**FOURTH AMENDMENT TO THE AGREEMENT BETWEEN OKALOOSA
COUNTY, FLORIDA AND
BOUND TREE MEDICAL, LLC
CONTRACT NO. C16-2384-PS**

This fourth Amendment to the Agreement between Okaloosa County, a political subdivision of the state of Florida (the "County"), and Bound Tree Medical, LLC, executed this _____ day of **MAR 03 2020**, 20____, is made a part of the original Agreement dated March 16, 2016, Contract No. C16-2384-PS (the "original Agreement"), incorporated herein by reference. The County and Contractor hereby agree as follows:

1. **OPTION TO RENEW.** The parties hereby wish to exercise their final yearly option to renew the original Agreement for an additional one (1) year term in accordance with Section IV of the original Agreement.
2. **EFFECTIVE DATE OF RENEWAL TERM.** The Effective Date of this Amendment shall commence March 16, 2020 and shall terminate no later than March 15, 2021.
3. **INSURANCE.** Effective for the term of renewal, the parties wish to amend Exhibit "B" of the original Agreement "Insurance Requirements" and replace with Attachment "A" of this Amendment.
4. **COMPENSATION.** Compensation for this renewal term of the Agreement shall:

Section A of the original Agreement ("Compensation") shall be revised as follows:

See updated rate sheet attached as "D".

5. **PROHIBITION AGAINST CONTRACTING WITH SCRUTINIZED COMPANIES.** Pursuant to Florida Statutes Section 215.4725, contracting with any entity that is listed on the Scrutinized Companies that Boycott Israel List or that is engaged in the boycott of Israel is prohibited. Contractors must certify that the company is not participating in a boycott of Israel. Any contract for goods or services of One Million Dollars (\$1,000,000) or more shall be terminated at the County's option if it is discovered that the entity submitted false documents of certification, is listed on the Scrutinized Companies with Activities in Sudan List, the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has been engaged in business operations in Cuba or Syria after July 1, 2018.

Any contract entered into or renewed after July 1, 2018 shall be terminated at the County's option if the company is listed on the Scrutinized Companies that Boycott Israel List or engaged in the

boycott of Israel. Contractors must submit the certification that is attached to this agreement as Attachment "B". Submitting a false certification shall be deemed a material breach of contract. The County shall provide notice, in writing, to the Contractor of the County's determination concerning the false certification. The Contractor shall have ninety (90) days following receipt of the notice to respond in writing and demonstrate that the determination was in error. If the Contractor does not demonstrate that the County's determination of false certification was made in error, then the County shall have the right to terminate the contract and seek civil remedies pursuant to Florida Statute Section 215.4725.

6. **CIVIL RIGHTS.** The Contractor agrees to comply with pertinent statutes, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance. This provision binds the Contractor and subcontractors from the bid solicitation period through the completion of the contract. This provision is in addition to that required by Title VI of the Civil Rights Act of 1964.
7. **COMPLIANCE WITH NONDISCRIMINATION REQUIREMENTS.** During the performance of this Agreement, the Contractor, for itself, its assignees, and successors in interest, agrees as follows:
 - a. **Compliance with Regulations:** The Contractor will comply with the Title VI List of Pertinent Nondiscrimination Acts and Authorities, as they may be amended from time to time, which are herein incorporated and attached hereto as Attachment "C".
 - b. **Nondiscrimination:** The Contractor, with regard to the work performed by it during the Agreement, will not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR part 21.
 - c. **Solicitations for Subcontracts, including Procurements of Materials and Equipment:** In all solicitations, either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the Contractor of the contractor's obligations under this contract and the Nondiscrimination Acts and Authorities on the grounds of race, color, or national origin.
 - d. **Information and Reports:** The Contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the County or other governmental entity to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails

or refuses to furnish the information, the Contractor will so certify to the County or the other governmental entity, as appropriate, and will set forth what efforts it has made to obtain the information.

e. Sanctions for Noncompliance: In the event of a Contractor's noncompliance with the non-discrimination provisions of this contract, the County will impose such contract sanctions as it or another applicable state or federal governmental entity may determine to be appropriate, including, but not limited to:

a. Withholding payments to the Contractor under the Agreement until the Contractor complies; and/or

b. Cancelling, terminating, or suspending the Agreement, in whole or in part.

f. Incorporation of Provisions: The Contractor will include the provisions of paragraphs one through six in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations, and directives issued pursuant thereto. The Contractor will take action with respect to any subcontract or procurement as the County may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the Contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the Contractor may request the County to enter into any litigation to protect the interests of the County. In addition, the Contractor may request the United States to enter into the litigation to protect the interests of the United States.

8. **OTHER PROVISIONS REMAIN IN EFFECT.** Except as specifically modified herein, all terms and conditions of the original Agreement between the parties, dated March 16, 2016 and any amendments thereto, shall remain in full force and effect.
9. **CONFLICTING PROVISIONS.** The terms, statements, requirements, or provisions contained in this Amendment shall prevail and be given superior effect and priority over any conflicting or inconsistent terms, statements, requirements or provisions contained in any other document or attachment.

(Remainder of Page Intentionally Left Blank)

IN WITNESS WHEREOF, the parties hereto have executed this Amendment on the day and year first written above.

**RENEWAL AND 2ND AMENDMENT TO CONTRACT C16-2384-PS
BOUND TREE MEDICAL, LLC
EMS SUPPLIES & INVENTORY MGMT**

This Renewal and 2nd Amendment made and entered into this 6th day of March, 2018, hereby renews and amends contract C16-2384-PS, dated March 16, 2016, by and between Okaloosa County, Florida, (hereinafter the "County") and Bound Tree Medical, LLC (hereinafter the "Contractor").

WHEREAS, on March 16, 2016, the County and Contractor entered into a contract, C16-2384-PS, which provides EMS Supplies and inventory management; and

WHEREAS, the term of C16-2384-PS shall expire on March 15, 2018; however, the contract provides for renewals; and

WHEREAS, the County and Contractor wish to update language in the contract and the vendor supply list with new items added, deleted and/or substituted items and revised prices attached as Exhibit "A"; and

WHEREAS, the County, as a recipient of federal assistance, is required to incorporate specific provisions in all contracts, regardless of funding source, with additional provisions being required for federally funded projects. These provisions are being incorporated per this amendment attached hereto as Exhibit "B"; and

WHEREAS, the parties wish to amend the contract to add new and updated general services insurance requirements attached hereto as Exhibit "C".

NOW THEREFORE, in consideration of the mutual covenants herein and other good and valuable consideration, the parties hereby agree to renew and amend C16-2384-PS as follows:

1. C16-2384-PS is hereby renewed for an additional term. The contract renewal period shall begin March 16, 2018 and will expire March 15, 2019.
2. Contract supply list and pricing is attached hereto as Exhibit "A" and incorporated herein.
3. Contractor agrees to comply with all federal regulations, including, but not limited to those set forth in Exhibit "B", attached hereto and incorporated herein.
4. C16-2384-PS is hereby amended to add updated general services insurance requirements attached hereto as Exhibit "C"; attached hereto and incorporated herein.
5. The Contract is hereby amended to add the following provision:
Substitutions

Whenever materials or equipment are specified or described in this Contract by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by the County if sufficient information is submitted by Contractor to allow the County to determine that the material or equipment proposed is equivalent or better than to that named. Substitutions are also permitted where a Force Majeure has occurred that interferes with gaining equipment or materials from a particular supplier. In the instance of a Force Majeure, the Contractor shall notify the County of the reasoning and substitution. In the case of a Force Majeure the substitution may take place immediately.

For purposes of this Contract, a Force Majeure means an event beyond the control of the Contractor, which prevents the Contractor from complying with its obligations under this Contract. This includes, but is not limited to: an act of God (such as, a hurricane, fires, expositions, earthquakes, drought, tidal waves and floods); War; Acts of Threats of Terrorism; and Strikes involving a supplier.

In the event a requested substitution results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable actual equipment or materials costs as a result of the change (including allowance for labor burden costs) plus a maximum ten percent (10%) markup for all overhead and profit. No formal amendment to the Contract will be necessary for the amount increase due to substitution, as long as the amount increase has been sufficiently documented by the Contractor showing the actual equipment or materials costs as well as the overhead and profit markup.

6. All other provisions of the Contract shall remain in full force and effect through the duration of the renewal.

IN WITNESS WHEREOF, the parties hereto have executed this renewal and amendment as of the day and year first written.

Okaloosa County shall be the sole judge of the bid and the resulting negotiated Agreement that is in its best interest and its decision shall be final.

Okaloosa County reserves the right to waive any informalities or reject any and all bids, in whole or part, to utilize any applicable state contracts in lieu of or in addition to this bid and to accept the bid that in its judgment will best serve the interest of the County.

Okaloosa County specifically reserves the right to reject any conditional bids and bids those which make it impossible to determine the true amount of the bid. Each item must be bid separately and no attempt is to be made to tie any item or items to any other item or items.

- 15. **WARRANTY** – (The warranty will be in the name of Okaloosa County) Warranty work specified herein is for a minimum of two (2) years from delivery against defects in materials and in labor and workmanship. State the manufacturer’s warranty with your bid.
- 16. **PAYMENTS** – The respondent shall be paid upon submission of invoices and approval of acceptance by Okaloosa County Board of County Commissioners, Finance Office, 302 N. Wilson St., #203, Crestview FL 32536, for the prices stipulated herein for articles delivered and accepted. Invoices must show Contract #.
- 17. **DISCRIMINATION** - An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid on a contract to provide goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not award or perform work as a contractor, supplier, subcontractor, or consultant under contract with any public entity, and may not transact business with any public entity.

18. **PUBLIC ENTITY CRIME INFORMATION** - Pursuant to Florida Statute 287.133, a respondent may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in s. 287.017 for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

19. **CONFLICT OF INTEREST** - The award hereunder is subject to the provisions of Chapter 112, Florida Statutes. All respondents must disclose with their bids the name of any officer, director, or agent who is also a public officer or an employee of the Okaloosa Board of County Commissioners, or any of its agencies. Furthermore, all respondents must disclose the name of any County officer or employee who owns, directly or indirectly, an interest of five percent (5%) or more in the firm or any of its branches.

Note: For respondent's convenience, this certification form is enclosed and is made a part of the bid package.

20. **RECYCLED CONTENT INFORMATION** - In support of the Florida Waste Management Law, respondents are encouraged to supply with their bid any information available regarding recycled material content in the products bid. The County is particularly interested in the type of recycled material used (such as paper, plastic, glass, metal, etc.) and the percentage of recycled material contained in the product. The County also requests information regarding any known or potential material content in the product that may be extracted and recycled after the product has served its intended purpose.

Note: For respondent's convenience, this certification form is enclosed and is made a part of the bid package.

21. **LOCAL PREFERENCE** - Okaloosa County reserves the right to grant a preference to in-county respondents only when bids are received from firms located in states, counties, municipalities or other political subdivisions which offer preference to respondents located in such political subdivisions. The amount of preference given to local respondents will be the same as that given by the state, county, municipality or other political subdivisions in which a respondent is located. If the political subdivision in which a respondent is located offers a preference to its local firms, that respondent must plainly state the extent of such preference to include the amount and type preference offers. Any respondent failing to indicate such preference will be removed from the County bid list and any and all bids from that firm will be rejected.

Note: For respondent's convenience, this certification form is enclosed and is made a part of the bid package.

22. **REORGANIZATION OR BANKRUPTCY PROCEEDINGS** – Bids will not be considered from respondents who are currently involved in official financial reorganization or bankruptcy proceedings.

23. **INVESTIGATION OF RESPONDENT** – The County may make such investigations, as it deems necessary to determine the stability of the respondent to perform the work and that there is no conflict of interest as it relates to the project. The respondent shall furnish to the Owner any additional information and financial data for this purpose as the County may request.

24. **AUTHORITY TO PIGGYBACK** - All respondents submitting a response to this Request for Bid agree that such response also constitutes a bid to all governmental agencies under the same conditions, for the same contract price, and for the same effective period as this bid, should the respondent feel it is in their best interest to do so.

Each governmental agency desiring to accept these bids and make an award thereof shall do so independently of any other governmental agency. Each agency shall be responsible for its own purchases and each shall be liable only for materials and/or services ordered and received by it, and no agency assumes any liability by virtue of this bid.

This Agreement in no way restricts or interferes with the right of any governmental agency to bid any or all items.

25. **NO CONTACT CLAUSE** - The Okaloosa County Board of County Commissioners has established a solicitation silence policy (**No Contact Clause**) that prohibits oral and written communication regarding all formal solicitations for goods and services (formal bids, Request for Proposals, Requests for Qualifications) issued by the Board through the County Purchasing Department. The period commences when the procurement document is received by the respondent and terminates when the Board of County Commissioners approves an award.

Note: For respondent's convenience, this certification form is enclosed and is made a part of the bid package.

26. **REVIEW OF PROCUREMENT DOCUMENTS** - Per Florida Statute 119.071 (2) 2 sealed bids, proposals, or replies received by the County pursuant to a competitive solicitation are exempt from public disclosure until such time as the agency provides notice of an intended decision or until 30 days after opening the bids, proposals, or final replies, whichever is earlier.

27. **COMPLIANCE WITH FLORIDA STATUTE 119.0701** - The Respondent shall comply with all the provisions of section 119.0701, Florida Statutes relating to public records which requires, among other things, that the Respondent: (a) Keep and maintain public records; (b) Provide the public with access to public records on the same terms and conditions that the public agency would provide the records; (c) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law; and (d) Meet all requirements for retaining public records and transfer, at no cost, to the public agency all public records in possession of the respondent upon termination of the contract.

28. **PROTECTION OF RESIDENT WORKERS** - The Okaloosa County Board of County Commissioners actively supports the Immigration and Nationality Act (INA) which includes provisions addressing employment eligibility, employment verifications, and nondiscrimination. Under the INA, employers may hire only persons who may legally work in the United States (i.e., citizens and nationals of the U.S.) and aliens authorized to work in the U.S. The employer must verify the identity and employment eligibility of anyone to be hired, which includes completing the Employment Eligibility Verifications. The respondent shall establish appropriate procedures and controls so no services or products under the Contract Documents will be performed or manufactured by any worker who is not legally eligible to perform such services or employment. Okaloosa County reserves the right to request documentation showing compliance with the requirements.

Respondents doing construction business with Okaloosa County are required to use the Federal Government Department of Homeland Security's website and use the E-Verify Employment Eligibility Verifications System to confirm eligibility of all employees to work in the United States.

29. **SUSPENSION OR TERMINATION BY OWNER FOR CONVENIENCE** - The County may, at any time, without cause, order Respondent in writing to suspend, delay or interrupt the work in whole

or in part for such period of time as the County may determine, or to terminate all or a portion of the Contract for the County's convenience. Upon such termination, the Contract Price earned to the date of termination shall be paid to Respondent, but Respondent waives any claim for damages, including loss of profits arising out of or related to the early termination. Those Contract provisions which by their nature survive final acceptance shall remain in full force and effect. If the County orders a suspension, the Contract price and Contract time may be adjusted for increases in the cost and time caused by suspension, delay or interruption. No adjustment shall be made to the extent that performance is, was or would have been so suspended, delayed or interrupted by reason for which Respondent is responsible; or that an equitable adjustment is made or denied under another provision of this Contract.

30. **FAILURE OF PERFORMANCE/DELIVERY** - In case of default by the respondent, the County after due notice (oral or written) may procure the necessary supplies or services from other sources and hold the respondent responsible for difference in cost incurred. Continuous instances of default shall result in cancellation of the contract and removal of the respondent from the bid list for duration of one (1) year, at the option of the County.
31. **AUDIT** - If required, respondent shall permit the County or an authorized, independent audit agency to inspect all data and records of respondent relating to its performance and its subcontracts under this contract from the date of the contract through and until the expiration of contract.
32. **EQUAL EMPLOYMENT OPPORTUNITY; NON DISCRIMINATION** – Respondent will not discriminate against any employee or an applicant for employment because of race, color, religion, gender, sexual orientation, national origin, age, familial status or handicap.
33. **NON-COLLUSION** – Respondent certifies that it has entered into no Agreement to commit a fraudulent, deceitful, unlawful or wrongful act, or any act which may result in an unfair advantage over other respondents. See Florida Statute 838.22.
34. **UNAUTHORIZED ALIENS/PATRIOT'S ACT** – The knowing employment by respondent or its subcontractors of any alien not authorized to work by the immigration laws is prohibited and shall be a default of the contract. In the event that the respondent is notified or becomes aware of such default, the respondent shall take steps as are necessary to terminate said employment with 24 hours of notification or actual knowledge that an alien is being employed. Respondent's failure to take such steps as are necessary to terminate the employment of any said alien within 24 hours of notification or actual knowledge that an alien is being employed shall be grounds for immediate termination of the contract. Making Precious Minutes Count...™

Pharmaceutical Price Increase

Regarding price increases, it is Bound Tree's intent not to increase its pricing on pharmaceutical products for the initial term. However, manufacturers have recently been significantly increasing prices on pharmaceutical products due to market conditions and the anticipated costs associated with complying with federal legislation being considered by Congress relating to the manufacturing of drugs. In the event such price increases occur after the award of this bid, Bound Tree will notify you of such increases and provide adequate documentation to demonstrate when the price increase is to go into effect. The parties will then negotiate in good faith a new price for the affected pharmaceutical products. If the parties are unable to reach an agreement on new pricing, Bound Tree reserves the right to find an alternative pharmaceutical product(s) at no additional cost or to discontinue the affected product(s).

NON-WARRANTY PRODUCT RETURN POLICY

Prior to returning a product, please contact the Bound Tree Medical Customer Service Department at 800-533-0523 to obtain a return merchandise authorization (RMA) number. This will help us to expedite your return and allow us to give you the proper credit. Once you have received your RMA number please follow the return policy guidelines.

All pharmaceuticals, items with expiration dates, and items that are subject to FDA tracking requirements are not returnable. Bound Tree Medical will only accept returns for pharmaceuticals if it was an error on our part. If so, please contact us within 7 calendar days of receipt of the product to obtain an RMA number. Items received without an RMA or after 15 calendar days will not receive credit.

If Bound Tree Medical makes an error in fulfilling or shipping your order, we will promptly rectify the mistake at no cost to you. If we have made an error and you wish to return the product(s) to us, notification must be received within 15 days of invoice. Following the initial error notification, please follow the return policy guidelines:

Non-returnable Items Include:

1. Items that are special order items.
2. Items that are buy-to-order (BTO) items.
3. Items that have been marked or engraved.
4. Items returned with broken packaging or not in original packaging.
5. Customized items, any sterile product that has been opened or items determined by Bound Tree Medical not to be in resalable condition.
6. Product that is more than 60 days older than the invoice date.

Return Policy Guidelines:

1. Items returned within 30 days of the invoice date will not be subject to a restocking fee.
2. Items returned 31 - 60 days than the invoice date will be subject to a 15% restocking fee.
3. Items older than 60 days from the invoice date will not be accepted in our warehouse and will be returned to the customer.
4. Please write the RMA number clearly on the package label.

Making Precious Minutes Count...™

5. Enclose a copy of the original invoice or packing list in the box.
6. Send the package freight prepaid.
7. Returns must be received by Bound Tree Medical within 30 days of issuance of RMA number.
8. Items received without a RMA number will not be eligible for credit.

RETURNS FOR PERSONAL PROTECTIVE EQUIPMENT (PPE)

Bound Tree Medical has experienced a significant surge in orders for personal protective equipment (PPE) due to the outbreak of Ebola and we are working closely with our suppliers to keep up with the increased demand. To further this effort and ensure that we do not over-allocate products based upon excess order quantities, PPE products will no longer be eligible for return. Additionally, all open PO's for PPE products will not be cancellable after placement. This policy update is effective October 22, 2014. We will revisit this update when the Ebola crisis has subsided and alert you to any additional changes.

As indicated on the Bound Tree return policy, all returns require an approved RMA number. Items received without an RMA will not receive credit. Please contact Customer Service at 800-533-0523 if you have questions or would like additional information.

RETURN FOR REPAIRS

Items to be returned for repair must be prepared according to the most recent OSHA requirements. Items must be properly cleaned and verified with a statement on the outside of the package. Proof of purchase must be included with all manufacturer warranty repairs. Please contact our Customer Service Department for additional information.

CLAIMS

All claims for damage occurring in transit must be made upon receipt of goods by customer directly to the carrier. Please save all boxes and packing material. All shipment errors must be reported immediately upon receipt to Bound Tree Medical Customer Service.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.
Future developments. The IRS has created a page on www.irs.gov/w9 for information about Form W-9, at www.irs.gov/w9. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:
1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
 2. Certify that you are not subject to backup withholding, or
 3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the

withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

OPERATIVE IQ

Barcode Scanning Increases Efficiency

Barcode scanning greatly enhances your efficiency when managing inventory and assets. Barcodes allow you to quickly receive inventory, count inventory, issue inventory, transfer inventory and check in and out assets. By scanning item barcodes you reduce the opportunity for error. It is estimated that barcodes increase efficiency by 60% when compared to manual paper processes.

EMS Technology Solutions offers a variety of barcode scanning equipment. All equipment offered has been certified to work easily with Operative IQ without the need for third party software.

EMS Technology Solutions has partnered with Datalogic, a global leader in barcode scanning technology. Datalogic provides readers that are easy to connect and very reliable. Datalogic's barcode readers also feature Datalogic's exclusive patented 'Green Spot' for good read feedback directly on the barcode.

Datalogic Bluetooth Barcode Reader

A wireless barcode reader with a 98 foot range and incredible barcode scanning speed and accuracy. The reader can transmit data to the host through its base station as well as any commercial or embedded Bluetooth v2.0 compliant device. We recommend this barcode reader for small supply rooms, check-out counters, inventory counting with a laptop or USB enabled tablet and for use on vehicles to scan cabinet seals when using the Operative IQ Quick Seal scan functionality or to Check Out/In assets. The readers can also be used with a reader stand that can be used on a desk or mounted to a wall.

OPERATIVE IQ

Barcoding System

Generate and print Barcodes by Category, Subcategory, Part Type or UPC for improved data accuracy when performing inventory management functions. Barcodes can be printed on Avery labels with a standard laser or inkjet printer. For improved barcode printing you can choose to purchase the optional Barcode Printer which is a roll fed label printer that prints using a wax/resin thermal transfer process for added label durability and ease of use.

In Operative IQ, a barcode is simply a unique identifier for an item/asset or a group of disposable items being managed. Although the barcode itself does not provide an inventory trail, using barcodes to perform inventory transactions accurately and efficiently. A complete transaction history of any and all items in the system is available in reports. Print Barcode Labels for any item from the parts list. The system has the capability to assign and print off barcode labels and barcode scanning greatly enhances efficiency when managing inventory and assets by reducing chance for human error.

WEB-BASED ORDERING/INVENTORY MANAGEMENT SYSTEM

1. Web enabled ordering from any PC, Laptop, Tablet PC or PDA using wireless or cabled internet access. Ordering from any vendor to replenish a supply room is available on any computer or device with internet connectivity. An Electronic "check sheet" may also be used to allow a "unit" or internal point of usage to request items for restock from a supply room. The Check Sheet Application can be run on any device (Windows, Android, or IOS operating Systems). It is recommended that the device screen size is no smaller than a tablet for best performance.
2. Ability to load multiple facility locations for ordering and reporting. System allows for unlimited supply rooms or physical locations that are replenished by receiving an order or from receiving inventory transferred from another supply room. Supplies are managed through the supply rooms and out to the points of usage ("Units"). Another Option to easily manage inventory in outlying facilities is to create an electronic check sheet where a facility (as a "Unit") can periodically inventory what is on-hand and request replenishment for items that are below Par Level from the warehouse. Reporting is available on all transactions.
3. Password protection for multiple users for different locations. System is secure with customizable roles and access that can be dynamically assigned to unlimited employees. The agency can define and assign security roles to permit or restrict access to components of the system and Supply Rooms. Each crew member will have unique log in credentials to gain access to the allowed components using their logon ID and password. System does not display passwords when being entered for security purposes; Agency administration can reset a password or Forgotten Password emails may be sent from the system If crew emails are available. Active Directory is also available and the same login and password can be used to access Operative IQ as done to login to Windows.
4. Ability to manage inventory levels at 23 locations
An Agency may set up unlimited Supply Rooms for the account regardless of how many Unit licenses are enabled. Each Supply Room allows for each product to have its own Re-Order and Par Level. Each Supply Room profile has a section for name, address, contact/manager, and whether supply requests send to the room should be to be managed by a supervisor in the Operative IQ Back Office or set to Auto Accept to track requested inventory leaving a supply room if Crew Members restock Unit themselves. Additional Units can be added as needed as well (license fees are based on the number of Units)
5. Ability to add more locations as needed.
An Agency may set up unlimited Supply Rooms for the account. Import, Export and Cloning available to help with mass amounts of data. In addition, a specific location in a Supply Room is available to assign to items for exact location within a location. Additional Units may be added as well (License fees are based on the number of units)
6. Ability to generate orders for all locations.
Any Supply Room may generate an order (requisition or PO) to any vendor via PDF (that may be printed and faxed) or via email. Because the system is tracking live inventory counts at all times, the system can also recommend the items that should be ordered to bring each supply room up to its fully restocked Par Levels. Orders can then be received against the PO in the system and the ability to then receive the orders electronically into each supply room closes the PO and also updates live inventory counts in the room. A "Unit" or point of supply usage may also generate and "order" or request for restock from a supply room using an electronic check sheet.

7. Barcode process enabled (in relation to inventory receiving, shipping and usage).
Products can be identified in Operative IQ in many ways, including by barcode. Existing Barcodes can be loaded into an agency's site or barcodes for specific items can be generated in and printed easily from the system. Although inventory management transactions (such as receiving into a supply room, cycle counting to update batches or quantity on hand, and issuing inventory to capture usage) can be performed by clicking on items or searching items by keyword, barcode scanning can increase efficiency and minimize errors in some cases. Barcodes allow Agency to quickly receive inventory, count inventory, issue inventory, transfer inventory and check in and out assets. Scanning item barcodes reduce the opportunity for error over keying in codes.

8. Barcode to provide an inventory trail and ability to track items purchased, received and used to ensure accuracy.
8. In Operative IQ, a barcode is simply a unique identifier for an item/asset or a group of disposable items being managed. Although the barcode itself does not provide an inventory trail, using barcodes to performing inventory transactions can accuracy and efficiency and a complete transaction history of any and all items in the system is available in reports. Print Barcode Labels for any item from parts list. System has the capability to assign and print off barcode labels and barcode scanning greatly enhances efficiency when managing inventory and assets.

9. E-mail alert notifications to: vendor of orders; system manager for pending replenishment, requisitions and security notifications.
Email Purchase Orders directly to suppliers from Operative IQ and receive order confirmation from vendor. There is an option to add Approvers based off monetary levels where they would receive an email to approve a purchase order after the Save Draft button has been selected. When a Purchase Order is created and ready for Approval, a notification will be sent via e-mail to the appropriate Approver at Agency. Manage recipients for notifications based on Supply Room/Location.

Notifications are sent for Supply Requests and when a response to a question on the questionnaire is flagged to notify a supervisor. When a Supply Request is submitted from the electronic Check Sheet after a User performs an inspection or checks all inventory, a notification will be sent to appropriate Administrators. When a Supply Request is fulfilled the Check Sheet will notify the approval. Configurable questionnaires allow Users to perform Unit and Station Inspections. Notifications can be routed via email to anyone in Organization.

A report can be configured to generate and send e-mails to anyone in Organization at a preferred frequency to include items that are not available through other notification methods and sent via e-mail notification on a regular basis.

10. Multi-level authorization of orders (draft, pending, and authorized).
All purchase orders are given a Status depending on each one's stage: in a Draft or Open status, known as In Process. Purchase Order summary list can be filtered by Supply Room, Supplier and Status. As new statuses occur to orders, they will be displayed in the Status drop down filter. There is an option to add Approvers based off monetary levels where they would receive an email to approve a purchase order after the Save Draft button has been selected.

11. Multi-level online reporting to include to: daily usage, monthly usage, quarterly usage, yearly usage for all locations, inventory histories, cost histories.
The first class reporting system provides both canned and custom reports. These reports can be run on a schedule and emailed directly to anyone in the organization. This great feature can also provide non system Users with timely management reports without having to login to the software.

A library of Standard Reports are provided with the software to assist in getting to know and understand the supply inventory and fixed assets. Each of these reports can be further customized to meet the needs of the operation. Additional reports are easily created in the report manager. Key features of the custom reporting include: usage over a period of time for each location, cost histories of each location and Inventory histories for each location.

Example Reports Available: Expiring Parts by Supply Room, Asset by Location, Total Cost of Ownership, Book of Bar Codes, Purchase Order Details, Supply Room Usage Details, Supply Room Analysis, Supply Room Historical Inventory, Inspection Details, Unit Supply Usage Details.
12. Auto-replenishment feature that can be utilized by all locations and automatically sent to the system manager. Each Supply Room can be set up to choose how inventory for that location is to be managed. Auto-Accept allows the system automatically update inventory quantities based on supply requests allowing crew members to pick up their own supplies. The electronic Check Sheet will show the accepted items. A Supply Request will always be sent to the system manager if their e-mail(s) is in the settings for the Supply Room replenishing the stock.
13. Requisitioning module for the system manager to make purchases.
Agency can purchase any item from any vendor through system and orders can be created for stocked as well as non-stocked items. System automates purchasing by generating electronic requisitions or Purchase Orders for Supply Rooms based on supply reorder points and actual stock quantities.
14. Inventory Management System cost must include five (5) WASPWC53900 CCD Barcode scanners.
Operative IQ is not compatible with WASPWC53900 scanners. The system is, however, compatible with most simple scanners that connect to your computers via USB connection. We highly recommend the Datalogic barcode scanners, a global leader in barcode scanning technology. We can provide the Datalogic Gryphon GBT 4100, that is easy to connect via Bluetooth (wireless) and very reliable.

WEB BASED EQUIPMENT AND ASSET TRACKING SYSTEM

When an asset is tagged and ready for deployment, managers/supervisors and crew members will have option to "Check Out" assigned equipment through the web-based Back Office or integrated crew member check sheet based on management preferences. Crew member accountability is greatly increased when Agency knows who is responsible for specific equipment. When crew members are done they simply "Check In" the assets to return them to the station or turn into to manager on duty to Check In through the web-based Back Office. The system's Check Out – Check In process ensures expensive and essential equipment is available when Agency needs it.

The system allows for a flexibility of tracking assets by allowing managers to allow crew members or management to Check Out and Check In assets based on management preference.

Managers may control the process and supervise which assets crew members are allowed to take in their possession by disabling crews from being able to Check Out, Check In or Transferring and Check Out and Check In any assets to and from crew members through the web-based Back Office. At any time management may log into the web-based Back Office to see which assets are in which crew members' possession, asset's Tag#/Serial#, assign Due Back dates, check the Checked Out Date, check if there is a signature for the Check Out and check the asset's last reported Verification Status. Barcode scanners can be used to capture the Crew Member's badge ID number.

Crew members if given permission through system settings may Check Out, Check In or Transfer assets on their own as they begin a shift and before leaving shift through the electronic Check Sheet. Barcode scanners can be used to capture the asset's tag number.

When assets are Checked Out through the web-based Back Office, either the crew member or Unit taking possession of the asset is chosen. Asset may be checked out to Crew Member by scanning their badge ID (or select from a list if Crew Member not present) and select which Supply Room the asset is being Checked Out from. When asset is Checked Out, it is removed from the supply room or location until it is Checked In.

When an asset is Checked Out to a Unit, same process applies except the Crew Member ID is not entered for the transaction. Crew Members can Verify that asset later when performing a Unit inspection and confirms whether the asset is on that Unit or not on the electronic check sheet. A report can give managers information on which Crew Members performed the checks on which Units, and there is an Asset Verification history log that is available in the web-based Back Office at all times.

If a Unit or Crew Member has any previously Checked Out items that have not been returned, those items will be listed once the Crew Member or Unit ID is chosen to proceed to choosing the items to Check Out.

Asset Tag Number and Serial will always be attached to equipment being Checked Out. If the asset is physically available, the tag# can be scanned into system to select, or if not (for example, a stretcher out in the garage) an asset may be chosen from the selection list.

Same process as for Check-Out, except click "Check In" for the items in possession that need to be returned. Once in the Check Out/In Assets portal, choose the Crew Member by scanning badge ID or choose Unit. All items that are being returned must be check marked, and then manager can click "Check In". Items Checked In will be taken off the list.

Alternative to Back Office- through Check Sheet (Crew Member Users who work on Units): Asset Check-Out/Check-In/Transfer: Crew Member opens the Assets tab and clicks Add Asset, scans the Asset Tag # and receives the confirmation message. To Check In, click Remove Asset, and choose the asset to return by clicking "Check In", and system will confirm the return.
