I believe that is the 5311/rural grant so it can only be charged to 70544/534410 (program income).

Subject: RE: Pay Request for Maruti

Okay, I do understand the information you provide below.

However, 701841 will be overspent in its entirety balance is presently $50,791.24 and this pay request as coded $51,144.62 a deficit of $353.38.

Please provide where you would like the deficit coded (this way a journal entry to correct after the fact can be avoided), we will edit the face of the pay request accordingly.

We will await Elliot's response regarding the amendment to further process, thank you.

Janet,

Please see attached. When you add up the numbers allocated to 701542, 701543, and 70544 on your grant worksheet, they do not match the totals allocated on the contract pay request. When you look at how you have allocated to these grant departments on the fixed route invoice, it does not match how you have allocated to the grant departments on your grant worksheet. Please provide a correction to either the grants worksheet, or the fixed route invoice.

I have also included markups on the TD invoice. The calculations were off a bit, but the total being charged to 701648 is still $42,415.

Please provide me with either a corrected grants worksheet, or a corrected fixed route invoice, depending on how you would like to allocate the amounts to the grant departments. This may change how the totals are allocated on the face of the contract pay request as well.

Please also confirm if you would like for me to correct the TD invoice as shown in the attached.

Thank you,
Ashley

Mindy, I just spoke with JD on this. Please pay the invoice based on the FY17 reimbursement rate. Make a note to ensure that when the amendment and direction for FY18 payment is finalized, any over/under payment, if applicable, is adjusted for at that time.

Elliott, as I'm sure you agree, it's critical we get this amendment updated as soon as possible. The Clerk's office will do whatever we can to help but we have got to get this vendor's relationship on the right path.

Thank you, Elliot.

Is an amendment in the works to update FY 18's rates? Should one be in the works?

I will await upper management's decision on this subject.

Subject: Pay Request for Maruti

Good afternoon,

I am in receipt of the October invoice/Pay Request for Maruti Fleet Management.

According to the contract, per amendment #2, the billable rate of 33.54 was for FY 17.

How should FY 18 billable rates be handled? Is there an amendment for the FY 18 billable rate?

Is there language in the contract or a clause that we have overlooked?

Please advise.

Thank you,
Mindy
