Subject: Maruti Invoice 17-12
Importance: High

Janet,

Please see attached, I am correcting the face of your contract pay request changing the amount that is being coded to 70544-534410 by one penny. This will change the total invoice amount by one penny as well. I have also corrected the total amount on the Paratransit invoice. I am correcting the department # 701648 to 701748.

Please confirm that you are okay with the changes.

Thank you,
Ashley

Subject: RE: Maruti invoice

Yes, it is. That should be 701748 since it's a new CTD fiscal year. I keep making that same mistake. Sorry.

Thanks Janet. As I'm reviewing this for my first time I noticed the Budget Department #701648 on the Payment Approval Form does not tie to the Maruti invoice #701748 or other supporting documents. Is the 701648 a typo or does this account need to be updated on Maruti?

Thanks,

Danielle Garcia

Yes, it is. That should be 701748 since it's a new CTD fiscal year. I keep making that same mistake. Sorry.

Thanks Janet. As I'm reviewing this for my first time I noticed the Budget Department #701648 on the Payment Approval Form does not tie to the Maruti invoice #701748 or other supporting documents. Is the 701648 a typo or does this account need to be updated on Maruti?

Thanks,

Danielle Garcia

Local Coordinating Board – Roll Call Vote

The Local Coordinating Board for **Okaloosa County** hereby certifies that an annual evaluation of the Community Transportation Coordinator, **Okaloosa County**, was conducted consistent with the policies of the Commission for the Transportation Disadvantaged and all recommendations of that evaluation have been incorporated in this Service Plan. We further certify that the rates contained herein have been thoroughly reviewed, evaluated, and approved. The **Okaloosa County Transportation Disadvantaged Service Plan** was reviewed and approved by this Board at an official meeting held on ***May 23, 2018.***

May 23, 2018
Date

Carolyn Ketchel, Chair

Approved by the Commission for the Transportation Disadvantaged:

Date

Executive Director

Okaloosa County Transportation Disadvantaged Service Plan
Local Coordinating Board for Okaloosa County – Roll Call Vote

General Information

The Transportation Disadvantaged Service Plan is an annually updated tactical plan jointly developed by the Planning Agency (West Florida Regional Planning Council) and the Community Transportation Coordinator (CTC), which contains development, service, and quality assurance components. The Local Coordinating Board reviews and approves the Service Plan and it is submitted to the Commission for the Transportation Disadvantaged for final action.

Federal Transit Administration (FTA) programs through authorizing legislation that amends Chapter 53 of Title 49 of the U.S. Code President Obama signed the Fixing America's Surface Transportation (FAST) Act, reauthorizing surface transportation programs through Fiscal Year 2020. Federal transit law requires that projects selected for funding under the Enhanced Mobility for Individuals and Individuals with Disabilities (Section 5310) Program be "included in a locally developed, coordinated public transit-human services transportation plan," and that the plan be "developed and approved through a process that included participation by seniors, individuals with disabilities, representatives of public, private, and nonprofit transportation and human services providers and other members of the public" utilizing transportation services. These coordinated plans identify the transportation needs of individuals with disabilities, older adults, and people with low incomes, provide strategies for meeting these needs, and prioritize transportation services for funding and implementation. Florida's Transportation Disadvantaged Service Plan is developed through the input of Local Coordinating Boards whose membership includes citizens, public transportation, and human service providers. In addition to being a statutory requirement of Chapter 427, the Transportation Disadvantaged Service Plan may also be used to satisfy this federal requirement.

Through the guidance and support of the Coordinating Board, both the development and service components should complement each other. The Local Coordinating Board plays an important role in the support, advisement, monitoring, and evaluation of the Coordinator based on the approved Transportation Disadvantaged Service Plan. Through the Local Coordinating Board's involvement in the review and approval of the plan, the Coordinating Board is able to guide and support the Coordinator in implementing coordination efforts and locally developed service standards that are consistent with the needs and resources of the community.

A Transportation Disadvantaged Service Plan must be developed and maintained for each service area as recognized by the Commission. An initial Transportation Disadvantaged Service Plan is due within 120 calendar days after the execution of the initial Memorandum of Agreement. The Service Plan will cover a five-year period, with annual updates for years two through five, due prior to July 1 of each subsequent year. The development and submission of the Service Plan and annual updates are the responsibility of the Coordinator, the Planning Agency, and the Local Coordinating Board. ***In order to prevent any loss of funding, it is critical that the plan and updates are submitted timely.***

The Planning Agency is responsible for ensuring that the Transportation Disadvantaged Service Plan is completed, approved and signed by the Local Coordinating Board.

A copy of the Transportation Disadvantaged Service Plan approval letter and signed roll call vote will be furnished to the Community Transportation Coordinator and the Planning Agency after it has been executed by the Commission.

The general information provided in this section is from the Florida Commission for the Transportation Disadvantaged Instruction Manual for the Memorandum of Agreement and the Transportation Disadvantaged Service Plan 2007/2008 (Rev. November 2007).

According to Florida Statutes [ss 427.011(1)], Transportation Disadvantaged (TD) persons are defined as "those persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation and are, therefore, dependent upon others to obtain access to healthcare, employment, shopping, social activities, or children who are handicapped or high-risk or at risk as defined in s. 411.202."

The primary goal of community transportation is to provide people with access to places for work, medical care, and shopping so that they can live vital, productive and rewarding lives. It is easy to take such access for granted in our society, yet the lack of transportation resources is a major barrier for many people who are unable to drive or do not have access to a car and must depend on friends or family to help them meet their basic daily needs. The inability to travel often leads to isolation, withdrawal from society and neglect of medical needs.

The Okaloosa County Transportation Disadvantaged Service Plan (TDSP) addresses the needs of elderly, disabled or economically disadvantaged people in Okaloosa County and reflects a careful review of various data, travel patterns, policies, agency responsibilities and funding to define a five-year detailed implementation plan (which is updated annually) to help meet those needs.

The TDSP is comprised of three parts:

Development Plan – identifies long term goals and objectives for the local program based on data provided. The goals and objectives offer accountability and opportunities to implement strategies to address the needs and gaps of local transportation for the disadvantaged.

Service Plan – identifies the operational and administrative structure as it exists today.

Quality Assurance – describes the methods utilized to evaluate the services provided by the Community Transportation Coordinator (CTC), transportation providers, and the Planning Agency. This section also discusses the local service standards established by the coordinating board that are used to monitor and evaluate the effectiveness of the system.

The TDSP is developed in accordance with Florida Law and Title VI of the Civil Rights Act of 1964, which prohibits discrimination in public accommodation on the basis of race, color, religion, sex, national origin, handicap, or of marital status. Persons believing they have been discriminated against on these conditions may file a complaint with the Florida Commission on Human Relations at 850-488-7082 or 800-342-8170 (voice messaging).

Development Plan

INTRODUCTION TO THE SERVICE AREA

The preparation and development of a Transportation Disadvantaged Service Plan (TDSP) provides agencies, coordinators, planners and citizens with a blueprint for coordinated service, a framework for service performance evaluation and a means to project vision in the transportation disadvantaged services for the future. A strategic approach has been used to develop this TDSP. First, an evaluation of the current strengths and weaknesses of the service area is accomplished. This includes compiling a database of demographics and existing conditions, and reviewing TD related plans and service providers. This will answer the question: Where are we? Secondly, there is an in-depth assessment of the goals and objectives, which will provide direction and answer the question: Where do we go from here? This is accomplished by reviewing the supply and demand of services and funding provided. An evaluation of existing services versus TD needs and demands is undertaken using a transportation service supply and condition approach. Thirdly, we answer the question: How do we get where we want to go from where we are? This is accomplished by developing a plan to achieve the service area's goals while building on the strengths and eliminating the weaknesses.

Background of the Transportation Disadvantaged Program

The State of Florida is a recognized leader of providing coordinated human services transportation for individuals that are transportation disadvantaged. In 1989, a major commitment to mobility in the State of Florida was formalized when the legislature revised Chapter 427 Florida Statutes (F.S.) creating the Florida Coordinated Transportation System (FCTS) and a dedicated funding source. The FCTS includes the Commission for the Transportation Disadvantaged (CTD); Designated Official Planning Agencies (DOPA); Community Transportation Coordinators (CTC); Local Coordinating Boards (LCB); Transportation Operators (TO); purchasing and funding agencies/entities; and most importantly, those in need, the Transportation Disadvantaged (TD). Chapter 427 defines TD persons as those persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation. The legislation also includes children who are “high-risk” or “at-risk” of developmental disabilities.

The local organization providing the coordination is Okaloosa County Board of County Commissioners and the operational services for Okaloosa County is provided by Okaloosa County Transit. They have been instrumental in providing transportation disadvantaged services to the community since 1987. A history of how Okaloosa County Transit came to provide services in Okaloosa County is discussed in the following section.

Community Transportation Coordinator Designation Date/History

Okaloosa County Coordinated Transportation, Inc. began service the summer of 1987 as a project of the Okaloosa County Council on Aging, Inc. After being designated as the Community Transportation Coordinator (CTC) by the Commission for the Transportation Disadvantaged, Okaloosa County Coordinated Transportation, Inc. staff gathered data from the agencies mandated to participate in coordination in order to plan and develop a coordinated transportation system.

In 1990, the Ft. Walton Metropolitan Planning Organization (now the Okaloosa-Walton Transportation Planning Organization) recommended and the Commission for Transportation Disadvantaged officially designated Okaloosa County Coordinated Transportation, Inc. as the Community Transportation Coordinator (CTC) for Okaloosa County.

In 2003, the Okaloosa County Board of County Commissioners (BCC) assumed the role as CTC in order to better coordinate the county transit system with transportation disadvantaged services, contracting with Okaloosa County Coordinated Transportation, Inc. D/B/A Okaloosa County Transit (OCT) to provide both services for the citizens of Okaloosa County. Okaloosa County BCC selected a new contract operator (Maruti) through a competitive procurement process. Maruti began providing service October 1, 2015.

Organization Charts

Organizational charts have been included in the appendices. The charts identify those involved in the provision of service, from the Commission for the Transportation Disadvantaged, through the local Coordinating Board, to the Community Transportation Coordinator and the Planning Agency, and to the consumers. The Transportation Disadvantaged Program Concept Chart is shown in Figure 1. The organization chart for Okaloosa County Board of County Commissioners is shown in Figure 2 and the organization chart for the contract operator, Maruti, is shown in Figure 3.

Consistency Review of Other Plans

The Transportation Disadvantaged Service Plan is consistent, where applicable, with local government Comprehensive Plans, Regional Policy Plans, Transit Development Plans, Commission for the Transportation Disadvantaged 5Yr/20Yr Plan, MPO Long Range Transportation Plans, and Transportation Improvement Programs.

This section summarizes and reviews all relevant previous plans, studies and documents pertaining to the Transportation Disadvantaged program in the service area. The following plans have been found to be relevant and are summarized and reviewed here. They are:

- Local Government Comprehensive Plans
- Regional Policy Plan
- Transit Development Plan
- Commission for the Transportation Disadvantaged 5yr/20Yr Plan
- Long Range Transportation Plan
- Transportation Improvement Program

Local Government Comprehensive Plans

Local governments located within Okaloosa County that have a comprehensive plan that addresses public transportation are as follows: (1) Okaloosa County, (2) Crestview, (4) Destin, and (5) Fort Walton Beach. Public transportation for the other municipalities (Cinco Bayou, Laurel Hill, Mary Esther, Niceville, Shalimar, and Valparaiso) is inclusive under the Comprehensive Plan of Okaloosa County.

Okaloosa County (2009)

The TDSP is consistent with the following items from the Comprehensive Plan of Okaloosa County. The transportation section of the Okaloosa County Comprehensive Plan covers Cinco Bayou, by reference.

Transportation

Goal 1: Provide a safe, economic and efficient transportation system that maximizes the mobility of people and goods.

Objective 1.1: Develop a Long Range Transportation Plan that identifies multi-modal and intermodal transportation facilities that will function as an integrated system and address the mobility needs of the area.

Policy 1.1.2: Participate in the development of the Five Year Transit Development Plan especially in the establishment of numerical indicators against which the achievement of the mobility goals of the community can be measured, such as modal split, annual transit trips per capita, and automobile occupancy rates.

Objective 1.7: Maintain and improve access to important regional facilities including airports, educational facilities, parks, historical and recreational areas and military installations.

Policy 1.7.1: Coordinate roadway and transit service improvements with the Okaloosa County Airport Master Plan, the Fort Walton Beach MPO, the FDOT 5-Year Transportation Plan, and the Continuing Florida Aviation System Plan (CFAST) to ensure that future transportation access needs of the County's airport facilities are met.

Policy 1.7.2: Promote the implementation of the Ft. Walton Beach Urbanized Area MPO 202 Plan as it relates to roadway improvements improving access to major attractors in Okaloosa County, including airports and other related public transportation facilities.

Policy 1.7.3: Ensure that the Five Year Transit Development Plan includes strategies to address motorized and non-motorized access to all major attractors in Okaloosa County, including intermodal terminals and access to aviation and rail facilities.

Goal 2: Provide an energy efficient transportation system.

Objective 2.2: Reduce energy consumption by promoting actions to increase the occupancy of vehicles [e.g., ridesharing, mass transit, High Occupancy Vehicles (HOV) lanes or to reduce travel demand].

Goal 3: Provide a transportation system in harmony with environmental, social, economic and aesthetic features of the area.

Objective 3.2: Encourage accessible public transportation for the transportation disadvantaged through coordination of local social service transportation.

Policy 3.2.1: Continue to support the provision of transportation disadvantaged by the designated provider.

Policy 3.2.2: Coordinate plans for transportation-disadvantaged services with the development of the Five-Year Transit Development Plan as updates are completed.

Goal 4: Provide a transportation system that optimizes preservation and efficiency of existing transportation facilities.

Objective 4.1: Minimize the need for construction of new highways through development of a Congestion Management System and identification of strategies to reduce travel demand, encourage alternative modes of travel and implement traffic operations improvements.

Policy 4.1.3: Support and promote public awareness campaigns that focus attention on the societal and environmental impacts and costs of travel choices, and that make people aware of the range of travel choices available. Make information available at all county office on any commuter assistance programs, public transit, the coordinated transportation system program, and any bicycle/pedestrian programs endorsed by the County.

NOTE: In July 2012, an Okaloosa County Policy Letter was released stating the following regarding Okaloosa County Transit: "The Transit budget proposed for Fiscal Year 2013 does not include any funding for the two Crestview fixed routes or the express route (Crestview/Fort Walton Connector), but does maintain funding for the four Fort Walton Beach routes, route 20 (Santa Rosa Blvd) and the three tourism routes. The Fort Walton routes are to be paid with a combination of FTA and Board funds, Route 20 with FTA funds, while the three tourism routes are to be paid using FDOT corridor funds which can only be used on the US 98 corridor with no local match required. Paratransit services will remain in place, though it is anticipated that demand will increase due to the loss of fixed routes, and it is extremely likely that non-essential trips will be denied. The continued reduction of the general fund contribution will result in a faster drawdown of the other revenue (including most importantly FTA funds) which will affect transit planning in future years, beginning in Fiscal Year 2013."

On September 18, 2012, the Okaloosa Board of County Commissioners voted to add extra funds to keep all routes with the understanding that all routes could be cut next fiscal year.

City of Crestview decided to end their financial support to Routes 11 & 12. There is no other funding source to support these routes so Routes 11 & 12 were cancelled as of January 31, 2014.

The Transit Coordinator & Grant Manager for Okaloosa County, Lani Birchett, resigned effective March 13, 2014. We will miss Lani and the many contributions she had made to public transportation.

On March 24, 2014, TPO staff met with Okaloosa County staff, representatives from the municipalities within Okaloosa County, and FDOT to discuss a long term financial plan and a plan for more of a coordinated effort at the local level supporting planning, programming, policy development, operations, maintenance and further overall development of the transit system. Discussions included the idea of developing a Transit Cooperative Board, for interested municipalities within Okaloosa County, in order for each to contribute funding to the transit system as well as to have input in decisions regarding the system.

Crestview (2010)

The TDSP is consistent with the following items from the Comprehensive Plan of the City of Crestview.

Transportation Element

Goal 8.A: Provide a safe, cost effective and functional roadway and transportation system for all residents and visitors to the City of Crestview.

Objective 8.A.1: Continually provide for safe, convenient, efficient and cost effective motorized and non-motorized traffic circulation with the City upon adopted of this Ordinance.

Policy 8.A.1.9: In cooperation with the MPO, participate in the development of the "Five Year Transit Development Plan" with emphasis on the establishment of numerical indicators against the mobility goals of the City can be measures, such as modal split, annual transit trips and automobile occupancy rates.

Policy 8.A.1.10: Continue to support the Okaloosa County Coordinated Transportation Program, the WFRPC's Park and Ride program, and the County's "WAVE" public transit system. Also, the City will continue its active participation with the MPO and the development of its Congestion Management System Plan in order to increase use of alternatives to single occupancy vehicles, alter trip patterns and improve traffic flow, among other things.

Policy 8.A.1.12: As part of the 2008 Evaluation and Appraisal Report Amendments, the City will adopt congestion management system goals, objectives and policies in the form of a multi-modal transportation district (MMTD) in coordination with the FDOT, TPO and Okaloosa County. The MMTD district will be implemented through policies including but not limited to providing for improvements to the Okaloosa County "WAVE" public transit system including placing transit facilities within an appropriate radius from residential development along SR 85 in the City's boundaries; requiring the City to work with the TPO, Okaloosa County and the Eglin AFB to create opportunities for workforce commuter service to include identification of feasible park and ride locations; requiring all new residential developments to promote the use of workforce commuter service to residents employed by the AFB; working with the AFB, Okaloosa County, FDOT and the TPO to promote use of the workforce commuter service.

Objective 8.A.2: Maintain the design function of roadways for present and future residents upon adoption of this Ordinance.

Policy 8.A.2.4: The City shall update its concurrency management system to allow for the implementation of its proportionate fair share ordinance and generation of funds from permitted development. The City shall dedicate a portion of these proportionate fair share funds to the completion of a comprehensive long-range transportation plan, implementation of any express transit service between Crestview and Eglin AFB, and for funding short term improvements to relieve congested facilities.

Goal 13.A: Provide coordination of this plan (ordinance) with Okaloosa County, other local government (as appropriate) and other governmental agencies providing services within the City.

Objective 13.A.1: To review, on an annual basis, actions that have taken place to coordinate the Comprehensive Plan of Crestview with the Plans of other units of government and the Okaloosa County School Board.

Policy 13.A.2.8: The City shall coordinate with Okaloosa County, the West Florida Regional Planning Council (WFRPC), the Okaloosa-Walton Transportation Planning Organization, Ride On Commuter Services, FDOT, and Eglin AFB (and other military installations in the region) to plan and implement express transit service between park-and-ride locations in Crestview and Eglin AFB (and between Crestview and other military installations if feasible). The City will also participate in regional efforts to develop and implement other transportation demand management strategies to reduce peak travel demand on SR 85.

NOTE: In July 2012, the Crestview City Council voted to begin amending the city's comprehensive plan to drop transportation concurrency thereby eliminating the proportionate fair share that would generate funds from permitted development that would go towards funding the express transit service between Crestview and Eglin AFB.

Destin (2010)
The TDSP is consistent with the following items from the Comprehensive Plan of the City of Destin.

Section 2-1: Transportation Goals, Objective and Policies.
The purpose of this element is to establish the desired and projected transportation system within the City of Destin and to plan for future motorized and non-motorized transportation systems. Future transportation systems are supported by the data inventory and analysis of existing and project transportation conditions, and by the goal, objectives and policies of this element.

Goal 2-1: Multimodal Transportation System. Develop an efficient, high quality, multimodal transportation system that balances community circulation needs with regional travel demand.

Objective 2-1.3: Adopt A Multimodal Transportation District. The City shall implement a multimodal transportation district (MMTD) that allows for a more balanced approach to designing the City's transportation system. Rather than focusing solely on increasing roadway capacity to meet the needs of future development, the MMTD shall decrease the emphasis on automobile mobility and help reduce vehicle miles of travel per person while promoting accessibility by all modes through redevelopment of the built environment and improvement of cycling, pedestrian, and transit networks. While the operations of the existing road network will be maintained and enhanced with strategic new connections, reconstruction, and widening projects as appropriate, investment in sidewalks, cycling facilities, and transit service will be significantly increased. Urban design standards shall ensure that development is designed to be integrated and accessible, encouraging increased use of non-auto forms of transportation.

Policy 2-1.3.3: Design Development to be Supportive of Multimodal Transportation. On-site multimodal transportation infrastructure to provide connections to public sidewalks, cycling facilities, transit stops, buildings, parking and adjacent land uses. Shade trees, lighting, street furniture, and other amenities along sidewalks and at transit stops to improve the design and accessibility on the on-site multimodal transportation infrastructure.

Policy 2-1.3.4: Expand Pedestrian and Cycling infrastructure. The City shall enhance the existing pedestrian and cycling network through filling gaps in the network and providing new pedestrian and cycling facilities throughout the city. These facilities shall provide a continuous pedestrian and cycling network between residential areas, the Community Redevelopment Areas (CRA), and transit connections.

Policy 2-1.3.5: Expand and Enhance Transit Coverage and Service. The City shall continue to coordinate with Okaloosa County and provide financial support through a local match to Okaloosa County Transit to extend service coverage to the north of Harbor Boulevard/Emerald Coast Parkway and expand the existing service to Harbor Boulevard/Emerald Coast Parkway to year-round operation at 20-minute headways for 14 hours of service per day. The City shall coordinate with Okaloosa County on future updates of the Transit Development Plan to ensure continued enhancement of transit service within the City. Each development shall contribute towards establishing transit stops at a maximum of ¼-mile spacing on Harbor Boulevard/Emerald Coast Parkway through dedication of right-of-way or provision of infrastructure; creating an unobstructed, paved path between an existing or planned transit stop and the development; and providing a financial contribution towards the costs of expanding transit service coverage. The city shall also encourage the implementation of private shuttle services as a component of planned development.

Section 3-1: Housing Goals, Objectives, and Implementing Policies.

Goal 3-1: Quality Residential Environment. Allocate land area to accommodate a supply of housing responsive to the diverse housing needs of the existing and projected future population and assist the private sector in providing affordable quality housing in neighborhoods protected from incompatible uses and served by adequate public facilities.

Objective 3-1.9: Coordinate Housing Type and Location with Transportation Programs. Land use and transportation planning shall be coordinated to assure that affordable housing, higher density housing, and housing for special groups are accessible to future public transportation programs or transit systems.

Policy 3-1.9.2: Transportation Programs. The City shall make available information and brochures regarding any transportation programs available to the elderly, disabled, or transportation disadvantaged by Okaloosa County, the Okaloosa-Walton Transportation Planning Organization, or the West Florida Regional Planning Council.

Section 8-1: Intergovernmental Coordination Goals, Objectives, and Implementing Policies.

Goal 8-1: Provide for Improved Intergovernmental Coordination. The City of Destin shall undertake actions necessary to establish governmental relationships designed to improve the coordination of public and private entities involved in development activities, resource conservation, and growth management, including the achievement of consistency among all government agencies implementing plans and programs affecting the City.

Objective 8-1.1: Intergovernmental Coordination Activities. The City shall review, on an annual basis, actions it has taken to coordinate the Comprehensive Plan of Destin with the plans of other units of government and shall continue to improve coordination activities.

Policy 8-1.1.2: Transportation Issues. The City shall participate as a member on the technical advisory committees for the TPO. Regional transportation issues, including transit and programs for the transportation disadvantaged, shall be coordinated through the TPO.

Fort Walton Beach (2011)

The TDSP is consistent with the following items from the Comprehensive Plan of the City of Ft. Walton Beach.

Transportation Element

Goal B: Provide for a safe, energy efficient, cost effective and uncongested multimodal transportation system in the city, as well as to and from the surrounding regional areas, in a manner that not only accommodates today's demand but also reasonably anticipates growth.

Objective B.3: Coordinate the traffic circulation system, including multimodal systems, with the future land use shown on the future land use map series.

Policy B.3.2: The City shall participate in the preparation of corridor studies for all designated principal and minor arterial roadways and will coordinate the studies with adjacent communities. The corridor studies shall consider land uses adjoining the corridor, access management, and multi-modal transportation options including sidewalks, bikeways, and transit.

Policy B.3.4: The City shall continue to coordinate with Okaloosa County in the provision of transit services within the City and seek methods to improve transit services to residents and visitors in the City.

Policy B.3.5: The City will prioritize multi-modal improvements based on the needs identified on the sidewalk network map, the bikeways map, and the mass transit map.

Objective B.6: Integrate a safe system of bikeways and pedestrian facilities into the City.

Policy B.6.4: When fixed route transit service is implemented, transit stops will be provided and include sidewalk access.

Objective B.7: Maintain a transportation concurrency exception area (TCEA) coterminous with the Fort Walton Beach Community Redevelopment Area (CRA).

Policy B.7.7: The City will maintain and update strategies to achieve improvements to the multi-modal transportation system. Strategies may include transit stops and shelters.

Objective B.8: Meet the needs of the transportation disadvantaged.

Policy B.8.1.: The City will coordinate with transit providers to ensure accessibility of demand responsive services to City residents.

Policy B.8.2: The City will coordinate with transit providers to ensure compliance with transit requirements of the Americans with Disabilities Act (ADA).

Regional Policy Plan
On May 20, 2004, a new regional transportation planning partnership of the four western counties in West Florida was created. The new *"Northwest Florida Regional Transportation Planning Organization*," a partnership of the then Pensacola Metropolitan Planning Organization (MPO), serving Escambia and Santa Rosa Counties, and the Okaloosa – Walton Transportation Planning Organization (TPO), serving Okaloosa and Walton Counties, was created by interlocal agreement using Chapter 163, Florida Statutes, as its basis and written to comply with the new requirements for regional transportation coordination in Paragraph 339.175(5)(i)(2), approved by the Legislature in 2003. The new legislation authorized contiguous metropolitan planning organizations and individual political subdivisions to enter into agreements to coordinate transportation plans and policies.

This process began as a result of Census 2000, which illustrated that the Fort Walton Beach Urbanized Area extended westward, well beyond the Okaloosa County Line, resulting in an intrusion of almost 5 miles to Navarre in Santa Rosa County. Traffic patterns clearly indicate a high number of residents of Navarre head to Okaloosa County for jobs and shopping. Since much of the developed portion of Santa Rosa County is within the Pensacola Urbanized Area and Santa Rosa Commissioners have sat on the Pensacola Metropolitan Planning Organization since the mid-1970s, the Pensacola MPO and Okaloosa-Walton TPO each adopted a policy to maintain separate organizations, using the Santa Rosa-Okaloosa County Line as the boundary, during reorganization in 2003.

However, the Florida Department of Transportation also noted the overlap of urbanized areas, prompting the Secretary Tom Barry to write letters to each organization in February 2003, recommending two options: either merge into a single metropolitan planning organization spanning the four-county region; or establish a formal process to coordinate and develop a regional transportation plan and priorities. Creation of the Northwest Florida Regional Transportation Planning Organization was the start of implementing a formal coordination process resulting in a regional transportation plan and priorities.

The members of the Northwest Florida Regional TPO are the Florida-Alabama TPO (formerly Pensacola MPO) and the Okaloosa-Walton TPO. Each organization appoints eight representatives to the Regional TPO, for a total of sixteen voting representatives. Non-voting representatives are the Secretary of the Florida Department of Transportation District 3 and the Chairman of the Eglin Air Force Base Encroachment Committee.

The Northwest Florida RTPO's activities include identifying regional significant transportation projects, which improve mobility across county and metropolitan planning area boundaries. A regional transportation network map and priorities were adopted on September 21, 2005.

A primary focus for the RTPO is the challenge along the US 98 corridor of encroachment, environmental protection, evacuation, and economic growth. A workshop was held on February 2, 2005 to address these issues. The workshop brought together federal and state transportation officials, state legislators, members of all the transportation planning organizations between Baldwin County, Alabama and Bay County, Florida and other stakeholders.

The Regional Transportation Network Criteria adopted on September 21, 2005 is as follows:

> Regionally significant transportation facilities and services are those that serve regional transportation needs, such as access within the region and access to and from areas outside of the region. These facilities and service include:
>
> (a) Corridors – highway, waterway, rail, fixed guideway, and **regional transit corridors** serving military, major regional commercial, industrial, or medical facilities; and

(b) Regional Transportation Hubs – military installations, passenger terminals (e.g., commuter rail, light rail, intercity **transit**, etc.), commercial service and major reliever airports, deepwater and special generator seaports, and major regional freight terminals and distribution centers.

Regionally significant facilities exhibit one or more of the following characteristics:

- Serves the goals of the Strategic Intermodal System (SIS) and the Florida Intrastate Highway System (FIHS),
- Facility is, or provides service to, regional transportation hubs, including those listed in Paragraph (b),
- Facility or service is an integral part of an interconnected regional transportation network,
- Facility is included on the STRAHNET System to meet military mobility needs,
- Facility or service provides for interstate travel and commerce and is important to the economic vitality (tourism) of the region,
- Facility or service crosses county or state boundaries,
- Roadway facility is functionally classified as an arterial roadway,
- Facility serves as a hurricane evacuation or emergency support route, which provides access to Logistical Support Areas (LSA),
- Facility or service is used by a significant number of persons who live or work outside the county in which the facility or service is located,
- Facility or service is a fixed guideway transit facility (includes ferry service) that offers an alternative to regional highway travel, or
- Facility provides connection to institutions or higher learning or major medical facilities.

Facilities and services that are determined to be regionally significant do not have to be part of the State Highway System.

Transit Development Plan

The Okaloosa County Transit Development Plan (TDP) Major Update (2017-2026) was adopted by the Okaloosa County Board of County Commissioners on August 16, 2016 and was approved by the Florida Department of Transportation (FDOT) on October 18, 2016. Updates from the TDP are incorporated in this Major Update of the Okaloosa County Transportation Disadvantaged Service Plan (TDSP) as applicable.

Commission for the Transportation Disadvantaged 5Yr/20Yr Plan

The TDSP is consistent with the Commission for the Transportation Disadvantaged 5Yr/20Yr Plan, specifically the following key areas:

CTD Mission: To ensure the availability of efficient, cost effective and quality transportation services for transportation disadvantaged persons.

Guiding Principles: (1) Remember the customer/rider's needs first. (2) The Commission should work together in a collaborative and creative manner. (3) Promote the value and quality of service while looking for opportunities.

The Commission will be able to measure progress towards vision attainment by evaluating annual changes in the following performance measures: (1) cost per trip; (2) CTD cost as a percentage of total trip cost; (3) federal funding for TD; and (4) state funding for TD.

The quality of TD services will be measured by the expectation that a qualified individual will be picked up in a reasonably reliable, timely, safe and professional manner, as appropriate, given the locale.

The Commission will be able to measure progress towards vision attainment by evaluating annual changes in the following performance measures: (1) number of trips provided; (2) number of passengers/customers served; and (3) number of passenger complaints.

Maintain and preserve an efficient and effective transportation infrastructure that is accessible to all eligible transportation disadvantaged citizens while meeting the needs of the community.

The Commission will be able to measure progress towards vision attainment by conducting annual surveys and evaluating changes in the survey responses.

Establish a statewide and transportation disadvantaged system that functions seamlessly by coordinating service and operations across local government lines and that is flexible enough to accommodate and link special riders with providers.
The Commission will be able to measure progress toward vision attainment by evaluating annual changes in the following performance measures: (1) cost per trip; (2) number of passengers/customers served; and (3) trips per passenger.

Okaloosa-Walton TPO Long Range Transportation Plan
The Long Range Transportation Plan (LRTP) is a blueprint for maintaining and enhancing the regional transportation system. The LRTP identifies roadway, transit, bicycle and pedestrian, intelligent transportation systems (ITS), and other improvements needed over the next 25 years. Developing the LRTP is a collaborative effort between the public, local governments, and state and federal partners. Over the course of the study, the TPO will examine future transportation needs of the region and determine how to best address those needs. The LRTP includes a Needs Plan and a Cost Feasible Plan. The Needs Plan, as its name implies, is a plan that identifies all of the transportation projects necessary to meet future demands. The Needs Plan is reviewed and prioritized. The prioritized projects are included in the Cost Feasible Plan based on anticipated funding.

The current plan, which includes a planning timeframe through 2040, was adopted in February 16, 2017. The Cost Feasible Plan identifies funding for transit system enhancements.

Transportation Improvement Program
The purpose of the Transportation Improvement Program (TIP) is to provide a project listing that reflect the needs and desires of the Transportation Planning Organization (TPO) Study Area. The TIP is also developed to reflect the financial restraints within the various funding sources and programs. The TIP is a five-year plan for transportation improvements within the TPO Study Area. It contains information about the type of work to be completed, project phasing, estimated costs, and funding sources. The Code of Federal Regulations defines the TIP as a “prioritized listing/program of transportation projects covering a period of four years that is developed and formally adopted by a MPO (metropolitan planning organization) as part of the metropolitan planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53” [23 C.F.R. 450.104]. Florida Statutes requires the addition of a fifth year to the TIP [339.175(8)(c)(1)]. The TIP is also required to include all regionally significant projects, regardless of funding [23 C.F.R. 450.324(d)].

The TIP is developed by the Okaloosa-Walton TPO in cooperation with the Florida Department of Transportation (FDOT) and Okaloosa County Transit. These cooperating agencies provide the Okaloosa-Walton TPO with estimates of available federal and state funds for use in development of the financial plan. The TIP is financially constrained for each year and identifies the federal, state, and regionally significant projects that can be implemented using existing revenue sources as well as those projects that are to be implemented through use of projected revenue sources based upon the FDOT and ALDOT Final Work Programs and locally dedicated transportation revenues.

Transit projects are drawn from the Five Year Transit Development Plan and priorities are provided to the TPO by the local transit operator. Projects for the Transportation Disadvantaged Program are provided by social service agencies and the designated Community Transportation Coordinator (CTC). Funding comes from

FTA, FDOT, CTD, local governments, and social services agencies.
The current Okaloosa-Walton TPO Transportation Improvement Program (TIP) for 2018-2022 was adopted on June 15, 2017. This TDSP is consistent with the Transportation Improvement Program.

Public Participation

Public participation activities include participation in the Annual National Dump the Pump Day with promotions through local available venues. Okaloosa County was promoted on the local television program "Focus on Okaloosa" again in 2011. Transit service available to the public was promoted on this program. Transit continues to work with local military family service agencies by promoting the service via distribution of the Ride Guide and other public transit material.

Transit also works with the local Headstart organization to promote public transit at the annual "World's Largest Baby Shower," this event typically takes place in March. OCT promotes fixed route transit by free pass give-a-ways when opportunities arise.

Okaloosa County staff participated in the Salsa Festival on June 25, 2011 as a marketing outreach effort as well as to obtain transit survey information from festival goers.

The Okaloosa County Transportation Disadvantaged Coordinating Board meeting held on May 23, 2012.

Okaloosa County staff, as well Florida Commission for the Transportation Disadvantaged staff, attended the 5th Annual Northwest Florida Regional Transit Roundtable held in Milton, Florida on June 28, 2012. The Roundtable was hosted by Santa Rosa Transit, which is provided by Santa Rosa County and operated by Pensacola Bay Transportation. Pensacola Bay Transportation is also the Community Transportation Coordinator (CTC) for Escambia and Santa Rosa Counties.

A public hearing was held on May 23, 2018 to offer an opportunity for anyone with comments or questions to address the Local Coordinating Board.

SERVICE AREA PROFILE/DEMOGRAPHICS

The majority of the information contained in this section, Service Area Profile/Demographics, has been obtained from the Okaloosa County Transit Development Plan (TDP) Major Update 2017-2026 prepared by Tindal Oliver and adopted by the Okaloosa County Board of County Commissioners on August 16, 2016 and approved by the Florida Department of Transportation (FDOT) on October 18, 2016.

Service Area Description

Okaloosa County has a total area of 1,082 square miles (935.63 square miles of land and 146.37 square miles of water). Okaloosa County, part of the Florida Panhandle, is bordered by the State of Alabama to the north, Santa Rosa County to the west, Walton County to the east, and the Gulf of Mexico to the south.

Demographics

Land Use

Land use patterns play an important role in the effectiveness and efficiency of public transportation services. Much of Okaloosa County is characterized by relatively low densities. One of the significant land uses in the area that affects transportation is Eglin Air Force Base. The geographical location of the base separates the northern part of the county, Crestview, from the southern part of the county, Fort Walton Beach, causing development to be spread out and divided. This creates a challenge in providing public transportation services.

Population Profile

This section is intended to provide a description of the population of the service area. Population information contained in this section includes: total population, population breakdown by age groups, population densities and growth, income information, employer status, housing classifications and patterns, and government and institutional descriptions.

Growth

Population information from the 2010 Census was used to develop a general population profile for the study area. According to the 2000 U.S. Census, the population of Okaloosa County was 170,498 persons. As shown in Table 1, data from the decennial Census show that Okaloosa County's population as a whole increased nearly 6% from 2000 to 2010, from 170,498 to 180,751 persons. This averages to an annual growth rate of 0.55%. During the next four years, the population increased to an even higher average annual rate of 0.91%, resulting in a total population of 188,984 persons in 2014. Medium population projections prepared by BEBR1 estimate the population of Okaloosa County will grow to 191,500 people by 2020 (6%) and 203,600 people by 2030 (13%).

TABLE 1
Okaloosa County General Characteristics

Characteristic	2000	2010	Percent Change 2000–2010	2013*	2014
Persons	170,49	180,75	6.01%	185,852	188,984

*2009–2013 ACS Data, 2014 ACS 1-Year Estimates Source: 2000 and 2010 Census, 2010 ACS

The majority of Okaloosa County residents live in unincorporated areas of the county. The most populous city is Crestview, with a population of 20,978 in 2010. Compared to Florida as a whole, Okaloosa County experienced a relatively small increase in population growth from 2000 to 2010, with an increase of only 6.1%, compared to 17.6% statewide. By contrast, between 2000 and 2010, neighboring Walton County had the 8th highest percent growth increase in the state (35.6%), a number that is small in absolute terms, with only 14,442 new residents. Since 1990, Crestview continues to be the fastest-growing city in Okaloosa County, growing by 6,212 residents between 2000 and 2010. Valparaiso, Mary Esther, Laurel Hill, and Fort Walton Beach each experienced negative growth during that same time period. Table 2 provides population trends for the last few decades for the municipalities within Okaloosa, Walton, and Okaloosa counties and the Crestview-Fort Walton Beach-Destin Metropolitan Statistical Area (MSA). Between 1990 to 2000 and 2000 to 2010, the region grew 23.1% and 6.2 %, respectively; most of this growth occurred in Walton County.

TABLE 2
Population Growth for the Region and Municipalities

Area	Population			Percent Change	
	1990	2000	2010	1990–2000	2000–2010
Crestview-Fort Walton Beach-Destin	171,536	211,099	235,865	23.1%	11.7%
Okaloosa County	143,777	170,498	180,822	18.6%	6.1%

Demographics

The percent male and female ratio has been virtually equal and unchanged since the year 2000. Although Okaloosa County has a relatively small proportion of minority population, the county has become more ethnically diverse over time. In 2010, 81% of the population was White. Black, Hispanic, Asian, and other races represented 9.2%, 6.8%, 2.9%, and 5.7% of the population in 2010, respectively. The Black or African American population has gradually increased, and the Hispanic population has almost doubled in proportion, from 4.28% in 2000 to 8.49% in 2014. This growth in minorities represents a potentially growing key market of traditionally transit-dependent populations.

TABLE 3

Age Distribution

The current and future age distribution of the population in Okaloosa County is a major factor when considering demand for public transportation. According to the Okaloosa-Walton County 2040 Long Range Transportation Plan (LRTP) prepared by the Okaloosa-Walton TPO, the region's population is unique, in that there are a high number of retirees, many of which have ties to the military; however, the average age in Okaloosa County is also younger overall than that of the Florida. The age distribution has seen incremental changes since the year 2000, most notably with the decreasing percent change in those that are minors.

TABLE 4
Okaloosa County Age Distribution Trends Compared with Florida

Age	Geography	2000	2010	2014
17 and under	Okaloosa County	22.34%	18.4%	18.8%
	Florida	(22.8%)	(21.3%)	(20.9%)
18–64	Okaloosa County	63.72%	62.7%	65.9%
	Florida	(59.6%)	(61.4%)	(60.9%)
65+	Okaloosa County	13.95%	18.9%	15.3%
	Florida	(17.6%)	(17.3%)	(18.2%)

Source: 2000 Census, 2010 Census, 2014 ACS

Persons ages 15 or younger are not legally allowed or able to operate a motor vehicle. However, younger children below age 14 are unlikely to ride transit on their own, but could do so in the 10-year horizon as they become more independent. Teenagers who are between ages 14 and 18 are more likely to not have their own vehicle and, therefore, have a higher propensity for using transit or finding a ride (carpool).
Within Okaloosa County, the younger population generally resides in the inland and suburban areas such as Crestview. The teenage group between ages 15–19 is projected to increase from 6.49% in 2014 to 7.65% in 2025, as shown in Table 5.

TABLE 5
Projections by Age Group

Age Group	Projection Year			
	2014	2015	2020	2025
0–9	13.2%	13.3%	12.6%	13.6%
10–14	6.4%	6.5%	7.1%	6.3%
15–19	6.5%	6.4%	6.9%	7.7%

65+	16.1%	16.7%	19.6%	23.1%

Source: BEBR

Older persons also may be more likely to use public transportation as the aging process begins to limit their ability to drive. The retired population generally lives in the coastal areas. Table 6 shows the current and forecasted older adult population for Okaloosa County and Florida, based on data from BEBR's *Florida Population Studies Population Projections*. By 2025, the older-adult population is projected to increase to 20.1% of the county's total population. Furthermore, the population segment between ages 45 and 65, which will be the next wave of retirees, currently represents approximately 28.6% of the total population within the county. A growing need for public transit within Okaloosa County can be assumed, considering the growing share of age groups that are more likely to use transit.

TABLE 6
Older Adult Population Projections

Geography	Census	Estimates	BEBR Projections					
	2010	2014	2015	2020	2025	2030	2035	2040

Source: Based on BEBR population projections for Florida and Its counties 2015–2040, with estimates for 2014

Income information

Income is a leading influence in travel decisions. Because there is less disposable income available, it can be inferred that low-income households are less likely to own one vehicle per licensed driver or able to make fewer discretionary trips and, therefore, may be more dependent on public transit, particularly for non- essential or recreational trips. Based on 2014 household income levels, the majority of Okaloosa County's population lies within the middle- to upper-class ranges. In general, households within the coastal areas tend to be more affluent, as is typically seen throughout Florida. The county has seen household incomes trending higher, with a 10% increase in the number of households making more than $50,000 in annual income since 2000, as shown in Table 7. This trend of higher incomes is consistent with the increase in the number of households with three or more vehicles, which has also increased 15% since 2000, indicating more disposable income for transportation.

TABLE 7
2000, 2010, and 2014 Household Income

Characteristic	2000	2010	2014	% Change 2000–2014
Household Income				
Under $10,000	6.4%	7.0%	6.1%	-4.7%
$10,000–$49,999	53.5%	41.4%	37.6%	-29.7%
$50,000 or more	40.1%	51.6%	56.3%	40.4%

Below poverty level	8.84%	10.60%	13.4%	51.6%

Source: 2000 Census, 2010 Census, ACS 2014

Population and Housing Density

Where the unit of value "households" refers to the number of people living in a home, the term "housing units" refers to the structures in which people live. According to the census, "A *housing unit* is a house, an apartment, a mobile home or trailer, a group of rooms, or a single room occupied as a separate living quarters, or if vacant, intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other individuals in the building and which have direct access from outside the building or through a common hall."

Household size

According to the U.S. Census bureau, the average size of American households has been declining for decades. A reverse in that decline has been found in recent years due to the growth in multi-generational households. There have also been notable trends found in the state with increasing household size potentially due to higher unemployment leading to adult children moving back in with parents.

Employment

Employment and labor characteristics also help to understand land use and travel patterns that affect transit service. Like population density, Okaloosa County has a relatively low overall employment density that poses a

challenge to finding transit-supportive areas. This is compounded by the fact that Eglin Air Force Base is a major land use that physically splits the county north-south. The region's major employers are the US military, the Okaloosa and Walton County school boards, and Northwest Florida State College. These large employers create an exceptional demand on the transportation system. After the military, tourism is the second largest contributor to the local economy. Along the coastal areas are more service and tourist-oriented jobs than in the northern portions of the county. Other large employers include area hospitals and several military contractors.

Journey-to-Work Characteristics

Journey-to-work characteristics for Okaloosa County were compiled from the American Community Survey (ACS) and are shown in Table 8. These characteristics include mode of transportation to work, travel time to work, departure time to work, mode of transportation by occupation type, and destination of work trip. As is typical in most Florida communities, the primary mode of commuting to work is by driving alone. Currently, only 0.1% of commuters travel to work using public transportation, an important consideration when determining the potential market of choice riders for transit. The mean travel time to work for workers ages 16 and older is 23.1 minutes, indicating that commuters must travel some distance between work and home.

The majority of commuters leave for work during the traditional peak hours of travel, which is consistent with the typical commuting patterns of the state.

TABLE 8
Okaloosa County Commuting Characteristics

Characteristic	2014

Major Activity Centers

Major trip generators in Okaloosa County include Eglin Air Force Base, technology and defense contractors affiliated with the Base, retail sites, several medical facilities (such as Fort Walton Beach Medical Center, Twin Cities Hospital, North Okaloosa Medical Center, White-Wilson Medical Center, and Sacred Heart Hospital on the Emerald Coast), Emerald Coast Convention Center, tourist attractions, and government facilities.

SERVICE ANALYSIS

The majority of the information contained in this section, Service Analysis, has been obtained from the Okaloosa County Transit Development Plan (TDP) Major Update 2017-2026 prepared by Tindale Oliver and adopted by the Okaloosa County Board of County Commissioners on August 16, 2016 and approved by the Florida Department of Transportation (FDOT) on October 18, 2016.

The analysis of Okaloosa County community transportation services is composed of three criteria: forecasts of transportation disadvantaged population, needs assessment, and barriers to coordination.

Forecasts for Transportation Disadvantaged Population

Chapter 427.011(1) of the Florida Statutes defines Transportation Disadvantaged (TD) persons as:

> *"Those persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or children who are handicapped or high-risk or at risk as defined in s. 411.202."*

The Okaloosa County Board of County Commissioners provides public transportation to the transportation disadvantaged (TD) population of Okaloosa County. Service for the TD population is funded by the Federal Transit Administration (FTA), FDOT, the Florida Commission for the Transportation Disadvantaged (CTD), local governments, and social service agencies.

The 2014 TD population was estimated at 62,277 persons, and the unduplicated passenger head count (UDPHC) of persons provided paratransit transportation services was 5,812 according to the Florida CTD. Table 2-10 presents the trend in the TD population and TD passengers in Okaloosa County between 2012 and 2014. The potential TD population serviced in 2013–2014 was estimated to be 9% according to the Florida CTD's 2014 Annual Operation Reports (AOR). TD passenger ridership fluctuated between 2012 and 2014. Although the county's potential TD population increased overall by 2.4% during this three-year period, there was a significant decrease in the number of TD passengers served from 2013 to 2014. This is likely due to funding shortfalls, as changes made in Medicare funding occurred statewide and Florida experienced a decrease of 19.7% in TD trips statewide.

TABLE 9
Okaloosa County TD Population and Passenger Trends

Year	2012	2013	2014	% Change (2012–2014)

Needs Assessment

In assessing the transportation (service and capital purchase) needs and demands for individuals with disabilities, elderly, low income, and high risk and at-risk children, the following projects with estimated costs and funding sources have been identified and are summarized in Table 11 below.

TABLE 11

Projects	County	Estimated Cost	Funding Source
Purchase replacement dial-a-ride vehicles to provide transportation for the elderly, disadvantaged and disabled citizens in Okaloosa County.	Okaloosa	$1,160,000	Urbanized Area - 5307 (capital)
Provide transportation services for disadvantaged and disabled citizens in Okaloosa County coordinated through the CTC.	Okaloosa	$300,000	Urbanized Area - 5307 (operating)
Formula (competitive) grant to enhance mobility for seniors and persons with disabilities by providing funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services.	Okaloosa	To be determined	Enhanced Mobility of Seniors and Individuals with Disabilities - 5310
Capital and/or operating assistance to provide rural transportation services in Okaloosa County coordinated through the CTC.	Okaloosa	$60,000	Non-Urbanized Area - 5311
Capital funding to replace, rehabilitate, and purchase buses, vans, and related equipment, and to construct bus-related facilities. Funds are eligible to be transferred by the state to supplement urban and rural formula grant programs (e.g., 5307 and 5311).	Okaloosa	To be determined	Bus & Bus Facilities (5339)
To determine whether a new or innovative technique or measure can be used to improve or expand public transit services. Service Development Projects specifically include projects involving the use of new technologies; services, routes, or vehicle frequencies; the purchase of special transportation services; and other such techniques for increasing service to the riding public.	Okaloosa	To be determined	Public Transit Service Development Funds
Provide transportation services coordinated by the CTC to other human services organizations.	Okaloosa	$ 464,919 TBD $ 25,000 $ 52,020	CTD-TD Medicaid County Farebox

Barriers to Coordination

The following are continued barriers to adequate coordination:

A. Lack of commitment with scarce tax dollars.
B. Not enough funding to cover demand.
   1) Securing Local funding.
   2) Specific issues directly related to funding sources.
C. Reluctance of some medical providers to cooperate with transportation coordinator.
D. No AHCA providers in local area.
E. Eglin Air Force Base geographical location is a barrier separating the North part (Crestview) from the Southern part of Okaloosa County.

GOALS, OBJECTIVES, AND STRATEGIES

Develop goals, objectives and strategies for the local coordinated transportation program. Goals, objectives, and strategies are critical to the implementation of the Transportation Disadvantaged Service Plan. They are important policy statements that have been carefully considered by the Coordinator and the Planning Agency with the direction and support of the Coordinating Board. They represent a statement of local policy that will be used to manage the future transportation disadvantaged program within the service area. The plan for advancing from where you are today to where you need to be should be presented in this section through long range goals, specific measurable objectives, and strategies.

A goal is a statement of purposed intended to define an ultimate end or condition. It reflects a direction of action, and is a subjective value statement. Goals may include more than one objective. That is, there may be more than one milestone necessary to achieve a goal.

An objective is a specific, measurable action that can be taken toward achieving the goal. Objectives should be dated. Deficiencies and corresponding corrective actions, as well as any service improvements or expansions should be identified within this section as dated objectives.

Strategies are specific actions that will be taken to achieve the objectives. These represent priority actions that will be carried out as part of the planning or quality assurance activities. For accountability purposes, the annual evaluation of the Coordinator should assess both the progress on the strategies themselves and how well the strategies that have been implemented advance the progress towards reaching or achieving the corresponding objectives.

The following Goals and Objectives were updated. The Objectives and Strategies are consistent with previous year's Objectives and Strategies. The goals are categorized into service availability, efficiency, quality of service, necessary funding and program accountability. The strategies are pursuant to adequate funding available.

GOAL 1: Ensure availability of transportation services to the Transportation Disadvantaged	
OBJECTIVES	**STRATEGIES**
1. Provide service to riders who only have demand response service as means of transportation.	a. Continue to efforts to move customers from dial-a-ride door-to-door service onto the fixed route system. b. Continue to partner with various agencies to provide transportation. (Ongoing)
2. Maximize cooperation between entities not involved in the Florida Coordinated Transportation System (FCTS).	a. Network with other Community Transportation Coordinators by sharing system improvements and funding opportunities among each other. (Continuous) b. Identify potential Coordination and Purchase of Service Contracts. (Ongoing)
3. Continue to promote passenger and general public awareness of all transportation services provided by ~~OCT~~. EC Rider	a. Pursue educational and marketing opportunities for the dial-a-ride system through training, new applicant education, brochures, and presentations to community and civic groups. (Ongoing)
GOAL 2: Ensure cost-effective and efficient transportation services.	
OBJECTIVES	**STRATEGIES**
1. Deliver services via the most cost effective means.	a. Offer incentives such as free passes for transitioning dial-a-ride users to fixed route. b. Involve all levels of staff in identifying cost-reducing and/or efficiency-increasing measures that can be implemented. (Ongoing)
GOAL 3: Ensure quality of service provided to the Transportation Disadvantaged	
OBJECTIVES	**STRATEGIES**
1. Maintain courteous and respectful customer relations.	a. Continues semi-annual customer relations training and conducts semi-annual screenings to determine call hold and call answer times. (Ongoing) b. Sample on time delivery performance on a quarterly basis. (Quarterly) c. Maintain rider survey rating of overall system performance at a 90% excellent/good/satisfactory rating.
2. Maximize customer comfort and safety.	a. Maintain rider survey rating of comfort and cleanliness performance at a 90% excellent/good/satisfactory. b. Conduct safety training as required for new employees and updated for existing employees. (Immediate) c. Continue “Driver of the Quarter” program based on dependability, no accidents, and no complaints with incentives to the winning drivers. (Ongoing)
GOAL 4: Ensure necessary funding to support the program	
OBJECTIVES	**STRATEGIES**
1. Increase total funds to meet unmet demand for non-sponsored trips.	a. Seek funding from local government to provide local match for transportation services while pursuing private funding through community involvement with agencies. (Continuous)
GOAL 5: Ensure program accountability	
OBJECTIVES	**STRATEGIES**
1. Adhere to rules and contract requirements of The Commission for the Transportation Disadvantaged.	a. Comply with the Community Transportation Disadvantaged contract requirements. (Continuous) b. Comply with contract standards and submit an accurate Annual Operating Report including all Purchase of Service and Coordination Contracts data. (Continuous)

IMPLEMENTATION SCHEDULE

Increasing system efficiency is a primary component of this Implementation Plan. The implementation plan also involves execution of the plan's policies and goals & objectives. For the TDSP, the implementation plan identifies actions and activities, type of action required, responsible entity for taking action, and the timing. The Community Transportation Coordinator will provide an overview of the ongoing system improvements and review steps, as well as provide a timeline for actions and strategies to meet the above stated goals.

Action/Strategy	Responsible Agency	Time Frame to be Completed
Adopt Transportation Disadvantaged Service Plan (TDSP) Annual Update.	LCB	May 2017
Endorse Okaloosa County Transit Bus Stop Assessment Plan	O-W TPO	Aug 2013
Approve Transit Development Plan (TDP) Annual Progress Report.	FDOT	Oct 2016
Endorse TDP Annual Progress Report.	TPO	Jul 2016
Adopt TDSP Major Update (every 5 years).	LCB	Oct 2017
4 minivans received July 2012, 4 cutaways received Aug 2012, and 7 additional cutaways received Oct 2012 for replacement of aged and/or high mileage vehicles.	CTC	2012
Public Transportation marketing campaign kickoff.	TPO	Nov 2012
Procurement and Installation of Bus Stop Shelters.	CTC	TBD
Request for Proposal of Intelligent Transportation System.	CTC	TBD
ITS System Complete.	CTC	TBD
Implement new Internal Destin Route.	CTC	TBD
Adhere to rules and contract requirements of the CTD.	CTC	Ongoing
Attend and report at public meetings.	CTC	Ongoing
Attend media events to promote public transit.	CTC	Ongoing
Continue to develop and refine the transit center concept as a means of expanding new and existing fixed-routes.	CTC	Ongoing
Deliver transportation by most cost effective means.	CTC	Ongoing
Increase total funds to meet unmet demand for non-sponsored trips.	CTC	Ongoing
Maintain courteous and respectful customer relations.	CTC	Ongoing
Maximize cooperation between coordination contractors.	CTC	Ongoing
Maximize customer comfort and safety.	CTC	Ongoing
Promote awareness of all public transit service available.	CTC	Ongoing
Provide service to riders that cannot access fixed-route service.	CTC	Ongoing

The Okaloosa County vehicle replacement plan is summarized in the table below and illustrates the projected schedule for replacing dial-a-ride vehicles.

OKALOOSA COUNTY
Dial-a-Ride Vehicle Replacement Plan
FY 2013 – 2022

Model Year	Approval Year (w/Approval from	Manfacturer / Model	Type	# of Vehicles	Replacement Vehicle Years									
					FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022
2006	2011	Ford	Sedan	4	4	4	4	4	4	R

OPERATIONS

The operations element is a profile of the Coordinator's current system which provides basic information about the Coordinator's daily operations. This element is intended to give someone with little or no knowledge of the transportation operations an adequate level of understanding. A Glossary of Terms is provided in the appendices of this plan.

Types, Hours and Days of Service

Ambulatory, wheelchair and stretcher service are provided.

Dial-a-Ride service provides door to door pick-up and drop-off.

Normal vehicle operating hours are Monday - Friday, 5:00 A.M. to 11:00 P.M.; and Saturday 6:00 A.M. to 7:00 P.M. and Sunday 7:00 A.M. to 12:00 P.M.

Service is available 7 days a week/24 hours per day. After normal vehicle operating hours, service is limited to urgent transportation needs (Hospital discharges, urgent non-emergency medical care, etc.). Service must be arranged during normal office hours.

Deviated Fixed-Route service is available in Crestview - Route 14, Ft. Walton Beach - Routes 1-5, Okaloosa Island - Route 20, Destin to Miramar Beach - Routes 30, 32, 33, and a North/South County Connector - Route 14, with service through Niceville.

Mandatory use of the deviated fixed route is required when it will satisfy the transit needs of the client and there are no contraindications of its use by the client.

Subscription trips are provided to riders requiring repetitive trips to the same destination 3 or more times per week. Subscriptions must be renewed every 60 days.

Accessing Services

Trips may be reserved up to 7 days in advance.

Reservations/Office operating hours are Monday – Friday, 7:30 A.M. to 4:30 P.M.

Reservations must be made by 11:59 A.M. the day prior to the requested ride. Reservations must be received by close of ~~business~~ reservations operating hours (1:59 A.M.) the last working day prior to a weekend or holiday transportation.

Reservations may be made by calling 833-9168 (South County) or 689-7809 (North County), Monday through Friday 7:30 A.M. to 4:30 P.M. Reservations are closed on weekends and holidays.

Cancellations should be made as soon possible. Late cancellations (within 1 hour of scheduled pick up) will be treated as a no show.

A No Show is charged when a trip is cancelled within 1 hour of scheduled pick up time or the client is not at the scheduled pick-up location and the driver is no later than 10 minutes after the scheduled pick up time.

Non-Sponsored/transportation disadvantaged (TD) riders must complete an application with proper documentation to be eligible to utilize TD funds. Eligibility is determined based on availability of other transportation, income, disability, age, a finding of "at-risk" for children, and the ability to use the deviated fixed route system.

Shopping requests are scheduled accordingly:

- Crestview, Destin, and Niceville areas - Tuesday and Thursday from 10 a.m. to noon.
- Fort Walton Beach areas - Tuesday and Saturday 10 a.m. to noon.

Out of County trips and long distance Okaloosa trips are limited to designated days and times to best meet the needs of passengers and maximize the efficiency and effectiveness of available resources.

Transportation Operators and Coordination Contractors

Transportation operators are selected through the Competitive Bid process. A selection committee evaluates and scores the proposals based on specific evaluation criteria identified in the proposal and then recommends a contract award to the Okaloosa County Commission for approval.

Coordination contractors request to enter into a Coordination Agreement with the CTC to participate in the County's Coordinated Transportation system. The Agreements are presented to the Okaloosa County Commission for approval.

Current Coordinated providers are:

Pyramid
432 Green Acres Road
Fort Walton Beach, FL 32547
850-862-7139

Pensacola Cares dba Fort Walton Beach Development Center
1045 Mar Walt Drive
Fort Walton Beach, FL 32547

Public Transit Utilization

Continued efforts to shift Dial-a-Ride users to the fixed-route system will continue. The existing fixed-route service, 10 routes, with year round service should facilitate this effort. Additionally, in conjunction with the recently formed Transit Cooperative consisting of county and municipal leaders, current and future routes will be reviewed to improve the fixed-route area of operation, hours of service, days of service, and frequency of runs.

School Bus Utilization

Current CTC resources are adequate and actually more cost effective than school bus utilization.

Vehicle Inventory

A Vehicle Inventory of the vehicles utilized in the coordinated system is included in the appendices.

System Safety Program Plan Certification

Each Transportation Operator and Coordination Contractor from whom service is purchased or funded by local government, state or federal transportation disadvantaged funds, shall ensure the purchasers that their operations and services are in compliance with the safety requirements as specified in Section 341.061, Florida Statutes, and Chapter 14-90, F.A.C. The System Safety Program Plan certification can be found in the appendices.

Intercounty Services

Transportation operators and coordination contractors are required to plan and work with county and municipal community transportation representatives, transportation operators, and coordination contractors in adjacent and other areas of the state to coordinate the provision of community trips that might be handled at a lower overall cost to the community by another Coordinator.

Through the efforts of the West Florida Regional Planning Council, discussions have recently begun with Escambia, Santa Rosa, and Okaloosa Counties to study the feasibility of coordinating transportation through the 3 counties. These discussions will continue as we receive updated census data and new urbanized area boundaries are determined.

Emergency Preparedness and Response

The County contracted transportation operators and coordination contractors are an integral element of the County's Disaster Preparedness Plans. The County contracted transportation operator serves as ESF-1 in the County Emergency Operations Center. During periods of emergencies, the County contracted transportation operator supports operations by providing vehicles and drivers to meet requests by Okaloosa County Public Safety.

Educational Efforts/Marketing

Marketing efforts continue to focus on transportation services available to all residents of the County. Presentations to local service agencies as well as nationally affiliated clubs will continue. Flyers have been sent to all local clubs, organizations, and groups as well as inserts to in-house publications and the local Chambers of Commerce. Items are also published in the local newspapers and used by local radio shows. Staff has appeared on public interest television shows. The County contracted transportation operator, in conjunction with the recently formed Transportation Cooperative consisting of county and municipal leaders, will develop and circulate additional releases and advertising.

Acceptable Alternatives

Requests For Proposal (RFP) will continue to be developed to try and contract a private operator to help us expand our night and weekend services and continued efforts will be made to obtain additional stretcher service operators for our clients. Promoting the deviated fixed route system is another alternative that could reduce trip costs for riders.

Service Standards

The Community Transportation Coordinator and any Transportation Operator from whom service is purchased or arranged by the Community Transportation Coordinator shall adhere to Commission approved standards. These standards include:

Drug and Alcohol Policy. For safety sensitive job positions within the coordinated system regarding pre-employment, randomization, post-accident, and reasonable suspicion as required by the Federal Transit Administration.

Companions and children. Okaloosa County children under the age of twelve (12) require a companion. The requirement may also be imposed if the child has special needs or exhibits behavior problems. The minimum age of companion must be 18 years or older.

Child Restraints. The Okaloosa LCB, in accordance with *Florida Statute, Title XXIII, Chapter 316.613, Child restraint requirements*, must ensure children 5 years of age and under are transported in a crash tested, federally approved child restraint device. Additionally, the Okaloosa LCB has determined that infants (birth to 20 pounds) are required to be transported in an infant carrier, which is the responsibility of the parent or guardian. The transportation operator does not provide infant carriers.

The transportation operator provides limited child restraint seats for children greater than 20 pounds up to child restraint maximum rated capacity of 50 pounds. Clients must request a child restraint seat when placing their transportation reservation/request.

Rider Property. Property that can be carried by the passenger in one trip and can safely be stowed on the vehicle, shall be allowed to be transported with the passenger at no additional charge. Passenger property includes wheelchairs, child seats, stretchers, secured oxygen, personal assistive devices, or intravenous devices.

Vehicle Transfer Points. Shall provide shelter, security, and safety of passengers.

Local Toll Free Phone Number for Consumer Comment. Shall be posted inside the vehicle. The TD Helpline phone number, **1 (800) 983-2435,** shall also be posted inside all vehicles of the coordinated system. The local complaint process shall be outlined as a section in the local Transportation Disadvantaged Service Plan including, advising the dissatisfied person about the Commission's Ombudsman Program as a step within the process as approved by the local Coordinating Board. All rider information/materials (brochures, user's guides, etc.) will include the TD Helpline phone number.

Out of County Trips. Shall be provided only when the rider cannot be accommodated within Okaloosa County. Medical documentation is required.

Vehicle Cleanliness. The interior of all vehicles shall be free from dirt, grime, oil, trash, torn upholstery, damaged or broken seats, protruding metal or other objects or materials which could soil items placed in the vehicle or provide discomfort for the passenger.

Billing Requirements to Contracted Operators. All bills shall be paid within 7 working days to subcontractors, after receipt of said payment by the Community Transportation Coordinator, in accordance with Section 287.0585, Florida Statutes.

Rider/Trip Data. Must be maintained or accessible by the Community Transportation Coordinator on each rider being transported within the system.

Adequate Seating. For Dial-a-Ride services shall be provided to each rider and companion, child, or personal care attendant, and no more passengers than the registered passenger seating capacity shall be scheduled or transported in a vehicle at any time. For transit services provided by transit vehicles, adequate seating or standing space will be provided to each rider and companion, child, or personal care attendant, and no more passengers than the registered passenger seating or standing capacity shall be scheduled or transported in a vehicle at any time.

Driver Identification. Drivers for Dial-a-Ride services, including coordination contractors, shall be required to announce and identify themselves by name and company in a manner that is conducive to communications with the specific passenger, upon pickup of each rider, group of riders, or representative, guardian, or associate of the rider, except in situations where the driver regularly transports the rider on a recurring basis. Each driver must have photo identification that is in view of the passenger. Name patches, inscriptions or badges that affix to driver clothing are acceptable. For transit services, the driver photo identification shall be in a conspicuous location in the vehicle.

Passenger Assistance. The Dial-a-Ride driver shall provide the passenger with boarding assistance, if necessary or requested, to the seating portion of the vehicle. The boarding assistance shall include opening the vehicle door, fastening the seat belt or utilization of wheel chair securement devices, storage of mobility assistive devices, and closing the vehicle door. Assisted access must be in a dignified manner. Drivers may not assist wheelchair up or down more than one step.

Smoking and Eating on Vehicles. Is prohibited in any vehicle.

Cancelled Late and No-Show Policies. The Community Transportation Coordinator and the Local Coordinating Board shall jointly develop a policy on passenger no-shows. Assessing fines to passengers for no-shows is acceptable but such policy and process shall be identified as follows:

Trips should be cancelled by 12 noon the day prior to the scheduled pick up time. This type of cancellation would be considered a Cancelled in Advance (CA) and would not be considered a cancel or no-show.

Trips that are cancelled after 12 noon to 2 hours prior to the scheduled pickup time will be classified as a Cancelled Late (CL) and will be documented by ECR.

Trips that are cancelled within 2 hours of the scheduled pickup time will be classified as a No-Show (NS). The contractor will contact the client to determine the cause for the no-show. The contractor will share the information within the organization to reduce No-shows and recorded in Trapeze.

Trips that are cancelled at the door are considered a No-Show. The contractor will contact the client to determine the cause for the no-show. The contractor will share the information within the organization to reduce No-shows and recorded in Trapeze.

If a driver is later than 15 minutes from the scheduled pick-up time and the client is not present or cancels at the door, the trip will be classified as a Missed Trip and will not be counted as a No-Show.

If the client frequently fails to notify the appropriate office with the terms stated above, then that client may be subject to suspension.

If the client responds to any cancelled late or no-show notifications and provides acceptable, verifiable evidence that the cancelled late or no-show was due to unforeseen and unavoidable circumstances, the missed trip will not be counted against the client.

Cancellations should be called into the transportation coordinator offices at 833-9168.

No Show Policy.

EC Rider has established the following “No Show” policy for Dial-a-Ride clients. Passengers who establish a pattern or practice of excessive “No Shows” shall be subject to suspension of service. This policy is necessary in order to recognize the negative impact “No Shows“ have on other passengers and service provided.

A passenger is considered a “No Show” if the passenger fails to board at the scheduled pick up locations when the driver has wait 5 minutes during the 45 minute pick up window. EC Rider has a 45 minute pick up window that means that means your ride may arrive anytime from 30 minutes prior to your scheduled pick time to 15 minutes after your scheduled pick up time

Example: If your scheduled pick up time is 9 AM the driver may arrive anytime between 8:30 AM – 9:15 AM.

All riders must then be ready to board the vehicle during the entire 45 minute pick-up window and the driver will only wait 5 minutes.

Example: If a driver arrives at 9 AM the driver will wait until 9:05 AM before departing.

If you're a driver arrives before your scheduled pick up time, the rider does not have to board the vehicle until the scheduled pick up time and the driver will only wait 5 minutes after the scheduled time.

Example: If you are scheduled for a 9 AM pick up and the vehicle arrives at 8:50 AM you do not have to board the vehicle until your scheduled time but the vehicle will only wait until 9:05 before leaving for the next passenger pick up.

An individual is considered a "No Show" if he/she is not available for pick up as described above.

Each leg of a client's trip is treated separately. If a client misses a scheduled pick up, EC Rider will not cancel that passenger's return trip. If the client does not appear for the return trip, that incident will count as a "No Show" as well. A client will be counted as a "No Show" for each leg of any trip they fail to cancel and do not appear.

Clients will not be penalized for "No Shows" or late cancellations due to circumstances beyond their control.

Example: Cancelations due but, not limited to power outages, family emergency, illness or error caused by EC Rider.

Once a client shows a trend or has in excess of 15% cancelations in a 30 day period, call the client to remind them of their increasing "No Shows" and explain the affect "No Shows" have to the systems resources and other clients. Explain when to call to avoid a "No Show". You will frequently find a simple reason and solution to the "No Show" such as client has relocated, on vacation, in the hospital, visiting family transporting and some forget they are on a "standing order".

Excessive "No Shows" in excess of 15% of the client's total trips in a 3 month rolling period may or may not result in sanctions as described below.

Once a client shows a trend or has in excess of 15% cancelations in a 1 month period, call the client to remind them of their increasing "No Shows" and explain the affect "No Shows" have to the systems resources and other clients. Explain when to call to avoid a "No Show". You will frequently find a simple reason and solution to the "No Show" such as client has relocated, on vacation, in the hospital, visiting family transporting and some forget they are on a "standing order". Document the call, date, time, person spoke with and the details of the conversation from both perspectives.

Excessive "No Shows" in excess of 15% for 2 months. Notify the client a second time, reminding them of the previous documented conversation. If necessary, send a warning letter. Reference your previous conversations, outline the "No Show" incidents and explain the consequences if the trend continues and reaches a 3 month rolling period.

Excessive "No Shows" in excess of 15% for 3 months. Notify the client telephonically and in writing they will be suspended from service for a period of up to 30 days. Once the 30 days has passed, the client may begin receiving service. If the "No Show" trend continues in excess of 15% following the reinstatement of services, the client may be suspended for additional periods of time.

Suspension Removal. Suspension will only be removed by the sponsoring agency and the CTC or transportation operator.

Upon any conversation following a suspension of service the clients or representatives must be counseled on the policies and responsibilities of using the coordinated system (i.e., canceling trips appropriately, shared ride, cost to CTC, future loss of transportation.) If a client feels that he/she had been unfairly suspended the client may appeal through the Grievance Procedure of the LCB or CTC.

Communication Equipment. All vehicles providing service within the coordinated system, shall be equipped with two-way communications in good working order and audible to the driver at all times to the base.

Vehicle Air Conditioning, Heating Equipment, and Camera System. All vehicles providing service within the coordinated system, shall have working air conditioners, heaters and cameras in each vehicle. Vehicles that do not have a working air conditioner, heater or camera will be scheduled for repair or replacement as soon as possible.

First Aid Policy. Drivers are not required to have First Aid training.

Cardiopulmonary Resuscitation. Drivers are not required to have CPR training.

Pick-Up Window. Clients are to be ready for pick up 30 minutes prior to their scheduled pick-up time. The "pick up window" for your trip will be 30 minutes before or 15 minutes after your scheduled pick up time. For scheduled returns, clients are expected to be dropped off 15 minutes before or after the scheduled drop off.

Appointment/Requested Late Drop-off Time. For clients with appointment or a requested late drop-off time, the operators are expected to be deliver clients no earlier than 30 minutes before and no later than the appointment or requested late drop-off time.

On-Time Performance. The primary operator will have a 90% on-time performance rate for all completed trips.

Income Eligibility - Income eligibility will be based on 200% of the Federal Poverty Guideline based on the most current federal fiscal year. Income eligibility may be adjusted by the Program Manager based on the availability of resources. Individual exceptions meeting the Federal Poverty Guideline must be approved, in writing, by the Program Manger or CTC. Any adjustments or exceptions will be briefed and approved at the next available Local Coordinating Board (LCB) meeting.

Advance Reservation Requirements. Advance reservations for Dial-a-Ride trips must be made by 11:59 A.M. CT the day prior to the requested ride. Additionally, reservations must be received by 1:59 A.M p.m. CT the last working day prior to weekend or holiday. Same day demand response trips, which provide little advance notification, will be reviewed on a case-by-case basis.

Public Transit Ridership. Continue efforts to move customers from Dial-a-Ride door-to-door service onto the fixed route system to provide greater independence for applicable riders.

Complaints. Total complaints per year shall not exceed 0.5% (0.005) of the total trips per year.

Accidents. The maximum allowable number of accidents during any one evaluation period will be 1 chargeable accident per 100,000 miles.

Road Calls. There should be no less than 10,000 miles between each road call.

Call Answering Time. The CTC office attempts to answer all calls within 12 seconds, approximately four rings.

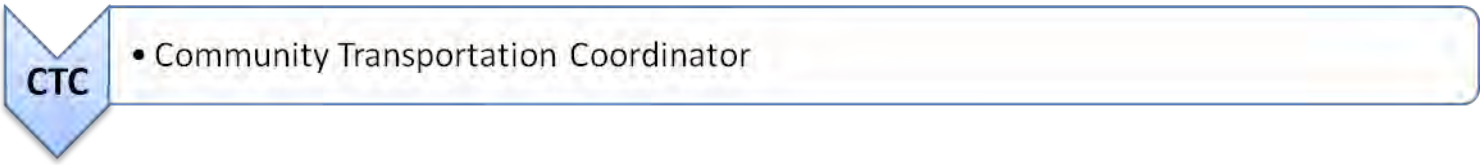
Driver Criminal Background Screening. All drivers in the coordinated system must have a favorable Level 2 background screening.

Local Complaint and Grievance Procedure/Process

The Community Transportation Coordinator (CTC) has established the following grievance procedure as authorized by the Commission for the Transportation Disadvantaged pursuant to Chapter 427, Florida Statutes and Rule 41-2, F.A.C.

A formal grievance is a written complaint to document any concerns or an unresolved service complaint regarding the operation or administration of TD services. The CTC shall make every effort to resolve any problems at the complaint stage prior to becoming a grievance.

Step 1:



The CTC formal grievance process shall be open to addressing concerns by any person or agency including but not limited to: purchasing agencies, users, potential users, private-for-profit operators, private non-profit operators, the designated official planning agency, elected officials, and drivers.

By contacting the CTC office, a written copy of the grievance process and rider policies will be made available to anyone, upon request. The CTC will be responsible for posting on all vehicles in plain view of riders, including transportation subcontractors and coordination contractors, the contact person and telephone number for access to information regarding reporting service complaints or filing a formal grievance.

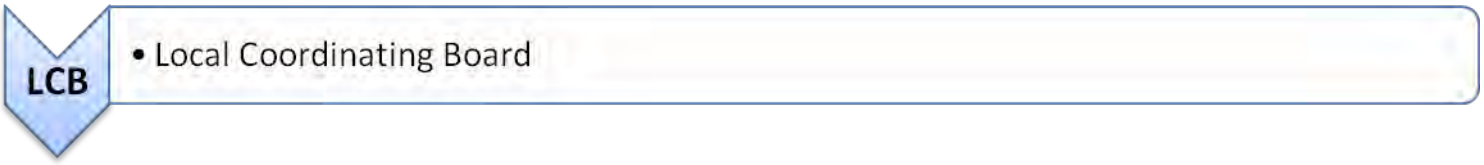
All grievances filed must contain the following information:

1. The name and address of the complainant.
2. A statement of the reasons for the grievance and supplemented by supporting documentation, made in a clear and concise manner.
3. An explanation of the requested relief desired by the complainant.

All formal grievances submitted to the CTC shall be mailed to:

Okaloosa Board of County Commissioners
Transit Coordinator and Grants Manager
1804 Lewis Turner Blvd, Suite 200
Ft. Walton Beach, FL 32547
Phone: 850-609-7003

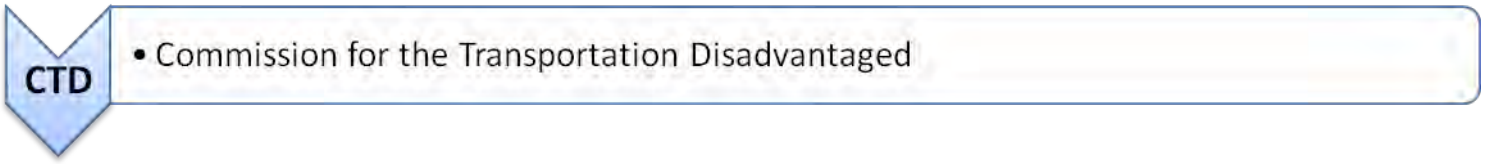
Step 2:



If the aggrieved party is not satisfied with the CTC decision, they may have the Local Coordinating Board (LCB) Grievance Committee hear the grievance and make recommendations to the CTC on their behalf.

To request a LCB Grievance Committee contact the Okaloosa County Transportation Disadvantaged Coordinating Board Chair at P.O. Box 11399, Pensacola, FL 32524-1399 (phone 850-332-7976 x231 or 1-800-226-8914).

Step 3:



If satisfaction cannot be achieved at the local level, a grievance/complaint can be submitted to the Commission for the Transportation Disadvantaged (CTD) Ombudsman Program/TD Hotline at 1-800-983-2435.

Similar to the LCB, the Commission for the Transportation Disadvantaged can hear a grievance and make recommendations or advise the CTC. Apart from these grievance processes, aggrieved parties also have recourse through Chapter 120, F.S., administrative hearing process or the judicial court system.

Note: At any point in the grievance process, the grievant may submit the grievance to the, CTC, Local Coordinating Board (LCB) or the Commission for Transportation Disadvantaged Ombudsman.

CTC Monitoring Procedures of Operators and Coordination Contractors and Coordination Contract Evaluation Criteria

The CTC conducts an annual evaluation of its Operators and Coordination Contractors to ensure contractual compliance. The CTC monitors Operators and Coordination Contractors by examining the areas listed in the Safety Compliance Review. The review is conducted on an annual basis to ensure compliance with the Safety System Program Plan, Commission and locally approved standards, and insurance requirements. The evaluation report is provided to the Local Coordinating Board for review.

A written letter and report are issued to the Operators and Coordination Contractors citing items that require corrections. A deadline is given for corrections to be made. A follow up monitoring is conducted if necessary.

COST/REVENUE ALLOCATION & RATE STRUCTURE JUSTIFICATION

The Commission has established the Rate Calculation Model, a standard process for the development of rates for transportation services that are arranged or provided by the Coordinator. This model can be used by the Commission in comparing and approving rates to be paid to and used by Coordinators and in determining cost-based rates to be charged to all purchasing agencies.

The Rate Calculation Model Worksheets and Rates for Services are reviewed and updated annually. The Rate Calculation Model allows for annual changes to occur based on changes to the level of service, expenditures and revenues.

The Commission's rate calculation model is used to develop rates for non-sponsored trips. Other purchasing agencies have their methods of developing rates for transportation services using vehicle mile rates and/or pick up fees.

Rates for transportation services are included in the service rates summary table below. The summary details type of service provided, unit rate whether passenger mile or trip, and cost per unit.

The Okaloosa County CTC has chosen to use the Program-Wide Rates effective for services. The Rate Model Worksheets for FY 19 (July 1, 2018 to June 30,, 2019) are located in the appendices for reference.
The FY19 rates below are for Program-Wide Rates ``````````Passenger Mile Rate and will be included in the executed Trip and Equipment (T&E) Grant for FY19.

Okaloosa County
Service Rates Summary

Type of Service Provided	Unit	Amended FY 2015/16 Passenger Mile Rate Only	FY 2017/18 Passenger Mile Rate Only	FY 2018/19 Program-Wide Passenger Mile Rate Only
Ambulatory	Passenger Mile	$ 1.35	$ 2.84	$ 2.40
Wheelchair	Passenger Mile	$ 2.32	$ 2.83	$ 2.40
Stretcher	Passenger Mile	$ 4.84	---	---

Quality Assurance

The Local Coordinating Board reviews and approves the Service Plan and it is submitted to the Commission for the Transportation Disadvantaged for final action. The Commission provides feedback on what areas of the plan need to be modified for next year.

The previous Transportation Disadvantaged Service Plan (TDSP) signed review letter and roll call sheet are included in the appendices. The previous TDSP was approved and no items were cited as deficient or inadequate.

Community Transportation Coordinator Evaluation Process

A Local Coordinating Board subcommittee assists the planning agency in evaluating the Community Transportation Coordinator on an annual basis. The evaluation of the CTC is based on performance indicators, measures of effectiveness and efficiency, and level of coordination. The evaluation worksheets are included in the appendices.

In an effort to monitor the services provided to the transportation disadvantaged by the CTC, an annual survey of the riders is conducted. The data is used to identify areas where the CTC is achieving its goals and objectives and areas where they are not. The rider surveys were conducted at the beginning of the year.

A summary of the survey results along with a comparison of the previous two years are included in the appendices along with the comments that were submitted.

The survey results indicate that **54%** of the trips were for medical/dental purposes and **24%** were for school/work.

It should be noted that **41%** use community transportation 11 or more days a month.

If community transportation was not provided, **47%** indicated that they would not be able to make the trip while **19%** indicated they would ride with someone else.

STATE OF FLORIDA
COMMISSION FOR THE TRANSPORTATION DISADVANTAGED

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement is between the COMMISSION FOR THE TRANSPORTATION DISADVANTAGED, hereby referred to as the "Commission," and

Okaloosa Board of County Commissioners (302 N. Wilson St., Suite 302 Crestview, FL 32536)

the COMMUNITY TRANSPORTATION COORDINATOR, designated pursuant to Chapter 427, F.S., to serve the transportation disadvantaged for the community that includes the entire area of

Okaloosa county(ies), and hereafter referred to as the "Coordinator."

This Agreement is made in consideration of the mutual benefits to both parties; said consideration acknowledged hereto by the parties as good and valuable consideration.

The Parties Agree:

I. The Coordinator Shall:

A. Become and remain totally apprised of all of the Transportation Disadvantaged resources available or planned in their designated service area. This knowledge will be used to plan, coordinate, and implement the most cost effective transportation disadvantaged transit system possible under the economic and other conditions that exist in the designated service area.

B. Plan and work with Community Transportation Coordinators in adjacent and other areas of the state to coordinate the provision of community trips that might be handled at a lower overall cost to the community by another Coordinator. This includes honoring any Commission-approved statewide certification program that allows for intercounty transportation opportunities.

C. Arrange for all services in accordance with Chapter 427, Florida Statutes, and Rule 41-2, FAC, and as further required by the Commission and the local Coordinating Board approved Transportation Disadvantaged Service Plan.

D. Return any acquired profits or surplus funds originating through the course of business as the Coordinator that are beyond the amounts(s) specifically identified and approved in the accompanying Transportation Disadvantaged Service Plan. Such profits or funds shall be returned to the Coordinator's transportation system or to any subsequent Coordinator, as a total transportation system subsidy, to be applied to the immediate following operational year. The Coordinator will include similar language in all coordination contracts to assure that transportation disadvantaged related revenues are put back into transportation disadvantaged services.

E. Accomplish this Project by:

1. Developing a Transportation Disadvantaged Service Plan for approval by the local Coordinating Board and the Commission. Coordinators who are newly designated to a particular service area shall submit a local Coordinating Board approved Transportation Disadvantaged Service Plan, within 120 calendar days following the execution of the Coordinator's initial memorandum of agreement with the Commission, for approval by the Commission. All subsequent Transportation Disadvantaged Service Plans shall be submitted and approved with the corresponding memorandum of agreement. The approved Transportation Disadvantaged Service Plan will be implemented and monitored to provide for community-wide transportation services for purchase by non-sponsored transportation disadvantaged persons, contracting social service agencies, and other entities that use local, state, or federal government funds for the purchase of transportation for the transportation disadvantaged.

2. Maximizing the use of available public school transportation resources and public fixed route or fixed schedule transit services and assuring that private or public transit, paratransit operators, and school boards have been afforded a fair opportunity to participate to the maximum extent feasible in the planning process and in the development of the provisions of the Transportation Disadvantaged Service Plan for the transportation disadvantaged.

3. Providing or arranging 24-hour, 7-day per week transportation disadvantaged service as required in the designated service area by any Federal, State or Local Government agency sponsoring such services. The provision of said services shall be furnished in accordance with the prior notification requirements identified in the local Coordinating Board and Commission approved Transportation Disadvantaged Service Plan.

4. Complying with all local, state, and federal laws and regulations that apply to the provision of transportation disadvantaged services.

5. Submitting to the Commission an Annual Operating Report detailing demographic, operational, and financial data regarding coordination activities in the designated service area. The report shall be prepared on forms provided by the Commission and according to the instructions of said forms.

F. Comply with Audit and Record Keeping Requirements by:

1. Utilizing the Commission recognized Chart of Accounts defined in the *Transportation Accounting Consortium Model Uniform Accounting System for Rural and Specialized Transportation Providers* (uniform accounting system) for all transportation disadvantaged accounting and reporting purposes. Community Transportation Coordinators with existing and equivalent accounting systems are not required to adopt the Chart of Accounts in lieu of their existing Chart of Accounts but shall prepare all reports, invoices, and fiscal documents relating to the transportation disadvantaged functions and activities using the chart of accounts and accounting definitions as outlined in the above referenced manual.

2. Assuming the responsibility of invoicing for any transportation services arranged, unless otherwise stipulated by a purchase of service contract or coordination contract.

3. Maintaining and filing with the Commission, local Coordinating Board, and all purchasing agencies/entities such progress, fiscal, inventory, and other reports as those entities may require during the period of this Agreement.

4. Providing copies of finance and compliance audits to the Commission and local Coordinating Board as requested by the Commission or local Coordinating Board.

G. Retain all financial records, supporting documents, statistical records, and any other documents pertinent to this Agreement for a period of five (5) years after termination of this Agreement. If an audit has been initiated and audit findings have not been resolved at the end of five (5) years, the records shall be retained until resolution of the audit findings. The Coordinator shall assure that these records shall be subject to inspection, review, or audit at all reasonable times by persons duly authorized by the Commission or this Agreement. They shall have full access to and the right to examine any of the said records and documents during the retention period.

H. Comply with Safety Requirements by:

1. Complying with Section 341.061, F.S., and Rule 14-90, FAC, concerning System Safety; or complying with Chapter 234.051, F.S., regarding school bus safety requirements for those services provided through a school board; and

2. Assuring compliance with local, state, and federal laws, and Commission policies relating to drug testing. Conduct drug and alcohol testing for safety sensitive job positions within the coordinated system regarding pre-employment, randomization, post-accident, and reasonable suspicion as required by the Federal Highway Administration and the Federal Transit Administration.

I. Comply with Commission insurance requirements by maintaining at least minimum liability insurance coverage in the amount of $200,000 for any one person and $300,000 per occurrence at all times during the existence of this Agreement for all transportation services purchased or provided for the transportation disadvantaged through the Community Transportation Coordinator. Upon the execution of this Agreement, the Coordinator shall add the Commission as an additional **named insured** to all insurance policies covering vehicles transporting the transportation disadvantaged. In the event of any cancellation or changes in the limits of liability in the insurance policy, the insurance agent or broker shall notify the Commission. The Coordinator shall insure that contracting transportation operators and coordination contractors also maintain the same minimum liability insurance, or an equal governmental insurance program. Insurance coverage in excess of $l million per occurrence must be approved by the Commission and the local Coordinating Board before inclusion in the Transportation Disadvantaged Service Plan or in the justification of rates and fare structures. Such coverage may be provided by a self-insurance program established and operating under the laws of the State of Florida and written verification of insurance protection in accordance with Section 768.28, Florida Statutes, shall be provided to the Commission upon request.

J. Safeguard information by not using or disclosing any information concerning a user of services under this Agreement for any purpose not in conformity with the local, state and federal regulations (45 CFR, Part 205.50), except upon order of a court, written consent of the recipient, or his/her responsible parent or guardian when authorized by law.

K. Protect Civil Rights by:

1. Complying with state and federal laws including but not limited to laws regarding discrimination on the basis of sex, race, religion, age, disability, sexual orientation, or national origin. The Coordinator gives this assurance in consideration of and for the purpose of obtaining federal grants, loans, contracts (except contracts of insurance or guaranty), property, discounts, or other federal financial assistance to programs or activities receiving or benefiting from federal financial assistance and agreeing to complete a Civil Rights Compliance Questionnaire if so requested by the Commission.

2. Agreeing that compliance with this assurance constitutes a condition of continued receipt of or benefit from federal financial assistance, and that it is binding upon the Coordinator, its successors, subcontractors, transferee, and assignees for the period during which such assistance is provided. Assure that all operators, subcontractors, subgrantee, or others with whom the Coordinator arranges to provide services or benefits to participants or employees in connection with any of its programs and activities are not discriminating against those participants or employees in violation of the above statutes, regulations, guidelines, and standards. In the event of failure to comply, the Coordinator agrees that the Commission may, at its discretion, seek a court order requiring compliance with the terms of this assurance or seek other appropriate judicial or administrative relief, to include assistance being terminated and further assistance being denied.

L. To the extent allowed by Section 768.28, Florida Statutes, and only to the monetary and other limitations contained therein, indemnify and hold harmless the Commission and all of the Commission's members, officers, agents, and employees; purchasing agency/entity officers, agents, and employees; and the local, state, and federal governments from any claim, loss, damage, cost, charge or expense arising out of any act, action, neglect or omission by the Coordinator during the performance of this Agreement, whether direct or indirect, and whether to any person or property to which the Commission or said parties may be subject, except that neither the Coordinator nor any of its sub-contractors will be liable under this section for damages arising out of injury or damage to persons or property directly caused or resulting from the sole negligence of the Commission or any of its members, officers, agents or employees; purchasing agency/entity, officers, agents, and employees; and local, state, or federal governments. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency/entity or Coordinator to which sovereign immunity may be applicable. Nothing herein shall be construed as consent by a state agency/entity or political subdivision of the State of Florida or the federal government to be sued by third parties in any matter arising out of any Agreement or contract. Notwithstanding the foregoing, pursuant to Section 768.28, Florida Statutes, no agency or subdivision of the state shall be required to indemnify, insure, or assume any liability for the Commission's negligence.

M. Comply with standards and performance requirements of the Commission, the local Coordinating Board approved Transportation Disadvantaged Service Plan, and any purchase of service contracting agencies/entities. Failure to meet the requirements or obligations set forth in this MOA, and performance requirements established and monitored by the local Coordinating Board in the approved Transportation Disadvantaged Service Plan, shall be due cause for non-payment of reimbursement invoices until such deficiencies have been addressed or corrected to the satisfaction of the Commission.

N. Comply with subcontracting requirements by executing or negotiating contracts for transportation services with Transportation Operators and Coordination Contractors, and assuring that the conditions of such contracts are maintained. The requirements of Part 1, Paragraph E.5. through M are to be included in all contracts, subcontracts, coordination contracts, and assignments made by the Coordinator for services under this Agreement. Said contracts, subcontracts, coordination contracts, and assignments will be reviewed and approved annually by the Coordinator and local Coordinating Board for conformance with the requirements of this Agreement.

O. Comply with the following requirements concerning drivers and vehicles:

1. Drivers for paratransit services, including coordination contractors, shall be required to announce and identify themselves by name and company in a manner that is conducive to communications with the specific passenger, upon pickup of each rider, group of riders, or representative, guardian, or associate of the rider, except in situations where the driver regularly transports the rider on a recurring basis. Each driver must have photo identification that is in view of the passenger. Name patches, inscriptions or badges that affix to driver clothing are acceptable. For transit services, the driver photo identification shall be in a conspicuous location in the vehicle.

2. The paratransit driver shall provide the passenger with boarding assistance, if necessary or requested, to the seating portion of the vehicle. The boarding assistance shall include opening the vehicle door, fastening the seat belt or utilization of wheelchair securement devices, storage of mobility assistive devices, and closing the vehicle door. In certain paratransit service categories, the driver may also be required to open and close doors to buildings, except in situations in which assistance in opening/closing building doors would not be safe for passengers remaining on the vehicle. Assisted access must be in a dignified manner. Drivers may not assist wheelchair up or down more than one step, unless it can be performed safely as determined by the passenger, guardian, and driver.

3. All vehicles shall be equipped with two-way communications in good working order and be audible to the driver at all times to the base.

4. All vehicles providing service within the coordinated system, shall have working air conditioners and heaters in each vehicle. Vehicles that do not have a working air conditioner or heater will be scheduled for repair or replacement as soon as possible.

P. Comply with other requirements as follows:

1. Transport an escort of a passenger and dependent children as locally negotiated and identified in the local Transportation Disadvantaged Service Plan.

2. Determine locally in the Transportation Disadvantaged Service Plan, the use, responsibility, and cost of child restraint devices.

3. Transport with the passenger at no additional charge, passenger property that can be carried by the passenger and/or driver in one trip and can be safely stowed on the vehicle. Additional requirements may be negotiated for carrying and loading rider property beyond this amount. Passenger property does not include wheelchairs, child seats, stretchers, secured oxygen, personal assistive devices, or intravenous devices.

4. Provide shelter, security, and safety of passengers at vehicle transfer points.

5. Post a local or other toll-free number for complaints or grievances inside each vehicle. The local complaint process shall be outlined as a section in the local Transportation Disadvantaged Service Plan including advising the dissatisfied person about the Commission's Ombudsman Program as a step within the process as approved by the local Coordinating Board.

6. Provide out-of-service-area trips, when determined locally and approved by the local Coordinating Board, except in instances where local ordinances prohibit such trips.

7. Keep interior of all vehicles free from dirt, grime, oil, trash, torn upholstery, damaged or broken seats, protruding metal or other objects or materials which could soil items placed in the vehicle or provide discomfort for the passenger.

8. Determine locally by the local Coordinating Board and provide in the local Transportation Disadvantaged Service Plan the billing requirements of the Community Transportation Coordinator. All bills shall be paid to subcontractors within 7 calendar days after receipt of said payment by the Coordinator, in accordance with Section 287.0585, Florida Statutes.

9. Maintain or have access to a passenger/trip database on each rider being transported within the system.

10. Provide each rider and escort, child, or personal care attendant adequate seating for paratransit services. No more passengers than the registered passenger seating capacity shall be scheduled or transported in a vehicle at any time. For transit services provided by transit vehicles, adequate seating or standing space will be provided to each rider and escort, child, or personal care attendant, and no more passengers than the registered passenger seating or standing capacity shall be scheduled or transported in a vehicle at any time.

11. First Aid shall be determined locally and provided in the local Transportation Disadvantaged Service Plan.

12. Cardiopulmonary Resuscitation shall be determined locally and provided in the local Transportation Disadvantaged Service Plan.

II. The Commission Shall:

A. Recognize the Coordinator as the entity described in Section 427.011(5), Florida Statutes, and Rule 41-2.002(4), F.A.C.

B. Attempt to insure that all entities with transportation disadvantaged funds will purchase transportation disadvantaged services through the Coordinator's system.

III. The Coordinator and the Commission Further Agree:

A. Nothing in this Agreement shall require the Commission to observe or enforce compliance with any provision thereof, perform any other act or do any other thing in contravention of any applicable state law. If any of the provisions of this Agreement is found by a court of law to violate any applicable state law, the purchasing agency/entity will at once notify the Commission in writing in order that appropriate changes and modifications may be made by the Commission and the Coordinator to the end that the Coordinator may proceed as soon as possible with the provision of transportation services.

B. If any part or provision of this Agreement is held invalid, the remainder of this Agreement shall be binding on the parties hereto.

C. Termination Conditions:

1. Termination at Will - This Agreement may be terminated by either party upon no less than thirty (30) days notice, without cause. Said notice shall be delivered by certified mail, return receipt required, or in person with proof of delivery.

2. Termination for Breach - Unless the Coordinator's breach is waived by the Commission in writing, the Commission may, by written notice to the Coordinator, terminate this Agreement upon no less than twenty-four (24) hours notice. Said notice shall be delivered by certified mail, return receipt requested, or in person with proof of delivery. Waiver by the Commission of breach of any provision of this Agreement shall not be deemed to be a waiver of any other breach and shall not be construed to be a modification of the terms of this Agreement, and shall not act as a waiver or estoppel to enforcement of any provision of this Agreement. The provisions herein do not limit the Commission's right to remedies at law or to damages.

D. This agreement will expire unless an extension is granted to the Coordinator in writing by the Commission, in accordance with Chapter 287, Florida Statutes.

E. Renegotiations or Modifications of this Agreement shall only be valid when they have been reduced to writing, duly approved by the Commission, and signed by both parties hereto.

F. Notice and Contact:

The name and address of the contract manager for the Commission for this Agreement is: **Executive Director, 605 Suwannee Street, MS-49, Tallahassee, FL 32399-0450**. The representative/position of the Coordinator responsible for administration of the program under this Agreement is:

Janet Willis, Grants Manager/Transit Coordinator	Phone: (850) 423-4898
Okaloosa County Growth Management	1250 N. Eglin Parkway, Suite 301, Shalimar, FL 32579

In the event that either party designates different representatives after execution of this Agreement, notice of the name and address of the new representative will be rendered in writing to the other party and said notification attached to originals of this Agreement.

This document has been reviewed in its entirety and approved by the local Coordinating Board at its official meeting held on May 17, 2017.

Glossary of Terms

Commission for the Transportation Disadvantaged - Glossary of Terms and Abbreviations

The following glossary is intended to coordinate terminology within the Florida Coordinated Transportation System. It is imperative that when certain words or phrases are used, the definition must be universally acknowledged.

Accidents: when used in reference to the AOR, the total number of reportable accidents that occurred through negligence of the transportation provider whereby the result was either property damage of $1,000.00 or more, or personal injury that required evacuation to a medical facility, or a combination of both.

(AER) Actual Expenditure Report: an annual report completed by each state member agency and each official planning agency, to inform the Commission in writing, before September 15 of each year, of the specific amount of funds the agency expended for transportation disadvantaged services.

Advance Reservation Service: shared or individual Dial-a-Ride service that is readily delivered with at least prior day notification, seven days a week, 24 hours a day.

Agency: an official, officer, commission, authority, council, committee, department, division, bureau, board, section, or any other unit or entity of the state or of a city, town, municipality, county, or other local governing body or a private non-profit transportation service providing entity.

(ADA) Americans with Disabilities Act: a federal law, P.L. 101-336, signed by the President of the United States on July 26, 1990 providing protection for persons with disabilities.

(AOR) Annual Operating Report: an annual report prepared by the community transportation coordinator detailing its designated service area operating statistics for the most recent operating year.

(**APR)** Annual Performance Report: an annual report issued by the Commission for the Transportation Disadvantaged that combines all the data submitted in the Annual Operating Reports and the CTD Annual Report.

(ASE) Automotive Service Excellence: a series of tests that certify the skills of automotive technicians in a variety of maintenance areas.

Availability: a measure of the capability of a transportation system to be used by potential riders, such as the hours the system is in operation, the route spacing, the seating availability, and the pickup and delivery time parameters.

Bus: any motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons of compensation.

Bus Lane: a street or highway lane intended primarily for buses, either all day or during specified periods, but used by other traffic under certain circumstances.

Bus Stop: a waiting, boarding, and disembarking area, usually designated by distinctive signs and by curbs or pavement markings.

(CUTR) Center for Urban Transportation Research: a research group located at the University of South Florida's College of Engineering.

(CMBE) Certified Minority Business Enterprise: any small business concern which is organized to engage in commercial transactions, which is domiciled in Florida, and which is at least 51 percent owned by minority persons and whose management and daily operations are controlled by such persons. These businesses should be certified by the Florida Department of management Services.

Chapter 427, Florida Statutes: the Florida statute establishing the Commission for the Transportation Disadvantaged and prescribing its duties and responsibilities.

Commendation: any written compliment of any aspect of the coordinated system, including personnel, vehicle, service, etc.

(CDL) Commercial Driver's License: a license required if a driver operates a commercial motor vehicle, including a vehicle that carries 16 or more passengers (including the driver), or a vehicle weighing more than 26,000 pounds.

Commission: the Commission for the Transportation Disadvantaged as authorized in Section 427.013, Florida Statutes.

(CTD) Commission for the Transportation Disadvantaged: an independent agency created in 1989 to accomplish the coordination of transportation services provided to the transportation disadvantaged. Replaced the Coordinating Council on the Transportation Disadvantaged.

(CTC) Community Transportation Coordinator: (formerly referred to as A coordinated community transportation provider) a transportation entity competitively procured or recommended by the appropriate official planning agency and local Coordinating Board and approved by the Commission, to ensure that safe, quality coordinated transportation services are provided or arranged in a cost effective manner to serve the transportation disadvantaged in a designated service area.

Competitive Procurement: obtaining a transportation operator or other services through a competitive process based upon Commission-approved procurement guidelines.

Complaint: any written customer concern involving timeliness, vehicle condition, quality of service, personnel behavior, and other operational policies.

Complete (or Full) Brokerage: type of CTC network in which the CTC does not operate any transportation services itself, but contracts with transportation operators for the delivery of all transportation services.

Coordinated Transportation System: includes the CTC, the transportation operators and coordination contractors under contract with the CTC, the official planning agency, and local Coordinating Board involved in the provision of service delivery to the transportation disadvantaged within the designated service area.

Coordinated Trips: passenger trips provided by or arranged through a CTC.

Coordinating Board: an entity in each designated service area composed of representatives who provide assistance to the community transportation coordinator relative to the coordination of transportation disadvantaged services.

Coordination: the arrangement for the provision of transportation services to the transportation disadvantaged in a manner that is cost effective, safe, efficient, and reduces fragmentation and duplication of services. Coordination is not the same as total consolidation of transportation disadvantaged services in any given service area.

Coordination Contract: a written contract between the community transportation coordinator and an agency who receives transportation disadvantaged funds and performs some, if not all of, its own services, as well as services to others, when such service has been analyzed by the CTC and proven to be a safer, more effective and more efficient service from a total system perspective. The Commission's standard contract reflects the specific terms and conditions that will apply to those agencies who perform their own transportation, as well as joint utilization and cost provisions for transportation services to and from the coordinator.

Deadhead: the miles or hours that a vehicle travels when out of revenue service. From dispatch point to first pickup, and from last drop-off to home base, or movements from home base to maintenance garage or fuel depot, and return.

Demand Response: a paratransit/Dial-a-Ride service that is readily delivered with less than prior day notification, seven days a week, 24 hours a day. This service can be either an individual or shared ride.

Designated Service Area: a geographical area subject to approval by the Commission, which defines the community where coordinated transportation services will be provided to the transportation disadvantaged.

Disabled Passenger: anyone which a physical or mental impairment that substantially limits at least one of the major life activities (i.e., caring for one's self, walking, seeing, hearing, speaking, learning).

Dispatcher: the person responsible for having every scheduled run leave the yard or garage on time and maintain a schedule, matching the work force with the workload on a minute-by-minute basis. In demand-response transportation, the person who assigns the customer to vehicles and notifies the appropriate drivers.

Driver Hour: the period of one hour that a person works whose main responsibility is to drive vehicles.

Economies of Scale: cost savings resulting from combined resources (e.g., joint purchasing agreements that result in a lower cost per gallon or quantity discount for fuel).

Effectiveness Measure: a performance measure that indicates the level of consumption per unit of output. Passenger trips per vehicle mile is an example of an effectiveness measure.

Efficiency Measure: a performance measure that evaluates the level of resources expended to achieve a given level of output. An example of an efficiency measure is operating cost per vehicle mile.

Emergency: any occurrence, or threat thereof, whether accidental, natural or caused by man, in war or in peace, which results or may result in substantial denial of services to a designated service area for the transportation disadvantaged.

Emergency Fund: transportation disadvantaged trust fund monies set aside to address emergency situations and which can be utilized by discreet contract, without competitive bidding, between the Commission and an entity to handle transportation services during a time of emergency.
Employees: the total number of persons employed in an organization.

Fixed Route: (also known as Fixed Route/Fixed Schedule) service in which the vehicle(s) repeatedly follows a consistent time schedule and stopping points over the same route, whereby such schedule, route or service is not at the users request (e.g. conventional city bus, fixed guideway).

(FAC) Florida Administrative Code: a set of administrative codes regulating the state of Florida.

(FCTS) Florida Coordinated Transportation System: a transportation system responsible for coordination and service provisions for the transportation disadvantaged as outlined in Chapter 427, Florida Statutes.

(FDOT) Florida Department of Transportation: a governmental entity. The CTD is housed under the Florida Department of Transportation for administrative purposes.

(FS) Florida Statutes: the laws governing the state of Florida.

(FTE) Full Time Equivalent: a measure used to determine the number of employees based on a 40-hour work-week. One FTE equals 40 work hours per week.

(FAC) Fully Allocated Costs: the total cost, including the value of donations, contributions, grants or subsidies, of providing coordinated transportation, including those services which are purchased through transportation operators or provided through coordination contracts.

General Trips: passenger trips by individuals to destinations of their choice, not associated with any agency program.

Goal: broad conditions that define what the organization hopes to achieve.

Grievance Process: a formal plan that provides a channel for the adjustment of grievances through discussions at progressively higher levels of authority, culminating in mediation, if necessary.

In Service: the time a vehicle begins the route to provide transportation service to the time the route is completed.

In-Take Clerk/ Reservationist: an individual whose primary responsibility is to accept requests for trips, enter dates on requests, determine eligibility and provide customer service.

Latent Demand: demand that is not active (I.E., the potential demand of persons who are not presently in the market for a good or service).

Limited Access: the inability of a vehicle, facility or equipment to permit entry or exit to all persons. Lack of accessibility of vehicle, facility or other equipment.

Load Factor: the ratio of use to capacity of equipment or a facility during a specified time period.

Local Government: an elected and/or appointed public body existing to coordinate, govern, plan, fund, and administer public services within a designated, limited geographic area of the state.

Local Government Comprehensive Plan: a plan that meets the requirements of Sections 163.3177 and 163.3178, Florida Statutes.

(LCB) Local Coordinating Board: an entity in each designated service area composed or representatives appointed by the official planning agency. Its purpose is to provide assistance to the community transportation coordinator concerning the coordination of transportation-disadvantaged services.

(MIS) Management Information System: the mechanism that collects and reports key operating and financial information for managers on a continuing and regular basis.

(MOA) Memorandum of Agreement: the state contract included in the transportation disadvantaged service plan for transportation disadvantaged services purchased by federal, state, or local government transportation disadvantaged funds. This agreement is between the Commission and the community transportation coordinator and recognizes the community transportation coordinator as being responsible for the arrangement of the provision of transportation-disadvantaged services for a designated service area.

(MPO) Metropolitan Planning Organization: the area-wide organization responsible for conducting the continuous, cooperative and comprehensive transportation planning and programming in accordance with the provisions of 23 U.S.C.s. 134, as provided in 23 U.S.C.s. 104(f)(3). Also serves as the official planning agency referred to in Chapter 427, F.S. Many MPOs have been renamed as TPOs (Transportation Planning Organizations).

Network type: describes how a community transportation coordinator provides service, whether as a complete brokerage, partial brokerage, or sole provider.

Non-coordinated Trip: a trip provided by an agency, entity, or operator who is in whole or in part subsidized by local, state, or federal funds, and who does not have coordinator/operator contract with the community transportation coordinator.

Non-sponsored Trip: transportation disadvantaged services that are sponsored in whole by the Transportation Disadvantaged Trust Fund.

Objective: specific, measurable conditions that the organization establishes to achieve its goals.

Off Peak: a period of day or night during which travel activity is generally low and a minimum of transit service is operated.

(OPA) Official Planning Agency: the official body or agency designated by the Commission to fulfill the functions of transportation disadvantaged planning. The Metropolitan Planning Organization shall serve as the planning agency in areas covered by such organizations.

Operating Cost: the sum of all expenditures that can be associated with the operation and maintenance of the system during the particular period under consideration.

Operating Cost per Driver Hour: operating costs divided by the number of driver hours, a measure of the cost efficiency of delivered service.

Operating Cost per Passenger Trip: operating costs divided by the total number of passenger trips, a measure of the efficiency of transporting riders. One of the key indicators of comparative performance of transit properties since it reflects both the efficiency with which service is delivered and the market demand for the service.

Operating Cost per Vehicle Mile: operating costs divided by the number of vehicle miles, a measure of the cost efficiency of delivered service.

Operating Environment: describes whether the community transportation coordinator provides service in an urban or rural service area.

Operating Expenses: sum of all expenses associated with the operation and maintenance of a transportation system.

Operating Revenues: all revenues and subsidies utilized by the operator in the provision of transportation services.

Operating Statistics: data on various characteristics of operations, including passenger trips, vehicle miles, operating costs, revenues, vehicles, employees, accidents and roadcalls.

Operator Contract: a written contract between the community transportation coordinator and a transportation operator to perform transportation services.

Organization Type: describes the structure of a community transportation coordinator, whether it is a private-for-profit, private non-profit, government, quasi-government, or transit agency.

Paratransit/Dial-a-Ride: elements of public transit that provide service between specific origins and destinations selected by the individual user with such service being provided at a time that is agreed upon between the user and the provider of the service. Paratransit services are provided by sedans, vans, buses, and other vehicles.

Partial Brokerage: type of CTC network in which the CTC provides some of the on-street transportation services and contracts with one or more other transportation operators to provide the other portion of the on-street transportation disadvantaged services, including coordination contractors.

Passenger Miles: a measure of service utilization, which represents the cumulative sum of the distances ridden by each passenger. This is a duplicated mileage count. For example: If 10 people ride together for 10 miles, there would be 100 passenger miles.

Passenger Trip: a unit of service provided each time a passenger enters the vehicle, is transported, then exits the vehicle. Each different destination would constitute a passenger trip. This unit of service is also known as a one-way passenger trip.

Passenger Trips per Driver Hour: a performance measure used to evaluate service effectiveness by calculating the total number of passenger trips divided by the number of driver hours.

Passenger Trips per Vehicle Mile: a performance measure used to evaluate service effectiveness by calculating the total number of passenger trips divided by the number of vehicle miles.

Performance Measure: statistical representation of how well an activity, task, or function is being performed. Usually computed from operating statistics by relating a measure of service output or utilization to a measure of service input or cost.

Potential TD Population: (formerly referred to as TD Category I) includes persons with disabilities, senior citizens, low-income persons, and high risk or at risk children. These persons are eligible to receive certain governmental and social service agency subsidies for program-related trips.

Program Trip: a passenger trip supplied or sponsored by a human service agency for the purpose of transporting clients to and from a program of that agency (e.g., sheltered workshops, congregate dining, and job training).

Public Transit: means the transporting of people by conveyances or systems of conveyances traveling on land or water, local or regional in nature, and available for use by the public. Public transit systems may be governmental or privately owned. Public transit specifically includes those forms of transportation commonly known as paratransit.

Purchased Transportation: transportation services provided for an entity by a public or private transportation provider based on a written contract.

(QAPE) Quality Assurance and Program Evaluation.

(RBF) Request for Bids: a competitive procurement process.

(RFP) Request for Proposals: a competitive procurement process.

(RFQ) Request for Qualifications: a competitive procurement process.

Reserve Fund: transportation disadvantaged trust fund monies set aside each budget year to insure adequate cash is available for incoming reimbursement requests when estimated revenues do not materialize.

Revenue Hours: total vehicle hours used in providing passenger transportation, excluding deadhead time.

Revenue Miles: the total number of paratransit service miles driven while TD passengers are actually riding on the vehicles. This figure should be calculated from first passenger pick-up until the last passenger drop-off, excluding any breaks in actual passenger transport. For example: if 10 passengers rode 10 miles together, there would be 10 revenue miles.

Ridesharing: the sharing of a vehicle by clients of two or more agencies, thus allowing for greater cost efficiency and improved vehicle utilization.

Roadcall: any in-service interruptions caused by failure of some functionally necessary element of the vehicle, whether the rider is transferred or not. Roadcalls exclude accidents.

Rule 41-2, F.A.C.: the rule adopted by the Commission for the Transportation Disadvantaged to implement provisions established in Chapter 427, F.S.

Scheduler: a person who prepares an operating schedule for vehicles on the basis of passenger demand, level of service, and other operating elements such as travel times or equipment availability.

Shuttle: a transit service that operates on a short route, or in a small geographical area, often as an extension to the service of a longer route.

Sole Provider: (also referred to as Sole Source) network type in which the CTC provides all of the transportation disadvantaged services.

Sponsored Trip: a passenger trip that is subsidized in part or in whole by a local, state, or federal government funding source (not including monies provided by the TD Trust Fund).

Standard: something established by authority, custom, or general consent as a model or example.

Stretcher Service: a form of non-emergency paratransit service whereby the rider is transported on a stretcher, little, gurney, or other device that does not meet the dimensions of a wheelchair as defined in the Americans with Disabilities Act.

Subscription Service: a regular and recurring service in which schedules are prearranged, to meet the travel needs of riders who sign up for the service in advance. The service is characterized by the fact that the same passengers are picked up at the same location and time and are transported to the same location, and then returned to the point of origin in the same manner.

(SSPP) System Safety Program Plan: a documented organized approach and guide to accomplishing a system safety program set forth in Florida Rule 14-90.

Total Fleet: this includes all revenue vehicles held at the end of the fiscal year, including those in storage, emergency contingency, awaiting sale, etc.

(TQM) Total Quality Management: a management philosophy utilizing measurable goals and objectives to achieve quality management practices.

Transportation Alternative: those specific transportation services that are approved by rule to be acceptable transportation alternatives, and defined in s.427.018, F.S.

(TD) Transportation Disadvantaged: those persons, including children as defined in s.411.202 F.S., who because of physical or mental disability, income status, or inability to drive due to age or disability are unable to transport themselves or to purchase transportation and have no other form of transportation available. These persons are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, or medically necessary or life-sustaining activities.

Transportation Disadvantaged Funds: any local government, state or available federal funds that are for the transportation of the transportation disadvantaged. Such funds may include, but are not limited to, funds for planning, transportation provided pursuant to the ADA, administration of transportation disadvantaged services, operation, procurement and maintenance of vehicles or equipment, and capital investments. Transportation disadvantaged funds do not include funds expended by school districts for the transportation of children to public schools or to receive service as a part of their educational program.

Transportation Disadvantaged Population: (formerly referred to as TD Category II) persons, including children, who, because of disability, income status, or inability to drive due to age or disability are unable to transport themselves.

(TDSP) Transportation Disadvantaged Service Plan: a three-year implementation plan, with annual updates developed by the CTC and the planning agency, which contains the provisions of service delivery in the coordinated transportation system. The plan shall be reviewed and recommended by the local Coordinating Board.

(TPO) Transportation Planning Organization.

Transportation Disadvantaged Trust Fund: a fund administered by the Commission for the Transportation Disadvantaged in which all fees collected for the transportation disadvantaged program shall be deposited. The funds deposited will be appropriated by the legislature to the Commission to carry out the Commission's responsibilities. Funds that are deposited may be used to subsidize a portion of a transportation disadvantaged person's transportation costs, which are not sponsored by an agency.

Transportation Operator: a public, private for profit, or private non-profit entity engaged by the community transportation coordinator to provide service to the transportation disadvantaged pursuant to an approved coordinated transportation system transportation disadvantaged service plan.

Transportation Operator Contract: the Commission's standard coordination/operator contract between the community transportation coordinator and the transportation operator that outlines the terms and conditions for any services to be performed.

Trend Analysis: a common technique used to analyze the performance of an organization over a period of time.

Trip Priorities: various methods for restricting or rationing trips.

Trip Sheet: a record kept of specific information required by ordinance, rule or operating procedure for a period of time worked by the driver of a public passenger vehicle in demand-response service. Also known as a driver log.

(UPHC) Unduplicated Passenger Head Count: the actual number of people that were provided paratransit transportation services, not including personal care attendants, non-paying escorts/companion, or persons provided fixed schedule/fixed route service.

Unmet Demand: the number of trips desired but not provided because of insufficient service supply.

Urbanized Area: a city (or twin cities) that has a population of 50,000 or more (central city) and surrounding incorporated and unincorporated areas that meet certain criteria of population size of density.

(USDHHS) U.S. Department of Health and Human Services: a federal agency regulating health and human services.

(USDOT) U.S. Department of Transportation: a federal agency regulating the transportation field.

Van Pool: a prearranged ride-sharing service in which a number of people travel together on a regular basis in a van. Van pools are commonly a company-sponsored van that has a regular volunteer driver.

Vehicle Inventory: an inventory of vehicles used by the CTC, transportation operators, and coordination contractors for the provision of transportation disadvantaged services.

Vehicle Miles: the total distance traveled by revenue vehicles, including both revenue miles and deadhead miles.

Vehicle Miles per Vehicle: a performance measure used to evaluate resource utilization and rate of vehicle depreciation, calculated by dividing the number of vehicle miles by the total number of vehicles.

Vehicles: number of vehicles owned by the transit agency that are available for use in providing services.

Volunteers: individuals who do selected tasks for the community transportation coordinator or its contracted operator, for little or no compensation.

Will-Calls: these are trips that are requested on a demand response basis, usually for a return trip. The transportation provider generally knows to expect a request for a will-call trip, but can not schedule the trip in advance because the provider does not know the exact time a passenger will call to request his/her trip.

OKALOOSA COUNTY COMMUNITY TRANSPORTATION
2018 RIDER SURVEY COMMENTS

1. I just started using it and I'm wondering why 😊
2. I like my transit bus. I love the driver. They are so very kind.
3. Everyone very courteous. Very pleased with the service. Bus #79.
4. Miss Q is an excellent driver and has great interpersonal skills. Talks to her riders and is always courteous. She is a joy!
5. Cindy is a very professional driver. Always courteous, extremely helpful, and a very pleasant person. Also very safe driver.
6. Cindy was very kind and helpful.
7. Very very courteous and helpful. Thank you Thank you
8. There was an unruly rider today, he was loud to the driver (all unnecessary). Driver was pleasant and helpful.
9. Thank you so much for the rides.
10. I have been using your service for 22 years and very happy you offer it.
11. Not aware of other means of transportation.
12. I like riding the bus. Think it would be nice to ride on weekends too!
13. Wait time after appointment can sometimes be long.
14. Get more drivers stop making the drivers have such a tight schedule
15. Overall great.
16. Driver was on-time for pickup. Bus was new and very clean.
17. This service is excellent for me.
18. The program provides needed services for those who otherwise would not have the necessary transportation i.e. disabled, and those without vehicles.
19. I never get to an appointment on time. Always late.
20. Need Saturday runs!! Need to be able to schedule two weeks ahead.
21. They don't meet my times at transit. Breakdown from Secure Trans and transit times change - can't bring me home at times.
22. Crestview bus drivers need to stay in Crestview they know the routes up there. Ft. Walton drivers need to stay in Ft. Walton!
23. Professional
24. Very good driver (Emily).
25. Driver, Cindy is extremely personable and helpful.

OKALOOSA COUNTY COMMUNITY TRANSPORTATION
2018 RIDER SURVEY COMMENTS

26. I was thinking it was 15 minutes before but it's 30 minutes. My pickup time is at 6 am driver came at 5:30 am rushing one day. Rushing not courteous.
27. A few times I asked for car seat - was not provided.
28. Transit system picked me up today at 7:45 am when my appointment time was at 9 am … Got to my appointment at 8 am! An hour early ☹
29. Please give Emily a raise. She deserves it. Excellent and pleasant.
30. Dispatch is not trustful about where the ride is and very difficult to get hold of them. I depend on transportation to my appointments on time.
31. I really like riding on the bus but I hate being late for work.
32. I have been riding transportation for several years and overall I have seen improvements the company has made. However pick up times can still do with some adjustments based on scheduling.
33. I get put on hold way too much and they never get back on.
34. The driver we had today was very helpful and it was a nice ride to and from Doctor appointments. Thank you :)
35. Some of the drivers on Route 2 won't go to the Mary Esther post office unless they see someone at the bus stop. If we are standing away for the bus stop the driver won't see us and not drive to the bus stop to make sure.
36. Scheduler needs to be more aware of times and needs. I am late to work too much ☹
37. The drivers are late a lot of times picking me up in the evening time. And there have been several times that they have come to pick me up to be at work almost an hour early.
38. Drivers like Ms. Ollie, Mary, M. Troy, and Mike make it so comfortable and secure. They always help me carry my tote bag inside.
39. Drivers very good - office very poor.
40. I couldn't do without the buses. I pray for staff and drivers every night.
41. I am pleased with the service my son receives.
42. Regular drivers "take care of me" in my motorized chair. I call them "My Angels".
43. This trip was time sensitive and required me to be present in a certain timeframe limit or face loss of employment. It was close but the driver was excellent in her navigation skills rendering me on time. Thank you.
44. Sometimes they can be too late or too early, but other than that all is good.
45. Very Good.
46. Cindy has been great. Most of my issues are with arriving on time.
47. Waiting periods for return home can get crazy. Hardly ever on time. Up to one hour of wait time.

OKALOOSA COUNTY COMMUNITY TRANSPORTATION
2018 RIDER SURVEY COMMENTS

48. Drivers are excellent. Problems are change and checks need to be accepted. Scheduling has been a problem.
49. Takes too long to pick you up.
50. Sometimes after you get picked up I ride for an hour.
51. Reservations could be more faster and on time.
52. Afternoon runs are late half hour to an hour and a half. Morning is good.
53. When calling dispatch, put me on hold or answering machine. Reserved rides get filled up to often to where I have to find another way to get to my appointments. Missed connections with VA transportation from Eglin to Pensacola for very important Doctor's appointment. Once the "Rider" never showed and the other showed at dropoff time.
54. Excellent service.
55. Stop picking people up so early cause of your schedule.
56. The Bridgeway staff are upbeat and very professional. They are caring and understanding in a crisis situation.
57. Ride the wave is fun and the people there are nice and kind
58. Overall, the service has greatly improved from what it was a one point after Maruti took over. There are still some days when I'm picked up very late from work, however, due to other drivers not showing up for work. At one time, Maruti had a few "runners" that would be able to pick up the slack when a driver didn't show up, but I found out that they didn't have those anymore - at least, that's what a driver told me. The current operations manager is very willing to work with me, though - I had a situation where I got sick at work and had to come home early, and he was able to find a driver to pick me up within 30 minutes of my calling him, which I greatly appreciated!

APPROVED FEBRUARY 28, 2018

EVALUATION INFORMATION

USING THE AOR, COMPILE THIS INFORMATION:

1. OPERATING ENVIRONMENT: ☐ RURAL **X** SMALL URBAN

2. ORGANIZATION TYPE:
   - ☐ PRIVATE-FOR-PROFIT
   - ☐ PRIVATE NON-PROFIT
   - **X** GOVERNMENT
   - ☐ TRANSPORTATION AGENCY

3. NETWORK TYPE:
   - ☐ SOLE PROVIDER
   - PARTIAL BROKERAGE
   - **X** **COMPLETE BROKERAGE**

4. NAME THE OPERATORS THAT YOUR COMPANY HAS CONTRACTS WITH:

   - **Maruti Transit Group (Primary)**

5. NAME THE GROUPS THAT YOUR COMPANY HAS COORDINATION CONTRACTS WITH:
   - **Pyramid Inc.**
   - **Pensacola Care**

6. NAME THE ORGANIZATIONS AND AGENCIES THAT PURCHASE SERVICE FROM THE CTC AND THE PERCENTAGE OF TRIPS EACH REPRESENTS?

Name of Agency	% of Trips
Commission for the Transportation Disadvantaged **(CTD)**	**30.67%**
Agency for Health Care Administration **(AHCA)** / MEDICAID	**43.84%**
Agency for Persons with Disabilities **(APD)**	**1.49%**
Department of Elder Affairs **(DOEA)**	**3.74%**
Department of Education **(DOE)**	**0.05%**
Other	**20.20%**

7. REVIEW AND DISCUSS TD HELPLINE CALLS:

	Number of calls	Closed Cases	Unsolved Cases
Total Calls	**None Reported**		0

COMPLIANCE WITH CHAPTER 427, F.S.

Review the CTC monitoring of its transportation operator contracts to ensure compliance with 427.0155(3), F.S. ***"Review all transportation operator contracts annually."***

WHAT TYPE OF MONITORING DOES THE CTC PERFORM ON ITS OPERATOR(S) AND HOW OFTEN IS IT CONDUCTED?

Daily onsite Monitoring is performed. Monthly, quarterly and annual data is collected and reviewed.

Is a written report issued to the operator? **X** **Yes** ☐ No

WHAT TYPE OF MONITORING DOES THE CTC PERFORM ON ITS COORDINATION CONTRACTORS AND HOW OFTEN IS IT CONDUCTED?

If vehicles are in place – Quarterly and Annual

Is a written report issued? ☐ Yes **X** **No**

WHAT ACTION IS TAKEN IF A CONTRACTOR RECEIVES AN UNFAVORABLE REPORT?

CTC is reviewing the monitoring process.

IS THE CTC IN COMPLIANCE WITH THIS SECTION? **X** **Yes** ☐ No

Review the TDSP to determine the utilization of school buses and public transportation services [Chapter 427.0155(4)] ***"Approve and coordinate the utilization of school bus and public transportation services in accordance with the TDSP."***

HOW IS THE CTC USING SCHOOL BUSES IN THE COORDINATED SYSTEM?

NOT USING

Rule 41-2.012(5)(b): *"As part of the Coordinator's performance, the local Coordinating Board shall also set an annual percentage goal increase for the number of trips provided within the system for ridership on public transit, where applicable. In areas where the public transit is not being utilized, the local Coordinating Board shall set an annual percentage of the number of trips to be provided on public transit."*

HOW IS THE CTC USING FIXED ROUTE PUBLIC TRANSPORTATION SERVICES IN THE COORDINATED SYSTEM?

☐ **The CTC's software system is designed so that when the reservationist is book a trip, the software will recognize if the trip is near a fixed route bus stop. If the trip is located near a stop, the reservationist will supply this information to the client and applications are review to see if riders are near a bus route.**

IS THERE A GOAL FOR TRANSFERRING PASSENGERS FROM PARATRANSIT TO TRANSIT?

X **Yes** ☐ No

If YES, what is the goal? **New Goal – transfer 100 riders to fixed route**

Is the CTC accomplishing the goal? **N/A (new goal established)** ☐ **Yes** ☐ No

IS THE CTC IN COMPLIANCE WITH THIS REQUIREMENT? **X** **Yes** ☐ No

Comments:
New Goal Establish – CTC will work to come up with ways to transfer riders and document the riders transferred.
Mobility Manager also helps provide training to riders to navigate the fixed route system

Compliance with 41-2.006(1), Minimum Insurance Compliance ***"...ensure compliance with the minimum liability insurance requirement of $200,000 per person and $300,000 per incident…"***

WHAT ARE THE MINIMUM LIABILITY INSURANCE REQUIREMENTS?

$200,000 per person and $300,000 per occurrence

WHAT ARE THE MINIMUM LIABILITY INSURANCE REQUIREMENTS IN THE OPERATOR AND COORDINATION CONTRACTS?

$1,000,000 per person and $1,000,000 per occurrence

HOW MUCH DOES THE INSURANCE COST (per operator)? **$ 353,466**

DOES THE MINIMUM LIABILITY INSURANCE REQUIREMENTS EXCEED $1 MILLION PER INCIDENT?

☐ Yes **X** **No** If yes, was this approved by the Commission? ☐ Yes ☐ No

IS THE CTC IN COMPLIANCE WITH THIS SECTION? **X** **Yes** ☐ No

Compliance with 41-2.011(2), Evaluating Cost-Effectiveness of Coordination Contractors and Transportation Alternatives.
"...contracts shall be reviewed annually by the Community Transportation Coordinator and the Coordinating Board as to the effectiveness and efficiency of the Transportation Operator or the renewal of any Coordination Contracts."

1. IF THE CTC HAS COORDINATION CONTRACTORS, DETERMINE THE COST-EFFECTIVENESS OF THESE CONTRACTORS.
   Reduce the number of trips under non-sponsored for those who can ride the fixed route system (maybe purchase bus passes).

2. DO YOU HAVE TRANSPORTATION ALTERNATIVES? X Yes ☐ No

IS THE CTC IN COMPLIANCE WITH THIS SECTION? **X Yes** ☐ No

COMPLIANCE WITH 41-2, F.A.C.

Observed during LCB ride along and office visit.

Compliance with Commission Standards *"...shall adhere to Commission approved standards…"*

Commission Standards	Comments
Local toll free phone # must be posted in all vehicles.	**See Trip Observations**
Vehicle Cleanliness	**Observed –** Interior clean/Exterior raining

TRIP OBSERVATION #1

Ride a Vehicle within the Coordinated System

Date of Observation: 2/9/2018

Person conducting the observation: **Will Miles**

Location: **P/U: 748 N Beal PKWY, Ft Walton Beach, Florida 32547**

Number of Passengers picked up/dropped off: **1**

Ambulatory **N/A**

Non-Ambulatory **Cane**

Was the driver on time?
- **X** Yes ☐ No, how many minutes late/early?
- ☐ Yes ☐ No, how many minutes late/early?
- ☐ Yes ☐ No, how many minutes late/early?

Did the driver provide any passenger assistance? **X** Yes ☐ No

Was the driver wearing any identification?

X Yes X Uniform X Name Tag X ID Badge

☐ No

Did the driver render an appropriate greeting?

X Yes No ☐ Driver regularly transports the rider, not necessary

Did the driver ensure the passengers were wearing their seat belts? **X** Yes ☐ No

Was the vehicle neat and clean, and free from dirt, torn upholstery, damaged or broken seats, protruding metal or other objects? **X** Yes ☐ No

Is there a sign posted on the interior of the vehicle with both a local phone number and the TD Helpline for comments/complaints/commendations? **X** Yes ☐ No

Does the vehicle have working heat and air conditioning? **X** Yes ☐ No

Does the vehicle have two-way communications in good working order? **X** Yes ☐ No

If used, was the lift in good working order? **X** Yes ☐ No

Was there safe and appropriate seating for all passengers? **X** Yes ☐ No

Did the driver properly use the lift and secure the passenger? **X** Yes ☐ No

If no, please explain:

Comments: I was very impressed with the interactions between the driver and passenger.

TRIP OBSERVATION #2

Ride a Vehicle within the Coordinated System

Date of Observation: 2/9/2018

Person conducting the observation: Will Miles

Location: P/U: 1853 Laurel Oaks Ct, Ft Walton Beach, Florida 32547

Number of Passengers picked up/dropped off: 0 - Cancel at door.

Ambulatory: N/A

Non-Ambulatory: Wheel Chair

Was the driver on time?

Did the driver properly use the lift and secure the passenger? **N/A** Yes ☐ No
If no, please explain:

Comments: The passenger cancelled at the door. The driver went to the door to offer assistance.

TRIP OBSERVATION

Ride a Vehicle within the Coordinated System

Date of Observation: **Jan 19, 2018**

Person conducting the observation: **Yvonne Earle**

Location: **Dispatch Center --- Driver Courtney**

Number of Passengers picked up/dropped off: **3**

Ambulatory **2**

Non-Ambulatory **1**

Was the driver on time? ☒ Yes ☐ No, how many minutes late/early?
Within timeframe then late at Destin Rehab.

Did the driver provide any passenger assistance? ☒ Yes ☐ No

Was the driver wearing any identification?
☐ Yes ☐ Uniform ☐ Name Tag ☐ ID Badge
☐ No **Could not see – didn't know what the uniform was**

Did the driver render an appropriate greeting?
☒ Yes No ☐

If CTC has a policy on seat belts, did the driver ensure the passengers were properly belted? ☒Yes ☐ No

Was the vehicle neat and clean, and free from dirt, torn upholstery, damaged or broken seats, protruding metal or other objects? ☒ Yes ☐ No

Is there a sign posted on the interior of the vehicle with both a local phone number and the TD Helpline for comments/complaints/commendations? ☐ Yes ☒ No **Did not see a local number**

Does the vehicle have working heat and air conditioning? ☒ Yes ☐ No

Does the vehicle have two-way communications in good working order? ☒ Yes ☐ No

If used, was the lift in good working order? ☒ Yes ☐ No

Was there safe and appropriate seating for all passengers? ☒ Yes ☐ No

Did the driver properly use the lift and secure the passenger? ☒ Yes ☐ No If no, please explain:

Comments: Courtney my driver, went about and beyond with a very difficult client.

MEMORANDUM
To: Robert Berkstresser
From: Renea Black
Date: January 17, 2018
RE: Okaloosa County CTC Evaluation

Trip Observation Summary
Date of Observation: January 16, 2018
Person conducting the observation: Renea Black
Number of Passengers picked up/dropped off: 2
Ambulatory: 2
Non-Ambulatory: 0

Was the driver on time?
Passenger 1: Yes, arrived 6 minutes early for first pick up; drop off was timely.
Passenger 2: Yes, arrived 2 minutes early for second pick up

Did the driver provide any passenger assistance?
Passenger 1: Yes, driver assisted passenger with carry-on items at pick up; however, did not assist passenger at drop off.
Passenger 2: No, driver did not assist passenger.

Was the driver wearing any identification?
Yes, driver was wearing a vest and ID Badge. Driver was not wearing a uniform except for a vest. A name tag was not easily visible, if worn.

Did the driver render an appropriate greeting?
Passenger 1: Driver greeted the passenger very briefly.
Passenger 2: Driver greeted the passenger very briefly.

If CTC has a policy on seat belts, did the driver ensure the passengers were properly belted?
I do not have a copy of the CTC policy on seat belts, so unsure if one exists. However, the driver did not ask or otherwise acknowledge the seat belts available to the passengers or to myself.

Was the vehicle neat and clean, free from dirt, torn upholstery, damaged or broken seats, protruding metal or other objects?
The vehicle appeared to have received a surface cleaning, however it appeared the vehicle would benefit from a more detailed cleaning on a routine basis. There was no evidence of torn upholstery, damaged or broken seats, protruding metal or other objects. However, the vehicles exterior was damaged in a number of places and the paint is very faded.
Is there a sign posted on the interior of the vehicle with both a local phone number and the TD Helpline for comments/complaints/commendations?
Signs with local numbers and helpline for comments/complaints/commendations were posted on the interior of the vehicle. The signs were temporary in nature, i.e. taped pieces of paper that were often peeling away and curled leaving the information illegible for passengers.

Does the vehicle have working heat and air conditioning?
The vehicle had working heat. Weather on the day of the observation did not require air conditioning so I am unable to confirm working air conditioning.

Does the vehicle have two-way communications in good working order?

Yes, the driver had a two-way mobile radio in good working order.

If used, was the lift in good working order?

The lift was not used for the duration of this Trip Observation.

Was there safe and appropriate seating for all passengers?

There were only two passengers during this observation. Safe and appropriate seating was available for both passengers.

Did the driver properly use the lift and secure the passenger? If no, please explain.

No, the lift was not used. Both passengers were ambulatory.

Comments:

This Trip Observation was limited to a relatively short period of time and pick-up of only two passengers was possible due to my schedule.

Following are a few observations and are provided solely for sharing information and should be considered my opinion alone.

1. The driver performed a thorough inspection of the vehicle prior to beginning the route.
2. The driver was using a dual system for documenting; paper and tablet. Tablets were being tested in a pilot phase.
3. Following inspection of the vehicle, the driver returned to the office to "clock-in" for work. It was my observation that the employee was conducting the inspection and not being paid although the inspection is a task assigned to the driver.
4. The driver engaged in conversation with me only through my prompting. The driver was not uncourteous to the passengers or to me. However, the driver did not engage the passengers in any conversation following the initial greeting.

When I asked passengers about their experience with CTC; neither were willing to elaborate on this question. One passenger simply stated it was "okay", the other passenger indicated by physical gestures that the service was "mediocre".

1.	Which expenses are especially high? **None**
2.	Are these high expenses acceptable? Are they approved? **NA**
3.	What strategies could reduce the unacceptable costs?

Level of Competition
Worksheet 2

1. Inventory of Transportation Operators in the Service Area

	Column A Operators Available	Column B Operators Contracted in the System.	Column C Include Trips	Column D % of all Trips
Private Non-Profit	**1**	**1**	**1,014**	**1.01%**
Private For-Profit	**1**	**1**	**99,620**	**98.99%**
Government				
Public Transit Agency				
Total	**2**			

2. How many of the operators are coordination contractors? **One**

3. Of the operators included in the local coordinated system, how many have the capability of expanding capacity? **Maruti has the capability to expand with additional drivers.**

   Does the CTC have the ability to expand? **Yes**

4. Indicate the date the latest transportation operator was brought into the system.
   October 2015

5. Does the CTC have a competitive procurement process? **Yes**

6. In the past five (5) years, how many times have the following methods been used in selection of the transportation operators?

   Once

	Low bid	**X**	Requests for proposals
	Requests for qualifications		Requests for interested parties
	Negotiation only		

Which of the methods listed above was used to select the current operators?

Negotiation

7. Which of the following items are incorporated in the review and selection of transportation operators for inclusion in the coordinated system?

X	Capabilities of operator		Scope of Work
	Age of company	**X**	Safety Program
X	Previous experience		Capacity
	Management		Training Program
X	Qualifications of staff (Key)		Insurance
	Resources	**X**	Accident History
	Economies of Scale	**X**	Quality
	Contract Monitoring		Community Knowledge
	Reporting Capabilities		Cost of the Contracting Process
	Financial Strength	**X**	Price
	Performance Bond		Distribution of Costs
X	Responsiveness to Solicitation		Other: (list)

8. If a competitive bid or request for proposals has been used to select the transportation operators, to how many potential operators was the request distributed in the most recently completed process?

   How many responded? 5

The request for bids/proposals was distributed:

X Locally **X Statewide** **X Nationally**

9. Has the CTC reviewed the possibilities of competitively contracting any services other than transportation provision (such as fuel, maintenance, etc…)? **Yes**

Level of Availability (Coordination) Worksheet 3

Planning – What are the coordinated plans for transporting the TD population? **Transportation Disadvantaged Service Plan (TDSP)**

Public Information – How is public information distributed about transportation services in the community? **Articles in local paper, brochures at agencies, ride guides, web site, through the LCB, radio, events, public service announcements, and Facebook.**

Certification – How are individual certifications and registrations coordinated for local TD transportation services? **The certifications are processed in the office.**

Eligibility Records – What system is used to coordinate which individuals are eligible for special transportation services in the community? **Eligibility records are consistent with the TDSP. They are maintained through the transportation software and filed.**

Call Intake – To what extent is transportation coordinated to ensure that a user can reach a Reservationist on the first call? **There are two reservationists; the lines rollover to the supervisor and other staff if the lines are busy.**

Reservations – What is the reservation process? How is the duplication of a reservation prevented? **Computer software allows for scheduling without duplication.**

Trip Allocation – How is the allocation of trip requests to providers coordinated? **N/A.**

Scheduling – How is the trip assignment to vehicles coordinated? **Scheduler and software assigns trips to the drivers and assigns trips to vehicles accordingly.**

Transport – How are the actual transportation services and modes of transportation coordinated? **The scheduler uses data collected for next day trips to develop manifests for drivers, by vehicle and two-way communication and tablets are used for add-on and changes.**

Dispatching – How is the real time communication and direction of drivers coordinated? **Dispatch is available to drivers by two way communication and tablets.**

General Service Monitoring – How is the overseeing of transportation operators coordinated? **Daily with on-site observation. Monthly, Quarterly and Annual monitoring for contracted operator.**

Daily Service Monitoring – How are real-time resolutions to trip problems coordinated? Dispatch, receptions and supervisor are located in the same office. **Two-way communications is maintained with the drivers and road supervisor.**

Trip Reconciliation – How is the confirmation of official trips coordinated? **Through the driver manifests, road supervisors and office staff validating paperwork/data.**

Billing – How is the process for requesting and processing fares, payments, and reimbursements coordinated? **Monthly invoices through office and county staff. Fares and co-pays are collected daily**

Reporting – How is operating information reported, compiled, and examined? **Using the transportation software, the trip data is used to produce the necessary reports.**

Cost Resources – How are costs shared between the coordinator and the operators (s) in order to reduce the overall costs of the coordinated program? **Cost are shared by sharing facilities, using county fuel contract and maintenance staff.**

Information Resources – How is information shared with other organizations to ensure smooth service provision and increased service provision? **Through the local coordinating board, advertising, community, center meetings, and Facebook.**

Overall – What type of formal agreement does the CTC have with organizations, which provide transportation in the community? **The CTC has operator contract.**

The County now has 4 full time temporary employee that assist with public transit operations. The increase in materials & supplies is due to the fact that the county purchases fuel directly and the total is no longer included in the contractor's budget. The increase in utilities is due to the fact that the County pays utilities directly and this line iitem is no longer included in the contractor's budget. The increase in contracted transportation service included an increase in the billable hourly rate as well as the contractor is performing more paratransit trips which is increasing the cost of the paratransit service.

YELLOW cells
are NEVER Generated by Applying Authorized Rates

BLUE cells
Should be funds generated by rates in this spreadsheet

GREEN cells
MAY BE Revenue Generated by Applying Authorized Rate per Mile/Trip Charges

Fill in that portion of budgeted revenue in Column 2 that will be GENERATED through the application of authorized per mile, per trip, or combination per trip plus per mile rates. Also, include the amount of funds that are Earmarked as local match for Transportation Services and NOT Capital Equipment purchases.

If the Farebox Revenues are used as a source of Local Match Dollars, then identify the appropriate amount of Farebox Revenue that represents the portion of Local Match required on any state or federal grants. This does not mean that Farebox is the only source for Local Match.

Please review all Grant Applications and Agreements containing State and/or Federal funds for the proper Match Requirement levels and allowed sources.

GOLD cells

Fill in that portion of Budgeted Rate Subsidy Revenue in Column 4 that will come from Funds Earmarked by the Funding Source for Purchasing Capital Equipment. Also include the portion of Local Funds earmarked as Match related to the Purchase of Capital Equipment if a match amount is required by the Funding Source.

[1] Rate Base Adjustment Cell

If necessary and justified, this cell is where you could optionally adjust proposed service rates up or down to adjust for program revenue (or unapproved profit), or losses from the Actual period shown at the bottom of the Comprehensive Budget Sheet. This is not the only acceptable location or method of reconciling for excess gains or losses. If allowed by the respective funding sources, excess gains may also be adjusted by providing system subsidy revenue or by the purchase of additional trips in a period following the Actual period. If such an adjustment has been made, provide notation in the respective exlanation area of the Comprehensive Budget tab.

CTC: **Okaloosa Count** Version 1.4
County: **Okaloosa**

1. Answer the questions by completing the GREEN cells starting in Section I for all services
2. Follow the DARK RED prompts directing you to skip or go to certain questions and sections based on previous answers

SECTION I: Services Provided

	Ambulatory	Wheelchair	Stretcher	Group
1. Will the CTC be providing any of these Services to transportation disadvantaged passengers in the upcoming budget year?.....	● Yes ○ No	● Yes ○ No	● Yes ○ No	○ Yes ● No
	Go to Section II for Ambulatory Service	Go to Section II for Wheelchair Service	Go to Section II for Stretcher Service	STOP! Do NOT Complete Sections II - V for Group Service

SECTION II: Contracted Services

	Ambulatory	Wheelchair	Stretcher	Group
1. Will the CTC be contracting out any of these Services TOTALLY in the upcoming budget year?....	○ Yes ● No	○ Yes ● No	○ Yes ● No	○ Yes ● No
	Skip # 2, 3 & 4 and Go to Section III for Ambulatory Service	Skip # 2, 3 & 4 and Go to Section III for Wheelchair Service	Skip # 2, 3 & 4 and Go to Section III for Stretcher Service	Do Not Complete Section II for Group Service
2. If you answered YES to #1 above, do you want to arrive at the billing rate by simply dividing the proposed contract amount by the projected Passenger Miles / passenger trips?.....	● Yes ○ No	● Yes ○ No	● Yes ○ No	○ Yes ● No
	Leave Blank	Leave Blank	Leave Blank	Do NOT Complete Section II for Group Service
3. If you answered YES to #1 & #2 above, how much is the proposed contract amount for the service?	$ 477,871	$ 122,847		
How many of the total projected Passenger Miles relate to the contracted service?	199,355	49,000		
How many of the total projected passenger trips relate to the contracted service?	17,719	4,555		
Effective Rate for **Contracted Services:**	Ambulatory	Wheelchair	Stretcher	Group
per **Passenger Mile** =	$ 2.40	$ 2.51		
per **Passenger Trip** =	$ 26.97	$ 26.97		
	Go to # 4 below for Ambulatory Service	Go to # 4 below for Wheelchair Service	Go to Section III for Stretcher Service	Do NOT Complete Section II for Group Service
4. If you answered # 3 & want a Combined Rate per Trip PLUS a per Mile add-on for 1 or more services, INPUT the Desired per Trip Rate (but must be less than per trip rate in #3 above =	Combination Trip and Mile Rate			
Rate per Passenger Mile for Balance =	$ 2.40	$ 2.51		
	STOP! Do NOT Complete Sections III - V for Ambulatory Service	STOP! Do NOT Complete Sections III - V for Wheelchair Service	Leave Blank and Go to Section III for Stretcher Service	Do NOT Complete Section II for Group Service

Worksheet for Multiple Service Rates

CTC: **Okaloosa Count** Version 1.4
County: **Okaloosa**

1. Answer the questions by completing the GREEN cells starting in Section I for all services
2. Follow the DARK RED prompts directing you to skip or go to certain questions and sections based on previous answers

SECTION III: Escort Service

1. Do you want to charge all escorts a fee?..... ○ Yes ● No

Skip #2 - 4 and Section IV and Go to Section V

2. If you answered Yes to #1, do you want to charge the fee per passenger trip OR ……..... ● Pass. Trip ○ Pass. Mile — **Leave Blank**
   per passenger mile?.....
3. If you answered Yes to # 1 and completed # 2, for how many of the projected Passenger Trips / Passenger Miles will a passenger be accompanied by an escort? — Leave Blank
4. How much will you charge each escort?..... — Leave Blank

SECTION IV: Group Service Loading

1. If the message "You Must Complete This Section" appears to the right, what is the projected total number of Group Service Passenger Miles? (otherwise leave blank)..... — **Do NOT Complete Section IV**

……. And what is the projected total number of Group Vehicle Revenue Miles?

Loading Rate 0.00 to 1.00

SECTION V: Rate Calculations for Mulitple Services:

1. Input Projected Passenger Miles and Passenger Trips for each Service in the GREEN cells and the Rates for each Service will be calculated automatically
   * Miles and Trips you input must sum to the total for all Services entered on the "Program-wide Rates" Worksheet, MINUS miles and trips for contracted services IF the rates were calculated in the Section II above
   * Be sure to leave the service BLANK if you answered NO in Section I or YES to question #2 in Section II

RATES FOR FY: 2018 2019

		Ambul	Wheel Chair	Stretcher	Group (Leave Blank)	
Projected Passenger Miles (excluding totally contracted services addressed in Section II) =	248,355 =	199,355 +	49,000 +	+	+ 0	
Rate per Passenger Mile =		**$2.10**	**$3.61**	**$0.00**	**$0.00** per passenger	**$0.00** per group
Projected Passenger Trips (excluding totally contracted services addressed in Section II) =	22,274 =	17,719 +	4,555 +	+	+	
Rate per Passenger Trip =		**$23.36**	**$40.04**	**$0.00**	**$0.00** per passenger	**$0.00** per group

2 If you answered # 1 above and want a COMBINED Rate per Trip PLUS a per Mile add-on for 1 or more services,…

Combination Trip and Mile Rate

	Ambul	Wheel Chair	Stretcher	Group (Leave Blank)	
…INPUT the Desired Rate per Trip (but must be less than per trip rate above) =					$0.00
Rate per Passenger Mile for Balance =	**$2.10**	**$3.61**	**$0.00**	**$0.00** per passenger	**$0.00** per group

Rates If No Revenue Funds Were Identified As Subsidy Funds

	Ambul	Wheel Chair	Stretcher	Group	
Rate per Passenger Mile =	**$4.10**	**$7.03**	**$0.00**	**$0.00** per passenger	**$0.00** per group
Rate per Passenger Trip =	**$45.52**	**$78.03**	**$0.00**	**$0.00** per passenger	**$0.00** per group

TRANSPORTATION AGREEMENT

(the "Agreement")

by and between

LOGISTICARE SOLUTIONS, LLC ("LGTC")

and

OKALOOSA COUNTY BOARD OF COUNTY COMMISSIONERS ("Provider")

WHEREAS, LGTC provides transportation brokerage services to eligible Participants ("Participants") for the provision of non-emergency transportation services in the State of Florida under contract (the "Client Contract") to certain public agencies and/or private organizations ("Client"); and

WHEREAS, LGTC wishes to enter into Agreements with qualified transportation companies for the provision of high-quality transportation services; and

WHEREAS, Provider provides, among other things, non-emergency transportation services and wishes to enter into this Agreement for the provision of services under the terms and conditions set forth herein;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein made, the sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

GENERAL TERMS AND CONDITIONS

1. Definitions. For purposes of this Agreement and all Exhibits, the following terms have the meanings as defined below:
   a) "Agreement" shall mean this Transportation Agreement, including all exhibits, and incorporates by reference the Florida LGTC Provider Manual. Provisions of this Agreement shall prevail in the event of any conflict between this Agreement and any provision of the Provider Manual.
   b) "Client" shall mean the party or entity with whom LGTC has a Client Contract. Although the singular form is used, "Client" shall be understood as plural in the event that LGTC is under agreement with more than one party or entity in the state in which Provider operates.
   c) "Client Contract" shall mean the agreement between LGTC and any other party or entity pursuant to which LGTC provides non-emergency transportation management services for covered Participants. Although the singular form is used, "Client Contract" shall be understood as plural in the event that LGTC is under agreement with more than one party or entity in the state or states in which Provider operates.

CONTRACT # C16-2392-GM
LOGISTICARE SOLUTIONS
NON-EMERGENCY MEDICAL
TRANSPORTATION
EXPIRES: 10/01/2016 W/AUTO RENEWALS

Claims that are denied and returned to Provider because of missing information may be resubmitted with the previously missing information. These claims are subject to a 10% reduction in the amount that would otherwise be due under the invoice if not resubmitted within thirty days of the date the claim was returned to Provider, and will be denied in their entirety if not resubmitted within sixty days of the date the claim was returned to the Provider. Provider shall continue to perform its obligations hereunder regardless of any outstanding contested amounts.

If Provider must first bill Medicare, the 60-day timeframe shall begin on the date of the denial of the claim by Medicare.

LGTC pays properly submitted uncontested invoices weekly by check or electronic transfer within thirty days after submission. If a payment date falls on a holiday payments will be made on the next working weekday.

In the event that the Client is unable or unwilling to pay LGTC amounts validly due under the Client Contract, LGTC may delay payments to Provider until such time as the Client pays the outstanding amounts.

Invoice Requirements

Once per week Provider shall submit to LGTC all completed trip logs pertaining to the previous workweek, including the signatures of the applicable Participants. Improperly completed trip logs will be returned to Provider and payment will be denied for either the entire trip log or for individual trips reported thereon, whichever is applicable. Included with each batch of trip logs, Provider shall submit a summary invoice that will include performance information. Provider shall use trip log and summary invoice sheet forms that are provided by LGTC. LGTC reserves the right to modify the format of the trip log and summary sheet from time to time. Provider may use alternative trip log or summary invoice sheet forms only with the express written consent of LGTC.

Trip logs must be free of excessive changes. Changes on the trip log should be made with a single line through the text so that the original text remains visible (i.e., no whiteouts, blackouts or complete obscuring of original text). Any changes on the trip log should be dated and initialed by the driver. LGTC reserves the right to deny individual trips or entire trip logs that evidence excessive changes pending confirmation of the details of such changes with Provider.

Charges Against Invoices

If requested or otherwise required by the Client Contract, LGTC may provide certain driver and/or attendant training and/or orientation services to Provider free of charge. LGTC's cost to produce the materials distributed to Provider (or employees of Provider) pursuant to these training and/or orientation services will be deducted from Provider's invoice following such training or orientation services.

In addition, LGTC has entered into an agreement with an independent credentialing company for nationwide access to credentialing and screening services for drivers. This company offers the minimum level of credentialing required by LGTC at a highly competitive rate. Provider may use the independent credentialing company and access the rates negotiated by LGTC for such services or it may use an alternative vendor, pre-approved by LGTC, to complete the necessary credentialing requirements. If Provider uses the independent credentialing company then the actual cost of such services shall be deducted from Provider's invoice as a pure pass through cost without additional

Subject: Urgent Please Read - Trip Finalization

Importance: High

Dear Valued Partner,

In an effort to ensure that your company and Secure Transportation receive payment for transportation performed, we are requesting that you finalize all trips within 15 days from the date of service. While this is not a requirement, finalized trips submitted after the timely filing limit for your state may not be paid. We thank you for your cooperation as you continue to provide exceptional service to our passengers.

Estimado Socio,

Para garantizar que su empresa y Secure Transportation reciban el pago por el transporte realizado, estamos solicitando que finalice todos los viajes dentro de quince días a partir de la fecha de servicio. Aunque esto no es un requisito, los viajes finalizados después de la fecha límite pudieran no ser pagados. Agradecemos su cooperación mientras Usted continua un servicio excepcional a nuestros miembros.

If you have any questions please contact ldiaz@securetransportation.com

Regards,

Martin Garate Partner Network Liaison

ADDENDUM 4

October 22, 2018

IT NTS 77-18

PUBLIC TRANSPORTATION SERVICES

This addendum is to extend the due date of the proposals and provide additional information:

The ITN due date is now: **October 31, 2018 at 2:00 p.m.**

Questions not answered in Addendum 3

68. It is stated that Okaloosa County is under contract with the Florida Commission for the Transportation Disadvantaged (CTD) to provide Medicaid Non-Emergency Transportation. The CTD no longer has authority for Medicaid Transportation services. The RFP further states under this contract is a requirement to provide bariatric services. Please clarify the Contractor is not responsible for providing these services.

A. Transit system vehicle wheelchair lifts can accommodate up to 1,000lbs, with extra wide wheelchair accessibility. If additional service is needed for more than this capacity, EMS is contacted.

127 . Does the work involve services provider to the Agency for Persons with Disabilities (APD)? There is no contract with APD; but, previously transportation was provided for APD.

A. Currently, funding is provided to their clients for transportation service, with some of these services being provided by the transit system.

128 . Would Contractor be required to complete background checks through the APD Clearinghouse?

A. No, the clients go through APD to get qualified and uses the APD Clearinghouse data base for that purpose.

Public Transportation Services
Invitation to Negotiate #TS 77-18

Okaloosa County Board Of County Commissioners

Submitted To:

Okaloosa County Board of County Commissioners
Okaloosa County Purchasing Department
Mr. Jeffrey Hyde, Purchasing Manager
5479A Old Bethel Road
Crestview, FL 32536
p: 850.689.5960

Submitted By:

MV Transportation, Inc.
2711 N Haskell Ave
Suite 1500, LB-2
Dallas, TX 75204
p: 972.391.4600
www.mvtransit.com

MV Transportation, Inc. is a federal contractor or subcontractor which complies fully with Executive Order 11246, as amended, and the applicable regulations contained in 41 C.F.R. Parts 60-1 through 60-60; 29 U.S.C. Section 793 and the applicable regulations contained in 41 C.F.R. Part 60-741; 38 U.S.C. Section 4212 and the applicable regulations contained in 41 C.F.R. Part 60-250 and/or 60-300; and 29 CFR Part 471, Appendix A. MV is an Equal Employment Opportunity/Affirmative Action Employer.

Confidentiality Statement

As a privately-held company, many aspects of MV's business is considered confidential. The proposal contained herein offers details regarding our proposed operating plan for Okaloosa County (the County) and includes operating procedures, management candidates, and innovative approaches that our Board of Directors considers Confidential. MV believes these items to be confidential, but not proprietary.

For ease of the County's review:

- *MV considers its pricing information confidential and has therefore indicated so in the margin of each price page.*

MV Transportation, Inc

October 26, 2018

Mr. Jeffrey Hyde, Purchasing Manager
Okaloosa County Purchasing Department
5479A Old Bethel Road
Crestview, FL 32536

Dear Mr. Hyde:

MV Transportation, Inc. and all subsidiaries, joint ventures, partnerships and affiliates, (or "MV") greatly appreciates the opportunity to submit its proposal in response to Okaloosa County's ("the County") Invitation to Negotiate ITN TS 77-18 for Public Transportation Services. I am hopeful that MV's demonstrated breadth of experience and tenure in the industry offers assurance that it is a stable and qualified partner.

As required, MV's proposed operating plan is contained herein. This plan follows MV's guiding management philosophy that service quality need not have a direct relationship to operating cost; rather it is created from a positive work environment that supports proactive employee relations and professional development.

MV understands the County's interest in cost effective proposals and the difference between greatest value and low bid. The company is proud of its history in passenger transportation and offers high quality, high value service – delivered by highly competent and qualified personnel, at realistic and affordable costs. The company is confident that its proposed operating approach offers a competitive price and the best value for the County.

MV acknowledges all addenda to ITN TS 77-18 and has provided the Addendum Acknowledgment form in tab labeled Forms and Certifications.

I, Dorothea, am a legal officer of the company and have authority to sign. Edward Griffin is your primary contact for this procurement and he am authorized to make representations for MV Transportation, Inc., to include all its subsidiaries, joint ventures, partnerships, and affiliates (the bidding entity). If awarded the contract, the Contracting Party will be MV Contract Transportation, Inc.

He can be reached any time of day at 352.375.2784 Ext.11600 or edward.griffin@mvtransit.com. Additionally, Mr. Steven Trinkle, Senior Vice President, will serve as your secondary contact; he can be reached any time of day at 828.386.8576 or steven.trinkle@mvtransit.com. Please direct all correspondence related to this and all future procurements to MV's bid office located at 479 Mason Street, Ste. 221 Vacaville, CA 95688.

Thank you for your consideration; I encourage you to select MV Transportation as your partner for the provision of the County's public transportation services. We look forward to working with you throughout this procurement.

Sincerely,

Dorothea DePrisco

Assistant Corporate Secretary

MV TRANSPORTATION, INC.

SECRETARY'S CERTIFICATE

September 18, 2018

The undersigned, being the Secretary of MV Transportation, Inc. (the "Company"), hereby certifies, in her capacity as Secretary of the Company, the following:

1. The following officers have been duly appointed by the Board of Directors to the office set forth opposite their name:

   Kevin Jones, Chief Executive Officer
   Tom Egan, President and Chief Operating Officer
   Erin Niewinski, Co-Interim Chief Financial Officer
   Gary Richardson, Co-Interim Chief Financial Officer
   Scott Sosnowski, Chief Sales Officer
   Emily Somerville, Secretary
   Dorothea DePrisco, Assistant Secretary

2. The officers listed herein are authorized, in the name and on behalf of the Company, to submit proposals and enter into and bind the Company to contracts with respect to Requests for Proposals consistent with internal approval requirements.

IN WITNESS WHEREOF, the undersigned has executed this Secretary's Certificate to be effective as of the date set forth above.

Emily Somerville, Secretary

Items for Discussion

MV respectfully requests discussion of the following recommendations at the appropriate time during the procurement process.

RFP/Contract Section	Stated Language	Proposed Language	Explanation
Price Adjustment	N/A	Include provision that provides for price adjustments if Contractor's costs increase as a result of (i) changes to the scope of work / service hours requested by the Authority, (ii) changes in laws, rules, regulations, etc. applicable to the services to be provided by Contractor, and/or (iii) wage increases necessary for Contractor to be able to recruit and retain qualified employees as a result of an increase in the minimum wage in the City or surrounding jurisdictions. If the parties are unable to agree on a rate adjustment, then either party may terminate the contract upon 120 days written notice to the other party.	Contractor needs price protection for changes requested by the Authority, or matters that were not contemplated at the time of Contractor's proposal.
Vehicle Acceptance Standards	N/A	Include Contractor's vehicle acceptance standards as the applicable standard against which all vehicles will be inspected. Include Contractor's vehicle acceptance agreement as an exhibit to the Agreement.	Upon delivery of the vehicles to Contractor, the vehicles must be in the same condition as the condition that Contractor is required to maintain.
Environmental	N/A	Include provision to make it clear that Contractor is not responsible for any environmental issues or releases of hazardous materials existing on or prior to the Contractor's occupancy of the Authority's facilities, or caused by any party other than Contractor.	Contractor should not be responsible for existing issues or issues caused by other parties.
Force Majeure	N/A	Include force majeure provision relieving both parties from performance under the Contract for circumstances beyond their reasonable control (acts of God, war, labor strikes, slowdowns, sick-outs, or other disputes, etc.).	Contractor should be excused from performance for circumstances beyond its reasonable control.
Contract Negotiation	No form contract provided	N/A	Contractor reserves the right to negotiate the terms and conditions of the final contract for the services.
General Proposal Conditions Section 25; FTA Clauses -	County may terminate for convenience at any time.	Revise to provide that either party may terminate for convenience with a minimum of 60 days' advance notice, and in the event County terminates for convenience, payment of Contractor's reasonable close-out costs.	Contractor will have contract termination costs as well as employment termination obligations required by law (WARN ACT, etc.).

Items for Discussion

Termination for Convenience			
FTA Provisions - Disputes	FTA provision. Disputes shall be decided in writing by the Authority, and such decision shall be binding on Contractor.	Delete first paragraph, but keep the dispute provisions which provide for resolution via arbitration or a court of competent jurisdiction. Should be consistent with general condition on disputes that provides for resolution by mediation, arbitration or other appropriate legal resolution.	Disputes should not be conclusively determined by either party to the dispute.
Section II General Services Ins. Req. Contractor's Insurance 10.	All insurance policies shall include a clause to provide 30 days written notice to Okaloosa County for any changes, cancellations or non-renewal of the policy, with the exception of 10 day notice for cancellation due to non-payment of premium.	Should any of the required insurance policies be changed, cancelled or non-renewed, Contractor shall provide 30 days written notice to Okaloosa County, with the exception of 10 day notice for cancellation due to non-payment of premium.	Most insurance carriers will not endorse a policy to provide notice of cancellation to anyone other than the first named insured on the policy.
Section II General Services Ins. Req. Bus. AL & GL 3.	the aggregate limit of liability shall apply only to the locations included in this Agreement.	Remove	Contractor's aggregate limit applies to all of Contractor's operations, not just specific agreements.
Section II General Services Ins. Req. Limits of Liability 7. Prof Liability	Professional Liability $1,000,000	Remove	Contractor should not be required to provide this coverage as they have no exposure to this type of loss.

Items for Discussion

Section II General Services Ins. Req. Certificate of Insurance 2.	All policies shall expressly require 30 days written notice to Okaloosa County at the address set out above, or the cancellations of material alterations of such policies, and the Certificates of Insurance, shall so provide.	Should any of the required policies be cancelled or materially changed, the contractor will provide 30 days written notice to Okaloosa County at the address set out above.	Most insurance carriers will not endorse a policy to provide notice of cancellation to anyone other than the first named insured on the policy.
Section II General Services Ins. Req. Certificate of Insurance 3.	County reserves the right to approve or reject all deductible/SIR above $10,000.	Remove	Contractor's insurance policies contain large deductibles/retentions as is customary for companies of the contractor's size and financial strength. The removal of deductibles/retentions would significantly increase costs. If the County is not agreeable to the removal of the coverage or our insurance coverage, Contractor would need to revise its pricing structure related to insurance.

DRUG-FREE WORKPLACE CERTIFICATION

THE BELOW SIGNED RESPONDENT CERTIFIES that it has implemented a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under quote a copy of the statement specified in subsection 1.

4. In the statement specified in subsection 1, notify the employees that, as a condition of working on the commodities or contractual services that are under quote, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893, Florida Statutes, or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in, drug abuse assistance or rehabilitation program if such is available in employee's community, by any employee who is convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign this statement, I certify that this firm complies fully with the above requirements.

CONE OF SILENCE

The Board of County Commissioners have established a solicitation silence policy **(Cone of Silence)** that prohibits oral and written communication regarding all formal solicitations for goods and services (ITB, RFP, ITQ, ITN, and RFQ) or other competitive solicitation between the bidder (or its agents or representatives) or other entity with the potential for a financial interest in the award (or their respective agents or representatives) regarding such competitive solicitation, and any County Commissioner or County employee, selection committee member or other persons authorized to act on behalf of the Board including the County's Architect, Engineer or their subconsultants, or anyone designated to provide a recommendation to award a particular contract, other than the Purchasing Department Staff..

The period commences from the time of advertisement until contract award.

When the solicitation silence period is in effect, no oral or written communication is allowed regarding the solicitation between prospective respondents and members of the Board of County Commissioners, the County Administrator, county employees or members of the Board Approved Review Committee. All questions or requests for information regarding the solicitation **MUST** be directed to the designated Purchasing Representative listed in the solicitation.

Any information thought to affect the committee or staff recommendation submitted after bids are due, should be directed to the Purchasing Director or an appointed representative. It shall be the Purchasing Director decision whether to consider this information in the decision process.

Any violation of this policy shall be grounds to disqualify the respondent from consideration during the selection process.

All respondents must agree to comply with this policy by signing the following statement and including it with their submittal.

I _____ **representing** MV Transportation, Inc.
Signature **Company Name**
Dorothea DePrisco, Assistant Corporate Secretary

On this 17 day of October 2018 hereby agree to abide by the County's **"Cone of Silence Clause"** and understand violation of this policy shall result in disqualification of my proposal/submittal.

SYSTEM FOR AWARD MANAGEMENT (OCT 2016)

(a) Definitions. As used in this provision.

"Electronic Funds Transfer (EFT) indicator" means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

"Registered in the System for Award Management (SAM) database" means that.

(1) The Offeror has entered all mandatory information, including the unique entity identifier and the EFT indicator, if applicable, the Commercial and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14) into the SAM database;

(2) The offeror has completed the Core, Assertions, and Representations and Certifications, and Points of Contact sections of the registration in the SAM database;

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The offeror will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and

(4) The Government has marked the record "Active".

"Unique entity identifier" means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address exactly as stated in the offer. The Offeror also shall enter its EFT indicator, if applicable. The unique entity identifier will be used by the Contracting Officer to verify that the Offeror is registered in the SAM database.

(c) If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for establishment of the unique entity identifier directly to obtain one. The Offeror should be prepared to provide the following information:

(1) Company legal business name.

(2) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(3) Company Physical Street Address, City, State, and Zip Code.

(4) Company Mailing Address, City, State and Zip Code (if separate from physical).

(5) Company telephone number.

(6) Date the company was started.

(7) Number of employees at your location.

(8) Chief executive officer/key manager.

(9) Line of business (industry).

(10) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) Offerors may obtain information on registration at https://www.acquisition.gov .

Offerors SAM information:

5	October 24, 2018

NOTE: Prior to submitting the response to this solicitation, it is the responsibility of the respondent to confirm if any addenda have been issued. If such addenda have been issued, acknowledge receipt by noting number(s) and date(s) above.

LOBBYING - 31 U.S.C. 1352, as amended

CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements
(To be submitted with each bid or offer exceeding $100,000)

MV Transportation, Inc.
The undersigned [Contractor] certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form--LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, MV Transportation, Inc. , certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. A 3801, *et seq., apply* to this certification and disclosure, if any.

EXHIBIT A
GENERAL GRANT FUNDING SPECIAL PROPOSAL CONDITIONS

Either this solicitation is fully or partially Grant funded. Respondents shall comply with the clauses as enumerated below.

1. **Drug Free Workplace Requirements:** Drug-free workplace requirements in accordance with Drug Free Workplace Act of 1988 (Pub l 100-690, Title V, Subtitle D) All contractors entering into Federal funded contracts over $100,000 must comply with Federal Drug Free workplace requirements as Drug Free Workplace Act of 1988.

2. **Contractor Compliance**: The contractor shall comply with all uniform administrative requirements, cost principles, and audit requirements for federal awards.

3. **Conflict of Interest**: The contractor must disclose in writing any potential conflict of interest to the County or pass-through entity in accordance with applicable Federal policy.

4. **Mandatory Disclosures**: The contractor must disclose in writing all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award.

5. **Utilization of Minority and Women Firms (M/WBE):** The contractor must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible, in accordance with 2CFR 200.321. If subcontracts are to be let, prime contractor will require compliance by all sub-contractors. Prior to contract award, the contractor shall document efforts to utilize M/WBE firms including what firms were solicited as suppliers and/or subcontractors as applicable and submit this information with their bid submittal. Information regarding certified M/WBE firms can be obtained from:

   Florida Department of Management Services (Office of Supplier Diversity)
   Florida Department of Transportation
   Minority Business Development Center in most large cities and
   Local Government M/DBE programs in many large counties and cities

6. **Equal Employment Opportunity**: (As per Executive Order 11246) The contractor may not discriminate against any employee or applicant for employment because of age, race, color, creed, sex, disability or national origin. The contractor agrees to take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their age, race, color, creed, sex, disability or national origin. Such action shall include but not be limited to the following: employment, upgrading, demotion or transfer, recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training including apprenticeship.

7. **Davis-Bacon Act:** If applicable to this contract, the contractor agrees to comply with all provisions of the Davis Bacon Act as amended (40 U.S.C. 3141-3148). Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. If the grant award contains Davis Bacon provisions, the County will place a copy of the current prevailing wage determination issued by the Department of Labor in the solicitation document. The decision to award a contract shall be conditioned upon the acceptance of the wage determination.

8. **Copeland Anti Kick Back Act:** If applicable to this contract, contractors shall comply with all the requirements of 18 U.S.C. § 874, 40 U.S.C. § 3145, 29 CFR Part 3 which are incorporated by reference

to this contract. Contractors are prohibited from inducing by any means any person employed in the construction, completion or repair of public work to give up any part of the compensation to which he or she is otherwise entitled.

9. **Contract Work Hours and Safety Standards Act** (40 U.S.C. 3701–3708): Where applicable, all contracts awarded in excess of $100,000 that involve the employment of mechanics or laborers must be in compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

10. **Clean Air Act (42 U.S.C. 7401–7671q.)** and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387): as amended—The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

11. **Debarment and Suspension** (Executive Orders 12549 and 12689): A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), ''Debarment and Suspension. SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. The contractor shall certify compliance. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions and subcontracts.

12. **Byrd Anti-Lobbying Amendment** (31 U.S.C. 1352): Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. The contractor shall certify compliance.

13. **Rights to Inventions Made Under a Contract or Agreement**: If the Federal award meets the definition of ''funding agreement'' under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that ''funding agreement,'' the recipient or subrecipient must comply with the requirements of 37 CFR Part 401,''Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,'' and any implementing regulations issued by the awarding agency.

14. **Procurement of Recovered Materials**: Contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

15. **Access to Records and Reports:**
Contractor will make available to the County's granting agency, the granting agency's Office of Inspector General, the Government Accountability Office, the Comptroller General of the United States, Okaloosa County, Okaloosa County Clerk of Court's Inspector General, or any of their duly authorized representatives any books, documents, papers or other records, including electronic records, of the contractor that are pertinent to the County's grant award, in order to make audits, investigations, examinations, excerpts, transcripts, and copies of such documents. The right also includes timely and reasonable access to the contractor's personnel during normal business hours for the purpose of interview and discussion related to such documents. This right of access shall continue as long as records are retained.

16. **Record Retention:**
Contractor will retain of all required records pertinent to this contract for a period of three years, beginning on a date as described in 2 C.F.R. §200.333 and retained in compliance with 2 C.F.R. §200.333.

17. **Federal Changes:** Contractor shall comply with all applicable Federal agency regulations, policies, procedures and directives, including without limitation those listed directly or by reference, as they may be amended or promulgated from time to time during the term of the contract.

18. **Termination for Default (Breach or Cause):**
Contracts in excess of $10,000 – If Contractor does not deliver supplies in accordance with the contract delivery schedule, or, if the contract is for services, the Contractor fails to perform in the manner called for in the contract, or if the Contractor fails to comply with any other provisions of the contract, the County may terminate the contract for default. Termination shall be effected by serving a notice of termination on the contractor setting forth the manner in which the Contractor is in default. The contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract.

19. **Safeguarding Personal Identifiable Information**
Contractor will take reasonable measures to safeguard protected personally identifiable information and other information designated as sensitive by the awarding agency or is considered sensitive consistent with applicable Federal, state and/or local laws regarding privacy and obligations of confidentiality.

20. **Prohibition on utilization of cost plus a percentage of cost contracts**: The County will not award contracts containing Federal funding on a cost plus percentage of cost basis.

21. **Prohibition on utilization of time and material type contracts:** The County will not award contracts based on a time and material basis if the contract contains Federal funding.

22. **Disputes:** Any dispute arising under this Agreement which is not settled by Agreement of the parties may be settled by mediation, arbitration, or other appropriate legal proceedings. Pending any decision, appeal or judgment in such proceedings or the settlement of any dispute arising under this Agreement, shall proceed diligently with the performance of this Agreement in accordance with the decision of the County. This Agreement shall be construed under the laws of the State of Florida, and venue for any actions arising out of this Agreement shall be in the Circuit Court of Okaloosa County.

23. **Energy Policy and Conservation Act (43 U.S.C.§6201)**
All contracts except micro-purchases ($3000 or less, except for construction contracts over $2000). Contracts shall comply with mandatory standards and policies relating to energy efficiency, stating in the state energy conservation plan issued in compliance with the Energy Policy and Conservation act. (Pub. L. 94-163, 89 Stat. 871) [53 FR 8078, 8087, Mar. 11, 1988, as amended at 60 FR 19639, 19645, Apr. 19, 1995].

As the person authorized to sign this statement, I certify that this company complies/will comply fully with the above requirements.

CERTIFICATION AND RESTRICTIONS ON LOBBYING

I, Dorothea DePrisco, Assistant Corporate Secretary, hereby certify
(Name and title of official)
On behalf of MV Transportation, Inc. that:
(Name of Bidder/Company Name)

- No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, and officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.
- If any funds other than federal appropriated funds have been paid or will be paid to any person influencing or attempting to influence an officer or employee of any agency, a Member of Congress, and officer or employee of Congress, or an employee of a Member of Congress in connection with the federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form – LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including sub-contracts, sub- grants and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The undersigned certifies or affirms the truthfulness and accuracy of the contents of the statements submitted on or with this certification and understands that the provisions of 31 U.S.C. Section 3801, et seq., are applicable thereto.

Instructions for Certification: By signing and submitting this bid or proposal, the prospective lower tier participant is providing the signed certification set out below.

(1) It will comply and facilitate compliance with U.S. DOT regulations, "Nonprocurement Suspension and Debarment," 2 CFR part 1200, which adopts and supplements the U.S. Office of Management and Budget (U.S. OMB) "Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement)," 2 CFR part 180,

(2) To the best of its knowledge and belief, that its Principals and Subrecipients at the first tier:

a. Are eligible to participate in covered transactions of any Federal department or agency and are not presently:

(1) Debarred,
(2) Suspended,
(3) Proposed for debarment,
(4) Declared ineligible,
(5) Voluntarily excluded, or
(6) Disqualified,

b. Its management has not within a three-year period preceding its latest application or proposal been convicted of or had a civil judgment rendered against any of them for:

(1) Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction, or contract under a public transaction,
(2) Violation of any Federal or State antitrust statute, or
(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making any false statement, or receiving stolen property,

c. It is not presently indicted for, or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses listed in the preceding subsection 2.b of this Certification,

d. It has not had one or more public transactions (Federal, State, or local) terminated for cause or default within a three-year period preceding this Certification,

e. If, at a later time, it receives any information that contradicts the statements of subsections 2.a - 2.d above, it will promptly provide that information to FTA,

f. It will treat each lower tier contract or lower tier subcontract under its Project as a covered lower tier contract for purposes of 2 CFR part 1200 and 2 CFR part 180 if it:

(1) Equals or exceeds $25,000,
(2) Is for audit services, or
(3) Requires the consent of a Federal official, and

g. It will require that each covered lower tier contractor and subcontractor:
(1) Comply and facilitate compliance with the Federal requirements of 2 CFR parts 180 and 1200, and
(2) Assure that each lower tier participant in its Project is not presently declared by any Federal department or agency to be:

a. Debarred from participation in its federally funded Project,
b. Suspended from participation in its federally funded Project,
c. Proposed for debarment from participation in its federally funded Project,
d. Declared ineligible to participate in its federally funded Project,
e. Voluntarily excluded from participation in its federally funded Project, or
f. Disqualified from participation in its federally funded Project, and

3. It will provide a written explanation as indicated on a page attached in FTA's TrAMS platform or the Signature Page if it or any of its principals, including any of its first tier Subrecipients or its Third-Party Participants at a lower tier, is unable to certify compliance with the preceding statements in this Certification Group.

BUY AMERICA CERTIFICATION

(STEEL OR MANUFACTURED PRODUCTS)

[61 FR 6302, Feb. 16, 1996, as amended at 74 FR 30239, June 25, 2009]

General Requirement (as stated in 49 CFR 661.5)

(a) Except as provided in 49 CFR 661.7 and 49 CFR 661.11, no funds may be obligated by FTA for a grantee project unless all iron, steel, and manufactured products used in the project are produced in the United States.

(b) All steel and iron manufacturing processes must take place in the United States, except metallurgical processes involving refinement of steel additives.

(c) The steel and iron requirements apply to all construction materials made primarily of steel or iron and used in infrastructure projects such as, transit or maintenance facilities, rail lines, and bridges. These items include, but are not limited to, structural steel or iron, steel or iron beams and columns, running rail and contact rail. These requirements do not apply to steel or iron used as components or subcomponents of other manufactured products or rolling stock, or to bimetallic power rail incorporating steel or iron components.

(d) For a manufactured product to be considered produced in the United States:

(1) All of the manufacturing processes for the product must take place in the United States; and

(2) All of the components of the product must be of U.S. origin. A component is considered of U.S. origin if it is manufactured in the United States, regardless of the origin of its subcomponents.

If steel, iron, or manufactured products (as defined in 49 CFR 661.3 and 661.5) are being procured, the appropriate certificate as set forth below shall be completed and submitted by each bidder or offeror in accordance with the requirement contained in 49 CFR 661.13(b).

Certificate of **Compliance** with Buy America Requirements.

The bidder or offeror hereby certifies that it will comply with the requirements of 49 U.S.C. 5323(j)(1), and the applicable regulations in 49 CFR part 661.

*The proposed timetable for the performance or delivery of the uniforms is approximately two (2) weeks.

Executive Summary

Executive Summary

Okaloosa County ("the County") has released an Invitation to Negotiate ("ITN") seeking a qualified contractor to provide fixed-route and paratransit public transportation services throughout the County and the surrounding area. This requires a contractor who has experience in both fixed-route, paratransit and understands the requirements of the Florida Commission for the Transportation Disadvantaged ("CTD") and all applicable State and Federal regulations.

The ongoing success of the County's transportation program at the local level is predicated on the capabilities of the contractor. By assigning this role to the right provider, the County will have a stable, sustainable, and consistent service for the citizens of Okaloosa County.

MV Transportation, Inc. ("MV") has proudly served the Florida community for over 16 years, has a strong understanding of the Florida transportation model, and is ready to deliver quality, safe, courteous service for the County's transportation needs.

Our Experience in the State of Florida

MV is committed to the state of Florida, serving as the CTC as well as a fixed route and paratransit service provider throughout the state:

- **Miami Lakes:** MV has been operating the Miami Lakes Moover service for the Town of Miami Lakes since 2015. The Miami Lakes Moover is a free, headway-based service that connects passengers to local fixed route and rail stations. The Miami Lakes Moover operates weekdays during peak travel periods. Passengers access real-time vehicle location and ETA information via The Moover tracking app provided by the client.

- **ACCESS LYNX, Central Florida Regional Transportation Authority (Orlando, Florida):** MV has operated the ACCESS LYNX paratransit service for the Central Florida Regional Transportation Authority (LYNX) since 2002. MV operates and maintains 165 vehicles for LYNX.

- **Hialeah Transit System, City of Hialeah (Hialeah, FL):** MV began operating fixed route transit services for the City of Hialeah in 2010. The

service operates on two routes within the City of Hialeah. MV is responsible for dispatching and operations for this 13-vehicle service. MV is in its second term with the City.

- **JTA Connexion, Jacksonville Transportation Authority (Jacksonville, FL):** MV began operating the Jacksonville Transportation Authority (JTA) ADA paratransit program in 2013. MV operates and maintains a fleet of 83 vehicles for this service and is responsible for scheduling and dispatching trips.

- **Palm Tran Connection (Palm Beach County, FL):** From 2005 through 2012 and again from 2015 to present, MV has provided paratransit services through the Palm Tran Connection. MV operates and maintains a fleet of 101 vehicles for this demand-responsive, shared ride, door-to-door paratransit service, which serves persons with disabilities throughout Palm Beach County and the major urban centers as well as rural areas in Belle Glade, Pahokee, Canal Point, and South Bay.

- **Martin County:** MV has operated in Martin County since 2012 as the contracted provider for the County's public transit services. MV has operated in the State of Florida since 2003 when it assumed the role of Alachua County CTC.

- **ADA Paratransit Service, City of Gainesville Regional Transit System (Gainesville, FL):** MV began operating complementary ADA paratransit service for the City of Gainesville in conjunction with the Regional Transit System (RTS) in 2003 as part of the coordinated system as Community Transportation Coordinator for Alachua County.

- **Alachua County:** MV began its role as the CTC and operator for Alachua County services in 2003. As CTC, MV handles all eligibility determinations, trip requests, customer service, scheduling, and dispatching for this contract. MV is also responsible for all direct service delivery and operates and maintains a fleet of 42 vehicles for the system.

In its tenure in Alachua County, MV has contributed to the stability of the system by providing corporate resources, procuring grant monies, and identifying areas where improvements could be gained.

- **Hardee, Highlands, Okeechobee, and DeSoto Counties:** MV began its work as the CTC for Hardee, Highlands, and Okeechobee Counties in 2015.

Here, MV provides and coordinates paratransit services in partnership with qualified subcontracted providers.

- **DeSoto County:** MV was designated CTC for Desoto County under an emergency contract in January 2016. In January 2017 MV was designated the CTC.
- **Medicaid Transportation:** MV provides Medicaid transportation through several Medicaid brokers in the counties of Alachua, Hardee Highlands, Okeechobee, Martín, and St. Lucie.

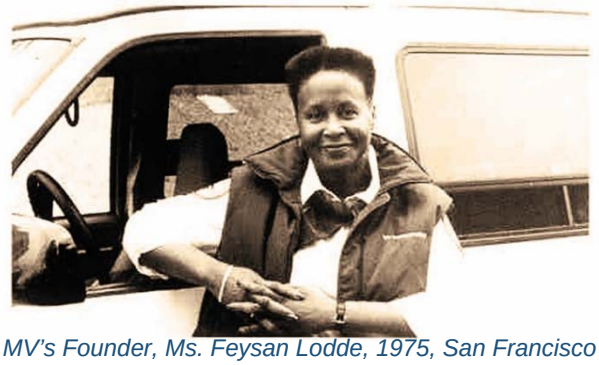
Experienced and Reliable Management Team

MV's management teams fully represent MV's mission statement. When Alex and Feysan Lodde founded MV more than 40 years ago, they envisioned a company that provided the freedom of mobility regardless of age or ability. Led by an experienced startup/general manager, Mr. Edward Griffin, MV's Florida team has successfully managed many operations throughout the state. Ed previously served as a commissioner and staff member for the Commission for the Transportation

Disadvantaged (CTD), and currently serves on the Agency for People with Disabilities (APD), a statewide task force with the executive director of the CTD. As such, he understands the intricacies of a transportation provider's role within the CTD's operating model. Ed was recently awarded the (CTD) William G. and Budd Bell Lifetime Achievement Award. Ed has extensive experience with transit operations and will lead the start-up leadership for the team along with our proposed manager Mr. Dennis Franklin. Ed and Dennis, along with MV's Florida team work each day to deliver service to the Florida community in a manner true to MV's mission statement.

MV's Mission Statement

"To offer the safest, most cost efficient and effective passenger transportation services and solutions by continually providing quality customer service, consistently outperforming our competitors, producing profitable earnings and treating our employees as our most important asset."-Feysan Lodde



MV's Founder, Ms. Feysan Lodde, 1975, San Francisco

Operational Effectiveness

Perhaps of greatest value is the cost savings the County will achieve in selecting MV as its contractor for public transportation services. These benefits include a partnership with proven safety programs, experienced management team, and extensive new and ongoing training for all employees, effectively ensuring a safe and cost-effective operation. Of significance, MV offers the County the following value enhancing initiatives:

- **Leveraged Management/Supervision:** In support of general manager Dennis Franklin, the company offers the services of additional crucial key management staff to the County, comprising of start-up manager Edward Griffin for transition leadership, operations manager Crystal Myers, and safety and training manager Sean Reilley. This experienced team's familiarity with the local area and operation, the County's expectations, and its commitment to providing high quality service to the passengers will ensure performance, contract alignment, and service reliability.

- **Unrestricted Operations Support:** In addition to our management support team, the County's services will gain extended support from our operations team with additional prequalified and trained backup drivers, tenured dispatchers, skilled technicians, vehicle service workers, and direct operator support from our road supervisory team.

- **Corporate Support:** The County will have the support of MV's corporate staff members, who remain available to assist with industry best practices to include: financial budgeting, FTA-approved drug and alcohol testing, legal policies and procedures, employment laws, and requirements such as NTD reporting, throughout the contract term. Additionally, the regional support team will perform monthly and quarterly MV-audits to ensure overall success.

- **National Accounts Program:** As your financial stewards, MV continues to research the most cost-effective value for each operations component in fulfilling the management of your transit system. Through the years, we've formed national account relationships with reliable vendors and suppliers as well as local businesses. This investment provides the best value for the County and its funding resources budgeted for these vital services.

Why MV?

As a long-time Florida transportation provider, MV has achieved successes in many areas such as on-time performance and overall customer satisfaction and is ready to deliver for Okaloosa County.

- **Consistent Management:** Proposed general manager Mr. Dennis Franklin has been a committed operations manager for MV's Florida operation since 2015. He is fully prepared to lead the operations team as general manager for Okaloosa County and to stay committed for the long term. Start-up manager Edward Griffin has provided oversight of MV operations in the Florida area for over 15 years.

- **Excellent Performance:** MV's on-time performance rate is 98 percent in the Alachua County system for all services.

- **Improved Reporting:** With the integration of better reporting tools such as Transit Miner and Trapeze ViewPoint, we can provide greater analytics and performance details to the County, which will result in greater transparency and accountability.

- **Technology Integration and Innovation:** MV is a leader in transit technology, fully capable of delivering new solutions with results for the County's transportation needs.

1. Management/ Organization

1. Management/Organization

Provide a detailed profile of your firm that includes a history and accomplishments of its operations in providing transportation services of a similar nature as the services in this ITN; number of years in business; home office location and any other information the firm wishes to be considered in the evaluation of its ability to render services to the County.

MV Transportation was founded in San Francisco by Feysan and Alex Lodde in 1975. Our founders' mission was simple: to provide freedom of mobility to those individuals who did not have access to transit, due to their varying ages and disabilities. Not only were paratransit services non-existent, but many apartment buildings did not have elevators – facts that illustrate the criticality of the Loddes' work. To serve her passengers, Feysan would carry passengers up and down flights of stairs.

This history still defines who we are as a company: compassionate, forward-thinking, and staunchly committed to delivering critical services to our communities.

Today, MV operates in more than 140 locations within 29 states in the U.S., and two provinces in Canada. We work with public entities like cities, counties, and transit agencies; as well as school districts, universities, and private companies. While our portfolio of customers is diverse, our job remains focused on the efficient and safe mobility of people.

Feysan and Alex Lodde
Founders and owners

From fixed route to paratransit, on demand, shuttle, and black car, our team plays a significant role in mobility today. U.S. owned and privately held, MV offers the County a progressive partnership that has the experience to accomplish your goals – with inventive approaches and utmost flexibility.

Company Experience

MV operates more than 200 contracts across North America, providing passenger transportation services including commuter service, fixed route, flex route and demand response transportation. Within our operations, we offer turnkey services including but not limited to fleet and facility maintenance, transit management technologies, labor management, and service model design.

Our approach to our business is simple – we unite industry best practices with state-of-the-art operating concepts to deliver unique solutions to our customers.

- **Paratransit and Demand Service:** MV provides more demand response service than any other privately-owned company; this work is the foundation of our business, and we have remained the market leader. Our experience ranges from small, local general-public dial-a-rides to extremely complex, high volume, metropolitan ADA services. From Los Angeles to New York City, our paratransit footprint is unsurpassed.

- **Fixed Route, Commuter, and Shuttle:** Fixed route, commuter services, employee shuttles all comprise our fixed route experience. MV is the provider of choice of large, high profile agencies and private customers alike. We work with our clients to deliver passenger facing technologies, best practices in transit management, and solutions in high volume passenger systems.

- **Non-Emergency Medical Transportation:** We provide non-emergency Medicaid transportation services in several counties in the State of Florida, operating as the Community Transportation Coordinator in several counties. We also operate non-emergency medical transportation programs through other funding sources, including several services within the California regional center program.

- **Fleet Maintenance:** The company's maintenance program is developed based on industry best practices and in conjunction with MV's skilled maintenance professionals. The company's fleet maintenance services continue to protect and extend the life of its transit fleets. Operating in areas of severe and unpredictable weather events (including Las Vegas, Anchorage, Denver, and Orlando) and within challenging operating environments (New York City's Five Boroughs, the Washington, D.C. metropolitan area, and the Dallas–Fort Worth Metroplex), MV has unparalleled maintenance capabilities.

- **Technology Management and Design:** A leader in transit technology, our team offers service optimization through technology-driven analytics. We offer expert guidance and best practices in call center systems, planning tools, reporting solutions, AVL/GPS technologies, and on-board devices.

Technology Management

Over the past decade, MV's use of state-of-the-art transit software repeatedly enforces its strength in the management and oversight of its operations. This is further supported by the company's ongoing development of supplemental products that aid in dispatching and reporting.

We have used GPS enabled computer aided dispatch solutions to monitor our services. The company began use of NextBus in its fixed route systems, and MV began use of

GPS technology since it became available as an interface with major scheduling systems in the early 2000s.

Since this time, MV has gained experience in dispatch systems of all types and manufacturers and uses this technology in nearly all its locations. We work with leading manufacturers including Trapeze, Syncromatics, RouteMatch, TripSpark, Avail, Init, and many others.

Today, MV has a national agreement with Syncromatics which integrates GPS to provide tracking, reporting, and monitoring capabilities. This system integrates with our OneMV app to provide a seamless multimodal solution for our customers.

MV uses ancillary systems to manage specific on-board needs, including but not limited to:

- **Electronic Fareboxes:** We use several fare devices including Genfare, GFI Cents-a-Bill and Odyssey systems, Tap Cards, mobile ticketing, and other electronic swipe cards. MV also uses paperless fares in paratransit that allow passengers to pay for their trips via internet using an online account.

- **IVR:** MV has managed the installation, maintenance and/or operation of IVR systems at nearly all its large public transit operations. The company has worked closely with Mitel, its national call center IVR provider, to provide systems of varied complexity throughout its operations.

- **On Board Camera Systems:** MV launched its strategic partnership with DriveCam powered by Lytx in 2004. This onboard camera system is deployed in more than 8000 of MV's vehicles across the US. In many locations, MV's client supplements this system with onboard 24-hour rolling security cameras; among those systems that use this type of technology are MV's largest fixed route clients including, Las Vegas Fixed Route.

- **Collision Avoidance Systems:** In 2017, MV launched a national deployment of the Mobileye collision avoidance system. This technology identifies impending collisions and notifies the operator with an auditory warning of the issue – providing time to avoid the collision before it occurs.

- **Passenger Counting Systems, Voice Annunciators, and Ticket Collection:** Specific to passenger counting systems, voice annunciators, and ticket collection, MV uses these technologies in systems including LADOT, Las Vegas Paratransit, OCTA, Microsoft, Loyola, and Abbott Labs.

The company is committed to testing and using new technologies as they come on line. The ongoing evolution of transit technologies offers significant benefits to passenger and operators alike, and MV's goal is to maximize these efficiencies for all involved.

Corporate Headquarters

The firm is headquartered in Dallas, Texas, where MV's executive team is based, as well as all company human resource, public relations, legal, and IT departments. The address for the Dallas headquarters is:

MV Transportation, Inc.
2711 N. Haskell Ave
Suite 1500, LB-2
Dallas, TX 75204

The company also maintains support offices in Elk Horn, Iowa and Northern California.

2. Staff Experience

2. Staff Experience

Describe experience and expertise of individuals that will be assigned to Okaloosa County; include copies of resumes, certifications, and information concerning the specific program knowledge that will be brought to the County in the performance of the Scope of Services.

MV is excited to present a staffing structure that will support the County's public transportation services now and in the future. MV has worked and grown with hundreds of agencies, counties, and municipalities to support clients in both short term and long-term plans for their communities.

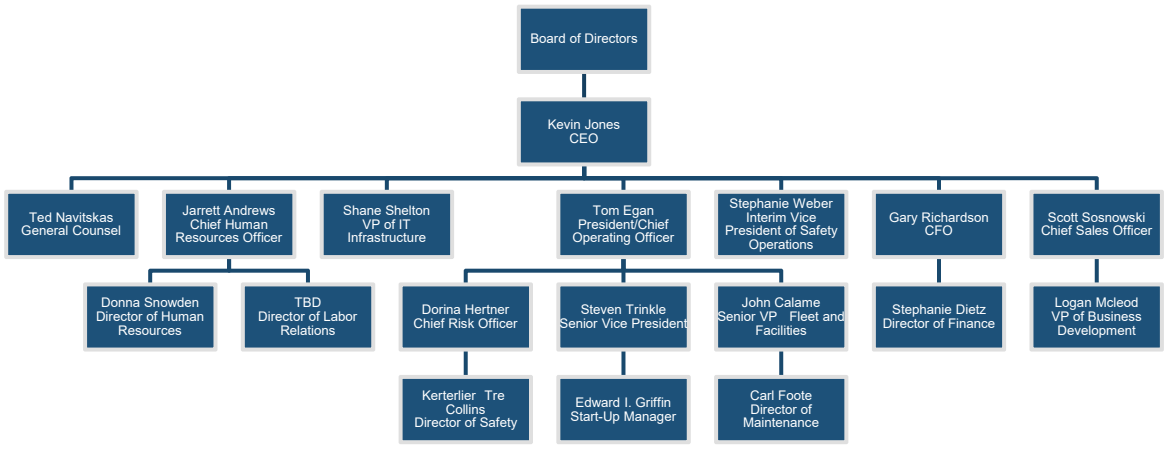
Organizational Structure

MV Transportation, Inc. is a C corporation that was incorporated in the State of California in 1978. The firm is headquartered in Dallas, Texas, where MV's executive team is based, as well as all company human resource, public relations, legal, and IT departments. We also maintain support offices in Elk Horn, Iowa and in Northern California.

Today, MV operates in 29 states, and through its subsidiaries, internationally. Within North America, the company has established operational regions, each with assigned support teams that comprise directors of safety, maintenance, and finance, and human resources.

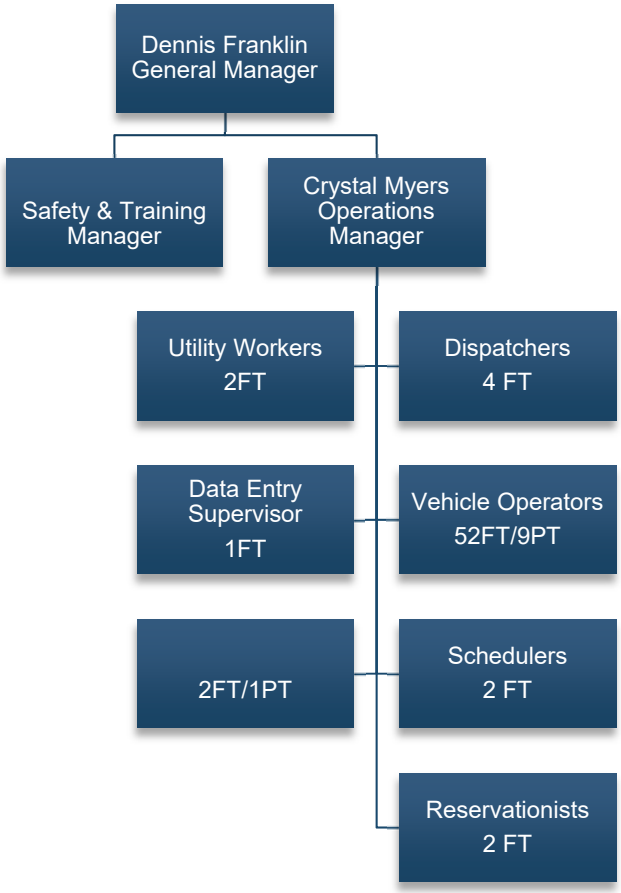
The County will have the ongoing support of industry experts who are empowered and authorized to make decisions on behalf of the organization. Leading MV's regional team is Senior Vice President Steven Trinkle; Steve reports directly to Chief Operating Officer Tom Egan.

The chart below illustrates the company's reporting lines and executive structure for this project:



Local Organizational Structure

Our local management team for Okaloosa's public transportation services will be led by our proposed general manager Dennis Franklin, operations manager Crystal Myers, and safety and training manager Sean Reilley. This tenured team brings a wide range of skills and transit operation experience, giving them the ability to handle any disturbance to the route quickly and efficiently.



MV understands a dedicated, long-term general manager is crucial to the success of this important service. If awarded, MV's proposed general manager Dennis Franklin is excited for the possibility of leading the team in serving the County. However, MV understands, if the County determines MV's choice for general manager is performing unsatisfactorily anytime, MV is prepared to replace the general manager with an interim or permanent manager who is approved by the County.

MV will train potential backup managers as replacement should the need arise and will be prepared to decrease interruption risks and to ensure service quality stays consistent. With this same goal, MV will cross train employees with training additional to their current position so that if ever needed, one staff member can fill in for another easily without interruption.

MV is pleased to propose the following management team for the County's public transportation operation. Please see our proposed local management team's resumes following this section.

Okaloosa Team Oversight

Edward I. Griffin, Start-Up Manager

Mr. Edward (Ed) Griffin will provide oversight support to the local management team, providing much insight due to his long-time experience managing MV's Florida operations and programs.

Mr. Griffin has supervised the MV's Gainesville, Florida operation since 2015. Ed has been an MV employee for 16 years and spent most of his tenure with the company as director of operations and vice president of business development. In those roles he worked with MV's clients and governmental decision-makers to promote the development of policy that is in the best interests of MV's transportation clients and the passengers they serve. He has brought his thorough understanding of paratransit operations and the Florida Transportation Disadvantaged Program to Alachua County and has been very successful in managing the division.

Mr. Griffin began his career as a Medicaid Administrator for the State of Florida, based in Jacksonville. Here, he was instrumental in the transition of Medicaid transportation services into the coordinated model, formalized by legislation in Florida in 1989. From 1993 to 1995, Ed served as general manager for the coordinated system serving Hardee, Highlands, and Okeechobee Counties. Following that he was a senior staff member of the Commission for Transportation Disadvantaged (CTD) for approximately six years. In this role, Ed provided technical assistance and oversight to the statewide community transportation paratransit program.

Ed also served as paratransit director at the LYNX transit system in Orlando and served as a Commissioner on the Commission for the Transportation Disadvantaged (CTD) for two years. He was also an active committee member in the Allocation Technical Working Group charged with developing formulas for the distribution of TD and Medicaid funds.

During his tenure as Technical Assistance Administrator for the CTD, Ed developed a series of operational studies focused on each county's paratransit service delivery and software system management. Results of these studies were used to assist the counties in improving productivity and on-time performance, while reducing staffing, call hold times and complaints.

Ed holds a Bachelor of Arts Cum Laude in Social Science Education from the University of North Florida in Jacksonville, with postgraduate work in Health Care Administration. He has also served as a Peer-to-Peer Professional for the Community Transportation

Association of America and the Federal Transit Administration – Intelligent Transportation Systems. Since 2007, Mr. Griffin has served as both president and vice president of the Florida Association of Coordinated Transportation Systems, (FACTS), and currently serves on the Executive Committee.

Ed is currently a working member of The Florida Agency for Persons with Disabilities (APD) Transportation Task Force. APD was directed by the Florida Senate to contract with an independent consultant to examine the state's transportation disadvantaged services (TDS), how such services are provided in urban and non-urbanized areas and how to assist in the development and use of different provider models. APD subsequently engaged the University of South Florida's Center for Urban Transportation Research (CUTR) and Ed is part of the group formulating a report for the Senate.

Ed received the Florida Commission for the Transportation Disadvantaged Bell Lifetime Achievement Award in 2018. With nearly 30 years' experience in the Florida public transportation arena, Mr. Griffin has earned respect for his extensive knowledge of operations, grant writing and customer service.

Local Management Team

Dennis Franklin, General Manager

Mr. Dennis Franklin is MV's proposed general manager for the County's public transportation services. Dennis currently serves as a safety manager for MV. Based on his excellent performance in his current role, MV will promote Dennis to this dedicated role with Okaloosa County.

Dennis brings a background in healthcare, making him an outstanding choice to lead our Okaloosa team. From 2003 to 2008 he served as an authorization manager for Physicians Regional Medical Center, and later moved on to become an admissions director for HCR Manor Care.

Dennis brings an outstanding record of accomplishments. He has worked tirelessly to constantly improve our safety and security program and promote the safe operation of service. Dennis oversees all MV-provided onboard technologies, including Zonar, Timepoint, DriveCam, and Mobileye. He leads all safety initiatives, performing incident investigations, hosting safety meetings, and working closely with our corporate risk management team. His recent accomplishments include a helping to reduce the number of preventable accidents from 1.14 to 0.81 through awareness initiatives, having an instrumental part in getting the division to 85% operational one day after the eye of

Hurricane Irma made landfall, increasing on time performance for fixed route from 87% to 91.2% and 90% to 93.8% for paratransit in four months.

Prior to joining MV in 2015, Dennis worked as a Correctional Officer for the Florida Department of Corrections in Ft. Meyers.

Please see Mr. Franklin's personal statement for the County following this section in addition to Collier County's Letter to MV's COO recognizing Mr. Franklin's commitment and management style.

Crystal Myers, Operations Manager

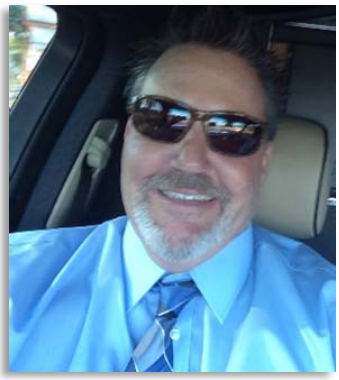
Ms. Crystal Myers is MV's proposed operations manager for the operation. She brings over 23 years of experience in leading, motivating and providing vision to operations, administration and process development in the transportation industry. She has been recognized as a leader of knowledge, training and management of teams ranging from 3 to 60 employees, with annual budgets of $2.6M to $3.2M.

As the current administration manager for the Okaloosa public transportation operation, Crystal is responsible for managing all documentation, computer databases, reports, personnel, billing, and invoicing. As the system administrator for the County's software systems, Crystal assisted IT with the installation and implementation of transit software and currently manages IT securities and user accounts. Ms. Myers is responsible for all hiring of new employees, HR needs, and all agency compliance documentation for operators, and management of employee records. She has detailed knowledge of all department processes/procedures and can train all employees for any position.

Ms. Myers has been with the Okaloosa County Transit's operation since 2002, starting as a billing supervisor and data analyst. Recognized by her work, Crystal was promoted through the years to administrative assistant, assistant general manager, and now to administration manager.

Please see Ms. Myers' personal statement for the County following this section.

Sean Reilley, Safety and Training Manager



MV is pleased to propose Mr. Sean Reilley as the safety and training manager for the County. Mr. Reilley has an MV employee since 2015 and has area knowledge in road supervision, operations, and safety. He is currently working at MV's Baton Rouge location facilitating all driver meetings, training, and refresher training. He ensures MV driver behaviors are compliant with MV, client, state, and federal regulations. Ensuring a safety-first culture, Mr. Reilley is responsible for recruiting and hiring only the safest, most reliable operators.

Prior to his position as safety and training manager in Louisiana, Sean worked as an MV road supervisor at Collier Area Transit. In this position he focused on mobility securement, passenger sensitivity, mentoring drivers, and ensuring all ADA regulations were met. Mr. Reilley implemented policies and procedures to assist the safety and training manager in accident investigations and accident prevention. Lastly, with extensive area knowledge, Sean was able to assist new Collier operators in understanding the area, traffic patterns, and the safest way to manage difficult situation.

Mr. Reilley is a trained corrections/DOT officer, employed in Fort Myers from 1999 to 2014. As a senior officer, he was responsible for the safe transportation of inmates to and from work assignments and off-site excursions.

Please see Mr. Reilley's' personal statement for the County following this section.

Regional Management Team

Steven Trinkle, Senior Vice President

Mr. Steven Trinkle brings 25 years of management and leadership experience to this project. He provides direct support to local management in strategic planning, optimizing operational efficiencies, and overseeing budgets. Steve is responsible for overall contract compliance.

Steve joined MV in 2018 as the senior vice president for the Southeast region. He has successfully managed of a variety of contracts, serving diverse agency groups across the country. Steve will be available to meet with the County as needed.

Prior to joining MV, Steve was the vice president for DXC Technologies, where he was responsible for ensuring continued service integrity, as well as achieving business and operational goals, throughout the merger between HP and Computer Sciences Corporation. Before this, Steve served as vice president for Hewlett Packard Enterprises, where he oversaw client operations across the nation, including managing innovation programs and coordinating cost reduction programs.

Steve holds a Bachelor of Science degree in Industrial Engineering from Wichita State University.

Kerterlier "Tre" A. Collins-Machen, Director of Safety

Ms. Kerterlier A. Collins-Machen brings nearly 20 years of safety management experience to her role as director of safety. Tre enforces compliance with regulatory and company safety policies and tracks operational performance. She is responsible for the implementation and monitoring of safety programs throughout her region.

Ms. Collins-Machen joined MV in 2014 as safety and training manager for its paratransit operation with the Dallas Area Rapid Transit (DART). Here, she was responsible for the safe operation of more than 200 vehicles, plus those operated by subcontractors. Under her leadership, this operation experienced significant improvements in preventable accidents (by 37.27 percent), third party claims (by 45 percent), and incident frequency/workers comp (by 45 percent).

Before joining MV, Tre was the fleet distribution manager for the North Central Region representing Avis-Budget Group, LLC. In this role, she oversaw four states comprising more than 150 employees and 20,000 vehicles. Tre provided regional and local support, managing accident investigations, leading quarterly safety meetings, and overseeing vehicle licensing, policy development, and monthly reporting. She collaborated with departments to ensure appropriate fleet distribution, while identifying trends.

Stephanie Dietz, Director of Finance

Ms. Stephanie Dietz is MV's regional director of finance for the Southeast region and brings 14 years of finance experience in the transit industry. She is specifically responsible for supporting the County with functional accounting for its operations. She ensures accurate month-end financials, monthly reports, forecasting budgets and financial analysis as well as audits.

Stephanie joined the MV Transportation family in 2004 as an accounting manager and has been very successful with reporting and overseeing accounts payable and receivable functions, as well as preparing operational and financial audits for the industry.

Stephanie is well educated in administrative functions as well as Trapeze Reservations, Trapeze Trip Edit, Trapeze Reports, Payroll Edit and Spider Reports training as well as Reasonable Suspicion Training for Drug and Alcohol Testing.

Job Descriptions

Vehicle Operators

Vehicle operators are the critical interface to passengers and must appropriately represent the County. MV operators have a safety-first attitude, a professional and caring demeanor, and excellent people service skills. Vehicle operators respectfully and professionally respond to customer inquiries, providing information about the service and specific routes, as needed. Upon consent, operators respectfully assist passengers as they board the vehicle and aid those who agree to assistance in securing their mobility device.

The primary responsibility of the vehicle operator is to transport customers while adhering to safety regulations, traffic laws, operating policy, and scheduled time points. Fixed route operators are trained in the system routes, and are fluent in providing information regarding major stops, transfer points, and schedule information.

Paratransit operators are provided strict training in ADA regulation and are specially trained in passenger handling and those disabilities which may prevent a passenger from riding paratransit.

When operators report to work, they check in at dispatch, obtain their manifest, and vehicle assignment. Then, they proceed to the yard and perform a pre-trip inspection, coordinating with the yard supervisor and/or maintenance team to correct any safety

issues discovered. Once the pre-trip checklist is complete, operators are cleared for pullout.

All MV operators are trained in on-board technology, including MDTs, and must demonstrate proficiency in all dispatch communication procedures. Vehicle operators coordinate with dispatch regarding no shows, late cancellations, changes to manifests, vehicle malfunctions, accidents, and/or other disturbances.

Upon return to the yard, vehicles operators perform a post-trip inspection and submit all completed paperwork to dispatch.

General Manager

The general manager is the daily operational liaison between MV and the County. This person is MV's field representative and the County's advocate. This person must work in partnership with the County staff, the local team, MV's corporate support personnel, and the riding community to realize the mission and vision of the County's public transportation services.

This person is responsible for the safe and high-quality operation of the transit system. This responsibility encompasses all efforts defined within the scope of work, including safety, training, maintenance, personnel oversight, operating performance, data collection, reporting, community relations, budgeting, accounting and finance, local purchasing, adherence to policy and procedure, contract administration, and more.

It is of utmost importance that the general manager and the County representatives have a productive and valuable working relationship. As such, MV will accommodate the County's requests relating to personnel changes pursuant to this contract.

MV's general manager will meet with the County staff often to provide updates on service quality, performance numbers, possible trends, and/or other statistics requested. In order to improve the ongoing education and training of its management team, MV requests that general managers attend periodic conference calls, training sessions, as well as regional and national meetings hosted by MV's support team.

Operations Manager

The operations manager is the daily liaison between MV's local field personnel and local management team. This person oversees the safe and efficient operation of daily service, in compliance with the County policy and in conformance with MV standard operating procedures.

The operations manager is key to effectively managing customer relations. They make certain all employees understand their roles and responsibilities, can do their jobs, are highly motivated, and coach and counsel as needed to accomplish assigned tasks.

The operations manager reviews all logs and paperwork from the dispatch office and ensures all operator and supervisor shifts are covered. They work closely with dispatch and the reservation office to confirm that vehicle operators are properly supported. This individual monitor service and confirms it is delivered on time and meets passenger expectations.

The operations manager assists in human resource functions, manages employee files, and monitors attendance records. They hold responsibilities in the complaint investigation process, serving as an additional liaison to passengers, clients, and community members. They may be asked to represent MV in community meetings, coordinate events with local charities, and/or organize volunteer efforts from MV's local operation.

Safety and Training Manager

This position is responsible for the location's safety and training program and the daily operation of the transit system. They confirm compliance of the County and MV procedures. They support the general manager in the operational functions of this contract.

The operations/safety training manager ensures all safety manuals, programs, policies, and practices are current and effectual. To accomplish these tasks, they use available safety technology tools to monitor safety performance; they analyze data and develop plans to prevent future safety incidents. They are the resident expert in in EPA, OSHA, and CDL compliance and regulations.

The execution of corporate safety incentives and monitoring programs also fall to the operations/safety training manager. This position coordinates with MV's regional safety team to deploy MV's training program. The creation of a consistent safety culture through emphasizing employee individuality and collective responsibility is the most important duty.

The manager establishes the schedule and curriculum for on-going training. The operations/safety and training manager maintains all training documentation in the employees' file.

Data Entry Supervisor

In the Florida model, which is nationally recognized as a model for coordination, the inclusion of several funding streams is vital for Community Transportation Coordinators (CTCs) to meet the goals of the Commission for the Transportation Disadvantaged (CTD). As the CTC for Okaloosa County, the County has done an excellent job in including several funding streams into the system. The challenge, however, is that each

funding entity has different invoicing, reporting and credentialing requirements, which provides for additional resources necessary to ensure the requirements are being met.

MV will designate a data entry supervisor that will have the primary responsibility of assembling the data necessary to meet the County's needs in invoicing the various funding streams, and particularly monitor the credentialing and billing formats of the Medicaid Transportation Brokers that are part of the system. Since these entities vary significantly from the mainstream funding streams, including 5311 and TD, it is very important to have a supervisor that will compile the necessary data for review by the General Manager to ensure accountability in reporting and invoicing, MV has vast experience is this arena and has support personnel that can train the person designated for this role and provide ongoing support to the County and local MV team.

Dispatcher

The dispatcher directs all on-road operations that occur from daily pullout to return-to-yard. This position coordinates with vehicle operators while in service in order to monitor operations status, mitigate delays, and assist in resolving service disruptions.

The dispatcher supervises operators, manages report times, assigns vehicles, and distributes bulletins and other information. They are trained in reasonable suspicion and are responsible for assessing fitness for duty.

This person acts in compliance with the County policies in accordance with MV operating procedures. The dispatcher monitors service delivery via radio/real-time GPS throughout the service day, working closely with operators and road supervisors to efficiently respond to service needs, including accidents and on-board emergencies.

The dispatcher coordinates standby and extraboard operators in the event that an operator does not report on time.

Road Supervisor

The road supervisor monitors the safe and efficient operation of all vehicles in the field. This ensures a high-quality service.

The road supervisor is strategically placed within the service area to minimize response time. They are dispatched to the scene of any breakdowns, incidents/accidents, etc.

This person conducts gate checks to ensure on-time service, and monitors the proper completion of necessary paperwork, including manifests and pre- and post-trip inspections. They assist in incident preventability determination by making recommendations for future training based on individual events or system trends.

Reservationist

The reservationist answers phone calls and interacts with passengers booking trips. This position manages trip request intake using the Trapeze PASS and scheduling those trips at the time of the call. They use preset Trapeze PASS templates to aid in this process.

Reservationist provide superior customer service and are professional, patient, and responsive at all times. The proficient use of Trapeze PASS minimizes call time and hold duration.

The reservationist accesses trip requests for both demand and subscription service. When necessary, they negotiate trip times as permitted by the ADA and the County's policy. They document denials as required.

Scheduler

The scheduler creates, refines, and optimizes routes to maximize on-time performance and productivity. The goal is to always meet customer expectations. The scheduler is proficient in the use of the Trapeze software and its best use practices. They create initial routes in Trapeze and make adjustments for improved performance. They also manage subscription schedules.

To obtain feedback on system performance, schedulers work with dispatch and reservation teams. This position also evaluates Trapeze templates and makes recommendations.

Utility Worker

Utility workers make certain the County's fleet is cleaned and fueled to the specifications outlined in the ITN. These persons work primarily at night in assembly-line fashion ensuring the fleet is prepared for the next day.

The utility worker completes minor graffiti removal maintains and seat upholstery repair. They perform preliminary vehicle inspections; checks various fluids including the oil, water, and fuel levels; and inspects the hoses, belts, batteries and similar equipment.

The utility personnel will support shuttling the vehicles between facilities for maintenance, fueling, and vehicle wash.

Management Resumes

CONFIDENTIAL

Edward Griffin

Start-Up Manager

Mr. Edward "Ed" Griffin is MV's start-up manager for the Okaloosa County Fixed-Route and Paratransit Public Transportation Services.

Experience

General Manager, MV Transportation, Inc. (Gainesville, FL)
2015 to Present

- Manage customer relations through both direct contact and outreach programs
- Oversee vehicle maintenance plan and ensure fleet availability to meet service requirements
- Oversee safety and training programs, plans and processes to ensure compliance with company, contract, and regulatory requirements
- Maintain client contact routinely to ensure MV meets or exceeds expectations
- Conduct periodic departmental audits
- Perform daily, weekly and monthly review of key operational metrics
- Manage financial metrics

Vice President of Business Development, MV Transportation, Inc. (Orlando, FL)
2003 to 2015

- Led business development for Medicaid Brokerage Mgmt. and Florida Operations
- Liaised with State agencies, government officials for MV contracts
- Worked with paratransit operations to identify and resolve challenges

Director of Operations

- Supported the general managers in his area of responsibility
- Liaised with client
- Ensured client satisfaction and contract compliance

Deputy Director of Operations Service, Central Florida Regional Transportation Authority (LYNX) (Orlando, FL)
2002 to 2003

- Oversaw $17M annual contract for coordination of paratransit services through a three-county urban area
- Planned and facilitated the development of an entirely new paratransit model for the region, including procurement of a new contracted operator with a national reputation, a new transportation management software application, and a new system giving LYNX more accountability for the program, including enhanced screening and eligibility programs
- Provided extensive outreach to the community, customers, and funding partners to secure adequate funding for the new model as well as political support
- Worked extensively with state and local government officials, providing policy evaluations of pending bills that affected the transit authority as well as its status as the Community Transportation Coordinator (CTC) for the area
- Successfully renegotiated provider contract to provide more consistency in service provision and financial stability for the Authority Served as key liaison to LYNX Board of Directors, Local Coordinating Board (LCB), LYNX Transit Advisory Committee (TAC), and the State of Florida Commission for the Transportation Disadvantaged

Edward Griffin

Start-Up Manager

Technical Assistance and Training Administrator, Commission for the Transportation Disadvantaged, State of Florida (Tallahassee, Florida)
July 1996 to January 2002

- Led staff for FTA funded Rural Intelligent Transportation Systems (ITS) pilot project for inter-county coordination of services and development of technology deployment for increased system productivity and demand estimation and management; project was published as Best Practices model by FTA
- Represented project on several presentations at Rural ITS conferences throughout nation
- Administered and provided technical assistance and training to Community Transportation Coordinators and Planning Agencies that were contracted with the Commission for the delivery of transportation services throughout Florida
- Supervised three staff responsible for contract management and monitoring, technical assistance, training, outreach, and program planning and development
- Developed and maintained the Commission's website as an information resource for contractors and the community
- Served as lead staff to several committees dealing with policy and program development
- Developed training modules for presentations throughout the state, and represented the Commission on several panels and presentations in Florida and throughout the nation
- Developed prototype for operational review of delivery systems, and conducted several studies to assist systems in improving operational efficiencies and developing new service delivery models

General/Project Manager, Comsis Mobility Services, Inc. (Orlando and Sebring, Florida)
June 1993 to July 1996

- Served as general manager overseeing a management services contract for an urban paratransit program in Orlando comprising more than 2000 trips per day
- Managed coordinated transportation system serving seniors, persons with disabilities, and other passengers considered "transportation disadvantaged" for a three-county rural area
- Supervised more than 30 staff responsible performing client registration, trip request intake, and trip scheduling
- Monitored carrier service delivery, all call center intake and dispatch activity, and accounts payable/receivable
- Monitored compliance with all state, federal, and local transportation regulations
- Developed service plans, system safety plans, and Request for Proposals (RFPs)
- Contracted with multiple funding sources
- Managed computer network administration and community outreach
- Represented company with Local Coordinating Board

Agency for Health Care Administration – Medicaid Program, State of Florida (Jacksonville, Florida)
August 1989 to June 1993

- Provider Relations - Contract Manager and professional representative for District Medicaid Office for transportation and HMO services; represented Medicaid in all transportation issues involving providers, Local Coordinating Boards, and Community Transportation Coordinators in a seven county area; reviewed and monitored all service contracts and negotiated rates; served as trainer and claims troubleshooter for providers; and inspected HMO provider sites for compliance with standards

Edward Griffin

Start-Up Manager

- Consumer Relations – Supervised 10 staff responsible for prior authorization of transportation services for Medicaid recipients; negotiated with providers for rates for services and monitored providers for compliance with standards; provided instructional seminars for State employees and the community
- Managed Health Care – supervised unit responsible for service authorization of enhanced services for Medicaid recipients; served as Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Coordinator of children's services; developed and monitored case management procedures used by Medicaid providers; trained case management staff and developed statewide case management monitoring tool; and recruited service providers

Education and Training

University of North Florida, Jacksonville, FL
- Bachelor of Arts – Social Science Education

Professional Affiliations and Awards

- Peer-to-Peer Professional: Community Transportation Association of America and Federal Transit Administration - Intelligent Transportation Systems
- Governor's "Points of Light Award" – 2008
- Commission for the Transportation Disadvantaged "Bell Lifetime Achievement Award Finalist" – 2009
- MV Transportation – "CEO Award" 2007
- Past Commissioner – Florida Commission for the Transportation Disadvantaged
- President/ Vice-President – Florida Association of Community Transportation Systems (FACTS)

CONFIDENTIAL

Dennis Franklin

General Manager

Mr. Dennis Franklin is MV's proposed general manager for the Okaloosa County Fixed-Route and Paratransit Public Transportation Services.

Experience

Operations Safety Manager / Floating Assistant General Manager, MV Transportation, Inc. for Collier Area Transit (Naples, FL)
2015 to Present

- Increased on-time performance for fixed route from 87% to 91.2% and increased paratransit on-time performance from 90% to 93.8% in four months.
- Reduced the number of preventable accidents from a 1.14 to 0.81 through awareness and initiatives
- Monitor driver behavior for compliance to client, MV, state and county regulations and procedures.
- Manage a fleet of 27 fixed route buses and 36 paratransit vehicles.
- Created runcuts for both fixed route and paratransit.
- Investigate and report all accidents, incidents, and complaints.
- Complete and review payroll for drivers and staff for accuracy and FDOT 14-90 rule violations.
- Maintain vacation schedules for drivers.
- Responsible training new employees and re-trains as needed.
- Monitor all systems that track driver activities. (Zonar, Timepoint, DriveCam, etc.).
- Conduct timely reporting and tracking of all MV assets, so all maintenance is completed on time.
  - Attend regular training and maintained appropriate certifications. Received recognition for overseeing operations during a recent wildfire event in our area.
- Act in the capacity of a "floating" assistant General Manager to fill in at other divisions as needed
  - Traveled to Jacksonville NC to assist with analysis and rebuilding on-time performance. Assisted the new General Manager with re-organization of the division to increase customer satisfaction as well as financial performance.
  - Currently traveled to Cary, North Carolina to assist the new General Manager in route management, recruitment, employee retention, fleet maintenance, increasing on-time performance, as well as financial performance. Reviewed all operational areas and identified areas of improvement as well as policy development to maintain accountability.

Correctional Officer, Florida Department of Corrections (Fort Myers, FL)
2008 to 2015

- Monitored inmate behavior to prevent crime.
- Safely transported inmates to and from work sites.
- Maintained records and logs of hours, materials and equipment used.
- Conducted pre-trip and post-trip equipment inspections of transport vehicles and equipment. Wrote daily reports that included recommendations for further treatment strategies and diagnostic efforts.
- Maintained daily logs of shift activity.
- Attended regular training and maintained appropriate certifications.

Admissions Director, HCR Manor Care (Naples, FL)
2008 to 2008

- Managed team of 14 professionals.

Dennis Franklin

General Manager

- Directed strategic initiatives to achieve optimal admissions.
- Executed integrated advertising campaign across multiple media channels.
- Initiated program and standardized employee training.
- Increase in customer satisfaction by 19%.

Authorization Manager, Physicians Regional Medical Center (Naples, FL)
2003 to 2008

- Participated in a unit-based Q & A program.
- Prepared for HIPAA and JCAHO reviews, ensuring required documentation are in patient's charts.
- Maintained all confidential personnel files, licensing, and CPR compliance records.
- Organized, updated and maintained over 200 patient charts.
- Ensured HIPAA compliance.
- Observed strict confidentiality and safeguarded all patient-related information.

ACH Coordinator, First National Bank (Naples, FL)
1999 to 2003

- Monitored and tracked securities transactions, fund transfers, margin accounts, and option trading.
- Researched banking guidelines and statutory requirements to remain updated on laws and applications.
- Maintained all wire transfers.
- Responsible for the processing and balancing of over 750 million dollars of daily transactions.

Education and Training

- Supervision and rehabilitation of inmates daily as well as during road, right away encroachments and guard rail maintenance.
- Senior officer responsible for safe transport of inmates to and from work assignments and other excursions.
- Equipment inspections and daily reports.

Education and Training

SWF Criminal Academy of Justice

- Associate of Science degree in Criminal Justice

Management Dedication Letters

MV Transportation, Inc

October 20, 2018

Dear Okaloosa County Selection Committee and Riders,

My name is Dennis Franklin, your future general manager. My management style and philosophy centers around my employees and the people who I believe serve as mobility ambassadors for your community. I passionately believe in utilizing the strengths of all members of my team. Each person brings unique skill sets that are valuable to ensure we operate a safe, reliable, and efficient service. It is important to me that I recognize those skills and continue to work with employees to develop a succession plan that prepares them for the next level in their transit career. A General Manager should always be developing his management staff so that in the event he or she cannot be there; others can assume those responsibilities and effectively run the system.

My approach to managing an operation focuses on four major areas of importance:

Safety

This is the number one concern of mine since your rider's well-being are my priorities. Safety has been instilled in me as I served for the United States Army as a Military Police Officer. I have developed a Driver's Boot Camp to go over and behaviors and trends that start to arise. I feel it is imperative to be pro-active versus reactive. All drivers must attend all training, refreshers, as well as Safety Meetings. I constantly analyze the systems in place to track the driver's behaviors at least twice per day and expect my staff to do as well. I believe that education can eliminate some of the risky behaviors and reinforce driver accountability.

Customer Satisfaction

Most of your riders depend on these services to effectively reach their final destination. Whether that is a doctor appointment, dialysis center, or simply getting to work; your riders deserve the best treatment whenever they are riding the system. It doesn't just start and stop when a passenger board or disembarks the bus. Customer satisfaction starts with the initial phone call.

How we handle complaints is also an area in which customers feel neglected at times. I have initiated at my locations an email notification when the initial complaint comes in. A tracker has also been created, and each complaint receives a number that is followed up on until the complaint has been resolved. There is no minor complaint, and each is investigated equally. A return phone call to the complainant is mandatory on all findings. Drivers are re-educated every month at the safety meetings on customer service, and the importance of a clean, wrinkle-free, shirt tucked in the driver. Appearance is the mark of a professional driver. Our customer service training will be based on the principle known as the Platinum Rule – do unto others as THEY would like to be treated.

On-Time Performance

Drivers should be held accountable for all early and late trips that could have been avoided. At the start of the contract, each driver will receive initial training on how to perform their position and how to effectively run their routes. I have created a customizable daily report where dispatchers are required to document breakdowns and routes that are running behind. There is a section in the report where the dispatchers are required to provide explanations for why these issues occurred. If the technology is capturing the information incorrectly, this needs to be acknowledged, and the information needs to be sent to the appropriate people immediately. The problem will be reviewed, and a solution will be recommended on how to address the problems in the future so that they are not reoccurring.

Route Planning and Development

As the current Operations Manager at CAT, I have drivers meet with the client every six months to review each fixed route schedule. We discuss timing, timepoints, no safe places to dwell, traffic patterns, and any possible recommendations that will improve service performance. This has proven very successful in bringing the line drivers to the table so that they can explain what they see and what issues they are having with each route. The drivers also bring recommendations from the passengers that they have been told to see if service expansion is needed.

I create two-run cuts a year for both services. This allows me to make sure that there are enough drivers to cover the entire system. I believe the most effective way to run the system is to break the monotony and complacencies of repeating the same routes every day. This also allows for a balance between passenger per hour, on-time performance, as well as customer satisfaction.

I work closely with our neighboring county to identify transfer points that allow passengers to access all the local area transportation. It is key and vital to have an open conversation as well as a well-developed plan to make sure that all parties can connect efficiently and on time. Currently, we connect four different times, and this allows minimal resources on both services.

It has been a fulfilling experience working in this industry for the past three years. I believe my knowledge of the industry, as well as my experience in managing other systems, will bring value to Okaloosa County and its transit rider community. I look forward to the opportunity to meet you and hopefully work with you shortly.

Respectfully,

Dennis Franklin

Crystal S. Myers
1892 Greystone Ln Fort Walton Bch, FL. 32547
850-259-2539 cmyers2222@gmail.com

October 11, 2018

Dear Okaloosa County Selection Committee,

I have been dedicated to the transit system and its riders in Okaloosa County for more than 23 years. Working my way from driver to manager and holding positions in every department, I have the experience, knowledge, and history of this transit system to be successful in this position. I have seen where this system started, how much it has grown and the vision of what it can become. I believe these three areas must be diligently managed for the system to be successful: Operations, Workforce and Customer Service.

Operations' ability to flourish is dependent upon a well-trained staff and leadership that is knowledgeable, experienced and dedicated to all aspects of the transit system. My accumulated experience and training have made me into a well-rounded manager. These are the areas that I excel in:

- I am the systems administrator for the software system Trapeze currently being used in Okaloosa County. Using my knowledge of the software and inter-workings of the system I can assist in the training of the staff and apply critical thinking skills to achieve first-rate problem-solving.
- Strong managerial and oversight skills. Co-development of the counties data analysis and invoicing format.
- Monitoring Transportation Disadvantaged grant funds usage
- Logisticare compliance
- Ensuring Compliance with DOT and FTA rules and regulations
- Operating cost reductions
- Continuous evaluation and monitoring of operators and staff performance are paramount.
- Finding free State and Federal Audits
- Operating reports On-time performance, Monthly Service Reporting AOR, CTD

Our workforce is our greatest asset. In my experience, a good manager can evaluate and see each employee as an individual. Using a more transformational management style will motivate employees to do more than they originally intended and often more than they thought possible, thus achieving higher performance. Your employees will have a common goal and develop a strong sense of team allowing a predominate autocratic management style to be implemented. Giving clear, concise direction and expectations leave no doubt as to the direction of the mission. Their combined efforts can be measured in terms of revenue, profit, and growth making development and expansion of the system possible.

Good customer relations are the face of any public service. It is my goal that any operator or staff member that comes in contact (physically or verbally) with the client conducts themselves with complete professionalism. Our system must be dedicated to the client and his or her needs. Customer service and sensitivity training will be a continuous occurrence.

Thank you for taking the time to read this letter. Transit is more than a job for me. I have been recognized by supporting county agencies as a true asset to the county system. My dedication and perseverance are proven year after year.

Respectfully,

Crystal S. Myers

Re: MV Operations Management Team- Braian Morales, GM; Jose Vargas, Operations Manager; and, Dennis Franklin, Training and Safety Manager

Dear Mr. Egan and other concerned,

I have had the opportunity to work with the MV Transportation management team for a little over a year. I wanted to express recognition of a job being well done to your corporate team.

Braian Morales, GM, was assigned to this location about 3 months prior to my arrival at Collier County Transit. The service was in complete disarray during this time due to issues with the two general managers that preceded Braian.

Braian was and still is instrumental in improving the working environment for all MV Employees. He immediately impressed me with his strong character and commitment to excellence. He brought the local MV management and supervisory team together to start improving the quality of service delivery. Braian did a wonderful job handling the lack of management support from the vendor that provided call center, scheduling, and dispatching services. The MV Team hurdled many operational issues to achieve their operational requirements and goals. Many times, this required the MV Team to do more than their contracted requirements to ensure the success of the whole transit system.

I also want to recognize Jose Vargas and Dennis Franklin. MV Transportation is lucky to have managers that have their commitment. I want to point out that MV was not doing well operationally when I arrived on the scene. I set a tone that demanded improved quality of service. There was a great deal of apathy or an attitude of indifference. Braian and his team heard me loud and clear and did everything that could be expected to improve the system.

Jose Vargas is one of the kindest and supportive individuals that I have ever met. He demonstrates caring support to all MV employees. He worked incredibly long hours to assist drivers, handle operational events and respond to customer issues.

Braian would not have been successful without the support of Dennis Franklin. Dennis was instrumental in more than training. He helped with every management task as needed. He was working 16-hour days, 80 to 90-hour weeks. Dennis cares deeply about the success of MV Transportation. More importantly, Dennis cares most about the passengers and drivers. Dennis implemented training for drivers for corrections to service delivery. Dennis is also technically advanced. He understands the transit hardware and applications and helped resolve issues with many of the systems we used. Dennis was also a key part of our planning process to improve CAT Fixed Routes.

The whole MV Team responded to the Hurricane Irma event in admirable fashion. Braian was able to facilitate every task that I asked for. We were able to restore fixed route service, conduct paratransit medically necessary trips and support Collier County recovery operations within 24 hours after the storm ended. These actions have been recognized by the Collier County Commissioners, County Staff and the residents themselves. Many passengers stated how important it was to see the bus system return to service to help them return to normalcy.

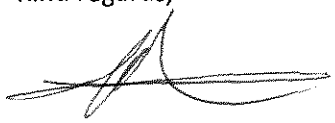
Braian ran into staffing trouble in the late fall that affected service. On-time performance dipped, and we missed many paratransit trips. There were many variables that contributed to these issues that were outside of Braian's control. Braian worked with the corporate team to improve compensation and benefits for the drivers. This was the first step to recruiting staff. Dennis did an excellent job running training classes around the clock to deploy drivers to service.

The fixed route on-time performance has improved from an average of 78-79% to 88-89%. This is a huge accomplishment for any fixed route service. There was an issue with routes running early and Braian has implemented driver training to resolve this. His efforts should be recognized for reducing the exposure for liquidated damages for running early.

The paratransit service has improved on-time performance from 81-82% to over 93% on-time. The drivers are following ADA required procedures and documenting trip information correctly. I do not believe that there has been a missed trip for over a month. I know that Braian has a recognition barbeque for drivers not having accidents- I think that the drivers should be rewarded with a steak dinner for these accomplishments.

MV Transportation, Inc. should appreciate the quality of the MV management team assigned here to Collier County. I hope you can take a moment to recognize how caring and committed to quality these men are. I hope that your team keeps up the good work and progress toward excellence.

Kind regards,



Matt Liveringhouse
Public Transit Manager
Collier County, FL

Provide a detailed listing of all contracts services awarded to your firm during the last ten (10) years for the provision of public transportation services that includes the names of the entities (City, County, etc.); amount of contract; work description; administration responsibilities; and whether the service was performed within budget. Respondents are reminded they must state the levels of service provided to any entity listed in accordance with Section 1.5.

MV has provided a listing of all contract services awarded to MV during the last ten years following this section. However, contracts most similar to the county have been listed in detail in Section 4. References, including pursuant to section 1.5 performance measure the level of service for each reference.

Please see MV's awarded contracts (for the past ten years, as required) following this section.

MV acknowledges our full understanding that the selected contractor must meet the following performance standards:

- On-time performance of paratransit service consistent with the *Goal of Transportation Development Service Plan*. Our current performance standard level is at 90 percent, which can fluctuate from time to time.
- Maintaining a minimum of 1.7 riders per revenue hour for paratransit service monthly.
- Performance of fixed route service consistent with Title VI Plan. Current performance standard is set at 85 percent, which is subject to change from time to time.

Martin County Public Transit, Martin County (Stuart, FL)

MV began operating deviated fixed route, fixed route, and ADA paratransit services for Martin County in 2012. The fixed route service operates on two routes serving the City of Stuart and connecting Martin County and St. Lucie County. The deviated fixed route service operates on one route serving the Indiantown area. The paratransit service is a demand-responsive, advanced-reservations service for eligible persons with disabilities.

MV is responsible for eligibility determination, trip reservations, scheduling, and dispatching, using the StrataGen system. Dispatchers communicate with operators in service through Mentor Ranger mobile data terminals. MV operates a fleet of 10 gas and diesel vehicles, which is maintained by a local vendor.

Please contact Claudette Mahan, Transit Manager, Martin County Board of County Commissioners, at cmahan@martincounty.fl.us and (772) 419-4081 as a reference for this contract.

Collier Area Transit and Collier Area Paratransit, Collier County Board of County Commissioners (Naples, FL)

MV began operating fixed route and paratransit service for Collier County in 2016. The County serves as the designated CTC. Its duties are administered by the Collier County Public Transit & Neighborhood Enhancement (PTNE) Division.

The fixed route service, known as Collier Area Transit (CAT), operates on 18 routes, including one express route. MV operates and maintains 23 Gillig vehicles, including gas and hybrid diesel/electric fuel types.

Collier Area Paratransit comprises a fleet of 23 cutaway vehicles. Service is operated through a number of funding sources, including the State Commission for the Transportation Disadvantaged, Americans with Disabilities Act Federal grant, local and state funding and grants.

Maintenance functions are performed by a maintenance vendor.

Please contact Michelle Arnold, Director of Alternative Transportation Modes at michellarnold@colliergov.net and (239) 252-5841 as a reference for this contract.

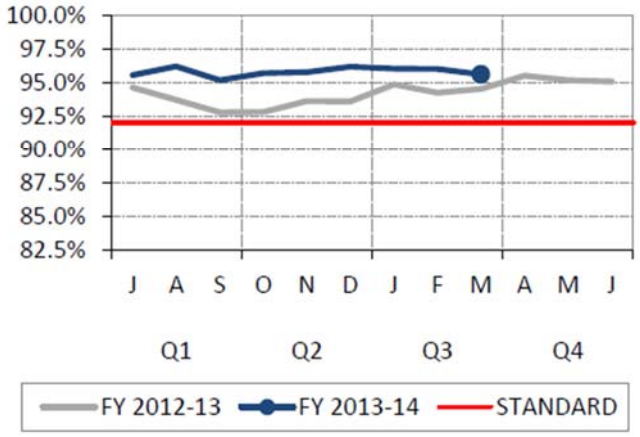
ACCESS Demand Responsive Services, Orange County Transportation Authority (Orange County, CA)

In 2013, MV began operating OCTA's ACCESS ADA paratransit services, an ADA paratransit, curb-to-curb service available to eligible persons with disabilities.

The ACCESS service is delivered with a fleet of 280 dedicated vehicles operated by MV and 400 additional vehicles for supplemental and same-day services provided by MV's non-dedicated subcontractor. Upon its start of the operation, MV brought its technology tools that integrate with OCTA's Trapeze scheduling system to enhance service delivery and help improve service performance and manage service growth.

Within one year of service, the difference MV brought to this service was documented in the Authority's Transit Division Performance Measurements Report, Fiscal Year 2013-14 Third Quarter:

FYTD	Standard	FY 2014	FY 2013
ACCESS	92%	**95.8%**	93.9%



"Since the service transition on July 1, 2013, the new contractor aggressively monitors OTP throughout the day utilizing software which tracks hour-by-hour performance. In addition, trips assigned to the supplemental service are now integrated into the Trapeze scheduling system, providing real-time trip information on all vehicles providing ACCESS service. With this operating enhancement, dispatch is better able to manage service operations and make adjustments as necessary to ensure trips are performed within standard."

Today, ACCESS ridership is 3.2% higher than projected, while operating costs are 5% lower than budgeted. MV is responsible for dispatching, reservations, scheduling, vehicle maintenance, and operations.

Please contact Jack Garate, Section Manager – Paratransit at jgarate@octa.net (562) 248-9165 as a reference for this contract.

Roseville Transit System and South Placer Transit Information Center, City of Roseville (Roseville, CA)

MV began operating fixed route, commuter, and complementary ADA paratransit services (the Dial-A-Ride) for the City of Roseville in 2001. These services, which collectively form the Roseville Transit system, connect the residents of Roseville to the surrounding Sacramento and Placer Counties.

MV delivers these services with the City's fleet of 47 vehicles, which represent CNG, gas, and diesel fuel types. MV's team uses Zonar to perform and track daily vehicle inspections, and maintenance is performed by the City.

MV also operates the South Placer Transit Information Center on behalf of Roseville Transit and three partner agencies. MV's team assisted with the implementation of this centralized, regional call center. Customers of the transportation services represented by the call center can call for information or access it through an online information portal. Here, MV uses the Trapeze PASS system and a proprietary reporting tool for paratransit scheduling, reservations, and dispatching.

The South Placer Transit Information Center has been recognized as Regional Project of the Year by the Sacramento Area Council of Governments.

Please contact Mike Dour, Alternative Transportation Manager, at mdour@roseville.ca.us and (916) 746-1304 as a reference for this contract.

Santa Clarita Transit, City of Santa Clarita (Santa Clarita, CA)

Since 2008, MV has operated transit services for Santa Clarita Transit, which comprises the following service modes:

- Local fixed route bus service, which operates within the Santa Clarita Valley;
- Commuter Express service, which connects passengers in Santa Clarita to Los Angeles and the San Fernando Valley;
- Station Links service, which transports passengers from Metrolink stations to key locations in Santa Clarita;

- Dial-A-Ride paratransit, which provides curb-to-curb demand-responsive service for the general public, qualified seniors, and persons with disabilities;
- ADA paratransit service on behalf of Access Services; and
- Hometown Trolley, which operates during summer months and provides transportation from local hotels to Six Flags theme parks.

MV uses Trapeze PASS for paratransit scheduling and dispatching and communicates with operators in the field using mobile data terminals. The City provides the Connexionz Bus Finder AVL system, which enables dispatchers to monitor, fixed route vehicle location and provides passengers a convenient way to get bus arrival times.

Service is delivered with a mixed fleet of 107 buses, transit coaches, articulated buses, and vans. The fleet includes vehicles of CNG, diesel, and gas fuel types. Vehicles are maintained and deployed from the City of Santa Clarita's Leadership in Energy and Environmental Design (LEED®)-certified, solar-powered facility.

Please contact Adrian Aguilar, Transit Manager, at aguilar@santa-clarita.com and (661) 295-6305 as a reference for this contract.

5. Approach

5. Approach

Provide a detailed description of how the requested services will be provided, including organizational structure and technology that will be used to provide service. Clearly demonstrate the respondent's understanding of the County's current system and needs but must also include recommended innovations and improvements which may include, but are not limited to, the introduction of new technologies, operational changes, equipment and vehicle changes, or any other modifications the respondent believes will provide an efficient, cost-effective, and reliable transportation network.

MV appreciates the opportunity to be a transportation provider for the County of Okaloosa. We have reviewed the ITN and scope of services and fully acknowledge the following requested transportation services to be provided by the contractor:

- Fixed Route
- Transportation Disadvantaged (TD) Service
- Brokered Non-Emergency Medical Transportation
- Non-Emergency Stretcher Transportation*
- Local Human Service Agency Transportation
- Emergency Transportation Services

We believe MV is the most capable provider to deliver public transportation services to the County. Our comprehensive driver training program and safety technology plans have benefited over 200 contracts nationwide. As the landscape of transportation changes, MV has worked diligently to integrate more reporting tools and technology innovations.

** As Medicaid Transportation is facilitated through Medicaid Transportation Brokers contracted with the Managed Care Organizations (MCOs) serving the area, if the County is contracted with these brokers for services and wishes to provide stretcher services, MV recommends contracting with a local ALS/BLS ambulance company to provide this service as it is outside of the standard public transportation realm and requires special training and personnel which often carries a much higher liability threshold.*

a. Daily Operations

Reservations and Customer Service

Telephones will be staffed by dispatchers available for reservations and information calls from 5 a.m. to 11 p.m. every weekday, from 6 a.m. to 7 p.m. on Saturdays, and from 7 a.m. to midnight on Sundays. MV will establish a voice mail system to record any reservations requests outside of these business hours (and on specified holidays). Trip reservations must be made by 11:59 a.m. the day prior to the requested ride, as required.

Reservationists answer calls in the order they are received, and with the same standard greeting: “Thank you for calling Okaloosa County transportation, how may I assist you today?” All dispatchers must attend MV-administered Telephone Doctor Customer Service Training, where they learn professional and respectful telephone skill and effective communication techniques.

A telephone display device (TDD) or other device which allows the hearing impaired to communicate with the dispatcher will be provided.

Paratransit Reservations & Scheduling

Trip Reservations

If the customer is interested in making a trip reservation, the reservationist asks them for his or her name or ID number, looks up their profile in Trapeze, and confirms their eligibility to use the service.

The reservationist creates a new trip in Trapeze, recording the pickup and/or drop-off locations. Common departure/arrival destinations can be saved in the customer profile screen of Trapeze. If the trip is to or from a new destination, the reservationist will record the location information in Trapeze, reading it back to the caller to confirm accuracy.

If the trip request can be accommodated, trip details including pick-up times are confirmed with the passenger. The reservationist inquiries about any special assistance needed, such as carrying bags, and includes this information in the comment section of the manifest so that the operator may provide assistance within the program policies.

Once all of the trip details are recorded, the reservationist submits the trip request and Trapeze presents the reservationist with the best available options for scheduling the trip. If the trip cannot be scheduled at the exact time

requested, the reservationist attempts to negotiate a trip within one hour of the originally requested time.

If the trip cannot be successfully negotiated, the dispatcher documents the trip as a denial pursuant to ADA regulations, and offers the passenger the opportunity to be placed on a standby list.

At the end of each call, the customer is thanked for their business.

Subscription Trips

Subscription trips are provided pursuant to ADA regulation and the County's service policy regarding the maximum allowable percentage of subscription trips. Dispatch staff reviews subscription service monthly to confirm it does not exceed service requirements. MV can provide the County with a list of subscription service pick-ups and drop-offs, their schedule, and productivity.

Planning for Productivity and On-Time Performance

Reservationists schedule trips on specific routes based on time and location of trips. The Trapeze Software examines potential routes for the next day, as well as recently scheduled trips, and then presents the reservationist with several options from which to choose. This is done while the customer is making a trip reservation.

By establishing templates in Trapeze, system productivity and on-time performance are managed from the start of the trip reservation process.

Templates include scheduled subscription trips and account for vehicle capacity for the fleet mix. For example, long trips are assigned to a sedan while shorter, more productive routes are assigned to the larger vehicles.

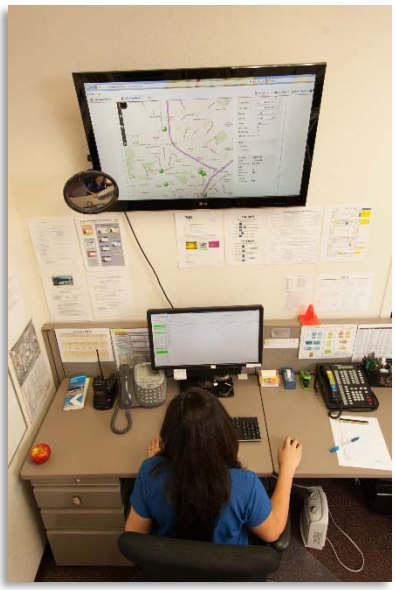
With solid templates in place, it is critical to appropriately negotiate demand trips to fit well with the subscription trips that are already scheduled. In order to provide a superior reservations process, MV employs the following:

Scripting – It is important to hire dispatchers and schedulers with a strong customer service background. It is equally important to give them tools to help them work with passengers to find solutions that help both the customer and the organization. Therefore, MV has developed scripts that a scheduler can use when negotiating times for trips.

Reservations management reporting – MV has developed a series of reports that allow MV's team to track each scheduler and reservationist by the number of trips booked, appropriate negotiation percentages, and other critical items, in order to monitor performance and achieve the desired results.

Reservations training – MV trains its reservations teams in best practices for Trapeze use, and how to leverage MV reports, monitors, and procedures to achieve success. This training arms MV's team with the tools needed to optimize service.

Trip Changes and Cancellations



When a customer requests a same-day trip change or cancellation, the reservationist looks up the trip information in Trapeze, and initiates the change. If the change is a same day request, the reservationist initiates the change, and notifies the dispatcher and the vehicle operator.

In order to accommodate last-minute trip changes, cancellations and requests while appropriately protecting system productivity, MV uses a "cancellation matrix" – a per day per hour analysis of historical trip cancellation trends. Reservationists use this matrix to determine the right number of trips to overbook – based on the probability of cancellation volume.

During the service day, excessive time between trips (slack time) created by same-day cancellations is displayed on MV's slack monitor. By constantly monitoring slack time, MV's dispatchers can identify where and when to place unscheduled trips in order to improve system productivity.

Scheduling Procedures

Once reservations are closed for the day, the scheduler reviews the next days' routes for efficiency, and begins the batching process in Trapeze.

During the trip batching process, Trapeze examines all trips and adjusts routes based on trip times and location. This process maximizes productivity while ensuring on time performance is maintained.

Once this process is completed, the scheduler reviews all routes to ensure that schedules are attainable, yet productive.

When the routes are finalized, the scheduler confirms and assigns vehicles and operators to each route and determines their appropriate start-times (based on geography and time of day).

Once all routes are assigned, operator assignments are exported from Trapeze and used for MV's operator start time hotline. Operators can call this toll-free number to receive their start time for the next day.

The scheduler then prints the next day's manifests and the Operator Sign-On Log, expediting the check-in process on the following next day.

Day of Service

Operator Check In

When the operator reports to the facility, he or she will check in at dispatch. The operations manager or on-duty supervisor will be present, along with MV's dispatch team. The dispatcher will mark the operator as present and hand the operator his or her vehicle assignment, provide any written notices regarding service adjustments, changes, or announcements, and perform a "fit for duty" review of the operator. This review includes a uniform check, reasonable suspicion evaluation, and a review of each operator's license.

Daily Vehicle Inspections

The operator will proceed to the yard and locate his or her vehicle. When the operator arrives at the vehicle he or she will initiate the daily vehicle inspection (DVI, or "pre-trip") using MV's standard pre-trip inspection forms. All areas of the vehicle are inspected, and all results must be documented.

During peak pullout periods, at least one (1) supervisor is in the yard to oversee the DVI process. This person will monitor operators as they perform these inspections, respond to any question's operators may have, and ensure a timely and coordinated pullout.

If the operator detects an issue with the vehicle that presents a safety hazard and will prevent the vehicle from leaving the yard and entering service, the operator will notify dispatch, who will contact the on-duty mechanic.

If the operator does not detect a safety related defect that would prevent the vehicle from entering service, the operator will notify dispatch as he or she departs the yard and proceeds to the first stop.

Daily Maintenance and Vehicle Inspections

Pre-trip

Each day, operators perform daily vehicle inspections prior to entering service. This 12-minute inspection covers the following items:

- Condition of tires, wheels, rims, and lug nuts*
- Fluid levels (engine and transmission oil, cooling, windshield washer, brake fluid, and power steering)
- Condition of battery terminals
- Under vehicle leaks*
- All glass and mirrors are in good condition and without chips or cracks*
- All lights are operational (headlights*, clearance lights and reflectors*, turn signals, backup lights and alarm, emergency flashers*)
- Air conditioner and heating, and defroster/defogger is operational
- The vehicle is clean, cushions and seatbelts are secure*
- Windshield wipers, washer, radio, horn, passenger door are all operational*
- Registration and insurance is valid and registration is visible
- Brake pedal* and parking brake are operational (airbrakes operate within the minimum and maximum pressure thresholds)
- Steering wheel is secure, gearshift is tight*
- On-board safety kit is stocked and complete (first aid, reflectors, fire extinguishers*, accident packet*, and body fluid kit*)
- Lift is operating in both electronically and manually, and is free from leakage*
- Lift interlock is operating properly*

Note items marked with asterisks (*) are re-inspected during walk-around mid-trip inspections, during shift changes.

Fixed Route Service Delivery

A dispatcher will be on during all hours of service to respond to issues and monitor service.

Upon arrival at the first stop, the operator will change the vehicle head sign from "Out of Service" to the proper route number and name. If the operator is early, he or she will not leave the stop until the first scheduled departure time.

The operator will proceed to the next stop at the scheduled departure time. MV's dispatch team will continually monitor service delivery in order to quickly resolve any issues that arise.

Paratransit Service Delivery

Throughout the service day, the MDT unit will guide the operator along the route, notifying him or her of the next scheduled stop. As the operator performs trips using the arrive/depart buttons on the MDT unit, the information is transmitted to and the route is updated in Trapeze.

Dispatchers continually track vehicle status and monitor service delivery throughout the service day in Trapeze.

If the passenger does not appear, the operator alerts the passenger of their arrival by knocking on the door. If the passenger still does not appear, the operator uses the MDT to request that the dispatcher call the passenger. If the passenger does not arrive within 5 minutes after the scheduled pick-up time has passed, the dispatcher authorizes a no-show, documents the event, and instructs the operator to move to the next stop.

Mobility Device Securement

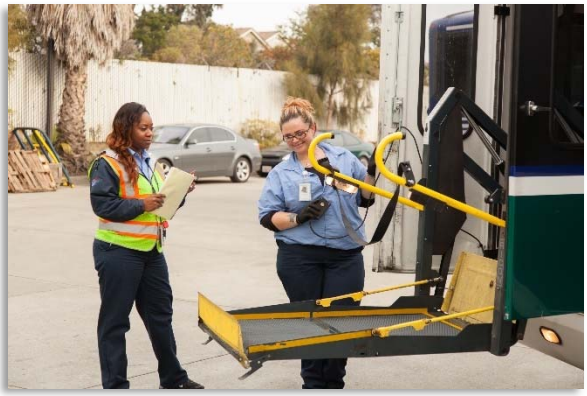
Providing safe transportation to persons in mobility devices is essential to the success of the County's public transportation services. These passengers generally require a greater level of time and attention by the driver. This proper attention of the driver is critical to ensure the mobility device is properly secured so as to make sure the customer enjoys a safe ride. Wheelchair securement procedures are as follows:

The vehicle must be parked at least 18 inches from the curb, with the vehicle in park and the parking brake engaged. The driver opens the door and prepares the mobility device securement area. The lift is then deployed pursuant to specific lift procedures.

Drivers will assist the passenger in boarding the lift; all passengers will be loaded on the lift facing away from the vehicle. The driver will ensure that the brake on the mobility device is engaged and will secure the lift safety strap.

The driver must then communicate to the passenger that operation of the lift is going to begin after confirming that they have secured their brakes and are ready. Maintaining their hand on the mobility device, the driver raises the lift to the top of the lift platform. Once the lift is in place, the driver will maneuver the passenger into the vehicle and position the chair in preparation for securement. Once the passenger is in place in the securement area, the driver will request permission to begin securement procedures.

Upon consent, the driver will secure the mobility device at strength securement points; the driver will never attach securement straps to spokes or other loose components. The driver checks that the straps are secure and tight, and then requests permission to place the shoulder belt and lap restraint over passenger. Upon consent, these personal restraints are secured, and the driver notifies the passenger that they are ready to depart.



Road Supervision

As part of MV's Driver Evaluation program, road supervisors perform spot checks of mobility device securement to ensure procedures are properly followed.

Road supervisors are responsible for the dissemination of critical information, such as service changes and system announcements to the operator team. They serve as the go-to resource in the field for MV's operator team.

They perform incident investigations, administer drug and alcohol testing procedures, respond to roadcalls, and resolve passenger disputes as needed.

Based on their findings reports for these various activities, the operations managers will administer progressive discipline.

Road supervisors will perform operator evaluations to ensure that each operator is safely and correctly performing his or her job. Road observations are performed discreetly (and unannounced) without disruption to service, and include the following review types:

- **Observed Ride Checks:** Observed ride checks are on-board evaluations of an operator's customer service and safety skills. Areas that are evaluated include safe vehicle operation and professional passenger interaction. During this check, the operator's credentials are checked to ensure proper certifications are up to date and in the operators' possession.

- **Unobserved Service Checks:** Unobserved service checks are random inspections that assess operators' driving and safety skills from the road. Road Supervisors perform these checks from their service vehicle (following the operator). Operators typically are unaware that these evaluations are being performed.

- **Mobility Device Securement Spot Checks:** These random inspections are on-vehicle reviews of an operators' ability to safely and properly secure a mobility device. The supervisor meets the operator at a location where a passenger using a mobility device is being picked up, boards the vehicle, and closely observes the way the mobility device is secured.

- **Pullout Inspections:** Pullout inspections are unannounced and occur daily. A supervisor that is stationed in the yard confirms that the operator is in proper uniform, has the appropriate credentials on his or her person, and is prepared for service that day. The supervisor then checks the vehicle to confirm it is clean and ready for service.

Standby Operators, Protection Vehicles, and Backup Service

MV's supervision, safety, and maintenance programs will minimize the number of delays, preventable incidents, and roadcalls experienced in the system; however, MV's team will be prepared for these unfortunate events should they occur.

- **Extraboard Operators:** Extraboard operators are available as backup when operators do not arrive to work on time and as scheduled due to vacation or illness. Upon becoming aware of a driver deficiency, the dispatcher places a call to an extraboard operator alerting them of the available shift. When they arrive at the location, they are provided with route paddles to assist them throughout the service day.
- **Standby Operators:** Standby operators are posted at each facility and are available to relieve service in the event of an operator illness, roadcall, or any incident that results in a vehicle being placed out of service for any extended period of time.
- When a standby service is required, the standby operator will respond directly to the scene of the incident, and when necessary, meet the in-service vehicle in order to efficiently transfer passengers. The standby operator will continue the remainder of the route until shift end or otherwise directed by dispatch.
- **Backup Vehicles:** Backup vehicle are pre-tripped vehicles that are parked at the operating facility. These vehicles are available for use in the event of a service disruption such as a vehicle incident or roadcall.

End of Operator Shift

When the operator has completed his or her shift, he or she will notify dispatch and head to the yard. The operator ending his or her shift will perform a walkthrough of the vehicle to collect any items left on board and dispose of any trash. Then the operator will perform a post-trip inspection.

Post-trip

Upon return to the yard, the operator performs a 5-minute post-trip inspection, which requires re-inspection of the following items:

- Condition of tires, wheels, rims, and lug nuts
- Under vehicle leaks
- All glass and mirrors are in good condition and without chips or cracks
- All lights are operational (headlights, clearance lights and reflectors, turn signals, backup lights and alarm, emergency flashers)
- Air conditioner and heating, and defroster/defogger is operational

- The vehicle is clean, cushions and seatbelts are secure
- Windshield wipers, washer, radio, horn, passenger door are all operational
- Brakes pedal is operational
- Steering wheel is secure, gearshift is tight
- Fire extinguisher is fully charged
- Accident packet, and body fluid kit are present and accessible
- Lift is operating in both electronically and manually, and is free from leakage
- Lift interlock is operating properly

Vehicle Fueling and Cleaning Plan

Vehicle will be washed as needed, at least once per week, to assure a clean professional looking vehicle. MV will use the automatic bus wash onsite at the Transit Admin and Maintenance Facility and fuel the buses at the Okaloosa County Fleet Maintenance Ships and other Fuelman Sites within the service area.

MV takes pride in keeping all vehicles clean and safe. Our operators keep every bus clean of refuse and debris at all times. The following lists are rules regarding daily bus cleanliness. However, MV is amenable to the needs of the County and should the County have any requests, the company is happy to discuss.

- No food or drinks allowed on the vehicle unless approved by clients. This includes drivers.
- Drivers will inspect their vehicles daily to assure that there is no graffiti on the vehicle's interior components. The drivers will note this on their DVI report and will attempt to clean and remove all graffiti that had been placed on the vehicle for that day.
- Vehicles are swept daily at the end of each shift
- Any graffiti and/or vandalism will be repaired upon discovery

Exterior Cleaning

Vehicle will be washed as needed, at least once per week, to assure a clean professional looking vehicle. MV will use the automatic bus wash onsite at the

Transit Admin and Maintenance Facility and fuel the buses at the Okaloosa County Fleet Maintenance Ships and other Fuelman Sites within the service area.

- All exterior body panels will be cleaned with detergent and a vehicle washing brush or run through a wash rack. This will be done to remove all road dirt, soot, and tar and oil residue on the vehicle.
- All tires and wheels will be cleaned using the appropriate brushes. This will be done to remove road dirt, and brake dust and marks from white lettering of tires (if applicable).
- All mud flaps will be cleaned.
- Wheel wells cleaned.
- Windows and mirrors are cleaned, and water spots removed.
- All lighting lenses will be cleaned, thoroughly rinsed and dried.

Interior Cleaning

The interior of the vehicle must be clean and professional looking inside. The interior will be cleaned as needed, at least once per week.

- The vehicle will be vacuumed in areas that a vacuum can be used.
- Floors will be swept and mopped. Light colored areas, such as the white standee lines and white edges of the steps should be cleaned with a stiff bristled brush to remove grime from the grooves of the rubber.
- Modesty panels cleaned with a mild detergent to remove dust, foot prints and dirt accumulation.
- Clean vinyl passenger seats with mild soap and water.
- Clean the stanchions grab rails and hand rails with soap and water. Remove all accumulated dirt, dust, grime, and oils.
- With a wet rag, wipe down the ceiling and walls, drying immediately with a dry towel. This is to remove the accumulation of dust that adheres to the ceiling and walls.
- Clean the instrument panel.

- Clean steering wheel with the use of detergent and water. This will remove the accumulation of oils and dirt.
- Instrument panel glass will be cleaned with the use of an appropriate glass cleaner.
- Graffiti, any oily prints and dust accumulation will be removed from the windows by cleaning the window with an appropriate glass cleaner.

Bus Shelter Cleaning

The MV utility worker will provide bus shelter and bus stop maintenance, ensuring these spaces will be free of trash, refuse, and graffiti. MV will insert customized route and stop information in the display windows of all County shelters, exchange and update with new information and schedules as necessary. Additionally, our team is available to paint bus stop curb stencils and install, remove, and replace graffiti-guards at specific shelters. We also remove, replace, install, and diagnose issues with on-street real-time signs, provide general maintenance of bus stop signs and poles.

MV's local team will work closely with the County's Planning Department to ensure compliance with applicable traffic laws and civil codes, they respond to complaints about bus stop-related issues (significant graffiti, broken panels, etc.)

b. Technology

Based on MV's review of the ITN and our analysis of what the County possess today with respect to technology, we believe there is not only an opportunity to create efficiencies with the current technologies such as Trapeze PASS, but also recommend new technologies that will bring value to the operation and provide a greater passenger experience for your riders.

Options to Enhance the Current Technology Environment

MV has extensive experience in using Trapeze products in their most recent version and offers more Trapeze experience than any other contractor. The company operates more than 30 contracts using Trapeze Software, with more than one-half of those deployments hosted by MV. We have operated the Trapeze product since its initial release as a DOS product, and senior vice president Marsha Moore (former Trapeze CTO and the original developer of the PASS product) serves as a support lead for our Trapeze-based paratransit

projects.

MV uses Trapeze PASS at almost all our Florida-based paratransit operations.

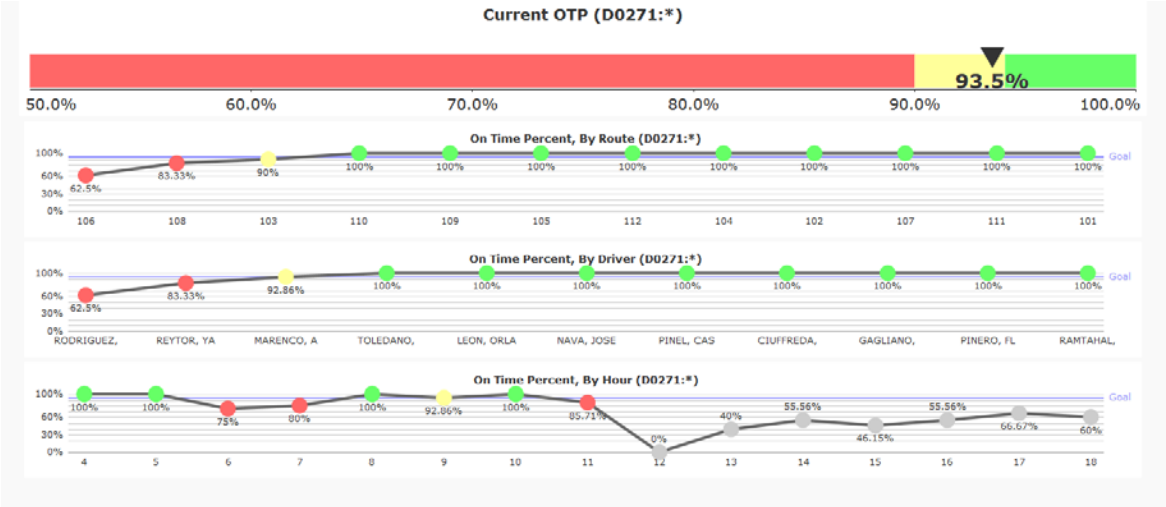
Additionally, there are a few add-on modules to the software that we would like to recommend both in our base offering and as options for the County to consider based on available funding.

MV is proposing ViewPoint and Transit Miner to accompany the PASS system:

Ms. Marsha Moore
Senior Vice President of Operations

Senior vice president of operations Ms. Marsha Moore is able to support any transitions to Trapeze technology should the County select this option. Marsha brings more than 30 years of experience in technology and software development and is an expert with Trapeze technology. She previously served as the chief technology officer for Trapeze and wrote the original code for the PASS product.

- **Trapeze ViewPoint:** Trapeze's business intelligence tool designed for customers and management to view, analyze, and monitor system performance.
- **Use of this module:** Deep analytics for data-driven system management and operations
- **Transit Miner:** Transit Miner is a scalable, cloud-based business intelligence solution that interfaces with Trapeze to provide real-time and historical reporting. This reporting offers a variety of dashboard options, allowing transit supervisors to make effective decisions for the County's public transportation services. Transit Miner offers easy, customizable data exports into PDF or CSV reporting formats.



An Integrated, Fully Turnkey Technology Solution for Fixed-Route Service

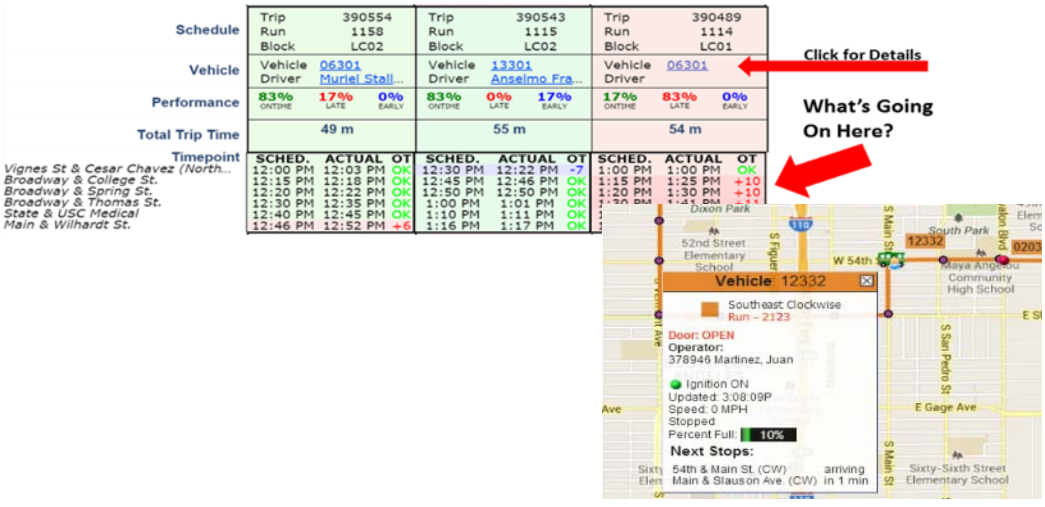
MV is proposing in our base offering a fully customizable app-based vehicle tracking system that we work with at many properties around the nation. Along with the Syncromatics CAD/AVL system, MV will be providing the County with Transit Check. This app-based vehicle diagnostic, pre and post trip vehicle inspection tool that can be easily downloaded on the Syncromatics MDT.

Syncromatics CAD/AVL with EDVIR

Syncromatics is a fixed route CAD/AVL modular fixed-route solution that enables customers to configure system functionality to target the specific service needs. With functionality that is buildable over time, this solution offers the County a base platform that can flex to the changing needs of the County's public transportation services.

Entirely cloud based, Syncromatics is easy to deploy and even easier to maintain – an ideal solution for Okaloosa County, as you seek to reduce support costs and focus on outstanding service delivery.

The TRACK management portal provides our dispatch team and managers an easy-to-use dashboard that displays critical system information and offers valuable dispatch management tools. Dispatchers can drill down to each vehicle to obtain key details on its status, and monitor on-time performance, by route and by operator.



Passengers will have access to a mobile site that uses an arrival prediction algorithm, that uses historical stop-to-stop averages to provide estimated times of arrivals within 95 percent accuracy. This data can be pushed to the County's website, a mobile application, IVR systems, SMS messages and location displays – providing ample flexibility for future ETA functionality.

For audio visual stop annunciation, we will deliver the built-in Syncromatics solution which uses text to speech technology. Announcements can be made from the bus interior or exterior, and they are completely configurable from the Syncromatics system. In addition to audio annunciation, this technology can interface with LED displays.

Long term, the County can easily add additional technologies on to this system. These include automated passenger counters, on-board Wi-Fi, a white labeled native mobile app, and exterior arrival displays.

TransitCheck

Should the County decide to deploy the Syncromatics solution, we can implement the TransitCheck solution. Flexible, scalable, and easy to use, TransitCheck is an app-based system downloaded directly onto the Syncromatics MDT that can be used as a pre and post trip inspection tool on any vehicle in the County's fleet. This system is cloud based and requires no physical installation. Should the County be interested in this solution, MV can provide a demonstration of its use.

TransitCheck along with the Syncromatics CAD/AVL solution are included in our base offering to the County.

Syncromatics is a full turnkey solution that has a proprietary AVA system, APC integration, and LED signage options. MV is happy to have further discussions with the County regarding the AVA, APC, and LED signage options if we are selected as the operator. This pricing for these added features is included in our alternate pricing hourly rate.

Genfare

MV has included the necessary features in our base bid for Syncromatics to fully integrate with the GenFare fare box system.

MV has a strong familiarity with the operational use, general maintenance and repair, and preventive maintenance of Genfare systems and is currently operating Genfare for many of our client contracts. MV not only is familiar with the maintenance with fareboxes, but also the audit and mobile-vaulting systems as well. We also can do J1708 communication linking between fareboxes and ancillary fixed route CAD/AVL equipment. Many MV employees are Genfare maintenance-trained and have undergone a 20 to 30-hour shop training program with Genfare's lead field service representative James Eramia.

c. Emergency Transportation Service Plan

MV Transportation has extensive knowledge and experience in preparing for and executing transportation services for emergency situations. The areas surrounding Okaloosa County just experienced a terrible natural disaster with Hurricane Michael that caused many residents to be evacuated from their homes. Our team is trained and equipped to respond to emergency events 24/7. Our proposed General Manager, Dennis Franklin participated in table top emergency preparedness training exercises with both CAT and the County as required and will bring that knowledge to Okaloosa County.

Certificate of Appreciation

Collier County

Public Transit & Neighborhood Enhancement Division

Official recognition is tendered to

MV Transportation

For his commitment & dedicated service to the residence of Collier County during Hurricane Irma

Given this Fourteenth day of November 2017

cat

MV's team was honored to receive a certificate of appreciation from the County for our efforts.

Preparedness

Preparedness is crucial to minimizing injury and/or damage during a hurricane, thunderstorms or other severe weather event. During the transition, MV will work with the County to confirm emergency preparedness procedures in our new role as the turnkey service provider, including:

- Confirmation of emergency locations, including alternate command centers and/or shelters
- Review of chain of command and communication
- Review weather severity thresholds and what level of service is acceptable at each threshold

Additionally, operators are trained in emergency management and communications, how to safely operate the vehicle during severe weather events, and what steps to take if on the road when a severe weather warning is issued.

Continuity of Service

When severe weather is predicted, MV works closely with the County to determine the next course of action. Depending upon the severity of the storm predicted, the County may decide to suspend service, or continue operation until the severity threshold of 30 MPH sustained winds is reached. If it is determined to continue operations, MV and the County will continue to communicate frequently to determine if conditions remain safe to operate and what level of service (if any) is appropriate.

During severe weather, our team checks the weather forecast frequently and monitors for weather-related warnings. Throughout the service day, road supervisors will monitor weather and road conditions for safety.

- For CAT Connect: All non-essential trips will be suspended until such time as weather conditions permit resumption of regular service. The County and MV will determine which trips will be suspended and contact all affected clients and advise of their trip status. MV recommends that all trips that are considered life-sustaining will continue to be operated, including: dialysis treatments, certain medical appointments, trips related to life sustaining errands such as oxygen tank refills, and return trips from locations not providing shelter opportunities.
- For CAT: While in service during severe weather, operators will report visibility, road conditions, and signs of worsening weather to dispatch. As this

information comes in, MV's management team will assess whether it is safe to continue or suspend service operations and make its recommendations to the County. If service is suspended, dispatchers will direct operators to complete all stops on the route and return to the facility, or deliver any passengers remaining on board to a designated emergency location.

Operators are trained in emergency management.

Emergency and Security Plans

MV has specific plans and programs in place designed to mitigate risk and provide a safe, healthy workplace. Each of these plans is available upon request:

- **System Safety Program Plan (SSPP):** With the objective to provide a superior level of safety and minimize any and all risk, MV's SSPP is maintained in accordance with the standards of the American Public Transportation Association (APTA) and the Federal Transit Administration (FTA).

- **System Security and Emergency Preparedness Plan (SSEPP):** This set of comprehensive security goals, objectives, and strategies maximize the security of MV's passengers, employees, and property. This plan is a blueprint for all security procedures.

- **Continuity of Operations Plan (COOP):** This plan template provides MV's operations a base from where to develop its own plan to ensure continuous operations during an emergency. The COOP which sets forth a concept of operations, identifies essential functions, and outlines three potential phases of operation: 1) Activation and Relocation, 2) Alternate Facility Operations, and 3) Reconstitution.

- **Emergency Action Plan:** The EAP assists employees and management in making quality decisions during times of crisis, and to comply with the Occupational Safety and Health Administration's (OSHA) Standard for Emergency Action Plans, 29 CFR 1910.38.

- **Hurricane Preparedness Plan:** This plan incorporates an incident command structure and phased approach to preparation, the release

of personnel, and shutdown of project operations whenever the best available information indicates a hurricane could impact continued safe operation.

Accident Response, Investigation, and Reporting Procedures

MV notifies the County within two hours of any accident; immediate notification is sent if the accident is severe.

All locations are required to have the following information readily accessible:

- Operator's family and/or emergency notification
- Local police department and/or local sheriff department
- Highway patrol/state police
- Local fire department and local ambulance service
- Tow truck, heavy equipment, and construction companies
- MV Risk Management staff and MV Safety staff
- General managers' home and cell phone numbers
- Local and MV emergency contact numbers

MV's reporting decals must be posted on the dashboard and on the operator-side sun visor of all vehicles. The decals read, "Should you be involved in an accident or should any other incident occur, immediately contact Dispatch who shall immediately communicate with you and the 24-Hour Claim Line, (866) 688-7475."

Each vehicle must be equipped with three bi-directional emergency reflective triangles (not flares), a fire extinguisher having an Underwriters' Laboratories rating of 5B:C or more, and Incident Reporting Packets with color disposable flash cameras.

If involved in a vehicular incident, the operator will notify the dispatcher, who will send a supervisor to the scene, and contact emergency personnel (when necessary). The operator must exercise on-scene emergency control until she or he is properly relieved by a supervisor.

The operator, with the assistance of the on-scene supervisor, will use the onboard accident kit to take photographs of the scene, obtain contact information of all witnesses (using Courtesy Information Cards) and complete an incident

report. The operator is required to provide identification and cooperate with police. Upon return to the office, the accident report is submitted to dispatch or the general manager.

As soon as is practical following an accident, drug and alcohol tests are administered to any employee whose performance could have contributed to the accident, such as dispatcher, mechanic, etc.

If reasonable suspicion is suspected, all reasonable suspicion testing guidelines are followed. Test results are obtained and reported to the general manager (or vice versa). The operator remains suspended from driving until his or her driving privileges are reinstated by the Qualifications department.

d. Start-up Schedule

MV's transition plan recognizes that a solid implementation methodology and strong management approach are critical to ensuring a smooth service transition. Using an extensive network of experienced support personnel, MV focuses on organization, efficiency, and quality service while delivering the right leadership and necessary resources, without bureaucracy and micromanagement from corporate headquarters. As a result, MV is able to transition service quickly and without service disruption.

Reputation for Excellence

MV has a reputation for transparency and building positive client relationships beginning from the start-up period. No other firm possesses the experience in service transitions comparable to that of MV; MV has managed transitions for nearly every type of contracting model, including:

- Overnight transitions of emergency contracts
- Transitions with accelerated timelines
- Initiation of new services
- Phased-in transitions
- Transitions from client-managed services
- Transition-only contracts to prepare service to be taken in-house
- Transitioning management contracts to turnkey contracts
- Transitioning turnkey contracts to management contracts

- Contracts specifically for transition services
- Transitions resulting from bankruptcy of the incumbent contractor

Implementation Methodology

Effective communication and relentless attention to detail drive MV's transition approach.

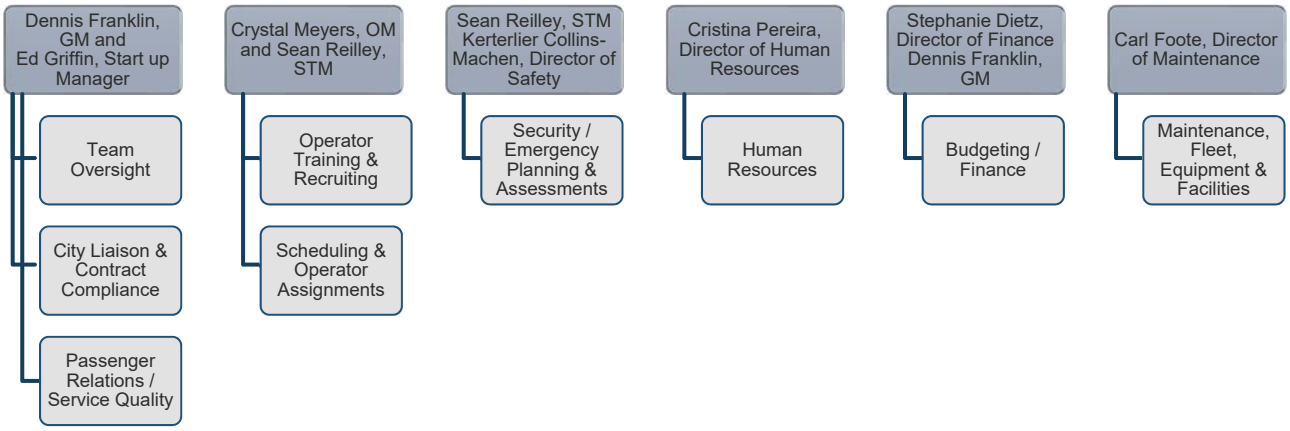
MV's transition leadership team will hold biweekly meetings with Okaloosa County. Discussion topics for these meetings include the progress of the transition, task list changes and updates, potential challenges, and a look ahead to the next two weeks. In addition, MV's implementation team meets daily each morning to review the transition plan, outstanding tasks, current issues, and current task lists.

Transition Planning

MV follows a detailed startup schedule that identifies each task, subtask, dependent tasks, duration/timeline, and staff assignment. *A draft start-up schedule for this transition is included at this end of this section to demonstrate the tasks required during the transition*. MV's transition team updates this document throughout the transition period; however no item on the schedule is marked "complete" without confirmation from the start-up manager.

Management Approach

Mr. Ed Griffin will work with General Manager Dennis Franklin to oversee all start-up activities and serve as MV's full-time transition manager for this project. Mr. Franklin will work closely with the local management team, and MV's support team to direct all elements of the transition. MV's transition team assigned for this project comprises the following team leaders:



Working with the Community

The transition period is an excellent opportunity to establish positive relations with the passengers and learn their perspective on service quality.

To foster regular and consistent communication, MV will establish a *Passenger Transition Committee*. This committee comprises passengers, County staff, MV staff, community members, and/or advocacy groups. Together, they proactively manage transition issues and challenges.

Dennis Franklin and Ed Griffin will work with Operations Manager Crystal Meyers and Safety and Training Manager, Sean Reilley to facilitate this committee and establish clear, open, and honest communication about how the transition is progressing.

Personnel Plan

Retaining the Existing Team

The continued presence of the current workforce promotes consistency, experience, and tenure in service. MV strives to retain as many of the current employees as possible, provided they meet the minimum qualifications, have a strong employment record, and receive County approval.

All employment offers made will be subject to successful completion of duties with the current provider and pending completion of required pre-employment background checks, drug screens, and other required certifications.

Outreach

To ensure it keeps the existing workforce engaged and informed throughout the transition period, MV will meet with these employees immediately upon contract award.

MV will schedule meetings during off-peak service hours, where a representative will explain the transition process. Additional MV staff will be available at these meetings to assist existing personnel with the application process.

MV will also establish a toll-free number for employees that wish to call with questions or concerns about the transition process. Providing multiple avenues for these employees to communicate with MV's team will build their confidence and trust during this important period.

MV recognizes that a few employees may not qualify or accept a position with MV. MV's transition team will actively recruit new employees during the transition period to fill any open positions.

Vehicle Operator Evaluation and Training

In addition to pre-employment screening, MV conducts on-road evaluations of all existing operators and provides each with orientation, customer service, and refresher training. This training is essentially an abridged version of MV's operator training program. The transition team will schedule classes during weekends and nights to accommodate work schedules; during the day vehicle operators newly hired into the system will attend MV's full operator training program.

To minimize the impact that the transition has on the current workforce, MV will request to conduct operator evaluations in-service. If the incumbent contractor will not accommodate this request, MV will schedule evaluations during off-duty hours.

MV will also request access to each employee's training file. This information is legally available to each employee; however, it is more efficient to work directly with the outgoing service operator to obtain these files. If the incumbent contractor does not accommodate this request, MV will advise employees to obtain copies of their training files directly.

Equipment and Facilities

Fleet Transition

MV has extensive experience in fleet transitions and understands the provisions of this process. MV will schedule fleet acceptance inspections with the County and the outgoing service operator. These inspections will occur prior to transitioning the fleet, with ample time to complete any necessary corrective maintenance.

Mr. Carl Foote, director of maintenance, will manage the fleet inspection and transition. He will facilitate MV's communication with the County and the outgoing operator regarding the fleet condition, serving as MV's maintenance representative to Okaloosa.

MV has included a sample copy of its Vehicle Acceptance Agreement Standards in the appendix of this proposal.

Parts Inventory

Upon award of contract, MV will initiate the parts ordering process. MV will also work with the County staff and the incumbent contractor to understand the history of issues regarding parts ordering.

MV will work with the incumbent contractor to determine the feasibility and interest in selling the entire existing parts inventory (or a portion thereof) as part of the transition.

MV has an extensive network of parts suppliers, with whom the company will work closely when transitioning the maintenance functions. Many of these suppliers are current suppliers for the incumbent service provider, further promoting a smooth transition.

Facilities Transition

Facility preparation is a critical task that must be managed professionally and efficiently. MV will conduct acceptance inspections before transitioning all Okaloosa County-provided equipment. Early in the transition period, MV will work closely with the County to inventory and assess all of the County-owned, non-vehicle assets to be turned over from the incumbent contractor. This process is the first step in ensuring that the equipment and facilities will be transitioned in good working order. MV will ensure baseline entries are set up in the Trapeze EAM system as soon as access is available.

The night before the facility transition, and early the morning of the new contract start, MV will have completed dry runs of where and how operations, administrative, and maintenance staff will begin the first day of service under MV.

As employees arrive at the facility at the end of their last shift working for the incumbent contractor, additional MV personnel will be on site to answer any questions about the next day. This team will provide all shift and relevant operational information to the employees.

All computer/network, phone, and internet services will be functioning and ready for use. Members of MV's IT team will handle all telephone assignments and assist in any last-minute IT issues. MV staff will be available to immediately answer any questions and respond to any concerns.

e. Non-Dedicated Taxi and TNC Service Integration

MV welcomes the opportunity to work with the County to integrate TNC services into its operations. We work with non-dedicated service providers in many of our operations and we have been successful in leveraging existing transportation resources to deliver additional capacity during peak times, reducing capital fleet investment, and improving productivity of dedicated services, while lowering costs to our customers.

If the County is interested, MV is happy to explore these options as we continue discussions.

MV would like to explore these options with Okaloosa County if this is something the County is interested in introducing as a pilot program.

Successful Case Study: DART

When we began our partnership with Dallas Area Rapid Transit (DART), our contract began under a mobility management pilot program. Here we worked with DART to employ a service model that leveraged dedicated and non-dedicated services. After the initial pilot period's success, DART extended our contract to continue this program. Through ongoing collaboration, we were able to reduce DART's cost per trip by nearly 15 percent and save our customer more than $90 million. In May of 2017 we worked with DART to integrate Lyft services into the system, which has increased service capacity by eight percent.

f. Reporting Requirements

Operational reporting provides service statistics necessary to gauge service quality, ensure contractual compliance, acquire transit funding, and for completion of all National Transit Database (NTD) reporting.

MV meets FTA/NTD reporting requirements and provides these reports to clients who receive Federal funding and are required to submit them. MV uses the accepted FTA sampling methodology and has systems in place to collect and report this information under the guidelines of the National Transit Database Reporting Manual.

A large portion of the service data is collected and reported using Trapeze, while others are collected using MV's Lawson Accounting and HR ERP and other third-party data collection systems.

As required, MV will track the following items to ensure it is meeting the standards outlined by the County and the Company:

- On-time performance;
- Productivity;
- Customer complaints;
- Service delays;
- Vehicle breakdowns;
- Operational reports, such as passenger count by vehicle, fare revenue, vehicle breakdown, etc.;
- Ridership trends by type and route; and
- Safety issues

It is also important to update the team on its performance; MV continuously updates and shares performance results during location safety meetings.

We are in the process of upgrading our Infor Financial systems as well as implementing a new Human Capital Management system (Infor Talent Acquisition and Global HR HRIS) in both in its corporate office and operating locations. The Lawson Financial Suite includes General Ledger, Accounts Receivable, and Accounts Payable. The Infor Human Capital Management includes both Talent Acquisition and Global HR, which encompass benefits, payroll administration, HR administration, leave of absence management, built in business process framework, native business analytics tools and reports, manager self-service and employee self-service. Infor software is a fully integrated, web-enabled, cloud-based solution. The software is scalable to allow for growth of the company without having capacity concerns. The cloud-based setup and role-specific permissions/security features allow Company management to selectively determine which processes and controls should be centralized versus decentralized.

MV believes in proper data backup and off-site storage of data backups in the event of a fire or other catastrophic event. MV's IT team will set up the local computer network to ensure proper connectivity, security levels, password

protection, and local technical support. MV will work with the County's IT staff in whatever manner necessary.

g. Minority and Women Business Enterprise Participation

MV is committed to meeting the County's goal of DBE participation on this contract. We are proud to offer our National DBE uniform provider JCM and Associates, Inc. who will be supplying the uniforms for this service.

As an option, MV has identified Independent Mobility Transport (IMT) as a potential certified DBE should the County desires MV's DBE participation to increase. IMT is a trusted MV operating partner that focuses on training drivers on sensitivity awareness to better serve their clients. IMT has over fifty years of combined experience in the transportation of the Greater Florida area.

MV will make good faith efforts throughout our tenure to recruit and include DBE firms to participate in this contract. We have already engaged MV is committed to meeting the County's goal of DBE participation on this contract. We are proud to offer our National DBE uniform provider JCM and Associates, Inc. who will be supplying the uniforms for this service. As an option, MV has identified Independent Mobility Transport (IMT) as a potential certified DBE should the County desire MV's DBE participation to increase. IMT is a trusted MV operating partner that focuses on training drivers on sensitivity awareness to better serve their clients. IMT has over fifty years of combined experience in the transportation of the Greater Florida area.

Please see our good faith efforts in the appendix of this proposal.

h. Regulatory Requirements

MV understands the following regulations and their significance to a public transportation program. Our proposed general manager Dennis Franklin and operations manager Crystal Myers have both worked under these guidelines, particularly in the Florida environment, and are very familiar with the regulations and expectations for compliance. Additionally, MV's resident grant expert Edward Griffin will be part of the support team and will provide support and guidance as necessary.

1. 49 USC, esp. sections 5307, 5310, 5311, 5335, and 5339

MV Transportation has been involved in the Florida Coordinated Transportation system model since 2003, and currently serves as the Community Transportation

Coordinator (CTC) in five (5) counties. The model is intended to incorporate several funding streams into a single delivery system to achieve uniformity in system vehicle, driver, and other standards. In addition to the Transportation Disadvantaged Trust Fund (TDTF), which is provided by the Commission for the Transportation Disadvantaged, we coordinate with several other funding sources, including:

- FTA 5310 and 5311
- Elder Care
- Medicaid Brokerages
- APD
- ADA service (where present)
- County services
- Emergency Operations Centers; and
- Community Colleges

In all of the counties where we serve as CTC, we facilitate eligibility qualification for TD services. MV has developed eligibility forms approved by the Commission for the Transportation Disadvantaged (CTD) and was recently reviewed by the CTD for our compliance with eligibility tracking and received excellent reviews. We base eligibility for services under the overall guidelines of F.S. 427 and local guidelines outlined in the Transportation Disadvantaged Service Plan (TDSP).

It is our goal to work with the County and stakeholders from the Local Coordinating Board (LCB) to identify agencies willing to participate in the coordinated system; this enables the County to maximize efficiencies through multi-loading of passengers from multiple funding sources.

2. 49 CFR

CFR Title 49 - Transportation is one of fifty titles comprising the United States Code of Federal Regulations (CFR). Title 49 is the principle set of rules and regulations (sometimes called administrative law) issued by the Departments of Transportation and Homeland Security, federal agencies of the United States regarding transportation and transportation related security. Of most importance to this service are Parts 600 thru 699 - Federal Transit Administration (FTA), one of twelve chapters comprising the United States Code of Federal Regulations (CFR), Title 49, consisting of a unified body of regulations applying to specific

functions and activities under the control of the FTA. [1] This chapter itself consists of 20 parts covering FTA organization, functions and procedures for its offices and programs. The Federal Transit Administration (FTA) through its major programs provides financial and technical assistance to local public transit systems, and guidelines for Drug and Alcohol testing as well as procurement of capital for providing service and financial operating assistance. As a national provider under contract with Transit Authorities, State and Local Governments, MV Transportation is well versed in the requirements for compliance with these regulations.

3. 2 CFR 200

The Office of Management and Budget (OMB) has published 2 CFR Part 200 (referred to as the “Supercircular”) to streamline the Government-wide guidance on Administrative Requirements, Cost Principles, and Audit Requirements for Federal awards. The Supercircular consolidates and eliminates the duplicative guidance found in 8 OMB circulars which includes A-50, Audit Follow-Up, A-87, Cost Principles for State, Local, and Indian Tribal Governments; A-102, Grants and Cooperative Agreements with States and Local Governments; and A-133, Audits of States, Local Governments, and Non-Profit Organizations. The new Supercircular expands requirements in several areas.

The consolidation of the circulars is a key component of a larger effort to more effectively focus Federal resources on improving performance and outcomes, while ensuring the integrity of Federal funds in partnership with State, local, and tribal stakeholders. The Department of Transportation (DOT) will adopted OMB’s revised Government-wide Supercircular with an effective date of December 26, 2014. DOT submitted to OMB an Interim Final Rule (IFR) to adopt the Supercircular regulation under 2 CFR Part 1201. The implementation of the Supercircular will cancel 49 CFR Parts 18 and 19.

The administrative requirements and cost principles apply to new awards authorized on or after the effective date unless an OMB approved deviation exists. Project modifications made on or after the effective date may be subject to the Supercircular requirements if the Federal agency’s modification also amends the terms and conditions of the Federal award. Existing Federal awards that do not receive incremental funding with new terms and conditions will continue to be governed by the terms and conditions of the Federal award in effect prior to the effective date. Subpart F, Audit requirements, will apply to audits of non-Federal entity fiscal years beginning on or after the effective date. The revised audit requirements are not applicable to fiscal years beginning prior to that date.

MV is very familiar with the requirements of this Code of Federal Regulations, as we contract with governmental agencies throughout the nation and provide support as necessary in meeting these standards.

4. FTA Circulars including in particular 4220.1F, 5010.1E, 9040.1G, 9030.1E, 9500.1

The FTA Award Management Requirements Circular (FTA Circular **5010.1E**) is intended to assist recipients in administering FTA-funded projects and in meeting award responsibilities and reporting requirements. Recipients have a responsibility to comply with regulatory requirements and to be aware of all pertinent material to assist in the management of FTA federally assisted awards.

4220.1F - This circular provides contracting guidance for recipients of Federal assistance awarded by the Federal Transit Administration (FTA) when using that Federal assistance to finance its procurements (third party contracts). This revision incorporates the new procurement provisions of the Moving Ahead for Progress in the 21st Century Act (MAP 21), Pub. L., 112-141, July 2012, and includes the most current available guidance for the Federal public transportation program as of the date of publication.

9040.1G - This circular is a re-issuance of guidance on the administration and preparation of the transit assistance program for guidance on the administration and preparation of grant applications for the Formula Grants for Rural Area Program under 49 U.S.C 5311. This revision incorporates provisions of the Moving Ahead for Progress in the 21st Century Act (MAP-21) and includes the most current available guidance as of the date of publication.

9030 1E - This circular is a re-issuance of guidance on the administration and preparation of grant applications for the Urbanized Area Formula Program under 49 U.S.C. 5307. This revision incorporates provisions of the Moving Ahead for Progress in the 21st Century Act (MAP-21; Pub. L. 112-141 (2012) and includes the most current available guidance as of the date of publication.

9500.1 – This circular relates to the Uniform Mass Transit Act (UMTA) and through our research is no longer active.

5. Chapter 14-90, Florida Administrative Code

Chapter 14-90, Florida Administrative Code	Operator Monitoring Procedures
(3) Bus transit systems shall establish criteria and procedures for the selection, qualification, and training of all drivers. The criteria shall include the following:	(3) MV has a thorough pre-employment screening process under which all employees are subject. This includes a local, county, state and federal background check prior to hiring, and every six months thereafter.

(a.) Driver qualifications and background checks meeting minimum hiring standards. (b.) Driving and criminal background checks for all new drivers.	a.) All operators are required to undergo a qualifications process as part of our pre-employment screening. Operators must: • Possess a High School Diploma or General Equivalency Diploma (GED). • Be licensed for a minimum of three (3) years • Must possess and maintain a valid Florida driver's license and any required endorsement to drive consistent with the State requirements for the vehicle type (number of passengers) and weigh specifications • Be proficiently trained to conduct conversations with English speaking patrons
	b.) All new operators are required to undergo preemployment background checks and MVR reviews.
(c.) Verification and documentation of valid driver licenses for all employees who drive buses.	(c.) Drivers are required to show a copy of a valid license daily when checking in with window dispatch.
(d.) Training and testing to demonstrate and ensure adequate skills and capabilities to safely operate each type of bus or bus combination before driving on a street or highway unsupervised. As a minimum requirement, drivers shall be given explicit instructional and procedural training and testing in the following areas: 1. Bus transit system safety and operational policies and procedures. 2. Operational bus and equipment inspections. 3. Bus equipment familiarization. 4. Basic operations and maneuvering. 5. Boarding and alighting passengers. 6. Operation of wheelchair lifts and other special equipment. 7. Defensive driving. 8. Passenger assistance and securement. 9. Handling of emergencies and security threats. 10. Security and threat awareness. 11. Driving conditions.	(d., 1.-11.) All operators are trained in each of the areas identified in this section. MV's training plan is provided in Section 6, Training.
(e.) Bus transit systems shall provide written operational and safety procedures to all bus drivers before driving on streets or highways unsupervised. At a minimum, these procedures and instructions shall address the following: 1. Communication and handling of unsafe conditions, security threats, and emergencies. 2. Familiarization and operation of safety and emergency equipment, wheelchair lift equipment, and restraining devices. 3. Application and compliance with all applicable federal and state laws, rules, and regulations.	(e., 1., 2., 3.) During training, all operators are provided with written training workbooks that address the items identified in this section. Additionally, printed handouts and policies are distributed during safety meetings and posted at the facility.
(f.) The provisions in paragraphs (d) and (e), above, shall not apply to personnel licensed and authorized by the bus transit system to drive, move, or road test a bus in order to perform repairs or maintenance services when it is determined that such temporary operation does not create unsafe operating conditions or create a hazard to public safety.	(f.) MV confirms compliance with this provision.

(g.) Bus transit systems shall maintain the following records for at least four years: 1. Records of bus driver background checks and qualifications. 2. Detailed descriptions of training administered and completed by each bus driver. 3. A record of each bus driver's duty status which shall include total days worked, on-duty hours, driving hours, and time of reporting on and off duty each day.	(g., 1., 2., 3.) MV maintains all employment files consistent with retention requirements set forth by the code and our customers. This includes: • Background checks and qualifications records • Training files, including any retraining, discipline, complaints, and commendations • Attendance record including lates, call off, vacation time, driving hours, and days worked
(h.) Each bus transit system shall establish a drug-free workplace policy statement in accordance with 49 C.F.R. Part 32 and a substance abuse management and testing program in accordance with 49 C.F.R. Parts 40 and 655, October 1, 2009, hereby incorporated by reference.	(h.) MV has a Zero Tolerance Drug and Alcohol Policy and Substance Abuse Program that complies with FTA and DOT standards.
(i.) Bus transit systems shall require that drivers write and submit a daily bus inspection report pursuant to Rule 14-90.006, F.A.C.	(i.) All operators are required to perform pre- and post-trip bus inspections before entering service and before ending their shift, respectively.
14 90.0041 Medical Examinations for Bus Transit System Drivers.	**Operator Monitoring Procedures**
(1.) Bus transit systems shall establish medical examination requirements for all applicants to driver positions and for existing drivers. The medical examination requirements shall include a pre-employment examination for applicants, an examination at least once every two years for existing drivers, and a return to duty examination for any driver before returning to duty after having been off duty for 30 or more days due to an illness, medical condition, or injury.	(1.) MV requires applicants to undergo this examination to establish the applicant's fitness to perform the job for which they have applied, without endangering the health and safety of themselves or others. All exams are performed by a physician or licensed medical facility designated or approved by the company. Medical exams must be conducted every (2) two years for existing drivers, and a return to duty examination for any driver prior to returning to duty after having been off duty for 30 or more days due to an illness, medical condition, or injury.
(2.) Medical examinations shall be performed and recorded according to qualification standards adopted by the bus transit system, provided the medical examination qualification standards adopted by the bus transit system meet or exceed those provided in Department Form Number 725-030-11, Medical Examination Report for Bus Transit System Driver, Rev. 05/09, hereby incorporated by reference. Copies of Form Number 725-030-11 are available from the Florida Department of Transportation, Public Transit Office, 605 Suwannee Street, Mail Station 26, Tallahassee, Florida 32399-0450 or on-line at www.dot.state.fl.us/transit.	(2.) All exams and test results are reviewed by a medical review officer (MRO) to assure compliance with DOT requirements – this review is based on the medical standards set forth by FMCSA (49 CRF 391.41) and medical guidelines. These tests also comply with the Florida Department Of Transportation Medical Examination Report For Bus Transit System Driver.
(3.) Medical examinations shall be performed by a Doctor of Medicine or Osteopathy, Physician Assistant, or Advanced Registered Nurse Practitioner licensed or certified by the State of Florida. If medical examinations are performed by a Physician Assistant or Advanced Registered Nurse Practitioner, they must be performed under the supervision or review of a Doctor of Medicine or Osteopathy.	(3.) All exams are performed by a physician or licensed medical facility designated or approved by the company.
(a.) An ophthalmologist or optometrist licensed by the State of Florida may perform as much of the medical examination as pertains to visual acuity, the field of vision, and color recognition.	(a.) All exams are performed by a physician or licensed medical facility designated or approved by the company.

(b.) Upon completion of the medical examination, the medical examiner shall complete, sign, and date the medical examination form and maintain the original at his or her office.	(b.) MV only accepts medical examination forms that are completed, signed and dated. The medical facility is required to maintain the original at their offices.
(c.) Upon completion of the medical examination, the examiner shall complete, sign, and date the medical examination certificate and provide a copy to the driver's employer. If the transit agency decides to adopt qualification standards other than those listed in Department form 725-030-11, the adopted standard's medical examination certificate or a signed letter from the medical examiner attesting to the completion of a medical examination shall be given to the transit agency in lieu of the Department's medical examination certificate. The adopted standards medical certification or letter must provide all of the information required on the Department's medical examination certificate.	(c.) MV maintains a copy of the medical examination as required.
(d.) Upon completion of the medical examination the driver shall provide their driver license number, signature, and date on the medical examination certificate.	(d.) The operator portion of the medical examination form must include the operator's license number, signature, and date.
(4.) Bus transit systems shall have on file a completed and signed medical examination certificate or a signed letter from the medical examiner attesting to the completion of a medical examination for each bus driver, dated within the past 24 months.	(4.) MV maintains a copy of the medical examination as required. Medical exams are required of each employee
(a.) Medical examination certificates or a signed letter from the medical examiner attesting to the completion of a medical examination of the employee bus drivers shall be maintained by the bus transit system for a minimum of four years from the date of the examination.	(a.) MV maintains all medical examination certificates consistent with retention requirements set forth by the code and our customers.
(b.) Bus Transit Systems shall not allow a driver to operate a transit bus without having on file a completed medical examination certificate or a signed letter from the medical examiner attesting to the completion of a medical examination dated within the past 24 months.	(b.) No operator is permitted to be released into service without having on file a completed medical examination certificate or a signed letter from the medical examiner attesting to the completion of a medical examination dated within the past 24 months
14-90.006 Operational and Driving Requirements.	**Operator Monitoring Procedures**
(1.) Bus transit systems shall not permit a driver to drive a bus when such driver's license has been suspended, cancelled, or revoked. Bus transit systems shall require a driver who receives a notice that his or her license to operate a motor vehicle has been suspended, cancelled, or revoked to notify his or her employer of the contents of the notice immediately, no later than the end of the business day following the day he or she received the notice.	(1.) MVRs may be checked during employment. Such employees must report to their supervisor a citation received in either a vehicle in Company service or personal vehicle within 24 hours. Failure to report a citation will result in immediate termination. MV retains the right to access your MVR during employment. If an operations employee in a position requiring a driver's license has his/her license suspended, restricted or revoked, as a result of a vehicle citation, his/her employment may be terminated at the sole discretion of the company.
(2.) Buses shall be operated at all times in compliance with applicable traffic regulations, ordinances, and laws of the jurisdiction in which they are being operated.	(2.) MV's road supervisor performs on-road evaluations to monitor operator's driving performance, including compliance with traffic regulations, ordinances, and laws of the jurisdiction.
(3.) A driver shall not be permitted or required to drive more than 12 hours in a 24-hour period or drive after having been on duty for 16 hours in a 24-hour period. A driver shall not be permitted to drive until the requirement of a minimum eight consecutive hours of off-duty time has	(3.,4., a., b., c., d.)) MV's operator schedules are built within the requirements of this code. The company takes operator fatigue very seriously.

been fulfilled. A driver's work period shall begin from the time he or she first reports for duty to his or her employer. A driver is permitted to exceed his or her regulated hours in order to reach a regularly established relief or dispatch point, provided the additional driving time does not exceed one hour. (4.) To ensure uniform interpretation of subsections 14-90.002(10), (11), (22) and 14-90.006(3), F.A.C., the following practical applications are provided: (a.) A driver is required to drive from 4 a.m. – 8 a.m., off-duty from 8 a.m. – 3 p.m., then required to drive from 3 p.m. – 11 p.m. Driving hours and on-duty hours are the same. 4 hours + 8 hours = 12 hours driving. This driver has met the maximum allowed driving hours within a 24-hour period and cannot be permitted or required to drive until a minimum eight consecutive hours off-duty has been fulfilled. This driver cannot be permitted or allowed to drive before 7 a.m. (b.) A driver is required to drive from 4 a.m. – 8 a.m., off-duty from 8 a.m. – 11 a.m., then required to be on-duty, not driving, from 11 a.m. – 11 p.m. Driving hours = 4 hours and on-duty not driving hours = 12 hours for a total of 16 hours on-duty. This driver has met the maximum allowed on-duty hours within a 24-hour period and cannot be permitted or required to drive until a minimum eight consecutive hours off-duty has been fulfilled. This driver cannot be permitted or allowed to drive before 7 a.m. (c.) A driver is required to be on-duty, not driving, from 4 a.m. – 8 a.m., off-duty from 8 a.m. – 11 a.m., then on-duty, not driving from 11 a.m. – 11 p.m. On-duty not driving hours = 4 hours + 12 hours for a total of 16 hours on-duty. This driver has met the maximum allowed on-duty hours within a 24-hour period and cannot be permitted or required to drive until a minimum eight consecutive hours off-duty has been fulfilled. The driver cannot be permitted or allowed to drive before 7 a.m. (d.) A driver is required to be on-duty, not driving, from 4 a.m. – 8 a.m., then off-duty from 8 a.m. – 11 a.m., then on-duty, driving from 11 a.m. – 11 p.m. On-duty, not driving hours = 4 hours and on-duty driving hours = 12 hours for a total of 16 hours on-duty. This driver has met the maximum allowed driving and on-duty hours within a 24-hour period and cannot be permitted or required to drive until a minimum eight consecutive hours off-duty has been fulfilled. This driver cannot be permitted or allowed to drive before 7 a.m.	
(5.) A driver shall not be permitted or required to be on duty more than 72 hours in any period of seven consecutive days; however, any 24 consecutive hours of off duty time shall constitute the end of any such period of seven consecutive days. A driver who has reached the maximum 72 hours of on duty time during the seven consecutive days shall be required to have a minimum of 24 consecutive hours off duty prior to returning to on duty status.	(5.) MV's operator schedules are built within the requirements of this code. The company takes operator fatigue very seriously.
(6.) A driver is permitted to drive for more than the regulated hours for the safety and protection of the public when conditions such as adverse weather, disaster,	(6.) MV understands this exception.

security threat, a road or traffic condition, medical emergency, or an accident occur.	
(7.) Bus transit systems shall not permit or require any driver to drive a bus when his or her ability is impaired, or likely to be impaired, by fatigue, illness, or other causes, likely to create an unsafe condition.	(7.) MV's dispatchers perform a fit for duty check to confirm the operator is able to operate the vehicle and is not impaired by fatigue or other causes. These individuals are also trained and certified in reasonable suspicion.
(8.) Bus transit systems shall require pre-operational or daily inspection and reporting of all defects and deficiencies likely to affect safe operation or cause mechanical malfunctions. (a.) An inspection or test shall be made of the following parts and devices to ascertain that they are in safe condition and in good working order: 1. Service brakes. 2. Parking brakes. 3. Tires and wheels. 4. Steering. 5. Horn. 6. Lighting devices. 7. Windshield wipers. 8. Rear vision mirrors. 9. Passenger doors. 10. Exhaust system. 11. Equipment for transporting wheelchairs. 12. Safety, security, and emergency equipment. (b.) Bus transit systems shall review daily inspection reports and document corrective actions taken as a result of any deficiencies identified by daily inspections. (c.) Bus transit systems shall retain records of daily bus inspections and any corrective action documentation a minimum of two weeks.	(8. a., b., c.) All operators are required to perform pre- and post-trip bus inspections prior to entering service and before ending their shift, respectively. All documentation is retained as required.
(9.) A bus with any passenger door in the open position shall not be operated with passengers aboard. The doors shall not be opened until the bus is stopped. A bus with any inoperable passenger door shall not be operated with passengers aboard, except to move a bus to a safe location. (10.) During darkness, interior lighting and lighting in stepwells on buses shall be sufficient for passengers to enter and exit safely.	(9.) and (10.) Safety issues identified during the pre and post trip inspections are cause for the vehicle to be placed out of service. Drivers are trained in reporting these issues and lock-out tag-out actions are taken to prevent any safety issues.
(11.) Passengers shall not be permitted in the stepwells of any bus while the bus is in motion, or to occupy an area forward of the standee line.	(11.) and (12.) Operators are trained in on-board safety; in no situation is a passenger able to stand in the stepwells of any bus while the bus is in motion, to occupy an area forward of the standee line, or to stand on a vehicle not designed for standees.
(12.) Passengers shall not be permitted to stand on buses not designed and constructed for that purpose.	
(13.) Buses shall not be refueled in a closed building. The fueling of buses when passengers are being carried shall be reduced to the minimum number of times necessary during such transportation.	(13.) All vehicles are fueled while they are out of service.
(14.) Bus transit systems shall require the driver to be properly secured to the driver's seat with a restraining belt at all times while the bus is in motion.	(14.) All MV operators are trained in using seatbelts as required. Additionally, each are trained and certified in mobility device securement.

(15.) Buses shall not be left unattended with passengers aboard for longer than 15 minutes. The parking or holding brake device shall be properly set at any time the bus is left unattended.	(15.) and (16.) All operators are trained to not leave a vehicle unattended for more than 15 minutes, or in an unsafe condition. Any time the vehicle is left unattended, the operator is trained to use the parking brake.
(16.) Buses shall not be left unattended in an unsafe condition with passengers aboard at any time.	

8. Chapter 427, Florida Statutes

MV has been the CTC in Alachua County since 2003 and manages the program under all of the requirements outlined in F.S. Chapter 427 and provides all direct service. In this role, MV has relationships with several funding streams, including DOEA, CTD, FDOT, Elder Care, Santa Fe Community College and the City of Gainesville.

9. Compliance with ADA, Federal, state, and local requirements in serving people with disabilities

The Americans with Disabilities Act (ADA) was passed in 1990 and essentially picks up where Section 504 of the Rehabilitation Act passed in 1973 left off. Borrowing from the Section 504 definition of a person with disabilities and using the familiar three-pronged approach to eligibility (has a physical or mental impairment, a record of impairment, or is regarded as having impairment,) the ADA applied those standards to most private sector businesses and sought to eliminate barriers to disabled access in buildings, transportation, and communication. To a large degree, the passage of the ADA supplants the employment provisions of 504, reinforces the accessibility requirements of 504 with more specific regulations, and strongly supports a disabled individual's right to access public transportation services.

In accessing public transportation, one of the provisions included is ensuring access to disabled individuals where "fixed route" services exist through complementary paratransit service. MV performs a number of complementary paratransit services throughout the nation.

All facilities that MV uses are accessible according to ADA standards to accommodate staff as well as passengers and others that would access the facility.

Americans with Disabilities Act

ADA compliance is a critical component of MV's operator training program and ensures that the Company's operations are ADA compliant. During training, operators receive an overview of various disabilities as defined by the ADA, as

well as an understanding of the law's requirements. Training also includes practical instruction in how to assist and secure passengers in mobility devices to ensure their safety and comfort.

ADA compliance is also upheld through MV's safety and maintenance programs. As part of MV's safety awareness efforts, employees must attend a monthly safety meeting, during which they receive refresher training in safety topics, which includes assisting passengers with disabilities and the safe securement of mobility devices. Mobility device lifts are cycled and inspected during each pre-trip inspection, and thoroughly inspected at each preventive maintenance inspection to ensure the safety of MV's mobility-disabled passengers.

Further, compliance with the provisions of this important law by all MV employees is monitored and enforced by the Company's legal and human resources teams.

Title VI

As required, MV has developed Title VI procedures for all complaint investigation, tracking, and issue determination on any submitted service complaints. Additionally, the company has developed a Title VI program in accordance with FTA Circular 4702.1A and has included Title VI and LEP population considerations in all outreach efforts.

10. Public Law 112-141 – Map 21

On July 6, 2012, President Obama signed into law a new two-year transportation reauthorization bill, the Moving Ahead for Progress in the 21st Century Act ("MAP-21"; P.L. 112-141). This new law includes many important provisions intended to help the Federal Motor Carrier Safety Administration (FMCSA) in its important mission to reduce crashes, injuries and fatalities involving large trucks and buses. Many of the provisions in MAP-21 track the Agency's strategic framework to improve commercial motor vehicle (CMV) safety by supporting its three core principles:

1. Raise the bar to enter the industry and operate on our roads;
2. Hold motor carrier and drivers to the highest safety standards to continue operations; and
3. Remove the highest risk drivers, vehicles, and carriers from our roads and prevent them from operating.

MV has a long relationship with FDOT officials and works closely to make safety the highest priority in meeting the objectives of MAP-21.

6. Training

6. Training

Provide a detailed description of all training that will be provided to respondent personnel during the course of providing service pursuant to this ITN.

a. MV Training Programs

MV remains committed to the professional development of our team members across all functions os that we may better serve our clients and passengers. Our training programs are an important vehicle to develop high-caliber staff, and future leaders.

Operator Training

MV considers the safety of customers, employees, and the public as being of paramount importance in all aspects of service management and operations. We use a state-of-the-art training program that our safety and training team developed in partnership with AVATAR Fleet. This program uses an adult-based learning platform and is designed to transform new hires into professional operators.

The program is modular based, meaning we can substitute or add in parts of the training that apply specifically to the service we are providing and the passengers we serve. Moreover, the individual modules can be easily repurposed in retraining and refresher sessions throughout an employee's career.

The company is constantly working with its teams to refine this training; most recently in 2017, MV worked with AVATAR to refresh the training to meet the changing needs of our industry. This resulted in additional training areas to ensure a best-in-class workforce.

The program combines training in the classroom and on-board the bus, and includes bus orientation, driving observation, closed course, and in-service practice. Throughout the training sessions, trainees are quizzed and tested to ensure they have a strong grasp of the concepts taught before moving forward. Interactive, comprehensive, and safety-focused, this training has produced an exceptional workforce in MV's locations across the country.

Overview of Training Components

The overall hours of training provided for each service mode are as follows, and we have an extensive and detailed training curriculum available upon request.

Component	Paratransit Hours	Fixed Route Hours
Classroom	20.33	20.33
Pre-Driving Skills	4.50	4.50
Observation	25.50	36.00
Behind the Wheel	21.00	31.50
Cadetting	16.00	16.00
Total	**87.33**	**108.33**

Each training component has a purpose and contributes to building a professional operator. Individually, these sessions provide the education and training needed to drive professionally. Together, they provide the right foundation for a safe, tenured professional operator.

- **Classroom Training:** Classroom training is instructor-led. Trainees receive education using a combination of video, lectures, and interactive discussions. These concepts taught are reinforced with a written study guide. The topics addressed in classroom training include but are not limited to defensive driving principles, hazardous communication, security awareness, employee policies and procedures, employee wellness, sexual harassment, bloodborne pathogens, map reading, and on-road procedures. Each module ends with a test, and when classroom training is completed, trainees take a cumulative, closed-book exam. Employees must pass with a score of 80 percent or higher to proceed to the next phase of training.

- **Pre-Driving Skills:** Pre-driving training occurs on the vehicle. During this training the trainees are familiarized with the vehicle and its size and spacing. They have a chance to sit in the driver's seat and learn about the various on-board controls, mirrors, and any on-board technology.

- **Observation Training:** During the observation portion of training, students observe a certified trainer operate the vehicle. This provides insight into how they must handle the vehicle and how proper vehicle handling impacts the passenger experience. The trainer comments throughout the observation training, explaining to the trainees what he or she is doing.

- **Behind the Wheel (BTW) Training:** The behind the wheel (BTW) training portion of training affords the trainee the opportunity to master what they have learned in the classroom and on board the bus, to hone their driving skills. This training starts on a closed course, then moves on to the road. Behind the wheel training confirms the trainee possesses the skills necessary to ensure the safe on-road operation of the vehicle. All trainees must demonstrate mastery of 26 specific defensive driving and performance skills before graduation. During these sessions, trainees are introduced to major trip generators, such as transit centers, adult day health care centers, senior centers and dialysis centers. This familiarizes students with common stops and establishes relationships with staff and passengers within the service area.

- **Cadet Training:** After completion of the behind the wheel training, each trainee is provided with in-service cadet training with a line trainer. Operators operate the vehicle and all on-board technology in service and interact with the passengers on a practical level. During cadet training, the trainee is closely monitored and receives his/her final road and training evaluation. Any areas of needed remedial training are identified and documented. *MV recognizes that not every operator is one hundred percent ready to enter revenue service after the base training program; MV offers up to 40 hours of remedial training. During the cadetting period, any areas of needed retraining are identified and administered based on this need.*

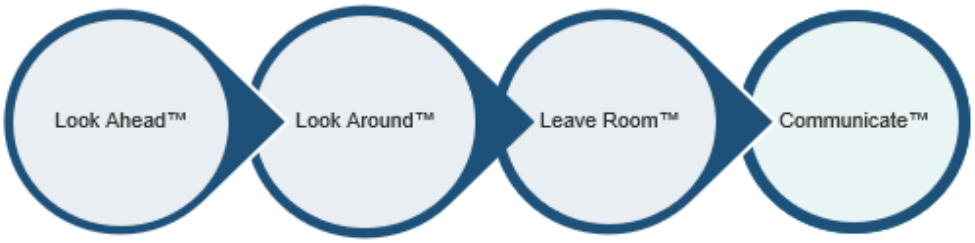
- **Post-Training Checks:** To confirm the effectiveness of our training program, we check each new operator's performance at 45, 60, and 90 days post-training.

Foundation of Our Program

Like our operations, our training is based on a foundation of safety and customer focus. Driving principles echoed throughout the learning process focus on safety, preventability, customer care, and outstanding service.

LLLC Defensive Driving

MV built its training curriculum upon the Triple L-C, an elegant and easy-to-remember defensive driving course that teaches professionals *The Four Driving Principles to Safety*™:



LLLC is predicated on the concept that all accidents have a cause, which can always be traced back to one or more people – most commonly the operator of one of the vehicles involved in the collision. Whether an operator's action or inaction contributed to the collision, the collision is preventable. LLLC teaches our operators to drive to prevent collisions, by looking ahead, looking around, leaving room and communicating.

By using these four principles, operators maintain the maximum amount of room around their vehicle, improve their visibility, gain the extra time and information needed to make critical decisions while driving, and effectively interact with others on the road to prevent collisions.

These principles are reinforced throughout MV's training program and provide trainees with everything they need to know to avoid collisions. Ultimately, the course helps operators see, think, and act their way through any driving situation.

Passenger Assistance

MV places a strong focus on passenger sensitivity and assistance. This training starts with educating our trainees in the various disabilities that our passengers may have – and the diverse set of mobility devices they may use. Professional and compassionate assistance is core to our commitment to both safety and customer service.

During operator training, we tailor our passenger assistance session to the service we provide; however, all training emphasizes courtesy, understanding, and the operator's responsibility to serve all passengers with equity and respect.

All operators are trained in the safe and careful boarding and securement of people using various mobility aids. This provides a realistic understanding of the time and attention required of this process.

Our training sessions include interactive sessions with trainees to foster an experiential understanding navigating the system with a disability. This includes having trainees board the bus using a mobility device, or with their eyes closed. We also invite representatives from the community, local advocacy groups, and care facilities to speak to our trainees during the classroom sessions. Here, trainees can ask questions and learn more about the various experiences of our passengers.

At the end of this training, operators must become certified in mobility device securement. This certification is administered annually to ensure the ongoing safety of our passengers.

Platinum Connection Customer Service Training

MV is excited to present its customer service program, Platinum Connection Customer Service (PCCS). Developed by a cross-functional MV-leadership team and led by its Safety and Learning & Development departments, PCCS is based on the principle known as the Platinum Rule – do unto others as THEY would like to be treated.

During the transition period, MV will administer this training to each of its Okaloosa operators. It is important that this training is administered to every single employee across all departments; this ensures that each MV employee is working from the same playbook.

PCCS is a 4-hour, facilitator-led course that focuses on MV's vision of customer service and on how MV employees connect with customers. MV has a broad definition of the customer, and it is important that this is defined within this training: "A Customer is anyone who depends on you, whether it is your co-workers, clients or your passengers."

This program teaches employees how to make customer-centric, solution-focused choices with a focus on personal responsibility. This interactive program will use video examples of customer service situations to guide participant

discussion. Then the learning is locked in with engaging facilitator-led activities to enable participants to practice their customer service skills.

The program will build on the following questions:

Why does this matter to me?

- These skills makes your job easier and improve your work life satisfaction

What is PCCS?

- A customer-centric, solutions-focused approach to connecting with customers based on the platinum rule

How do I provide PCCS to my customers?

- By treating customers as they want to be treated.

How do I treat my customers as they want to be treated?

- We use A.C.E. to help participants remember the strategies.
- A= Attitude (self-awareness, awareness of customer expectations)
- C= Choice (Communication- verbal and non-verbal, conflict management)
- E= Empathy (putting yourself in someone else's shoes)

PCCS will be incorporated into the Monthly Safety Meetings to keep customer service top of mind because treating our customers well is an important piece in creating a safe environment.

Training Modules – Fixed Route

- **Welcome to MV Transportation:** Introduces drivers to company mission, company history, structure, and approach to services. Describes the rewards of working for MV, incentives and awards for passenger care and safety. Overview of the basics of quality. (30 minutes)

- **The Katherine McClary Story:** Defines "accident" and emphasizes the consequences of driver inattention through the tragic story of Katie McClary, a 25-year old Duke Honor graduate and high school basketball coach who was accidentally struck and killed by a bus in North Carolina in 2004. (30 minutes)

- **The MV Transportation Professional:** Describes MV's commitment to service and driver's responsibility to protect MV's values. Gives tenets of professional driving, including knowledge, skill set, and attitude. Presents the importance of presenting a professional image to MV's passengers, including

appearance and customer service. Describes the essentials of handling difficult situations. (30 minutes)

- **Hazards Communication:** Defines common industrial chemical hazards and the importance of safe handling, reading material safety data sheets, personal protective equipment, and the proper response for personal exposure to chemicals or hazardous materials, as well as spills and leaks. (30 minutes)
- **Drug and Alcohol Policies and Procedures:** Describes prohibited substances and their detrimental effects, gives an overview of the history behind government policies regarding substance abuse. Discusses occasions for DOT drug and alcohol testing, testing procedures. Presents MV's Zero Tolerance Substance Abuse Policy. (60 minutes) *A copy of our Drug and Alcohol Policy is provided in the appendix of this proposal.*
- **Fatigue Management:** Defines fatigue, sleep debt, sleep disorders, and the risks of lack of sleep. Gives guidance and tips for more effective sleep for alertness management. (30 minutes)
- **Wellness:** Discussion on the importance of maintaining a healthy lifestyle through diet and exercise, sleep, stress management, and other healthy habits. (30 minutes)
- **Whistleblowers:** Presents Open Door Policy, OSHA's Whistleblower Regulation, and protection under law and MV policy. (30 minutes)
- **Sexual Harassment:** Discussion on anti-discrimination law and company policies, emphasizes mutual respect, and gives guidelines for dealing with sexual harassment. (30 minutes)
- **Bloodborne Pathogens:** Provides guidelines for occupational exposure in the event of an emergency, accident, or personal exposure. Defines bloodborne pathogens and how they are transmitted. (30 minutes)
- **NTI – Warning Signs:** Discussion on system security awareness. Gives guidelines for maintaining safety of the transit system, including monitoring work areas, inspecting vehicles, identifying suspicious behavior, and emergency response procedures. (30 minutes)
- **Map Reading:** Principles of reading maps, identifying coordinates, how to recover from getting lost. (30 minutes)

- **On the Road:** Discusses vehicle dynamics and road operations, running late, running hot, fares and local requirements, gives introduction to local mobile data terminal and dispatch procedures, picking up passengers, and vehicle placement – including backing up, allowing clearance, and pedestrian awareness. (30 minutes)
- **The Basics of Safety:** Defines safety, accidents, and how accidents occur. Discusses risk reduction, accident prevention, identifying unsafe behaviors that lead to accidents, and the 300:29:1 theory. (60 minutes)
- **LLLC Defensive Driving:** Gives four main principles of safe driving - “Look Ahead”, “Look Around”, “Leave Room”, “Communicate”. (60 minutes)
- **Introduction to the Bus:** Introduces the differences between driving a car and driving a transit vehicle, vehicle systems, and vehicle maneuvers, such as assessing clearance, making turns, etc. (30 minutes)
- **Pre-Trip Inspections, Post-Trip Inspections, and Air Brakes:** Discusses the reasons for pre-trip inspections, using a consistent approach, the seven steps of the inspection, and post-trip inspections. (60 minutes)
- **Mirrors and Reference Points:** Mirror adjustments, identifying and using reference points. (60 minutes)
- **DriveCam:** Introduces the DriveCam system and how it works to document incidents, unsafe driving behaviors, and to protect drivers. (30 minutes)
- **Following Distance:** The fundamentals of setting an appropriate following distance in all situations. (30 minutes)
- **Backing Basics:** Backing safety, factors leading to backing accidents, guidelines for proper backing. (30 minutes)
- **Intersections:** Discusses types of intersections and determining and yielding the right of way, preventing accidents at intersections, safe turns. Emphasizes defensive driving, paying attention and “expecting the unexpected”. (30 minutes)
- **Merging, Lane Changing, and Passing:** Covers techniques and hazards of merging onto a highway, exiting a highway, merging within the flow of traffic, lane changing and executing passing maneuvers. (30 minutes)

- **Railroad Crossings:** Discusses hazards of crossing a railroad in a transit vehicle, evacuating the vehicle in the event it stalls on the railroad tracks, steps for safe railroad crossing. (30 minutes)
- **Pedestrian and Bicycle Awareness:** Discusses various hazards associated with pedestrians and bicyclists, ensuring pedestrian and bicycle safety on the road. (30 minutes)
- **Special Conditions:** Covers various weather and special conditions that can lead to an accident and the procedures for operating safely in specific conditions. (30 minutes)
- **Post-Accident Procedures:** Covers the proper procedures for assessing the situation, proper responses in the event of an accident or emergency, bus evacuations and what information to provide/collect following an accident, handling the media. (30 minutes)
- **Federal Regulations:** Discussion on Federal regulations regarding Motor Vehicle Record checks, physical requirements and disqualifying medical conditions, hours of service requirements (driving and non-driving work hours) and keeping accurate logs. (30 minutes)
- **ADA Intro to Special Needs Passengers:** Overview of various disabilities and ADA requirements. (30 minutes)
- **ADA Sensitivity:** Gives guidelines for proper handling of passengers with specific disabilities, including visually impaired, deaf or hearing impaired, mobility disabled, developmentally disabled, and other disabilities protected by the ADA. Describes proper handling of service animals. (60 minutes)
- **ADA Lift Operations/Securement:** Overview of types of mobility devices and procedures for properly and sensitively assisting passengers who use them, securement procedures, passenger pickup and drop-off, assisting passengers in and out of seats, and driving for the safety and comfort of passengers in mobility devices. (60 minutes)

Training Modules – Paratransit

- **Welcome to MV Transportation:** Introduces drivers to the company mission, company history, structure, and approach to services. Describes MV incentives and awards for passenger care and safety. Overview of the basics of quality. (40 minutes)

- **The Katherine McClary Story:** Defines “accident” and emphasizes the consequences of driver inattention through the tragic story of Katie McClary, a 25-year old Duke Honor graduate and high school basketball coach who was accidentally struck and killed by a bus in North Carolina in 2004. (15 minutes)

- **The MV Transportation Professional:** Describes MV’s commitment to service and driver’s responsibility to protect MV’s values. Gives tenets of professional driving, including knowledge, skill set, and attitude. Highlights the importance of presenting a professional image to MV’s passengers, including appearance and customer service. Describes the essentials of handling difficult situations. (20 minutes)

- **Hazards Communication:** Defines common industrial chemical hazards and the importance of safe handling, reading material safety data sheets, personal protective equipment, and the proper response for personal exposure to chemicals or hazardous materials, as well as spills/leaks. (20 minutes)

- **Drug and Alcohol Policies and Procedures:** Describes prohibited substances and their detrimental effects, gives an overview of the history behind government policies regarding substance abuse. Discusses occasions for DOT drug and alcohol testing, testing procedures. Presents MV’s Zero Tolerance Substance Abuse Policy. (60 minutes)

- **Fatigue Management:** Defines fatigue, sleep debt, sleep disorders, and the risks of lack of sleep. Gives guidance and tips for more effective alertness management. (25 minutes)

- **Wellness:** Discussion on the importance of maintaining a healthy lifestyle, through diet and exercise, sleep, stress management, and other healthy habits. (15 minutes)

- **Whistleblowers:** Presents Open Door Policy, OSHA’s Whistleblower Regulation, and protection under law and MV policy. (15 minutes)

- **Sexual Harassment:** Discussion on anti-discrimination law and company policies, emphasizes mutual respect, and gives guidelines for dealing with sexual harassment. (25 minutes)

- **Bloodborne Pathogens:** Provides guidelines for occupational exposure in the event of an emergency, accident, or personal exposure. Defines bloodborne pathogens and how they are transmitted. (20 minutes)

- **NTI – Warning Signs:** Discussion on system security awareness. Gives guidelines for maintaining safety of the transit system, including monitoring work areas, inspecting vehicles, identifying suspicious behavior, and emergency response procedures. (30 minutes)
- **Map Reading:** Principles of reading maps, identifying coordinates, how to recover from getting lost. (30 minutes)
- **On the Road:** Discusses vehicle dynamics and road operations running late, running hot, fares and local requirements, gives intro to local mobile data terminal and dispatch procedures, picking up passengers, and vehicle placement – including backing up, allowing clearance, and pedestrian awareness. (30 minutes)
- **The Basics of Safety:** Defines safety, accidents, and how accidents occur. Discusses risk reduction, accident prevention, identifying unsafe behaviors that lead to accidents, and the 300:29:1 theory. (45 minutes)
- **LLLC Defensive Driving:** Gives four main principles of safe driving - "**L**ook Ahead", "**L**ook Around", "**L**eave Room", "**C**ommunicate". (30 minutes)
- **Introduction to the Bus:** Introduces the differences between driving a car and driving a transit vehicle, vehicle systems, and vehicle maneuvers, such as assessing clearance, making turns, etc. (30 minutes)
- **Pre-Trip Inspections, Post-Trip Inspections, Air Brakes:** Discusses the reasons for pre-trip inspections, using a consistent approach, the seven steps of the inspection, and post-trip inspections. (60 minutes)
- **Mirrors and Reference Points:** mirror adjustments, identifying and using reference points. (30 minutes)
- **DriveCam:** Introduces the DriveCam system and how it works to document incidents and to protect drivers. (15 minutes)
- **Following Distance:** The fundamentals of setting an appropriate following distance in all situations. (30 minutes)
- **Backing Basics:** Backing safety, factors leading to backing accidents, guidelines for proper backing. (20 minutes)
- **Intersections:** Discusses types of intersections and determining and yielding the right of way, preventing accidents at intersections, safe turns.

Emphasizes defensive driving, paying attention and “expecting the unexpected”. (20 minutes)

- **Merging, Lane Changing, and Passing:** Covers techniques and hazards of merging onto a highway, exiting a highway, merging within the flow of traffic, lane changing and executing passing maneuvers. (30 minutes)
- **Railroad Crossings:** Discusses hazards of crossing a railroad in a transit vehicle, evacuating the vehicle in the event it stalls on the railroad tracks, steps for safe railroad crossing. (20 minutes)
- **Pedestrian and Bicycle Awareness:** Discusses various hazards associated with pedestrians and bicyclists, ensuring pedestrian and bicycle safety on the road. (25 minutes)
- **Special Conditions:** Covers various weather and special conditions that can lead to an accident and the procedures for operating safely in specific conditions. (45 minutes)
- **Accident and Emergency Procedures:** Covers the proper procedures for assessing the situation, proper responses in the event of an accident or emergency, bus evacuations and what information to provide/collect following an accident, handling the media. (30 minutes)
- **Federal Regulations:** Discussion on Federal regulations regarding Motor Vehicle Record checks, physical requirements and disqualifying medical conditions, hours of service requirements (driving and non-driving work hours) and keeping accurate logs. (30 minutes)
- **ADA Intro to Special Needs Passengers:** Overview of various disabilities and ADA requirements. (15 minutes)
- **ADA Sensitivity:** Gives guidelines for proper handling of passengers with specific disabilities, including visually impaired, deaf or hearing impaired, mobility disabled, developmentally disabled, and other disabilities protected by the ADA. Describes the proper handling of service animals. (30 minutes)
- **ADA Lift Operations/Securement:** Overview of types of mobility devices and procedures for properly and sensitively assisting passengers who use them, securement procedures, passenger pickup, and drop-off, assisting passengers in and out of seats, and driving for the safety and comfort of passengers in mobility devices. (45 minutes)

Ongoing/Refresher Training

Vehicle Operators

In addition to refresher training provided during MV's monthly safety meetings, MV requires mandatory retraining at the following points of an operators' employment:

Type of Retraining	When it is provided	Length of Training	Description of Training
Return to Work (after 30 days or more of inactive status)	Required when an operator returns from "inactive" status (from a period of 30 days or more).	8 hours	This training consists of a 6-hour classroom review and a 2-hour behind the wheel road check. These focus on safety standards, defensive driving skill, and vehicle familiarity.
Post-Accident / for cause	Required for any driver who has received a "preventable" rating for an accident/ incident. This training must be scheduled and given within 10 days following the formal accident rating.	Varies based on the operator's ability to perform the appropriate tasks to standard.	Post-accident retraining is focused on correcting driving deficiencies and standards that contributed to the accident. The operator must demonstrate ability to perform all of the required tasks to standard before being allowed back to driving duties.
Seasonal Refreshers	These refreshers are conducted in preparation of operations during certain periods of the year, typically in the fall.	Varies based on location and topics.	The training will include topics/material appropriate for the region, inclement weather, environmental, and traffic conditions.
Biannually	At a minimum of every two years	8 hours	This training consists of a 6-hour classroom review and a 2-hour behind the wheel road check. These focus on safety standards, defensive driving skill, and vehicle familiarity.

Staff/Dispatch/Radio Personnel

In addition to the 12 hours per year for monthly safety meetings, monthly departmental meetings are held where relevant topics are discussed. Customer service, efficient reporting, best uses of provided technology, etc. are discussed providing an additional 12 hours of retraining per year.

Supervisory Personnel

In addition to the 12 hours per year for monthly safety meetings, operations team meetings are held to discuss refreshers on reasonable suspicion, accident response, customer service, etc. This provides an additional eight (8) hours of retraining per year.

Start-up and Ongoing Training Instructors

Start-up: Start-up training will be headed up by our safety and training manager with our director of safety also onsite for the start-up period. For Behind the Wheel Training, our Behind the Wheel Trainers will be on hand to assist training. MV requires 8 percent of the driver's work force to be Behind the Wheel Instructors, re-certified on an annual basis. Classroom training is led by the safety and training manager along with a lead trainer.

Ongoing: Both ongoing Behind the Wheel training and classroom training are led by the safety and training manager with the support of the Behind the Wheel trainer

Manager Training Programs

Understanding that success must start at the top, MV invests in manager development. The company encourages these individuals to continue developing their leadership skills to provide better guidance to their teams and increase their confidence to enact positive change at their location.

MV's "GM Essentials" and "Leading a Division" management training programs are designed to promote competencies essential to succeeding in the general manager role. These include:

- Organizing and planning
- Strategic problem solving
- Decision making
- Communications
- Relationship building
- Financial analysis
- Initiative and action orientation
- Client relations

- Adaptability
- Accountability/results orientation
- Developing and engaging people

GM Essentials

MV's "GM Essentials" training program for managers establishes clear and realistic expectations for the general manager's career. Available to any MV manager, orientation is structured in a weeklong, instructor-led training format, with an introduction from senior executives.

New general managers receive an overview of the first few months on the job and are provided the tools to be successful in their leadership role. Individuals are also introduced to the very important compliance aspect of the general manager position, as well as contract management, finance, safety, maintenance, procurement and bid model development, wage and hour requirements, labor relations, and recruiting.

Trainees receive numerous materials and tools for reference throughout their career with MV.

Leading a Division

In 2018, MV will launch a general manager development program, "Leading a Division." This program was designed to prepare our new general managers, operations managers, and assistant general managers to lead their operating divisions. The immediate benefit to our clients is a pool of highly-trained and prepared internal manager candidates to fill roles that become vacant.

"Leading a Division" is a structured training program that is tailored to each candidate's existing knowledge and proficiencies. Coursework spans six key components – safety, human resources, operations, maintenance,

finance, and client. Training topics include recruiting, drug and alcohol, labor and wages, business development, contracts, and other relevant topics.

The program will be administered at the local level by the candidate's general manager. Each candidate will follow an individual development plan, guided by his/her general manager or regional vice president.

Candidates will also participate in regional conference calls with a senior operations leader and a representative from human resources to report progress.

Ongoing Manager Training

We have partnered with SkillSoft, a premier e-learning firm, to provide MV University online classes for continued learning. Through this partnership, our leaders have easy access to continued development in MV's values and leadership competencies. Courses include:

- Supervisor/Manager Sexual harassment awareness
- Code of Conduct
- MV Safety Leadership
- Workplace Diversity Awareness

b. Hazardous Materials Incidents Training

The basic goal of an effective hazard communication program is to ensure employers and employees know the identities and hazards of chemicals in their workplaces. When employers and employees have such information, it can be used to design and implement appropriate protective measures to reduce the incidence of adverse effects.

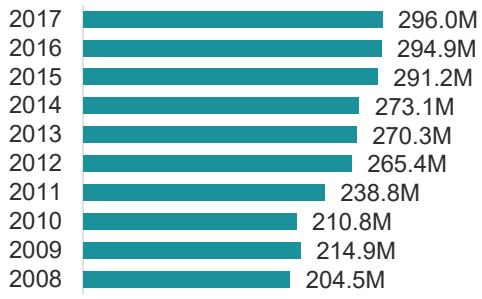
Due to the seriousness of these safety and health issues, the Occupational Safety and Health Administration (OSHA) has developed the Hazard Communication Standard (HCS), 29 CFR 1910.1200. It requires employers to provide information to employees regarding the hazardous chemicals in the workplace and the hazardous properties of these chemicals. This information must be disseminated through a hazard communication program involving labeling, safety data sheets (SDS), employee training, employee access to written records, and a written hazard communication plan. The implementation of the hazard communication program will ensure all employees have the "right-to-know" and "right-to-understand" the hazards and identities of the chemicals with which they work.

Each MV operation has a Hazards Communication Plan, which is customized to the specific needs and requirements of the contract. MV's complete Hazards Communication Plan is available upon request.

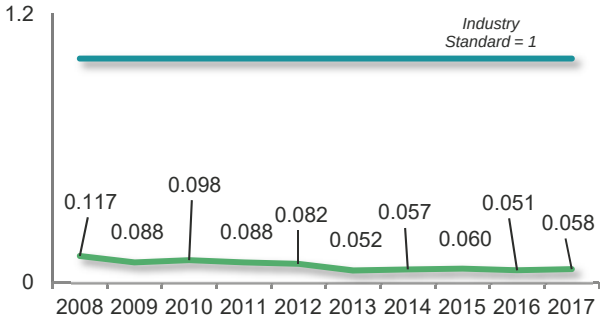
c. Safety and Security Program

In 2017, MV operated approximately 296,000,000 miles in areas of high density, extreme weather, and gridlock traffic. From the borough of Manhattan to downtown Los Angeles, to Anchorage, Alaska and Las Vegas, Nevada – our company provides passenger transportation service in some of the most challenging operating environments. We have maintained stellar safety performance – with a 2017 accident frequency rating of just 0.058 preventable accidents that meet NTD reporting thresholds.

MV Miles Driven



MV Preventable Accident Frequency*



*Based on NTD reportable thresholds

MV's safety and security program is built upon five core tenets of safe service operation:

- People perform their jobs well when they are motivated
- We must constantly remind our team of the importance of safety
- Providing opportunities of employee development improve safety performance
- Safety is enhanced with on-board monitoring systems
- Safety policies and procedures establish the framework from where our safety program will flourish.

The chart below is copy of MV's Safety Record in our Palm Beach, Florida operation. We've also included the accident/incidents rate per 100,000 miles.

Year	AL-GL	Miles	Miles between Incidents	Accidents per 100,000 Miles
2015	12,595	284,318,745	22,574	**4.4**
2016	12,990	279,084,065	21,485	**4.7**
2017	14,486	287,186,409	19,825	**5.0**
2018 (Jan-Jul)	7,920	168,903,676	21,326	**4.7**

Motivational Awards and Incentives

Employee recognition and positive reinforcement is an important part of a positive work culture and employee relations program. We tie this critical component of our operation to safety and security by creating fun, safety-focused teambuilding activities throughout the calendar year. Competitions, contests, raffles, and parties bring our team together while promoting safety operating behaviors – creating an environment where safety remains the basis for the company's culture, celebration, and reward.

MV's Okaloosa team will work together to form a Safety Committee to develop and ensure a team approach to maximizing operational safety. The committee will work together to develop motivational awards and company events that appeal to the local team. Some examples of successful programs include:

- **"DriveCam Event-Free" contest:** All operators participate in this monthly pool. A vehicle operator without a DriveCam incident within the 30 days, qualify to participate in a raffle to receive a gift certificate for dinner, movie tickets, and Target or Wal-Mart gift cards. The recipients are also recognized during monthly safety meetings, and their name is displayed on the company's service excellence announcement board.

- **Safety Challenges:** Employees that complete 30 days without a preventable incident are eligible to win prizes including televisions and mobile devices.

In addition, each MV location participates in company-wide programs:

- **The Katherine McClary Operator Award:** This award recognizes our finest vehicle operators across the country. Qualifying operators must exhibit safe and professional driving behavior, a positive work attitude, excellent customer relationships skills and strong attendance record. Quarterly, annual, regional and national awards are presented.

- **$200 Safety Bonus:** Operators exhibiting safe driving behavior (no preventable incidents) and a strong attendance record receive a $200 annual bonus on the anniversary of their hire date.

- **Safety Pins and Patches:** Operators are given safety pins and patches for each year completed without a preventable accident or injury.
- **Safety Blitzes and Other Safety Events:** Our local Okaloosa management team will host safety blitzes and/or other employee events to promote safety messages.

Safety Awareness

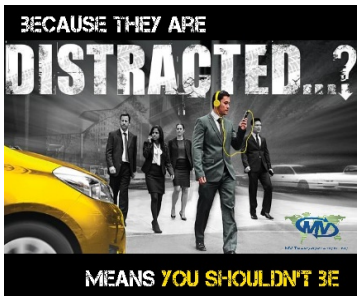
Safety Board

We will provide a safety board in the operator break room and call center. These monitors display audience-tailored content throughout the day, delivering safety messages, timely information, performance data, and important notifications from the County.

Safety Board Content				
Corporate Information	**Location Safety Scoreboard**	**Live Information**	**Maintenance Information**	**Call Center Information**
• Daily Safety Message • CEO Messages • Company & Client Directives • Monthly Required Safety Meeting Topics	• Location Identifier • Accidents Month to Date • Days Without a Preventable Accident • Days Without a Work-Related Injury • Safety Meeting Dates & Times	• DriveCam Clips • Current Weather • Breaking News • Live Traffic Map • Live Tweets	• OSHA Information • Shop Related Slides • DriveCam Clips	• OTP Statistics • Employee of the Month

Safety Messages

Daily, a corporate issued safety message is published and delivered to all MV locations. Each message is posted at the location and read over the radio by dispatch. Additionally, all meetings and conference calls must begin with a safety message.



Mandatory Safety Meetings

Safety meetings offer an opportunity to provide refresher training and address timely topics. All our Okaloosa employees must attend this hour-long meeting each month.

We hold multiple meetings to accommodate operator and staff schedules.

All safety meeting agendas are issued by our central safety team and address various safety-related topics. Additionally, monthly safety tasks are assigned with the safety meeting schedule (see table below).

Every MV location receives a safety meeting support packet to aid the meeting facilitator. Support packets include the meeting agenda, an outline for the meeting discussion, and supporting handouts and posters.

2018	*Fleet Safety Topic*	*Injury Prevention Topic*	*Monthly Task*
January	Defensive Driving	Slips/Falls	Facility Inspection Complete OSHA log 2018
February	Intersections and Pedestrians	Bloodborne Pathogen (operator edition)	Facility Inspection Post-2018 OSHA 300A Summary
March	Right Turns and Pedestrians	HAZCOM/ Lock Out–Tag Out	Facility Inspection OSHA log review
April	Left Turns and Pedestrians	Emergency Vehicle Evacuation	Facility Inspection
May	Following Distance	Heat Stress	Facility Inspection. Review OSHA 300A Summary

June	Fixed Objects	Back Safety Using Wheelchair Securement	Facility Inspection National Safety Month
July	Mobility Device Securement	Ergonomics	Facility Inspection Wheelchair Re-certifications
August	Customer Service & ADA Sensitivity Announcements	Fatigue Management / Wellness	Facility Inspection OSHA Log Review
September	Pedestrians and Cyclists	Injury and Illness Prevention Program (IIPP)	Facility Inspection/ Review and Update - Facility Emergency Action Plan (Safety Policy #21)
October	Distracted Driving	Fire Safety / Fire Extinguisher Training	Facility Inspection
November	Adverse Weather	Emergency Action Plan / Fire Drill	Facility Inspection
December	Defensive Driving and Recap	11 Month Review	Facility Inspection OSHA Log Review

Safety Committee

During the transition period, MV will appoint a safety committee that works together to create and maintain a safe work environment for all employees. This committee will be responsible for developing a customized safety curriculum to boost the community's knowledge of safe transportation rules and regulations.

This team has a significant role in reducing and resolving location hazards and soliciting employee feedback. They will determine the various safety incentives, competitions and recognition programs, and they will establish creative methods of garnering employee feedback.

The safety committee comprises one or more representatives from each department.

Certifications and Employee Development

Wheelchair Certification and Recertification

All our Okaloosa operators and road supervisors will obtain their Wheelchair Recertification annually to ensure safety for all riders. The certification process includes mastery of the following elements as well as an appropriate demeanor – using care and compassion when working with riders with disabilities. To obtain recertification, operators must demonstrate the following procedures:

- Understand local, state, and federal laws as well as mandates and guidelines that apply to wheelchair use as mobile seating;

- Conduct wheelchair safety checks;
- Confirm tie-down systems are in good condition;
- Use a belt cutter for emergency evacuations;
- Load and unload riders in wheelchairs;
- Position wheelchairs on the lift platform;
- Operate the lift both automatically and manually;
- Secure wheelchairs using tie-down systems;
- Care for and maintain securement systems;
- Communicate clearly; and
- Exemplify excellent customer service skills.

LLLC Certification

Our defensive driving program, known as the Triple L-C, teaches professionals The Four Driving Principles to Safety™: Look Ahead™, Look Around™, Leave Room™, and Communicate™. These principles reinforce operators' focus on maintaining ample room around their vehicle while maximizing visibility and time needed to make safe operating decisions. This program has contributed to the company's declining accident frequency and improved safe behavior year over year.

Within this program, we provide the LLLC Defensive Driving™ Instructor Certification, a three-tier certification process (silver, gold, platinum) that certifies trainers for a period of two years. The training promotes succession; silver-level trainees must complete MV's new operator development course, the Trainer Certification Process, and the Advanced BTW Instructor Course. Gold-level trainees must complete the two-day certification process, comprising class-based and in-vehicle training. Finally, platinum status is achieved when a gold-level trainee completes a two-day certification in Avatar Master Instructor.

Behind the Wheel Certification

MV knows that operational safety is contingent on a strong and proven training program. The company's steadfast commitment to transit training is demonstrated in its unique approach to behind the wheel (BTW) training – we require that all BTW trainers are certified by MV before being released into

service. Applicants that meet the following qualifications are considered for the role of a BTW Trainer:

- Work History Review Form (Preventable accidents, Worker Compensation claims, attendance, discipline warnings, performance reviews)
- Supervisor Performance Evaluation (conscientiousness, safety oriented, tolerant of stress, excels in teamwork)'
- Completion of a structured interview with the safety and training manager or operations manager

MV certifies BTW trainers using intense two-day training. Behind the wheel training includes:

- Group Meeting to discuss Instructor Roles and Responsibilities
- Self-Directed Courses and BTW Manual
- Certification Exam Part 1: 50-question multiple choice certification exam based on the principles and theories presented in the three self-directed courses. Candidates must achieve a minimum score of 80 percent to progress to the next step
- Certification Exam Part 2: a 65-question multiple choice exam to assess their general knowledge of MV Transportation performance standards and BTW learning points. Candidates must achieve a minimum score of 80 percent to progress to the next step
- Certification Exam Part 3: a 50-question multiple choice exam to assess their advanced knowledge of BTW information and company performance standards. Candidates must achieve a minimum score of 80 percent to pass this exam.
- BTW Ride Along Evaluation

On Board Monitoring Systems

DriveCam

MV uses DriveCam nationally to monitor and support the safety of our operations. With the County's permission, we will install this technology on every County vehicle.

We use DriveCam to monitor each operator's driving behavior. This system gives insight into how operators adhere to company and law enforcement policy and provides our management teams the information needed to administer coaching and retraining.

The DriveCam Video Event Recorder (VER) is placed on the vehicle's windshield. The unit continuously monitors the operator's behavior and provides real-time in-cab and on-road feedback. Using exception-based monitoring, the camera continuously records; however, video data is only saved when activated by embedded sensors that measure the force exerted on the vehicle (such as abrupt start/stops, sudden turns, accelerations/decelerations, speeding, and collisions). The unit also has a panic button that saves video footage when the button is pushed by the operator (in the event of an on-board incident, a passenger altercation, etc.). When triggered, the system saves data clips for a period of 10 seconds before and 10 seconds after the event.

DriveCam Video Event Recorder Features

- On-board Posted Speed Database
- Real-Time In-Cab Feedback
- Risk Predict® Technology
- Collision Video Recording
- 4 GB Camera storage
- Telematics
- Hotspot Mapping
- Operator-Activated Event Recording (panic button)

The event video and data are uploaded to DriveCam's Risk Analysis Center where DriveCam's trained professionals analyze the events (review, score, and comment on each event) for our management to use in coaching operators and improving operator safety. Events are stored on a web-based portal for a 90-day period. Afterwards, all events are archived to in-house servers for historical data retention.

MV has invested significantly with Lytx and has developed subject matter experts in its corporate staff (Ms. Diana Finkle and Mr. Andrew Scott) to support MV's local team. Although an employee of Lytx, Mr. Scott is assigned full-time to MV's operations and is based at MV's Dallas, Texas headquarters. Andrew's presence within MV's DriveCam program ensures the most up-to-date programs – including reporting and training – are offered to MV's customers. This also gives MV a direct line of communication with Lytx's executive team.

Mobileye® Collision Avoidance System

Mobileye is a windshield-mounted camera that detects other vehicles, pedestrians, and lane divisions in real time.

This technology mitigates the primary risk factor that leads to vehicle collisions – operator inattention. An estimated 93 percent of all accidents

are a result of human error, with nearly 80 percent of all accidents resulting from operator inattention in the three seconds preceding the accident. This technology helps prevent these collisions.

The unit emits an auditory warning1 to signal the operator to apply the brakes to avoid collisions when the following events occur:

- The vehicle operator departs from the lane
- The distance between the vehicle and the vehicle in front of it becomes too small
- A forward collision is imminent
- A pedestrian is detected
- The operator exceeds the speed limit

The system also offers intelligent high beam control, automatically switching high beams to low beams when oncoming traffic is approaching. Mobileye supplements the safety monitoring capabilities of DriveCam; when Mobileye detects a near collision, the operator's reaction will trigger DriveCam to begin recording. This additional feedback will enable the DriveCam coach to more thoroughly coach operators in safe driving practices.

When used together, MV experienced the following DriveCam results:

- 2.60% reduction in scored DriveCam events
- 18.05% reduction in Following Too Close events
- 59.72% reduction in Pedestrian events
- 35% reduction in Not Scanning Intersection events

**DriveCam Performance – Post-Mobileye deployment at MV's Philadelphia, PA operation*

[1] Additional option for haptic warning (shaking seat) is available

d. Safety Policy and Procedures

Safety Policy Manual

MV's safety policies set forth operating guidelines that reduce workplace accidents, incidents, and injuries. Our company safety manual comprises more than 40 policies that address vehicle operations, regulatory compliance, maintenance operations, MSDS/ hazardous materials, operational safety practices, and facility emergency management.

Furthermore, we issue documented safety guidelines that outline safety-related responsibilities for all safety, executive, and managerial/supervisory roles. These guidelines outline expectations regarding facility safety and upkeep.

Safety Point System

All operators are subject to the assessment of safety points. The company's safety point system provides clear guidance for all managers when assessing operators' driving behavior.

For new employees, receipt of four (4) points (or more), or more than two (2) separate safety point assessments, during the introductory period will result in termination. For those non-introductory employees, receipt of six (6) points (or more) in any rolling 18-month period, or receipt of three (3) separate safety point assessments within a rolling 12-month period, will result in termination.

Safety points are assessed when an operator is involved in a preventable incident. DriveCam incidents will be assessed points based on severity; all others are assessed as follows:

1 Point	Failure to cycle wheelchair lift Failure to do a proper vehicle inspection (DVI) Driver unbelted or improperly belted when legally required Failure to stop at a Railroad Crossing
2 Points	Unsafe maneuver(s) or act(s) Conviction of a minor traffic violation
3 Points	Backing incident or collision Rear-end collision

	Failure to provide door-to-door service, to include failure to properly load/unload a passenger via the lift
4 Points	Preventable incident and/or collision up to $15,000 in injuries or property damage
5 Points	Preventable incident or collision up to $20,000 in injuries and/or property damage
6 Points	Preventable incident or collision in excess of $20,000 in injuries and/or property damage Any preventable roll-away incident or collision regardless of damage amount Failure to properly secure/transport a mobility device Failure to properly secure/transport a paratransit passenger Failure to immediately report a citation or incident in a vehicle while in Company service tampering with, disabling, obstructing, abusing, disconnecting, or otherwise interfering with DriveCam or other monitoring equipment Any use of a cellular telephone or electronic device while operating a vehicle in Company service Conviction of a major traffic violation *

(*) A major traffic violation is any citation, in either a personal or company vehicle, that involves any item listed under Major Safety Incidents and/or: (1) Driving while intoxicated or under the influence of alcohol or drugs; (2) Failure to stop and immediately report an incident in which you are involved; (3) Homicide, manslaughter, or assault arising out of the operation of a motor vehicle; (4) Driving while your license is suspended or revoked; (5) Reckless driving; (6) Possession of open container or alcoholic beverages; and/or (7) Speed contests, drag racing, or attempts to flee from an officer of the law, (8) leaving the scene of an accident.

Accident and Injury Investigation Procedures

All locations are required to have the following information readily accessible:

- Operator's family and/or emergency notification
- Local police department and/or local sheriff department
- Highway patrol/state police
- Local fire department and local ambulance service
- Tow truck, heavy equipment, and construction companies
- MV Risk Management staff and MV Safety staff
- General managers' home and cell phone numbers

- Local and MV emergency contact numbers

Each vehicle must be equipped with three bi-directional emergency reflective triangles (not flares), a fire extinguisher having an Underwriters' Laboratories rating of 5B:C or more, and Incident Reporting Packets with color disposable flash cameras.

If involved in a vehicular incident, the operator will notify the dispatcher, who will send a supervisor to the scene, and contact emergency personnel (when necessary). The operator must exercise on-scene emergency control until she or he is properly relieved by a supervisor.

The operator, with the assistance of the on-scene supervisor, will use the onboard accident kit to take photographs of the scene, obtain contact information of all witnesses (using Courtesy Information Cards) and complete an incident report. The operator is required to provide identification and cooperate with police. Upon return to the office, the accident report is submitted to dispatch or the general manager.

As soon as is practical following an accident, drug and alcohol tests are administered to any employee whose performance could have contributed to the accident, such as dispatcher, mechanic, etc.

If reasonable suspicion is suspected, all reasonable suspicion testing guidelines are followed. Test results are obtained and reported to the general manager (or vice versa). The operator remains suspended from driving until his or her driving privileges are reinstated by the Qualifications department.

System Security Awareness Classroom Training

NTI National Transit Institute

MV's classroom training includes a 30-minute presentation of the Warning Signs video, produced by the National Transit Institute's Workplace Safety and Security Program through the funding and support of the Federal Transit Administration.

This training video emphasizes the responsibility of transit professionals to extend the reach of law enforcement agencies in ensuring the safety and security of their transit systems.

Employees are taught to thoroughly inspect vehicles and work areas for anything out of place, and to report anything suspicious. Stressing caution and common sense, the training gives guidelines for appropriate suspicion without profiling, observing a suspicious person's behavior, location, and the time rather than their attire or skin color. The training also discusses suspicious packages, gives

guidelines for identifying chemical and biological weapons, and what steps to take in the event of an emergency.

Emergency and Security Plans

MV has specific plans and programs in place designed to mitigate risk and provide a safe, healthy workplace. We have included a copy of our System Safety Program Plan in the appendix; each of the remaining plans is available upon request:

- **System Safety Program Plan (SSPP):** With the objective to provide a superior level of safety and minimize any and all risk, MV's SSPP is maintained in accordance with the standards of the American Public Transportation Association (APTA) and the Federal Transit Administration (FTA). *Please see a copy of MV's SSPP in the appendix.*

- **System Security and Emergency Preparedness Plan (SSEPP):** This set of comprehensive security goals, objectives, and strategies maximize the security of MV's passengers, employees, and property. This plan is a blueprint for all security procedures.

- **Continuity of Operations Plan (COOP):** This plan template provides MV's operations a base from where to develop its own plan to ensure continuous operations during an emergency. The COOP which sets forth a concept of operations, identifies essential functions, and outlines three potential phases of operation: 1) Activation and Relocation, 2) Alternate Facility Operations, and 3) Reconstitution.

- **Emergency Action Plan:** The EAP assists employees and management in making quality decisions during times of crisis, and to comply with the Occupational Safety and Health Administration's (OSHA) Standard for Emergency Action Plans, 29 CFR 1910.38.

- **Hurricane Preparedness Plan:** This plan incorporates an incident command structure and phased approach to preparation, the release of personnel, and shutdown of project operations whenever the best available information indicates a hurricane could impact continued safe operation.

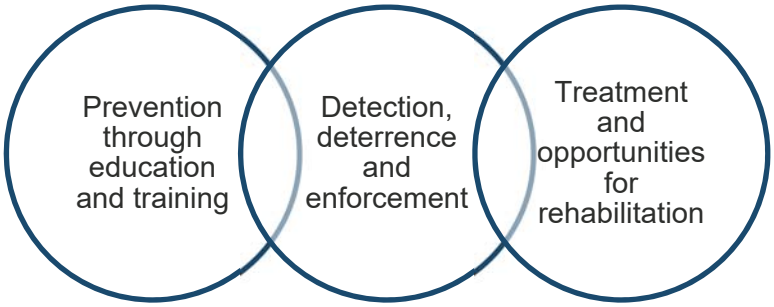
- **Bloodborne Pathogen Exposure Control Plan:** MV's Bloodborne Pathogen Exposure plan provides the guidance and training needed to protect employees against exposure to bloodborne pathogens. This plan complies with the Occupational Safety and Health Administration's (OSHA) Bloodborne Pathogen Standard, 29 CFR 1910.1030, to eliminate or minimize employee

occupational exposure to blood, certain other body fluids, or other potentially infectious materials.

- Additional Health and Safety Plans include:
  - Fire Prevention Plan
  - Hearing Conservation Program
  - Hazardous Communication Plan
  - Illness Prevention Plan
  - Heat Illness Prevention Plan
  - Lock Out-Tag Out Control of Hazardous Energy Program

e. Drug and Alcohol Testing Program

MV has a Zero Tolerance Drug and Alcohol Policy and Substance Abuse Program that complies with both FTA and DOT standards of compliance. This program integrates three critical components in the implementation of this program:



The Policy

Drug and Alcohol Policy comprises the following four activities:

- Take appropriate action to assure that employees are not impaired in their ability to perform assigned duties in a safe, productive, and healthy manner;
- Foster and maintain a drug and alcohol – free environment for all employees and patrons;
- Prohibit the unlawful manufacture, distribution, dispensing, possession, or use of controlled substances;

- Encourage employees to voluntarily seek professional assistance whenever personal problems, including alcohol or drug use, may adversely affect their ability to perform their assigned duties.

The Program

Every MV employee is subject to the four drug and alcohol screening types, pursuant to their employment category (safety sensitive versus not safety sensitive). Please note that under MV's Zero Tolerance Drug and Alcohol Testing Program, a positive screen or refusal to be tested under these conditions results in termination of employment.

Testing Types

Pre Employment	Random	Post-Accident	Reasonable Suspicion
• All job candidates considered for hiring are required to successfully complete and pass a pre-employment drug screen prior to receiving an offer of employment. Failure to submit to testing, or a positive screen, results in the denial of employment.	• All safety sensitive employees are automatically entered into the company pool for random testing pursuant to FTA regulations.	• We conduct DOT post-accident drug and alcohol testing immediately following an on road incident meeting FTA/DOT criteria. Any employee involved in the incident or accident is subject to testing. If the accident does not meet the FTA/FMCSA testing criteria, MV reserves the right to test any safety sensitive employee regardless of the severity of the incident.	• Employees are subject to reasonable suspicion testing if significant and observable changes in their performance, appearance, behavior, speech, etc. provide reasonable suspicion of the influence of alcohol/ drugs. All frontline personnel are observed by supervisory personnel who are certified as having completed the DOT Supervisor's Class in Reasonable Suspicion Training in Drug and Alcohol.

Leadership

Our Zero Tolerance Drug and Alcohol Testing Program is managed by the Director for Drug and Alcohol Compliance, Cristina Pereira. She works closely with MV's local operations and representatives of the FTA and DOT to confirm that our policy and program is up to date and compliant with all regulatory requirements. Cristina and her team process all test results and communicates the outcomes to our local management team.

Partnerships

We work with Alere™ Toxicology for all laboratory services and Dr. Stephen Kracht, M.D., D.O., who serves as the Medical Review Officer conducting MRO services for our company. All random screens are managed using the MYeScreen technology, which provides a computer-generated selection process program that randomly selects employees for testing without bias or discrimination. Assignments are available on the first of each month to begin performing testing immediately.

Locally we use local occupational health clinics to perform the urine and breath alcohol collections for testing. For substance abuse professional services, we partner with American Substance Abuse Professionals (ASAP) for referrals.

Training

Once hired, all MV employees receive FTA-compliant training that outlines MV's Zero Tolerance program. Drug and alcohol testing procedures are addressed as part of initial employee training and annual refresher training. As required by the FTA, initial training includes at minimum 60 minutes of training on the effects and consequences of prohibited drug use on personal health, safety, and the work environment, and on the signs and symptoms that may indicate prohibited drug use.

All supervisors and personnel authorized to make reasonable suspicion determinations receive additional training on the indicators of drug and alcohol use. This includes training in the following areas

- REACT Reasonable Suspicion Decision Training Manual
- MV's 10 Steps to Successful Reasonable Suspicion Testing Checklist
- MV's Reasonable Suspicion Determination Form
- MV's Reasonable Suspicion Testing Interview Procedures Quick Tutorial

Program Updates

We recognize the importance of remaining compliant and up to date with all regulatory program changes. Effective January 1, 2018, MV has updated its drug and alcohol program to align with the US DOT revisions to 49 CFR Part 40, Procedures for Transportation Workplace Drug & Alcohol Testing to reflect the following changes:

- Opiates are reclassified as opioids and now include hydrocodone, hydromorphone, oxycodone and oxymorphone in addition to codeine, morphine, and 6-acetylmorphine (heroin) and their brand names.
- Testing analytes have been revised.
- A positive screen for amphetamines/methamphetamines or THC (marijuana metabolite); the MRO will have the authority to conduct further testing.
- The MRO must now provide employees with up to five days after reporting the verified negative result to have the prescribing physician contact the MRO to determine if the medications can be changed to one that does not make the employee medically unqualified or that does not pose a significant safety risk before reporting the “safety concern” to MV.

Audits

MV has successfully completed each FTA audit to which we have been subject.

7. Cost/Budget

7. Cost/Budget

Provide a detailed budget that includes all direct and indirect costs, including overhead, bookkeeping, profit, operating cost, etc. List position disciplines/services including outside services (e.g., accounting firm, human resources firm), if applicable, to be used and identify corresponding annual cost.

Please find MV's cost proposal following this page. Please note that our costs consider the retention of well tenured team. MV is aware of the recent driver starting wage increase from $11 to $12. Based on MV's experience both in the Florida market and nationally with respect to driver retention, we have structured our starting wage annual increase to reflect what we feel is a competitive scale. Starting in year 2 of the contract, the starting wages will increase incrementally .35 cents on an annual basis instead of the traditional national standard of .25 cents. This strategy will help to mitigate any risks associated with a shortage of drivers.

	Annual Cost Breakdown Table Okaloosa County Submitted by MV Transporation			
	Fixed Route based on existing service 30,000 hours annually	Paratransit based on existing Service 60,000 hours annually	Fixed Route based on Alternate Service 30,000 hours annually	Paratransit based on Alternate Service 60,000 hours annually
Year 1 Hourly Rate	$ 36.59	$ 36.59	$ 38.29	$ 36.59
Year 1 Total	$ 1,097,700	$ 2,195,400	$ 1,148,700	$ 2,195,400
Year 2 Hourly Rate	$ 35.11	$ 35.11	$ 36.75	$ 35.11
Year 2 Total	$ 1,053,300	$ 2,106,600	$ 1,102,500	$ 2,106,600
Year 3 Hourly Rate	$ 36.06	$ 36.06	$ 37.66	$ 36.06
Year 3 Total	$ 1,081,800	$ 2,163,600	$ 1,129,800	$ 2,163,600
Year 4 Hourly Rate	$ 37.10	$ 37.10	$ 38.66	$ 37.10
Year 4 Total	$ 1,113,000	$ 2,226,000	$ 1,159,800	$ 2,226,000
Year 5 Hourly Rate	$ 37.64	$ 37.64	$ 37.82	$ 37.64
Year 5 Total	$ 1,129,200	$ 2,258,400	$ 1,134,600	$ 2,258,400

Notes:

1. Rates above will be charged for emergency transportation services
2. Fixed route alternate service includes costs for Syncromatics AVA, APC, and LED signage

Vehicle Acceptance Agreement Standards

MV TRANSPORTATION, INC

VEHICLE ACCEPTANCE AGREEMENT STANDARDS

Prior to acceptance of any vehicle by MV, a detailed inspection will take place 60 days prior, a follow up inspection 30 days prior and a final inspection 15 days prior to start-up with representatives of the MV and Client agreeing upon damage and wear.

Client and MV agree that vehicles will be delivered to MV in good condition and with each vehicle meeting or exceeding the following specifications for the first 30 days of vehicle acceptance by MV:

1. Vehicle body and all attachments thereto will be free of dents and scratches in excess of l" in length. All body parts shall be properly attached to vehicle chassis and free of rust.

2. Exterior paint and decals shall be free from scrapes, scratches in excess of l" in length, rust and tar. All decals shall be properly applied and free from peeling.

3. Vehicle tires shall be of proper load range for the vehicle and be of a type equivalent to that originally supplied by the manufacturer. All tires shall of the same manufacturer and model. All tires will be free from side wall damage, shall have a minimum of 8/32 inch tread depth on front tires and a minimum of 6/32 inch tread depth on rear tires and shall be free from damage due to improper alignment or balancing or curb damage.

4. Vehicles shall contain a spare tire and wheel meeting the standards of paragraph 3 above if the vehicle was so equipped when purchased by Client.

5. Vehicle destination signs, if vehicles are so equipped, shall have all current route indicators and shall be in proper working order.

6. All vehicle lights shall be in working order.

7. All decals or painting identifying the vehicle with a prior contractor or other operator shall be removed prior to delivery and all paint damage from said removal shall be properly repaired.

8. All vehicle doors and windows shall be in proper operating condition and properly sealed against the entry of fumes or water.

9. All components of the emission control and exhaust system shall be free from leaks, rust and be in proper operating condition to include inspection on Diesel Emission Control Systems (DECS) Diesel Particulate Filters. An opacity test will be performed during the turn over inspection process. Vehicles which do not pass will need to be repaired and

retested prior to acceptance. Vehicles shall have current state emission certification, if so required.

10. Vehicle engine shall be in proper operating condition. Proper condition shall be established through oil analysis and compression testing. If engine has been rebuilt, Client shall supply documentation of rebuilder and assure MV that engine rebuild meets manufacturers specifications.

11. Vehicle transmission shall be in proper operating condition, free from leaks, bad gears or slippage. If transmission has been rebuilt, Client shall supply documentation of rebuilder and assure MV that transmission rebuild meets manufacturer's specifications.

12. Vehicle electrical system shall be in proper operating condition. Alternator shall be supplying specified output and battery(ies) shall fall within manufacturers specifications for output and specific gravity. All vehicle wiring shall be free from fraying and shall be properly loomed and attached to the vehicle in such a way as to prevent fraying. Any alterations to wiring not completed by vehicle manufacturer shall be performed so as to not overload any circuit and not to cause any short circuit.

13. All heaters and air conditioners shall be free from leaks and shall perform to the manufacturers specifications.

14. All brake linings, drums and rotors shall meet manufacturers specifications and shall have at least 50% life remaining as measured in 3/32nds of an inch. All wheel cylinders and brake lines shall be free from leaks. All brake parts shall be in proper repair.

15. Vehicle radios, antennas and all other communications devices shall be in proper working order and mounted so as to not constitute a safety hazard.

16. The wheelchair lift shall meet all current state requirements and be in proper working condition. All wheelchair tiedowns and other securement equipment shall be in good condition and not be frayed or worn so as to constitute a safety hazard. Wheelchair lift interlocks, if so equipped, shall be in proper operating condition and meet state requirements.

17. Vehicles shall be equipped with a fire extinguisher with current tag, a complete first aid kit, full and complete safety triangle kit and all other safety equipment required by law.

18. All passenger seats and all other interior surfaces shall be cleaned and free from stains, tears and graffiti. Seats shall be properly secured to the vehicle with the proper grade of securement device.

19. Vehicles shall have a current preventive maintenance inspection including oil and filter change, transmission service, etc., in accordance with the requirements of MV in this Agreement and state requirements.

20. Vehicles will have all current required state inspection and registration certificates, if required.

21. Client will provide a copy of most recent CHP or DOT inspection results.

22. Vehicles will be cleaned to the standards of this Agreement and shall be completely fueled. All other fluid levels shall meet manufacturers requirements.

22. All vehicle repair and inspection records shall be delivered with the vehicles.

23. All glass shall be free from chips, scratches and cracks.

24. All suspension and steering components shall be within the manufacturer's wear limits specifications and free from cracks and leaks.

25. All other items not specifically listed herein shall be in serviceable condition meeting generally accepted standards and practices of the public transportation industry and meeting all requirements of the state and federal government and all requirements contained in this Agreement.

In order to ensure compliance with the above requirements, the following procedures will be used by Client and MV:

At a place and time mutually agreed to by Client and MV, which shall occur approximately 60, 30 & 15 days prior to the start of service by Contractor under this Agreement, Client and MV, shall jointly inspect the vehicles to be provided by Client to MV. During such inspection, defects to vehicles shall be noted.

After the initial inspection, Client shall ensure that all defects noted are repaired prior to MV starting service under the terms of this Agreement.

Upon delivery of the vehicles to MV, Client and MV will conduct a final inspection of the vehicles to ensure that items noted in the preliminary inspection were completed and that all vehicles are in compliance with this Section.

In the event the final inspection reveals defects in the vehicles as specified in this Section, then Client will have these items repaired or authorize MV to repair the items at the rate of **$75.00 per hour labor plus parts / materials / supplies and sublet repairs at 15% above MV's cost** as required to repair defects. If necessary, additional maintenance personnel will be brought in to assist with completing repairs, their travel, meal and lodging expenses will also be paid by the client.

The forms on the following page are utilized during this initial inspection:

Drug and Alcohol Testing Core Values

Drug and alcohol abuse are the two most preventable behavioral disorders facing our society today. Drug abuse literally costs hundreds of billions of dollars alone in lost productivity, increased healthcare costs, accidents and theft. It is estimated that drug and alcohol abuse costs over a trillion dollars worldwide and growing.

MV Transportation, Inc. and its Subsidiaries are dedicated to providing safe, dependable, and economical service to its clients. MV Transportation's employees are our most valuable resource. It is our policy (1) to take appropriate action to assure that employees are not impaired in their ability to perform assigned duties in a safe, productive, and healthy manner; (2) to foster and maintain a drug and alcohol - free environment for all employees and patrons; (3) to prohibit the unlawful manufacture, distribution, dispensing, possession, or use of controlled substances; and (4) to encourage employees to voluntarily seek professional assistance whenever personal problems, including alcohol or drug use, may adversely affect their ability to perform their assigned duties.

Drug testing not only saves businesses money, but it also saves lives. This is the backdrop that MV Transportation's Drug and Alcohol Compliance Department works in to promote a safe and ethical drug testing program that will be the standard of the industry. MV Transportation's Compliance Department is always looking for ways to improve the everyday challenges by using state of the art software and easy to follow testing instructions and forms, and a comprehensive collection site inspection tutorial for supervisors.
To achieve these goals and to comply with all applicable Federal regulations governing workplace anti-drug programs in the transit industry, MV Transportation incorporates three integrated components:

- **Prevention through education and training**
- **Detection, deterrence and enforcement**
- **Treatment and opportunities for rehabilitation**

Our purpose is to assure worker fitness for duty and to protect our employees, passengers, and the public from the risks posed using alcohol and prohibited drugs. It is with sincere appreciation that I serve as Director of Drug and Alcohol Compliance, and I am thankful to be surrounded by an extraordinary Board of Directors, Executive Committee and professional staff in our efforts to promote a safe and drug free environment in which we all live and work.

In accordance with the U.S. Department of Transportation and the
Federal Transit Administration Regulations
(49 CFR Parts 40, 655, and 382)
MV TRANSPORTATION, INC.

SUBSTANCE ABUSE POLICY

1.0 Policy

MV Transportation, Inc. and its Subsidiaries (MV Transportation) are dedicated to providing safe, dependable, and economical service to its clients. MV Transportation's employees are our most valuable resource. It is our policy (1) to take appropriate action to assure that employees are not impaired in their ability to perform assigned duties in a safe, productive, and healthy manner; (2) to foster and maintain a drug and alcohol - free environment for all employees and patrons; (3) to prohibit the unlawful manufacture, distribution, dispensation, possession, or use of controlled substances; and (4) to encourage employees to voluntarily seek professional assistance whenever personal problems, including alcohol or drug use, may adversely affect their ability to perform their assigned duties.

To achieve the goal of a substance-free workplace, this policy incorporates three integrated components:

Prevention through education and training:
Education and training will communicate and clarify this policy to all employees, assist employees in recognizing substance abuse problems and in finding solutions to those problems.

Detection, deterrence and enforcement:
Federal regulations require that effective January 1, 1995, all safety - sensitive employees will be subject to reasonable suspicion, post accident, random, return to duty and follow up drug and alcohol testing. Applicants for safety sensitive positions will not be eligible for those positions unless they pass a pre-employment drug test. **As a "zero tolerance" employer, any positive drug or alcohol or refusal to tests will result in a termination of employment.**

Treatment and opportunities for rehabilitation:
Alcohol and drug abuse are recognized as diseases that can be treated. MV Transportation promotes a voluntary rehabilitation program to encourage employees to seek professional assistance prior to testing positive for drugs or alcohol, without fear of discipline.

Approved:

Date: *April 1, 2018*

Kevin Jones, CEO
MV Transportation, Inc. and its Subsidiaries

2.0 Purpose

The purpose of this policy is to assure worker fitness for duty and to protect our employees, passengers, and the public from the risks posed by the use of alcohol and use of prohibited drugs (as defined below). This policy is also intended to comply with all applicable Federal regulations governing workplace anti-drug programs in the transportation industry.

The Federal Transit Administration (FTA) and the Federal Motor Carrier Safety Administration (FMCSA) of the U.S. Department of Transportation have enacted 49 CFR (Code of Federal Regulations) Parts 655 and 382, which mandate urine drug testing and breath alcohol testing for employees performing safety-sensitive functions. These regulations also prevent performance of safety-sensitive functions when there is a positive test result or a test refusal. The U.S. Department of Transportation (DOT) has also adopted the revised version of 49 CFR Part 40 as amended, which outlines procedures for transportation workplace drug and alcohol testing programs. This Policy incorporates these federal requirements for employees performing safety-sensitive functions, as well as other provisions.

In addition, DOT has published 49 CFR Part 29, implementing the Drug-Free Workplace Act of 1988, which requires the establishment of drug-free workplace policies and the reporting of certain drug-related offenses to the FTA. California passed a similar version of the federal law, the Drug-Free Workplace Act of 1990 (Gov't Code § 8350 et seq). This policy reiterates the requirements of the federal regulations; these requirements will be in *Italics*. Portions of this policy marked in **bold** are not necessarily FTA-mandated but reflect MV Transportation employment policy (this does not include policy headings).

If any provision of an existing MVT policy, rule or resolution is inconsistent or in conflict with any provision of this policy or the DOT/FTA rules, this policy and the DOT/ FTA rules shall take precedence; if any provision of this policy is inconsistent or in conflict with the DOT/ FTA rules the DOT/ FTA rules shall take precedence.

3.0 Applicability

3.1 Safety-Sensitive Employees

This policy applies to all safety-sensitive MV Transportation employees, including paid part time employees who perform or could be called upon to perform any transportation related safety-sensitive function, and this includes off-site lunch periods or breaks when an employee is scheduled to return to work.

A safety-sensitive function is any of the following duties:

1) The operation of a transportation revenue service vehicle even when the vehicle is not in revenue service.

2) The operation of a non-revenue service vehicle by an employee when the operation of such a vehicle requires the driver to hold a Commercial Drivers License (CDL).
3) Maintaining (including repairs, overhaul and rebuilding) a revenue service vehicle or equipment used in revenue service.
4) Controlling the movement of a revenue service vehicle and
5) Carrying a firearm for security purposes. (Not applicable to MVT)
6) Volunteers are considered a covered employee if; 1) they are required to hold a commercial driver's license to operate the vehicle; or 2) if the volunteer receives re-numeration in excess of their actual expenses incurred while engaged in the volunteer activity.

(For a description of job categories - See Exhibit B)

3.2 Contractors

Contractors who perform any of the safety-sensitive functions described in this policy for MVT will be subject to the same requirements as safety-sensitive MVT employees.

3.3 Non-Safety Sensitive Positions

All MVT employees are subject to the provisions of the Drug-Free Workplace Act of 1998. Visitors, vendors and contracted employees on MVT premises will not be permitted to conduct transportation business if found to be in violation of this policy.

4.0 Opportunities for Rehabilitation (MVT Policy)

To promote a drug and alcohol-free workplace, this policy includes a rehabilitation program that allows employees to voluntarily come forward to request rehabilitation.

4.1 Voluntary Rehabilitation (MVT Policy)

Any employee who has a drug and/or alcohol abuse problem and has not been selected for reasonable cause, random or post-accident testing or has not refused a drug or alcohol test may voluntarily refer her or himself to the General Manager or the Human Resource Department, who will refer the individual to the company's Employee Assistance Program and/or a Substance Abuse Counselor for a Non-DOT evaluation and treatment. Voluntary self-referral commits the employee to a therapeutic process. Confidentiality of the employee will be protected. The Counselor will evaluate the employee and make a specific recommendation regarding the appropriate treatment. When an employee voluntarily refers her or himself for treatment, the employee may be eligible for sick leave and disability benefits. Employees will be allowed to take accumulated vacation time or may be eligible for unpaid time off to participate in any prescribed rehabilitation program. Employees are encouraged to voluntarily seek professional substance abuse assistance before any substance use or dependence affects job performance.

4.2 While Undergoing Treatment (MVT Policy)

Any covered employee who admits to a drug and/or alcohol problem will immediately be removed from his/her safety-sensitive function and will not be allowed to perform such function until successful completion of a prescribed rehabilitation program is completed. The employee will be placed on an unpaid leave of absence for maximum of 30/60 days to allow time for completion of the treatment/rehabilitation program. Proof of completion must be provided in writing by a valid professional. The employee will be required to pass a Non-DOT drug and alcohol test before he/she can perform a safety-sensitive function.

***MV shall make every effort to place the employee back in his/her position upon returning to work. However, an employee's commitment to undergo rehabilitation treatment does not guarantee that the employee's job will be available upon return.**

4.3 Cost of Rehabilitation (MVT Policy)

All associated costs for treatment are the sole responsibility of the employee.

4.4 Returning to Work after Treatment (MVT Policy)

All employees who successfully complete prescribed treatment and can return to work will be subject to unannounced Non-DOT follow-up testing as prescribed by doctor/counselor.

5.0 Prohibited Behavior and Conduct

"Prohibited substances" addressed by this policy include the following:

5.1 Prohibited Drug Use

FTA regulations specifically prohibit the use of the following illegal, prohibited substances and require testing for their presence under certain circumstances: Marijuana, Amphetamines, Opioids, Phencyclidine (PCP) and Cocaine ("Prohibited Drugs") - Safety-sensitive employees may be tested for prohibited drugs at any time while on duty or **on MVT property.**

5.2 Prohibited Alcohol Use

The consumption of beverages containing alcohol, or substances including any medication such that alcohol is present in the body while performing safety sensitive duties or transportation business, are prohibited. "Alcohol" means the intoxicating agent in beverage alcohol, ethyl alcohol or other low molecular weight alcohols including methyl or isopropyl alcohol. (The concentration of alcohol is expressed in terms of grams of alcohol per 210 liters of breath as measured by an evidential breath testing device.)

5.3 Legal Drugs (MVT Policy)

The appropriate use of legally prescribed drugs and non-prescription medications is not prohibited. However, the use of any substance which carries a warning label that indicates that mental functioning, motor skills, or judgment may be adversely affected MUST be reported to supervisory personnel. Medical advice should be sought, as appropriate, while taking such medication and before performing safety-sensitive duties.

Any time an employee comes forward about a medication that he/she is taking the information must be forwarded to the Director of the Compliance Department for clarification and review. The Compliance department will then consult with the Medical Review Officer (MRO) to determine if the medication is appropriate to take while performing a safety-sensitive function.

A legally prescribed drug means that the employee has a prescription or other written approval (in his/her name) from a physician for the use of a drug during medical treatment. The misuse of legal drugs while performing a safety-sensitive function is prohibited at all times.

If the MRO determines that the medication being taken is not appropriate to take while performing a safety-sensitive function the employee will remain off duty until the issue is cleared by the MRO.

To continue performing a safety-sensitive function the employee taking the medication will be required to provide the following:

A written letter from the prescribing physician stating the patient's name, the name of the substance, the period of authorization and a statement that the medication will not adversely affect the employee's performance to drive or perform his/her safety sensitive function and that the employee may continue to perform his/her safety-sensitive function while taking such medication. The letter must be signed and dated by the physician and the letter will be provided to the MRO for final approval.

6.0 Prohibited Conduct. Manufacture, Trafficking, Possession, and Use of Controlled Substances

The manufacture, distribution, dispensation, possession, or use of controlled substances in the workplace is prohibited. A "controlled substance" is any illegal drug or any substance identified in Schedules I through V of Section 202 of the Controlled Substances Act (21 U.S.C. § 812), and as further defined by 21 CFR 1300.11-1300.15. Any employee engaging in the manufacture, distribution, dispensation, possession or use of a controlled substance on MVT premises will be subject to disciplinary action, up to and including termination and/or will be required to complete a drug abuse assistance or rehabilitation program. Law enforcement shall be notified, as appropriate, where criminal activity is suspected.

6.1 Requirement to Submit to Drug and Alcohol Testing

MVT shall require every covered employee who performs a safety-sensitive function as described in the FTA regulations Part 655 and the FMCSA regulations Part 382 to submit to post-accident, random, and reasonable suspicion drug and alcohol test- and to a pre-employment drug test- as described in this policy. MVT shall not permit any employee who refuses to submit to such tests to perform or continue to perform any safety-sensitive functions.

6.2 Alcohol Use/Hours of Compliance

No safety-sensitive employee should report for duty or remain on duty when his or her ability to perform assigned functions is adversely affected by alcohol or when his or her breath alcohol concentration is 0.04 or greater. No employee shall use alcohol **while on duty** or while performing safety-sensitive functions. No employee shall have used alcohol within four hours prior to reporting for duty. After an accident, employees shall refrain from alcohol use for eight (8) hours or until an alcohol test has been administered, whichever occurs first.

No safety-sensitive employee shall use alcohol during the hours that they are on call. On call employees can acknowledge the use of alcohol at the time he/she is called to report to duty and the inability to perform his/her safety sensitive function.

6.3 Compliance with Testing Requirements

Any safety-sensitive employee who refuses to comply with a request for testing, who fails to remain readily available for post-accident testing, who provides false information in connection with a test, or who attempts to falsify test results through tampering, contamination, adulteration, or substitution, shall be removed from duty immediately. Refusal can include an inability to provide a specimen or breath alcohol sample without a valid medical explanation, as well as a verbal declaration, obstructive behavior, or physical absence resulting in the inability to conduct the test.

6.4 Refusal to Submit to a DOT Alcohol or Controlled Substance Test

As an employee, you have refused to take a drug or alcohol test if you:

(1) Fail to appear for any test (excluding pre-employment) within a reasonable time, as determined by the employer, after being directed to do so by the employer.

(2) Fail to remain at the testing site until the testing process is complete; Provided, that an employee who leaves the testing site before the testing process commences, for a pre-employment test it is not deemed to have refused to test; unless the testing cup was handed to the donor.

(3) Fail to provide a urine or breath specimen for any drug or alcohol test required by Part 40 or DOT agency regulations.

(4) In the case of a directly observed or monitored collection in a drug test, fail to permit the observation or monitoring of your provision of a specimen.

(5) Fail to provide a sufficient amount of urine or breath when directed, and it has been determined, through a required medical evaluation, that there was no adequate medical explanation for the failure.

It is MVT's policy that any employee that does not provide a valid specimen during a collection for a test will remain off duty until the employee is cleared by the MRO that the employee had a valid medical reason.

(6) Fail or declines to take a second test the employer or collector has directed you to take.
(7) Fail to undergo a medical examination or evaluation, as directed by the MRO as part of the verification process, or as directed by the DER as part of the ``shy bladder'' or "shy lung" procedures.
(8) Fail to cooperate with any part of the testing process (e.g., refuse to empty pockets or wash hands when so directed by the collector, behave in a confrontational way that disrupts the collection process).
(9) If the MRO reports that there is verified adulterated or substituted test result.
(10) Failure or refusal to sign Step 2 of the alcohol testing form.
(11) Failure to follow the observer's instructions during an observed collection including instructions to raise your clothing above the waist, lower clothing and underpants, and to turn around to permit the observer to determine if you have any type of prosthetic or other device that could be used to interfere with the collection process.
(12) Possess or wear a prosthetic or other device that could be used to interfere with the collection process.
(13) Admit to the collector or MRO that you adulterated or substituted the specimen.

As an employee, if you refuse to take a drug and/or alcohol test, you incur the same consequences as testing positive and will be immediately removed from performing any safety-sensitive functions and referred to the Substance Abuse Professional.

6.5 Compliance with Treatment Requirements

All employees are encouraged to make use of the available resources for treatment for alcohol and substance abuse problems.

6.6 Notify MVT of Criminal Drug Conviction

Every employee must notify MVT of any criminal drug statute conviction for a violation occurring in the workplace within five days after such conviction. **Failure to do so shall subject said employee to disciplinary action up to and including termination, or satisfactory participation in a rehabilitation program, at the employee's expense.**

6.7 Improper Application of the Policy

MVT is dedicated to assuring fair and equitable application of this "Zero Tolerance" substance abuse policy. Therefore, supervisors and managers are required to use and apply all aspects of this policy in an unbiased and impartial manner.

7.0 Testing for Prohibited Substances

7.1 General

Testing shall be conducted in a manner to assure a high degree of accuracy and reliability and using techniques, equipment, and laboratory facilities which have been approved by the U.S. Department of Health and Human Services (DHHS). Testing for prohibited drugs and alcohol on safety-sensitive employees shall be conducted in accordance with the procedures set forth in 49 CFR Part 40 as amended. See attached Testing Procedures for detailed procedures on all required types of drug and alcohol testing.

Medical Review Officer (MRO)- All drug testing results shall be interpreted and evaluated by an MRO who meets all applicable requirements of Part 40, who shall be responsible for receiving laboratory results generated by an employer's drug testing program and has appropriate medical training to interpret and evaluate an individual confirmed positive test result. The MRO shall comply with the drug testing procedures set forth in 49 CFR Part 40. The MRO will not review alcohol test results. When a confirmed positive test is reported from the testing laboratory, it is the responsibility of the MRO to: (a) contact the employee and afford the employee the opportunity to discuss the test results with him/her; (b) review the individual's medical history, including any medical records and biomedical information provided; (c) determine whether there is a legitimate medical explanation for the result, including legally prescribed medication. The MRO shall not convey test results to MVT until the MRO has made a definite decision that the test result was positive or negative, or refusal to test. If the employee provides an adequate explanation, the MRO verifies the test as negative and no further action is taken. When the MRO reports the results of the verified positive test to MVT, the MRO will disclose the drug(s) for which there was a positive test. If the MRO declares a drug test to be invalid for any reason, the test is considered canceled, and neither positive nor negative. However, a re-collection under direct observation may be ordered by the MRO.

The Medical Review Officer conducting MRO services for MVT is Dr. Stephen Kracht, M.D., D.O. in Kansas City, MO.

7.2 Testing for Prohibited Drugs

MVT shall collect or have collected urine samples from safety-sensitive employees to test for Prohibited Drugs. An assigned Collection Site will split each urine sample collected into a primary and a split sample. (See testing procedures) The urine samples will be sent under seal, with required chain of custody forms, to a laboratory certified by the DHHS. Currently MV Transportation is under contract with Clinical Reference Laboratory (CRL) in Lenexa, Kansas for its initial testing and confirmation testing. An initial drug screen will be conducted on each primary specimen. For those specimens that are not negative, a confirmatory Gas Chromatography/Mass Spectrometry (GS/MS) test will be performed. The test will be considered positive if the amounts present are at or above the minimum thresholds established in 49 CFR Part 40 as amended, as set forth in the attached Exhibit A (Threshold Levels).

Split Specimen Testing- If the test result of the primary specimen is positive or a refusal to test due to adulteration or substitution, the employee may request the MRO to direct his/her split specimen be tested in a different DHHS-certified laboratory. The MRO shall honor such a request if it is made within 72 hours of the employee having been notified of a verified positive or refusal to test result. This does not delay MVT from taking any action consistent with this policy for positive tests and the employee will be removed immediately from any safety-sensitive functions regardless if he/she is having his/her split specimen tested by a different laboratory. However, if the split specimen (bottle B) produces a negative result, or for any reason the second portion is not available, the test is considered cancelled and no sanctions are imposed. However, a re-collection under direct observation may be ordered by the MRO.

Cancelled Test - A drug or alcohol test that has a problem identified that cannot be or has not been corrected, or which this part otherwise requires to be cancelled. A cancelled test is neither a positive nor a negative test.

7.3 Alcohol Testing

Tests for alcohol concentration on safety-sensitive employees will be conducted with a National Highway Traffic Safety Administration (NHTSA) -approved evidential breath testing device (EBT) operated by a trained breath alcohol technician (BAT). In order to maintain quality assurance, EBT's must be externally calibrated in accordance with the plan developed by the manufacturer of the device. If the initial test on an employee indicates an alcohol concentration of 0.02 or greater, a second test will be performed to confirm the results of the initial test. For summary of applicable alcohol threshold levels, see Exhibit A.

8.0 Types of Testing

49 CFR Parts 655 and 382 require the following types of testing for Prohibited Substances for safety-sensitive employees: Pre-employment or transfer, reasonable suspicion, post-accident, random.

8.1 Pre-employment, Transfer Testing or Return to Work Testing

All applicants for safety sensitive positions shall undergo urine drug testing prior to employment. Receipt by MVT of a verified negative test result from the MRO is required prior to performing ANY safety sensitive functions for the first time. If an applicant or employee's drug test is cancelled or negative-dilute the employee or applicant shall be required to immediately take another pre-employment drug test.

Existing employees who are being considered for transfer to a safety-sensitive position from a NON-safety-sensitive position will be required to undergo a DOT pre-employment drug test. Any existing safety-sensitive employee who is simply transferring to a different division for another safety-sensitive position is NOT required to undergo another DOT pre-employment drug test.

8.1.1 Non-Safety-Sensitive Positions

All applicants applying for any non-safety-sensitive position will have to take and pass a pre-employment NON-DOT urine drug test prior to being hired.

8.1.2 Return to Work after 30 Days (DOT-FMCSA Policy)

MVT has some contracts that are subject to the Federal Motor Carrier Safety Regulations and NOT FTA regulations. Therefore, if the employee has a commercial license and has been out for 30 days or more AND the employee has been taken out of the random testing pool, the covered employee will be required to take a DOT pre-employment drug test before he/she can perform his/her safety-sensitive position.

8.1.3 Return to Work after 90 Days (DOT-FTA Policy)

If a covered employee has not performed a safety-sensitive function for 90 consecutive calendar days regardless of the reason, AND the employee has been removed from random pool, the employee must take and pass a DOT Pre-Employment drug test (NOT a return-to-duty) before he/she can perform a safety-sensitive function.

8.1.4 Return to Work after 30 Days for Non-Regulated employees who are not subject to federal guidelines but perform driving duties for specific contracts that are considered sensitive (MVT Policy)

It is MVT's policy that any time a non-covered driver who drives a vehicle for an MV contract and has not performed his/her driving functions for 30 or more consecutive days (regardless of reason) the employee will be required to take and pass another Non-DOT Pre-Employment drug test before he/she can return to his/her driving position.

****For confirmation of regulation authority contact Drug & Alcohol Compliance Department****

8.1.5 Previous Employer Request Requirement

As an employer we are required to verify previous violations of DOT drug and alcohol regulations within the last two years of employment with a DOT regulated agency or employer.

An employer must obtain and review the information listed below from any DOT-regulated employer the employee performed safety-sensitive functions for in the previous two years. The information must be obtained and reviewed prior to the first time an employee performs safety-sensitive functions. If not feasible, the information should be obtained no later than thirty (30) days after the first time an employee performs safety-sensitive functions. The information obtained must include:

1. Information on the employee's alcohol test in which a breath alcohol concentration of 0.04 or greater was indicated.
2. Information on the employee's-controlled substance test in which a

positive result was indicated.

3. Any refusal to submit to a required alcohol or controlled substance test. (including verified adulterated or substituted drug test results)
4. Other violations of DOT agency drug and alcohol testing regulations

As the applicant or employee if you have violated any of the DOT drug and alcohol regulations, you must also obtain documentation of your successful completion of the DOT return-to-duty requirements (including proof of follow-up tests administered).

Furthermore, all applicants will be asked whether he or she has tested positive, or refused to test, on any pre-employment drug or alcohol test administered by an employer to which the employee applied for but did not obtain safety-sensitive transportation work covered by DOT agency drug and alcohol testing rules during the past two years.

8.1.6 Pre-employment Breath Alcohol Testing

Although it is not MV Transportation's policy to test for alcohol on a pre-employment test, MVT does have a few contracts that require a breath alcohol test be conducted in addition to the required drug test. Divisions that are subject to this requirement will have to take a pre-employment breath alcohol test. Breath alcohol testing will be in accordance with DOT Part 40 and 655.42.

8.2 Reasonable Suspicion Testing

All safety-sensitive employees shall be subject to reasonable suspicion testing, to include appropriate urine and/or breath alcohol testing when there is reasonable suspicion to believe that a covered employee has used a prohibited drug and/or engaged in alcohol misuse. A reasonable suspicion referral for testing will be made based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech, or body odors of the covered employee. Reasonable suspicion tests for the presence of alcohol shall be authorized by observations made just prior, during or immediately after the period of the day in which the employee is required to be in compliance with the requirements of Part 655; and those alcohol tests shall only be conducted just before, during, or just after the performance of a safety-sensitive function. If an alcohol test is not administered within two hours following the determination to test the employee, the employer shall prepare and maintain on file a record stating the reasons the alcohol test was not promptly administered. If the alcohol test is not administered within eight hours following the determination, MVT shall cease attempts to administer an alcohol test and shall state in the record the reasons for not administering the test.

Reasonable suspicion determination will be made by a supervisor, or other company official who has had the required Reasonable Suspicion training to detect and document the signs and symptoms of probable drug use and alcohol use and who reasonably concludes that an employee may be impaired by of a prohibited substance.

Any employee who is required to take a Reasonable Suspicion test will remain off duty until a negative alcohol and drug test is received.

8.3 Post-Accident Testing

Fatal Accidents

As soon as practicable following an accident involving the loss of human life, MV Transportation will conduct drug and alcohol tests on each surviving covered employee operating the public transportation vehicle at the time of the accident. Post accident drug and alcohol testing of the operator is not required under this section if the covered employee is tested under the fatal accident testing requirements of the Federal Motor Carrier Safety Administration rule 49 CFR 382.303 (a)(1) or (b)(1). MV Transportation shall also test any other covered employee whose performance could have contributed to the accident as determined by investigating staff using the best information available at the time of the decision.

Non-Fatal Injury Accidents

As soon as practicable following an accident not involving the loss of human life in which a public transportation vehicle is involved, MV Transportation will drug and alcohol test each covered employee operating the public transportation vehicle at the time of the accident unless investigating staff determine, using the best information available at the time of the decision, that the covered employee's performance can be completely discounted as a contributing factor to the accident.

Accident means an occurrence associated with the operation of a vehicle, if as a result: (1) An individual dies; or (2) An individual suffers bodily injury and immediately receives medical treatment away from the scene of the accident; or (3) With respect to an occurrence in which the transit vehicle involved is a bus, electric bus, van, or automobile, one or more vehicles (including non-FTA funded vehicles) incurs disabling damage as the result of the occurrence and such vehicle or vehicles are transported away from the scene by a tow truck or other vehicle; or (4) With respect to an occurrence in which the public transportation vehicle involved is a rail car, trolley car, trolley bus, or vessel, the public transportation vehicle is removed from operation.

(For exact testing criteria -See Post Accident Testing Procedures Pg. 28)

MV Transportation shall also test any other covered employee whose performance could have contributed to the accident as determined by investigating staff using the best information available at the time of the decision.

MV Policy: When to conduct a NON-DOT Post accident/incident test

If the accident does not meet the FTA/FMCSA testing criteria, MVT will reserve the right to test any safety-sensitive employee after any accident/incident regardless of the severity of the accident/incident. Additionally, MVT will test any other safety-sensitive employee whose performance MVT determines could have contributed to the accident.

Under these circumstances it must be explained to the employee that the drug and alcohol tests will be done under M.V. Transportation authority and should be done on NON-DOT drug and alcohol chain of custody forms.

Any employee who takes a post accident test will remain off duty until a negative drug test and alcohol test result is received.

8.4 Random Testing

Employees performing safety-sensitive functions will be subject to unannounced, random drug and alcohol testing in accordance with FTA regulations. The random drug and alcohol testing rates will be, at a minimum, based on the current FTA and FMCSA requirements at all times. Each such employee shall have an equal chance at selection and shall remain in the pool even after being tested. The basis for random selection shall be by a scientifically valid random number generation method initiated by computer. The dates for administering unannounced testing of randomly-selected covered employees shall be spread reasonably throughout the calendar year, month, week, and all hours that safety-sensitive functions are performed. This ensures that employees would have a reasonable expectation that they might be called for a test on any day they are at work. A covered employee shall only be randomly tested for alcohol misuse while the employee is performing safety-sensitive functions; just before the employee is to perform safety-sensitive functions; or just after the employee has ceased performing such functions. A covered employee may be randomly tested for prohibited drug use anytime while on duty. The employee must proceed to the test site immediately after being notified that he or she has been selected for testing in the allotted time given.

9.0 <u>Consequences</u>

9.1 Positive Alcohol Test

(a) A safety-sensitive employee who has a confirmed alcohol concentration of 0.02 or greater but less than 0.04 will be removed from his or her duties for eight hours unless a confirmation test results in a concentration measure of less than 0.02. (For a test result which is less than 0.04 no other action will be taken except that which is described in this paragraph.)

(b) An alcohol concentration of 0.04 or greater or a test refusal will be considered a positive alcohol test. The employee will be immediately removed from duty and referred to a Substance Abuse Professional (SAP) **and terminated from employment.**

9.2 Positive Drug Test

The consequences of a positive drug test or a test refusal are as follows: the employee will immediately be removed from safety sensitive duties, referred to a Substance Abuse Professional **and terminated from employment.**

10.0 MRO Report of a Negative Dilute Specimen

If the MRO informs MVT that a negative drug test was dilute, the employee will be directed to take another test immediately. In some cases, the MRO may require the retest to be performed under "Direct Observation." Each employee directed to take another test, will be given the minimum possible advance notice that he or she must go to the collection site to take another test.

For any employee that is directed to take another test, the result of the second test – not that of the original test – becomes the test of record which MVT will rely on for purposes of this policy. Any employee who is directed to take another test and the employee declines to do so, shall be considered as a refusal to test for purposes of this policy and DOT agency regulations.

Dilute Specimen- A specimen with creatinine and specific gravity values that are lower than expected for human urine.

11.0 Substance Abuse Professional (SAP)

A SAP must meet all the credential, basic knowledge, qualification training, continuing education, and documentation requirements of 49 CFR Part 40, Subpart O, §40.281 (a-e). The SAP will evaluate the employee to determine what assistance the employee needs in resolving problems associated with prohibited substance abuse or alcohol misuse. The SAP will also determine whether an employee has successfully completed a program of rehabilitation.

MV Transportation uses:

American Substance Abuse Professionals, Inc. (ASAP)
Nationwide Network www.go2asap.com
1421 Clarkview Road, Suite 130, Baltimore, Maryland 21209
Contact: Nicole Hanratty, CEAP, SAP, C-DERT
888-792-2727 x177 Mention MV Transportation

This firm is a national company that contains a large network of qualified SAPs throughout the United States. Employees simply call the toll-free number and provide the SAP their city and zip code and the SAP will find them the qualified SAPs closest to their area.

12.0 Training and Education

All employees shall participate in a minimum one-hour training session designed to meet FTA requirements by learning about the effects and consequences of drug use on personal health, safety and the work environment. For those supervisors participating in reasonable suspicion determination testing, there will be at least two hours of training to explain the criteria for reasonable cause testing, including at least an hour on the physical, behavioral and performance indicators of probable drug use and another hour on the physical, behavioral, speech and performance indicators of probable alcohol misuse. Initial training sessions will be re-enforced with educational materials and meetings. Further, employees shall be provided with a community hot-line telephone number.

13.0 Employee Assistance Community Service Hot-Line

The Center for Substance Abuse Treatment maintains a toll-free Referral Helpline
800-662-HELP
National Mental Health Association
800-969-NMHA (6642)
National Domestic Violence Hotline
800-799-SAFE
National Suicide Hotline
800-SUICIDE (784-2433)
National Child Abuse Hotline
800-422-4453

14.0 Records, Confidentiality

A safety-sensitive employee is entitled, upon written request, to review and obtain copies of any records relating to the employee's drug and alcohol testing. MVT must maintain records of its substance abuse program in a secure location with controlled access.

15.0 System Contact

Any questions regarding this policy or any other aspect of MVT's Substance Abuse Management Program should be directed to the office of the following:

Name:	Esther Avalos, Director of Drug & Alcohol Compliance
Address:	2711 N. Haskell Ave., Ste. 1500, LB-2, Dallas, TX 75204
Phone Number:	972-391-4616

16.0 Local Authority

Local Division General Managers and Safety Managers are the Designated Employer Representatives (DERs) and are authorized to receive test information from the MRO as well as confirmation test results from the qualified B.A.T.

17.0 Revisions to the Policy and Program

This policy and program are subject to revision in accordance with the Department of Transportation regulations, as amended.

18.0 Zero Tolerance Policy

MV Transportation's "Zero Tolerance" Policy means any covered employee that has a verified positive drug or alcohol test, or test refusal, will be immediately removed from his/her safety-sensitive position, referred to a Substance Abuse Professional (SAP), and **will be terminated.**

EXHIBIT A

Pursuant to the Federal Department of Transportation regulations, the following are the drugs to be tested for, and the threshold levels of each test which MV Transportation is required to accept:

Initial test analyte	Initial test cutoff 1	Confirmatory test analyte	Confirmatory test cutoff concentration
Marijuana metabolites (THCA) 2	50 ng/mL3	THCA	15 ng/mL.
Cocaine metabolite (Benzoylecgonine) ...	150 ng/mL 3	Benzoylecgonine	100 ng/mL.
Codeine/	2000 ng/mL	Codeine	2000 ng/mL.
Morphine		Morphine	2000 ng/mL.
Hydrocodone/	300 ng/mL	Hydrocodone	100 ng/mL.
Hydromorphone		Hydromorphone	100 ng/mL.
Oxycodone/	100 ng/mL	Oxycodone	100 ng/mL.
Oxymorphone		Oxymorphone	100 ng/mL.
6-Acetylmorphine	10 ng/mL	6-Acetylmorphine	10 ng/mL.
Phencyclidine	25 ng/mL	Phencyclidine	25 ng/mL.
Amphetamine/	500 ng/mL	Amphetamine	250 ng/mL.
Methamphetamine		Methamphetamine	250 ng/mL.
MDMA 4/MDA 5	500 ng/mL	MDMA	250 ng/mL.
		MDA	250 ng/mL.

* (ng/mL) nanograms per milliliter

ALCOHOL

(Includes ethanol, methanol, isopropanol)

Breath Alcohol Concentration

(expressed in terms of grams of alcohol per 210 liters of breath)

Initial Screen	Confirmatory (given if 0.02 or greater on initial screen)
Under 0.02	0.02 to less than .04 employee may not perform safety-sensitive function

EXHIBIT B

The following is a general list of safety-sensitive functions and the job categories of employees who are subject to the provisions of 49 CFR Par 655 and 382 at MV Transportation:

NOTE: This list is subject to change and revision.

49	Maintenance Training Manager	340	Lead Dispatcher	416	Safety Manager	550	Mechanic
87	Safety Assistant	345	Dispatcher	420	BTW Trainer	561	Mechanic A (specify Union Class)
112	Floating Class A Mechanic	346	Window Dispatcher	425	BTW Instructor	562	Mechanic B (specify Union Class)
113	Body Repairman	349	Scheduling Manager	450	Classroom Instructor	563	Mechanic C (specify Union Class)
300	General Manager	350	Scheduler	451	Classroom Trainer	564	Technician A Mechanic
301	General Manager 1	352	Scheduling Coordinator	470	Parts Manager	565	B Mechanic
302	General Manager 2	353	VA Coordinator	471	Assistant Parts Manager	566	Technician C Mechanic
303	General Manager 3	354	Operations Supervisor	475	Parts Clerk	567	Technician Apprentice
304	General Manager 4	355	Road Supervisor	500	Maintenance Manager	568	Technician
310	Division Manager	357	Where's My Ride Supervisor	510	Assistant Maintenance Manager	569	Mechanic Helper
315	Assistant Division Manager	359	Lead Supervisor	512	Maintenance Technician	570	Cleaners
320	Operations Manager	379	Lead Schedule/Dispatcher	514	Bus Stop Maintenance	571	Mechanic Helper
321	Shift Supervisor	399	Call Center Manager	515	Maintenance Clerk	572	Body Shop Technician
322	Assistant Operations Manager	400	Safety and Training Manager	516	Maintenance Supervisor	575	Service Worker
323	Operations supervisor	405	Training Manager	517	Service Employee	580	Utility Crew
330	Dispatch Manager	406	Training Supervisor	518	Advanced Service Employee	584	Station Supervisor
332	Reservations Manager	410	Safety Trainer	519	Entry Level Mechanic	590	Bus Aide
335	Dispatch Supervisor	411	Safety Training Supervisor	520	Shop Foreman	600	Driver Trainer
336	Drive Cam Supervisor	415	Assistant Safety Manager	530	Lead Mechanic	610	Driver

Any MVT employee who has a non-safety-sensitive position, but who may perform a safety sensitive function at any time while they are working will be subject to random testing and will be included in the DOT random testing pool.

Testing Procedures

Note: Testing and collection procedures will be conducted as set forth by 49 CFR Parts 40 (as amended) & 655 & 382. The information on the following pages is meant for general information only for MV Transportation employees. Any questions regarding reference to the regulations should be directed to the policy section of this handbook. A copy of 49 CFR Part 40 is available for review to each employee upon request to their local manager.

This is a "Zero Tolerance" policy and any reference to return to work after a positive test result does not apply to employees affected by this policy. The FTA does not mandate "Second Chance".

Pre-Employment Testing

1. The FTA regulations require that all applicants for employment in safety-sensitive positions or individuals being transferred to safety-sensitive positions from NON-safety-sensitive positions must be given a pre-employment drug test.
2. Applicants may not be assigned to safety-sensitive functions unless they pass the drug test.
3. Applicants must be informed in writing of the testing requirements prior to conducting the test. **MVT will require applicant to sign a form acknowledging that they know that their urine will be tested for Cocaine, PCP, Amphetamines, Marijuana, and Opioids.**
4. Appropriate personnel at each location will schedule appointments for collection. The employee must be made aware that their placement into a safety sensitive position is contingent upon a negative test result.
5. It is the responsibility of the applicant to report to the collection site at the time and day scheduled.
6. Positive test results must be reviewed by the MRO.
7. Applicants are notified by the MRO of the laboratory results and are given an opportunity to discuss the results.
8. Applicants who test positive will not be hired into a safety-sensitive position.
9. An applicant whose pre-employment test results are negative will continue through the safety-sensitive hiring process.
10. Applicants will be asked whether he or she has tested positive or refused to test on a pre-employment drug or alcohol test while trying to obtain safety sensitive transportation work from an employer covered by DOT agency during the past two years. If applicant admits that he or she had a positive test or a refusal to test, MV will not allow the applicant to perform safety sensitive duties unless and until applicant provides documents showing the successful completion and release from a SAP.

Random Testing Procedures

The FTA regulations require random testing for prohibited drugs and alcohol for all safety-sensitive employees. Random testing identifies those who are using drugs or misusing alcohol but can use the predictability of other testing methods to escape detection. More importantly, it is widely believed that random testing serves as a strong deterrent against employees beginning or continuing prohibited drug use and misuse of alcohol at MVT. MV Transportation has developed procedures for notification and collection to best implement the requirements of the federal rules.

These procedures answer common questions regarding random testing: Who is tested? Why are only some individuals tested? When and how do the tests occur?

1. Random drug and alcohol testing applies only to safety-sensitive employees. Identification numbers for all safety-sensitive employees will be included in a selection pool.
2. Random drug and alcohol testing is accomplished by a scientifically valid, tamper-proof, computer-generated selection process. A random list for testing of employee numbers will be generated every month.
3. Employees are chosen in an unannounced, unpredictable manner. No employee will be removed from the random pool following the next selection, and every employee will continue to be subject to random selection throughout the year. Every employee in the random pool has an equal chance of being selected every time. Employees are only removed from the random pool when they are in rehabilitation programs, terminated or permanently transferred to a non-safety-sensitive position, or expected to be out for at least 90 days or more.
4. Random testing will be conducted on all shifts, all times of day, and all days of the week throughout the calendar year. No shift is exempt from testing.
5. Random drug testing may be conducted concurrently with random alcohol testing or at any time during an employee's shift. Random alcohol testing will be conducted just before the employee is scheduled to perform a safety-sensitive function, while the employee is performing safety-sensitive functions or just after the employee performs a safety-sensitive function. The employee must proceed to the test site immediately after being notified that he or she has been selected for testing in the allotted time given.
6. For both Maintenance and Operations (Drivers) the Divisional Manager in each location will be notified which employees have been selected for testing. Once an employee is notified of his/her selection, he/she must report immediately for the test. Failure to report after notification constitutes a refusal to test**.** (see procedures for random test notification)
7. Employees will be notified where to report for collection, when to stop work and report to the collection site and who will relieve them, if necessary.
8. The employee must submit to a drug and/or alcohol test. Failure to cooperate with the collection procedure in any way constitutes a refusal to test which has the same consequences as a positive test result.

9. The employee is in a paid status throughout the random testing procedure. Employees will be removed from duty if the results are positive **and employee will be terminated.**
10. If both alcohol and drug tests are being given, the breath alcohol test will be performed first. Immediately thereafter, the urine sample will be collected for the drug test.
11. If there is a confirmed breath alcohol test of between .02% and .039% (inclusive), the employee will be relieved from duty immediately for a minimum of eight (8) hours.
12. If there is a confirmed positive breath alcohol test (.04% or above), the employee will be given the name of a Substance Abuse Professional (SAP) **and terminated.**

Procedures for Random Test Notification

1. The Human Resource Department triggers the selection list of the month's safety-sensitive employees to be scheduled for testing.
2. The local manager will review work schedules, including planned absences when known, to develop a best available time to perform the tests. The local manager will coordinate the testing schedule with the collector.
3. In developing testing times, the goal will be to minimize the impact in service. Testing will be conducted using the following priority periods:
    - Before work,
    - During split time,
    - After work/shift is completed
    - During work, with standby personnel relief.
4. During work, without relief (if no other time is possible).
5. Notification of Employees- The Human Resources Department triggers notification to each location's designated employer representative (DER) via electronic mail. The DER will notify each safety-sensitive employee selected and thus notified. Each employee who is selected is to report to the test site immediately

The employee cannot "go off sick" or on vacation or leave of absence after notification.

6. Collection site personnel shall report "unreasonable delays" to the local DER as employees are required to immediately report to the collection site following notification. Failing to report to the collection site within a reasonable allotted time constitutes a refusal to test.
7. The DER shall confirm with the Regional, Divisional, or Operations Manager that the employee was notified.
8. The DER shall notify the proper management official if an employee fails to report for testing after notification.
9. An employee who fails to report for testing shall be removed from duty immediately. If employee is determined to have "refused to test" he/she face the

same consequences as testing “positive” for drugs/alcohol and will be given the name and number of a SAP and **terminated from employment.**

Collection Procedures for All Tests

All collection procedures shall be performed in accordance with Part 40. Upon notification of a test under this policy;

1. The employee must report to the collection site immediately after notification.
2. The employee shall provide photo identification to collection site personnel. Supervisors will verify the identification of employees without photo identification and may photograph the employee if necessary.
3. The employee must comply with all collection procedures.
4. The employee must follow the directions of the collection staff to ensure that an unadulterated urine specimen is collected, and/or the breath alcohol test is completed.
5. The employee will be in a private enclosure and unobserved unless a direct observed collection is determined to be needed by the MRO, the local DER, or the collector.
6. The employee must supply at least 45 ml of urine (approx. 1 ½ oz). If the employee gives an inadequate amount of urine or if the employee is unable to give a sufficient urine sample collection site staff shall provide the individual with no more than 40oz of fluid to drink during a period of up to 3 hours. The employee will attempt to provide a complete sample using a fresh container. If the required amount is provided, the collection staff will continue with collection process. If the employee is still unable to provide an adequate specimen within three hours of the first unsuccessful attempt to provide the specimen, the collection staff must discontinue the collection, note the facts on the “remarks” line of the CCF, and immediately notify the DER.

   Shy Bladder - The term “shy bladder” refers to a situation when the employee does not provide a sufficient amount of urine (45 ml) for a DOT required drug test. If an employee tells the collector, upon arrival at the collection site, that he or she cannot provide a specimen, the collector must still begin the collection procedure regardless of the reason given and direct the employee to make the attempt to provide the specimen.

   The employee must be monitored during this time. If the employee leaves the collection site or refuses to make the attempt to provide a sufficient urine specimen, this is considered a refusal to submit to a test.

   Failure to produce a sample of urine will result in an immediate referral for an evaluation from a licensed physician within 5 days who can determine in his or her reasonable judgment the safety-sensitive employee’s inability to provide an adequate amount of urine. If no medical reason is found substantiating an inadequate sample, the incident will be treated as a “refusal to test” and will carry the same consequences as a positive test result.

It is MVT's policy that any employee who does not provide a valid specimen during a collection for a test will remain off duty until the employee is cleared from the MRO that the employee had a valid medical reason.

7. If the employee fails to provide an adequate amount of breath for the breath alcohol test, a second attempt will be made. If the Employee, after multiple attempts, fails to produce a sample, the Breath Alcohol Technician (BAT) shall so note in the "Remarks" section of the breath alcohol testing form and immediately inform the DER. The DER will instruct the employee to obtain, as soon as possible but within 5 days after the attempted provision of breath, an evaluation from a licensed physician who is acceptable to the employer concerning the employee's medical ability to provide an adequate amount of breath.
8. Whenever there is reason to believe that an individual has altered or substituted the urine specimen, a second specimen shall be obtained as soon as possible under direct observation of a same gender observer. Reasons may include; temperature of the specimen out of normal range, bluing agent in the specimen.

   Substituted Specimen- A specimen with creatinine and specific gravity values that are so diminished that they are not consistent with human urine.

   Adulterated Specimen- A specimen that contains a substance that is not expected to be present in human urine, or contains a substance expected to be present but is at a concentration so high that it is not consistent with human urine.
9. If the breath alcohol screening is 0.02 or greater, the breath alcohol technician will wait at least 15 minutes and a maximum of 30 minutes before administering the confirmation test. Even if more than 30 minutes have passed the BAT will still conduct the confirmation test.
10. To ensure that the test results are attributed to the correct covered employee; both specimen bottles must be sealed and labeled in the presence of the donor. The labels must be printed with the same specimen identification number as the custody control form and are attached to the specimen bottles. The donor initials the labels on the vials verifying that the specimen is his or hers.

Reasonable Suspicion Testing Procedures

1. Supervisors and managers receive training to identify behaviors that might be indicators of drug use and/or alcohol misuse. Training includes the procedures for how to deal with employees suspected of drug use and/ or alcohol misuse.
2. If a supervisor observes an appearance, behavior, speech pattern, or body odor of the covered employee that might be indicative of drug use and/or alcohol misuse, he/she directs the employee to stop work and escorts the employee to an area to be questioned and observed in private.
3. The supervisor completes the Reasonable Suspicion Incident Report. The

supervisor must ensure that the employee does not continue to operate in a safety-sensitive function after identified for reasonable suspicion testing.

4. If there is a decision to test based on observable symptoms, the employee is ordered to submit to a drug and alcohol test and is escorted to the collection site.
5. The employee is on paid status until the test collection is completed. **Employee will remain off duty until a negative drug and alcohol test is received**. To the greatest extent possible, arrangements shall be made to have him/her transported home and employee should not be allowed to leave on his/her own recognizance.
6. If there is a confirmed breath alcohol test of between .02% and .039% (inclusive), the employee will be relieved from safety-sensitive duty immediately for a minimum of eight (8) hours. If there is a confirmed positive breath alcohol test (.04% or greater) and/or confirmed positive drug test, or refusal to test, the employee shall be provided the name and number of a SAP and the employee **will be terminated**.
7. If the employee's drug test is confirmed negative by the MRO and/or the BAT test is below 0.02 the employee will be allowed to return to work and will be paid for any time missed.

Post-Accident Testing Procedures

The FTA regulations require testing for prohibited drugs and alcohol in the case of certain public transportation accidents. Post-accident testing is mandatory for accidents where there is a loss of life and for other non-fatal accidents.

1. The supervisor ensures that all injured people receive proper medical care. Nothing in this section shall be construed to require the delay of necessary medical attention for the injured following an accident or to prohibit a covered employee from leaving the scene of an accident for the period necessary to obtain assistance in responding to the accident or to obtain necessary emergency medical care.
2. The supervisor determines whether the accident meets FTA criteria using MVT's "Post Accident Decision Checklist Form".
3. If the accident meets the FTA/DOT criteria a DOT post accident drug and alcohol test will be conducted immediately. The employee will be taken to the collection site and tested as soon as practicable following the accident. The employee should remain readily available for alcohol testing up to 8 hours and for drug testing up to 32 hours after the accident, including notifying his/her supervisor of his/her location or he/she may be deemed to have refused to submit to testing if he/she does not make him/herself readily available for testing.
4. **Once the tests have been completed the employee will remain off duty until a negative drug and alcohol test is received.**
5. If the employee is not tested within two hours for alcohol, the supervisor must document the reason for the delay, and if test is not conducted in 8 hours, the DER shall cease all further attempts and update the records as to the reason(s)

why the test was not completed. If the 32 hours have passed the DER shall cease all further attempts to complete the drug test.

6. If the employee refuses to be tested, or the breath alcohol test is .04 or greater, or if the drug test is confirmed positive, the employee is immediately removed from duty, the Sap will find them the qualified SAPs closest to their area and **will be terminated.**

Post -Accident Testing Criteria

It should be noted that a post-accident test is given because the incident meets the criteria listed below. It is NOT a probable cause or reasonable suspicion test. An accident (§ 655.4) is defined as an occurrence associated with the operation of a vehicle in which:

1. An individual dies.
2. An individual suffers a bodily injury and immediately receives medical treatment away from the scene of the accident.
3. With respect to an occurrence in which the public transportation vehicle involved is a bus, van or automobile, one or more vehicles incurs disabling damage as the result of the occurrence and is transported away from the scene by a tow truck or other vehicle. For purposes of this definition, "disabling damage" means damage which precludes departure of any vehicle from the scene of the occurrence in its usual manner in daylight after simple repairs.

   (Inclusions) Disabling damage includes damage to vehicles that could have been operated but would have been further damaged if so operated.

   (Exclusions) damage which can be remedied temporarily at the scene of the occurrence without special tools or parts, tire disablement without other damage even if no spare tire is available, or damage to headlights, tail-lights, turn signals, horn, or windshield wipers that makes them inoperative.
4. With respect to an occurrence in which the public transportation vehicle involved is a rail car, trolley car, trolley bus, or vessel, the public transportation vehicle is removed from operation.
5. The FTA has determined that **"LIFTS"** constitute equipment used in revenue service and their operation is essential to the operation of the vehicle and protection of public safety, their operation shall now be included in the accident definition.

To determine if a test should be administered under this section, always use MV Transportation's "Post Accident Decision Checklist". This form should be used for all accidents in determining whether a test will be done under DOT authority.

MVT is required to ensure that all covered employees receive at least 60 minutes of training and discussion on the effects and consequences of prohibited drug use on personal health, safety, and the work environment, and on the signs and symptoms that may indicate prohibited drug use. The information below shall assist in providing statistics and examples of substance abuse in the work force and the signs and symptoms of such use.

A study conducted showed 75 percent of illicit drug users 18 and older are employed, which amounts to about 10 million U.S. workers. On a daily basis, based on 250 work days in a year, at least 42,000 Americans are coming to work stoned or are getting "high" while on the job.

Studies and statistics show that:

1. Every 23 minutes a death occurs as a result of a drug or alcohol related accident.
2. A typical abuser is:
    a. Late to work 3 times more often
    b. Requests twice as much time off
    c. Is absent 2 1/2 times more than average
    d. Uses 3 times as many sick benefits
    e. Collects 5 times as much worker's comp
    f. Has 300% higher medical costs/benefits

If these statistics haven't convinced you that the problem is serious, let's look at a few more.

A national survey once reported that:

1. 19% of all children over the age of 12 had used some type of illegal drug
2. 65% of 18 to 25-year olds had used some type of illegal drug
3. 30 to 40 million Americans stated they had used cocaine
4. By age 17, 70% of American teenagers had tried alcohol

As you can see, drug and alcohol abuse is a serious problem, having a major effect on all our lives. Even though you may not be abusing drugs or alcohol, you are affected by the results of drug and alcohol abuse in our society. You pay higher medical costs to help cover the costs for abusers who cannot afford the cost of treatment. You pay higher insurance costs to help fund the drug and alcohol abuse programs paid for by insurance companies. The material and services you buy cost more because of decreased worker productivity, as well as increased cost to employers.

This section is designed to provide you with a brief overview of the seriousness of using controlled substances and alcohol. It also provides education on the signs, symptoms and effects of the illicit drugs that you will be tested for. Your employer has taken great measures to assure you of a safe working environment. Please review this booklet in its entirety to educate yourself on drug and alcohol in the workplace. When you have completed reading this material, you will better understand the need for a drug-free workplace.

The drugs for which you will be subject to testing include:

- Amphetamine
- Cocaine
- Marijuana
- Opioids
- Phencyclidine (PCP)
- Alcohol (by evidential breath testing device only)

Facts about Amphetamines

Amphetamines (methamphetamine, MDMA-ecstasy) are central nervous system stimulants. They tend to make people "hyper" and "jumpy". They can be taken either orally or injected. They are often used by people to stay awake and to counteract the effects of drowsiness. They are especially dangerous to take while performing safety-sensitive tasks or driving.

Ecstasy, MDMA (3,4 methylenedioxymethamphetamine), is a synthetic, psychoactive drug that is chemically similar to the stimulant methamphetamine and the hallucinogen mescaline. MDMA causes an increase in serotonin which plays an important role in the regulation of mood, sleep, pain, appetite, and other behaviors.

Some heavy MDMA users experience long lasting confusion, depression, and selective impairment of working memory and attention processes. Ecstasy users make extremely dangerous drivers. They can exhibit the same impairments as amphetamine, heroin, cocaine, and hallucinogen users.

Signs and Symptoms of Amphetamine Use

- Hypersensitivity
- Exhaustion
- Dilated Pupils
- Grinding teeth
- Loss of appetite and immediate weight loss
- Dry mouth
- Excessive talking

Effects on Person

- More likely to take risks
- Impaired judgement

Facts about Cocaine

Cocaine also stimulates the central nervous system. It gives the user an intense feeling of well-being, or euphoria, known as a "high". The "high" will last for 10 to 60 minutes. A more potent form of the drug called "crack" cocaine is especially addicting and dangerous. Although it's "high" lasts only about 5 to 8 minutes, "crack" cocaine can be addicting after only one use, and cause death the first time it is used. Cocaine can be injected, snorted, or free-based. Snorting is sniffing the drug up the nose, and free-basing is done by heating the drug and inhaling the vapors.

Signs and Symptoms of Cocaine Use

- Mood swings
- Weight Loss
- Restlessness: Difficulty sitting or standing in one place
- Depression
- Nose bleeds
- Irritable**,** angry, nervous, angers easily
- Bad breath
- Euphoric feeling
- Running nose, uncontrollable sniffing

Effects on Person

- Slowed reaction time
- Distorted vision and depth perception
- Slow to make decisions
- Unable to correctly measure time and distance

Facts about Marijuana

Marijuana is a depressant and mind-altering drug. Marijuana does not depress the central nervous system's reaction, it works on the brain. Mind altering means it causes hallucinations. It can be eaten or smoked. Street names for marijuana are "dope", "grass", "joint", "hash", or "hooch".

Tests have shown that people's reflexes and thought processes are slower under the influence of marijuana. The effects of this drug are longer lasting than first thought. In fact, impairment can last more than 24 hours after using marijuana. The body actually stores the drug for days, weeks, and in some cases, months, depending on the frequency of use.

Signs and Symptoms of Marijuana Use

- Dilated pupils
- Slowed reflexes
- Giddiness
- Slowed thinking
- Moodiness
- Trance-like state
- Impaired vision
- Reduced feeling of pain
- Odor of burning
- Short-term memory loss
- Loss of concentration
- Unable to sleep after prolonged use

Signs To Look For

- Cigarette rolling paper
- Dried plant material, either crumbled or pressed
- Roach clip (device to hold joint)
- Hash pipe (very small pipe)

Facts about Opioids

Opioids are classified as a narcotic analgesic. They tend to have a sedating, calming effect, and act as a depressant to the central nervous system. Opioids are more commonly known as morphine, codeine, hydrocodone, hydromorphone, oxycodone, oxymorphone, and heroin. Street names for Opioids are “junk”, “smack”, “horse”, and “brown sugar”. Opioids are prescribed by doctors to relieve pain, they can either be taken orally, injected or smoked. Some common names for these semi-synthetic opioids include OxyContin®, Percodan®, Percocet®, Vicodin®, Lortab®, Norco®, Dilaudid®, Exalgo®.

When the drug is injected, the user feels an immediate “rush”, usually followed by a very relaxed and soothing feeling. However, some Opioids can cause very unpleasant side effects such as nervousness, nausea, and restlessness, and if taken in excess, may cause coma or death.

Signs and Symptoms of Opioid Use

- Mental confusion

- Slured speech
- Unsteadiness
- Hostility
- Memory loss
- Drowsiness
- Excess talking
- Euphoria
- Depression
- Short attention span
- Cold, moist or bluish skin
- Reduced feeling of pain

Effects on Person

- Lack of concentration – Day dreaming
- Distorted sense of time and distance
- Distorted vision

Facts about Phencyclidine (PCP)

Phencyclidine, commonly called “Angel Dust”, is known as a dissociative anesthetic. Users of PCP may experience hallucinations and signs of intoxication. They may not be able to focus their attention or will experience confusion and lack of coordination.

Although PCP has immediate short-term effects, it is also known for its long-term effect of causing psychotic behavior often associated with violent acts. Other street names for PCP include “hog”, and “crystal”. PCP may be smoked, snorted or injected.

Signs and Symptoms of PCP Use

- Delusions
- Confusion
- Panic
- Increased blood pressure
- Anxiety
- Flashbacks

Effects on Person

- More likely to take risks
- Impaired coordination
- Aggressive actions

Facts about Alcohol

Alcohol is a socially acceptable drug that has been consumed throughout the world for centuries. It is considered a recreational beverage when consumed in moderation for enjoyment and relaxation during social gatherings. However, when consumed primarily for its physical and mood-altering effects, it is a substance of abuse. As a depressant, it slows down physical responses and progressively impairs mental functions.

Signs and Symptoms of Use

- Dulled mental processes
- Lack of coordination
- Odor of alcohol on breath
- Possible constricted pupils
- Sleepy or stuporous condition
- Slowed reaction rate
- Slurred speech

(Note: Except for the odor, these are general signs and symptoms of any depressant substance.)

Health Effects

The chronic consumption of alcohol (average of three servings per day of beer [12oz], whiskey [1oz], or wine [6oz glass] over time may result in the following health hazards:

- Decreased sexual functioning
- Dependency (up to 10% of all people who drink alcohol become physically and/or mentally dependent on alcohol and can be termed “alcoholic”)
- Fatal liver diseases
- Increased cancers of the mouth, tongue, pharynx, esophagus, rectum, breast, and malignant melanoma.
- Kidney disease, Pancreatitis, Ulcers
- Spontaneous abortion and neonatal mortality
- Birth defects (up to 54% of all birth defects are alcohol related).

Workplace Issues

- It takes one hour for the average person (150 pounds) to process one serving of an alcoholic beverage from the body.
- Impairment in coordination and judgment can be objectively measured with as little as two drinks in the body.
- A person who is legally intoxicated is 6 times more likely to have an accident than a sober person.

ACKNOWLEDGEMENT
OF
EMPLOYER'S DRUG AND ALCOHOL TESTING POLICY

I, _____, the undersigned, hereby
Print Full Name

acknowledge that I have received a copy of the anti-drug and alcohol misuse program policy mandated by the U.S. Department of Transportation, Federal Transit Administration for all covered employees who perform a safety-sensitive function. I understand this policy is required by 49 CFR Part 655, as amended, and has been duly adopted by the governing board of the employer. Any provisions contained herein which are not required by 49 CFR Part 655, as amended, that have been imposed solely on the authority of the employer are designated as such in the policy document.

I further understand that receipt of this policy constitutes a legal notification of the contents, and that it is my responsibility to become familiar with and adhere to all provisions contained therein. I will seek and get clarification for any compliance with all provisions contained in the policy. I also understand that compliance with all provisions contained in the policy is a condition of employment.

I further understand that the information contained in the approved policy dated April 1, 2018 is subject to change, and that any such changes, or addendum, shall be disseminated in a manner consistent with the provision of 49 CFR Part 655, as amended.

I hereby acknowledge that I have participated in and completed the required minimum 60 minutes of training on the effects and consequences of prohibited drug use on personal health, safety, and the work environment, and on the signs and symptoms that may indicate prohibited drug use in accordance with Part 655.14(b)(1) and in addition, to the training, this policy and handbook was reviewed.

I further acknowledge that I have been advised of the consequences for safety sensitive employees who violate the testing requirements.

9.2.c Federal Regulatory Agencies 48

2. System Safety Policy Statement

MV has developed this System Safety Program Plan (SSPP) with the goal of providing the safest transportation possible for its passengers and the safest work environment possible for its employees. Each department and division is directed and empowered to administer the SSPP and its specific activities for the prevention, control and resolution of unsafe conditions and actions.

MV's safety policy shall at all times be guided by the following principles:

- Safety is the responsibility of every employee
- The operating environment can be safeguarded
- Injuries and occupational illness can be prevented
- Preventing injuries and incidents is good business
- Management will train all employees to work safely

MV's management is responsible for providing leadership in promoting safety throughout the agency. Management will ensure that all employees are committed to the safety of MV's passengers, employees and property, as well as to members of the general public who use its transportation services. The management team will provide and maintain a safe and healthy working environment and follow practices to safeguard employees and other persons interacting with agency personnel, property and equipment.

Employees have a duty to carry out daily work assignments in a safe manner and maintain work areas in accordance with established departmental safety procedures. Employees are required to abide by all procedures relating to security and safety and must not engage in any conduct that poses a threat to themselves, other employees, the general public, or MV property.

The senior vice president of safety, the vice presidents of safety, the executive vice president of risk management and MV's Executive Safety Committee (ESC) have the responsibility to develop and implement programs to promote safe operations, reduce or eliminate accidents and monitor SSPP compliance and maintenance.

All managers and supervisors have the responsibility to develop, implement and enforce safety rules and procedures in their respective areas.

3. Introduction

3.1. Introduction

This document is the System Safety Program Plan (SSPP or Plan) for MV Transportation, Inc. and all subsidiaries, joint ventures, partnerships and affiliates, (or "MV").

System Safety is defined by the U.S. Department of Transportation as follows:

"The application of operating, technical and management techniques and principles to the safety aspects of a system throughout its life to reduce hazards to the lowest level possible through the most effective use of available resources."

This plan describes the MV system and provides a methodology for identifying hazards and implementing plans for their resolution. It establishes accountability for safety throughout the organization.

3.2. Policy Statement and Mission Statement

Mission Statement

"At MV Transportation, our Mission is to offer the safest, most cost efficient and effective passenger transportation services and solutions by continually providing quality customer service, consistently outperforming our competitors, producing profitable earnings and treating our employees as our most important asset."

Core Values

Customer Service Excellence: "We are dedicated to satisfying customer needs and honoring commitments that we have made to them."

Enthusiastic Customers: "Enhancing our reputation as a company that clients can rely on to deliver services and products so excellent in their quality and customer service so outstanding in its responsiveness, that MV will always be recognized for leadership in our industry."

Involved Employees: "Striving for a workplace where opportunity, openness, enthusiasm, diversity, teamwork, accountability and a sense of purpose combine to provide a rewarding professional experience that promotes fairness, dignity, and respect for all employees."

Accountability: "We accept responsibility for our actions. We make and support business decisions through experience and good judgment."

Integrity: "We act with honesty and integrity, never compromising the truth."

Respect: "We treat our team members, customers, partners and suppliers with mutual respect and sensitivity, recognizing the importance of diversity. We respect all individuals

and value their contributions. Our team is supportive of each other's efforts, loyal to one another, and caring for each other both personally and professionally."

3.3. Purpose

The purpose of the SSPP is to establish formal mechanisms to be used by all departments to:

- Identify hazards associated with MV's systems;
- Eliminate, minimize or control these hazards;
- Coordinate and establish system safety throughout the company; and
- Provide a leadership safety document that is fluid and changing with MV's operating environments.

The SSPP will be used as a means of preventing injuries, accidents and other losses. It demonstrates MV's commitment to safety and compliance through loss prevention programs. The plan is consistent with federal, state and local regulations, and assures that industry standards are maintained in accordance with the SSPP standards of the American Public Transportation Association (APTA) and the Federal Transit Administration (FTA).

3.4. Scope

The SSPP applies to all organizational units affecting or affected by MV's operations, planning, procurement, testing, operation and maintenance activities.

3.5. Goals

The goals of the SSPP are as follows:

- Identify, eliminate, minimize and/or control safety hazards and their associated risks
- Provide a superior level of safety in transit and student transportation operations
- Support the safety efforts of the clients MV serves
- Achieve and maintain a superior level of safety in the company's work environment
- Comply with the applicable requirements of regulatory agencies
- Maximize the safety of future operations through the procurement process

3.6. Objectives

The following objectives provide a means of achieving the SSPP goals and measuring the effectiveness of MV's safety initiatives.

- Establish safety policies, procedures and requirements that integrate safety into decision-making and operations

- Assign responsibilities related to safety policies, procedures, and requirements
- Thoroughly investigate all accidents, fires, injuries and near misses
- Identify, analyze and resolve all hazards in a timely manner
- Meet or exceed safety requirements in specifications, equipment installation, and system testing, operations and maintenance
- Meet or exceed safety requirements in vehicle operations and maintenance
- Evaluate and verify operational readiness of new contracts
- Minimize bus and van system modifications on company vehicles in the operational stages by establishing and utilizing safety controls at system procurement and design stages
- Thoroughly evaluate the safety implications of all proposed system modifications prior to implementation
- Establish doctrines, standards, and procedures for employee qualifications, selection, training and performance
- Establish doctrines, standards, and procedures for scheduling

3.7. Introduction and System Description

MV operates transportation services on behalf of transit authorities, cities, counties, state agencies, airports, private and corporate entities, and any other bodies that desire high quality, cost-effective transportation services. By remaining true to its core values, MV has become one of the largest transportation management firms in the United States.

3.8. MV as a Company

In 1975, Feysan and Alex Lodde formed an agreement with the City of San Francisco to provide transportation to persons with disabilities. They acquired three vans and pioneered transportation of persons with disabilities fifteen years in advance of the historic passing of the American with Disabilities Act into law in 1990. The company was incorporated in the state of California in 1978. In 2012, MV moved its corporate headquarters to Dallas, Texas.

MV's subsidiary company, Vallejo Citizens Transit Corporation (VCTC) was founded in 1956.

Paratransit

Operating more demand-based, reservation-based transportation experience than any other company, MV coordinates transportation services for multiple agencies and passenger groups in a manner that maximizes resources and controls costs. The company manages more than 100 demand-based transportation services programs across North America.

Fixed Route

MV operates fixed route, flex route, commuter bus, and shuttle services in North America. The company delivers a unique understanding of the nuances of fixed bus services and how to accommodate the varying needs of the riding public.

Pupil Transportation

Through its subsidiary company Reliant Transportation, MV offers safe, reliable operation and maintenance of student transportation systems. MV provides standard home-to-school services and special needs services, extracurricular activity trips, as well as traditional pupil transportation services.

3.9. Measures of Service

Typical Modes of Service: Demand Response and Fixed Route

Measure of Service Indicator Exposure

- Fixed route
- Public bus stops, shelters, transit centers owned and maintained by MV's clients
- Paratransit
- Door-to-door, curb-to-curb, other
- Multi-modal services
- Special trip requests
- Outside public domain
- Charter
- Others

3.10. Operations

MV's transit operations department includes operations, vehicle maintenance and safety and training.

Vehicle Maintenance

The maintenance department is responsible for the day-to-day revenue vehicle maintenance and cleaning at MV's operating divisions. They also maintain support vehicles. There is more detailed information about this in Section 5.

Safety and Training Group

The safety and training department supports the entire operation to ensure that workers are knowledgeable, skilled and always focused on safety. There is more detailed information about this in Section 4.

3.11. Scope of Services and Organizational Structure

MV's scope of services includes operation of paratransit vehicles, transit buses and a fleet of non-revenue support vehicles. These are explained in detail in Sections 3, 4, and 5.

3.12. Elements of MV Transportation's Plan

APTA recognizes 26 elements for a system safety program plan. MV's plan includes all the elements, below in APTA's order:

Element 1: Policy Statement and Authority for System Safety Program Plan

This is listed in Section 1.2 of the SSPP.

Element 2: Description of Purpose for System Safety Program Plan

This is listed in Section 1.3 of the SSPP.

Element 3: Clearly Stated Goals for Bus Safety Management Program

This is listed in Section 1.5 of the SSPP.

Element 4: Identifiable and Attainable Objectives

This is listed in Section 1.6 of the SSPP.

Element 5: System Description

This is listed in Section 2.1 of the SSPP.

Element 6: Control and Update Procedures

This System Safety Program Plan will be reviewed every two years and updated as needed by the senior vice president of safety and the executive vice president of risk management in consultation with the ESC and senior management. The SSPP committee, which is also called the ESC, will conduct reviews of all proposals for changes of the Plan. All proposed regulatory changes will be reviewed by the Committee and will be published as addenda to the SSPP.

If system changes occur, the senior vice president of safety, the executive vice president of risk management, the ESC chairperson and the committee will ensure that any changes outside a scheduled SSPP review are incorporated into the SSPP. Change bulletins may be issued within the two-year period, provided they are properly authorized by the committee and distributed throughout the company. The final decision of whether a change is issued as addenda or requires a revision and redistribution of the Plan lies with the senior vice president of safety, the executive vice president of risk management, the ESC committee chairperson and the committee.

Element 7: Hazard Assessment, Recognition, Evaluation and Control

Establish and maintain safe and healthful conditions by identifying hazards, evaluating their potential effects, developing ways to eliminate or control them and planning action priorities. MV uses numerous tools to recognize and evaluate hazards. Then, given the nature of the hazards identified, MV will take specific actions to control them.

MV's safety and training department is heavily involved in hazard evaluation and control. This department is responsible for conducting periodic occupational and operational inspections of facilities and equipment to identify hazards on a proactive basis.

All MV employees are responsible for hazard identification and reporting any potential hazards to their supervisor.

There is more information about this listed in Section 3.5.

Element 8: Accident / Incident Reporting and Investigation

This is listed in Section 4.3.

Element 9: Facilities Inspections (Systems, Programs, Equipment and Rolling Stock)

All operating facilities are subjected to periodic safety and maintenance program inspections/audits to ensure compliance with company policy and regulatory requirements. It is each general manager's responsibility to ensure ongoing inspections are conducted. It is the responsibility of each region's regional vice president to follow up on this audit task.

Facility inspections include monthly self-inspections, annual facility audits, preventive maintenance inspections, annual fire inspections and insurance underwriter inspections. MV's clients may also inspect the facilities. In many locations, MV's client provides the facility that MV occupies to conduct its business.

Annual Facility Audits – Each operating facility is subjected to a comprehensive audit by members of MV's corporate and regional maintenance and safety teams on an annual basis. Members of operations will also support this process by performing and documenting a monthly facility self-inspection. Standard inspection forms and photographs are used to document the condition of all major components at each facility. Components include foundations, substructures, superstructures, exterior closures, roofing, doors, walls, floors, conveyors, plumbing, electrical, and safety systems. These audits are used to prepare condition profiles that assist in planning and programming all maintenance repair and rehabilitation projects into annual budget plans.

Preventive Maintenance Inspections – Each operating facility has a scheduled preventive maintenance (PM) program that ensures the facilities and their equipment are inspected and serviced based on the manufacturers' recommendations. These inspections are performed by in-house staff and are typically on a quarterly basis. MV's client may incorporate additional inspection guidelines for those facilities that are client-owned.

Fire Safety Inspections – Each division is subjected to an unannounced fire inspection. These inspections are based on compliance with all jurisdictional fire and life safety codes.

Inspections are documented in the form of reports, with follow-up on any areas of identified weaknesses. These inspections should happen at least once per year.

Insurance Inspections – Each division is subjected to a scheduled inspection by MV's insurance provider on a recurring basis. Insurance inspectors conduct the inspections and provide written reports, documenting their findings and recommendations.

In addition to the above scheduled inspections, MV staff members conduct daily walk-through safety inspections at each operating facility. Transit centers and fixed route service bus stops are also subjected to routine safety and security inspections.

The goal of each of these inspections is to provide MV employees, the clients it serves and the riding public with safe, reliable, high-quality service at all of MV's locations.

External Audits – Audits of MV's local and corporate safety procedures and systems shall be used as directed by the vice president of safety.

Element 10: Maintenance Audits and Inspections

MV's safety compliance assessment involves the process of spot-checking maintenance documents such as DVI forms to find problems before they cause a negative situation. Each maintenance area performs internal inspections daily. There is more information in Maintenance Section 5.3. MV System Audits are covered in Section 8.2.

Element 11: Rules and Procedures Review

MV ensures that annual and biannual reviews and necessary revisions are performed for all safety rules/procedures or when a change in conditions may dictate such revisions. The ESC must approve any exceptions to this procedure.

The chief executive officer, the chief operating officer, the executive vice president of risk management and the senior vice president of safety must approve any exceptions to the Plan. The committee will make necessary changes to the Plan in accordance with the Procedures for Plan Revision found in Section 2.2, Element 6: Control and Update Procedures.

All safety rules and procedures in effect shall be reviewed and revised in accordance with any changes in all federal, state and local codes.

Element 12: Training and Certification Review and Audit

All MV training programs must be properly documented, regularly reviewed and updated as needed. Each training area must be reviewed and audited at least annually. All training will be reviewed to ensure it is being properly maintained and that employees are receiving required training. MV's safety and training department oversees this function. There is more information in Section 4.3.

Element 13: Emergency Response Planning, Coordination, and Training

MV, in conjunction with its clients has developed emergency procedures, drill procedures, and a drill schedule to conduct annual disaster and emergency response drills in each of its modes of transportation. Emergency procedures are available at each MV facility. These are covered in MV's System Security and Emergency Preparedness Plan (SSEPP).

Today's safety and health programs must address risks beyond the organization's walls. MV will develop contingency plans and "what-if" worst-case scenarios to plan for disasters, contractor activities and other liability exposures. These contingency plans will be practiced and modified as necessary to achieve optimum protection. MV will design and set up annual disaster and emergency training to ensure minimization of exposure. This is also covered in the SSEPP.

All MV bus operators and supervisors who are involved with the public must receive training in emergency operations and participate in emergency drills as part of their recurrent training. There is more information in Section 7.3.

Element 14: Process for System Modification Review and Approval

The SSPP was developed as a multidisciplinary document to identify, document, and coordinate the safety efforts of all personnel and all business units. During the process, dozens of documents, guidelines, manuals, policies and procedures were identified that outline the specific safety activities of various work groups. These items are identified as resource documents and are maintained, in most cases, in the department to which they are related.

As MV's operations, facilities, business, and legal environments change, it may be necessary to amend or add to this Plan. When such amendment or addition to the Plan is proposed, it will be presented to the ESC for review and analysis. Appropriate documentation, analysis and concurrence by all departments/divisions impacted by the change will be required prior to submittal to the ESC.

If it is determined to be a necessary and prudent change, the approval of the appropriate regional vice president will be obtained before submittal to the president for final approval and adoption.

Element 15: Safety Data Acquisition and Analysis

MV's safety professionals conduct proactive safety and health activities, including periodic inspections of facilities and other occupational health assessments. Other activities include record keeping, conducting injury/illness/incident investigations and performance reviews. MV's safety professionals collect and analyze this data in order to identify patterns and make recommendations. Complete and accurate records are used to identify hazards as well as measure improvements in safety performance. Communication of safety data is managed electronically and through commercially available software.

MV continually reviews policies, procedures, standards, legislation and other activities designed to monitor and improve performance in safety.

Element 16: Interdepartmental Coordination

MV has continuing verbal and written communication procedures in place to ensure interdepartmental and interagency coordination is occurring. Use of the SSPP will help to achieve an open line of communication throughout the company and its clients.

MV understands that its real assets are people, not machinery. Employees must recognize their stake in a safe and healthy workplace. Employees will be involved in planning, implementation and improvement. Solutions to safety and health problems will be solicited from affected employees. MV will ensure its employees contribute to safety and health objectives through safety committees and teams. The safety and training department will also maintain a safety hotline on the internal website for all employees to use.

Element 17: Configuration Management

MV provides change control for its operations and those of its contractors through the system design and control process described in Section 7.6 of this document.

MV requires, as part of contract specifications, documentation in the form of operations manuals and "as-built" drawings for new acquisitions and overhauls of any owned vehicle rolling stock, system equipment and facilities. As required, certified and qualified vendor trainers also provide training to MV and its clients. There is more information in the Configuration Management Section 5.5.

Element 18: Employee Safety Program and Training

New and transferred employees must become familiar with company policies and client procedures and learn how to perform their jobs safely and efficiently. MV uses on-the-job, classroom, and specialty training to contribute to a successful safety and health program. MV's program includes hazard recognition, regulatory compliance, and prevention. Training will be reinforced though regular follow-ups with both new and veteran employees. This document is also an integral part of the employee safety program.

Also as part of its employee safety program, MV will use general approaches to motivate employees and stress the role that visible management leadership plays in changing unsafe or unhealthy behaviors and attitudes. MV uses three motivational techniques on a regular basis: communication, incentives/awards/recognition, and employee feedback surveys.

Effective communication within the organization keeps employees informed about policies, procedures, goals, and progress. MV will spread the word about safety programs inside the company through the use of bulletin board notices, newsletters, meetings and other forums. Effective two-way communication between employees and managers is critical, as is publicizing safety information in the community, and these are the cornerstones of MV's safety and health programs.

Safety and health considerations are also important when planning for and staffing the company's work force. MV will research issues such as work safety rules, employee assistance programs, and requirements resulting from the Americans with Disabilities Act.

MV will comply with all laws and regulations, enhancing worker dignity, safety, health and productivity.

Element 19: Hazardous Materials Plan

MV has a hazardous materials management plan for divisions that must use alternative fuels and hazardous materials as part of their client requirements. This information is designed to assist local area Fire Departments in the event of an emergency. This document names an emergency contact position and lists the types and locations of chemicals stored at the facility.

Element 20: Drug and Alcohol Programs

MV has an extensive drug and alcohol program in place. MV's program goes beyond FTA guidelines and has zero tolerance for substance misuse. There is more information in the Drug and Alcohol Section 7.8.

Element 21: Contractor Safety Coordination

All contractor employees working on MV (or its clients') property must comply with all MV policies and procedures. If a contractor is not complying with the above requirements, MV reserves the right to terminate contractor operations until full compliance is achieved.

Element 22: Procurement

Operational safety and passenger safety are the highest priorities when defining vehicle and facility design requirements. Design criteria are established to ensure the equipment meets or exceeds all safety, flammability, and environmental requirements and meets all state and federal standards and regulations governing the specific equipment. MV's operations department works closely with all parties involved in any procurement.

Element 23: Alternative Fuels and Safety

MV has had a successful history of using alternative fuel vehicles when required by its clients. As a result, any safety and regulatory initiatives required in the use of alternative fuels have been met and followed by MV employees in support of MV's client needs. MV will continue to support the alternative fuel requirements of its clients on each individual contract.

Element 24: Operating Environment and Environmental Compliance

MV will ensure that its environmental compliance program covers compliance monitoring and contingency planning for emergencies. MV's program will include environmental management incorporating pollution prevention, waste minimization and source reduction. MV will track and provide all necessary documentation to ensure compliance with local, state and federal guidelines. The company meets individual client environmental requirements.

Element 25: Security

To emphasize the importance of security in all aspects of the organization, MV has established a set of security activities, which are documented in the System Security and Emergency Preparedness Plan (SSEPP). The overall goal of the security program is to maximize the level of security afforded to all passengers, employees and other individuals who come into contact with MV's services, as well as its vehicles and facilities.

To ensure that the SSEPP is successfully implemented, the senior vice president of safety and the group presidents are responsible for the direction and oversight of MV's security program for the purpose of providing safe and secure transit services. The plan complies with the Transit System Security Program Plan Guide (FTA-MA-90-7001-94-1).

Element 26: Internal Safety Audit Process (Assessments, Audits, and Evaluations)

MV will use a variety of evaluative tools to meet the needs of the organization, including self-assessments and voluntary regulatory assessments. Numerous resources will be accessed for conducting assessments, audits and evaluations, including the company's own internal staff such as regional vice presidents, safety vice presidents, and safety directors.

3.13. Paratransit Van and Bus System Service

MV provides paratransit and bus service to residents of more than 100 cities across the country. There is more information about MV's services in Section 1.2.

3.14. Operations

The operations department is responsible for managing and providing all MV operated transit service across the country. Some of the aspects of operations include:

- Providing paratransit and fixed route bus service for clients across the country;
- Leading and directing the operator and maintenance workforce;
- Monitoring service and the performance of bus operators to ensure that MV provides a safe, courteous, reliable and on-time service for the riding public;
- Providing evaluations of dial-a-ride service, routes, schedules, and facilities to determine the effectiveness of service and condition of amenities;
- Making route changes as needed at the request of clients;
- Coordinating two-way radio communication to all revenue and non-revenue vehicles, and receiving and relaying information to the proper sources to provide assistance and coordination for smooth service delivery;
- Monitoring bus services; and
- Coordinating special events planning and services in support of clients.

Safety

Road supervisors monitor service for safety, on-time performance, efficiency and compliance with operating rules. Ride checks also are performed periodically by supervisors to monitor operator performance.

Accident / Incident Investigation

Supervisors conduct the initial investigation and serve as an on-the-scene coordinator, which involves securing witness statements, documenting evidence, etc. Operations coordinates with the safety and training department on classification of all incidents concerning preventability. There is more information about this in Section 4.2.

Driver's Licenses – Physical Examinations – Drug and Alcohol Policy

Driver's license checks are conducted periodically. Motor vehicle reports are pulled annually for violations. Employees who have motor vehicle violations/convictions, DWIs, license suspensions or any other activity in excess of what MV policy allows are referred to appropriate managers for action. This function is now managed by risk management's operator qualification department out of Elk Horn, Iowa.

All employees receive a pre-employment drug test and are subject to random, post-accident, reasonable suspicion and return-to-work testing as defined in the MV Transportation Drug and Alcohol Policy. This program complies with all federal drug and alcohol testing laws and regulations for employees in safety-sensitive positions. The program is administered by the human resources department.

3.15. Maintenance

The maintenance division responsibilities focus upon the maintenance and repair of MV equipment, rolling stock, and facilities. These responsibilities include:

- Performing preventive maintenance inspections, corrective repairs, troubleshooting, campaigns and modifications, body shop repairs, vehicle servicing and cleaning of MV revenue and non-revenue rolling stock;
- Performing preventive and corrective maintenance of all MV mobile and portable radios, electronic fare boxes, surveillance equipment and fixed-end communications equipment for bus and paratransit operations where applicable;
- Maintaining and repairing operating facilities equipment, including all installed components and systems;
- Developing and implementing training programs for mechanics, supervisors and other maintenance personnel;
- Processing and administering all vehicle, equipment and facility warranties;
- Reviewing and monitoring consumable goods and services for contractual compliance to technical specifications and quality standards;

- Developing and implementing repair and maintenance procedures to ensure performance and service quality are optimized;
- Developing specifications, procedures, and requirements for the purchase, maintenance, and improvement of vehicles, equipment and facilities;
- Maintaining technical information related to the vehicles, equipment and facilities to ensure that assets are maintained in accordance with the manufacturers' recommended procedures; and
- Developing scope of work for construction and structural modifications to operating facilities and equipment performed through contractor liaison. Conducting oversight project management for operating facility and equipment modification construction contracts to ensure work is performed in accordance with engineering design specifications.

3.16. Systems Modifications

Proposed modifications often result from system observations, inspections, data analyses, hazard reports, accident investigations, and internal or external audits. Modifications may be proposed as a means of improving a system's efficiency, maintainability, and performance, or in order to eliminate or control hazards.

MV has established a formal system review and approval process to ensure that modifications do not negatively impact safety. The methodology used in addressing system modifications includes control, testing, and documentation (See paragraph 2.2, Element 17: Configuration Management).

4. Safety Activities – Executive Safety Committee

4.1. Introduction – Control and Update Procedures

The CEO and COO have delegated responsibility for implementing the SSPP to the senior vice president of safety and executive vice president of risk management. The senior vice president of safety oversees the safety and training department, which in conjunction with the risk management department monitors SSPP implementation and maintenance.

The safety-related activities of the ESC are described in this section.

4.2. ESC Description

The MV ESC will consist of presidents, vice presidents, directors and general managers within the various departments and divisions of MV that have been identified as having a need to serve on the committee. The areas represented on this committee include operations, maintenance, safety, information technology and human resources. The committee meets quarterly and is charged with reviewing and approving all company safety changes, affected system elements (facilities, equipment, etc.) and changes to the SSPP document. The committee members also are responsible for reporting information from their division safety subcommittees.

4.3. ESC Committee Chairperson and Chairperson Elect

The MV ESC elects the chairperson by general election vote from the committee members (to be approved). The committee chairperson will serve in the role as chairperson elect for the period of one year before assuming the role of chairperson. The committee chairperson is responsible for scheduling committee meetings, preparing agendas, requesting assistance from nonmembers and distributing ESC reports. The chairperson also is responsible for maintaining complete documentation of all ESC proceedings, including system modifications reviewed by the ESC. Responsibilities include providing administrative, coordination and analysis support for ESC activities. Reports from ESC members will be reviewed by the chairperson to ensure that required system safety activities are carried out. Reports of the committee activities will be issued quarterly to MV management. The chairperson will reside in their position for a period of one year. The chairperson elect will provide administrative support to the committee chairperson in their role.

4.4. ESC Member Responsibilities

All members of the ESC are responsible for participating in ESC meetings and assisting in its activities, as requested by the chair. During the scheduled ESC meetings, each member is to apprise the committee of any system safety issues, including proposed system modifications involving his or her department. The members will also report on the level

of compliance with system safety requirements, including those pertaining to inspections, tests, maintenance, certification, procurement, training, employee communication, accident and incident investigations and procedures.

4.5. Methodology to Achieve SSPP Goals

The methodology used in achieving SSPP goals and objectives involves having all MV personnel take into consideration the safety implications of their decisions and actions. It uses a proactive approach that stresses looking at systems and proposed modifications to these systems from a safety perspective before losses occur.

The SSPP attempts to accomplish this through the following five steps:

1. Gaining an understanding of system functions and interrelationships among systems
2. Identifying the critical elements and steps necessary to ensure that existing or planned systems achieve the desired level of safety
3. Establishing a process in which management controls are used to ensure these safety critical elements and steps are consistently carried out
4. Monitoring systems to ensure compliance with these requirements
5. Improving the process by reviewing the effectiveness of management controls in achieving the desired level of safety, and modifying safety critical elements and steps on a continuing basis

While these five steps describe the methodology of the SSPP, they also can be used at any level of the organization as a means of maximizing the safety of all systems. The ESC has a role in executing the functions necessary to carry out this methodology, as do all departments and divisions. Specific safety-related tasks of the ESC are as follows:

- Coordinate system safety activities of the company
- Meet to evaluate and resolve system safety issues that have not been resolved at the department level
- Conduct special meetings as necessary at the request of executive management
- Compile pertinent system safety data and perform analysis to identify and assess operational risk
- Assign its members, as well as other departments, tasks as necessary to address system safety issues
- Request other entities within the agency to provide system safety support, such as data acquisition and analyses, field and laboratory testing, experimentation, etc.
- Assist in the investigation of accidents and incidents as appropriate or requested by executive management or an ESC member
- Review maintenance records and failure reports and analyses to identify safety problems related to maintenance activities
- Perform analyses to identify safety problems related to maintenance activities

- Evaluate proposed system modifications from a safety perspective
- Upon request, evaluate hazard resolutions proposed by other organizational units
- Use Committee consensus to develop hazard resolutions
- Bring feedback from department subcommittees back to the ESC
- Report activities of the ESC to the MV board of directors as needed

4.6. Hazard Identification and Resolution Process (MIL - 882D)

The process of identifying and resolving hazards in the system is based on the FTA and APTA's adaptation of U.S. Military Standard MIL-882D. It involves three stages: Hazard Identification, Hazard Assessment and Hazard Resolution. A description of this process follows:

4.6.a Hazard Identification

Hazard identification is a process whereby an attempt is made to discover conditions in the system which, if not altered, have the potential to cause accidents, injuries or other losses. All employees are charged with the responsibility of identifying and reporting conditions that have the potential to cause accidents, injuries or other losses. These conditions may be found in the form of physical hazards, unsafe actions, and policies that create or fail to recognize hazards. There also may be certain employees who, through periodic field observations, review of incident and complaint data, and performance and complaint records, are identified as needing special counseling, retraining or re-assignment.

Potentially hazardous conditions also may be identified through other means, including those listed below:

- Reports from passengers and other individuals through contact with client customer service, field personnel or management personnel
- Reports from operators and other field personnel regarding hazards associated with agency vehicles, schedules, routes, policies and procedures
- Reports from maintenance personnel regarding equipment and facilities maintenance hazards
- Investigation and review of accidents and incidents by safety personnel
- Collection and analysis of accident statistics and risk management information systems data regarding safety, accident rates and claims reports
- Safety audits performed by knowledgeable system personnel
- Information, experiences and ideas from support departments
- Observations of facilities and operations in the workplace, including offices, by agency personnel

Conditions that have been identified as hazardous or potentially hazardous are reported to the department head and the MV ESC. The report may be made verbally or by use of a

Hazard ID Form. If the department has not been able to correct the condition within 30 days of receipt of the verbal or written report, the item is placed on the agenda of the next meeting of the ESC.

4.6.b Hazard Assessment

Hazard assessment involves determining whether assuming some or all of the risk associated with a particular hazard would be acceptable and whether corrective action is called for. It involves hazard severity, hazard probability and risk assessment.

Hazard Severity

Hazard severity is a subjective measure of the worst credible mishap that could be expected to result from human error, environmental conditions, design inadequacies, subsystem or component failure or malfunction, and/or procedural deficiencies. Using U.S. Military Standard MIL-882D, the ESC assigns one of four severity categories:

Hazard Severity Table

Category	Description
1 – Catastrophic	Death or system loss
2 – Critical	Severe injury, severe occupational illness or major system damage
3 – Marginal	Minor injury, occupational illness or system damage
4 – Negligible	Less than minor injury, occupational illness or system damage

Hazard Probability

The likelihood that a hazard will be experienced during the planned life expectancy of the system can be estimated in potential occurrences per unit of time, events, population, items or activity. The probability may be derived from research, analysis and evaluation of historical safety data. Hazard probabilities are ranked as shown in the following table:

Hazard Probability Table

Probability Level	Description
A – Frequent	Likely to occur frequently. Continually experienced in the fleet/inventory.
B – Probable	Likely to occur several times in life of an item. Likely to occur frequently in the fleet/inventory.
C – Occasional	Likely to occur sometime in life of an item. Likely to occur several times in the fleet/inventory.
D – Remote	Unlikely, but possible to occur in the life of an item. Reasonably expected in the fleet/inventory.
E – Improbable	So unlikely, occurrence is not expected. Unlikely to occur, but possible in the fleet/inventory.

4.7. Risk Assessment

After assessment of the severity and probability of a hazard, key departments and the ESC will use a standard analysis. A determination will be made regarding acceptance of the risk or taking corrective action. Risk assessment issues of significant impact will be submitted to the CEO and the COO. This procedure also will be followed if there are issues where there is a lack of consensus by the department involved and the ESC.

Risk Assessment Frequency / Severity Matrix

	Severity			
Frequency	**1 Catastrophic**	**2 Critical**	**3 Marginal**	**4 Negligible**
A – Frequent	1/A	2/A	3/A	4/A
B – Probable	1/B	2/B	3/B	4/B
C – Occasional	1/C	2/C	3/C	4/C
D – Remote	1/D	2/D	3/D	4/D
E – Improbable	1/E	2/E	3/E	4/E

Hazard Resolution

After the risks are assessed, a plan is developed for resolution. There are essentially four choices in the hazard resolution process, as shown in the Hazard Resolution Table below.

Hazard Resolution Table

Severity / Frequency	Resolution
1/A | 1/B | 1/C | 2/A | 2/B | 3/A	Unacceptable correction required
1/D | 2/C | 2/D | 3/B | 3/C	Unacceptable—correction may be required after review by CEO
1/E | 2/E | 3/D | 3/E | 4/A | 4/B	Acceptable with review by CEO
4/C | 4/D | 4/E	Acceptable without review

The following hierarchy is used to eliminate or control hazards in the system:

Design for Minimum Risk: Provisions are made in all designs for the identification and elimination of hazards through appropriate safety design concepts, such as fail-safe designs and redundancy. If the identified hazards cannot be eliminated, they are controlled through reducing the risk to an acceptable level.

Use of Safety Devices: Hazards that cannot be eliminated through design selection are reduced to an acceptable level of risk through the use of fixed, automatic or other protective safety design features or devices. The design provides for periodic functional checks of safety devices.

Use of Warning Devices: When neither design nor safety devices can effectively control an identified hazard, devices are used to provide timely detection of the hazard and to generate adequate warning signals. The application of these devices shall be designed to

minimize the probability of incorrect reaction to the warning by employees or other individuals.

Provide Special Procedures: Where it is impossible to eliminate or adequately control hazards through design, safety devices or use of warning devices, procedures and training are used to control the hazard. Precautionary notation is standardized and safety-critical tasks require certification through completion of MV-approved training courses.

When the ESC has reached a consensus, a recommendation is first presented to the chief operating officer. After approval, it is presented to the CEO. The CEO may accept, modify or reject the recommendation. If modified or rejected, the ESC is called into session for further review and recommendation. Upon final approval of the CEO, the resolution is placed into the hands of the responsible department for implementation.

4.8. Follow-Up

Follow-up of implemented resolutions is the responsibility of both the ESC and the involved department(s). Two primary methods are used:

- **Statistical Analyses:** Careful review of safety data, such as accident reports, claims, customer complaints, etc., should continue for an acceptable time period after the implementation of a hazard resolution. Comparison of "before-and-after" statistics also can provide confirmation.
- **Audits:** Auditing of the implementation resolution includes selective interviewing of involved parties, surveillance, blind studies, and the use of inspectors. If the resolution is not fulfilling the original objective or if implementation is inadequate, the ESC will be responsible for taking appropriate action.

5. Safety Activities: Risk Management, Safety and Training

5.1. Risk Management Department

The risk management department is responsible for the insurance program, claim management and third party contracts in MV. The risk management department also oversees the company's operator qualification files and maintains a file copy in Elk Horn, Iowa.

5.1.a Insurance Program

The purchase of commercial insurance is one of the risk-financing methods used by MV.

The risk management department is responsible for protecting the assets of the company through a systematic process of risk identification, assessment and evaluation of exposures and hazards that adversely affect members of the public, MV employees, and the company's property. Through risk identification and assessment, a determination is made of the probability and severity of potential losses. Safety and loss control programs are developed to modify and eliminate or reduce the risks of these exposures. Risks that cannot be eliminated or reduced to an acceptable level require financing through one of the following risk management techniques:

- Transfer of risk to third parties through contractual language and indemnification agreements;
- Transfer of risk through the purchase of commercial insurance; or
- Retention of risk through funded self-insurance programs.

Inspections of MV division facilities and fleet are carried out periodically by representatives of risk management and/or the safety and training department.

5.1.b Claims Management

The information developed during the administration and management of self-insured claims provides information to MV on the causes and contributing factors as well as the frequency and severity of accidents. This information is used by maintenance and operations personnel to identify areas of focus for safety education and training. The risk management data analyst enters safety and loss information into the risk management information system, which provides accessible and understandable loss data useful in the hazard identification process. This data is transferred over to MV's internal website for company management viewing.

Liability and workers' compensation reports are used in pinpointing critical safety concerns and areas in need of specific attention. Examples include losses by location/frequency,

claims by type of injury, losses ranked by total cost, losses identified by cause, and losses by division, department, location, route, etc.

Reports are distributed to management for use in determining problem areas or to identify certain individuals in need of specialized training. The systems safety section uses the reports to assist in analyzing safety trends and to monitor ongoing safety programs.

5.1.c Employee Work-Related Injuries

Employees involved in a work-related accident are required to report the accident to a department supervisor, who documents the accident using state-approved reporting forms. The claims adjuster classifies the type of accident before incorporating the claim into the administrative process.

MV has a formal return-to-work program, which encourages employees to return to work with restrictions in a modified duty assignment.

Reducing the frequency and severity of industrial accidents, through training programs, procedural changes or implementation of safety devices, is the joint responsibility of risk management and the affected division.

5.1.d Third Party Contracts

The risk management department reviews all contracts between MV and third parties to ensure that subcontractors have appropriate and adequate insurance coverage to protect the interests of MV, its employees and property, and clients that may be affected by the services provided by the subcontractor. Insurance requirements include, but are not limited to, general liability, workers' compensation, auto liability, and professional liability. MV requires Certificates of Insurance naming MV as additional insured to be received and approved prior to the beginning of subcontracted work.

5.2. Safety and Training Department

The safety and training department is responsible for all safety and training activities in transit operations.

Safety and training is involved in operations training program design and program implementation. Safety and training is responsible for ensuring all training program needs in operations are met and addressed. All new-hire bus operators are trained under safety and training's tutelage. Safety and training also works in partnership with human resources to ensure all special needs training is met for all operations employees.

Safety and training also is responsible for all safety activities as they relate to operations. This includes incident and injury reduction, employee health and welfare, and all safety-related aspects of public transportation.

The senior vice president of safety is tasked with leading the MV ESC and shares the SSPP oversight responsibilities with the executive vice president of risk management. Elections will occur in the future for new chairs of the committee. The committee chair position changes annually. There is more information about this in Section 3.2.

5.2.a Safety and Training Compliance Procedures

The following outlines the policies and procedures of the safety and training department, which reports through operations.

Operations Vehicle Incident Investigation

Employees are required to immediately report and document incidents and injuries, no matter how slight. Bus operators complete a written report on incidents and/or injuries occurring on or near the bus. These reports are to be filled out before leaving the incident scene.

Supervisors from the division location involved are called to every incident and assist in controlling the incident scene, securing witness statements and performing the initial investigation. All incidents are reported to the company's 24 hour hotline telephone number within a few minutes of occurring. If needed, an independent adjuster will be dispatched to the scene.

Local safety and training managers are notified of all incidents. Depending upon the severity of the incident, a safety and training manager may be dispatched to the scene. Upon arrival, the safety and training manager serves as the lead investigator at the incident scene. The safety and training managers are trained and certified in Bus Accident Investigation by the Transportation Safety Institute (TSI).

The directors of safety are responsible for determining the classification of incidents as preventable or non-preventable. This is done with the help and support of the division safety and training manager. If the division location general manager disagrees with the area safety manager's ruling, it is brought before the senior vice president of safety for the final determination. The final decision may be appealed by bus operators. The vice presidents of safety and senior vice president of safety review all appeals.

If the incident is classified as preventable, the employee's general manager or his/her designee will conduct an evaluation and make a decision regarding the appropriate corrective or disciplinary action. Such decision will be made within ten working days of receipt of notification on preventability. Guidelines for making these decisions are outlined in the MV Employee Handbook and Safety Policy S-1 "Incidents – Determining Preventability".

Additional Incident Investigation Process for Operations

The road supervisor is the first responder to investigate all reported incidents/accidents. Additional personnel may respond to provide investigative assistance depending on the

severity, including an assigned independent adjuster. The on-duty claims adjuster will be notified of all incidents classified as major events through the 24 hour hotline. All incidents, no matter how minor, will be called into the hotline immediately. A representative of senior management will respond to all fatality accidents and other catastrophic events.

Emergency medical services will be requested for any injured parties via the division or client dispatcher. The investigative team will coordinate its investigation with the investigating police agency and other MV personnel responding to the scene. The supervisor also will ensure that all parties directly involved will be identified (including potential witnesses) and contact information secured. The supervisor also will ensure that courtesy cards will be distributed and collected. The supervisor will ensure that comprehensive scene photographs are taken and that a scene diagram is prepared. Key measurements also are to be recorded. If a road supervisor is unable to respond, the operator must use the supplied incident kit that he or she carries. The operator will also be responsible for taking pictures at the scene with the supplied camera in the kit.

All MV personnel will be subject to a drug/alcohol screen in accordance with MV Transportation's Zero Tolerance Policy.

All MV vehicle operators involved in an incident will complete an incident report form while still at the scene. Documents, courtesy cards, photographic film, scene diagram, and any other investigative material will be sent to MV's risk management claims department. Copies also will be kept and held at the location division. The risk management division will archive the file on any incident reports and on all fatality incidents. The National Transportation Safety Board (NSTB) will be notified on all MV incidents meeting the reporting criteria.

Safety Ride Checks

Safety ride checks are used to monitor bus and van operator safety-related performance, including speed, compliance with traffic regulations, vehicle handling, and other safety-related factors. MV requires a ride check on each operator twice a year.

Operators will be selected for targeted ride checks based on DriveCam history, customer complaints, accident history, disciplinary history, or at the request of management or client.

5.2.b Training and Certification Programs

Training programs designed to increase safety awareness are developed and taught by safety and training personnel. Training is used as a regular part of recurrent training as well as in response to specific problems identified in audits, safety check rides, and statistical analyses. Types of training experiences include:

- **LLLC Defensive Driving Program:** Mandatory training for all bus and van operators that teaches defensive driving concepts behind-the-wheel.

- **Monthly Safety Meetings:** Mandatory meetings attended by driving personnel where instruction is offered on safe driving techniques, accident avoidance, customer relations, radio usage, and other safety-related topics.
- **Monthly Small Group Location Safety Meetings (LSC):** In this version of the safety meeting, employees are invited in small groups for discussion and problem resolution with topics selected by the supervisor. An example of this is tool box safety meetings for mechanics.
- **Personal Emphasis Safety Training (PET):** This training is custom-designed to address specific deficits in performance of employees. PET is accomplished with small groups of individuals, depending on the nature and severity of the identified safety problem(s). Identification is accomplished through audits, customer complaints, observation, or incident frequency.
- **Train-the-Trainer Behind-the-Wheel (BTW) Instruction Courses:** The safety and training department teaches a train-the-trainer course for all company BTW instructors. All BTW instructors must be certified to instruct operators.
- **TSI Bus and Van Training Certification:** All California BTW trainers must be certified by TSI's train-the-trainer instruction course. This is a four day course taught by TSI-certified instructors.

Other instructional events may include the use of safety videos played continuously in the ready rooms, DriveCam video counseling sessions, individual counseling during and after Safety Rides and Check Rides, and the following mandatory classes taught on an ongoing basis to employees. Some of the classes currently taught to bus operators are Customer Relations and Conflict Resolution, and the Ergometrics Passenger and Customer (START) Program.

5.2.c Employee Safety Programs and Training

The following outlines the safety and training department's responsibilities regarding employee safety programs and training:

- Oversee operations safety programs and activities;
- Oversee MV's safety training program;
- Submit recommendations to operations management to improve safety procedures and practices;
- Review training programs and documentation to ensure personnel receive comprehensive training and testing in safety areas;
- Ensure safety training for contractors and other non-MV personnel interfacing with sections of right-of-way in revenue service;
- Conduct safety studies as directed by the chief operating officer and group presidents;
- Investigate reported hazards;
- Review safety rules and procedures;

- Develop and maintain a statistical database for all operations safety records;
- Liaison with public safety agencies; and
- Liaison with its clients.

5.2.d Maintenance Safety Committee

The maintenance safety committee, a management/worker group, will meet regularly to discuss bus and bus maintenance safety issues. Issues that cannot be resolved are elevated to the MV ESC. (This committee has not yet been established but will be in the near future.)

6. Safety Activities: Bus/Van Transportation and Maintenance

6.1. Introduction

Service at MV is controlled by the operations department, which provides both bus/van and vehicle maintenance service facilities.

6.2. Operations Department

The operations department is responsible for providing all MV-operated bus and van maintenance services. The functional areas of the department responsibilities are bus operations and maintenance.

6.2.a Safety Rules and Procedures

The MV Employee Handbook defines rules and standard operating procedures and serves as the official handbook of MV for bus and van operators. Safety rules in procedures are covered in complete detail in the new MV Safety Culture Guide (under development).

6.2.b Safety Monitoring

Operations supervisors monitor bus and paratransit operations for safety, performance, efficiency, and compliance with operating rules. Ride checks and on-board evaluations are performed periodically by road supervisors and safety and training managers to monitor operator performance. All operators must have at least two ride checks a year.

6.2.c Accident / Incident Investigation

A road supervisor conducts the initial investigation and serves as an on-scene coordinator to secure witness statements, document evidence, etc. The safety and training manager coordinates with the director of safety for investigation of preventability. The company Incident Reporting Policy ensures consistency in reporting and follow-up company-wide.

6.2.d Safety Awards

The operations department conducts several award programs to encourage safe operating practices, including a national, regional and division Safe Operator Award, consistent with the National Safety Council Safe Driver Award Program. Awards are given for 1, 5, 10, 15, 20, and 25 years' safety record completion. A Professional Operator of the Year Award is also given at the division, regional, and national levels. A major criterion for this award is the avoidance of preventable accidents.

MV is developing a short term Safety Award Program for bus and paratransit operators. This short-term awards program recognizes operators that complete a quarter and year without preventable incidents.

6.2.e Drivers Licenses

MVR checks are performed annually. Driver's licenses are checked when operators check in with dispatch.

6.2.f Substance Abuse Program

Bus and paratransit van operators receive a pre-employment drug test and are subject to random, probable cause, and post-accident tests as defined in MV's Drug and Alcohol Policy and Procedures, in compliance with federal drug and alcohol testing laws and regulations for transportation workers in safety-sensitive positions.

6.2.g Maintenance Inspections

State Safety Inspections – Some MV maintenance facilities have technicians who are certified as State Safety Inspectors where this is required by state law. These individuals carefully monitor the expiration dates of the safety inspection stickers throughout their respective fleets and assure that all safety inspections are performed and documented in a timely fashion.

Preventive Maintenance Inspections (PMI) – All revenue, non-revenue, and off-road support equipment is subject to scheduled preventive maintenance inspection processes in accordance with the manufacturers' guidelines. The inspection processes afford the opportunity to proactively assure that MV's fleets are safe and well maintained. This is done to meet client contractual guidelines.

Post-Accident Quality Assurance Inspections – The maintenance department conducts formal post-accident inspections on MV vehicles when there is an indication that parts or vehicle system failure may have contributed to the accident. This is also supported by the safety and training department. Damage estimates are reported to the risk management department.

6.2.h Safety-Related SOPs

Maintenance personnel work with established safety-related SOPs, including Lock-Out/Tag-Out, hazards materials, and confined space procedures. Safety-related SOPs are developed by the safety and training department in cooperation with the maintenance department, and must be approved by management.

6.2.i Safety Manual

All maintenance employees will be issued an industrial safety manual (currently under development) applicable to the division to which they are assigned, through which they are instructed on the rules and regulations of MV shops that reflect the overall safety policies of the SSPP.

The manual addresses the following concerns: personal injury, hazardous material handling, personal protective equipment, housekeeping, tools, fire prevention, electrical (batteries) safety, welding, steam cleaning, painting, road calls, and material handling.

Employees must adhere to all standard procedures and posted signs and understand the safe practices and conditions of each job prior to starting the assignment. Questions regarding safety of maintenance personnel or MV property are referred to the employee's immediate supervisor.

6.2.j First Aid

Supplies are maintained in all MV shops. Shift supervisors are trained to follow specific procedures in case of employee injuries. Depending on the condition of the employees, the shift supervisor may either allow them to return to work after receiving on-site medical attention or have them transported to a medical facility.

6.2.k Industrial Incident Investigation

The safety and training department investigates and reviews industrial incidents. When necessary, changes or additions to procedures, special communications or supplemental training are initiated to prevent future incidents.

If identified hazards from this process are beyond the control of routine procedures, they are referred to the MV ESC. Any major incidents are also reported to the chief operating officer, group presidents, regional vice presidents, vice presidents of safety, and the senior vice president of safety.

6.2.l Equipment and Facility Inspection

Daily inspections include equipment rooms, air compressors and AC units. Safety equipment, such as sprinkler systems, fire extinguishers and security alarms also are checked on schedules.

Reports of hazards and inoperative equipment generate specific, prioritized work orders. Safety-related items are always top priority. If a safety-related, top-priority hazard requires a special order for parts or tools to correct the situation, special privileges exist for obtaining these items.

6.3. Interdepartmental Coordination as it Pertains to Operations

This program plan formalizes the establishment of lines of safety communications between the safety and training department, the risk management department and individuals designated as safety coordinators, or focal points in MV divisions and departments. The safety coordinators will be formally appointed and charged with the authority and responsibility to interface with on-site management. The person typically is the location or division safety manager.

In each facility, a safety-trained and qualified employee will be assigned safety responsibilities including but not limited to:

- Conducting and monitoring maintenance toolbox safety meetings;
- Assisting to verify adherence to safety policy and procedures;
- Assisting the safety department in audits;
- Completing the MV hazard forms;
- Functioning as a motivational safety force and an example for other employees in their department; and
- Reporting findings to the MV safety committee.

6.4. Configuration Management

Configuration control procedures will be followed to assure that changes to facilities, hardware, and operating and support systems are not made without the review of the new configuration, to ensure the modified system meets all approved safety standards.

The safety and training department will include elements of configuration control in the safety audits and reviews they conduct.

The MV maintenance department also plays a key role in configuration management. It is responsible for all aspects of configuration management for revenue and non-revenue rolling stock. These responsibilities include:

New Bus Purchases – A project manager (PM) is assigned to work with the client for each new bus purchase. This is typically the general manager assigned to that contract. The PM is responsible for coordinating, monitoring and controlling all aspects of the new contract and the ultimate equipment configuration. A formal review of MV's technical specifications (usually provided by its client) is conducted in the manufacturing plant of each new bus contract to promote and assure full understanding of the required vehicular configuration. This is usually done in support of the client MV serves. A first article vehicle is then produced, reviewed and approved as representative of all production vehicles to be built under the terms and conditions of the bus contract. MV's maintenance inspectors may visit the manufacturing plant to monitor the contractor's in-plant inspection and configuration management. Upon final inspection, release, and acceptance by MV's maintenance department a post-delivery audit shall be conducted of the bus equipment and

records to assure that the agreed-upon equipment configuration standards have been satisfied. MV's maintenance team conducts formal audits of the pre- and post-delivery processes.

7. Other Organizational Units

7.1. Safety Activities: Other Organizational Units – Introduction

General safety-related responsibilities for all MV personnel are as follows:

Department and Division Heads (Vice Presidents and Directors)

Responsible for the safety of their departments and divisions, including employees, facilities, equipment, operations, and services provided.

Operations General Managers

Responsible for the safety of their divisions, including employees, facilities, equipment, operations, and service provided. They are also responsible for evaluating and correcting hazards.

Supervisors

This position is responsible for the safety of their units, including employees, facilities, equipment, operations, and services under their supervision.

Employees

All MV employees are responsible for working safely and following established rules, procedures, policies and safe work practices.

All organizational units are responsible for hazard resolution as follows:

- Maintain a hazard identification and reporting system in each division that encourages employees to communicate unsafe conditions to management;
- Resolve hazards reported or identified through inspections, analyses, incident investigations, etc.;
- Use the process described in Chapter 3 for hazards and proposed system modifications as appropriate; and
- Follow up to ensure corrective actions are completed in a timely manner.

7.2. Human Resources Department

The human resources department is responsible for recruiting, compensation, benefits, employee relations, equal employment opportunity, training and development. In addition, the department is responsible for:

- Maintaining the drug and alcohol program;
- Labor relations;
- Uniform employee guidelines;

- Conducting training courses to promote professional development and safety; and
- Managing MV's Drug and Alcohol Policy and Procedures, including the administration of the drug/alcohol testing program listed in Section 7.8.

7.3. Business Development Department and Public Relations

The business development and public relations departments are responsible for sales, advertising and marketing, audio/visual graphics, website, promotional events and external communications. They are charged with finding and building new business for the company.

The department also plays a key role in providing safety-related information to MV's clients through advertising, fliers, posters and the news media. Dissemination of information to the news media includes providing details regarding accidents or safety-related incidents.

The safety aspects of MV's operations are a major part of the business development department's advertising and public information materials. The availability of MV's services and how to use them are topics explained in fliers, brochures and other publications.

The department helps coordinate public education efforts regarding safety around MV's services for the clients it serves.

7.4. Legal Issues

The risk management department works with its insurers to defend MV against all tort and workers' compensation claims, and defends MV in other areas. Some of risk management's legal coverage issues include:

- Monitoring legislation, regulatory and case information in order to ensure that MV's procedures are compliant;
- Notifying department vice presidents, directors and managers when liability or safety issues are identified in the course of case investigation or litigation; and
- Reviewing contract language in the use of subcontractors for MV's clients.

7.5. Procurement Handled by the Operations Department

Operational and passenger safety are the highest priorities when defining vehicle design requirements. Design criteria are established to ensure the equipment meets or exceeds all safety, flammability and environmental requirements, and meets all state and federal standards and regulations governing the specific equipment in effect at the time. Conditions covered in the contract specifications include verification of compliance, commencing with the design phase and periodic inspections and testing during the construction phase performed by qualified consultants. A thorough inspection and system testing is performed before the equipment is conditionally accepted.

The purchasing process begins with the preparation of a request that is submitted to operations management. Advance planning includes considering safety, technical, business, management, and other issues in controlling acquisition from inception to completion.

The procurement area of operations works in conjunction with the safety and training department purchasing personal protective equipment for employees, controlling chemicals and other hazards in the workplace, mandating safety requirements in specific contracts and requiring compliance from specific vendors and clients with MV's safety requirements.

Operations require the vendor to attach a Safety Data Sheet (SDS) with each hazardous chemical shipment in order for it to be accepted into MV's shops. Each maintenance facility must have an approved chemical inventory list available for employees with the hazard communication information containing SDS sheets. The maintenance department has a process of visually inspecting select parts, components and materials. Some of the responsibilities include:

- Ensuring the procurement process complies with established procedures for evaluating materials and products for use by MV;
- Developing, maintaining, and utilizing a list of hazardous materials and equipment;
- Enforcing procurement restrictions and other procurement procedures;
- Adhering to safety procedures related to hazardous substance acquisition, handling, labeling, storage, disposal, and record keeping; and
- Ensuring that subcontractors meet requirements related to the safety of MV employees, property, and the public.

Safety-Related Procurement Tasks Include:

- Establishing and maintaining a standard procedure for evaluation of all potentially hazardous materials with safety department personnel;
- Including safety performance standards on equipment specifications;
- Establishing procedures that require safety department coordination for identification and purchase of safety-critical/hazardous materials;
- Annually reviewing inventory requirements for defined safety-critical items;
- Reviewing and coordinating with risk management and safety and training departments as required for each proposed contract to determine any safety implications, including whether safety performance standards should be specified;
- Assigning responsibility for monitoring the safety provisions of each contract to the project manager/contracting officer, who will coordinate with the safety and training department; and
- Assigning responsibility for monitoring storage safety by inspecting housekeeping standards to identify slip, trip and fall hazards to improve the work environment.

7.6. Information Technology Department

The Information Technology (IT) department is responsible for application development and maintenance, database administration, computer operations, local and wide area networks, office automation, telecommunications, budgets and procurement, data security, computer inventory, and asset management. Also, the IT department is responsible for maintaining and updating the IT recovery plan, that provides procedures and instructions for dealing with emergency computer failure situations affecting MV data center operations.

8. Required Safety Doctrines

8.1. Understanding

The creation and maintenance of a safe and healthy working environment and the use of safe methods, practices and procedures are important objectives of MV. It is management's aim to see that MV's operations are conducted in a manner that will not endanger the well-being of its employees, patrons, community or the public.

Several written programs address safety requirements for all MV employees. The following section outlines the major safety initiatives and the referenced documents used to manage and maintain safe MV operations. A majority of the safety requirements for all employees can be found in the Industrial Safety Program (still being developed) and Employee Handbook.

8.2. Safety Training

This is listed throughout the SSPP under the various departments and divisions.

8.3. Fire Protection

Auditing of compliance to fire protection requirements will be accomplished through the use of emergency drills, inspections, incident investigations and periodic testing of fire protection and fire suppression systems. Training activities will be monitored for content and accomplishment.

Fire protection and life safety requirements for MV operations in all modes of transportation will be coordinated with the jurisdictional Fire Departments and County Fire Marshal's Office, emergency medical services and disaster preparedness groups. This will be in support of the division locations' client needs.

Agreements / Arrangements

Arrangements on fire and life safety equipment and procedures will be prepared by MV and approved by jurisdictional fire departments. This is also covered in the SSEPP (see below).

8.4. System Security and Emergency Preparedness Plan (SSEPP)

MV's System Security and Emergency Preparedness Plan provides a source of information outlining the overall policies to be used in implementing emergency operating procedures to ensure the safety of passengers, employees and fire/rescue personnel during emergencies involving MV client systems.

The System Security and Emergency Preparedness Plan (SSEPP) includes MV facilities, employees, subcontractors and guests. The SSEPP also covers issues associated with the public, terrorist activities and other bus emergencies. These plans ensure:

- Notification by MV of an emergency condition;
- Response of fire/rescue emergency services; and
- On-scene command and control and specific actions in an emergency situation.

This information is contained in more detail in the MV System Security and Emergency Preparedness Plan (SSEPP).

Inspections and Investigations

All new facilities will undergo pre-acceptance inspection by the safety and training department to ensure compliance with applicable codes and ordinances. This is typically performed by a director of safety. Current operational facilities and systems receive a formal fire and safety inspection once a year by MV safety personnel through annual facility audits. Incidents involving equipment, vehicles, and facilities will be investigated in conjunction with local fire departments and other appropriate agencies. The risk management department also coordinates and schedules annual loss-control inspections by insurance company representatives. All fire suppression systems undergo annual maintenance with the support of MV's clients.

8.5. Hazard Communication (HAZCOM)

MV has an ongoing hazard communication program, which is taught to all new employees who work with or could be exposed to chemicals in their work environment. All affected employees also receive annual training. The program is designed to inform employees about the following:

- The "Right to Know" and "Right to Understand" Laws;
- Workplace chemical lists;
- How to read and interpret information on labeling systems;
- How to read and interpret information on Safety Data Sheets (SDS);
- Physical and health hazards in the workplace;
- Protective measures, specific work procedures and personal protective equipment; and
- Methods and observations to detect the presence or release of a hazardous material.

8.6. Lock-out/Tag-out

MV has developed Energy Control Procedures also known as Lock-out/Tag-out Procedures. Training for these procedures is conducted initially for new employees and annually for existing employees. The written procedures outline the following:

1. Basic rules for using lockout and tag-out procedures;
2. Sequence of lock-out and tag-out system procedures;
3. Restoring machines or equipment to normal production operations; and
4. Procedures involving more than one person.

Details of the Lock-out Tag-out program are provided in MV's Lockout – Tagout Control of Hazardous Energy Program.

8.7. Environmental Management Program

From the identification of a transit need through the stages of project design, initiation and operation, environmental safety and compliance are primary considerations. MV uses a multidisciplinary approach to environmental safety and compliance that supports all aspects of existing operations as well as the future. MV is committed to the principles and practices of environmental responsibility and strives to make decisions that are based on an understanding of environmental consequences, and to take actions that protect, restore and enhance the environment.

8.8. Drug and Alcohol Program

MV has adopted a comprehensive drug and alcohol policy. As mentioned in the human resources Section 6.2, the human resources compliance director is responsible for administering this program.

MV developed its drug and alcohol misuse program to promote the safety of its patrons and employees by encouraging a drug-free workplace and by undertaking affirmative measures to deter and detect the use of illegal drugs and alcohol misuse in the workplace.

The policies and procedures conform to the drug and alcohol regulations of the United States Department of Transportation's (DOT) Federal Transit Administration (FTA) and are intended to accomplish the objectives of those regulations. The policy identifies employees subject to testing, testing requirements, prohibited behavior, consequences of positive results, and resources for employee assistance and rehabilitation. MV also has extended the policy beyond FTA guidelines to Zero Tolerance.

Participation by covered employees in MV's prohibited drug use and alcohol misuse program is a condition of employment. Supervisors must not permit a safety-sensitive employee to perform his/her job function if the employee has violated any provision of the policy.

Covered Employees

All employees who perform safety-sensitive functions for MV are subject to the drug and alcohol testing provisions set forth in the FTA regulations. The four categories of safety-sensitive functions are as follows:

Brief Description

- Revenue vehicle operations (in or out of service)
- Revenue vehicle and equipment maintenance
- Revenue vehicle control/dispatch
- CDL/non-revenue vehicle operations

Circumstances for Testing

FTA requires that drug tests be given to safety-sensitive employees in the following circumstances:

- Pre-employment (new hires/employees transferring from non-safety-sensitive functions to safety-sensitive functions and employees who have not performed a safety-sensitive function for 90 consecutive days (regardless of reason)
- Reasonable suspicion
- Post-accident
- Random

8.9. New Systems Design and Control Safety Procedures

Verification of compliance with safety requirements contained in the specifications is accomplished by using coordinated reviews of contractual documentation, system design reviews, assessment of failure modes and criticality analyses, fault-free analysis, and preparation of test results. During this verification effort, adherence to configuration control and other appropriate management procedures are also assessed.

Procurement of new systems such as facilities, equipment, buses, vans, and non-revenue vehicles will include safety requirements in specifications, design reviews, testing, configuration control, and periodic safety evaluations. Most of the time, MV will procure equipment at the request of its clients.

8.9.a New Systems User Requirements

It is the responsibility of the department drafting the specifications for the equipment, system, or facility to assure that safety requirements are included in procurement specifications. Requirements for safety review of new systems or system modifications are included in a subsection of this plan. Consideration is given to the following:

- Compatibility with the safety features, design and procedures of existing MV systems usually taken over at the request of its clients;
- Initial staff training for new systems and new divisions;
- Avoidance, elimination, or reduction of identified safety hazards by design change, safety devices, and parts or materials selection;

- Location of equipment components so that access by personnel during operation, maintenance, repair, or adjustment activities do not require exposure to hazards such as electrical shocks, burns, sharp edges or points, and dangerous or toxic materials;
- Design to minimize severe damage to equipment or injury to personnel in the event of an incident; and
- Provision of suitable warning and caution notes in instruction for operation, assembly, maintenance and repair, and distinctive markings for personnel protection on hazardous components, equipment, and facilities.

8.9.b New Systems Safety Design Review

Safety design reviews are an integral part of all acquisition processes for MV facilities, systems, and equipment. Safety design reviews must be conducted to assess the compliance of facility or equipment design with specified safety requirements and to ensure that the safety of existing MV equipment is not degraded by the addition of new divisions, facilities, or equipment. Safety reviews are normally carried out as an integral part of MV's operations pre-service inspections.

8.9.c New Systems Specifications

Basic safety and user requirements will be included in procurement specifications and coordinated with appropriate staff. As a new facility, new division, system or equipment change specifications are proposed, responding subcontractors will be required to resolve hazards in accordance with MV-established order of precedence:

- **Design for minimum hazard.** The major effort during the design phase of a contract is to select appropriate safety design features such as fail-safe and redundancy.
- **Safety Devices.** Hazards that cannot be eliminated through design must be reduced to an acceptable level through the use of appropriate safety devices.
- **Warning Devices.** Where it is not possible to preclude the existence or occurrence of a hazard, devices must be employed for the timely detection of the condition and the generation of an adequate warning signal.
- **Special Procedure.** Wherever it is not possible to reduce the magnitude of an existing or potential hazard through design or the use of safety and warning devices, the development of special procedures to control the hazard is required.

Subcontractors who provide systems, subsystems or equipment that affect safe movement of vehicles (bus, van, and other services) or passenger/employee safety, are required to establish and maintain a safety program in accordance with MV that defines objectives, tasks, procedures, schedules and data submittals for the safety activities that will be performed by the subcontractor.

Acceptance testing must include procedures that assess compliance with the safety requirements of the procurement specification during substantial completion.

8.9.d New Systems Acceptance Testing and Inspection

Inspections of new facilities and installation of equipment occur upon completion of acceptance testing. Completing inspections of goods, services, and facilities ensure they conform to purchase requirements, terms, and conditions prior to acceptance.

8.9.e New Systems Configuration Management

Configuration management requirements will be included in major contracts, to assure that changes to the design of equipment and facilities are adequately documented and approved by MV.

8.9.f Construction Safety Plan

This defines construction safety functions and responsibilities and other construction safety requirements such as safety equipment, documentation, and safety personnel. All subcontractors working for MV should comply by submitting and having a Construction Safety Plan.

8.9.g Drug-free and Alcohol-free Workplace Policy

All MV subcontractor personnel in safety-sensitive positions must comply with this policy.

9. Updates, Audits and Regulatory Agencies

9.1. Implementation / Revisions

9.1.a Updates

The SSPP will be updated every two years or upon demand if warranted.

The MV ESC will take prime responsibility for implementation of any revisions. The ESC also will assess the effectiveness of the SSPP, develop and propose changes and solicit internal and external review.

Events which may require revision include the following:

- Service changes;
- New or retrofitted equipment or vehicles;
- New facilities;
- Organizational changes and reassignment of functions; and/or
- Changes in safety policies, goals and objectives.

The assigned document control person of the ESC will distribute controlled copies of revised pages, and recipients will return confirmation of receipt. Revision pages will include a revision number and date of applicability.

9.1.b Audits

An internal safety and audit program will be established and audits performed by the Systems Safety Section, to measure the effectiveness of the SSPP in achieving the objectives of the plan and compliance with its requirements. Program activities include the following:

- Ensuring adequate on-the-job safety surveillance during system maintenance, operation and modification;
- Determining compliance with management safety policies as contained in the SSPP;
- Determining compliance with operating rules, regulations, standards, codes and procedures; and
- Recommending specific corrective action plans to eliminate or minimize the effects of any deviations from compliance.

9.1.c Audit Responsibilities

Regional vice presidents and general managers will be responsible for conducting the audits with the help of the safety and training department. The safety and training department

helps provide the independent nature of the audit process, as other organizational units are primarily involved with implementation of the audit items. Other organizational units are required to cooperate with the audit.

9.1.d Audit Schedule

Audits will be announced in advance by the CEO or COO to ensure the full support and participation of each department. An audit of a division will be conducted at a minimum of every two years.

The audit may include the use of unannounced inspections and spot audits as determined by the CEO or COO, group presidents, regional vice presidents, and the MV ESC.

9.1.e Audit Content

The following functions will be addressed in the audit:

- Facility inspections;
- Maintenance audits and inspections;
- Manpower and staffing;
- Rules and procedures;
- Training and certification;
- Emergency response planning, coordination and training;
- Safety data acquisition and analysis;
- Interdepartmental and interagency coordination;
- Configuration management;
- Employee safety programs;
- Hazard materials programs;
- Drug and alcohol abuse programs; and
- Procurement.

A list of specific items to be audited will be developed in advance, including checklists that address both quantitative and qualitative aspects of performance. Organizational units will be given time to produce documentation related to checklist terms.

9.1.f Follow-Up / Action Plans

Departments and other organizational units are responsible for implementing their respective approved recommendations and action plans within the established time frames.

9.1.g Documentation

The safety and training department, operations, and IT through MV's internal website will maintain audit documentation, including reports to the CEO, COO, group presidents and regional vice presidents and to individual divisions or departments.

9.1.h External Safety Audits

Periodic external audits may be required by local, state and federal agencies. The general manager of the corresponding division will coordinate the scheduling of such audits.

9.2. Regulatory Agencies

The following are the major local, state, and federal agency interfaces that affect safety for MV:

9.2.a Local Regulatory Agencies

The local interfaces are specified with all member clients regarding operations, maintenance, and emergency planning and response activities.

9.2.b State Regulatory Agencies

The individual states are responsible for developing and enforcing environmental regulations regarding air, water and noise pollution, and hazardous materials regulations. MV will comply with each state's needs.

9.2.c Federal Regulatory Agencies

The Department of Transportation (DOT) issues regulations affecting transit operations including those related to the Americans with Disabilities Act (ADA) and drug/alcohol testing of employees.

The Federal Transit Authority (FTA), a division of DOT, is responsible for federal funding (capital and operating) of transit authorities and oversight of those expenditures. The FTA also compiles safety data on all transit agencies.

The Occupational Safety and Health Administration (OSHA) is responsible for developing and enforcing federal regulations related to workplace safety, including maintenance shops, offices and field activities which serve as guidelines to the MV operations. MV is regulated by OSHA and is required to follow OSHA guidelines and all standards incorporated by reference in the Code of Federal Regulations.

The Environmental Protection Agency (EPA) is responsible for developing and enforcing federal regulation related to air, water and noise pollution, and hazardous materials regulation.

The National Transportation Safety Board (NTSB) is an independent federal agency responsible for investigating transportation accidents and making recommendations to prevent similar accidents from occurring.

Subject:	Certified DBE Owned Businesses sought for project in Okaloosa County, FL

October 24, 2018

Via - Email

Project: ITN TS 77-18 Public Transportation Services
Owner: Board of County Commissioners of Okaloosa County, FL
Bid Date: 10/31/2018

Dear Business Owner:

MV Transportation, Inc. is proposing on the above-referenced projects as a prime consultant and would appreciate letters of interest from DBE firms who are currently certified with the Florida Department of Transportation Business Enterprise for the following services:

Uniforms

We anticipate the total provider fleet will contain more than 25 vehicles that will operate transit services in Okaloosa County and the surrounding areas. The RFP documents are available from our office or from the Okaloosa County directly.

PLEASE NOTE: YOU MUST BE CERTIFIED WITH FLORIDA DEPARTMENT OF TRANSPORTATION TO BE AN ELIGIBLE VENDOR FOR THIS PROJECT. Should you need any assistance in determining your DBE status or obtaining certification, please immediately contact the Florida Department of Transportation. If you require additional advice and/or assistance in this process, obtaining bonds, lines for credit, or insurance required by the Okaloosa County or MV, please feel free to contact me at Logan.McLeod@mvtransit.com

MV Transportation is an Equal Opportunity Employer, and as a matter of policy, encourages the participation of Disadvantaged Business Enterprises. If you are interested in participating in this project, please submit a copy of your DBE certificate and a brief company bio to Sherita Moeser, Administrative & Compliance Assistant at 707-655-4334 (fax) or Sherita.Moeser@mvtransit.com.

Sincerely,

Logan McLeod
Director, Business Development

Project: ITN TS 77-18 Public Transportation Services
Owner: Board of County Commissioners of Okaloosa County, FL
Bid Date: 10/31/2018

Dear Business Owner:

MV Transportation, Inc. is proposing on the above-referenced projects as a prime consultant and would appreciate letters of interest from DBE firms who are currently certified with the Florida Department of Transportation Business Enterprise for the following services:

Uniforms

This is an open-ended request, meaning after the date mentioned above, we will still accept letters of interest from interested DBEs. We anticipate the total provider fleet will contain more than 25 vehicles that will operate transit services in Okaloosa County and the surrounding areas. The RFP documents are available from our office or from the Okaloosa County directly.

PLEASE NOTE: YOU MUST BE CERTIFIED WITH FLORIDA DEPARTMENT OF TRANSPORTATION TO BE AN ELIGIBLE VENDOR FOR THIS PROJECT. Should you need any assistance in determining your DBE status or obtaining certification, please immediately contact the Florida Department of Transportation. If you require additional advice and/or assistance in this process, obtaining bonds, lines for credit, or insurance required by the Okaloosa County or MV, please feel free to contact me at Logan.McLeod@mvtransit.com

MV Transportation is an Equal Opportunity Employer, and as a matter of policy, encourages the participation of Disadvantaged Business Enterprises. If you are interested in participating in this project, please submit a copy of your DBE certificate and a brief company bio and a letter of interested to Sherita Moeser, Administrative & Compliance Assistant at 707-655-4334 (fax) or Sherita.Moeser@mvtransit.com.

Sincerely,

Logan McLeod

We are going to complete the form they provided.
Sherita will continue the GFE that she has begun.
Sherita will run an add in the 3 papers asap.
Sherita or I will contact Richard from Blue Goose to provide a DBE Letter of Intent/DBE Affidavit with the required language from the Add.
We are stating in the proposal that GF efforts have begun and will be ongoing.

Logan will also be contacting the client for further clarification on the specific DBE goal and who the agencys DBE Coordinator is since I was unable to locate on the countys website or in the RFP.

Thanks,

Subject: RE: Addendum 5: Okaloosa County - DBE

We need to know what the goal is. They do not specify in addenda 5, so Logan would have to call to see what the actual goal is and see if we only use JCM if it meets the goal.

If they do not meet the goal, then we would have to hope that our GFE is accepted.

If someone went to the prebid.
I can send two you solicitations out and hope they accept the "open ended" option in our selections.

Hello Richard,

Would you be able to provide us a letter on your stationary titled Letter of Intent/DBE Affidavit for the Okaloosa bid? Very similar to what you have provided us in the past (attached). We just need to make sure your letter states that it is serving as a letter of Intent and has the language from item 4 below:

3. An original **DBE Letter of Intent** (see below) from each DBE listed

4. An original **DBE Affidavit** (see below) from each DBE stating that there has not been any change in its status since the date of its last certification.

Could you get this to us by COB today? Please let me know if you have any questions.

Thanks so much!

October 24, 2018

Dear Mr. McLeod:

Let this serve as our intent to perform. Our company is very interested to be the supplier of uniforms that would be required by MV Transit for the performance of services for the contract listed above. We are certified as a DBE in Florida. There has been no change in our business ownership or status since our last DBE certification.

If you have any questions, please feel free to call me.

Sincerely,

Tony Cornejo

No worries, I am sorry for the miscommunication.

We would purchase bus driver uniforms for the project below. If you are interested or would like more information, please let me know. We would need a letter of interest on your company's letter head. I can send you more info on the requirements of the letter.

Just let me know, thank you!

Project: ITN TS 77-18 Public Transportation Services
Owner: Board of County Commissioners of Okaloosa County, FL
Bid Date: 10/31/2018

Dear Business Owner:

MV Transportation, Inc. is proposing on the above-referenced projects as a prime consultant and would appreciate letters of interest from DBE firms who are currently certified with the Florida Department of Transportation Business Enterprise for the following services:

Uniforms

We anticipate the total provider fleet will contain more than 25 vehicles that will operate transit services in Okaloosa County and the surrounding areas. The RFP documents are available from our office or from the Okaloosa County directly.

PLEASE NOTE: YOU MUST BE CERTIFIED WITH FLORIDA DEPARTMENT OF TRANSPORTATION TO BE AN ELIGIBLE VENDOR FOR THIS PROJECT. Should you need any assistance in determining your DBE status or obtaining certification, please immediately contact the Florida Department of Transportation. If you require additional advice and/or assistance in this process, obtaining bonds, lines for credit, or insurance required by the Okaloosa County or MV, please feel free to contact me at Logan.McLeod@mvtransit.com

MV Transportation is an Equal Opportunity Employer, and as a matter of policy, encourages the participation of Disadvantaged Business Enterprises. If you are interested in participating in this project, please submit a copy of your DBE certificate and a brief company bio to Sherita Moeser, Administrative & Compliance Assistant at 707-655-4334 (fax) or Sherita.Moeser@mvtransit.com.

Sincerely,

Logan McLeod

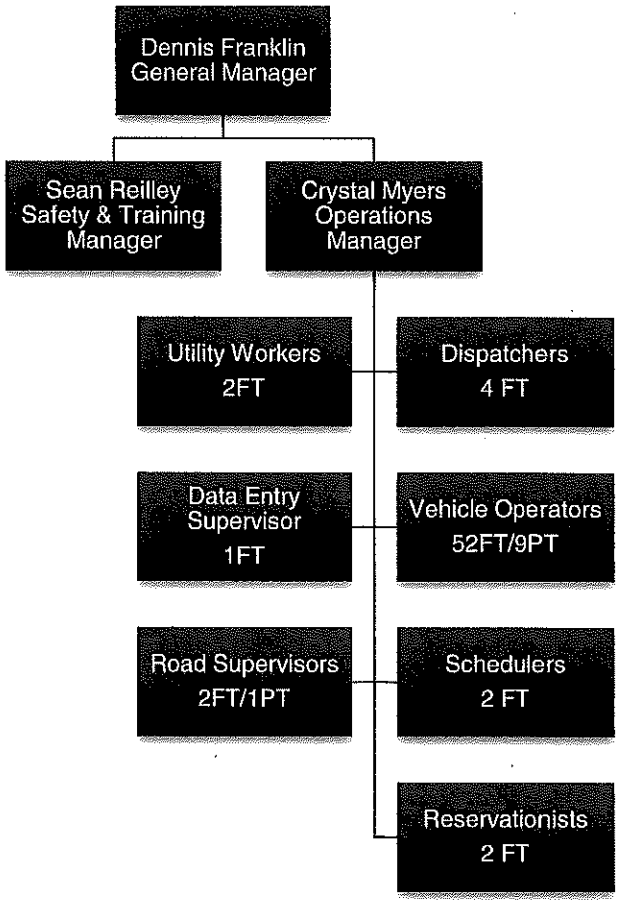
Notes:

1. Rates above will be charged for emergency transportation services
2. Fixed route alternate service includes costs for Syncromatics AVA, APC, and LED signage

EXHIBIT "C"

Local Organizational Structure

Our local management team for Okaloosa's public transportation services will be led by our proposed general manager Dennis Franklin, operations manager Crystal Myers, and safety and training manager Sean Reilley. This tenured team brings a wide range of skills and transit operation experience, giving them the ability to handle any disturbance to the route quickly and efficiently.



MV understands a dedicated, long-term general manager is crucial to the success of this important service. If awarded, MV's proposed general manager Dennis Franklin is excited for the possibility of leading the team in serving the County. However, MV understands, if the County determines MV's choice for general manager is performing unsatisfactorily anytime, MV is prepared to replace the general manager with an interim or permanent manager who is approved by the County.

MV will train potential backup managers as replacement should the need arise and will be prepared to decrease interruption risks and to ensure service quality stays consistent. With this same goal, MV will cross train employees with training additional to their current position so that if ever needed, one staff member can fill in for another easily without interruption.

MV is pleased to propose the following management team for the County's public transportation operation. Please see our proposed local management team's resumes following this section.
