Cc: #ILS Bids &lt;ilsbids@ingramcontent.com&gt;, "Shaw, Kathryn" &lt;Kathryn.Shaw@ingramcontent.com&gt;, "Dunlap, Regina" &lt;Regina.Dunlap@ingramcontent.com&gt;, "Spurlock, Tammy" &lt;Tammy.Spurlock@ingramcontent.com&gt;

Good Afternoon,

Ingram is grateful for the chance to clarify the bid response further. Below is a list of all of the items and our responses. Please let us know whether this information is acceptable or if Ingram should submit a revised response to include the information after you've reviewed it.

1. The panel has reviewed the request of ILS that the correct Virginia contracting party(ies) be referenced consistently throughout the resulting contract (e.g., is it "Library of Virginia", "LVA" / "Commonwealth of Virginia", "Commonwealth" and/or "MALiA"?). The contract will reference names as used throughout the contract.
  - a. Ingram understands these various references will remain unchanged.
2. The panel will include a list of terms as requested by Ingram.
  - a. Ingram appreciates Malia's agreement to supply of the definition of terms.
3. The panel would like Ingram to note the VI. Reports – B Use of Subcontractors – The report is only due if your Attachment E – Small Business Subcontracting Plan indicates you are subcontracting. If you have indicated that you will provide services in-house, no reporting is required.
  - a. Ingram understands no change to VI. Reports section C. in necessary if work is going to be performed by subcontractors as noted in section B. Since Ingram will not be utilizing Subcontractors then no change will be necessary to section C.
  - b. Please confirm this item expresses that no adjustments to section C are required because the stated subcontractors in section B are not being used.
4. Panel will remove language as indicated in regards to Q. Taxes.
  - a. Ingram acknowledges and appreciates the requested language removal.
5. Attachment B – 1. Company Data - Page 30, question 8F – Panel would like clarification if Playaway devices may be required.
  - a. Playaway devices include the supplier provided player device.
6. Attachment B – 1. Company Data - Page 32, Question 9A – Panel would like "Audiobook" replaced with Music CD.
  - a. Ingram represents more than 127 Music publishers and over 315 imprints.
    - i. Will Malia accept the change as noted here? If not, will revised submission of the relating page be accepted or is revision of the full RFP with this change required?

7. Attachment B – II. Orders and Fulfillment - Page 51, Question 2 – Panel would like clarification when discount will be applied to an order (e.g. at time of shipment/invoice/other)
- a. When you are ready to place your order, you can simply click the standard Order button for that list. ipage then prompts you to complete additional order details, such as shipping instructions, warehouse selection, backorder instructions, PO Number, etc. Discounts are applied at the time of order unless the title classification or publisher list price changes prior to shipping.

Please note that publishers set list prices, these prices can change without notice in the interim between using the Price This List function, placing an order, and Ingram processing and invoicing that order. Therefore, to “lock in” the current title price and discount for up to 60 days, [we recommend our Get a Quote functionality available on ipage®](#).

8. Attachment B – II. Orders and Fulfillment - Page 59, Question 11 – last paragraph: Panel would like “turn timer” to be changed to “turnaround”
- a. If the Library has a different definition for Rush Orders, such as items that receive cataloging and processing but that have a faster turnaround than your stated standard 30 days, we are happy to discuss how we can profile your account(s) to meet your requirements.

- i. Will Malia accept the change as noted here? If not, will revised submission of the relating page be accepted or is revision of the full RFP with this change required?

9. Attachment B – III. Invoices and Payment - Page 68, question 7 (Addendum #1 to All Bidders) and Discount Terms & Summary – payment terms (page 90 of your proposal) - Panel would like Ingram to commit to no late charges until 45 days from statement date (to give libraries approximately 60 days to get through payment process). Provide information on how late charges will be calculated.
- a. Ingram has recently removed the application of late fees to libraries.

- i. ~~Remarks: Ingram reserves the right to assess a late charge on all past due invoices.~~

- ii. Will Malia accept the change as noted here? If not, will revised submission of the relating page be accepted or is revision of the full RFP with this change required?

10. Attachment B – IV. Overall Cost Consideration - Page 71, Question 2: Prices quoted in contract must remain in effect for the life of the contract. If full-text review fees are subject to change on an annual basis, do not quote prices.
- a. If a Library wishes to view full-text reviews, there is a nominal annual fee for that additional service. The Library also has the option of paying in monthly installments. Price of reviews is subject to change on an annual basis.

- i. Will Malia accept the change as noted here? If not, will revised submission of the relating page be accepted or is revision of the full RFP with this change required?

11. Attachment B – IV. Overall Cost Consideration – page 71 – Question 2 – Panel is requesting fuel charge to be removed.

- a. Ingram quoted the fuel surcharge at \$2.00. The fuel surcharge will be increasing to \$2.50 this month. Ingram will honor the quoted \$2.00 for the duration of the initial contract period.

12. Attachment B – IV. Overall Cost Consideration - Page 73, question 6 Remarks – Panel would like removal of the flat \$6 shipping fee for <15 units:

a. The freight terms offered in our RFP response are similar to the current terms Malia has with Ingram.

Our distribution centers have continued with no reduction in operations. They are hiring in all locations across the U.S. We continue to work with publishers in creative ways to make sure we can stock the books and other materials your patrons want. However, during this time, prices have risen on almost everything we need to keep our materials moving, especially fuel and shipping charges.

2012	4.90%

13. Attachment C, I. Print Books, page 35, question 4: Panel would like clarification on what Short and Net cover.

The Ingram Collection Development department curates, maintains, and manages 22 New Title Notification/Standing Order Programs that help libraries easily track and order forthcoming titles from bestselling authors for all ages: Easy Reader series, Fiction, Nonfiction, and Graphic Novel series for all ages; Nonfiction and Travel Continuations; ReviewALERT<sup>SM</sup> Programs for Adult and Youth; hand-selected Programs for Board Books, Picture Books, Adult & Youth Nonfiction, paperback original Adult Fiction, and mass market genre Fiction; a popular video Program; an awards & state lists Program; and Ingram’s proprietary build-your-own New Title Notification/Standing Order Programs, iSelect®.

Public library surveys have ranked Ingram’s New Title Notification/Standing Order Programs have been ranked as the best because they offer several advantages unmatched in the library market:

- ✓ Convenient: You can manage your profiles online through ipage® 24/7, and changes to the enrollment profile take effect immediately with no waiting.
- ✓ Current: Ingram librarians and administrators’ hand-select and maintain offerings to ensure that we include only active offerings. We know that libraries do not want to tie up their

budgets with titles that will never publish because they're associated with old offerings, so we meet and work with publishers constantly to stay on top of publishing news.

- ✓ Commitment-Free: With Ingram, you will not receive titles unexpectedly in your library. Customers can enroll in either Auto-ship, which delivers a list to ipage® and allows two weeks for editing before the order is automatically placed. Most titles are ordered 2-3 months prepublication (sometimes up to 6 months for the most popular authors), and you may also cancel backorders at any time before they arrive in our warehouses. Customers who enroll in Report Only receive lists and are free to edit and order on their own time schedule. In addition, Ingram does not alter the return policy on titles that are ordered through our New Title Notification/Standing Order or Continuation Programs—it is the same return policy no matter how you order or learn about the title.
- ✓ Complimentary: Unlike some vendors, Ingram never reduces the discount or elevates the pricing on titles that run on a New Title Notification/Standing Order Programs. Our 22 New Title Notification/Standing Order Programs truly are complimentary with no hidden costs.
- ✓ Customizable: Customers can mix-and-match Program profiles an infinite number of ways to ease their workflow and ordering process. Each profile can be renamed to prevent confusion. For example, someone could enroll in the Author (Adult) Program, rename it *Adult Fiction Hardcover*, and select only the hardcover bindings on the authors they want. They could then create a separate profile, rename it *Adult Large Print*, and select only the large print formats on the authors they want.

Our Programs allow line-item grids, so if a library always wants specific branch allocations and funding codes on a specific author and different ones on another, they simply select the correct grid for each offering in the enrollment form. When the lists are delivered, the correct grids will be applied already. Although libraries are always encouraged to review their Program lists, many Author (Adult) and Nonfiction and Travel Continuations customers with line-item grids set up simply allow the lists to automatically order in the background.

- ✓ Customer Service: Two long-tenured Customer Service Administrators provide special customer service for New Title Notification/Standing Order Programs. Although our Programs are organized and automated enough that most libraries self-serve, our Administrators help libraries daily with everything from routine enrollment edits or cancelling or changing quantities on backorders to onboarding all the New Title Notification/Standing Order programs enrollments from another vendor or answering specific questions about why a title did or did not run on a Program.
- ✓ Comprehensive: Ingram provides 22 New Title Notification/Standing Order Programs for Children, Teens, and Adults in multiple formats to cover the entire library:

### Programs—Adult

**Author Fiction (Adult)**—Provides the latest hardcover (and large print & audiobook) releases from customer-selected bestselling adult Fiction authors—our most popular Program. Program runs twice a month and includes titles up to 6 months prepublication.

**Collection Development Services**

Ingram’s Collection Development team includes 11 MLS-degreed librarians and managers, 4 long-term publishing industry expert administrators, and 1 data manager partway through her library degree. Our 11 librarians each have at least five years of public library collection development experience, and the Collection Development team has almost 300 years of library and/or publishing experience combined. Team members have participated in local, state, and national library conferences at which they presented on collection development, forthcoming books, picture books, selection tools, library marketing, Dewey versus BISAC organizational schema, library technology, handling difficult patrons, library staff development, and more.

The Collection Development team is well-known for top quality selection lists for Opening Day Collections (ODCs) and ad hoc lists, and libraries have purchased Ingram’s custom Collection Development services for projects when lists from other vendors were unsatisfactory. Ingram’s MLS-degreed librarians and program administrators work with you to select materials and develop your collections. With their public library selector experience and ability to track trends that can impact reading behavior, they identify titles you need for a well-balanced, diverse, relevant, high-circulating collection.

Ingram offers a wide range of cutting-edge and comprehensive Collection Development services, branded as iCurate<sup>®</sup>. We group iCurate<sup>®</sup> into five overarching services reflecting the careful work of MLS-degreed librarians rather than canned lists and automated queries—No Robots Here!

Our Collection Development Librarians have built and daily maintain a proprietary database with value-added data such as diverse title distinctions, assigned genre, and state interest, along with more standard metadata. We meet with large and small publishers throughout the year to learn about forthcoming titles, publicity, and other important publisher news. We use data-driven reports to identify titles before they become popular in libraries, because Ingram is the main provider of books to bookstores, large retail stores, and online booksellers.

Ingram's Collection Development services include:

For customers who like to find titles serendipitously in ipage®, we created an “Expertly Curated” icon that appears under a title in your Search Results or Selection Lists and that indicates a title from one or more of our Curated Lists. Within the title detail page, you can view lists on which the title appears and click directly into any of those featured lists. So, for example, if interested in the book *Little You* because you are searching for Indigenous Peoples Board Books, you can click straight into the *Indigenous Peoples Board Books* Curated List and instantly find 18 other quality titles.

### iCurate® *Coming Soon*: Forthcoming Monthly Title Subscription

Easily manage new and forthcoming titles with Ingram’s suite of librarian-curated lists delivered on the first of every month within ipage®. Featuring far more than simply the bestsellers, this annual subscription offers three size options by category so you can efficiently maintain a relevant collection by allowing our librarians to do the heavy lifting.

Our collection development librarians stay on top of publishing and cultural trends and use their public library experience to tailor each list to include what they would want in their own public library collection to increase circulation. Lists are balanced according to the needs of a typical American public library—more Picture Books than Board Books, more YA Fiction than YA Nonfiction, and more Adult Nonfiction 600s than 400s, as examples. Lists also reflect publishing-industry schedules and the seasonality of different subjects throughout the year, and therefore, include more titles in October than in February.

You can subscribe to Adult, Children’s, and/or Teen lists and mix-and-match small, medium, and large lists within each age category—there is no price difference between sizes, and you can change the size at any time. Get lists in the following subjects:

Ingram’s iCurate® *Coming Soon* features an **Enhanced Duplication Management** tool in ipage®, available exclusively for *Coming Soon* subscribers. This tool allows libraries to manage duplicates on customer-created and Ingram-delivered Selection Lists, iCurate® *Complimentary* Curated Lists, and in Search Results quickly and easily. It allows users to filter Selection Lists and Search Results to include or exclude titles already on another Selection List(s), Ordered from Ingram, and/or in their Holdings (if submitting holdings to Ingram via Z39.50).

1. [Search results and Ingram Curated Lists](#) (hiding duplicates) – When the user searches and gets a list of results or views the iCurate® *Complimentary* Curated Lists in ipage®, *Coming Soon* customers see on the left side of the screen an additional set of options for filtering.

**Manage Duplicates:**

Under **Manage Duplicates**, users can *Exclude* from view titles on a Selection List, Ordered from Ingram, or in their library’s Holdings (if participating). This is a quick, easy way to eliminate those titles from Search Results or from the Curated Lists so that you do not inadvertently add duplicates to a list you are creating.

2. [Selection Lists](#) (deleting duplicates) – In a Selection List (customer-created or Ingram-created, such as iCurate® *Coming Soon* or New Title Notification/Standing Order Programs lists), users can filter to *include* duplicates to make it easier to remove them from their Selection List. Once

your list displays only the duplicates, you can then choose with a simple click to delete all visible titles from your selection list or to review each one and hit the delete icon only where desired. The icons showing on which Lists each title is duplicated help you determine if duplication is merited.

Introduced at PLA 2020, iCurate® *Coming Soon* attracted the attention of busy librarians and has garnered praise for its quality and comprehensiveness: “I am already happy with the titles I wouldn’t normally see in my review lists. Gathering these titles would require extra work and time I rarely have. A+!” (Jeremy Bloom, Lincoln Parish Library)

Your iCurate® *Coming Soon* lists will never duplicate each other, so you will never see the same title run multiple times on a list or on multiple lists. To maintain affordability, *Coming Soon* lists reflect binding preferences of most of our customers:

1. Hardcover
2. Trade Paperback
3. Library Binding
4. Mass Market Paperback

Lists do not include reprints unless truly a new edition with updated content.

The iCurate® *Coming Soon* subscription ensures you don’t miss big titles. At the same time, it balances the midlist and other parts of your collection, capturing titles that unexpectedly pop as they are being released. To that end, we create *Coming Soon* lists using a rolling set of publication dates (Last Month + Current Month + 3 Months). The bulk of the list comprises titles with the latest publication month available (for example, October titles in the July 1 lists); titles from other months in the date range may also be included based on predicted popularity and review coverage. Drop-in titles are included to be sure your library sees popular titles you will not want to miss. These are titles our librarians believe are necessary to build a balanced collection over the course of the year. They include bestsellers as well as standard titles and topics needed to round out a typical public library collection.

Want to keep your Author New Title Notification/Standing Order Programs with its line-item grids and other New Title Notification/Standing Order Programs that work well for your needs while still avoiding duplicates? The Enhanced Duplication Management feature makes that easy.

### **iCurate® Core: One-Time Gap Analysis**

From time-to-time, our collections get out of balance or are missing key titles or even sections. At other times, we just want to know how healthy our collection is.

Ingram's Collection Development librarians have all worked in public libraries and have struggled with these issues first-hand. Thus, we created iCurate® Core: Essential Collection Gap Analysis for the public library. This service allows a library to rebalance their Adult, Teen, and/or Children's collections with a one-time list suite of essential titles currently missing.

The iCurate® Core service provides a one-time set of lists that include classics, standards, evergreen titles, and new, popular titles a public library should own, compared to an author/title match of your submitted holdings, to identify which titles missing from your collection. Our team of experienced, MLS-degreed librarians create these lists.

The lists come in an Excel list format with value-added information and estimated actual customer pricing to make it easier to budget. Besides standard fields such as title, author, publisher, EAN, Dewey, BISAC, pricing information, and more, iCurate Core lists include fiction genre category and public library ranking to help prioritize purchases. We mark your holdings so that you can determine if you want to purchase additional copies of a title or to replace a worn copy, and you can order via your usual means or by emailing the spreadsheet to Ingram's Customer Care team.

We match your holdings by author/title, so that titles you already own in a different binding, such as hardcover versus paperback, show as held. Occasionally metadata may not match between bindings, or

an EAN in your catalog has been out of print long enough that it no longer exists in our database. In those cases, we will not be able to match different bindings, and the title on your list may appear as un-held.

You can purchase iCurate *Core* lists one time, every few years, or annually. They provide a starting point to show which essential and currently popular titles are missing so that you do not have to spend weeks or months analyzing the collection and searching for replacement titles. You can also use them annually to replace essential items weeded due to condition.

**iCurate® *inClusive*: Diversity Audits Made Easy**

Winner of the top award placement from LibraryWorks in its eighth annual Modern Library Awards (MLAs) for 2022.

Books offer children and adults mirrors to see themselves in what they are reading, and windows to see others in what they read (Rudine Bishop). According to *School Library Journal*, almost 95% of librarians agree that having a diverse collection is either important or very important.

At the same time, the publishing industry acknowledges a lack of diverse voices, editors, and leaders, and standard metadata rarely helps identify diverse titles. As a result, diversity audits of a collection are typically manual, time-consuming, and tedious.

With iCurate® *inClusive*, a library purchases a one-time assessment of the diversity of their holdings. They email their holdings EANS to Ingram, and within two weeks, they receive eye-catching reporting on the diversity of their collection for their library board or funding agency. In addition, they receive lists of missing diverse titles most popular in public libraries.

Purchase options include Adult, Children's, Teen, or a bundle of All Ages and come with the following:

- More than 60 charts and graphs showing the diversity of your collection compared to the top 5% of titles sold into public libraries. These provide context in each subject area, age range, and overall collection, including the following diversity categories:
  - Asian Interest
  - Black Interest
  - Indigenous Interest
  - Jewish Interest
  - Latinx Interest
  - LGBTQIA+
  - Mental Health
  - Middle Eastern Interest
  - Multicultural
  - Muslim Interest
  - Neuro and Physical Diversity

We base diversity categories on interest and content rather than solely on author identification, which is not always readily available, accurate, or discernable.

- Excel spreadsheet that you can edit, filter, sort, and duplicate with 24 subject breakouts that include the number of diverse titles currently in your collection in each diversity category. This allows you to track and enter new purchases to create “after” reporting.

Diversity is at the forefront of Collection Development and collection development policy in the US, but publishing is not diverse enough for things to “just work out.” By purchasing *inClusive*, you can spend the bulk of your money on filling in diverse title gaps rather than on extravagant fees for other reporting and analysis services, or on extra payroll for a lengthy internal diversity audit process. Let Ingram do the work for you.

Ingram’s Collection Development librarians have for years assigned value-added metadata in our applications. We have also ingested out-of-print holdings from the largest libraries in the country to make sure our reporting is as accurate and thorough as possible, even on older collections. This

groundwork makes future title/author matching more complete should these titles come back into print, since the value-added information already exists in our database.

See Ingram's Cost Proposal for pricing.

#### **iCurate® Custom: Ad Hoc Lists**

Ingram's MLS-degreed Collection Development librarians create one-time targeted custom lists for libraries with grants, end-of-year spend budgets, or unexpected funds, and who need lists of titles unavailable in iPage® Curated Lists that are also difficult to search for in iPage®.

Generally, we design custom lists around specific collection areas -- such as large Urban Fiction, African Diaspora Biographies, Parenting Collections, Job Searching & Interviewing, Immigration Assistance, etc.- and involve a known purchasing commitment the customer plans to make with Ingram.

To begin a complimentary ad hoc project, libraries can contact their sales representative, who then gathers pertinent information, such as subject(s), budget, project deadline, preferred publication date range, binding preference, and other pertinent information.

Ingram's Collection Development librarians have extensive experience creating custom lists and have created them for topics ranging from religious books for the Qatar National Library to a large librarian professional development collection for a public library in Florida, to a marijuana collection in a public library in Colorado shortly after cannabis legalization. With Ingram, it's easy. Custom lists are complimentary when customers purchase books solely from Ingram.

#### **iCurate® Custom: Opening Day Collections (ODCs)**

Undertaking a library expansion can be a massive endeavor. From selecting an architect to anticipating delivery dates, the magnitude of such a project can feel overwhelming.

Ingram Library Services created the **READY** program for ODCs to help simplify these large collection projects. When you get **READY** with Ingram, you can relax, knowing your collection development partner is an expert ODC management team.

With **READY**, we have combined **R**eliable Specialists, **E**xpert Collection Development Librarians, **A**ccurate Cataloging and Processing, and **D**etailed Delivery Arrangements into one seamless process. **Y**ou can rest easy.

titles match your classification requirements. This truly customized C&P means your titles arrive shelf-ready, exactly as needed, and circulate as soon as possible.

Once processed titles pass quality control inspection, we proceed with a fine-tuned operation for sorting, organizing, boxing, protecting, and scheduling transport of your collection materials. We ship at your discretion and coordinate delivery procedures that include options for shelving and unboxing.
- **You Rest Easy:** Whether you need 1,000 or 1,000,000 titles, our aim is that you be confident on Opening Day. We manage and ship your order, based on your specifications, with utmost care, but reliable service does not end at delivery. We also follow up to answer your questions and to continue to fulfill your needs.

Ingram's proprietary *ODC Handbook* helps you manage each important step of the project, from budgeting, to allocating shelf space, to celebrating milestones. It's a guide that helps ensure a successful project as well as a reporting tool to keep your administration and funding partners informed. We know the collection is just one part of a building, renovation, or refresh project, but we want to make sure that you do not have to sweat the details alone.

At the beginning of the ODC process, we assign an Ingram Project Manager to serve as your dedicated partner throughout. The Project Manager brings together other Ingram staff members who are experts in their areas, such as Collection Development, Cataloging, and Logistics. Together, they execute the project on your timeline and within your budget. The Project Manager ensures that no detail is forgotten and no surprises appear along the way. We know your time will be stretched during this project because your day-to-day activities still demand your attention. Therefore, we ensure you can stay focused on your primary job while we make sure everything stays on track. We will notify you with any need to adjust expectations based on construction delays, funding changes, or other unscheduled events.

Behind your Project Manager is a team of Collection Development librarians, experienced catalogers, and processing professionals, we can serve as additional staffing so that your project goes smoothly from concept to opening day. We want you to consider our staff as an extension of your local team, eager to make your project successful.

We know that every ODC project is different, things often change mid-stream, and unforeseen events occur. We work with you through all contingencies.

The opening of a library is a complex process involving many moving parts, and Ingram Library Services strives to deliver the best ODC to each of our library customers.

- ✓ The selection lists (carts) generated will be the highest quality with the most relevant information presented. Our Collection Development librarians create the lists only after a complete and thorough understanding of the library community and patronage being served. Our goal is that 50% of the selected material circulates in the first 180 days after opening day.
- ✓ We process and catalog materials to your specifications for each material type and collection area. Ingram's Account Services team works to thoroughly understand all specifications and to address any anomalies. We strive for 100% accuracy of Cataloging & Processing for every ODC that we deliver.
- ✓ We deliver on the date and to the location you specify. Ingram ensures a professional delivery in compliance with your wishes. Ingram will have personnel on-site for delivery.

If we do not already catalog & process your materials, or if your ODC requires cataloging and/or processing services different from those you typically receive, we ask that you complete a C&P portal at the beginning of the project. Your Project Manager can assist you with completion of the portal and with

your accounts set up, both of which provide a detailed analysis of your project’s C&P requirements. Before beginning the C&P process, we provide sample items to ensure accuracy and functionality.

Once we complete your C&P specifications, you then complete a Collection Development profile to establish parameters and details of your project.

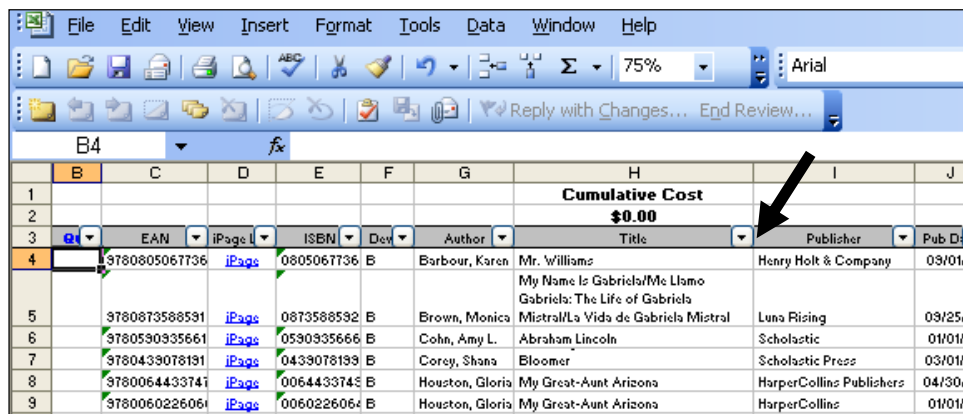

After you complete your profile, Ingram’s Collection Development team schedules a conference call with your staff to discuss your preferences for your lists. Lists are split according to C&P requirements and/or your preferences.

We help you create a timeline for each task while accommodating your needs and ensuring materials arrive by your target date.

Ingram’s experienced librarians create selection lists based on a popular collection, unless otherwise directed by the customer. We are happy to consult with your selectors to discuss your library’s collection development philosophy before deciding on an appropriate mix of titles for your lists.

To allow for purchasing flexibility, we create ODC selection lists with material costs approximately one and a half times your stated dollar amount or units.

We deliver lists via Excel spreadsheets with sorting and filtering capabilities. Spreadsheets contain standard metadata fields, Public Library sales ranking, and a running estimated total of items chosen. The Cumulative Cost dollar total along the top of the spreadsheet is an *approximate* dollar amount based on quantity ordered, discount, and any cataloging & processing charges:

We understand that with a brand-new building or a newly renovated one, your library has as many specific needs as do the books housed inside. With our years of ODC experience, we accommodate a variety of different delivery methods and work with you and your team to plan a streamlined receiving workflow conducive to setting up your new library as quickly and as painlessly as possible.

We charge no warehousing fees for ODC projects, but if you receive the entire project at one time, we can coordinate with your schedule to plan a specific delivery date.

If you find it easier to receive materials in smaller chunks, however, we offer the option of shipping your orders as we complete them.

We can also accommodate your individual library shelving needs:

- Rough Sort**—This service is a standard feature we provide for each ODC project we undertake. You receive all your ODC materials organized by collection area. For example, you will not have to sort through a box that contains both Adult Nonfiction and Juvenile Fiction.
- Strict Sort**—For a fee (See our Cost Proposal for pricing), we organize your orders by collection area AND by Dewey classification so that each book is strategically placed in a “shelf-ready” order. Simply open the boxes and place the books on your shelves!

Our pledge at Ingram Library Services is to make the selection and delivery of materials to your library the best and easiest part of an entire ODC project. Please note that Ingram’s ODC lists are complimentary when customer agrees to purchase materials solely from Ingram.

*“The task of choosing books for every section of the library and getting them processed seemed overwhelming to me, but after reaching out to Ingram, the different teams helped me navigate through the process and made it all very simple.”*

#### **iCurate® Custom: Ongoing Custom Lists**

Ingram’s Collection Development librarians create ongoing monthly custom lists for several libraries, including Free Library of Philadelphia, Chicago Public Library, and more. We build these lists according to each library’s specifications and deliver them in ipage.

Often, we can save libraries money by identifying existing lists or programs that meet their needs. For libraries that do have custom needs, we create a proposal, which can offer a few options and price levels. We also develop an agreement for a solution, based on requirements and estimate of time spent, matching customer specifications and detailed pricing.

#### **Collection Development Services Pricing:**

**Complimentary Curation Services:** Ingram offers a variety of curated selection lists and collection development tools through iCurate® *Complimentary on ipage®*. Our collection development librarians create and regularly update curated complimentary selection lists. We also provide New Title Notification/Standing Order Programs **free of charge**.

**Custom Collection Development:** We quote fees associated with uniquely customized lists on a list-by-list basis and based on the Library’s specifications, which can include customization level, number of lists required annually, and whether it is for a special project or (part of) an ongoing list requiring regular updates. We will apply standard charges to any future services we develop and offer for customized collection development services.

**Marketing Materials on ipage®**

Ingram ipage® is the Library's source for free publisher marketing materials. Available assets include shelf talkers, author photos, Q&As, book trailers, reading group guides, printable giveaways, teacher guides, and more. All content is cleared for use in newsletters and reading group materials, on websites and social media, and in other print and digital communications to customers and patrons.

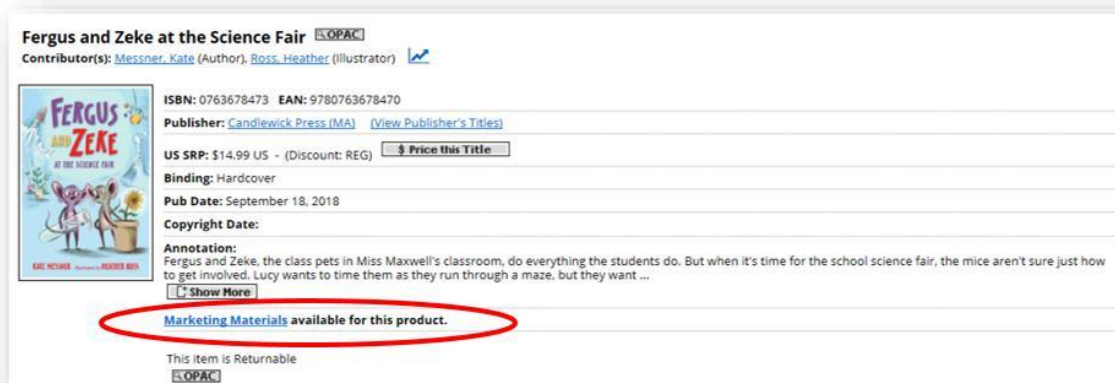

Searching and downloading materials is quick and easy. There are two ways to access these files:

1. From the ipage® homepage, hover over My Account and select Marketing Materials located under the Ingram Services section. From there you can search through the complete inventory of available assets.

- When viewing an individual title, look for the Marketing Materials available for this product link on the Title Detail page.

### Processing

Our expertly trained processing team provides the ultimate in flexibility with more than 100 different components and unlimited customized options for books, audiobooks, DVDs, and music CDs. All processing is done in accordance with the Library's specifications, and quality control measures are in place to ensure that Library expectations are met.

Processing options include, but are not limited to:

- AR/SRC Label
- Barcode
- Branch Label
- Date Due Slip
- Genre Label
- Label Protector
- Laminated Paperback Cover
- MARC Record
- Mylar Jacket
- Pocket
- Preprogrammed RFID/Barcode Set
- Property Stamp
- RFID Tag
- Spine Label
- Spine/Pocket Label
- Spine Tape
- Audiovisual Cases
- Theft

To add processing and cataloging services, Ingram offers online enrollment through our OnBoarding portal. Our Manager of Client Integration is available to guide the Library through the portal and to answer any questions throughout the process to ensure consistency of book appearance. Included in the OnBoarding portal are questions related to both physical processing and/or MARC record needs for both books and A/V materials. Included details are physical processing rules such as label location, taping requirements, and jacketing needs. Adult and Juvenile materials can have different processing profiles if the Library prefers.

We can further refine the Library's profiles based on binding of book. Using the Library's OnBoarding portal responses, our team will create a BookMARC profile for any account requiring certain kinds of labels, e.g., spine labels, or full cataloging records. Cataloging profiles can be refined by type - fiction or non-fiction - by collection - Adult, Young Adult, Juvenile, and Easy - and by genre – Graphic Novel, Fantasy, etc. – to ensure that the Library's materials are all cataloged in accordance with what is already in the Library's ILS system.

Processing and/or cataloging is profiled on an account level, and any item ordered on an individual account will receive the appropriate processing services. We are able to change your account profile upon written notification.

For this multi-year contract, Ingram reserves the right to re-evaluate discounts and terms at the end of the initial contract period and to review cataloging and processing pricing on an annual basis.

#### **RFID**

Our standard Ingram RFID tag is a "universal" tag meaning that we can program any type of encoding or programming into this tag (ex.: 3M, Bibliotecha, Tech Logic, ITG, Envisionware, etc.). The tags are ISO 15693 compliant. We can also encode customer supplied tags-

For audiovisual materials, we offer StingRay Full Disc Overlay RFID Tags for compact discs, DVD/Blu-rays, and video games.

Many customers prefer our pre-programmed RFID/Barcode sets for their projects. The fee for these includes application of both barcode and programmed RFID tags. We can also include the Library logo on the tags at no additional charge. Using these sets will ensure that all tags will arrive at the Library programmed. Should the Library be interested in this option, we would be happy to provide pricing.

Ingram is currently able to encode tags for most RFID systems. Should we need to obtain software or hardware for the system chosen by the Library, or if your required encoding includes customized data fields specific to your Library, we reserve the right to revise pricing.

### **BookMARC® Cataloging**

Ingram provides access to full-level MARC records through BookMARC, the proprietary Ingram cataloging database. BookMARC includes the complete LC MARC database, as well as tens of thousands of entries created by Ingram's MLS-degreed catalogers.

Ingram is a trading partner with OCLC, wherein our CIP upgrades and MARC record originals are accepted by OCLC for inclusion in WorldCat.

Ingram cataloging is in accordance with the latest editions and versions of the Anglo-American Cataloging Rules/RDA, MARC21 Format, OCLC Bibliographic Formats and Standards, Library of Congress Classification Schedules, Dewey Decimal Classification, Sears List of Subject Headings, and Library of Congress Subject Headings. Ingram cataloging is consistent with LC rule interpretations and cataloging practices.

Ingram Catalogers are experienced in working with Library Technical Services and Cataloging staff to ensure that the cataloging services we perform accurately reflect the library's local standards and conventions. With Ingram, your project will be given top priority by our cataloging staff. A team of professional MLS-degreed catalogers and professionals experienced in working with multiple ILS systems will be assigned to your project.

Ingram Library Services will send and receive samples at the beginning of the project, plus continue discussion via conference calls and email between Ingram Cataloging specialists and library staff throughout the projects to assure compliance with specifications.

If standard BookMARC cataloging does not meet the Library's needs, Ingram offers a full array of custom cataloging options. Services include:

- Searching for added copy in the Library's ILS utilizing Z39.50 protocol.
- CIP, OCLC, or other Level 5/7 records can be brought up to FULL AACR2 / RDA / MARC 21 standards to correspond with book in hand by an MLS-degreed cataloger.
- Where existing or derived records are not available, an original cataloging record can be created with book in hand by an MLS-degreed cataloger.
- Should the Library require OCLC Holdings Updates, Ingram can provide this service at no charge, utilizing OCLC Batch Load Services. Please note that OCLC charges a one-time project set-up fee, which will be the responsibility of the Library.

In addition to standard MARC records, Ingram's MLS-degreed catalogers can review and update records to meet local practice requirements. Examples include applying local exceptions to LC or Dewey classification; adding contents, summary, target audience, or local notes; and applying local subject headings or local exceptions to standard subject headings lists.

Pricing for these customized services can be provided upon receipt of the Library's technical services specifications and will be reflective of the complexity of the Library's requirements.

*Popular Video* is a New Title Notification/Standing Order Programs designed to provide libraries with the newest videos debuting on DVD, Blu-ray, DVD/Blu-ray Combo, and 3D DVD. This program is based on the library's enrollment for popular box office titles, independent films, foreign films, classic titles debuting on DVD, TV Series (Youth), TV Series (Adult), TV Movies/Mini-series (Youth), TV Movies/Mini-series (Adult), Family Films, and Documentaries. Titles are shipped to arrive on their national street date.

The Popular Video Program runs every Thursday, and lists should be ordered as soon as possible to ensure delivery by street date.

With over fifty-five years of experience in distributing library materials, we serve libraries like Malia with a wide range of collection development, processing, and cataloging services guaranteed to enhance your collections.

There are three simple reasons why Ingram Library Services is the best partner for Malia on this project:

**1. The Breadth and Depth of our Inventory**

We have the industry's largest inventory, bar none. With an unmatched on-hand stock of over **19,000,000 unique titles** and **35,000,000 books**, representing over **30,000+ book publishers** and **57,000 imprints**, we ensure the highest fill rates in the business.

You need the hottest new releases on shelves for your patrons wanting them yesterday? Ingram's got you covered. We also carry millions of post-publication and deep backlist titles to fulfill patron requests and to delight those readers looking for classics, for reissues or movie tie-ins, or for indie and other small press titles.

**2. Our Unmatched High Level of Customer Service**

We have dedicated teams in and across each Ingram department to give Malia direct, thorough, ongoing assistance for the continued success of its collection development strategy.

- ✓ Your Ingram sales representatives are your account managers. They share their knowledge – and learn from yours -- to help you always get the most out of Ingram products and services.
- ✓ Ingram's Collection Development team includes 11 MLS-degreed librarians with years of frontline experience in collection development for public libraries. They work diligently to bring you timely, relevant, quality resources, many of which, such as **iCurate® Complimentary** -- our hand-selected High Interest Category Lists and 22 Standing Order Programs -- are free of charge. Our competitively priced services include our **award-winning iCurate® inclusive diversity audit**.
- ✓ Ingram offers ipage®, a web-based collection development, ordering, and account management tool our library customers can use 24 hours a day, 7 days a week at no cost. ipage provides rich metadata, such as annotations, cover images, reading levels, subject classifications such as LC, Dewey and BISAC, powerful search capabilities, and much more.
- ✓ Ingram Library Services' Marketing team offers a variety of free information tools for librarians. These include our monthly Collection Development newsletter, *iCurate Connection*; a monthly blog related to #TheLibraryLife; scheduling of ipage® demos; podcasts; and our popular webinar series, *Wednesdays with Ingram*.

**3. Our Speed, Accuracy, and Fill Rate of Order Fulfillment**

We have distribution centers in every major region of the country, and Ingram's DC serving Malia is conveniently located in Chambersburg, Pennsylvania.

- ✓ Ingram's proximity to Malia enables Ingram to ensure fast turnaround times on delivery. You will have all the high demand titles you need when you need them.
- ✓ Orders placed before noon for high demand, book in a box titles typically ship the same day.
- ✓ Ingram fully supports EDI, including orders, purchase order acknowledgments, and electronic invoices. Ingram systems support all major integrated library systems.

Our vision at Ingram is to be the premier services provider in and around the distribution, production, storage, creation, discovery, and assembly of content. To bring that vision into reality, Ingram Content Group has multiple operating units, each focused on a specific area of the book industry, including retailers, publishers, educators, and libraries. All Ingram Content Group companies follow the same 5 values: to be Credible, Performance Driven, Agile, Innovative, and most importantly, Customer Focused.

12. Are there other aspects of company data the vendor would like to comment on that have not been covered in this section?

Ingram has provided a comprehensive response reflecting our abilities. We welcome feedback from the Library as we continue to meet the ever-changing needs of our industry.

## II. ORDERS AND FULFILLMENT

1. Describe the methods available to member libraries for placing and tracking orders.

Ingram accepts orders electronically (via email attachment and/or EDI – Electronic Data Interchange) or via ipage. Please send emails with attached orders to: [ILS.orders@ingramcontent.com](mailto:ILS.orders@ingramcontent.com).

### EDI

Ingram supports EDI Transaction types and formats based on your automation system's capabilities. Ingram EDI offerings include:

- Electronic ordering using the X12 format and FTP for communications.
- Enriched EDI ordering.
- Text format full order confirmation via email from Ingram email to user-specified email address.

### EDIFACT Order, Order Response, and Invoice

- Purchase orders are created in your Acquisitions department and sent to Ingram via FTP.
- Ingram processes orders and places electronic confirmation files on the Ingram FTP server for customer retrieval.
- For customers opting to receive electronic invoices, Ingram places electronic invoice files on the Ingram FTP for customer retrieval. E-invoices streamline workflow and increase efficiency. Ingram can provide paper invoices to e-invoice users *if requested*.

### Enriched Edifact Order

This enhanced order transaction allows users to send additional distribution information in the EDI order record providing Ingram with information necessary to create complete holdings records to match items shipped. The holdings records are loaded with MARC bibliographic records and overlay the on-order items. When Ingram sends materials to your location, they are shelf and circulating ready. Also, with Enriched EDI, we offer the ability to drop ship to branches as well as simplify account management

through ordering on a single account and having Ingram separate orders based upon the enriched data that allows us to process orders per the library's specifications and route them to the correct branch.

## 9XX

This custom MARC feature allows the user to create a list in ipage and then add local data (such as fund, location, collection code, requestor, etc.) in 9xx tags and subfields, per specifications of their ILS, for each title to be exported in a brief MARC record. The list is then exported in brief MARC format, and the ILS system loader is used to load the records to the ILS. Upon loading to the ILS, an order record and a brief cataloging record are created. These records can be overlaid with the full MARC records in your ILS system.

For Production Order – FTP address is: <ftp.ingramcontent.com>

EDI Setup – check EDI orders

The screenshot shows a web form titled "New Supplier Record - 1 - General - Polaris". The form includes fields for Name, SAN (1667978), Account, Alternative name, Owner (Headquarters Library (HQ)), Currency (USD), Encumbrance Limits, Expenditure Limits, EDI Setup (with checkboxes for EDI orders, Enriched EDI orders, and ASN Shipments), Address/profile ID (Account # selected), POA/DIV directory (OUTGOING selected), PO directory (INCOMING selected), PO file extension (.XPO), and Notes. Red callout boxes highlight specific fields and instructions: "Leave Blank" points to the Name field; "Enter Ingram account number here" points to the SAN field; "Ingram SAN" points to the SAN field; "Check this box" points to the EDI orders checkbox; "This information is provided in the Ingram EDI Set Up Letter" points to the Notes field; and "OUTGOING" points to the POA/DIV directory dropdown.

## ipage Selection Lists

ipage selection lists, like the shopping cart functionality found on other Internet sites, are among the most versatile features on ipage and the starting points for ipage ordering. Once you create a list, you can add products, delete products, move products to other selection lists, or send it as an online order.

By ordering online using our selection list functionality, you can create multiple title lists. You can then download these lists in a variety of formats such as BISAC, FlashBack®, or brief MARC order records for import into your ordering or library automation system, provided that one or more of these formats is compatible.

Users can create a selection list by uploading a file of EAN's and, optionally, quantities, including using an upload source document (.xls, .xlxs, .csv) where EAN's are stored as text.

You can easily access your selection lists in ipage in two ways: via the **Lists** drop down menu, or via the **Selection Lists** link under the **Order** drop down menu.

The Active Selection List(s) page is the starting point for creating and managing your selection lists or orders. You can:

- create a new list
- merge up to ten different lists into one new list
- recover deleted lists (within a specified timeframe)
- view or edit lists
- check stock availability
- utilize the *Price this List* feature
- E-mail lists
- download lists
- check for duplicates
- delete or archive selected list

Clicking the **View** button displays all titles on a selection list. To change the sort order, click the arrow in the **Sorted By** box and select your desired sort option. Users can sort by title, author, ISBN or product code, binding, publisher, pub date, or US SRP (U.S. suggested retail price).

ipage allows you to create the following types of selection lists:

- **Private List** - only the list creator and the user's ipage Administrator can view or edit.
- **Public List** - only users in the same ipage account as the list creator can view or edit.
- **Shared List**, only users within the same Ship-to account as the user who created the list can view or edit.
- **List Lock** – A list creator can lock the list to prevent others in the account from making changes.

### Placing Orders Through ipage

When you are ready to place your order, you can simply click the Standard Order button for that list. ipage then prompts you to complete additional order details, such as shipping instructions, warehouse selection, backorder instructions, PO Number, etc.

Lists you order through ipage are shaded in yellow.

Lists you download (but not order) through ipage are shaded in blue.

## Folders

ipage allows users to sort selection lists into pre-built folders. By default, your selection lists will go into the folders as follows:

- **Active** - active selection lists, regardless of Public/Shared/Private status
- **Archived** - any lists you choose to archive or that ipage archives automatically due to lack of activity, regardless of Public/Shared/Private status.
- **Ingram Lists** - the default destination for any selection lists you receive tied to a New Title Notification/Standing Order Programs enrollment (either Report Only or Auto Ship).

In addition to these default folders, users can create up to 25 custom folders.

As you create a new selection list in ipage, you can specify a folder, rather than the default Active folder, into which you would like to place the list. Other account users cannot see or affect those custom folders and cannot place a selection list into another user's folders. Other account users can, however, view and "folder" a Public selection list.

Your ipage accounts are created so that a library-designated administrator has oversight capabilities to aggregate lists and manage users. The Administrator can add additional ipage users as required by the Library. Each user will be assigned a unique login and users can set their own password.

We want ipage to be customer-driven and to **allow users to individually customize their ipage experience**. Users have tools to assist in prioritizing critical information they need to search, order, and deliver more content to more patrons. Because ipage focuses on personalization and intuitive functionality, customizable widgets allow users to design their own homepage with tools they use most. Users can easily track bestsellers, access online catalogs, view custom lists, and bookmark favorite destinations in and outside of ipage.

Benefits of ipage home page include:

- A simplified menu structure allowing our customers to quickly find what they are looking for.
- Roll-over drop-down menu options for each functional area of ipage, which enable users to reach content with less effort.
- Suggestions from Ingram product experts in our Ingram Lists & Picks column on the Browse menu.
- Ability to customize the homepage, including option to remove widgets and to select a background theme.
- Enhanced Simple Search options, including the ability to search across multiple product types.

ipage Searching

- ipage displays **Simple Search** at the top of every page, allowing fast, efficient search for titles. Simple Search options for print books include Title Keyword, Start of, Phrase, or Exact Title; Author; ISBN/EAN; Keyword(s); Series; Dewey.

- **Power Search** allows ipage users to isolate their search to a narrower list of titles, by using some or all a specific set of search criteria. Through Power Search, ipage users can look for titles by publisher, subject heading, format, language, and other filters not listed on the Simple Search feature. You can input search criteria for up to 25 data points. The more search criteria added, however, the fewer results the search returns.
- **Boolean searching** is like power searching but uses Boolean terms and focuses mainly on criteria in the Title, Contributor, Publisher, BISAC, Ingram Theme, and Series fields. You can also add search criteria on Language, Age Group, Binding, Publication Date, etc. Under "further criteria," Boolean searching allows users to select multiple attributes.
- **Predictive Search** is an optional functionality on ipage that allows for more accurate and efficient searches across our entire database. This technology uses our top-demanded product data to offer suggested completions of the search term(s) you type into the search bar, including Title (Start of) and Author.
- **Street Smart Titles** list under the Browse tab on ipage enables you to view a list of titles with a hard street date from the publisher. This Street-Smart list focuses on titles up to 18 months pre-publication.
- **Search results** allows sorting by Title, Author, EAN/ISBN, Binding, Publisher, Pub Date, or SRP, and users can quickly jump to specific places in the result set by letter. The Search Result View also includes options at the item level. For example, for each item, you can select Duplicate Check, Add or Edit Grid Information, or Edit other information about the item. ipage combines the robust functionality of Selection Lists with filter options currently available for Search Results. This means you can filter items in your selection list by all refinement options already available for Search Results.
- **Saved Searches.** This time-saving feature is a great way to organize searches a user might perform on a regular basis. Users can save searches as a new search or as a replacement for an existing search. ipage automatically purges saved searches from the user's account 13 months after the last accessed date shown on ipage.

### ipage Search Refinements

ipage provides multiple criteria for refining title lists from search results or selection lists:

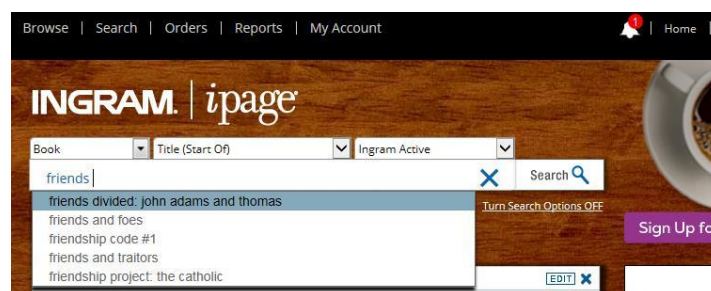

- **Search within Results:** To the left of your results is a box for searching within your results. Enter your search words and click the **Search** button. You can further refine your results as needed using the options and search feature located on the left.
- **Search Filters:** Search Filters provide a better search experience for customers who do not purchase compilations, collections of public information, or reproductions of previously published public domain titles. This filter allows you to hide these product types from your search results.
- **Refine Search Results:** Depending on the list, search refinements might include Age Group, Binding, Publication Date, which may also include Forthcoming Titles, Contributor, Price, Format, Awards, Citation Source, BISAC Categories, Dewey Categories, Ingram Categories, Language, and Features. You can collapse and expand a field to better meet your search needs by clicking on the up/down arrow to the right of each field. The next time you search, ipage remembers those fields you have collapsed or expanded.
- **Quick Limit** - If refinement terms you use in your search are in the top three displayed under the refinement field, check them off and click 'Update' to quickly limit your results. You can now select multiple terms to drill into your results.
- **Search the Full List** - If your search terms do not appear among the top three under your refinement option or if you want to exclude terms from your results, click the "More..." link next to any field.

- **Including and Excluding Search Terms.** After clicking the “More” link under the search refinements, you can further refine your results by selecting or excluding as many terms as you like. Scroll the list of terms by dragging the scrollbar up and down.
- Search for terms by entering letters, and a text filter will quickly reveal matches.
- Select as many terms as you would like to include in your results by checking them off in the ‘Include’ column.
- Exclude as many terms as you want by checking them off in the ‘Exclude’ column.
- Verify your selection with the intuitive green (include) and red (exclude) bubbles.
- Remove anything you do not want by clicking on the ‘x’ on the right side of the bubble or by unchecking it in the ‘Include’ and ‘Exclude’ columns.
- Click the ‘Update’ button to apply your refinements or ‘Cancel’ to return to your results.
- For each refinement you apply, a breadcrumb appears at the top of your search results, making it easy to later remove any limiters you applied.

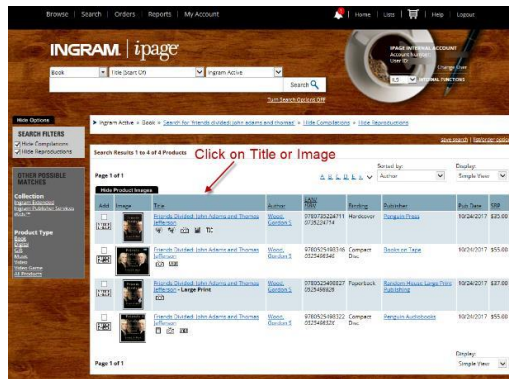

A Title Detail page on ipage includes title, contributor (author, illustrator, editor, etc.), ISBN/EAN, publisher or studio, suggested retail price, binding or format, pub date or release date, and copyright date. **Descriptions, Reviews, Etc.**

**Publishers Weekly** (04/28/2014): Bestseller Cussler's electrifying 12th NUMA Files adventure (after 2013's "Zero Hour" also coauthored by Brown) takes Kurt Austin, director of special projects at the National Underwater Marine Agency, across the globe in search of Sienna Westgate, the long-lost love of his life, and the world's preeminent expert in cybersecurity. Pronounced dead after his family's yacht sunk in the Indian Ocean, a revived Sienna may have surfaced in the shadows of the Iranian black market. Notorious smuggler Rene Acosta is eager to trade her talents to any number of foreign governments for a huge sum, but the nefarious Brevard clan is also vying for control over the brilliant Sienna. Trusty colleague Joe Zavala and Dirk Pitt, NUMA's director, provide assistance as Kurt uses a range of advanced technology in the hunt for the woman whose disappearance haunts him day and night. Cussler delivers all the usual twists and turns on the way to the explosive climax. Agent: Peter Lampack, Peter Lampack Agency. (May 27) Copyright 2014 Publishers Weekly Used with permission.

**Kirkus Reviews** (05/15/2014): Kurt Austin and his National Underwater Marine Agency team save the world yet again, this time from a criminal family that's been hijacking the innocent and taking hostages for four generations. Commandeered off the coast of South Africa by Gavin Brevard and a gang of criminals who'd booked passage with counterfeit currency, the SS Waratah vanished without a trace in 1909. A century later, the Brevard family is still at it. Brothers Sebastian, Egan and Laurent, along with their kid sister, Calista, have kidnapped Sienna Westgate and her two children and intend to sell her services to the highest bidder—assuming they can recover her from Rene Acosta, their double-crossing former client. The Brevards' racket is much more high-end than sexual slavery; for Sienna, architect of the legendary Phalanx security software, is one of the most sought-after computer experts in the world. Nothing could stop their nefarious scheme save for the fact that Sienna is the one-time fiancée of Kurt Austin, who lost her to Internet billionaire Brian Westgate. Sienna and her kids were supposedly lost at sea when Westgate's yacht, Ethernet, sank, but mounting evidence shows that she's no more dead than the SS Waratah, which never sank at all. Kurt's initial encounter with fire-breathing Calista Brevard as they battle over Sienna, who's being held on Acosta's yacht, ends inconclusively. So Acosta packs Sienna off to Korean street criminal-turned-industrialist Than Rang, head of the Daeshan Group, and the action-thriller's plenty of action-shifts from the African coast to the Korean peninsula, where Kurt, his buddy Joe Zavala and their NUMA stalwarts dodge everything the Brevards can throw at them as they struggle to free Sienna before the world's computer systems all go kablooy! Once more, Cussler and Brown (Zero Hour, 2013, etc.) paint with such broad strokes that Kurt's adventures aren't so much written as whitewashed. COPYRIGHT(2014) Kirkus Reviews, ALL RIGHTS RESERVED.

While not all titles on ipage have reviews, we display all published reviews for print titles. Price of reviews is subject to change on an annual basis.

### “What Shipped Yesterday” Email Alert

ipage® users can now receive a personalized email alerting them when a shipment is on its way! We send a “What Shipped Yesterday” electronic notification the morning after we ship your order so you know your shipment left the Ingram warehouse(s), and you can expect delivery soon. The email includes the shipment tracking number, the items included in the shipment, and an order entry number to identify the warehouse the shipment is coming from. This service works regardless of the method used for placing orders, e.g., phone, ipage®, EDI.

The “What Shipped Yesterday” notification is an opt-in service for the Library’s Primary ipage® Administrator(s). The Administrator can: 1) enable this feature for one, some, or all the shipping accounts on the Library’s ipage® account; 2) assign access rights to additional users in the account; and 3) limit access only to specific Library shipping accounts. This is especially helpful if the Library’s ipage® account contains multiple shipping accounts for different branches and if the specific user is interested in receiving notification of shipments only to their branch. Please note that the desired email address must exist in ipage® to enable this feature (i.e., the person assigned to receive notifications must be set up as an ipage® user under the Library’s account).

### Price This List Feature

ipage® shows current list price. Libraries can submit selection lists for product pricing based on the library’s specific discount structure. Attached to every selection list is a button labeled *Price this List*. Clicking on it displays the total estimated price, with discounts (not C&P or shipping costs) included. This pricing disappears from the site if the list creator changes the selection list in any way.

Please note that publishers set list prices, which they can change without notice in the interim between using the Price This List function, placing an order, and Ingram processing and invoicing that order. Therefore, to “lock in” the current title pricing (including C&P and shipping) for up to 60 days, we recommend our Get a Quote functionality available on ipage®.

### Price This Title

Every ipage® user has the option to include a *Price This Title* button on the title detail page. The estimated product price per unit, with discount (but not C&P and/or shipping costs) then displays. Please note that

prices reflect one copy of a title. If the customer has different discounts based on quantity, we recommend they use Price This List.

### Online Quotations

ipage® subscribers can establish a selection list of titles and then request a price quotation for that list using the *Get Quote* function. Pricing remains firm for up to 60 days if the customer places a quoted order through ipage. Note: Customers cannot place Get Quote orders via EDI.

ipage will display the quote within the *Order* section under a function labeled *View Quotes*.

From the *View Quotes* area, all ipage® users on an account can review existing quotes and print them. Those users who have ordering capability on ipage can delete the quote if desired or release it as an order. Quotes are valid for 60 days. To revise a list (including changing quantities) and request that it be re-quoted, simply return to the *Selection List* function, edit the list you would like quoted, and resubmit it for quotation.

### Tracking Orders

ipage® allows users to track shipments under the Order tab. To track a standard shipment, click Order Status>Recently Shipped Orders. This opens a table displaying all recent shipments. Click the shipping tracking number for the status of the shipment.

### Street Smart

Ingram understands the importance of getting high-visibility titles in the hands of Library patrons as soon those titles appear in local bookstores. Titles designated as part of our **Street-Smart** program include any

upcoming new releases with publisher-assigned release dates. Working within publishers' parameters, Ingram configures the Library's account so the Library receives Street Smart titles on or before their release dates.

To receive Street Smart designated titles on or before the release date, the Library should complete a signed affidavit agreeing not to display, circulate, or sell for advanced reading a title before its publisher-assigned release date. Without this agreement, Ingram cannot ship Street Smart titles until one day prior to the publisher's release date, in accordance with our own agreements with publishers.

Occasionally, publishers assign stricter release date parameters to certain forthcoming titles. These titles are part of our **Street Smart Select program** and, typically, are major releases with large print runs and significant publicity campaigns. Like for Street Smart titles, we ask the library to sign an affidavit in order to receive Street Smart Select titles in advance of their release dates. Ingram provides advance notification of Street Smart Select titles, including any order deadlines or minimum order quantities required to participate in the early delivery program. Per the publisher specific guidelines, without a signed affidavit, distributors may not be permitted to deliver Street Smart Select titles until one day before the on-sale date.

We do not control publishers' street dates or their specialized parameters. We do, however, work closely with publishers for news of publishing date changes or unexpected releases. We provide updated information via ipage® as soon as publishers make such information available, which enables library staff to check the status of any title as its scheduled street date approaches.

We strive to deliver titles before their street dates to libraries with a Street-Smart affidavit on file. However, because our ability to deliver titles in time for release date is contingent on the publisher providing those titles to us, we cannot guarantee arrival on or before release date. Occasionally, factors such as supply or transportation issues can compromise our ability to deliver by release date. In such instances, the level of custom processing or cataloging profiled on a Library account may, in addition, cause the title to be delivered after street date.

### Searching for Street Smart Titles in ipage®

The Street-Smart list under the Browse tab on ipage® enables libraries to view a list of titles that have a hard street date from the publisher. This Street-Smart list focuses on titles up to 18 months' pre-publication.

The Street-Smart list page includes a drop-down box with sort options, including On Sale Date. When you select **Initial Buy** in the drop-down box, ipage® re-sorts the titles in the Street-Smart list by largest quantities initially purchased by our buyers. This helps you see immediately what items Ingram professionals believe will be in national demand. The list sorts in descending order, with largest quantities at the top of the list.

2. What process will MALiA libraries follow to receive the vendor’s discount rate(s), and when will the discount rate(s) be applied?

Upon notification of award, Ingram’s Bids and Contracts Department will immediately write and issue in-house documentation for internal Contract staff, detailing the contract’s specifications. This provides for automated criteria that will apply to new accounts as they are established, including discounts, payment terms and freight terms.

3. Vendor shall process and confirm new orders within 10 days of order receipt.

XX Yes  
 \_\_\_\_\_ No

Remarks: ipage sends immediate order confirmation, which you can print. The ipage order confirmation includes title, author, EAN, whether the item shipping status, discount, and retail price.

For orders placed via most ILS systems, Ingram sends full order acknowledgements in text format via email to user-specified email address. The order acknowledgement includes ISBN/EAN; Title; Author; Publisher; List Price Line Item; Order Units; Ship Units; B/O or Cancelled Binding; Status Code; and Shipping DC. You receive an order acknowledgement within two to four hours.

4. What is your average order fulfillment time?

#### **Turnaround Time**

In-stock, non-processed and non-cataloged book orders are shipped within 24 hours or on the same business day if placed before local cut-off time at your designated Ingram distribution center. In-stock processed books not requiring custom cataloging services will ship within two to five days of receipt of order. No other vendor can attain this level of service. Our turnaround time for in-stock, shelf-ready, custom cataloging orders is 7-10 working days from receipt of order to shipment.

Continuations and New Title Notification/Standing Order Programs require a backorder period, as titles are ordered on a pre-publication basis to allow Program customers to be the first to get these titles. Items that do not require cataloging services will ship within 24 – 48 hours after the title is received into the designated Ingram distribution center.

For titles inventoried by Ingram that are temporarily not in stock, Ingram will attempt to place an order with the publishers within three (3) business days of receipt of order. Our ability to obtain out of stock titles is based upon the item's continued availability from the publisher with whom Ingram buyers have an established relationship.

Ingram does not substitute titles unless the ISBN/EAN has been forwarded to a new edition. Only those items ordered will be shipped.

Should the Library order books not currently inventoried by Ingram, we will attempt to order the book if available on the open market through normal U.S. wholesale channels. Turnaround time will be dependent upon publisher availability, however, due to our long-standing relationships with publishers, we estimate one to three weeks on available items and sixty to ninety days on special order items not currently in stock at the publisher.

Ingram can provide titles that are in print and available from the publisher. Some publishers choose to sell only directly to end users such as schools or libraries. These direct-only publishers are defined as those publishers whose titles are not available on the open market to distributors.

#### **Fill Rate**

Ingram's senior and executive leadership continually monitors fill rate reports across all market segments. Ingram Library Services is proud that our initial fill rates are typically 85-90%, with a fill rate of 95 to 100% shipped or reported within 90 days, on items listed in Ingram's database. We periodically monitor fill rates for specific libraries, and we have programming in place to accurately calculate fill rate for any customer upon request. Note that our fill rate includes over 19,000,000 available titles.

***Specific Numbers for Print***

91.78 % shipped at time of initial order

98.92 % shipped in 60 days

99.02 % shipped in 90 days

***Specific Numbers for Spoken Word***

***Specific Numbers for DVD/Blu-ray***

77.85 % shipped at time of initial order\*

97.25 % shipped in 60 days

97.60 % shipped in 90 days

Ingram's average fulfillment rates listed above are for in-print library material. We calculate fill rates for Ingram public library customers and for items available through Ingram at the time of order, excluding items unavailable from the publisher at the time of order.

5. If unable to supply a title, vendor shall notify MALiA libraries within thirty (30) days and provide the reason for nonfulfillment.

Remarks: **Status Reports**

Status Reports provided by Ingram include our Packing Slip and our Title Status Report.

The packing slip will supply you with the status of any book shipped, backordered, or is out of print. The packing slip will be alphabetized by title. Titles that were not included in the initial shipment will have a "B" in the "BO" column if they have been backordered. An "S/W" will identify those titles that will be shipped from your secondary distribution center.

6. Describe the vendor's order cancellation policy, including any restrictions that apply.

Ingram currently accepts cancellations through phone, mail, or fax request. The Library can also cancel individual open line items through ipage. If an entire purchase order is open (i.e., no line items have been fulfilled), the Library may request that Customer Care cancel the entire purchase order, at no charge to the library, rather than the library having to cancel each title individually.

7. 99% of materials supplied shall be the correct title, edition, and number of copies.

Yes  
 No

Remarks: Ingram does not substitute titles unless the ISBN/EAN has been forwarded to a new edition. Only those items ordered will be shipped.

After receiving an order, Ingram will ship all titles currently in stock. Any remaining titles normally available through Ingram will then be placed on backorder for a period specified by you. At the end of the backorder period, all unfilled titles will automatically cancel, except for titles Not Yet Received from the publisher.

8. Multiple copies of a physical item shall be shipped together.

Yes  
 No

Remarks: After receiving an order, we ship all titles currently in stock. We then place on backorder (for a length of time you specify) any remaining titles we typically carry. At the end of the backorder period, all unfilled titles automatically cancel, except for titles Not Yet Received from the publisher.

9. A packing slip shall accompany each physical shipment.

Yes  
 No

Remarks: If you do not require invoice in the box, Ingram includes with each shipment a packing slip which you can cross-reference to the invoice. We typically enclose the packing slip in the last box of a multi-carton shipment that crosses the shipping manifest, and we mark that box for easy identification.

Ingram's Packing Slip contains the following information:

- ◆ Library shipping and billing address
- ◆ Date
- ◆ Quantity ordered
- ◆ Quantity shipped
- ◆ Title
- ◆ ISBN
- ◆ Binding Code
- ◆ Purchase Order Number
- ◆ Discount Percentage
- ◆ Unit List Price
- ◆ Extended Price after Discount

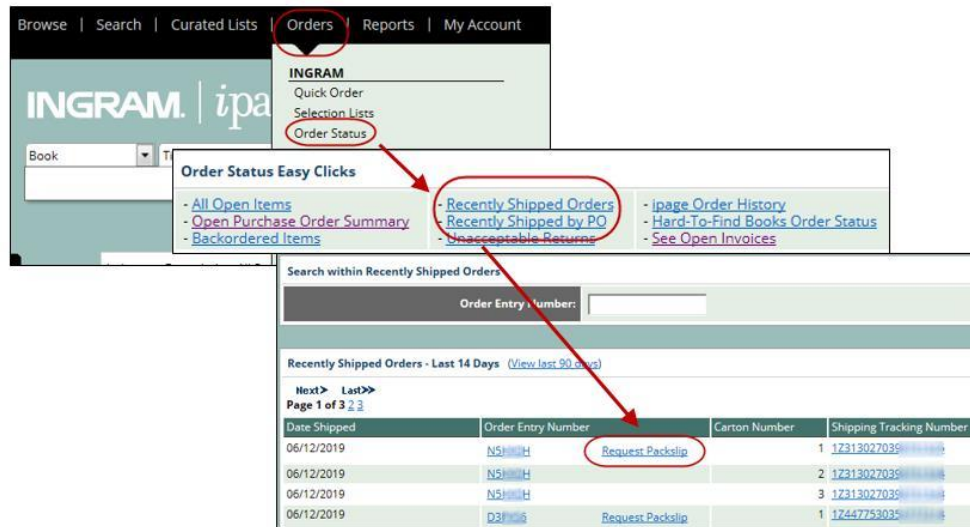

Packing slips can be sorted by title or purchase order number.

### ipage® Request Packing Slip

Libraries that receive a packing slip with their shipments can now request a copy of a packing slip through ipage®. This service is applicable for shipments from the previous 30 days. The packing slip will be emailed to the address sent with the request.

To request a packing slip, the Library can open the Orders tab on ipage®, choose Order Status, and then either the link for Recently Shipped Orders or Recently Shipped by PO.

We also plainly mark each box in a shipment with the number of boxes included, the library address, and a Control Number (including Order Entry number) which can be used to cross reference the invoice when you receive it. We also mark the carton containing the packing slip.

The shipping label on the carton includes the customer's name, address, and customer purchase order number.

10. The vendor shall supply multiple accounts for a MALiA library as needed, and ship materials for these accounts separately.

XX Yes  
\_\_\_\_\_ No

Remarks: Upon award of contract, any eligible Library can request an account. New accounts may be set up and existing accounts updated by contacting Account Services Coordinator at 800-937-5300 ext. 35764 or via email at [requirements@ingramcontent.com](mailto:requirements@ingramcontent.com). They will ask for basic account information such as account name and shipping address, contact person, and processing requirements. Please inform them that you are a contract customer, and they will verify the contract information and ensure your accounts receive the correct discounts and terms.

Libraries wishing to establish a new account will be asked to complete an Ingram New Account Application and Terms of Sale form. When setting up a new account under the terms of the contract, the Library will be asked to provide a copy of their tax-exempt certificate.

Each library should inform Ingram's Account Services Department that they wish to set up a new account or maintenance an existing account under the terms of this contract. Standard discounts and terms will apply until such time. Ingram cannot issue credits for accounts failing to follow the proper notification and account set up procedures.

Any item ordered prior to the contract start date will not receive the discounts offered in this proposal. This includes both standing orders and previous backorders. Should the library receive a previously ordered item after the contract is in effect, previous discounts will apply.

We do not sell to individuals but can establish staff accounts that ship and bill to the Library. We cannot accept personal checks from staff as payment but can accept payment from the Library. The Library would be responsible for seeking reimbursement from staff members for their individual orders. Staff accounts will not receive Ingram-paid freight.

Schools and Special Libraries - Ingram will set up your accounts to receive two shipments per purchase order. Any in-stock, non-processed book will ship within 24 hours of order entry. Any remaining titles normally available through Ingram will then be placed on backorder for a period of time specified by you. At the end of the backorder period, all books that have come into stock will ship, and all unfilled titles will automatically cancel, except for titles Not Yet Received from the publisher. The second invoice will be marked as final. Ingram has found that this two shipment shipping method is especially helpful to schools. By keeping shipments down to one initial shipment and one final shipment per distribution center and by giving you a final invoice, it is easier to track and close purchase orders.

11. Will the vendor accept rush orders? If Yes, specify how the vendor defines "rush."

XX Yes  
\_\_\_\_\_ No

Remarks: Ingram defines a "rush" order as one requiring immediate turnaround and special shipping. These orders differ from a regular order in that they do not receive processing or cataloging services, are generally very small orders, and are placed with no backorders accepted.

Ingram can accept "rush" orders via toll-free telephone. All orders receive immediate online order entry, as well as instant title and stock verification. Rush orders will be shipped via UPS or other Ingram selected freight method.

Ingram does not charge additional freight for orders that ship with your regularly scheduled shipments via standard transportation. Only rush orders that require next day delivery will incur a freight charge.

It is our experience that the need for next day delivery is extremely rare with our customers. Should the Library require expedited services for an account, such as minimal processing and no cataloging on titles that require a faster turn time, we are happy to discuss your requirements and work to profile accounts as needed.

Items placed on a separate Rush account will be invoiced as shipped. If the Library profiles the account to receive no backorders, then the items in stock would ship and all other items cancel. The Library would then receive one invoice for the purchase order. Rush orders would ship from a single distribution center exclusively.

If the Library has a different definition for Rush Orders, such as items that receive cataloging and processing but that have a faster turn timer than your stated standard 30 days, we are happy to discuss how we can profile your account(s) to meet your requirements.

12. Which of the following will the vendor accept? Select all that apply and attach copies of existing policies that include any restrictions or conditions. If there are associated costs or limits on the amount refunded/credited, complete question 7 in section IV Overall Cost Considerations.

Remarks: **Returns Policy**

Ingram's Returns Policies provide for prompt and efficient resolution for reporting and returning materials that are received damaged, defective, or shipped in error.

- Ingram Customer Service associates are happy to assist with issues including shortages, damages, or defects, and to provide returns authorizations as required.
- Customer Service hours of operation are Monday through Friday, 7:00 a.m. – 6:00 p.m. (Central Time.) Hours are subject to change.
- Through ipage, the Library may create Hassle-Free returns, report shortages, track status of a return, and view credit memos. ipage is available 24 hours a day, 7 days a week.

**Unprocessed Print Material**

Any unprocessed book ordered in good faith and found to be damaged or unsuitable, whether due to Ingram's error or the Library's error, may be returned under the Hassle-Free Returns Policy.

- Unprocessed materials may be returned up to **60 days** after the invoice date.
- A copy of the Hassle-Free Returns form (the back of your packing slip or printed from ipage) should be included in each carton shipped to Ingram.
- **A return authorization number is not required for unprocessed print material.**
- Ingram will not charge a restocking fee for items returned in accordance with our Hassle-Free Returns Policy.

**Product with Defects**

Ingram understands that defects inside a book may not be detected until it has circulated, so there is **no timeframe for returning product with publisher defects**, including the following:

- Missing pages
- Contents out of sequence
- Book bound upside down
- Contents different than the cover/title
- Ink or printing issues
- Crooked pages
- Blank pages
- Disc does not play
- Item is received with missing or incorrect disc(s)

Please note that due to the wear and tear caused by circulation, we will only accept defective books where the binding is falling apart up to 60 days after the invoice date.

#### **Processed Materials**

Items that have received cataloging or processing per the Library's specifications are no longer in resalable condition, and therefore can only be returned due to an Ingram error or if defective or damaged.

- The Library is asked to report any cataloging and processing errors as soon as they are noticed, so that Ingram can research and resolve the issue in a timely manner.
- Processed material returns require return authorization from our Customer Care Department. To request authorization, please call **(800) 937-5300 Ext.27665**

#### **Audiovisual Materials**

Unprocessed audiovisual materials that are damaged, defective, or shipped due to Ingram error may be returned up to **60 days** after the invoice date.

- Audiovisual returns require return authorization from our Customer Care Department. To report defective or damaged product and request authorization, please call **(800) 937-5300 Ext.27665**.
- Playaway<sup>®</sup> accepts return of defective products within one year of the invoice date. The Library should contact Playaway directly.

Ingram will issue a credit for audiovisual titles received damaged or defective, including damage or defects to individual discs in a multi-disc set. If the title is currently in stock, we also offer the option to replace the entire product, rather than just the damaged discs, as Ingram does not stock individual replacement discs in our inventory.

Ingram recognizes that individual discs in a multi-disc title may be lost or damaged once the title is in circulation. Replacements for discs lost or damaged after receipt from Ingram may be available directly from the title's publisher. For example, Brilliance Audio Library Edition audiobooks have a guarantee of free disc and vinyl case replacements. Publisher contact information for every title is easily obtained on ipage at the Library's convenience, 24/7.

#### **Non-Returnable Materials**

Each publisher decides if their product is non-returnable. This may be on a product-by-product or binding-by-binding basis, or as items go out of print. Therefore, Ingram does not assign a non-returnable status to a publisher.

- Non-returnable items are indicated as such on ipage.
- Ingram cannot accept return of any product that we do not stock or items that were not originally purchased from Ingram.

#### **Items Damaged in Shipping**

For materials damaged in transit, the Library is asked to always accept delivery of materials. Damage should be noted on the carrier delivery receipt, and the Library should call our Customer Care Department for instructions on making a return.

### **Overstock Returns**

Return of unprocessed materials sent after the 60-day window will be handled as Overstock Returns.

- Overstock returns for libraries may not exceed 10% of purchases made during the preceding 12 months.
- Overstock returns will have a 10% restocking fee applied.
- All product returned to Ingram must be in a condition that it could be resold. Therefore, we cannot accept return of processed items as overstock returns.
- Ingram reserves the right to send back, at the Library's expense, all products returned to us that is not in resalable condition.

### **Hard to Find Books Alibris Returns Policy**

If the Library is dissatisfied for any reason with a book purchased through our Hard-to-Find Book program, you may return your purchase to the Alibris distribution center within 30 days for a full refund of purchase. Ingram reimburses shipping costs for returns only if the condition of the book is not as described on ipage.

### **Credit Memo**

When returns meet the Hassle-free requirements and upon proper notification and receipt of the returned titles in our distribution center (if required by Ingram), the Library will be credited for the full invoiced amount for the item(s). Overstock returns will be credited at 50.0% credit. A credit memo can be emailed listing the item(s), dollar amount, and purchase order number credited. Open credits will also be reflected on the monthly statement with reference to the purchase order number.

Additional terms for credits for items with an Ingram error or that were received damaged or defective:

- Customer Care will advise the Library whether the physical product should be disposed of or returned to Ingram.
- If Ingram requires the Library to return product to our distribution center, a Call Tag will be issued to cover the freight charges for the return.
- If the Library was invoiced for freight on the original order, we will also credit freight charges, calculated at the standard UPS rate for the weight of the items returned.
- The Library is responsible for shipping and carrying charges for returned items that are not damaged, defective, or shipped with Ingram error.

Items, including EDI purchases, which are credited through our hassle-free, or overstock return process are posted as credit memos to the account. Credits can be applied on your payment, or you may reach out to your Credit Representative and have it applied directly to a specific invoice.

### **Claims**

Please notify Ingram if you have not received an anticipated publication or if an order is short shipped. If an order is shipped but not delivered, claims will be directed to Customer Care to ensure tracking and credit, or replacements are handled as quickly as possible. Anticipated publications may have a delayed release; if so, it will be reflected on ipage.

### **Cancellations**

Ingram can currently accept cancellations through phone, mail, or fax request. The Library can also cancel individual open line items through ipage. If an entire purchase order is open and no line items have been filled, the Library may request that Customer Care cancel the purchase order in its entirety rather than the Library cancelling each title individually. This will be done at no charge to the Library.

**Returns Reporting**

ipage features the following returns reporting options. You can:

- Report shortages.
- Determine the date your return was received.
- See whether a return is in process.
- View credit memo information.

13. Describe how MALiA libraries will submit claims and find out status.

**Claims**

Please notify Ingram if you have not received an anticipated publication or if an order is short shipped. If an order is shipped but not delivered, claims will be directed to Customer Care to ensure tracking and credit, or replacements are handled as quickly as possible. Anticipated publications may have a delayed release; is so, it will be reflected on ipage.

14. Within how many days of receipt will claims be processed by the vendor, and what is the vendor’s average turn-around time for resolution?

We make every attempt to respond within 24 hours (during normal working hours) from phone call or receipt of correspondence. However, some issues may necessitate additional research in order to provide the best service and most complete response to the Library.

15. Does the vendor support online order transfer from the local library’s acquisition system? If Yes, specify requirements for MALiA libraries to participate, including any restrictions on the types of materials that can be transferred.

XX Yes  
\_\_\_\_\_ No

Remarks: Ingram accepts orders electronically (via email attachment and/or EDI – Electronic Data Interchange) or via ipage. Please send emails with attached orders to: [ILS.orders@ingramcontent.com](mailto:ILS.orders@ingramcontent.com).

**EDI**

Ingram supports EDI Transaction types and formats based on your automation system’s capabilities. Ingram EDI offerings include:

- Electronic ordering using the X12 format and FTP for communications
- Enriched EDI ordering.
- Text format full order confirmation via email from Ingram email to user-specified email address.

### EDIFACT Order, Order Response, and Invoice

- Purchase orders are created in your Acquisitions department and sent to Ingram via FTP.
- Ingram processes orders and places electronic confirmation files on the Ingram FTP server for customer retrieval.
- For customers opting to receive electronic invoices, Ingram places electronic invoice files on the Ingram FTP for customer retrieval. E-invoices streamline workflow and increase efficiency. Ingram can provide paper invoices to e-invoice users *if requested*.

### Enriched Edifact Order

This enhanced order transaction allows users to send additional distribution information in the EDI order record providing Ingram with information necessary to create complete holdings records to match items shipped. The holdings records are loaded with MARC bibliographic records and overlay the on-order items. When Ingram sends materials to your location, they are shelf and circulation ready. With Enriched EDI, we can drop-ship to branches. We also simplify account management through ordering on a single account and having Ingram separate orders based upon the enriched data. This allows us to process orders per the library's specifications and route them to the correct branch.

The interface between Ingram and SirsiDynix allows the exchange of X12 transactions. This includes PO, POA, and Electronic Invoices. FTP is supported, but Ingram cannot accept electronic transmissions via EDIFACT for SirsiDynix. Ingram does not require the Library to use specialized software to interface with Polaris.

1. Ingram can accept EDI orders from the Polaris System in the X12 format. Our order management system processes orders sent via this method.
2. Ingram accepts ISBNs; however, we do not process ISSNs as we do not process orders for magazine material.
3. If you use the Polaris system, you can send branch, collection, call number and POLI line number. We use this data to drive cataloging and processing outputs.
4. Ingram can accept call numbers.
5. Ingram accepts the line-item PO number – POLI line number. Once received it is used as a match point for acknowledgment, ASN and invoice transactions.
6. Ingram can also receive bib numbers.
7. Customers using the Polaris System can grid the notes field in ipage to download in their order records, but the Polaris System cannot send the notes field in an EDI order.

16. Are there other aspects of orders and fulfillment the vendor would like to comment on that have not been covered in this section?

  XX   Yes  
       No

Remarks: **Online Account Management**

ipage has many online account management tools. Through ipage, you can:

- Review your current account information, such as standard backorder settings, primary distribution center, and more.
- Keep your contacts up to date with Ingram and make sure the right people receive the information they need to help you manage your account.

- [Cancel backorders.](#)
- [View cancellations.](#)

### III. INVOICES AND PAYMENT

1. Within how many days after the vendor receives an order should a MALiA library expect an invoice?

Ingram does not invoice for items until they have been shipped.

#### **“Invoice in the Box”**

Ingram has the option available to libraries to have their invoice put inside the box of shipped items. This invoice is in a modified, easy to read format. With "Invoice in the Box", libraries can check in items against the invoice and do not have to wait for the invoice to arrive in the mail. The library still has the option to have multiple copies of the invoice. Please note that if invoices are included with the shipment, they cannot be mailed separately.

#### **EDI Invoicing**

EDI invoicing is available. We support daily or weekly summary invoices. For customers opting to receive electronic invoices, Ingram places electronic invoice files on the Ingram FTP for customer retrieval. E-invoices streamline workflow and greatly reduce the amount of effort used in the manual posting of invoices. Ingram continues to provide paper invoices to electronic invoice users.

#### **ipage Invoices**

Ingram offers the convenience of having invoices available to our customers online via ipage our web-based selection, ordering, and account management tool. With ipage, invoices are available to view and print on demand the moment they become available.

2. Describe the vendor’s standard invoicing practices in detail, including whether the vendor invoices partial orders or only when an order is complete.

#### **Invoices**

Ingram can provide multiple copies of invoices. Invoices can be e-mailed or included with the shipment. Ingram can mail invoices is requested. As part of Ingram’s Green Initiative our preference is an electronic transmission.

Title data on invoices is listed in the following order: (1) quantity ordered and shipped, (2) author, (3) title, (4) publisher, (5) ISBN/EAN, (6) unit list price, (7) discount, (8) unit net price, and (9) extended price. Items on invoices are listed alphabetically by either the author or the title per the Library’s request.

All invoices have an invoice number and date, order entry number, and Ingram’s Federal ID number. Library name, ship to and billing account addresses and numbers, and purchase order number (can be up to 22 characters in length) are all listed on the invoice. Order data includes shipping warehouse and location, carrier, ship date, number of cartons, and total weight of order.

Also included on the invoice is a code for each binding type. If a title is a Library Binding, it may be designated as such by the notation LIB after the title.

Ingram can invoice for cataloging and processing on the same invoice as materials or on a separate invoice, per request of the Library. Processing and cataloging charges appear as separate line items when billed on the same invoice as materials. Processing and cataloging are invoiced as accumulated charges, not individual line items per each title.

### Financial Information on ipage

The Library's ipage Administrator can designate which staff members have access to view account-specific accounting items such as All Open Accounting Items, Open Invoices, and Open Credit Memos. Using the Advanced Search feature, the Library can further refine their search results for these accounting items by entering one or a combination of Customer or Ingram Reference Number, Purchase Order, Product Code, and Transaction or Due Date Ranges. Closed invoices and credit memos are available for viewing for 90 days.

Through ipage, the Library can also look at its last statement and view the last six payments received by Ingram plus review recent and pending electronic payments.

### Partial Invoices

Partial invoices are indicated on ipage by an asterisk after the Ingram Reference Number. The remaining amount still due is listed under Open Invoices. The original invoice is accessible under Closed Invoices by searching using the same reference number.

6. The vendor is able to separately invoice multiple accounts for a MALiA library.

XX Yes  
\_\_\_\_\_ No

Remarks: Each library should inform Ingram's Account Services Department that they wish to set up a new account or maintenance an existing account under the terms of this contract. During account set up the library will establish the billing location for invoicing. Standard discounts and terms will apply until such time. Ingram cannot issue credits for accounts failing to follow the proper notification and account set up procedures.

Any item ordered prior to the contract start date will not receive the discounts offered in this proposal. This includes both standing orders and previous backorders. Should the library receive a previously ordered item after the contract is in effect, previous discounts will apply.

We do not sell to individuals but can establish staff accounts that ship and bill to the Library. We cannot accept personal checks from staff as payment but can accept payment from the Library. The Library would be responsible for seeking reimbursement from staff members for their individual orders. Staff accounts will not receive Ingram-paid freight.

~~7. The vendor is able to accommodate Net 60 payment terms without imposing an extra charge.~~

~~\_\_\_\_\_ Yes  
\_\_\_\_\_ No~~

Remarks:

7. Is a penalty imposed for late payment of an invoice? If yes, indicate the time period and amount of the penalty.

Remarks: Ingram reserves the right to assess a late charge on all past due invoices.

8. Will the vendor provide discounts or credits for early payment of invoices? If Yes, describe and enumerate any early payment percentage schedules.

XX Yes  
\_\_\_\_\_ No

Remarks: Ingram does not currently offer an early pay discount

9. Will the vendor impose a penalty for late payment of an invoice? If Yes, indicate the time period and the penalty fee/rate.

XX Yes  
\_\_\_\_\_ No

Remarks: Payment terms under this contract shall be Net 30 EOM. Payment is required for invoices within these terms even when a purchase order has not been completed. Ingram does not invoice for items until they have been shipped.

While other vendors demand payment from invoice date, Ingram's terms are calculated on statement date at the end of each month. With payment due 30 days from statement date, the customer's payment is due an average of 45 days from invoice (30-59 days). Ingram reserves the right to assess a late charge on all past due invoices.

Invoice discrepancies must be reported to Ingram within 30 days of the invoice date. All discrepancy reports must include an invoice number and date of invoice. Discrepancies reported after 30 days from invoice date will not be adjusted.

For opening day collections, Ingram can store product and ship to you at an agreed upon date under the following terms. Items will be invoiced when they are moved to storage in an Ingram facility after receiving processing and cataloging services and are payable within 30 days EOM. Ownership and title of said product passes to the Library upon invoice.

10. Does the vendor accept credit card payment (American Express, VISA, MasterCard) without imposing an extra charge?

Yes  
 No

Remarks: Ingram can profile your account to receive payment via your MasterCard, VISA, American Express or Discover credit card. You must first establish an account specifically for credit card purchases and provide your credit card information at the time of account set-up. Orders placed on these accounts will be automatically charged to the credit card. The Library may also establish an additional non-credit card billing account with Ingram's standard 30-day billing/payment terms.

11. Are there other aspects of invoicing/payment the vendor would like to comment on that have not been covered in this section?

Remarks: [Electronic Funds Transfer](#) - EFT is a method by which ipage® customers can pay invoices online by direct bank draft. All data transferred to your browser is encrypted using the Internet protocol, Secure Socket Lay (SSL.) SSL is a protocol designed to provide privacy between a Web client and a Web server by encrypting all data sent between your Web Browser and the ipage® server.

EFT allows you to pay your entire statement online, or you can pay specific, individual items. You can view information on any electronic payment detail for the last 45 days.

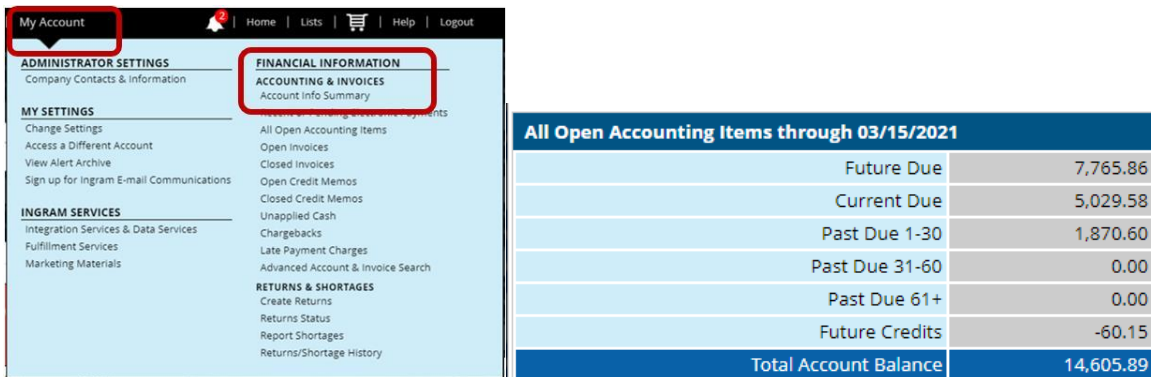

Only the ipage® Administrator and the Accounts Payable designate have access to this function. Note that EFT is set up to allow only one Library staff member at a time to use the function. When one user leaves the EFT function, another Library-designated staff will be able to use EFT.

[Pay Online](#) - Payments can be made electronically on ipage® through a bank account(s) profiled on the account. Pay Online Easy Clicks include: Pay Amount Due, Pay Total Balance, Pay Individual Items Only, Recent or Pending Electronic Payments, and Change Bank Account. ## IV. OVERALL COST CONSIDERATIONS

1. On Attachment C, "Offeror Discount Pricing Sheet," list the discounts the vendor will provide to MALiA libraries during the contract period.

Ingram has completed and returned Attachment C with our response.

2. Describe the vendor's service charges, and how they are calculated or vary depending on type of service.

If a Library wishes to view full-text reviews, there is a nominal fee of **\$350.00** per year for that additional service. The Library also has the option of paying in installments of **\$35.00** per month. Price of reviews is subject to change on an annual basis.

Titles ordered under our optional Hard to Find Books Service ship from Alibris's distribution facility, and not an Ingram warehouse. They will not combine with your Ingram orders for shipping and may have different turn times and shipping methods. These titles are sold at the net price shown, plus a \$3.95 per book shipping and handling fee if shipped within the United States.

Due to the impact of rising oil prices, Ingram has instituted a \$2.00 fuel surcharge.

3. The vendor shall not charge MALiA libraries for replacement copies of order items found to be defective, damaged, or lost in shipment, provided the loss is reported to the vendor by libraries within the publishers' designated time frame.

XX Yes  
\_\_\_\_\_ No

Remarks: Ingram has included our full return policy under Orders and Fulfillment, item 12.

#### Product with Defects

Ingram understands that defects inside a book may not be detected until after circulation, so there is no timeframe for returning product received with publisher defects. These defects include the following:

- ✓ Missing pages
- ✓ Contents out of sequence
- ✓ Books bound upside down
- ✓ Contents different from that indicated on the cover/title
- ✓ Ink or printing issues
- ✓ Crooked pages
- ✓ Blank pages
- ✓ Malfunctioning disc
- ✓ Item received with missing or incorrect disc(s)

Please note that due to wear and tear that circulation can create, we accept books with broken bindings for up to 60 days after the invoice date.

Ingram issues **credit for audiovisual titles received damaged or defective**, including damage or defects to individual discs in a multi-disc set. If the title is currently in stock, we also offer the option to replace the entire product, rather than only the damaged discs, as Ingram does not stock individual replacement discs in our inventory.

Ingram recognizes that individual discs in a multi-disc title may be lost or damaged once the title is in circulation. Replacements for discs lost or damaged after receipt from Ingram may be available directly from the title's publisher. For example, Brilliance Audio Library Edition audiobooks offers a guarantee of free disc and vinyl case replacements. You can obtain publisher contact information for every title in ipage at your convenience, 24 hours a day, 7 days a week.

#### Items Damaged in Shipping

We ask the Library to always accept delivery of materials damaged in transit. Library staff should note product impairment on the carrier delivery receipt and call our Customer Care Department for return instructions.

4. If the publisher is unable to provide a replacement copy of an item found to be defective, damaged, or lost in shipment, the vendor shall seek to obtain a credit on behalf of the library.

XX Yes  
\_\_\_\_\_ No

Remarks: Ingram has included our full return policy under Orders and Fulfillment, item 12.

**Credit Memo**

When returns meet the Hassle-free requirements and upon proper notification and receipt of the returned titles in our distribution center (if required by Ingram), the Library will be credited for the full invoiced amount for the item(s). Overstock returns will be credited at 50.0% credit. A credit memo can be emailed listing the item(s), dollar amount, and purchase order number credited. Open credits will also be reflected on the monthly statement with reference to the purchase order number.

Additional terms for credits for items with an Ingram error or that were received damaged or defective:

- Customer Care will advise the Library whether the physical product should be disposed of or returned to Ingram.
- If Ingram requires the Library to return product to our distribution center, a Call Tag will be issued to cover the freight charges for the return.
- If the Library was invoiced for freight on the original order, we will also credit freight charges, calculated at the standard UPS rate for the weight of the items returned.
- The Library is responsible for shipping and carrying charges for returned items that are not damaged, defective, or shipped with Ingram error.

Items, including EDI purchases, which are credited through our hassle-free, or overstock return process are posted as credit memos to the account. Credits can be applied on your payment, or you may reach out to your Credit Representative and have it applied directly to a specific invoice.

5. The vendor shall cover the cost of returning defective or damaged physical items and arrange for pick-up.

Yes  
 No

Remarks: **Items Damaged in Shipping**

For materials damaged in transit, the Library is asked to always accept delivery of materials. Damage should be noted on the carrier delivery receipt, and the Library should call our Customer Care Department for instructions on making a return.

6. Will the vendor provide free shipping/handling for physical materials? If No, describe exceptions (e.g. rush orders) and how shipping charges will be calculated.

Yes  
 No

Remarks:

**Public Libraries** - For libraries with a **minimum of \$150,000** in annual expenditures with Ingram or a commitment to meet this annual expenditure level, orders will ship with Ingram-paid freight from your primary and secondary distribution centers.

For libraries with **less than \$150,000** in annual expenditures, Orders of 15 or more units from both your primary and secondary distribution center will ship with Ingram Paid Freight. Shipments of fewer than 15 units will be charged a flat \$6.00 shipping fee. This flat fee amount or qualifying unit quantity is subject to change with notice. Items picked, packed, and shipped together count as an individual shipment.

Due to the impact of rising oil prices, Ingram has instituted a \$2.00 fuel surcharge. This fee is subject to change with notice.

Orders will ship FOB Destination. Ingram defines FOB Destination as Ingram being responsible for the products until they are delivered to the library. Once the items have been delivered, liability lies with the receiving agency. Ingram normally ships items via UPS ground transportation. Shipping will be via best method, which may include order or account consolidation, shipping schedules or other account setting adjustments to maintain freight costs below 2% of invoice.

**Schools and Special Libraries** - Ingram is pleased to offer an Ingram-paid freight option from your primary and secondary distribution centers. Orders of 15 or more units from both your primary and secondary distribution center will ship with Ingram Paid Freight. Shipments of fewer than 15 units will be charged a flat \$6.00 shipping fee. This flat fee amount or qualifying unit quantity is subject to change with notice. Items picked, packed, and shipped together count as an individual shipment.

Due to the impact of rising oil prices, Ingram has instituted a \$2.00 fuel surcharge. This fee is subject to change with notice.

Orders will ship FOB Destination. Ingram defines FOB Destination as Ingram being responsible for the products until they are delivered to the library. Once the items have been delivered, liability lies with the receiving agency. Ingram normally ships items via UPS ground transportation. Shipping will be via best method, which may include order or account consolidation, shipping schedules or other account setting adjustments to maintain freight costs below 2% of invoice.

Ingram will set up your accounts to receive two shipments per purchase order. Any in-stock, non-processed book will ship within 24 hours of order entry. Any remaining titles normally available through Ingram will then be placed on backorder for a period of time specified by you. At the end of the backorder period, all books that have come into stock will ship, and all unfilled titles will automatically cancel, except for titles Not Yet Received from the publisher. The second invoice will be marked as final. Ingram has found that this two-shipment shipping method is especially helpful to schools. By keeping shipments down to one initial shipment and one final shipment per distribution center and by giving you a final invoice, it is easier to track and close purchase orders.

7. For order returns, exchanges, or credits, what extra charges or limits on the amount refunded/credited will be applied, if any?

Ingram has included our full return policy under Orders and Fulfillment, item 12.

### **Overstock Returns**

We handle returns of unprocessed materials sent after the 60-day window as Overstock Returns:

- ✓ Overstock returns from libraries cannot exceed 10% of purchases made during the preceding 12 months.
- ✓ Overstock returns are subject to a 10% restocking fee.
- ✓ All product returned to Ingram must be in a marketable condition. Therefore, we cannot accept return of processed items as overstock returns.
- ✓ Ingram reserves the right to send back, at the Library's expense, all products returned to Ingram not in resalable condition.

8. Describe the vendor's credit practices in detail, including under what circumstances the vendor will provide credits to MALiA libraries.

### **Unprocessed Print Material**

Under the Hassle-Free Returns Policy, libraries can return any unprocessed book received damaged or unsuitable, whether due to Ingram or customer error.

- ✓ The Library can return unprocessed materials for up to 60 days after invoice date.
- ✓ Ingram will not charge a restocking fee for items returned in accordance with our Hassle-Free Returns Policy.
- ✓ The library should include a copy of the Hassle-Free Returns form (found on the back of packing slip or printed from ipage) in each carton shipped to Ingram.
- ✓ A return authorization number is not required for unprocessed print material.

### **Product with Defects**

Ingram understands that defects inside a book may not be detected until after circulation, so there is no timeframe for returning product received with publisher defects. These defects include the following:

- ✓ Missing pages
- ✓ Contents out of sequence
- ✓ Books bound upside down
- ✓ Contents different from that indicated on the cover/title
- ✓ Ink or printing issues
- ✓ Crooked pages
- ✓ Blank pages
- ✓ Malfunctioning disc
- ✓ Item received with missing or incorrect disc(s)

Please note that due to wear and tear that circulation can create, we accept books with broken bindings for up to 60 days after the invoice date.

### **Processed Materials**

Items with cataloging or processing per Library's specifications are no longer in resalable condition and therefore can only be returned due to Ingram error or if defective or damaged.

- ✓ We ask the Library to report cataloging and processing errors as soon as they are noticed, so that we can investigate and resolve the issue in a timely manner.
- ✓ Processed material returns require return authorization from our Customer Care Department. To request authorization, please call (800) 937-5300 Ext.27665

### **Audiovisual Materials**

Customers can return unprocessed audiovisual materials received damaged or defective, or shipped due to Ingram error up to 60 days after invoice date.

- ✓ Audiovisual returns require return authorization from our Customer Care Department. To report defective or damaged product and request authorization, please call (800) 937-5300 Ext.27665.
- ✓ Playaway® accepts return of defective products within one year of invoice date. The Library must contact Playaway directly for return information.

Ingram issues credit for audiovisual titles received damaged or defective, including damage or defects to individual discs in a multi-disc set. If the title is currently in stock, we also offer the option to replace the

entire product, rather than only the damaged discs, as Ingram does not stock individual replacement discs in our inventory.

Ingram recognizes that individual discs in a multi-disc title may be lost or damaged once the title is in circulation. Replacements for discs lost or damaged after receipt from Ingram may be available directly from the title's publisher. For example, Brilliance Audio Library Edition audiobooks offers a guarantee of free disc and vinyl case replacements. You can obtain publisher contact information for every title in ipage at your convenience, 24 hours a day, 7 days a week.

#### **Non-Returnable Materials**

- ✓ Each publisher decides whether a product is non-returnable. Publishers may make this determination on a product-by-product or binding-by-binding basis, or as items go out of print.
- ✓ Non-returnable items are indicated on ipage.
- ✓ Ingram cannot accept return of any product we do not stock or did not provide.

#### **Items Damaged in Shipping**

We ask that the Library always accept delivery of materials damaged in transit. Library staff should note product impairment on the carrier delivery receipt and call our Customer Care Department for return instructions.

#### **Hard to Find Books Alibris Returns Policy**

If dissatisfied for any reason with a book purchased through our Hard-to-Find Book program, you may return your purchase to the Alibris distribution center within 30 days for a full refund of purchase. Ingram reimburses shipping costs for returns when the book's condition is not as described on ipage.

#### **Credit Memo**

Upon proper notification and receipt of returned titles in our distribution center (if required by Ingram), we credit the customer for the full invoiced amount of the item(s.) We email a credit memo listing the item(s), dollar amount, and purchase order number credited. Credits appear on the monthly statement with reference to the purchase order number and credit memos are visible on ipage.

Additional terms for credits of items received damaged or defective or due to Ingram error:

- ✓ Customer Care advises the Library whether to discard physical product or return to Ingram.
- ✓ If Ingram requests the Library return product to our distribution center, we issue a Call Tag to cover return freight charges.
- ✓ We issue credit for any freight charges from the original order. We calculate freight at the standard UPS rate for the weight of items returned.
- ✓ The Library assumes responsibility for shipping and carrying charges for returned items not damaged, defective, or shipped due to Ingram error.

#### **No Charge Replacement**

Alternatively, the library may call our Customer Care Department to request a No Charge Replacement (NCR) in lieu of credit for an item damaged, defective, or shipped due to Ingram error

- ✓ If a replacement title is in stock, the Customer Care Representative will either email or fax a No Charge Replacement Return Authorization form to your library.
- ✓ The Library must mail this form along with the returned item and the original packing slip for a replacement copy.

- ✓ If the library requests a No Charge Replacement for a Backorder Only or Print-to-Order title, but there is insufficient stock to replace all discrepancies, we issue credit for product.
  - ✓ Important: For Libraries that provide enriched data with their orders (i.e., data that guides cataloging and processing), Ingram issues a credit. The Library must then submit the reorder via whatever method used to place the original order, such as EDI or ipage grids.
9. Specify any one-time or recurring charges for electronic/digital hosting, access, setup, or ongoing support.

Ingram charges a \$350 annual fee for full text journal reviews accessible via ipage®.

## ADDITIONAL INFORMATION

### Packaging

In preparing books for shipment, our standard procedure is to stack the books on a cardboard base as a tight cube shape. The books are then wrapped in plastic and placed in a high test-weight box. Ingram is known for using the best boxes in the industry with the highest test weights. Paper and/or air pillows as dunnage are placed as needed in the carton before the box is closed and sealed. The shipping cartons Ingram uses have the highest recycled content allowed to maintain burst strength.

### Inside Delivery

When requested by a customer, and if the carrier's operating conditions permit, the carrier may perform inside delivery. Please note that the carrier's only obligation is to get the freight inside the door or onto a dock. It is the Library's responsibility to transfer the material to other desired destinations. If inside delivery is desired, the Library must specify this when establishing/updating their account(s). Where inside delivery is not provided, the carrier's only obligation is to move the freight to the back of the truck. Inside delivery will be clearly designated on the shipper's bill of lading but not on the Ingram shipping label.

### Training

ipage training will be provided **free of charge** for library staff who are unfamiliar with ipage or who would like a review of ipage functions.

This training is available for as many staff as the library specifies. Your Ingram Senior Sales Representative will provide the onsite ipage training.

Excellent, remote delivery "WebEx" training can be provided for refresher and update training and is also **free of charge**. WebEx provides very flexible, user-friendly training, allowing libraries to request training sessions for individual library staff or for groups. Your Inside Sales Representative will provide remote training.

### Wednesdays with Ingram Webinar Series

Ingram has a regular, ongoing webinar series called *Wednesdays with Ingram*. These one-hour webinars are held most Wednesdays throughout the year, from 1:00 p.m. – 2:00 p.m. CST. The Inside Sales Team hosts these ipage tutorials, which cover topics from basic functionality to high-level navigation.

### **Definitions of Binding Types and Presses**

Discounts are applied to the publisher's current list price. Prior to placing an order, the Library can determine estimated discounted pricing for an entire list by utilizing the *Price this List* feature on ipage.

In determining which titles receive less than full trade discounts, Ingram has utilized its best efforts to categorize books for pricing purposes by considering the binding, cost of acquisition, general marketing categories, publisher's discount, and other factors as defined by the Definitions of Binding Types and Presses provided. Ingram reserves the right to be the sole and final determinant of the pricing category.

**Trade Hardcover:** High demand fiction and nonfiction books published with a glued binding and a hardcover. These titles are typically for the general consumer and produced by widely distributed publishers. Trade bindings may also be referred to as retail trade editions, trade books, hardbound books, hardback books, cloth bound books or cloth cover books. Publishers normally produce these titles in larger print runs. \*

**Quality Paperback:** High demand fiction and nonfiction books with paper covers and generally no size restriction. Any illustrations or graphics may be placed throughout the book; both paper and printing are high quality. These titles are typically for the general consumer and produced by widely distributed publishers. This binding may also be referred to as trade paper or trade paperback. \*

**Mass Market Paperback:** High demand books with paper covers that are produced in a size to fit a standard retail store display and generally deal with subjects of mass appeal. Any illustrations are grouped together in one section of the book. \*

**Library Bindings:** Books of higher quality publisher bindings, usually fanned and glued, and may also be sewn. Books may be identified as Library Bindings on ipage.

**University Press:** The binding types may vary for these titles (i.e., Hardcover and/or Paperback), but all are published by a University Press.

**Short Discount/Non-Trade:** Lower demand, small print-run books in various bindings, and includes legal, technical, reference, scientific, medical, and graphic novel titles as defined by Ingram subject categories. Titles are generally published by small or university presses. Also included are print and audiobook titles purchased at lower than full trade discount; titles with limited sales volume; and/or titles from publishers not in compliance with Ingram's purchasing requirements. Ingram is pleased to make this broad base of titles available to our customers with no service charges.

**Large Print:** Ingram does not recognize the large print title as a separate binding type for discount purposes. Large print titles will receive discounts according to the binding/press assigned to the ISBN ordered as outlined above.

**Graphic Novels:** A narrative work in which the story is conveyed to the reader using comic form. The term is employed in a broad manner, encompassing nonfiction works and thematically linked short stories as well as fictional stories across a number of genres.

**Picture Books, Board Books, Easy Readers, and Big Books:** These juvenile genre categories are not discounting categories used by Ingram. These books will receive the discount appropriate to the specific binding/press ordered as outlined above. We estimate that at least 80% would receive the full trade discount.

**Prebound Books:** Paperback books bound into a hardback edition. Our inventory also includes over 17,500 prebound titles from Perfection Learning and San Val (Turtleback Books), and are identified on iPage as Prebound-Sewn or Prebound-Glued

**World Language Materials:** Ingram does not recognize Spanish language (or any world languages) as a discounting category. These books will receive the discount appropriate to the specific binding/press ordered as outlined above.

**Spoken Word Audio:** Audiobooks produced for the general consumer and dealing with subjects of mass appeal. Spoken Word audio may be abridged or unabridged and are generally sold by publishers at full trade discounts, however some titles may be short discounted by the publisher. Ingram does not differentiate between MP3 CD and Audio CD formats for discounting purposes.

Book and spoken word audio kits will receive discounts based upon classification of the title, typically by the publisher, as a book or as a spoken word audio. If classified as a book, it will receive the discount appropriate to the specific binding/press assigned to the ISBN ordered.

**DVD and Blu-ray:** Currently, Ingram provides pre-recorded titles in these categories under a single discount. However, should a new format of DVD emerge in the industry for which studios apply different purchasing terms, Ingram will notify the Library of the discount applicable to that new format.

**Net:** Low demand, small print run books in various binds and categories upon which Ingram receives minimal or no purchase discount. This category of book will receive a 0% discount. Ingram is pleased to make this broad base of titles available to our customers with **no service charges**.

*\*See Short Discount for explanation on titles that may fall outside of this discount category.*

**DISCOUNTS AND TERMS SUMMARY**

For this multi-year contract, Ingram reserves the right to re-evaluate discounts and terms at the end of the initial contract period and to review cataloging and processing pricing on an annual basis.

Other - List Below (if package, specify components included):  
- **Value-Added Price Sheet included**

**Payment terms** under this contract shall be Net 30 EOM. Payment is required for invoices within these terms even when a purchase order has not been completed. Ingram does not invoice for items until they have been shipped.

While other vendors demand payment from invoice date, Ingram's terms are calculated on statement date at the end of each month. With payment due 30 days from statement date, the customer's payment is due an average of 45 days from invoice (30-59 days). Ingram reserves the right to assess a late charge on all past due invoices.

Invoice discrepancies must be reported to Ingram within 30 days of the invoice date. All discrepancy reports must include an invoice number and date of invoice. Discrepancies reported after 30 days from invoice date will not be adjusted.

For opening day collections, Ingram can store product and ship to you at an agreed upon date under the following terms. Items will be invoiced when they are moved to storage in an Ingram facility after receiving processing and cataloging services and are payable within 30 days EOM. Ownership and title of said product passes to the Library upon invoice.

**Freight Terms**

**Public Libraries** - For libraries with a **minimum of \$150,000** in annual expenditures with Ingram or a commitment to meet this annual expenditure level, orders will ship with Ingram-paid freight from your primary and secondary distribution centers.

For libraries with **less than \$150,000** in annual expenditures, Orders of 15 or more units from both your primary and secondary distribution center will ship with Ingram Paid Freight. Shipments of fewer than 15 units will be charged a flat \$6.00 shipping fee. This flat fee amount or qualifying unit quantity is subject to change with notice. Items picked, packed, and shipped together count as an individual shipment.

Due to the impact of rising oil prices, Ingram has instituted a \$2.00 fuel surcharge. This fee is subject to change with notice.

Orders will ship FOB Destination. Ingram defines FOB Destination as Ingram being responsible for the products until they are delivered to the library. Once the items have been delivered, liability lies with the receiving agency. Ingram normally ships items via UPS ground transportation. Shipping will be via best method, which may include order or account consolidation, shipping schedules or other account setting adjustments to maintain freight costs below 2% of invoice.

**Schools and Special Libraries** - Ingram is pleased to offer an Ingram-paid freight option from your primary and secondary distribution centers. Orders of 15 or more units from both your primary and secondary distribution center will ship with Ingram Paid Freight. Shipments of fewer than 15 units will be charged a flat \$6.00 shipping fee. This flat fee amount or qualifying unit quantity is subject to change with notice. Items picked, packed, and shipped together count as an individual shipment.

Due to the impact of rising oil prices, Ingram has instituted a \$2.00 fuel surcharge. This fee is subject to change with notice.

Orders will ship FOB Destination. Ingram defines FOB Destination as Ingram being responsible for the products until they are delivered to the library. Once the items have been delivered, liability lies with the receiving agency. Ingram normally ships items via UPS ground transportation. Shipping will be via best method, which may include order or account consolidation, shipping schedules or other account setting adjustments to maintain freight costs below 2% of invoice.

Ingram will set up your accounts to receive two shipments per purchase order. Any in-stock, non-processed book will ship within 24 hours of order entry. Any remaining titles normally available through Ingram will then be placed on backorder for a period of time specified by you. At the end of the backorder period, all books that have come into stock will ship, and all unfilled titles will automatically cancel, except for titles Not Yet Received from the publisher. The second invoice will be marked as final. Ingram has found that this two-shipment shipping method is especially helpful to schools. By keeping shipments down to one initial shipment and one final shipment per distribution center and by giving you a final invoice, it is easier to track and close purchase orders.
