BID REQUIREMENTS

BACKGROUND:

Okaloosa County operates an Emergency Medical Services Division that provides emergency ambulance transportation on an exclusive basis throughout Okaloosa County. This division supplies all necessary medical supplies for 24 licensed Ambulances, as well as for all Okaloosa County Fire Departments. Pickup and/or deliveries will be made to one central supply center located at 714 Essex Rd, Fort Walton Beach, FL 32547.

PURPOSE:

The Okaloosa County Board of County Commissioners is seeking qualified vendors to provide medical supplies on a continuous basis for the county's EMS Division. The EMS Division desires a vendor who will provide a web-based inventory management system to centrally manage and report on the movement of medical supplies to effectively track and order supplies and assets. The EMS Division also needs four (4) UCAP 3 devices (Controlled Access Pharmacy, CAP for short) provided by selected vendor, so as to allow the ability to restock units 24/7 and have real-time usage and inventory tracking.

SCOPE OF WORK:

To provide medical supplies on a continuous basis for the County's EMS Division. The qualified respondent shall be licensed to supply medications in the state of Florida, in accordance with Florida Statute 499.01 which states, "Any such person must comply with the licensing or permitting requirements of the jurisdiction in which the establishment is located and the federal act, and any product wholesaled into this state must comply with this part. If a person intends to import prescription drugs from a foreign country into this state, the nonresident prescription drug manufacturer must provide to the department a list identifying each prescription drug it intends to import and document approval by the United States Food and Drug Administration for such importation".

The web-based inventory management system will also track preventative maintenance data for all assets. The inventory system must include licenses to track inventory and assets on 24 vehicles. The inventory solution shall be included at no additional cost to the County and should be hosted by the vendor and accessible by the County through the internet. The system should be web based, manage inventory and assets, manage preventative maintenance data, manage multiple facility locations for ordering, manage inventory at the truck level as well as the supply room level, provide multi-level reporting, password protected, barcode process enabled, provide multi-level authorization of orders, and have an auto-replenishment feature that can be turned on or off. The system must be in a hosted environment by the vendor. No onsite computer servers or IT support will be provided. Data Back-Ups shall be provided by the vendor however, in the event that the awarded respondent should lose the contract in the future, the County reserves the right to retain any and all data placed into the system prior to and up to contract termination.

The CAP devices shall check multiple forms of ID and will prompt for station or dispatch specific data. All withdrawals are cataloged, time stamped and regulated by tech clearance/training level. The CAP aggregates all dispensing history and alerts for low stock position, expiring product and creates a pick list for restocking. It will generate individual call reports based on products restocked. This information can be printed or exported to the departments Accounts Payable/Receivable Software.

Exhibit A is a line item estimate for annual supply use and data collected shall be the basis for award (the *Bid Sheet*). These quantities are not intended to represent actual annual requirements, as that varies each year. The County does not guarantee a minimum total purchase. The specifications shown are intended to represent items of a quality level known to meet the County's requirements. While the County endeavors to promulgate written specifications that are accurate and nonrestrictive for bidding purposes, there may be references to items by manufacturer name. Respondents are cautioned that in the event of a discrepancy therein, such difference must be questioned in writing prior to the advertised deadline for questions. Should the County need to purchase items not specified in *Exhibit A*, there must be a basis for cost of said items. Respondents must provide a catalog (*Exhibit B*) with pricing (hereafter these prices will be referred to as contract pricing) for all available products and indicate on the bottom of Page 8 of the Bid Sheet the discount percentage offered for any and all other supplies (not noted in *Exhibit A*) that may be required.

The respondent shall notify the County in writing within two (2) business days should any item be discontinued or no longer be available after bid award. Any proposed substitutions shall include validation of the item's discontinuance, confirmation that the price for the substituted item is fair and reasonable, and be accompanied by all necessary specification and data sheets to provide evidence that the proposed item meets or exceeds all specs of the original item.

SPECIFICATIONS FOR WEB-BASED ORDERING/INVENTORY MANAGEMENT SYSTEM:

1) Web enabled ordering from any PC, Laptop, Tablet PC or PDA using wireless or cabled internet access.

Ordering from any vendor to replenish a supply room is available on any computer or device with internet connectivity. An electronic "check sheet" may also be used to allow a "Unit" or internal point of usage to request items for restock from a supply room. The Check Sheet Application can be run on any device (Windows, Android, or IOS operating Systems). It is recommended that the device screen size is no smaller than a tablet for best performance.

2) Ability to load multiple facility locations for ordering and reporting. System allows for unlimited supply rooms or physical locations that are replenished by receiving an order or from receiving inventory transferred from another supply room. Supplies are managed through the supply rooms and out to the points of usage ("Units"). Another Option to easily manage inventory in outlying facilities is to create an electronic check sheet where a facility (known as a "Unit") can periodically inventory what is on-hand and request replenishment for items that are below Par Level from the warehouse. Reporting is available on all transactions.

3) Password protection for multiple users for different locations. System is secure with customizable roles and access that can be dynamically assigned to unlimited employees. The agency can define and assign security roles to permit or restrict access to components of the system and Supply Rooms. Each crew member will have unique log in credentials to gain access to the allowed components using their logon ID and password. System does not display passwords when being entered for security purposes; Agency administration can reset a password or Forgotten Password emails may be sent from the system If crew emails are available. Active Directory is also available and the same login and password can be used to access Operative IQ as done to login to Windows.

4) Ability to manage inventory levels at multiple locations. An Agency may set up unlimited Supply Rooms for the account regardless of how many Unit licenses are enabled. Each Supply Room allows for each product to have its own Re-Order and Par Level. Each Supply Room profile has a section for name, address, contact/manager, and whether supply requests send to the room should be to be managed by a supervisor in the Back Office or set to Auto Accept to track requested inventory leaving a supply room if crew members restock Unit themselves. Additional Units can be added as needed as well.

5) Ability to add more locations as needed. An Agency may set up unlimited Supply Rooms for the account. Import, Export and Cloning available to help with mass amounts of data. In addition, a specific location in a Supply Room is available to assign to items for exact location within a location. Additional Units may be added as well (License fees are based on the number of Units)

6) Ability to generate orders for all locations. Any Supply Room may generate an order (requisition or PO) to any vendor via PDF (that may be printed and faxed) or via email. Because the system is tracking live inventory counts at all times, the system can also recommend the items that should be ordered to bring each supply room up to its fully restocked Par Levels. Orders can then be received against the PO in the system and the ability to then receive the orders electronically into each supply room closes the PO and also updates live inventory counts in the room. A "Unit" or point of supply usage may also generate an "order" or request for restock from a supply room using an electronic check sheet.

7) Barcode process enabled (in relation to inventory receiving, shipping and usage). Products can be identified in solution in many ways, including by barcode. Existing Barcodes can be loaded into an agency's site or barcodes for specific items can be generated in and printed easily from the system. Although inventory management transactions (such as receiving into a supply room, cycle counting to update batches or quantity on hand, and issuing inventory to capture usage) can be performed by clicking on items or searching items by keyword, barcode scanning can increase efficiency and minimize errors in some cases. Barcodes allow Agency to quickly receive inventory, count inventory,

issue inventory, transfer inventory and check in and out assets. Scanning item barcodes reduce the opportunity for error over keying in codes.

8) Barcode to provide inventory trail and ability to track items purchased, received and used to ensure accuracy. In inventory solution, a barcode is simply a unique identifier for an item/asset or a group of disposable items being managed. Although the barcode itself does not provide an inventory trail, using barcodes to performing inventory transactions can accuracy and efficiency and a complete transaction history of any and all items in the system is available in reports. Print Barcode Labels for any item from parts list. System has the capability to assign and print off barcode labels and barcode scanning greatly enhances efficiency when managing inventory and assets.

9) E-mail alert notifications to vendors and the System Manager. Email Purchase Orders directly to suppliers from inventory solution and receive order confirmation from vendor. There is an option to add Approvers based off monetary levels where they would receive an email to approve a purchase order after the Save Draft button has been selected. When a Purchase Order is created and ready for Approval, a notification will be sent via e-mail to the appropriate Approver at Agency. Manage recipients for notifications based on Supply Room/Location.

Notifications are sent for Supply Requests and when a response to a question on the questionnaire is flagged to notify a supervisor. When a Supply Request is submitted from the electronic Check Sheet after a User performs an inspection or checks all inventory, a notification will be sent to appropriate Administrators. When a Supply Request is fulfilled the Check Sheet will notify the approval. Configurable questionnaires allow Users to perform Unit and Station Inspections. Notifications can be routed via email to anyone in Organization.

A report can be configured to generate and send e-mails to anyone in Organization at a preferred frequency to include items that are not available through other notification methods and sent via e-mail notification on a regular basis.

10) Multi-level authorization of orders (draft, pending, and authorized). All purchase orders are given a Status depending on each one's stage: in a Draft or Open status, known as In Process. Purchase Order summary list can be filtered by Supply Room, Supplier and Status. As new statuses occur to orders, they will be displayed in the Status drop down filter. There is an option to add Approvers based off monetary levels where they would receive an email to approve a purchase order after the Save Draft button has been selected.

11) Multi-level online reporting to include daily, monthly, quarterly, and yearly usage for all locations. The first class reporting system provides both canned and custom reports. These reports can be run on a schedule and emailed directly to anyone in the organization. This great feature can also provide non system Users with timely management reports without having to login to the software.

A library of Standard Reports are provided with the software to assist in getting to know and understand the supply inventory and fixed assets. Each of these reports can be further customized to meet the needs of the operation. Additional reports are easily created in the report manager. Key features of the custom reporting include: usage over a period of time for each location, cost histories of each location and inventory histories for each location.

Example Reports Available: tCodes, Purchase Order Details, Supply Room Usage Details, Supply Room Analysis, Supply Room Historical Inventory, Inspection Details, and Unit Supply Usage Details.

12) Auto-replenishment feature utilized by all locations and automatically sent to the System Manager. Each Supply Room can be set up to choose how inventory for that location is to be managed. Auto-accept allows the system automatically update inventory quantities based on supply requests allowing crew members to pick up their own supplies. The electronic Check Sheet will show the accepted items. A Supply Request will always be sent to the System Manager if their e-mail(s) is in the settings for the Supply Room replenishing the stock.

13) Requisitioning module for the System Manager to make purchases. Agency can purchase any item from any vendor through system and orders can be created for stocked as well as non-stocked items. System automates purchasing by generating electronic requisitions or Purchase Orders for Supply Rooms based on supply reorder points and actual stock quantities.

14) Inventory Management System barcode scanners. The system is compatible with most simple scanners that connect to your computers via USB connection. The system can utilize Datalogic barcode scanners, a global leader in barcode scanning technology. The vendor can provide the Datalogic Gryphon GBT 4100, that is easy to connect via Bluetooth (wireless) and very reliable.

15) Web based equipment and Asset Tracking System. The web based equipment and Asset Tracking System program shall collect data at point of issue (Check Out) for any equipment or supplies (including narcotics) at the beginning of each shift. This information would include the employee to which the product is to be assigned, date and time of issuance and the Truck they are assigned. At shift's end, the items would be subject to 'Check In' or returned to the supply area until needed again. To facilitate this tracking, one utilizes barcodes and barcode scanners to enter the issuance and item return. In addition, the program will also track any permanently assigned items for each employee or vehicle.

When an asset is tagged and ready for deployment, managers/supervisors and crew members will have option to 'Check Out' assigned equipment through the web-based Back Office or integrated crew member check sheet based on management preferences. Crew member accountability is greatly increased when Agency knows who is responsible for specific equipment. When crew members are done they simply 'Check In' the assets to return them to the station or turn into to manager on duty to 'Check In' through the web-based Back Office. The system's 'Check Out'/'Check In' process ensures expensive and essential equipment is available when Agency needs it.

16) Process. The program must be web-based which allows flexibility for tracking each item and allows reviewing by management from any web enabled computer.

The system allows for flexibility of tracking assets by allowing managers to allow crew members or management to 'Check Out' and 'Check In' assets based on management preference.

Managers may control the process and supervise which assets crew members are allowed to take in their possession by disabling crews from being able to 'Check Out', 'Check In' or 'Transfer' and 'Check Out' and 'Check In' assets to and from other crew members through the web-based Back Office. At any time management may log into the web-based Back Office to see which assets are in which crew members' possession, asset's Tag#/Serial#, assign Due Back dates, check the Checked Out Date, check if there is a signature for the 'Check Out' and check the asset's last reported Verification Status. Barcode scanners can be used to capture the crew member's badge ID number.

If given permission through system settings, crew members may 'Check Out', 'Check In' or 'Transfer' assets on their own as they begin a shift and before leaving shift through the electronic Check Sheet. Barcode scanners can be used to capture each asset's tag number.

When assets are checked out through the web-based Back Office, either the crew member or Unit taking possession of the asset is chosen. Asset may be checked out to crew member by scanning their badge ID (or select from a list if crew member not present) and select which Supply Room the asset is being checked out from. When asset is checked out, it is removed from the supply room or location until it is checked in.

When an asset is checked out to a Unit, same process applies except the crew member ID is not entered for the transaction. Crew members can verify that asset later when performing a Unit inspection and confirms whether the asset is on that Unit or not on the electronic check sheet. A report can give managers information on which crew members performed the checks on which Units, and there is an Asset Verification history log that is available in the web-based Back Office at all times.

If a Unit or crew member has any previously checked out items that have not been returned, those items will be listed once the crew member or Unit ID is chosen to proceed to choosing the items to 'Check Out'.

Asset Tag Number and Serial will always be attached to equipment being checked out. If the asset is physically available, the tag# can be scanned into system to select, or if not (for example, a stretcher out in the garage) an asset may be chosen from the selection list.

Same process as for 'Check Out', except click 'Check In' for the items in possession that need to be returned. Once in the 'Check Out' or 'Check In' assets portal, choose the crew member by scanning badge ID or choose Unit. All items that are being returned must be check marked, and then manager can click 'Check In'. Items checked in will be taken off the list.

Alternative to Back Office- through Check Sheet (crew member Users who work on Units): Asset 'Check Out'/'Check In'/'Transfer': Crew member opens the Assets tab and clicks Add Asset, scans the Asset Tag # and receives the confirmation message. To 'Check In', click Remove Asset, and choose the asset to return by clicking 'Check In', and system will confirm the return.

Term:

The initial term shall be for one (1) year with four (4), one (1) year renewals.

The annual adjustment requested shall not exceed the lesser of the change in the CPI during the preceding contract term and two (2) percent. The decision to grant the request for a price adjustment, in part or in whole, shall be made by the County and communicated to the awarded vendor prior to renewal. Any such modification or alteration that a respondent wish to propose must be clearly stated in the respondent's response in the form of an addendum to the original bid documents.
4. **SUBMITTAL OF BID** – A bid shall be submitted no later than the date and time prescribed and at the place indicated in the advertisement or invitation to bid and shall be enclosed in an opaque sealed envelope plainly marked with the project title (and, if applicable, the designated portion of the project for which the bid is submitted), the name and address of the respondent, and shall be accompanied by the bid security and other required documents. It is the respondent's responsibility to assure that its bid is delivered at the proper time and place. Offers by telegram, facsimile, or telephone will **NOT** be accepted.

Note: Crestview is not a next day delivery site for overnight carriers.

5. **MODIFICATION & WITHDRAWAL OF BID** - A bid may be modified or withdrawn by an appropriate document duly executed in the manner that a bid must be executed and delivered to the place where bids are to be submitted prior to the date and time for the opening of bids.

If within 24 hours after bids are opened any respondent files a duly signed written notice with the County and promptly thereafter demonstrates to the reasonable satisfaction of the County that there was a material substantial mistake in the preparation of its bid, that respondent may withdraw its bid, and the bid security may be returned. Thereafter, if the work is rebid, that respondent will be disqualified from 1) further bidding on the work, and 2) doing any work on the contract, either as a subcontractor or in any other capacity.

6. **BIDS TO REMAIN SUBJECT TO ACCEPTANCE** – All bids will remain subject to acceptance or rejection for sixty (60) calendar days after the day of the bid opening, but the County may, in its sole discretion, release any bid and return the bid security prior to the end of this period.

Respondent must also explain any deviation from the bid specification in writing, as a foot note on the applicable bid page and enclose a copy of the manufacturer’s specifications data detailing the changed item(s) with their bid. Failure of the respondent to comply with these provisions will result in respondents being held responsible for all costs required to bring the equipment in compliance with bid specifications.
12. **APPLICABLE LAWS & REGULATIONS** – All applicable Federal and State laws, County and municipal ordinances, orders, rules and regulations of all authorities having jurisdiction over the project shall apply to the bid throughout, and they will be deemed to be included in the contract the same as though they were written in full therein.
13. **DISQUALIFICATION OF RESPONDENTS** - Any of the following reasons may be considered as sufficient for the disqualification of a respondent and the rejection of its bid:
 - a. Submission of more than one proposal for the same work from an individual, firm or corporation under the same or different name.
 - b. Evidence that the respondent has a financial interest in the firm of another respondent for the same work.

Okaloosa County shall be the sole judge of the bid and the resulting negotiated agreement that is in its best interest and its decision shall be final.
 - c. Okaloosa County reserves the right to waive any informalities or reject any and all bids, in whole or part, to utilize any applicable state contracts in lieu of or in addition to this bid and to accept the bid that in its judgment will best serve the interest of the County.
 - d. Okaloosa County specifically reserves the right to reject any conditional bids and will normally reject those which made it impossible to determine the true amount of the bid. Each item must be bid separately and no attempt is to be made to tie any item or items to any other item or items.
15. **PAYMENTS** –The respondent shall be paid upon submission of invoices and approval of acceptance by Okaloosa County BCC, Finance Office, 302 N. Wilson St., #203, Crestview FL 32536, for the prices stipulated herein for articles delivered and accepted. Invoices must include the contract number.

Furthermore, all respondents must disclose the name of any County officer or employee who owns, directly or indirectly, an interest of five percent (5%) or more in the firm or any of its branches.
- Note: For respondent's convenience, this certification form is enclosed and is made a part of the bid package.**
19. **REORGANIZATION OR BANKRUPTCY PROCEEDINGS** – Bids will not be considered from respondents who are currently involved in official financial reorganization or bankruptcy proceedings.

20. **INVESTIGATION OF RESPONDENT** – The County may make such investigations, as it deems necessary to determine the stability of the respondent to perform the work and that there is no conflict of interest as it relates to the project. The respondent shall furnish to the Owner any additional information and financial data for this purpose as the County may request.
21. **CONE OF SILENCE CLAUSE** - The Okaloosa County Board of County Commissioners has established a solicitation silence policy (**Cone of Silence Clause**) that prohibits oral and written communication regarding all formal solicitations for goods and services (formal bids, Request for Proposals, Requests for Qualifications) issued by the Board through the County Purchasing Department. The period commences from the date of advertisement until award of contract.

22. **REVIEW OF PROCUREMENT DOCUMENTS** - Per Florida Statute 119.071(1)(b) 2 sealed bids, proposals, or replies received by the County pursuant to a competitive solicitation are exempt from public disclosure until such time as the County provides notice of an intended decision or until 30 days after opening the bids, proposals, or final replies, whichever is earlier.
23. **COMPLIANCE WITH FLORIDA STATUTE 119.0701** - The Respondent shall comply with all the provisions of section 119.0701, Florida Statutes relating to the public records which requires, among other things, that the Respondent: (a) Keep and maintain public records; (b) Provide the public with access to public records on the same terms and conditions that the public agency would provide the records; (c) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law; and (d) Meet all requirements for retaining public records and transfer, at no cost, to the public agency all public records in possession of the respondent upon termination of the contract.
24. **PROTECTION OF RESIDENT WORKERS** – The Okaloosa County Board of County Commissioners actively supports the Immigration and Nationality Act (INA) which includes provisions addressing employment eligibility, employment verifications, and nondiscrimination. Under the INA, employers may hire only persons who may legally work in the United States (i.e., citizens and nationals of the U.S.) and aliens authorized to work in the U.S. The employer must verify the identity and employment eligibility of anyone to be hired, which includes completing the Employment Eligibility Verifications. The respondent shall establish appropriate procedures and controls so no services or products under the Contract Documents will be performed or manufactured by any worker who is not legally eligible to perform such services or employment. Okaloosa County reserves the right to request documentation showing compliance with the requirements.

Respondents doing construction business with Okaloosa County are required to use the Federal Government Department of Homeland Security's website and use the E-Verify Employment Eligibility Verifications System to confirm eligibility of all employees to work in the United States.

25. **SUSPENSION OR TERMINATION FOR CONVENIENCE** - The County may, at any time, without cause, order Respondent in writing to suspend, delay or interrupt the work in whole or in

part for such period of time as the County may determine, or to terminate all or a portion of the Contract for the County's convenience. Upon such termination, the Contract Price earned to the date of termination shall be paid to Respondent, but Respondent waives any claim for damages, including loss of profits arising out of or related to the early termination. Those Contract provisions which by their nature survive final acceptance shall remain in full force and effect. If the County orders a suspension, the Contract price and Contract time may be adjusted for increases in the cost and time caused by suspension, delay or interruption. No adjustment shall be made to the extent that performance is, was or would have been so suspended, delayed or interrupted by reason for which Respondent is responsible; or that an equitable adjustment is made or denied under another provision of this Contract.

26. **FAILURE OF PERFORMANCE/DELIVERY** - In case of default by the respondent, the County after due notice (oral or written) may procure the necessary supplies or services from other sources and hold the respondent responsible for difference in cost incurred. Continuous instances of default shall result in cancellation of the award and removal of the respondent from the bid list for duration of one (1) year, at the option of the County.
27. **AUDIT** - If requested, respondent shall permit the County or an authorized, independent audit agency to inspect all data and records of respondent relating to its performance and its subcontracts under this bid from the date of the award through three (3) years after the expiration of contract.

30. **UNAUTHORIZED ALIENS/PATRIOT'S ACT** – The knowing employment by respondent or its subcontractors of any alien not authorized to work by the immigration laws is prohibited and shall be a default of the contract. In the event that the respondent is notified or becomes aware of such default, the respondent shall take steps as are necessary to terminate said employment with 24 hours of notification or actual knowledge that an alien is being employed. Respondent's failure to take such steps as are necessary to terminate the employment of any said alien within 24 hours of notification or actual knowledge that an alien is being employed shall be grounds for immediate termination of the contract. Respondent shall take all commercially reasonable precautions to ensure that it and its subcontractors do not employ persons who are not authorized to work by the immigration laws.
31. **CERTIFICATE OF GOOD STANDING FOR STATE OF FLORIDA** - Florida Statute 607.1501 requires that all vendors who wish to do business in the State of Florida be licensed to do business through the Department of State of Florida and be in good standing with the State of Florida. SYSTEM FOR AWARD MANAGEMENT (OCT 2016)

(a) Definitions. As used in this provision.

“Electronic Funds Transfer (EFT) indicator” means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

“Registered in the System for Award Management (SAM) database” means that.

(1) The Offeror has entered all mandatory information, including the unique entity identifier and the EFT indicator, if applicable, the Commercial and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14) into the SAM database;

(2) The offeror has completed the Core, Assertions, and Representations and Certifications, and Points of Contact sections of the registration in the SAM database;

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The offeror will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and

(4) The Government has marked the record “Active”.

“Unique entity identifier” means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “Unique Entity Identifier” followed by the unique entity identifier that identifies the Offeror’s name and address exactly as stated in the offer. The Offeror also shall enter its EFT indicator, if applicable. The unique entity identifier will be used by the Contracting Officer to verify that the Offeror is registered in the SAM database.

(c) If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for establishment of the unique entity identifier directly to obtain one. The Offeror should be prepared to provide the following information:

(2) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(3) Company Physical Street Address, City, State, and Zip Code.

(4) key manager.

(d) If the Offeror does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) Offerors may obtain information on registration at <https://www.acquisition.gov>.

ADDENDUM 1

February 8, 2021

ITB PS 19-21

EMS SUPPLIES AND INVENTORY MANAGEMENT SYSTEM

This addendum is to provide the answers to questions submitted by the vendors and to extend the bid opening.

Questions and Responses:

- In order to put together the best proposal that suits the County's needs, we would like to get clarity on how the County intends to award the bid. The County awards bids to the lowest, most responsive bidder based on the specifications in the solicitation. - See #14 on page 14 of 58 in the solicitation's General Conditions.
- Given the volatility on some products within the market today, will the County allow for price increases during the contract? Furthermore, if the manufacturers increase product(s) by more than the 2% cap that is mentioned in the bid, will you allow for those increases only to be increased by the amounts passed through by the manufacturers? The County opted to do annual renewals in consideration of changes in pricing. If a product, or products, experience excessive increase(s) we can evaluate them on a case by case basis.
- Is the County willing to accept a number of UCap 3 devices other than 4? The County has opted to change the requirement of UCap 3 devices from four (4) to three (3).
- Will the County agree to accept the bid via email in lieu of a hardcopy? Due to Covid-19 and safety precautions, Vendor prefers to help flatten the curve by avoiding hardcopy paper. No, the County solicitation process requires a hard copy.
- Upon review, if there are bid terms and conditions Vendor may not be able to agree to, will the County allow Vendor to include clarifications or exceptions as part of its bid submission? The County will consider your bid with clarifications or exceptions, however there is no guarantee those will be accepted.
- Specifically, if there are insurance requirements that Vendor may not be able to agree to, will the County consider exceptions to insurance terms and conditions? The County will consider your bid with exceptions to insurance terms and conditions, however there is no guarantee those will be accepted.
- Is the County able to please extend the due date of the bid submission until Friday, 2-26-2021 to allow ample time to complete a full review of terms and requirements? The County is unable to extend to the 26th, but will extend to 3:15 pm on Wednesday, February 24, 2021.

The bid opening date has been changed to February 24, 2021 at 3:15 P.M. CST.

ADDENDUM 2

The bid opening remains February 24, 2021 at 3:15 P.M. CST.

To Whom It May Concern,

In response to your bid request, Bound Tree Medical is pleased to offer 24% off of the prices on supplies on www.boundtree.com. For product information and Bound Tree item numbers, please refer to the current Bound Tree Medical Emergency Medical Product Catalog.

In order to provide a percentage off list discount, it is necessary for Bound Tree to exclude certain product categories or manufacturer products. This is largely due to the cost variability of these items as a result of market demand and raw material costs.

Products excluded from the percentage off bid include the following:

Manufacturers Excluded		Product Categories Excluded
<i>Ferno Washington</i>		<i>Custom Kits</i>
<i>Laerdal</i>		<i>Preventative Maintenance</i>
<i>Simulaids</i>		<i>Service Contracts</i>
<i>Cardio Partners</i>		<i>Capital Equipment</i>
<i>Thermal Angel</i>		<i>King Vision</i>
<i>KingFisher Medical</i>		<i>Rescue Buddies</i>
<i>Z-Medica (QuikClot)</i>		<i>Inventory & Secure Storage Systems</i>
<i>SScor</i>		<i>Supraglottic Airways and Kits</i>
		<i>Gloves</i>

In addition, Pharmaceutical and IV Solutions product categories will be offered at a 24% discount from the current listed prices on www.boundtree.com.

We are pleased to provide you with a competitive bid for the emergency medical supplies and equipment that you are seeking. Please contact our Bids and Contracts Department at 800-533-0523 with any questions. Thank you.

Sincerely,

Bound Tree Response to COVID-19

As Your Partner in EMS for over 40 years, it continues to be our mission to help you save and improve patients' lives. We believe that our mission is never more important than at times like this. Our entire team is committed to being your partner during this very challenging time because we know the critical part we play in providing you with the medical supplies you need to treat patients and protect yourselves.

Supply Access

Updated August 27, 2020

The global demand for PPE and ventilators has outpaced the market supply, leading to severely extended lead times. This current market dynamic on select PPE and ventilators has impeded our ability to serve you. Although some products are available, we will not offer them unless they meet the requirements we know will keep you safe.

As a result, we have made the difficult decision to put ordering restrictions in place on select PPE, infection control and ventilators.

General Ordering Restrictions

We have temporarily suspended taking orders for select PPE and ventilators that are backordered with excessive or no lead-times. We continue to re-evaluate the market weekly in hopes of resuming taking orders for these critical products.

The products below are temporarily unavailable to order.

Face Masks	Decon/Hazmat Clothing	Infection Control Kits
Shoe and Sleeve Covers	Gowns and Caps	

Online Ordering Restrictions

In addition to the restricted products noted above, we have made other select PPE, infection control and monitoring products unavailable to order on the website to prevent hoarding.

Please contact Customer Care or your dedicated Account Manager to place an order.

The products below are temporarily unavailable to order online only.

Placing Orders for PPE and Other Critical Products

Bound Tree is committed to providing the best-in-class support you are used to as a Bound Tree customer during the COVID-19 pandemic.

To support our customers, we have put the following procedures in place:

- Ordering restrictions have been put in place on the most impacted products to prevent hoarding.
- Some of the most impacted items may still be NON-CANCELABLE and NON-RETURNABLE until the supply chain normalizes.
- Account Managers are available for ordering assistance - please call or email your Account Manager directly for support.

To order products that are no longer available for purchase on our website (see [Online Ordering Restrictions](#) section above), please submit your order via email to customerservice@boundtree.com. Our Customer Care Team will process order requests that include all of the following information:

- Account number
- Bound Tree item number and quantity
- Contact information
- Confirmed shipping address

If you have any questions regarding product availability, please reach out to your dedicated Account Manager. Your Account Manager will be able to help you navigate through these challenges and provide you with accurate availability and alternatives.

Cancellation and Return Policy

Due to COVID-19, Personal Protection Equipment (PPE), infection control supplies, and other related products are on manufacturer backorder. While the manufacturers are increasing production, they are also implementing strict rules that all orders are non-cancelable and non-returnable. We understand the impact of passing these policies on to customers and feel compelled to act. Going forward, we are willing to absorb this risk from our suppliers to ensure you have the flexibility you need to stay safe and operational through this crisis.

Effective immediately, on orders placed since March 1, 2020, you may cancel items not yet received with no ETA.

There are some exceptions to this policy, and your Bound Tree Account Manager or one of our Customer Care Representatives can explain policy exceptions.

As indicated on the Bound Tree return policy, all returns require an approved RMA number. Items received without an RMA will not receive credit. Please contact Customer Service at 800-533-0523 if you have questions, or would like additional information.

Protecting Our Team

Recently a small number of state and local governments began to implement varying degrees of stay-at-home orders for all but essential businesses. Bound Tree is an essential business and will continue to remain operational. Nearly all of our team is working remotely to help ensure proper social distancing and prevent/mitigate any possible transmission of COVID-19. We are fully committed to ensuring support of our customers during this very challenging time. We will continue to stay close to this issue and provide updates as they become available.

We have taken additional measures to sanitize our warehouse and offices, and continue to implement best practices for disease prevention, as outlined on the CDC (Centers for Disease Control and Prevention) website to help keep our employees safe. Warehouse employees have been provided with personal protection equipment for their safety, and the safety of our customers.

A Lack Of Manufacturing Capacity Is Causing A Global Glove Shortage

During the COVID-19 pandemic, global demand for single use gloves has skyrocketed, exceeding the existing production capacity of manufacturers by an estimated 215 billion units, or about 37%. Although manufacturers are working aggressively to increase production, industry experts predict that significant shortages will likely persist into 2021.

Compliant with DSCSA Requirements

Under the Drug Supply Chain Security Act (DSCSA), entities in the supply chain including manufacturers, wholesale distributors, and dispensers have responsibilities to meet the requirements of the DSCSA. As of May 1, 2015 all wholesalers are required by law, under the DSCSA, to provide transaction information, transaction history and transaction statements for the pharmaceuticals that they supply.

BoundTree is compliant with these FDA standards which helps improve patient protection by preventing the distribution of substandard or ineffective drugs and while providing our customers with the product and transaction information they need to be in compliance with the FDA standards.

Under the DSCSA you are responsible for knowing that your prescription drug wholesale distributor is an authorized trading partner who holds a valid state or federal license. BoundTree Medical is licensed federally and in all 50 states. Purchasing from a licensed and VAWD accredited distributor like BoundTree Medical makes great strides to ensure none of your purchases will ever be counterfeit, contaminated, improperly stored and transported, ineffective, and/or unsafe.

Pharmaceutical Price Increase

It is Bound Tree's intent not to increase pricing on pharmaceutical products for the initial contract term. However, manufacturers have recently been significantly increasing prices on pharmaceutical products due to market conditions and the associated costs to comply with federal legislations. In the event such price increases occur after the bid award, Bound Tree will notify you of such increases and provide adequate documentation from the manufacturer to demonstrate evidence of increase. The new pricing will then go into effect based on a notification period provided. If the customer does not accept the increase, Bound Tree reserves the right to remove the product(s) from the contract or find an alternative product at no additional cost to Bound Tree.
