

BOARD OF COUNTY COMMISSIONERS AGENDA REQUEST

DATE: September 5, 2023
TO: Honorable Chairman and Distinguished Members of the Board
FROM: Mark Wise
SUBJECT: Highway 90 West Water Main Replacement - Gator Boring Task Order 14
DEPARTMENT: Water and Sewer
BCC DISTRICT: 3

STATEMENT OF ISSUE: Consideration of Task Order 14 with Gator Boring & Trenching, Inc. (Gator Boring) per the terms of contract #C20-2905-WS for the installation of sub-surface directional bores on the Hwy 90 West Water Main Replacement project, to make connections with proposed potable water mains that run along the south side of Highway 90. This Task Order will be at a not to exceed cost of \$310,160.20.

BACKGROUND: As depicted on the attached map, the proposed portion of the project consists of approximately 6,300 linear feet (LF) of 10" water transmission main, 2,600 LF of 10" horizontally drilled directional bore, 1,300 LF of 6" water transmission main, and 200 LF of 6" ductile iron along Highway 90 from Antioch Road to Enzor Road. The above-mentioned new water mains will replace aging water mains, the majority of which are thin-walled PVC that has been subject to water main breaks over the last several years.

OCWS will be self-performing the construction of the above-mentioned project using OCWS staff and equipment to expedite completion of the project. A majority of the labor will be done by OCWS's in-house forces, but the horizontal directional bores will need to be performed by Gator Boring. OCWS will oversee Gator Boring's directional bores totaling approximate 2,600 LF of 10" fusible PVC water main.

FUNDING SOURCE:

Department # 4120
Account # 563531
Amount \$ 310,160.20

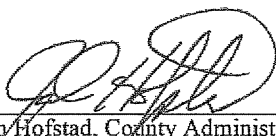

OPTIONS: Approve/Deny/Postpone

RECOMMENDATIONS: Approval of Task Order 14 with Gator Boring for the installation of sub-surface directional bores on the Hwy 90 West Water Main Replacement project and authorization for the Chairman to execute.
