service from Service Provider, the provisions of such earlier agreement shall be subject to the terms for transition as set forth in **Exhibit 2 – Business Process and Operations** and no early cancellation fees shall apply.

- B. There is no obligation on the part of the County to award the bid to the lowest bidder, and the County reserves the right to award the bid to bidder submitting a responsive bid with a resulting negotiated agreement which is most advantageous and in the best interest of Okaloosa County, and to reject any and all bids or to waive any irregularity or technicality in bids received. Okaloosa County shall be the sole judge of the bid and the resulting negotiated agreement that is in its best interest and its decision shall be final.

Each item must be bid separately and no attempt is to be made to tie any item or items to any other item or items.

15. **Authority to Piggyback:**

All bidders submitting a response to this Invitation to Bid agree that such response also constitutes a bid to all governmental agencies under the same conditions, for the same contract price, and for the same effective period as this bid, should the bidder feel it is in their best interest to do so.

Each governmental agency desiring to accept these bids and make an award thereof shall do so independently of any other governmental agency. Each agency shall be responsible for its own purchases and each shall be liable only for materials and/or services ordered and received by it, and no agency assumes any liability by virtue of this bid.

This agreement in no way restricts or interferes with the right of any governmental agency to bid any or all items.

16. **No Bid:**

If not submitting a bid, respond by returning this bid, marking it "NO BID" and explain the reason. Repeated failure to quote without sufficient justification shall be cause for removal of the supplier's name from the bid mailing list. **NOTE:** To qualify as a respondent, bidder must submit a "No Bid" and it must be received no later than the stated bid opening date and hour.

17. **Termination of Contract:**

The contract may be terminated in its entirety upon thirty (30) calendar days prior written notice by either party to the other.
